DHBC
Dental Hygiene
Board of California

Friday and Saturday, March 27-28, 2025
DHBC Board Meeting Materials
(Full Board and Committees)

CALIFORNIA DEPARTMENT OF CONSUMER AFFAIRS
BUSINESS, CONSUMER SERVICES, AND HOUSING AGENCY • GAVIN NEWSOM, GOVERNOR
DENTAL HYGIENE BOARD OF CALIFORNIA
2005 Evergreen Street, Suite 1350 Sacramento, CA 95815
P (916) 263-1978 | F (916) 623-4093 | www.dhbc.ca.gov

Notice is hereby given that a public meeting of the
Dental Hygiene Board of California (DHBC) will be held as follows:

DHBC BOARD AND COMMITTEE MEETING AGENDAS

The DHBC welcomes and encourages public participation in its meetings. The public may take appropriate opportunities to comment on any issue before the Board at the time the item is heard.

Meeting Dates and Times

Friday, March 27, 2026, and Saturday, March 28, 2026
9:00 a.m. until Adjournment

The DHBC will conduct the meeting in person, via WebEx teleconference for interaction, and Webcast viewing through the DCA portal listed below.

In Person Meeting Location

DHBC Headquarters Building
2005 Evergreen Street
1st Floor Hearing Room
Sacramento, CA 95815

Instructions for WebEx Meeting Participation

The preferred audio connection is via telephone conference and not the microphone and speakers on your computer. The phone number and access code will be provided as part of your connection to the meeting. Please see the instructions attached hereto to observe and participate in the meeting using WebEx from a Microsoft Windows-based PC. Members of the public may, but are not obligated to, provide their names or personal information as a condition of observing or participating in the meeting. When signing into the WebEx platform, participants may be asked for their name and email address. Participants who choose not to provide their names will be required to provide a unique identifier, such as their initials or another alternative, so that the meeting moderator can identify individuals who wish to make a public comment. Participants who choose not to provide their email address may utilize a fictitious email address in the following sample format: XXXXX@mailinator.com.

For all those who wish to participate or observe the meeting, please log on to the website below. If the hyperlink does not work when clicked on, you may need to highlight the entire hyperlink, then right click. When the popup window opens, click on "Open Hyperlink" to activate it, and join the meeting.

To participate virtually in the WebEx meeting on **Friday, March 27, 2026**:

Access code: 2481 294 8270
Passcode: 3422327

To participate virtually in the WebEx meeting on **Saturday, March 28, 2026**:

Click Here to Join Saturday Meeting

Or copy and paste the link text below into an internet browser:
https://dca-meetings.webex.com/dca-meetings/j.php?MTID=ma1b3d498e6ce264891fdbf849b6991ad

If joining using the link above:

Webinar number: 2493 510 2595
Webinar password: DHBC328

If joining by phone:

+1-415-655-0001 US Toll
Access code: 2493 510 2595
Passcode: 3422328

The meeting will be webcast, provided there are no unforeseen technical difficulties or limitations. To view the webcast, please visit Live Webcasts – Department of Consumer Affairs (thedcapage.blog). The meeting will not be cancelled if webcast is not available. Meeting adjournment may not be webcast if it is the only item that occurs after a closed session.

Members of the Board

President – Joanne Pacheco, RDH Educator Member
Vice President – Sonia "Pat" Hansen, RDH Member
Secretary – Naleni "Lolly" Tribble-Agarwal, RDH Member
RDHAP Member – Michael Long
Dentist Member – Dr. Sridevi Ponnala
Public Member – Dr. Julie Elginer
Public Member – Nicolas Kiet Quach
Public Member – Sherman King
Public Member – Unappointed

The DHBC welcomes and encourages public participation in its meetings. Please see public comment information at the end of this agenda.

The DHBC may act on any item listed on the agenda, unless listed as informational only. All times are approximate and subject to change. Agenda items may be taken out of order to accommodate speakers and to maintain a quorum. The meeting may be cancelled without notice.

AGENDA

Friday, March 27, 2026, at 9:00 a.m.

1. **FULL Board Meeting:**

FULL 1. Roll Call & Establishment of a Quorum.

FULL 2. Public Comment for Items Not on the Agenda.

[The DHBC may not discuss or act on any matter raised during the Public Comment section that is not included on this agenda, except whether to decide to place the matter on the agenda of a future meeting [Government Code sections 11125 & 11125.7(a).]

FULL 3. President's Report.

FULL 4. Department of Consumer Affairs Report on Departmental Activities.

FULL 5. Dental Board of California (DBC) Report on Matters of Interest to DHBC.

FULL 6. Presentation from the Attorney General's Office on their DHBC Annual Report.

FULL 7. Recess the Full Board Meeting Until Saturday, March 28, 2026, at 9:00 a.m.

Committee Meetings:

2. Education Committee (EDU) Meeting:
(After conclusion of the Full Board meeting)

EDU 1. Roll Call & Establishment of Quorum.

EDU 2. Public Comment for Items Not on the Agenda.
[The DHBC may not discuss or act on any matter raised during the Public Comment section that is not included on this agenda, except whether to decide to place the matter on the agenda of a future meeting [Government Code sections 11125 & 11125.7(a).]

EDU 3. Presentation from the Dental Hygiene Educational Program Violation and Fine Rubric Taskforce; Discussion and Possible Action to Move Forward on Taskforce Recommendations.

EDU 4. Discussion and Possible Action to Approve a New Dental Hygiene Educational Program by Gurnick Academy of Medical Arts.

EDU 5. Discussion and Possible Action Regarding Potential Enforcement Action Against the Cabrillo College Dental Hygiene Educational Program.

EDU 6. Dental Hygiene Educational Program Site Visit Report.
(a) Pasadena City College
(b) Taft College
(c) Concorde Career College-San Diego
(d) Cerritos College
(e) Concorde Career College – Garden Grove
(f) Concorde Career College – San Bernardino
(g) Diablo Valley College
(h) Cabrillo College
(i) Dental Hygiene Educational Program Site Visit Schedule

EDU 7. Discussion and Possible Action to Create a Dental Hygiene Educational Program Taskforce to Address Minimum Student Requirements.

EDU 8. Discussion and Possible Action to Approve the November 8, 2025, Education Committee Meeting Minutes.

EDU 9. Proposal of Future Agenda Items.

EDU 10. Adjournment of the Education Committee.

3. Legislation and Regulatory Committee (LEG/REG) Meeting
(After the conclusion of the Education Committee Meeting)

LEG REG 1. Roll Call & Establishment of Quorum.

LEG REG 2. Public Comment for Items Not on the Agenda.
[The DHBC may not discuss or act on any matter raised during the Public Comment section that is not included on this agenda, except whether to decide to place the matter on the agenda of a future meeting [Government Code sections 11125 & 11125.7(a).]

LEG REG 3. Status of Dental Hygiene Board of California (DHBC) Regulatory Packages.

LEG REG 4. Discussion and Possible Action on 2025-2026 Legislative Bills of Interest and Legislative Calendar.

a) Assembly Bill (AB) 1952 Berman. Dentistry: dental hygienists: licensure.
b) AB 350 Bonta. Health care coverage: fluoride treatments.
c) AB 2140 Johnson. Healing arts: reports: claims against licensees.
d) Senate Bill (SB 1311) Wahab. Dentistry: dental assistants: infection control course.
e) Senate Resolution (SR) 82 Pérez. Relative to Children's Dental Health Month
f) AB 371 Haney. Dental coverage.
g) AB 873 Alanis. Dentistry: dental assistants: infection control course.
h) AB 966 Carrillo. Dental Practice Act: foreign dental schools.
i) AB 980 Arambula. Health care: medically necessary treatment.
j) AB 1130 Berman. Dentistry: outreach and support program.
k) AB 1232 Ávila Farías. Administrative Procedure Act: proposed regulations: cost of living impact on residents of the state.
l) AB 1307 Ávila Farías. Licensed Dentists from Mexico Pilot Program.
m) AB 1558 Arambula. Uniform Emergency Volunteer Health Practitioners Act.
n) AB 1563 Gabriel. Budget Act of 2026.
o) AB 1629 Haney. Dental Coverage.
p) AB 1696 Stefani. Department of Consumer Affairs: director: powers and duties.
q) AB 1717 Castillo. Medi-Cal dental reimbursement: house/extended care facility call.
r) AB 1760 Arambula. Dentistry
s) AB 2029 Sharp-Collins. Dentistry
t) AB 2504 Bauer-Kahan. Dentistry: licensure.

u) AB 2625 Solache. Dental Practice Act: foreign dental schools.
v) AB 2694 Alvarez. Public postsecondary education: community colleges: statewide baccalaureate degree program.
w) SB 879 Laird. Budget Act of 2026.
x) SB 1187 Durazo. Open meetings: majority.
y) SB 1390 Menjivar. Healing arts: standards for licensure or certification.
z) SB 1391 Wahab. Department of Consumer Affairs: retired category licenses.
aa) SB 1416 Wahab. Physicians and surgeons: dentists: unprofessional conduct.
bb) Tentative 2026 Legislative Calendar.

LEG REG 5. Discussion and Possible Action to Approve the November 8, 2025, Legislative and Regulatory Committee Meeting Minutes.

LEG REG 6. Proposal of Future Agenda Items.

LEG REG 7. Adjournment of the Legislation and Regulatory Committee.

<<Recess Open Session>>

Saturday, March 28, 2026, at 9:00 a.m.

4. FULL Board Meeting (Continued):

FULL 8. Reconvene Full Board Meeting – Roll Call & Re-Establishment of a Quorum.

FULL 9. Discussion and Possible Action to Approve the November 8, 2025, Full Board Meeting Minutes.

FULL 10. Executive Officer's Report.
- Personnel.
- Budget.
- Administration – EO Updates.

FULL 11. Discussion and Possible Action to Determine the November 2026 Meeting Date(s).

FULL 15. Discussion and Possible Action on Legislative and Regulatory Committee Report and Recommendation(s).

FULL 16. Enforcement Update: Statistical Report.

FULL 17. Licensing, Continuing Education Audits, and Examination Update: Statistical Reports.

FULL 18. Proposal of Future Agenda Items.

<<Closed Session>>

FULL 19. ***Closed Session – Full Board***

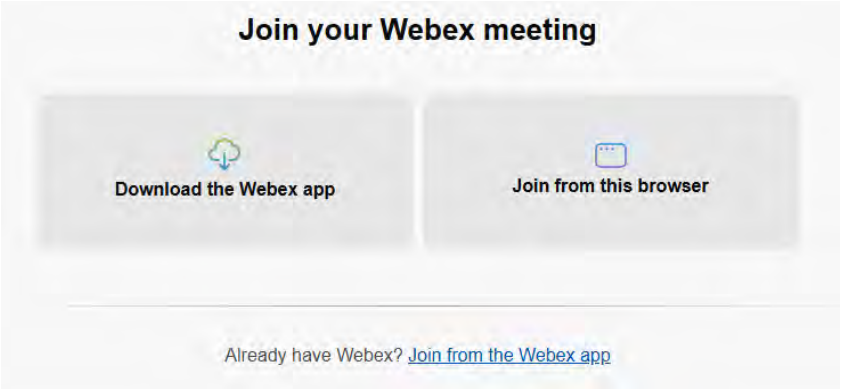
- Pursuant to Government Code Section 11126(c)(3), the Board will Deliberate on Disciplinary Actions and Decisions to be Reached in Administrative Procedure Act Proceedings. If there are no disciplinary actions and decisions to be addressed in Closed Session, it will be announced.

<<Return to Open Session>>

FULL 20. Adjournment.

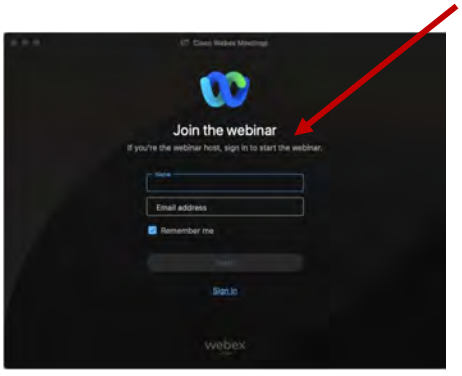
Public comments will be accepted on the agenda items at the time the specified item is raised. Government Code section 11125.7 provides the opportunity for the public to address each agenda item during discussion or consideration by the Board prior to the Board taking any action on said item. Members of the public will be provided appropriate opportunities to comment on any issue before the Board, but the Board President may, at his or her discretion, apportion available time among those who wish to speak. Individuals may appear before the Board to discuss items not on the agenda; however, the Board can neither discuss nor take official action on these items at the time of the same meeting [Government Code sections 11125, 11125.7(a).]

A person who needs a disability-related accommodation or modification to participate in the meeting may make a request by contacting the DHBC at 916-263-1978, via email at dhbcinfo@dca.ca.gov, or by sending a written request to 2005 Evergreen Street, Suite 1350, Sacramento, CA 95815. Providing your request at least five business days prior to the meeting will help to ensure availability of the requested accommodation.

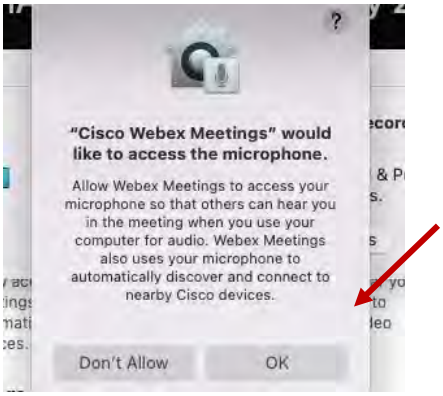


For further information about the meeting, please contact Crystal Yuyama at 916-576-5012, via email at dhbcinfo@dca.ca.gov, or mail at 2005 Evergreen St., Suite 1350, Sacramento, CA 95815 or our website at www.dhbc.ca.gov.

Recommended: Join using the meeting link.



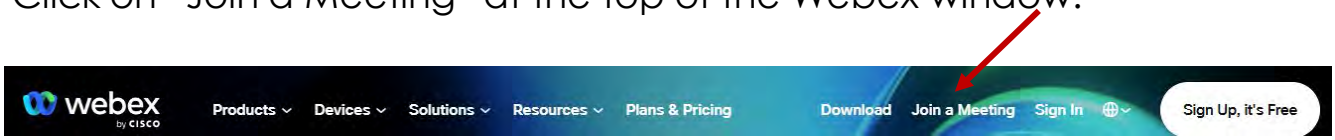
1. Click on the meeting link. This can be found in the meeting notice you received and is on the meeting agenda.

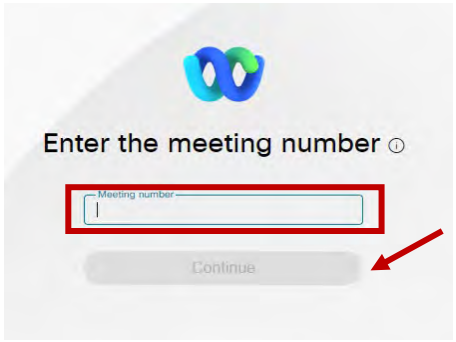


2. If you already have Webex on your device, click the bottom instruction, "Join from the Webex app."

   If you have **not** previously used Webex on your device, your web browser will offer "Download the Webex app." Follow the download link and follow the instructions to install Webex.

3. Enter your name and email address*. Click "Next."
   Accept any request for permission to use your microphone and/or camera.





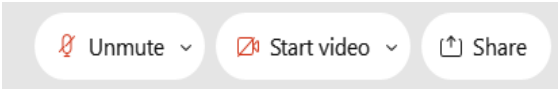
*Members of the public are not obligated to provide their name or personal information and may provide a unique identifier such as their initials or another alternative as well as a fictitious email address like in the following sample format: XXXXX@mailinator.com.

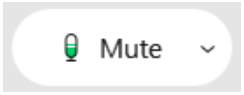
Alternative 1. Join from Webex.com

1 Click on "Join a Meeting" at the top of the Webex window.

2 Enter the meeting/event number and click "Continue." Enter the event password and click "OK." This can be found in the meeting notice you received or on the meeting agenda.

3 The meeting information will be displayed. Click "Join Event."





OR

Alternative 2. Connect via Telephone

You may also join the meeting by calling in using the phone number, access code, and passcode provided in the meeting notice or on the agenda.

Microphone control (mute/unmute button) is located at the bottom of your Webex window.

Green microphone = Unmuted: People in the meeting can hear you.

Red microphone = Muted: No one in the meeting can hear you.

Note: Only panelists can mute/unmute their own microphones. Attendees will remain muted unless the moderator invites them to unmute their microphone. Only panelists will be offered starting their video camera.

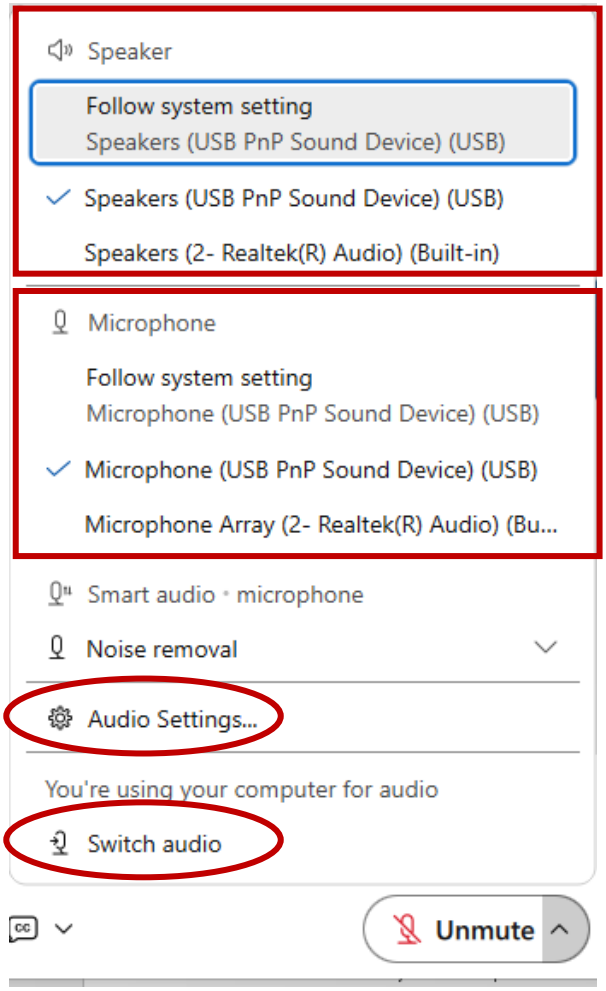
Attendees/Members of the Public

Joined via Meeting Link

The moderator will call you by name and indicate a request has been sent to unmute your microphone. Upon hearing this prompt:

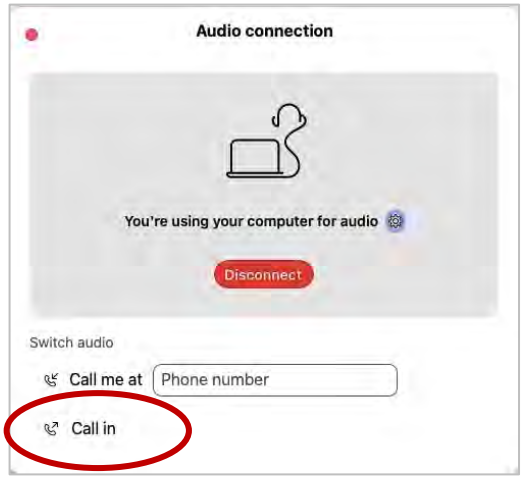
Click the Unmute me button on the pop-up box that appears.

Joined via Telephone (Call-in User)



- When you are asked to unmute yourself, press *6.
- When you are finished speaking, press *6 to mute yourself again.

If you cannot hear or be heard



1. Click on the bottom facing arrow located on the Mute/Unmute button at the bottom of the Webex window.

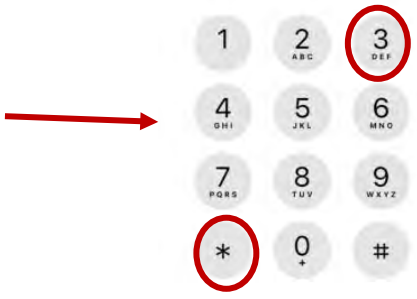
2. From the drop-down menu, select different:
   A. Speaker options if **you can't hear** participants.
   B. Microphone options if **participants can't hear you**.
   C. Audio settings will offer testing of your devices, and let you choose a different device.

3. To link your phone to your Webex session, enabling your phone to become your microphone and speaker source:
   - Click on "Switch audio".
   - Select "Call in", which will show the phone number to call and the meeting login information.

Joined via Meeting Link

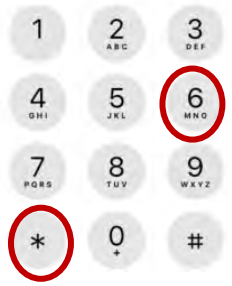
- Locate the hand icon at the bottom of the Webex window.
- Click the hand icon to raise your hand.
- Repeat this process to lower your hand.

The moderator will call you by name and indicate a request has been sent to unmute your microphone.

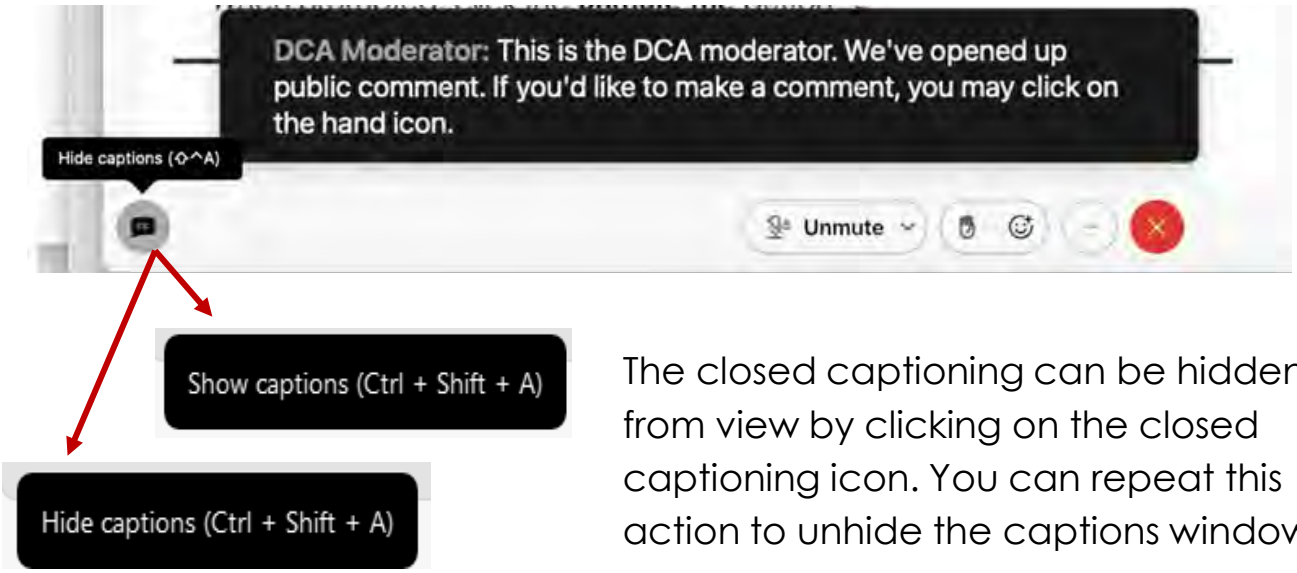


Upon hearing this prompt:

Click the Unmute me button on the pop-up box that appears.

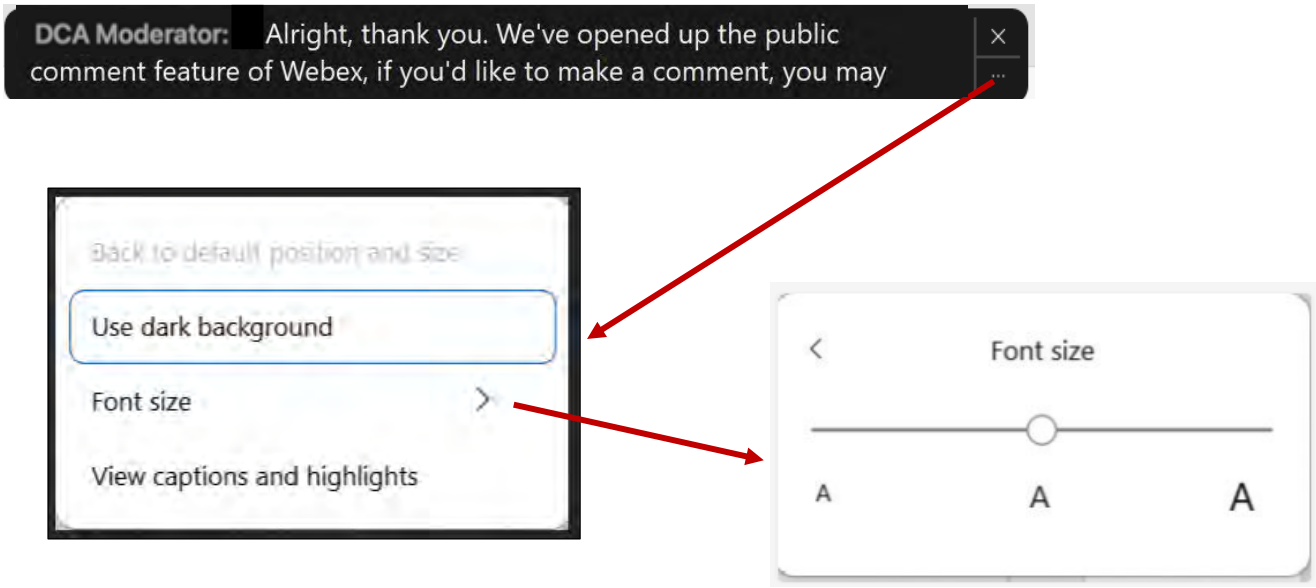


Joined via Telephone (Call-in User)



Press *3 to raise or lower your hand.

- When you are asked to unmute yourself, press *6.
- When you are finished speaking, press *6 to mute yourself again.



Webex provides real-time closed captioning displayed in a dialog box in your Webex window. The captioning box can be moved by clicking on the box and dragging it to another location on your screen.

The closed captioning can be hidden from view by clicking on the closed captioning icon. You can repeat this action to unhide the captions window.

You can view the closed captioning dialog box with a light or dark background or change the font size by clicking the 3 dots on the right side of the dialog box.

Education Committee Agenda Item 3.

Presentation from the Dental Hygiene Educational Program Violation and Fine Rubric Taskforce; Discussion and Possible Action to Move Forward on Taskforce Recommendations.

MEMORANDUM

DATE	March 27, 2026
TO	Education Committee Dental Hygiene Board of California
FROM	Adina A. Pineschi-Petty DDS Education, Legislative, and Regulatory Specialist
SUBJECT	**EDU 3: Presentation from the Dental Hygiene Educational Program Violation and Fine Rubric Taskforce; Discussion and Possible Action to Move Forward on Taskforce Recommendations.**

BACKGROUND

In 2023, the Dental Hygiene Board of California (Board) promulgated regulations regarding “Reviews, Site Visits, Citations and Fines, and Probationary Status for Dental Hygiene Educational Programs” (California Code of Regulations, Title 16, section 1104.3). Within the regulation, subdivision (b)(3) established factors to be considered in the issuance of any citation or fine to a DHEP due to noncompliance of California laws, regulations, and CODA Standards.

Due to the variance and extent of violations discovered during Dental Hygiene Educational Program (DHEP) site visits, and the desire to ensure penalties are applied evenly among the DHEPs, at the March 22, 2025, Full Board meeting, the Board voted to create a penalty rubric to allow the Board to be fair and consistent to all DHEPs. The Board appointed Board members Joanne Pacheco and Julie Elginer as co-chairs of the DHEP Violation and Fine Rubric Taskforce (formerly named the Penalty Rubric Taskforce). After the meeting, the Taskforce co-chairs received requests from three interested stakeholders who were appointed to the taskforce based on their qualifications. These experts were JoAnn Galliano, Dr. Michelle Hurlbutt, and Lisa Kamibayashi who have extensive DHEP experience and knowledge of the subject to create an appropriate penalty rubric.

Since the Taskforce conducted their first meeting on June 4, 2025, the Taskforce has met ten (10) times and created a draft “Violation and Fine Rubric” which includes timeframes and penalties DHEPs shall be given to remediate violations and deficiencies, thereby providing structure to a potentially perceived subjective determination.

ACTION REQUESTED:

Staff recommends for the Education Committee to review the draft “Violation and Fine Rubric.” If the Education Committee approves the draft “Violation and Fine Rubric,” staff requests the Education Committee recommend to the Full Board to approve the final draft of the “Violation and Fine Rubric,” allowing for future amendments to the rubric as deemed necessary by the Board, and allow for its application during DHEP reviews and site visits moving forward.

PROPOSED MOTION LANGUAGE:

Motion for the Education Committee recommend to the Full Board to approve the draft of the “Violation and Fine Rubric,” allowing for future amendments to the rubric as deemed necessary by the Board, and allow for its application during DHEP reviews and site visits moving forward.

Attachments:

1. “Violation and Fine Rubric” (DRAFT).

IV. Institutional Accreditation/Approval, Financial Responsibility, Sponsoring Institution and DHEP Responsibilities			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Accreditation/Approval	**BPC** §1941(a) and (c) **16 CCR** §1104(b)(5), (d), and (h) **CODA** 1-6	Moderate	Meet DHBC/CODA deadlines
a. DHEP lost Institutional accreditation	**BPC** §1941(c) **16 CCR** §1104(b)(5) and (d) **CODA** 1-6	Severe	Meet accrediting body deadlines
b. DHEP lost CODA accreditation	**BPC** §1941(a) and (c) **16 CCR** §1104(b)(5) **CODA** 1-6	Severe	Meet CODA deadlines
c. CODA designates DHEP status as "Approval with Reporting Requirements with Intent to Withdraw"	**BPC** §1941(a) and (c) **16 CCR** §1104(b)(5) **CODA** 1-6	Severe	Meet CODA deadlines
d. CODA designates DHEP status as DHEP "Approval with Reporting Requirements"	**BPC** §1941(a) and (c) **16 CCR** §1104(b)(5) **CODA** 1-6	Minimal to Moderate	Meet CODA deadlines
2. Financial Responsibility	**BPC** §1941(a) **16 CCR** §1104(b)(5)	Moderate to Severe	Compliance within 12-18 weeks

DRAFT

IV. Institutional Accreditation/Approval, Financial Responsibility, Sponsoring Institution and DHEP Responsibilities			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	CODA 1-3		
a. Inability to demonstrate financial stability for educational continuity	**BPC** §1941(a) **16 CCR** §1104(b)(5) **CODA** 1-3	**Moderate** to **Severe**	Compliance within 12-18 weeks
b. DHEP lacks budget input	**BPC** §1941(a) **16 CCR** §1104(b)(5) **CODA** 1-3	**Moderate**	Compliance within 12-18 weeks
c. DHEP approved budget insufficient to run DHEP effectively	**BPC** §1941(a) **16 CCR** §1104(b)(5) **CODA** 1-3	**Moderate**	Compliance within 12-18 weeks
3. Sponsoring Institution and DHEP Responsibilities	**16 CCR** §1104(b)(5) and (h) **CODA** 1-4, 1-5, 1-7, 1-8, 3-1	**Moderate**	Compliance within 6-18 weeks
a. DHEP lacks support of sponsoring institution	**16 CCR** §1104(b)(5) and (h) **CODA** 1-4, 1-5, 1-7, 1-8, 3-1	**Moderate**	Compliance within 12-18 weeks
b. Authority and final responsibility for curriculum development and approval, student	**16 CCR** §1104(b)(5) and (h) **CODA**	**Moderate**	Compliance within 6 weeks

DRAFT

IV. Institutional Accreditation/Approval, Financial Responsibility, Sponsoring Institution and DHEP Responsibilities			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
selection, faculty selection and administrative matters does not rest within the sponsoring institution	1-4, 1-5, 1-7, 1-8, 3-1		
c. No documentation of program's authority under sponsoring institution	**16 CCR** §1104(b)(5) and (h) **CODA** 1-4, 1-5, 1-7, 1-8, 3-1	Moderate	Compliance within 6 weeks

V. Prerequisites/Admissions			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Prerequisites	**16 CCR** §1105(f)(1) **CODA** 2-8, 2-8a, 2-8b	Severe	Immediate: Prior to start of next academic session
a. DHEP lacks or fails to require DHBC/CODA Level prerequisites	**16 CCR** §1105(f)(1) **CODA** 2-8, 2-8a, 2-8b	Severe	Immediate: Prior to start of next academic session
b. DHEP Prerequisites not published or inconsistently applied	**16 CCR** §1105(f)(1) **CODA** 2-8, 2-8a, 2-8b	Moderate to Severe	Immediate: Prior to start of next academic session
2. Admissions	**16 CCR** §1105(f)(2) **CODA** 2-3, 2-4	Moderate to Severe	Immediate: Prior to start of next academic session

a. DHEP lacks retention of complete admissions files	**16 CCR** §1105(f)(2) **CODA** 2-3, 2-4	Moderate	Immediate: Prior to start of next academic session
b. DHEP Students accepted without completing DHBC/CODA required prerequisites	**16 CCR** §1105(f)(2) **CODA** 2-3, 2-4	Moderate to Severe	Immediate: Prior to start of next academic session
c. DHEP admission requirements not published or inconsistently applied	**16 CCR** §1105(f)(2) **CODA** 2-3, 2-4	Moderate to Severe	Immediate: Prior to start of next academic session

VI. Mission Statement, Policies, and Procedures			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Mission Statement	**16 CCR** §1105(a)	Minimal	Prior to the start of the next academic session
a. DHEP lacks Mission Statement	**16 CCR** §1105(a)	Minimal	Prior to the start of the next academic session
b. Mission statement lacks alignment with program goals or regulatory expectations	**16 CCR** §1105(a)	Minimal	Prior to the start of the next academic session
2. General Policies and Procedures	**16 CCR** §1105(d)	Moderate	Prior to the start of the next academic session
a. DHEP lacks general Policies and Procedures	**16 CCR** §1105(d)	Moderate	Prior to the start of the next academic session
3. Learning Environment	**16 CCR** §1105(d) **CODA** 1-2	Moderate	Prior to the start of the next academic session
a. DHEP does not provide a supportive learning environment to students	**16 CCR** §1105(d) **CODA** 1-2	Moderate to Severe	Severe - Immediate Moderate - Compliance within 6 weeks
4. Academic Standards, Due Process, and Grievance Policy	**16 CCR** §1105(d) and (g) **CODA**	Moderate	Prior to the start of the next academic session

VI. Mission Statement, Policies, and Procedures			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	2-2, 4-8		
a. DHEP lacks Due Process and/or Grievance Policy	**16 CCR** §1105(d) and (g) **CODA** 2-2, 4-8	**Severe**	Immediate
b. Due Process and/or Grievance Policy not provided to students	**16 CCR** §1105(d) and (g) **CODA** 2-2, 4-8	**Moderate**	Compliance within 6 weeks
5. Syllabi Policy	**16 CCR** §1105(d) **CODA** 2-7	**Moderate**	At initiation of course session
a. Syllabi not available in a timely manner	**16 CCR** §1105(d) **CODA** 2-7	**Moderate**	At initiation of course session
b. Change in syllabi without sufficient notice to students	**16 CCR** §1105(d) **CODA** 2-7 **3 EDC** **94898(b)**	**Moderate**	Prior to the start of the next academic session
6. Patient Experiences Policy	**16 CCR** §1105(d) **CODA** 2-11	**Severe**	Immediate
a. DHEP lacks Patient Experiences Policy	**16 CCR** §1105(d) **CODA** 2-11	**Severe**	Immediate
7. Curriculum Management Plan	**16 CCR** §1105(d) **CODA** 2-24	**Moderate**	Prior to the start of the next academic session
a. DHEP lacks Curriculum Management Plan	**16 CCR** §1105(d)	**Moderate**	Prior to the start of the next academic session

DRAFT

VI. Mission Statement, Policies, and Procedures			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	CODA 2-24		
8. Patient Care Services/Patient Rights Policies	**16 CCR** §1105(d) **CODA** 6-1, 6-2, 6-4	Moderate	Prior to the start of the next academic session
a. DHEP lacks comprehensive Treatment Plan Policy	**16 CCR** §1105(d) **CODA** 6-1, 6-2	Moderate	Compliance within 6 weeks
b. DHEP lacks comprehensive Patient Care Quality Assurance Plan	**16 CCR** §1105(d) **CODA** 6-2	Moderate	Compliance within 6 weeks
c. DHEP lacks a written statement of patients' rights	**16 CCR** §1105(d) **CODA** 6-4	Moderate	Compliance within 6 weeks

VII. DHEP Instruction and DHEP Hours			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. DHEP Instruction	**BPC** §1941(c) **16 CCR** §1105(b)(1)-(3) **CODA** 2-1	Moderate	Prior to the start of the next academic session
a. Course depth of instruction does not meet the test of a true university discipline	**BPC** §1941(c) **16 CCR** §1105(b)(1)-(3) **CODA**	Moderate	Prior to the start of the next academic session

VII. DHEP Instruction and DHEP Hours			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	2-1		
b. Clinical practice not distributed throughout the curriculum	**16 CCR** §1105(b)(1)-(3) **CODA** 2-1	Moderate	Prior to the start of the next academic session
c. DHEP lacks DHEP completion records	**16 CCR** §1105(b)(1)-(3) **CODA** 2-1	Severe	Evidence of before program completion
2. DHEP Hours	**16 CCR** §1105(b)(1)-(3) **CODA** 2-1	Severe	Evidence of before program completion
a. Educational DHEP does not demonstrate two academic years of full-time instruction at the postsecondary college level or its equivalent and consists of a minimum of 1600 clock hours	**16 CCR** §1105(b)(1)-(3) **CODA** 2-1	Severe	Prior to the start of the next academic session

VIII. Required DHEP Curriculum			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Required DHEP Curriculum	**16 CCR** §1105.2(a)-(d)(1-2) **CODA** 2-8, 2-8a-d, 2-9	Moderate	Prior to the start of the next academic session
a. DHEP lacks DHBC/CODA required DHEP curriculum	**16 CCR** §1105.2(a)-(d)(1-2)	Moderate	Prior to the start of the next academic session

VIII. Required DHEP Curriculum			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	CODA 2-8, 2-8a-d, 2-9		

IX. Standards of Competency			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Competency Policy and Quantitative Criteria	**16 CCR** §1105(c) and (d) **CODA** 2-6, 2-11, 6-3	**Severe**	Prior to the start of the next academic session
a. DHEP does not establish or define standards of competency for graduation from the DHEP	**16 CCR** §1105(c) and (d) **CODA** 2-6, 6-3	**Severe**	Prior to the start of the next academic session
b. DHEP does not communicate standards of competency for graduation from the DHEP to students	**16 CCR** §1105(c) and (d) **CODA** 2-6, 6-3	**Severe**	Prior to the start of the next academic session
c. DHEP does not have established mechanisms to ensure a sufficient number of patient experiences that afford all students the opportunity to achieve stated competencies.	**16 CCR** §1105(c) and (d) **CODA** 2-11	**Severe**	Prior to the start of the next academic session
2. Competency Requirements	**16 CCR** §1103(h), (i), and (j) §1105(c) §1105.2(b), (e), and (f) **CODA** 2-11 through 2-23	**Severe**	Prior to the start of the next academic session

IX. Standards of Competency			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
a. Student competency requirements not clearly published or inconsistently applied	**16 CCR** §1105(c) §1105.2(b), (e), and (f) **CODA** 2-11 through 2-23	**Severe**	Prior to the start of the next academic session
b. Student(s) failed to complete all required competencies	**16 CCR** §1105(c) §1105.2(b), (e), and (f) **CODA** 2-11 through 2-23	**Severe**	Evidence of before program completion
c. DHEP does not include education in the dental hygiene process of care and/or define the competencies graduates are to possess at graduation	**16 CCR** §1105(c) §1105.2(b) **CODA** 2-13	**Moderate** to **Severe**	Prior to the start of the next academic session. Prior to program completion by the senior cohort or class.
d. DHEP does not provide for and student competency in patient experiences in all classifications of periodontal disease including mild, moderate, and severe involvement.	**16 CCR** §1105(c) §1105.2(e) **CODA** 2-14	**Moderate** to **Severe**	Prior to the start of the next academic session. Prior to program completion by the senior cohort or class.
e. DHEP does not provide for and student competency in providing patient experiences in dental hygiene care for the child, adolescent, adult, geriatric, and special needs patients	**16 CCR** §1105(c) §1105.2(f) **CODA** 2-12	**Moderate** to **Severe**	Prior to the start of the next academic session. Prior to program completion by the senior cohort or class.

DRAFT

X. Faculty Ratios and Preclinical/Clinical Staffing, Preclinical/Clinical Hours, and Clinical Experiences			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Faculty/Student Ratios and Preclinical/Clinical Staffing	**16 CCR** §1105(b)(4), (b)(5), (i), and (k) **CODA** 3-5	Moderate	Prior to the start of the next academic session
a. DHEP fails to maintain faculty to student ratio	**16 CCR** §1105(b)(4), (i), and (k) **CODA** 3-5	Moderate	Compliance within 6 weeks
b. DHEP fails to maintain sufficient faculty to provide sufficient support of the DHEP	**16 CCR** §1105(b)(4), (b)(5), (i), and (k) **CODA** 3-5	Moderate	Compliance within 6 weeks
c. DHEP does not provide dentist supervision for instruction involving procedures that require direct supervision	**16 CCR** §1105(b)(5), (i), and (k) **CODA** 3-5	Moderate	Compliance within 6 weeks
2. Preclinical/Clinical Hours and Experiences	**16 CCR** §1105.2(d) **CODA** 2-10	Severe	Prior to the start of the next academic session. Prior to program completion by the senior cohort or class
a. DHEP fails to provide a sufficient number of hours of preclinical practice and direct patient care resulting in failure to ensure that students attain clinical competence and develop appropriate judgment.	**16 CCR** §1105.2(d) **CODA** 2-10	Severe	Prior to the start of the next academic session. Prior to program completion by the senior cohort or class

b. Clinical facilities lack sufficient number of clinical stations for enrolled students	**16 CCR** §1105(i) §1105.2(d)(3)(A) **CODA** 2-5, 4-1	Moderate to Severe	Severe - Immediate Moderate -Compliance within 6 weeks
c. Clinical facilities lack necessary supplies	**16 CCR** §1105(i) §1105.2(d)(3)(A) **CODA** 2-5, 4-1	Moderate to Severe	Severe – Immediate Moderate - Compliance within 6 weeks
3. Radiography Facilities	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-2	Moderate to Severe	Severe – Immediate Moderate - Compliance within 6 weeks
a. Radiography facilities in disrepair	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-2	Moderate to Severe	Severe – Immediate Moderate - Compliance within 6 weeks
b. Radiography facilities lack sufficient number of stations for enrolled students	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-2	Moderate to Severe	Severe – Immediate Moderate - Compliance within 6 weeks

DRAFT

XV. Facilities and Support Service Requirements			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
c. Radiography facilities lack necessary supplies	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-2	**Moderate** to **Severe**	**Severe** – Immediate **Moderate** - Compliance within 6 weeks
4. Laboratory Facilities	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-3	**Moderate**	Prior to the start of the next academic session
a. Laboratory facilities in disrepair	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-3	**Moderate**	Prior to the start of the next academic session
b. Laboratory facilities lack sufficient number of stations for enrolled students	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-3	**Moderate**	Prior to the start of the next academic session
c. Laboratory facilities lack necessary supplies	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-3	**Moderate**	Prior to the start of the next academic session
5. Extended Campus Facilities (Major Site)	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-4	**Moderate**	Compliance within 6 weeks
a. Program lacks DHBC Extramural Permit	**BPC** 1942, 1944(f)	**Moderate**	Compliance within 6 weeks
b. Extended Campus Facilities in disrepair	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-4	**Moderate**	Compliance within 6 weeks
c. Extended Campus Facilities lack sufficient number of stations for enrolled students	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-4	**Moderate**	Compliance within 6 weeks
d. Extended Campus Facilities lack necessary supplies	**16 CCR** §1105(i) **CODA**	**Moderate**	Compliance within 6 weeks

XV. Facilities and Support Service Requirements			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	2-5, 4-1, 4-4		
6. Classroom Space	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-5	Moderate	Compliance within 6 weeks
a. Classrooms in disrepair	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-5	Moderate	Compliance within 6 weeks
b. Classrooms insufficient for number of students enrolled	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-5	Moderate	Prior to the start of the next academic session
c. Classrooms lack necessary supplies	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-5	Moderate	Prior to the start of the next academic session
7. Office Space	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-6	Moderate	Prior to the start of the next academic session
a. DHEP administrator/faculty lack office space to enable the fulfillment of faculty assignments and ensure privacy for confidential matters.	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-6	Moderate	Prior to the start of the next academic session
b. Student and DHEP records must be stored to ensure confidentiality and safety.	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-6	Moderate to Severe	Prior to the start of the next academic session
8. Learning Resources	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-7	Moderate	Prior to the start of the next academic session
a. DHEP fails to provide student support services	**16 CCR** §1105(i)	Moderate to Severe	Prior to the start of the next academic session

XV. Facilities and Support Service Requirements			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	CODA 2-5, 4-1, 4-7		
b. DHEP lacks technology infrastructure	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-7	Moderate	Prior to the start of the next academic session
c. DHEP lacks instructional aids	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-7	Moderate	Prior to the start of the next academic session
d. DHEP lacks instructional reference materials	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-7	Moderate	Prior to the start of the next academic session
e. DHEP fails to provide student support materials	**16 CCR** §1105(i) **CODA** 2-5, 4-1, 4-7	Moderate	Prior to the start of the next academic session

XVI. Infection Control			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Infection Control	**16 CCR** §1105.2 (d)(3)(A) and (d)(3)(D)(xii) §1105 8 CCR §5193 [1]CDC Guidelines	Minimal to Severe	Immediate

[1] CDC Summary of Infection Prevention Practices in Dental Settings: Basic Expectations for Safe Care – 2024, CDC Guideline for Isolation Precautions: Preventing Transmission of Infectious Agents in Healthcare Settings – 2007 and CDC Guidelines for Infection Control in Dental Health-Care Settings — 2003

XVI. Infection Control			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	CODA 4-1		
a. Sterilization Failure (e.g., Failure to sterilize critical or semi-critical instruments before patient use)	**16 CCR** §1005(b)(11) – (15)	**Severe**	Immediate
b. Contaminated Instruments (e.g., Use of contaminated or non-sterile handpieces, air/water syringe tips, or ultrasonic scaler tips	**16 CCR** §1005(b)(11) – (15)	**Severe**	Immediate
c. Waterline Maintenance (e.g., Failure to maintain and test waterlines	**16 CCR** §1005(b)(21)	**Severe**	Immediate
d. Single-Use Disposable Item Reuse (e.g., saliva ejectors, prophylaxis angles)	**16 CCR** §1005(b)(16)	**Severe**	Immediate
e. PPE & Exposure Risk (e.g., Failure to provide or use PPE when exposed to blood, aerosols, or OPIM)	**16 CCR** §1005(b)(4) – (5)	**Severe**	Immediate
f. Spore Testing & Recordkeeping (e.g., Absence of spore testing for sterilizers, failure to document, lapses in sterilization documentation, or falsification of results)	**16 CCR** §1005(b)(17)	**Moderate** to **Severe**	**Severe:** Immediate **Moderate:** Compliance within 6 weeks
g. Hand Hygiene (e.g., Lack of hand hygiene protocol, lack of hand hygiene equipment and supplies)	**16 CCR** §1005(b)(6) – (7)	**Severe**	Immediate
h. Sharps Safety	**16 CCR** §1005(b)(9)	**Severe**	Immediate

DRAFT

XVI. Infection Control			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
(e.g., Lack of sharps containers, improper disposal of needles/sharps, lack of needlestick injury protocols and documentation)			
i. Personnel Health Restrictions (e.g., DHCP with open wounds or weeping dermatitis providing patient care)	**16 CCR** §1005(b)(7)	**Severe**	Immediate
j. Protocol & Documentation (e.g., No infection control protocol or failure to maintain or update it)	**16 CCR** §1005(b)(1) – (3)	**Moderate**	Compliance within 30 days
k. Surface Disinfection (e.g., Failure to utilize proper level of disinfectant solutions)	**16 CCR** §1005(b)(19) – (20)	**Moderate**	Compliance within 30 days
l. PPE Management (e.g., Improper PPE use, lack of PPE supplies)	**16 CCR** §1005(b)(5)	**Moderate** to **Severe**	**Severe** – Immediate **Moderate** - within 30 days
m. Instrument Processing and Storage (e.g., Instruments not labeled with date and sterilizer, instruments not stored in sealed packages if not immediately used)	**16 CCR** §1005(b)(11) – (15)	**Moderate** to **Severe**	**Severe** – Immediate **Moderate** - within 30 days
n. Posting & Visibility (e.g., Infection control regulations, radiation signage, laser signage not posted in the DHEP)	**16 CCR** §1005(b)(3) **10 CFR** §20.1902	**Minimal**	Compliance within 6 weeks
o. Minor PPE Compliance	**16 CCR** §1005(b)(5)	**Minimal**	Compliance within 6 weeks

XVI. Infection Control			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
(e.g., Failure to remove PPE when leaving patient care area)			
p. Cleaning Agents Labeling (e.g., Cleaning/disinfectant agents not labeled correctly or used per SDS)	**16 CCR** §1005(b)(14)	Minimal	Compliance within 6 weeks
q. Housekeeping Surfaces (e.g., Failure to properly clean walls, sinks, or floors with or availability of approved products)	**16 CCR** §1005(b)(19) – (20)	Minimal	Compliance within 6 weeks

XVII. Hazardous Waste/Radiation/Bloodborne/Infectious Disease Management, Immunization and Testing, EMS-BLS Provisions			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Hazardous Waste/Radiation /Bloodborne/Infectious Disease Management	**16 CCR** §1105(d) §1105.2(d)(2)(F), (d)(2)(N), and (d)(3)(C) **CODA** 5-1	Moderate	Compliance within 6 weeks
a. Hazardous Waste Plan (e.g., No hazardous waste plan available for student or faculty review)	**16 CCR** §1105(d) §1105.2(d)(2)(F) and (d)(3)(C) **CODA** 5-1	Moderate	Compliance within 6 weeks
b. Radiation Hygiene Policy (e.g., No clinic/radiation hazard communication	**16 CCR** §1105(d) §1105.2(d)(3)(C)(ii)	Moderate	Compliance within 6 weeks

XVII. Hazardous Waste/Radiation/Bloodborne/Infectious Disease Management, Immunization and Testing, EMS-BLS Provisions			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
plan accessible to students or faculty)	**CODA** 5-1		
c. Bloodborne/Infectious Disease Policy (e.g., Missing or inaccessible bloodborne/infectious disease policy)	**16 CCR** §1105(d) §1105.2(d)(2)(N) and (d)(3)(C) **CODA** 5-1	Moderate	Compliance within 6 weeks
d. Inadequate Labeling of Policies (e.g., Policies lack clear labeling or version control)	**16 CCR** §1105(d) **CODA** 5-1	Minimal	Compliance within 6 weeks
2. Immunization and Testing	**16 CCR** §1104(b)(5) §1105(d) **CODA** 5-2	Severe	Immediate
a. Lack of Immunization/Testing Records (e.g., Program does not encourage or track student/staff immunizations for HBV, TB, MMR, etc.)	**16 CCR** §1104(b)(5) §1105(d) **CODA** 5-2	Severe	Immediate
3. EMS-BLS Provisions	**16 CCR** §1105.2(d)(2)(H) **CODA** 5-3	Severe	Immediate
a. Failure to Provide BLS/AED Training (e.g., Failure to ensure current BLS/AED certification for all clinical faculty/students)	**16 CCR** §1105.2(d)(2)(H) **CODA** 5-3	Severe	Immediate
b. Emergency Medical Preparedness	**16 CCR** §1105.2(d)(2)(H)	Moderate	Compliance within 6 weeks

XVII. Hazardous Waste/Radiation/Bloodborne/Infectious Disease Management, Immunization and Testing, EMS-BLS Provisions			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
(e.g., No documented emergency medical response training or BLS instruction	**CODA** 5-3		

XVIII. HIPAA Compliance			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. HIPAA Compliance	**16 CCR** §1105.2(d)(3)(C) **CODA** 4-1, 6-5 **HSC** Division 109 §130203 (a) **HIPAA** 45 CFR 160, 162, and 164 esp. 164.530(c)	**Severe**	Immediate
a. HIPAA Violation – Patient Record Storage	**16 CCR** §1105.2(d)(3)(C) **CODA** 4-1, 6-5 **HSC** Division 109 §130203 (a) **HIPAA** 45 CFR 160, 162, and 164 esp. 164.530(c)	**Severe**	Immediate
b. HIPAA Violation – Confidentiality Breach	**16 CCR** §1105.2(d)(3)(C)	**Severe**	Immediate

DRAFT

XVIII. HIPAA Compliance			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
	CODA 4-1, 6-5 **HSC** Division 109 §130203 (a) **HIPAA** 45 CFR 160, 162, and 164 esp. 164.530(c)		

XIX. Overall Compliance and DHEP Changes			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
1. Overall Compliance	**16 CCR** §1104(b)(5)	Moderate	Compliance within 6 weeks
a. DHEP provides a material misrepresentation of fact to the DHBC	**16 CCR** §1104(e)	Severe	Immediate citation and fine
b. Repeated deficiencies a. Converts level of severity to next level. b. Numbers of repeated violations shall be used as a points multiplier.	**16 CCR** §1104(b)(5)	Moderate to Severe	Citation and fine
2. DHEP Changes	**16 CCR** §1105.3(a) and (b)	Minimal to Moderate	Citation and fine
a. DHEP fails to notify the DHBC of fiscal, institutional, administrative or	**16 CCR** §1105.3(a) and (b)	Minimal to Moderate	Citation and fine

XIX. Overall Compliance and DHEP Changes			
Category/Violations	**Statutes, Regulations, and Standards**	**Level of Severity (Severe, Moderate, Minimal)**	**Urgency/Timeline**
programmatic changes within 10 days			

XX. Citations and Fines		
Overall Citation Score = (Minimum violation × 1 point) + (Moderate violation × 3 points) + (Severe violation × 5 points)		
Level 1	1 to 4 points	Citation only
Level 2	5 to 7 points 8 to 10 points 11 to 14 points	Citation and fine of $500 Citation and fine of $1,000 Citation and fine of $1,500
Level 3	15 to 17 points 18 to 20 points 21 to 24 points	Citation and fine of $2,000 Citation and fine of $2,500 Citation and fine of $3,000
Level 4	25 to 27 points 28 to 30 points 31 points and above	Citation and fine of $3,500 Citation and fine of $4,000 Citation and fine of $5,000

Example Scenario:

A DHEP has Three (3) minimal violations, two (2) moderate violations, and one (1) severe violation:

(3×1) + (2×3) + (1×5) = 3+6+5 = 14

Overall Citation Category = ***Level 2***

Tooth Fairy University (TFU) (February 1, 2025, Site Visit)

Violation	Violation Details	Violation and Fine Rubric Category	Severity Category	Repeated Violation? [Yes/No/ Year(s)]	Points
1. Stable financial resources.	• TFU lacks a stable funding source to fund the DHEP. o TFU requires DHEP to self fund through clinic fees. o TFU was cited by the Board in 2020 for the same concern.	IV.2.a	Severe	**Yes 2020 2025**	5 points x 2 = 10 points
2. Admissions/Prerequisites	• Unqualified students (per their admissions policy) admitted to the program.	V.2.b	Severe	No	5
3. Program Director Authority	• Program Director not provided access to the DHEP's budget, nor allowed to provide input into the budgeting process.	XII.5.a	Moderate	No	3
4. Faculty Support	• TFU failed to provide replacement (temporary or permanent) of a full-time faculty position once vacated to provide required support to the program. • TFU was cited by the Board in 2020 for the same concern.	XIII.4.a	Severe	**Yes 2020 2025**	5 points x 2 = 10 points
5. Staff Support	• TFU failed to provide replacement (temporary or permanent) of a preclinical/clinical staff support position once vacated to provide required support to the program.	XIV.1.b.	Severe	**Yes 2020 2025**	5 points x 2 = 10 points

Violation	Violation Details	Violation and Fine Rubric Category	Severity Category	Repeated Violation? [Yes/No/ Year(s)]	Points
	• TFU was cited by the Board in 2020 for the same concern.				
6. Student Support	• Students reported fees for the clinic are excessively high for the low-income patient population to afford. • High fees due to TFU's need to provide monetary support to the running of the DHEP (see Violation 1).	XV.8.a	Severe	No	5
				Total:	43
				Overall Citation Category:	**Level 4**
				Fine:	**$5,000**

Holly Hygiene College (HHC) (July 9, 2025, Site Visit)

Violation	Violation Details	Violation and Fine Rubric Category	Severity Category	Repeated Violation? XIX(1)(b)	Points
1. Admissions Prerequisites.	• HHC does not require applicants to complete a one semester course in organic/biochemistry prior to program entrance.	V.2.a	Severe	No	5
2. Program Director Assignment.	• Program director not provided adequate time to administer DHEP director responsibilities (provided only eight (8) hours of administration time)	XII.3.a	Severe	No	5
3. Faculty Assignments.	• Insufficient number of full-time faculty, as well as current full-time faculty members are provided insufficient time to devote to their primary teaching assignments and student support.	XIII.4.a	**Initially moderate now severe**	**Yes 2019 2025**	5 points x 2 = 10 points
4. Administrative Staff	• Insufficient administrative staff devoted to the HHC DHEP resulting in the program director and full-time faculty to be overloaded with managing administrative tasks.	XIV.1.a	Moderate	No	3
				Total:	23
				Overall Citation Category:	**Level 3**
				Fine:	**$3,000**

Golden Smile University (GSU) (November 14, 2025, Site Visit)

Dental Hygiene Board of California

Education Committee Agenda Item 4.

Discussion and Possible Action to Approve a New Dental Hygiene Educational Program by Gurnick Academy of Medical Arts.

MEMORANDUM

DATE	March 27, 2026
TO	Education Committee Dental Hygiene Board of California
FROM	Adina A. Pineschi-Petty DDS Education, Legislative, and Regulatory Specialist
SUBJECT	**EDU 4: Discussion and Possible Action to Approve a New Dental Hygiene Educational Program by Gurnick Academy of Medical Arts.**

BACKGROUND:

Gurnick Academy of Medical Arts (Gurnick Academy) is a private, California-based institution with six campuses located across the State. Gurnick Academy has offered Allied Health and Nursing Programs to Californians for over twenty years, since they opened the San Mateo campus in 2004. Gurnick Academy – Modesto began operations in 2007 with a Vocational Nursing program and is now seeking to expand their operations in the Central Valley to open a dental hygiene educational program.

On March 6, 2024, Gurnick Academy submitted a letter of intent to request Dental Hygiene Board of California (Board) approval to establish a new dental hygiene educational program based in Modesto, California to help meet the need for qualified dental hygienist graduates in the Central Valley

In August 2024, Gurnick Academy submitted a feasibility study to the Board for review. In working with Gurnick Academy, Board staff has now completed the review of Gurnick Academy's feasibility study.

STAFF RECOMMENDATION:

Staff recommends for the Education Committee to review the results of the feasibility study as prepared by Board staff.

If the Education Committee determines Gurnick Academy has met the Board's parameters to open a new dental hygiene educational program, Board staff requests for the Educational Committee to recommend to the full Board to consider conditional approval (since it's a new program) of a new dental hygiene educational program offered by Gurnick Academy.

PROPOSED MOTION LANGUAGE:

I move for the Education Committee to recommend to the Full Board to (approve/conditionally approve/disapprove) the new Dental Hygiene Educational Program offered by Gurnick Academy of Medical Arts. (The condition being an extendable 2-year probation period once the program begins operations).

Attachments:

1. Gurnick Academy's Letter of Intent.
2. DHBC Feasibility Study Review.
3. Gurnick Academy's Feasibility Study.

March 6, 2024

Intention to Apply to Offer a Dental Hygiene Program in California

Dear Mr. Lum,

This Letter is to inform the Dental Hygiene Board of California, of Gurnick Academy's intention to submit an application to the California Dental Hygiene Board, to offer a new educational program that complies with the Dental Hygiene Board Requirements.

Location: 4712 Stoddard Road #200, Modesto CA 95356

Administrative Contact Person: Lisa Dianda, Interim Dean of Allied Health

Degree: Associate of Science in Dental Hygiene

Length of Program: 2 Years

Anticipated Enrollment: 25

Start Date: July 7, 2025

Additionally, we request Instructions, and the next steps involved to submit a Feasibility Study and Intent to open a Dental Hygiene Program.

Thank you,

Lisa Dianda

DENTAL HYGIENE BOARD OF CA
MAR 06 2024
RECEIVED

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
Section I: Rationale for the Development of New Educational Program			
1. Regional labor statistics regarding projected need for this type of licensee. a. Summary comments and tables as necessary, cites original source of information from the California Employment Development Department – Labor Market Information or an equivalent State or County agency.	**PAGE: 10-11, Ex I.A, I.B, I.D, I.E** 1. Regional labor statistics reveal that there is currently a need for dental hygienists in Stanislaus County, the Central Valley region, and in California as a whole. 2. According to O*Net OnLine, the employment of dental hygienists in California is expected to grow 15% from 2022 to 2032, and there are projected to be 2,120 job openings annually in the State. 3. Furthermore, the California Employment Development Department (EDD) states that from 2020-2030 there is a ten-year projected need for 1,430 dental hygienists in the Stanislaus Valley region, and a ten-year projected need for 21,230 dental hygienists in the state of California from 2022-2032. 4. Projections Central, sponsored by the US Department of Labor, confirms the EDD's and O*Net		

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
	OnLine's projected need for dental hygienists in California, citing 25,000 employed dental hygienists in 2022 and a projected 28,800 employed dental hygienists in 2032. This is a change of 3,800 dental hygienists over the next ten years, or 15.2%, with an average of 2,120 annual job openings in California. 5. California Department of Health Care Access and Information's Health Workforce Research Data Center Annual Report to the Legislature – April 2025 confirms the need for dental hygienists in the Central Valley region. The data from the April 2025 report states that there is an under distribution of registered dental hygienists in the San Joaquin Valley.		
2. Potential local/regional industry employment	**PAGE: 12-15, ex I.A, I.B. I.D, I.F, I.J** 1. The Bureau of Labor and Statistics (BLS) projects nationwide employment of		

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
statistics regarding current open positions and projected needs for additional licensees including any workforce shortage areas. a. Copy of source data used. b. Summary of findings. c. Tabulated results.	dental hygienists to grow 9% from 2023 - 2033, much faster than the average for all occupations. 2. Both O*Net OnLine and Projections Central predict employment to grow 15% from 2022 - 2032 in the state of California. 3. Gurnick Academy sent out approximately 95 "Employer Questionnaire – Hiring Trends" surveys to local employers between January 19, 2024, and September 5, 2024. The responding employers (49 of reported that they anticipated hiring a combined total between 68 and 92 dental hygienists in the Stanislaus Valley Region in the next 12 months. 29 of the responding employers (59%) reported that the level of demand in their area was high, 15 (31%) reported a moderate level of demand, and 10 (10%) reported a low level of demand in their area.		

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
	4. Gurnick Academy has received five (5) endorsement letters from local employers which attest to the need for a local dental hygiene program as well as the need for more qualified hygienists in this area.		
3. Description of the characteristics of the population in the community being served by the program including oral health needs.	**PAGE: 16-20, Ex I.L** 1. Will serve a variety of populations from the following counties in the Central Valley region: Stanislaus, Calaveras, Tuolumne, Mariposa, and Merced. 2. Counties adjacent to Gurnick Academy - Modesto (Calaveras, Tuolumne, and Mariposa) are designated as rural counties by the Federal Office of Rural Health Policy. In addition to being identified as rural, Tuolumne County is designated as having a shortage of dental care. 3. CDPH State Burden Report shows that there are less than 100 Registered Dental Hygienists in Calaveras, Tuolumne,		

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
	Mariposa, and Merced Counties, and 100 – 400 Registered Dental Hygienists in Stanislaus County, thus demonstrating the need for dental hygienists and increased dental services in this region.		
4. Impact on RDH educational programs within a 100-mile radius of the proposed program by contacting all approved existing educational programs in regard to:	**PAGE: 21, 26-27, Ex I.K** 1. Within the 100-mile area surrounding Gurnick Academy's Modesto Campus, there are eight accredited dental hygiene programs. a. Three out of the eight Program Directors declined to respond. 2. Total Estimated # of Qualified Applicants Not Accepted or Waitlisted: 178 a. "The data provided in the table above demonstrates a sufficiently large applicant pool to continue to support full enrollments for all five responding institutions without a negative impact from Gurnick

<tr><td></td><td></td><td>

Curriculum: 600 clock hours
Dental Hygiene Core Curriculum: 1,643 clock hours.

Section “I.e.” still states program consists of 22 months.

Program should consist of 24 months, taking into account 16-week semesters and 4-weeks in a month.

</td><td>
PAGE: 4 and Section I.e. (p. 37)
“Thank you for bringing this to our attention. Gurnick Academy has updated Section I.e to show the program length as 23 months.

To calculate the program length in months, we have mapped out a mock schedule for the first cohort, assuming a program start date of September 28, 2027:
<table>
<tr><td>Semester 1</td><td>September 28, 2027 – January 21, 2028</td></tr>
<tr><td></td><td>1 week break (Dec 18 – Dec 26)</td></tr>
<tr><td>Semester 2</td><td>January 24, 2028 – May 12, 2028</td></tr>
<tr><td></td><td>1 week break (May 13 – May 21)</td></tr>
<tr><td>Semester 3</td><td>May 22 – September 8, 2028</td></tr>
<tr><td></td><td>No break</td></tr>
<tr><td>Semester 4</td><td>September 11, 2028 – January 5, 2029</td></tr>
<tr><td></td><td>1 week break (Dec 23 – Jan 2)</td></tr>
<tr><td>Semester 5</td><td>January 8, 2029 – April 27, 2029</td></tr>
<tr><td></td><td>1 week break (Apr 28 – May 6)</td></tr>
<tr><td>Semester 6</td><td>May 7, 2029 – August 24, 2029</td></tr>
</table>
Based on the above mock schedule, students in the first cohort will complete the program in 23 months:
• 3 months in 2027
• 12 months in 2028
• 8 months in 2029”
</td></tr>

ITEM	REVIEW	January 26, 2026	March 2, 2026
		"Gurnick Academy has worked with Hu Freidy and Henry Schein to update our Student Kits. The quotes from Hu Freidy and Henry Schein with the lists of updated equipment have been included in Exhibit III.C. Additionally, Gurnick Academy would like to apologize for leaving the note from the first iteration of our Feasibility Study underneath the list of equipment for the Student Kits. This note has been removed, and should have been removed prior to our previous submissions, as it was an internal note to our Campus Director that the equipment list may need to be updated closer to the program's start date	

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
		based on recommendations from the program's stakeholders. The primary purpose of this note was to inform the Campus Director that the cost of the Student Kits may change, and that this may affect her budget. We apologize for any misunderstanding this note may have caused."	
IV. Cost-Revenue Projections (Start-up Budget and Funding Sources)			
1. Support:	**PAGE: 122** No local, state, or federal support is included in our budget projections. Funding for Gurnick Academy – Modesto to initiate and sustain the Dental Hygiene Program will be 100% institutional.		
a. Local	**PAGE: 122** None		
b. State	**PAGE: 122** None		
c. Federal	**PAGE: 122**		

INITIAL MISSING INFORMATION/DOCUMENTATION AND AREAS OF CONCERN (HIGHLIGHTED IN YELLOW AND BLUE).

ITEM	REVIEW	January 26, 2026	March 2, 2026
	None		
2. Projected student fees.	**PAGE: 123** 1. ASDH Projected Student Fees a. Tuition* - $90,000.00 b. Registration Fee - $100.00 c. Total Cost - $90,100.00 i. Is this total for GE, hygiene portion or both?) *The cost for books, equipment, and supplies is included in program tuition, thus eliminating out-of-pocket expenses for students. The cost also includes AHA CPR certification, dental hygiene related memberships, examination, fingerprinting fees, and a Student Kit (please see Exhibit III.C).	**PAGE: 9 and Section IV.b. (p. 147)** "Gurnick Academy can confirm that the total program cost of $90,100.00 is for both the GE and Dental Hygiene portions of the program. This note has also been added to Section IV.b."	
3. Grant support.	**PAGE: 124** 1. Student support: Gurnick Academy considers the Cal Grant a viable source of revenue for qualifying dental hygiene student tuition support. 2. Program Support: Preliminary research shows two grant opportunities which Gurnick

Dental Hygiene Board of California
2005 Evergreen Street, Suite 1350,
Sacramento, CA 95815

To Adina A. Pineschi-Petty, DDDS and the Dental Hygiene Board of California,

On behalf of Gurnick Academy of Medical Arts, we would like to express our sincere appreciation for your time, thoughtful feedback, and continued guidance throughout the development of our Dental Hygiene Feasibility Study. Your insight and assistance have been invaluable, and we are truly grateful for the care and attention you have provided us with throughout this process.

We are incredibly excited about the opportunity to establish this program and the positive impact it can have on both the dental hygiene profession and the communities we aim to serve. It would mean a great deal to us for our Feasibility Study to be considered at the Board's March 27 – 28, 2026 meeting, and we respectfully hope it may be placed on the agenda for review.

We deeply value the Board's leadership in protecting, developing, and guiding the dental hygiene profession in California. We look forward to your continued advice and to working closely with you to ensure this program reflects and upholds the high standards you have so diligently established. Our goal is to build a program that honors the Board's efforts and contributes meaningfully to the strength and integrity of the dental hygiene profession.

Thank you again for your time, dedication, and service. We truly appreciate the opportunity to collaborate with you.

With sincere gratitude,

Lisa Dianda

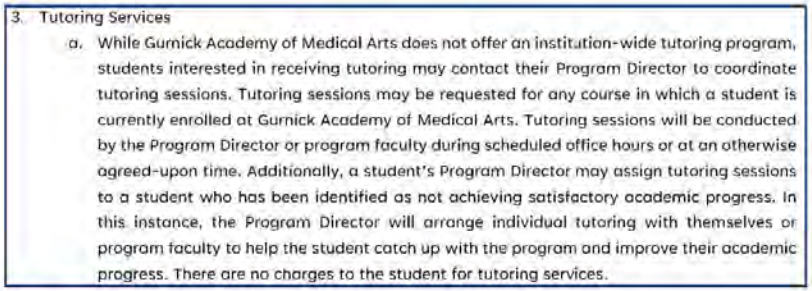
Introduction

Gurnick Academy is submitting this Feasibility Study, Version 03/2026, with corrections and responses to the items noted in the February 19, 2026 review of our January 26, 2026 submission. On the following pages, please find our responses to the blue highlighted items noted in the February 19, 2026 review. Within our responses, we have provided links to each section of the Feasibility Study that has been updated accordingly. Please find the updated Feasibility Study starting on page 10 of this submission.



<table>
<tr><th>ITEM</th><th>DHBC REVIEW</th><th>RESPONSE from GURNICK</th></tr>
<tr>
<td>I.5 Description of the following:
a. Length of the program</td>
<td>Section I.e.
1. Section “I.e.” still states program consists of 22 months.
• Program should consist of 24 months, taking into account 16-week semesters and 4-weeks in a month.</td>
<td>Thank you for bringing this to our attention. Gurnick Academy has updated Section I.e to show the program length as 23 months.

To calculate the program length in months, we have mapped out a mock schedule for the first cohort, assuming a program start date of September 28, 2027:

<table>
<tr><td>Semester 1</td><td>September 28, 2027 – January 21, 2028</td></tr>
<tr><td></td><td>1 week break (Dec 18 – Dec 26)</td></tr>
<tr><td>Semester 2</td><td>January 24, 2028 – May 12, 2028</td></tr>
<tr><td></td><td>1 week break (May 13 – May 21)</td></tr>
<tr><td>Semester 3</td><td>May 22 – September 8, 2028</td></tr>
<tr><td></td><td>No break</td></tr>
<tr><td>Semester 4</td><td>September 11, 2028 – January 5, 2029</td></tr>
<tr><td></td><td>1 week break (Dec 23 – Jan 2)</td></tr>
<tr><td>Semester 5</td><td>January 8, 2029 – April 27, 2029</td></tr>
<tr><td></td><td>1 week break (Apr 28 – May 6)</td></tr>
<tr><td>Semester 6</td><td>May 7, 2029 – August 24, 2029</td></tr>
</table>
Based on the above mock schedule, students in the first cohort will complete the program in 23 months:
• 3 months in 2027
• 12 months in 2028
• 8 months in 2029</td>
</tr>
</table>

ITEM	DHBC REVIEW	RESPONSE from GURNICK
II.4 Institution's Strategic Plan	**Section II.d.** 1. Section II.d. (p. 96) not updated. • Still states ""Complete curriculum development in accordance with CODA standards,"	Gurnick Academy apologizes for our error in updating our Strategic Plan within the Feasibility Study, and we thank you for catching our error. We have updated the *Academic Affairs* subsection of the *Strategic Goals* section of our **Strategic Plan** to state that curriculum development will be in accordance with both CODA standards and DHBC statutes and regulations: **Strategic Goals** Academic Affairs: Complete curriculum development in accordance with DHBC statutes and regulations and CODA standards, secure full accreditation, and integrate clinical training through the on-site clinic. Interprofessional case studies will be developed with nursing and imaging programs. The updated Strategic Plan can be viewed in **Section II.d**.
III.1 Describe space committed to the program and provide copies of floor plans to include: **c. Laboratories**	**Exhibit III.A.** 1. Hood looks too close to two student benches. • Please ensure adequate room around experiment hood for student safety.	Thank you for bringing this to our attention. Gurnick Academy understands that the hood must be in a location that does not compromise student safety, and in particular, that it must not be adjacent to a single means of access to an exit, it must not be in a main pathway of travel, and that workstations should not be placed directly in front of the hood opening. Gurnick Academy understands that on our Floor Plan, the hood appears to be in close proximity to two of the student workstations. However, the student workstations were not drawn to scale, and the space between the hood and the closest workstations will be larger than currently shown in

ITEM	DHBC REVIEW	RESPONSE from GURNICK
		the plan. Gurnick Academy can confirm that there will be sufficient clearance between the hood and the nearest workstations to protect our students. Gurnick Academy confirms that the workstations will not be directly in front of the hood, and that the hood will not be in a main pathway of travel.

III.3 List educational resources, equipment, supplies purchased or to be purchased for the program.	**Section III.c.**
	2. Tutor Locator Service
	• Unclear.
	  ○ Who will be the tutors? Faculty?
	  ○ What courses? Preclinical, clinical, didactic?
	  ○ How will tutoring be funded?
	  ▪ Part of student contact hours for faculty?
		Gurnick Academy apologizes for the lack of clarity regarding tutoring services. We have expanded upon the description of tutoring services within the Feasibility Study, and the update can be seen in **Section III.c**.
		 
		3. Tutoring Services
		a. While Gurnick Academy of Medical Arts does not offer an institution-wide tutoring program, students interested in receiving tutoring may contact their Program Director to coordinate tutoring sessions. Tutoring sessions may be requested for any course in which a student is currently enrolled at Gurnick Academy of Medical Arts. Tutoring sessions will be conducted by the Program Director or program faculty during scheduled office hours or at an otherwise agreed-upon time. Additionally, a student's Program Director may assign tutoring sessions to a student who has been identified as not achieving satisfactory academic progress. In this instance, the Program Director will arrange individual tutoring with themselves or program faculty to help the student catch up with the program and improve their academic progress. There are no charges to the student for tutoring services.
		We have also provided direct answers to the follow-up questions below:
		• Who will be the tutors?
		  ○ The program director and faculty.
		• What courses?
		  ○ Tutoring will be available for all coursework within the program.

<table>
<tr><th>ITEM</th><th>DHBC REVIEW</th><th>RESPONSE from GURNICK</th></tr>
<tr><td></td><td></td><td>• How will tutoring be funded? Part of student contact hours for faculty?
○ Compensation for tutoring hours is factored into the program director's salary and both full-time and part-time faculty salaries.</td></tr>
<tr><td>IV.A.2 Equipment
c. Laboratory</td><td>Exhibit III.D.
• Exhibit III.D p. 130 not updated.
○ Only lists one model trimmer.</td><td>We apologize that the quantity of model trimmers was not correct in the last quote, and we thank you for bringing this to our attention. Please see the updated quote from Henry Schein in Exhibit III.D which lists 4 model trimmers:
<table><tr><td></td><td></td><td></td><td>Model Trimmer</td><td></td><td></td><td></td></tr><tr><td>4</td><td>BUFF</td><td>365-6944</td><td>Model Trimmer 1/3HP 10"</td><td>$851.99</td><td>$803.00</td><td>$3,212.00</td></tr><tr><td>4</td><td>BUFF</td><td>365-1798</td><td>Model Trimmer Rubber Feet</td><td>$14.49</td><td>$12.00</td><td>$48.00</td></tr><tr><td>4</td><td>BUFF</td><td>365-1901</td><td>Solenoid-Factory Installd</td><td>$218.99</td><td>$158.00</td><td>$632.00</td></tr><tr><td>4</td><td>BUFF</td><td>101-0868</td><td>Dispos-A-Trap/Complete Set</td><td>$65.79</td><td>$39.00</td><td>$156.00</td></tr></table>
Gurnick Academy would also like to note that we have updated the Budget to include the purchase of a fourth model trimmer.</td></tr>
<tr><td>IV.A.2 Equipment
d. Instructional equipment</td><td>Exhibit III.D.
• Unable to find DXTR line item in Exhibit III.D.</td><td>We apologize that the DXTR x-ray training manikins were missing in the last quote, and we thank you for bringing this to our attention. Please see the new quote from Dentsply North America, which includes 5 adult and 1 pediatric x-ray training manikins, in Exhibit III.D.
We are pleased to quote you on the following from Dentsply North America LLC:
<table><tr><th>Item #</th><th>Description</th><th>Unit Price</th><th>Qty</th><th>Total</th></tr><tr><td>546002</td><td>DXTTR III (Natural)</td><td>$16,920.00</td><td>5</td><td>$84,600.00</td></tr><tr><td>546006</td><td>Pedo DXTTR Jr. (Polymeric Resin)</td><td>$9,050.00</td><td>1</td><td>$9,050.00</td></tr></table></td></tr>
</table>

ITEM	DHBC REVIEW	RESPONSE from GURNICK
		Gurnick Academy would also like to note that we have updated the **Budget** to accommodate the increased pricing of the DXTR manikins.
IV.C Faculty 12. Travel for student supervision.	**Section IV.C.12** • No travel budget for faculty to supervise at professional conferences (e.g., ADA or CDA meetings, table clinics, etc.) that students attend as a part of their program?	Gurnick Academy apologizes for this oversight in our last response. We have not included a separate line item within our program budget for student supervision at professional conferences as this expense will be covered under "Educational Conferences" and "Employee Reimbursement Expenses". These line items can be found within the **Budget**. We have updated the budget line for "Educational Conferences" by $5,000.00 annually in order to cover the costs of student supervision at conferences as well as "Employee Reimbursement Expenses" by $1,000 annually in order to cover travel costs for student supervision.
V.1 Admissions Criteria b. Educational program selection policies	**Section V.a.** • V.a Admission Criteria not updated. ○ #6 - Unscored written still included on page 159. • Link on page 159 is incorrect. We are the DHBC, not the DBC. Please correct. https://dhbc.ca.gov/applicants/index.shtml	Thank you for bringing this to our attention and for catching our error. We have removed the description of the unscored essay and updated the DHBC link in **Section V.a. Admission Criteria**.

ITEM	DHBC REVIEW	RESPONSE from GURNICK
V.2 Progression and graduation criteria b. Educational program's criteria for progression and graduation	**Section V.b.** 2. Biomedical and Dental Sciences Content (16 CCR section 1105.2(d)(1) – (2)) b. Nitrous Oxide-Oxygen analgesia (p. 176 DH225) i. Refers to it incorrectly as "sedation". Please correct to "analgesia" as it is against the Dental Practice Act for a registered dental hygienist to administer "sedation".	Thank you for bringing our attention to this issue. We have updated the course description for DH 225 *Pain Management Theory and Lab* to address the topic of nitrous oxide-oxygen analgesia rather than nitrous oxide-oxygen sedation: **DH 225 Pain Management Theory and Lab** **Credits:** 2.5 (1.5 Lecture/1Lab/0Practicum) **Prerequisite:** **Course Description:** This course integrates didactic instruction with hands-on practice in the administration of local anesthesia and nitrous oxide/oxygen analgesia. Students review neurophysiology and dental anatomy and study the pharmacology of local anesthetics and vasoconstrictors. Lecture content emphasizes drugs, armamentarium, injection techniques, and management of complications. Emergency preparedness and medical emergency management are reinforced. The nitrous oxide/oxygen analgesia component focuses on equipment, safety protocols, systemic effects, and proper administration techniques. Gurnick Academy understands that this is an important distinction, and the update can be found in the **Course Descriptions** in **Section V.b**.
V.2 Progression and graduation criteria b. Educational program's criteria for progression and graduation	**Section V.b.** 2. Biomedical and Dental Sciences Content (16 CCR section 1105.2(d)(1) – (2)) m. Provision of Oral Health Care Services to Patients with Bloodborne Infectious Diseases i. Not found in descriptions.	Gurnick Academy apologizes for our oversight in not including a more detailed explanation within our course descriptions of the infection control content which will be taught in our dental hygiene program. Gurnick Academy understands the importance of instructing students on infection and hazard control and will instruct our students on universal precautions, including providing oral health care services to patients with bloodborne infectious diseases. Gurnick Academy confirms

ITEM	DHBC REVIEW	RESPONSE from GURNICK
		that these standards will be covered in the following courses: • DH 100 Introduction to Dental Hygiene/Preclinic • DH 130 Radiology/Lab • DH 200 Dental Hygiene Clinical Theory/Practicum II • DH 230 Dental Hygiene Clinical Theory/Practicum III • DH 215 Dental Hygiene Public Health and Research • DH 240 Patients with Special Needs • DH 250 Dental Hygiene Clinical Theory/Practicum IV • DH 280 Community Dental Health and Education Additionally, we have updated the **Course Description** in **Section V.b**. for DH 100 *Introduction to Dental Hygiene/Preclinic* to state that services to patients with bloodborne infectious diseases will be taught with infection and hazard control: **DH 100 Introduction to Dental Hygiene/Preclinic** **Credits:** 3.5 (1.5Lecture/0Lab/2Practicum) **Prerequisite:** Acceptance into the Dental Hygiene Program **Course Description:** This course introduces students to the dental hygiene profession and the clinical environment. Lecture and laboratory experiences cover the theoretical foundations and clinical applications of fundamental dental hygiene procedures. Topics include infection and hazard control, which includes service to patients with bloodborne infectious diseases, microbiology, sterilization and monitoring, aseptic technique, OSHA standards, client management, patient positioning, ergonomics, assessment data gathering, documentation, and the basic principles of dental instruments and instrumentation. Students gain hands-on experience in collecting and documenting patient assessment data and practicing basic instrumentation skills essential for beginning clinical care.

A Feasibility Study to Establish an Associate of Science in Dental Hygiene Degree Program

GURNICK ACADEMY of MEDICAL ARTS - MODESTO

V. 03/2026

RE: Institutions Seeking Approval of a New RDH Program
Form EDP-I-01 Rev 7/2022

Institution: Gurnick Academy of Medical Arts (Gurnick Academy) – Modesto
4712 Stoddard Rd #200
Modesto, CA 95356

Submitted to: Dental Hygiene Board of California
Department of Consumer Affairs

Submitted in partial fulfillment of the requirements set forth by the Dental Hygiene Board of California (DHBC), documenting the need for a new RDH program, and the ability to develop, execute, and sustain a Dental Hygiene Program.

Submission Date: March 2, 2026

Institution Contact: Lisa Dianda MA, BA, ThB, RMA

INTRODUCTION

Gurnick Academy of Medical Arts (Gurnick Academy) is a private, California-based institution with six campuses located across the State. Gurnick Academy is proud to have offered Allied Health and Nursing Programs to Californians for over twenty years, since we opened the doors of our San Mateo campus in 2004. Gurnick Academy – Modesto began operations in 2007 with our Vocational Nursing program. Now, Gurnick Academy – Modesto is seeking to expand our operations in the Central Valley to open a dental hygiene program to help meet the need for qualified dental hygienist graduates in this region.

Dental hygiene is rooted in promoting public health and improving quality of life, which is directly tied to our goal of serving and supporting our communities. Gurnick Academy – Modesto is driven by a deep commitment to the transformative impact of education, which we would like to extend to students seeking careers in dental hygiene. At Gurnick Academy – Modesto we don't just teach skills, we inspire confidence, compassion, and dedication. This will not only aid dental hygiene students in achieving their personal goals, but in better serving their communities.

In our eighteen years of operation, Gurnick Academy – Modesto has proven itself capable of continuous growth to serve the needs of our students and community. Gurnick Academy – Modesto is familiar with the resources, time, and dedication required to successfully implement a new program, especially one in the Allied Health field, as proven by the establishment of our successful A.S. in MRI, A.O.S in Respiratory Therapy, Vocational Nursing, Dental Assisting, and Medical Assisting programs. Gurnick Academy - Modesto is equipped with the knowledge, experience, and resources to continue on this path of success with our dental hygiene program.

Dental hygiene is a dynamic profession that continues to evolve with technological advancements and research. Its integration into overall patient care is essential for promoting oral health and preventing dental diseases, ultimately contributing to improved quality of life. Our desire to add a dental hygiene program at our Modesto campus stems from the demonstrated need for qualified dental hygienists in the Central Valley and the improved health and well-being of the residents of this region. Gurnick Academy – Modesto would like to offer students the ability to enter this much-needed profession.

During the Commission on Dental Accreditation's (CODA) 2024 Winter Meeting, the information report from the dental hygiene education programs' annual survey was presented. Below is an excerpt from this report which provides evidence as to the favorable outlook for dental hygienist employment and the need for additional dental hygiene programs:

> "Our nation is facing a severe shortage of dental hygienists and assistants; this shortage has been exacerbated by the COVID-19 pandemic. Currently, 95% of dentists seeking to hire a hygienist and 87% of dentists seeking to hire an assistant find the hiring process to be extremely or very challenging. A 2020 study by the American Dental Hygienists' Association

(ADHA) found that the pandemic resulted in a voluntary contraction of the U.S. dental hygiene workforce by an estimated 3.75%, or approximately 7,500 dental hygienists. Furthermore, an October 2022 study by the American Dental Association (ADA), ADHA, and the Dental Assisting National Board found one-third of the hygienists and assistant workforce indicated they expect to retire in five years or less.

The severe shortage of hygienists and assistants is having a negative impact on access to care, with patients having to wait months to receive preventive dental care in both private practice and public health settings.

This shortage and the need to make impactful, timely changes cannot be overstated."

Gurnick Academy would like to answer CODA's call for impactful, timely changes by opening a dental hygiene program at our Modesto campus. We appreciate the Board's review of our Feasibility Study, and we look forward to working with you to open this much-needed program to better serve the community of Stanislaus County and the Central Valley.

SECTION I

Rationale for Development of a New Educational Program

Provide rationale for development of a new program, including statistical data and other relevant information that addresses:

a. *Regional labor statistics regarding projected need for this type of licensee.*
   - *Provide summary comments and tables as necessary and cite original source of information from the California Employment Development Department – Labor Market Information or an equivalent State or County agency.*

b. *Potential local/regional industry employment statistics regarding current open positions and projected needs for additional licensees including any workforce shortage areas.*
   - *Copy of source data used*
   - *Summary of findings*
   - *Tabulated results*

c. *Description of the characteristics of the population in the community being served by the program including oral health needs.*

d. *Impact on RDH educational programs within a 100-mile radius of the proposed program by contacting all approved existing educational programs in regard to:*
   - *Locale, region, or state(s) from which students are drawn.*
   - *Whether there is a "waiting list" or more qualified applicants than admitted annually.*
   - *Length of time it takes licensed graduates to obtain gainful employment (at least 3 days per week) in dental hygiene.*

e. *Description of the length of the program, type of degree(s) granted, the intended start date, projected size of the first class, and enrollment projection for the first five years and method for determining the projected enrollment.*

f. *Plans for promoting and marketing the proposed program.*

g. *Projected timeline for planning and initiating program.*

I.a Regional Labor Statistics

a. *Regional labor statistics regarding projected need for this type of licensee.*
   - *Provide summary comments and tables as necessary and cite original source of information from the California Employment Development Department – Labor Market Information or an equivalent State or County agency.*

Regional labor statistics reveal that there is currently a need for dental hygienists in Stanislaus County, the Central Valley region, and in California as a whole. Regional labor statistics also reveal that the need for dental hygienist licensees is projected to grow over the next 10 years (Exhibit I.A and Exhibit I.B)

According to O*Net OnLine, the employment of dental hygienists in California is expected to grow 15% from 2022 to 2032, and there are projected to be 2,120 job openings annually in the State (Exhibit I.A). This growth is attributed to the expanding role of the dental hygienist in patient care, and as stated by the Bureau of Labor and Statistics (BLS): "Demand for dental services is expected to increase as the large baby-boom population ages and as people keep more of their original teeth than in previous generations." (Exhibit I.B).

Furthermore, the California Employment Development Department (EDD) states that from 2020-2030 there is a ten-year projected need for 1,430 dental hygienists in the Stanislaus Valley region, and a ten-year projected need for 21,230 dental hygienists in the state of California from 2022-2032. The EDD breaks down the need for additional dental hygienists into the following areas as shown in the table below: 10-year total job change, openings from exits, and openings from transfers. Please see Exhibit I.C for the EDD source material.

Stanislaus Valley Region 2020-2030	**Statewide in California 2022-2032**
340 openings from 10-year total job change	3,800 openings from 10-year total job change
640 openings from exits	11,540 openings from exits
450 openings from transfers	5,890 openings from transfers
1,430 Total Job Openings	**21,230 Total Job Openings**

Projections Central, sponsored by the US Department of Labor, confirms the EDD's and O*Net OnLine's projected need for dental hygienists in California, citing 25,000 employed dental hygienists in 2022 and a projected 28,800 employed dental hygienists in 2032. This is a change of 3,800 dental hygienists over the next ten years, or 15.2%, with an average of 2,120 annual job openings in California (please see Exhibit I.D).

Additionally, the California Department of Health Care Access and Information's *Health Workforce*

Research Data Center Annual Report to the Legislature – April 2025 confirms the need for dental hygienists in the Central Valley region. The data from the April 2025 report states that there is an under-distribution of registered dental hygienists in the San Joaquin Valley as can been seen in their Distribution Index: Oral Health, provided in Exhibit I.E.

Finally, the California Dental Association (CDA) summarily confirms the need for dental hygienists in California by stating that there are "ongoing critical staffing shortages for registered dental hygienists (RDHs)" which "pose a threat to patient care and practice sustainability". Furthermore, the CDA states the "hygiene shortage has been driven by several factors", including "lack of affordable local training options" (CDA – California's Dental Workforce: https://www.cda.org/advocacy/californias-dental-workforce/).

I.b Potential local/regional industry employment statistics

b. Potential local/regional industry employment statistics regarding current open positions and projected needs for additional licensees including any workforce shortage areas.

- *Copy of source data used*
- *Summary of findings*
- *Tabulated results*

Overall, the employment landscape for dental hygienists has a bright outlook, according to O*Net OnLine (Exhibit I.A). The Bureau of Labor and Statistics (BLS) projects nationwide employment of dental hygienists to grow 9% from 2023 - 2033, much faster than the average for all occupations (Exhibit I.B), and both O*Net OnLine and Projections Central predict employment to grow 15% from 2022 - 2032 in the state of California (Exhibit I.A and Exhibit I.D). Furthermore, the BLS Occupational Employment and Wages Statistics (OEWS) from May 2023 cites California as the state with the highest employment level of dental hygienists, noting 24,880 currently employed individuals (please see Exhibit I.F).

To further determine that there is a current and future need for dental hygienists in California and in the Stanislaus Valley region, Gurnick Academy researched and reviewed current job postings for dental hygienist openings in the Stanislaus Valley region and throughout the state of California. Gurnick Academy used SimplyHired, GlassDoor, and ZipRecruiter as a sample of employment websites to conduct this research. As of July 1, 2025, there were 33 dental hygienist job openings in Modesto posted on SimplyHired, 30 posted on GlassDoor, and 31 posted on ZipRecruiter. As of July 1, 2025, there were 609 dental hygienist job openings in the state of California posted on SimplyHired, 532 posted on GlassDoor, and 848 posted on ZipRecruiter. Please see Exhibit I.G for screenshots of the total job openings on the sampled employment websites.

Dental Hygienist Job Openings as of July 1, 2025			
	SimplyHired	**GlassDoor**	**ZipRecruiter**
Stanislaus Valley Region	33	30	31
California	609	532	848

Additionally, the wage data for dental hygienists in California is strong. OEWS reports that dental hygienists in California earn an annual mean wage of $118,330.00 and an hourly mean wage of $56.89, making dental hygienists in California the second highest paid in the United States, according to the OEWS statistics (Exhibit I.F). This wage information is supported by data from CareerOneStop whose 2024 statistics cite the median yearly pay for dental hygienists in California as $121,080.00 and the median hourly pay as $58.21 (please see Exhibit I.G). Data from the California EDD also supports this wage information, citing the median hourly wage for dental hygienists in the Stanislaus Valley Region as $54.00, and the median

hourly wage for dental hygienists in California as $60.00, as of the 1st Quarter 2024 (Exhibit I.C).

Dental Hygienist Wages in California			
	OEWS 2023 Mean	**CareerOneStop 2024 Median**	**CA EDD 2024 Median**
Annual Wage	$118,330.00	$121,080.00	--
Hourly Wage	$56.89	$58.21	$60.00

Further research conducted by Gurnick Academy supports the salary data presented above. Indeed's Career Explorer tool cites the average base salary for dental hygienists in California as $60.97 per hour, 16% above the national average (please see Exhibit I.H). Indeed's average salary is taken from 13,900 job postings on Indeed in the past 36 months, last updated on June 30, 2025.

The positive career outlook for dental hygienists is additionally supported by the 2025 Dental Hygienist Salary Report conducted by DentalPost (please see Exhibit I.I). Key takeaways from the 2025 report include:

- Compensation is on an upswing: the mean total income of responding RDHs rose for the third year running.
- The national average hourly wage for dental hygienists rose 6.8% to $48.85.
- 50% of responding dental hygienists were satisfied or very satisfied with their compensation.
- Nearly a third (31.2%) of responding hygienists say they plan to retire within six years.
- 66.3% of responding RDHs say they do not plan to apply for new jobs.

Finally, Gurnick Academy conducted its own survey of dental hygienist employers from the Stanislaus Valley Region surrounding Modesto. Gurnick Academy sent out approximately 95 "Employer Questionnaire – Hiring Trends" surveys to local employers between January 19, 2024, and September 5, 2024. The survey asked employers how many dental hygienists they anticipated hiring over the next 12 months and if the level of demand in the area surrounding their practice/facility is high, moderate, low, or if there is no demand. Gurnick Academy received responses from 49 of the employers, and their survey responses can be provided upon request.

The responding employers reported that they anticipated hiring a combined total between 68 and 92 dental hygienists in the Stanislaus Valley Region in the next 12 months. Only 3 of the 49 responding employers reported no anticipated hires. Additionally, none of the responding employers reported that there is no demand for dental hygienists in the area surrounding their practice/facility. 29 of the responding employers (59%) reported that the level of demand in their area was high, 15 (31%) reported a moderate level of demand, and 10 (10%) reported a low level of demand in their area. A tabulated summary of the results has been provided below:

Gurnick Academy Employer Questionnaire – Hiring Trends Survey Anticipated Hires and Level of Demand for Employers in the Stanislaus Valley Region			
	Employer	**Anticipated Hires in the Next 12 Months**	**Level of Demand**
1	Pacific Dental Services (multiple sites)	5	Moderate
2	Bell Family Dentistry	2	High
3	Dr Yee and Assoc	1	Moderate

TOTALS		68 – 92 Anticipated hires in the next 12 months	59% High Demand 31% Moderate Demand 10% Low Demand

Lastly, to provide further evidence of the need for dental hygienists in the Modesto/Stanislaus Valley Region, Gurnick Academy has received five (5) endorsement letters from local employers which attest to the need for a local dental hygiene program as well as the need for more qualified hygienists in this area. Gurnick Academy has provided copies of the letters received from Care 2 U, Paragon Dental, Livingston Community Health, Modesto Gospel Mission, and Dr. Trevor Thorn as Exhibit I.J.

I.c Description of the Characteristics of the Community Served by Program Including Oral Health Needs.

c. Description of the characteristics of the population in the community being served by the program including oral health needs.

Gurnick Academy - Modesto's Dental Hygiene Program intends to serve a variety of populations from the following counties in the Central Valley region: Stanislaus, Calaveras, Tuolumne, Mariposa, and Merced. Please find a description of these counties and their populations below:

Stanislaus County

According to the U.S. Census Bureau, Stanislaus County has 1,496.2 square miles of land area and the 30th largest county in California by total area. The population, as of the 2020 Decennial Census, is 552,878. The employment rate is 56.8%, and the median household income is $78,673 according to the 2024 American Community Survey 1-Year Estimates. 14.2% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 19.7% of the population in Stanislaus County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Stanislaus County is 35.2, with 14.4% of the population 65 years and older. Lastly, the U.S. Census Bureau reports that 5% of the population in Stanislaus County is without health care coverage.

Stanislaus County Race and Ethnicity	
American Indian and Alaska Native	10,543
Asian	34,778
Black or African American	15,913
Hispanic or Latino	265,978
Native Hawaiian and Other Pacific Islander	4,269
Not Hispanic or Latino	207,908
Some Other Race	146,129
Two or More Races	84,644
White	256,602

Source: https://data.census.gov/profile/Stanislaus_County,_California?g=050XX00US06099

Calaveras County

According to the U.S. Census Bureau, Calaveras County has 1,020.0 square miles of land area and is the 40th largest county in California by total area. The population, as of the 2020 Decennial Census, is 45,292. The employment rate is 45.6%, and the median household income is $79,877 according to the 2023 American Community Survey 5-Year Estimates. 13.4% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 22.2% of the population in Calaveras

County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Calaveras County is 52.0 and 28.7% of the population is 65 years and older. Lastly, the U.S. Census Bureau reports that 5.3% of the population in Calaveras County is without health care coverage.

Calaveras County Race and Ethnicity	
American Indian and Alaska Native	747
Asian	743
Black or African American	364
Hispanic or Latino	5,865
Native Hawaiian and Other Pacific Islander	100
Not Hispanic or Latino	34,668
Some Other Race	1,995
Two or More Races	5,028
White	36,315

Source: https://data.census.gov/profile/Calaveras_County,_California?g=050XX00US06009

Tuolumne County

According to the U.S. Census Bureau, Tuolumne County has 2,220.9 square miles of land area and is the 23rd largest county in California by total area. The population, as of the 2020 Decennial Census, is 55,620. The employment rate is 45.4%, and the median household income is $72,259 according to the 2023 American Community Survey 5-Year Estimates. 10.7% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 23.9% of the population in Tuolumne County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Tuolumne County is 48.8 and 27.7% of the population is 65 years and older. Lastly, the U.S. Census Bureau reports that 5.8% of the population in Tuolumne County is without health care coverage.

Tuolumne County Race and Ethnicity	
American Indian and Alaska Native	984
Asian	816
Black or African American	1,009
Hispanic or Latino	7,124
Native Hawaiian and Other Pacific Islander	123
Not Hispanic or Latino	42,254
Some Other Race	2,808
Two or More Races	5,673
White	44,207

Source: https://data.census.gov/profile/Tuolumne_County,_California?g=050XX00US06109

Mariposa County

According to the U.S. Census Bureau, Mariposa County has 1,448.8 square miles of land area and is the 31st largest county in California by total area. The population, as of the 2020 Decennial Census, is 17,131. The employment rate is 50.8%, and the median household income is $65,378 according to the 2023 American Community Survey 5-Year Estimates. 13.9% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 30.9% of the population in Mariposa County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Mariposa County is 51.6 and 29.4% of the population is 65 years and older. Lastly, the U.S. Census Bureau reports that 6.5% of the population in Mariposa County is without health care coverage.

Mariposa County Race and Ethnicity	
American Indian and Alaska Native	497
Asian	298
Black or African American	108
Hispanic or Latino	2,140
Native Hawaiian and Other Pacific Islander	15
Not Hispanic or Latino	12,838
Some Other Race	796
Two or More Races	2,032
White	13,385

Source: https://data.census.gov/profile/Mariposa_County,_California?g=050XX00US06043

Merced County

According to the U.S. Census Bureau, Merced County has 1,938.0 square miles of land area and is the 25th largest county in California by total area. The population, as of the 2020 Decennial Census, is 281,202. The employment rate is 55.5%, and the median household income is $64,980 according to the 2024 American Community Survey 1-Year Estimates. 18.7% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 15.7% of the population in Merced County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Merced County is 32.2 and 12.0% of the population is 65 years and older. Lastly, the U.S. Census Bureau reports that 7.2% of the population in Merced County is without health care coverage.

Merced County Race and Ethnicity	
American Indian and Alaska Native	7,518
Asian	20,715
Black or African American	9,158
Hispanic or Latino	173,857
Native Hawaiian and Other Pacific Islander	807
Not Hispanic or Latino	68,729

Merced County Race and Ethnicity	
Some Other Race	89,115
Two or More Races	49,355
White	104,534

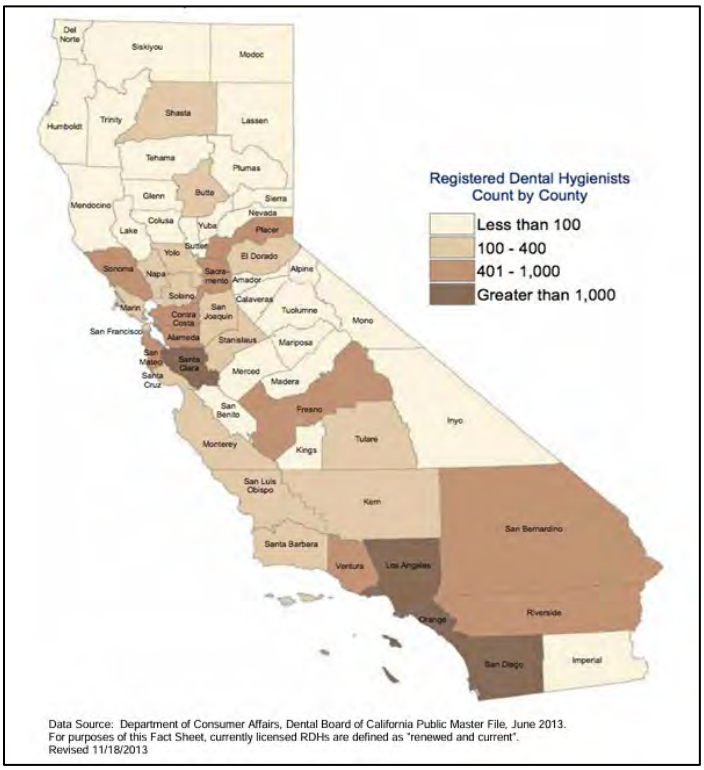
Designated Rural Counties

According to the Rural Health Information Hub, the counties adjacent to Gurnick Academy - Modesto (Calaveras, Tuolumne, and Mariposa) are designated as rural counties by the Federal Office of Rural Health Policy (please see Exhibit I.L). In addition to being identified as rural, Tuolumne County is designated as having a shortage of dental care (Exhibit I.L).

Oral Health Needs



The California Department of Public Health's (CDPH) *State Burden Report*, states:

> "...oral diseases are highly prevalent in all stages of life among California residents. Further, these diseases are correlated with socioeconomic factors such as income, race and ethnicity and education. Although effective preventive measures are available, both clinical dental services and community level interventions are underutilized."

The CDPH *State Burden Report* also states that "A critical component of quality care is access to services". However, according to the Dental Board of California:

> "Over 50 percent of dentists with California licenses reside in 5 of the 58 California counties, according to the 2013 OSHPD survey. Less than 40 percent provide dental services in the other 53 counties in California (11 percent of dentists live out of state). The 5 counties with the most dentists were Los Angeles, Orange, San Diego, Santa Clara, and Alameda—a total of 18,659 dentists."

Stanislaus, Calaveras, Tuolumne, Mariposa, and Merced Counties are part of the 53 California counties that share less than 40% of the state's dental services. The figures below from the CDPH *State Burden Report* shows that there are less than 100 Registered Dental Hygienists in Calaveras, Tuolumne, Mariposa, and Merced Counties, and 100 – 400 Registered Dental Hygienists in Stanislaus County, thus demonstrating the need for dental hygienists and increased dental services in this region:

Lastly, the CDPH *State Burden Report* further states that

> "One cause of oral health disparities is a lack of access to dental services, in particular among racial/ethnic populations. Nearly 50 percent of dentists in California are Caucasian/ White/ European or Middle Eastern. Dentists who identify as African-American/ Black/ African, Latino/ Hispanic, Indian/ Native-American/ Alaska-native or native-Hawaiian/ Pacific-Islander make up less than 10 percent of the workforce. The predominant language spoken by dentists is English, and Spanish is second...
>
> Increasing the number of dental professionals from these under-represented racial and ethnic groups is viewed as an integral part of the solution to improving access to care."

https://www.cdph.ca.gov/Programs/CCDPHP/DCDIC/CDCB/CDPH%20Document%20Library/Oral%20Health%20Program/Status%20of%20Oral%20Health%20in%20California_FINAL_04.20.2017_ADA.pdf

It is the goal of Gurnick Academy - Modesto's Dental Hygiene Program to provide dental services to the residents of Stanislaus, Calaveras, Tuolumne, Mariposa, and Merced Counties, and increase the number of dental professionals in the Central Valley region.

1.d Impact on RDH Educational Programs

d. Impact on RDH educational programs within a 100-mile radius of the proposed program by contacting all approved existing educational programs in regard to:

- *Locale, region, or state(s) from which students are drawn.*
- *Whether there is a "waiting list" or more qualified applicants than admitted annually.*
- *Length of time it takes licensed graduates to obtain gainful employment (at least 3 days per week) in dental hygiene.*

According to the Commission on Dental Accreditation (CODA), as of July 2025, there are 346 accredited dental hygiene programs in the United States, and 26 of these accredited programs are in California. Within the 100-mile area surrounding Gurnick Academy's Modesto Campus, there are eight accredited dental hygiene programs. Gurnick Academy reached out to the Program Directors at each of the eight programs for the information requested in the Feasibility Study, and their responses have been provided in Exhibit I.K. Additionally, a summary of the results has been provided in the tables below. Three out of the eight Program Directors declined to respond to our attempts at outreach, and consequently, our assessment of the impact of our dental hygiene program on the surrounding institutions is based on the feedback from the five responding institutions.

Per the Feasibility Study Instructions Form, the following questions were addressed to each institution:

a. Locale, Region, or State(s) from which students are drawn.
b. Whether there is a 'waiting list' for more qualified applicants than are admitted annually.
c. Length of time it takes for licensed graduates to obtain gainful employment (at least 3 days a week) in dental hygiene.

1. Fresno City College Fresno	
Distance from Gurnick Academy's Modesto Campus	97 miles
Address	1101 East University Fresno, CA 93741
Website	http://www.fresnocitycollege.edu
Program Director	JoAnn Marie Pacheco joanne.pacheco@fresnocitycollege.edu
Locale, Region, or State(s) from which students are drawn:	Students are drawn locally and from the lower central regions of California including the counties of Fresno, Madera, Kings, Tulare, and San Benito.
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	The Program Director shared the average number of applicants for each cohort is 150 with 100% of them qualified. 30% of the qualified applicants are accepted.

Length of time it takes for licensed graduates to obtain gainful employment:	The Program Director shared that students obtain employment immediately after graduation.

2. University of the Pacific San Francisco	
Distance from Gurnick Academy's Modesto Campus	96 miles
Address	155 5th St #2919 San Francisco, CA 94103
Website	http://dental.pacific.edu/
Program Director	Lory Laughter llaughter@pacific.edu
Locale, Region, or State(s) from which students are drawn:	Students are drawn from out of state, as well as all regions of Northern California for the accelerated Bachelor Program.
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	The Program Director shared the program averages 48 applicants per program with about 75% qualified. The program accepts 22 students annually.
Length of time it takes for licensed graduates to obtain gainful employment:	Students obtain employment within 4 to 6 weeks of graduation.

3. Carrington College San Jose	
Distance from Gurnick Academy's Modesto Campus	95 miles
Address	5883 Rue Ferrari, Ste 125 San Jose, CA 95138
Website	http://carrington.edu/schools/san-jose-california/dental-hygiene-program/
Program Director	Jennifer Doupnik JDoupnik@carrington.edu
Locale, Region, or State(s) from which students are drawn:	Students are drawn from San Francisco/San Mateo Peninsula, East Bay (Alameda County), and South Bay (Santa Cruz, San Mateo, & San Benito Counties).
Whether there is a 'waiting list' for more qualified applicants	The Program Director estimated 80-100 average applicants per enrollment period. The PD shares that 100% of

3. Carrington College San Jose	
than are admitted annually:	applicants are qualified. 30 students are accepted every 8 months, with a standby list for that cohort only.
Length of time it takes for licensed graduates to obtain gainful employment:	The 'majority of students have employment secured prior to graduation'.

4. Foothill College San Jose	
Distance from Gurnick Academy's Modesto Campus	87 miles
Address	12345 El Monte Road Los Altos Hills, CA 94022
Website	http://www.foothill.edu/
Program Director	Patti Chan chanpatti@fhda.edu
Locale, Region, or State(s) from which students are drawn:	Declined to Respond
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	Declined to Respond
Length of time it takes for licensed graduates to obtain gainful employment:	Declined to Respond

5. Carrington College Sacramento	
Distance from Gurnick Academy's Modesto Campus	81 miles
Address	8909 Folsom Sacramento, CA 95826
Website	http://carrington.edu
Program Director	Tara Clor TClor@carrington.edu Marie Frankos (PD from 9/2022 - 12/2023) mfrankosslco@gmail.com Program Director Tara Clor did not respond to our attempts to contact her via email or phone outreach. Responses

5. Carrington College Sacramento	
	below were provided by Marie Frankos, MPH, BSRDH, the former Carrington Sacramento Program Director.
Locale, Region, or State(s) from which students are drawn:	Students are drawn from East Bay (Alameda, Contra-Costa), North Bay (Marin, Napa, Sacramento, and Amador counties), Northern Rural counties (Sutter, Placer, El Dorado)
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	Ms. Frankos estimated 100-150 applicants. The percentage of qualified applicants was "more than half". The program enrolls 30 students and has a Waitlist for one quarter.
Length of time it takes for licensed graduates to obtain gainful employment:	Students obtain employment within 4 to 6 weeks of graduation.

6. Sacramento City College Sacramento	
Distance from Gurnick Academy's Modesto Campus	78 miles
Address	3835 Freeport Blvd Sacramento, CA 95822
Website	http://www.scc.losrios.edu/dental/
Program Director	Melissa Marie Fellman fellmam@scc.losrios.edu
Locale, Region, or State(s) from which students are drawn:	Declined to Respond
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	Declined to Respond
Length of time it takes for licensed graduates to obtain gainful employment:	Declined to Respond

7. Diablo Valley College Livermore	
Distance from Gurnick Academy's Modesto Campus	76 miles
Address	321 Golf Club Road Pleasant Hill, CA 94523

7. Diablo Valley College Livermore	
Website	https://www.dvc.edu/academics/explore-our-programs/dental-hygiene
Program Director	Tonette Steeb tsteeb@dvc.edu
Locale, Region, or State(s) from which students are drawn:	Declined to Respond
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	Declined to Respond
Length of time it takes for licensed graduates to obtain gainful employment:	Declined to Respond

8. Chabot College Hayward	
Distance from Gurnick Academy's Modesto Campus	68 miles
Address	25555 Hesperian Blvd. Hayward, CA 94545
Website	http://www.chabotcollege.edu/dhyg
Program Director	Julie Coan jcoan@chabotcollege.edu
Locale, Region, or State(s) from which students are drawn:	Students are drawn from San Francisco and San Mateo peninsula counties, East Bay (Alameda, Contra Costa, San Joaquin) and South Bay (Stanislaus and Santa Clara counties).
Whether there is a 'waiting list' for more qualified applicants than are admitted annually:	The Program Director shared that annually 20 students are enrolled with a standby list of 35. There are 212 applicants. The number of approved but not accepted is 53. She noted the other 74 are usually application errors.
Length of time it takes for licensed graduates to obtain gainful employment:	Students obtain employment generally within 6 months of graduation.

Summary of Qualified Applicants Not Admitted to or Waitlisted for Existing Programs

Based on the data provided by the Program Directors from Fresno City College, University of the Pacific, Carrington San Jose, Carrington Sacramento, and Chabot College, Gurnick Academy has estimated that there are approximately 178 qualified applicants who are not admitted to or waitlisted for the existing programs from the responding institutions each year. Please see the table below:

Summary of Qualified Applicants Not Admitted to or Waitlisted for Existing Programs					
	# of Applicants Selected (the lowest estimate)	**# of Qualified Applicants**	**# of Accepted Applicants**	**# of Applicants Waitlisted**	**Estimated # of Qualified Applicants Not Accepted or Waitlisted**
Fresno City College	150	150 (100%)	45 (30%)	Unknown (Assume 23)	82
University of the Pacific	48	36 (75%)	22	*Unknown* (Assume 11)	3
Carrington San Jose	80	80 (100%)	30	*Unknown* (Assume 15)	35
Carrington Sacramento	100	50 ("more than half")	30	Unknown (Assume 15)	5
Chabot College	212	108	20	35	53
Total Estimated # of Qualified Applicants Not Accepted or Waitlisted					**178**

The data provided in the table above demonstrates a sufficiently large applicant pool to continue to support full enrollments for all five responding institutions without a negative impact from Gurnick Academy's new program.

Gurnick intends to enroll 1 cohort annually of 24 students, with a waitlist of 10 students. In the unlikely event that Gurnick Academy were to pull all of our applicants from the same pool of qualified applicants as the five responding institutions, there would still be an estimated annual surplus of 148 qualified applicants in the 100-mile area surrounding Gurnick Academy's Modesto Campus (178 – 20 – 10 = 148). This demonstrates that there will continue to be a healthy, sustainable applicant pool for both the responding institutions and Gurnick Academy.

Summary of Geographic Recruitment Areas

Gurnick Academy does not foresee our institution recruiting applicants from the same geographic areas as the responding institutions. Gurnick Academy's intent is to recruit candidates for our dental hygiene program from a smaller radius surrounding our Modesto campus. Gurnick Academy's Modesto Campus

expects to draw students from Stanislaus County and our eastern border counties of Calaveras, Tuolumne, Southern Mariposa, and Merced Counties. The only overlap in recruiting zones that we identified from the five responding institutions is with Chabot College in Stanislaus County:

	Locale, Region, or State(s) from which students are drawn:	Overlap with Gurnick Academy's Recruitment Zone: Stanislaus, Calaveras, Tuolumne, Southern Mariposa, and Merced Counties
Gurnick Academy - Modesto	Stanislaus, Calaveras, Tuolumne, Southern Mariposa, and Merced Counties	--
Fresno City College	Fresno, Madera, Kings, Tulare, and San Benito Counties.	None
University of the Pacific	Out of State All regions of Northern California	None
Carrington San Jose	San Francisco/San Mateo Peninsula, East Bay (Alameda County), and South Bay (Santa Cruz, San Mateo, & San Benito Counties)	None
Carrington Sacramento	Students are drawn from East Bay (Alameda, Contra-Costa), North Bay (Marin, Napa, Sacramento, and Amador counties), Northern Rural counties (Sutter, Placer, El Dorado)	None
Chabot College	Students are drawn from San Francisco and San Mateo peninsula counties, East Bay (Alameda, Contra Costa, San Joaquin) and South Bay (Stanislaus and Santa Clara counties).	Stanislaus County

Other Differentiators

General Education Coursework: Gurnick also foresees that our impact on seven of the eight schools in a 100-mile radius of our Modesto Campus may be additionally minimized due to our dental hygiene program including the necessary General Education courses. Gurnick Academy does not intend to require applicants to have completed the required GE courses prior to applying for the program. This should create additional variety between our applicant pool and those of our neighboring institutions who require that the full list of prerequisite GE courses be completed prior to acceptance as a qualified applicant.

Differentiator: General Education Coursework			
	GE Courses NOT Required to be Completed Prior to Program Acceptance	**GE Courses REQUIRED to be Completed PRIOR to Program Acceptance**	**Source**
Gurnick Academy - Modesto	X		
1. Fresno City College		X	DH Application Requirements
2. University of the Pacific	X		DH Coursework
3. Carrington San Jose		X	DH Admission Requirements
4. Foothill College San Jose		X	DH Prerequisites
5. Carrington Sacramento		X	DH Admission Requirements
6. Sacramento City College		X	DH Enrollment Eligibility
7. Diablo Valley College Livermore		X	DH Prerequisite & Required Coursework
8. Chabot College		X	DH Admission Requirements

Degree-level: Gurnick Academy intends to offer an associate degree-level program while the University of the Pacific and Foothill College San Jose both offer bachelor's degree-level programs, thus further minimizing the impact our program will have on these institutions.

Differentiator: Degree-level		
	ASDH	**BSDH**
Gurnick Academy - Modesto	X	
1. Fresno City College	X	X
2. University of the Pacific		X
3. Carrington San Jose	X

Differentiator: Degree-level		
	ASDH	**BSDH**
6. Sacramento City College	X	
7. Diablo Valley College Livermore	X	
8. Chabot College	X	

Considering the current size of the applicant pools, geographic recruiting zones, and program differentiators described above, Gurnick Academy does not anticipate negatively affecting the dental hygiene programs located within a 100-mile radius of our Modesto Campus. Rather, Gurnick Academy – Modesto's dental hygiene program will fill a gap in local training programs, much needed in this area.

I.e Description of the length of the program

e. Description of the length of the program, type of degree(s) granted, the intended start date, projected size of the first class, and enrollment projection for the first five years and method for determining the projected enrollment.

A description of the Gurnick Academy – Modesto Dental Hygiene Program, culminating in an Associate of Science in Dental Hygiene (ASDH) degree, has been provided in the table below:

Gurnick Academy – Modesto ASDH Program	
Type of Degree Granted	Associate of Science in Dental Hygiene
Program Format	16-week semesters 15 weeks for instruction 1 week for finals
Total Clock Hours	2,243 clock hours 600 clock hours of General Education 1,643 clock hours of Dental Hygiene Curriculum
Total Semester Credits	97.5 semester credits
Total Number of Academic Weeks	90 weeks 30 weeks of general education 60 weeks of core curriculum
Number of Semesters	6 semesters
Total Number of Months	23 months (3 semesters per year)
Intended Start Date	Fall 2027
Projected Size of the First Class	24 Students
Enrollment Projection for the First Five Years* *The five-year plan is to accept a new cohort of students annually.*	2027: 24 Students
	2028: 24 Students
	2029: 24 Students
	2030: 24 Students
	2031: 24 Students

*The method used to predict enrollment numbers included a review of Northern California Dental Hygiene Programs. The review compared the number of qualified applicants to the admitted cohort sizes (please see Section I.d.).

I.f Plans for Promoting and Marketing the Proposed Program

f. Plans for promoting and marketing the proposed program.

Dental Hygiene Feasibility Study
Promotions and Marketing Plan

Dental Hygiene Program - Plan Overview

Goals

1. Spread Awareness to Dental Hygiene degree seekers in the Modesto and Stanislaus area and the surrounding Calaveras, Tuolumne, Mariposa, and Merced counties.
2. Generate interest and inquiries into the Dental Hygiene Program and support the Gurnick Academy Admissions team to reach cohort enrollment goals.

Target Audiences

Dental Hygiene Program Seekers & Parents

1. Those Seeking an Initial Healthcare Career
    a. Soon-to-graduate and graduating high school students (15-18 years of age).
    b. GED/HS Equivalency Holders, Those Who Did Not Finish College (18-30 years of age).
2. Those Seeking to Advance Their Healthcare Career
    a. Existing Dental Assistants or similar roles.
    b. Entry-level workers such as Medical Assistants, CNAs, etc.
3. Parents of High School Students
    a. Approximately 35-50 years of age, middle to higher income socioeconomic status.
4. Those Seeking to Change Their Career
    a. Those working in entry-level work (retail, sales, food service, etc.). (18-30 years of age).

Audience Messaging

Dental Hygiene Program Seekers & Parents

1. *Those Seeking an Initial Healthcare Career*
    a. Consider a career as a Dental Hygienist. Learn in a dental lab that mimics a practicing dental office.
    b. Develop expertise through classwork, hands-on learning, and clinical practice at Gurnick Academy - Modesto's dental clinic.
2. *Those Seeking to Advance Their Healthcare Career*
    a. Attention Dental Assistants: Continue Your Training to Become a Dental Hygienist. Acquire Additional Hands-On Learning to Advance Your Dental Career.

3. *Parents of High School Students*
    a. Focus is on affordability with Financial Aid Education, Student Services support, and exposure to the Dental Hygiene field as a path toward a career.
4. *Those Seeking to Change Their Career*
    a. The Dental Hygiene Program is an alternative path toward a rewarding healthcare career. Learn how to help treat various oral health conditions and contribute to the prevention and restoration of oral hygiene in the local community.

Advertising

1. **Radio/Streaming Advertisement**
    a. Traditional radio advertising with 15, 30, and 60-second spots placed during commercial breaks on popular radio stations. Identified targeted audiences and demographics regularly listen to:
        i. KHOP-95.1
        ii. KWIN-95.7
        iii. KATM-103.7
    b. iHeart digital radio will overlay this and target users who may not listen to traditional radio stations.
        i. Buys will include a proper frequency and duration to saturate the market, instilling awareness and brand recall. This should see an incremental lift in brand keywords, feeding Google Search Ads and organic search results (Google, Microsoft/Bing SERPs).

2. **Outdoor Media (Billboards)**
    a. Physical and digital (shared, 8-second rotations) billboards are at key locations on nearby freeways and offramps, and within town near the Modesto campus; they are in strategic places.
    b. Lamar Transit Ads (Wrapped bus ads, likely “king” or “queen” size on external (sides, tails, etc.).
    c. Vintage Fair Mall
        i. Standing structures with ads at high-trafficked locations such as outside popular restaurants, entertainment centers, and high-end shopping (such as Dave and Busters, Apple, and more).

3. **Google Search Ads**
    a. A Dental Hygiene program-specific campaign will be created.
        i. Consisting of three (3) ad groups for match-type specific keyword grouping
            1. Phrase and broad match types will be used to reach a wider audience and identify unexpected keywords while controlling spend and relevance.
            2. Exact match types will contain query-specific converting searches.
        ii. Ads will utilize DSAs (Dynamic Search Ads) with DKI (Dynamic Keyword Insertion) strategically included within at least one (1) headline and description.

1. DSAs will utilize optimization for individual users and will focus on quality score (a combination of eCTR, Landing page (LP) quality, and ad quality).

iii. Images and ad assets relevant will all be utilized and personalized at the campaign level, including callouts, sitelinks, phone calls, snippets, and more.

iv. Landing pages will utilize multivariate testing, including different types of content, colors, imagery, and other variables, with smart testing implemented to maximize conversion at the individual user level.

1. All campaign metadata is captured in hidden fields and incorporated into the CRM for analysis on optimizing campaign configuration for improved lead generation of prospects most likely to convert.

4. YouTube Ads

a. A Dental Hygiene program-specific campaign will be created.

i. The campaign will consist of three (3) ad groups that target the various ad formats available on YouTube.

1. Trueview in-stream ads

a. Play before, during, or after videos, and can be skipped after five (5) seconds.

i. These videos will showcase the school's name, program, and a quick compelling statement to create brand awareness and generate interest to continue watching.

2. Trueview Discovery Ads

a. Ads that appear in YouTube search results (YouTube is the second-largest search engine on the internet, behind Google), alongside other videos, require a click to play.

i. Reduces expenditures that occur through CPM (cost per 1,000 impressions) but can be more expensive (higher relevance due to intentional click vs. push messaging).

5. Over-the-Top (OTT) or Streaming Ads

a. Campaigns for Smart TVs, including Roku, Tubi, Vudu, and other streaming services.

b. iHeart Streaming: digital radio streaming service targeting a 30-60 mile radius around the campus and additional geotargeting around key locations (job centers, unemployment offices, WIC centers, etc.).

c. MNTN (Mountain) OTT

i. Mountain TV (MNTN) allows for campaign configuration similar to social advertising. CTV Prospecting (includes the MNTN Multi-touch companion banner) - targets new audiences

1. Consumers are followed up with display ads via remarketing to households confirmed to watch the un-skippable short-form video ads (6 seconds, 15 seconds, 30 seconds).

6. **Meta Social Ads (Facebook, Instagram)**
    a. A Dental Hygiene-specific campaign will be created utilizing multiple ad sets by ad format type.
        i. Ad types will include
            1. Image ads (simple photos, as well as those with promotional overlays)
            2. Carousel ads that showcase various aspects of the program, pointing to a targeted landing page(s)
            3. Short-form video ads that include only music, music with VO, and overlaid text
            4. Reel ads for short-life and Instagram advertising
        ii. Headlines and descriptions will utilize dynamic ad creation
            1. Headlines that speak to the overall importance of the program and the benefit to the user
            2. Descriptions speak to specific benefits.
            3. CTA buttons relevant to the promotional message (Learn More, Apply Now, Register)
        iii. Meta Social Ads will correspondingly use the same multivariate smart testing with LPs used by Google Search Ads.
        iv. Ad parameters are utilized and dynamically applied to capture metadata of ad clicks. This information is captured in hidden fields on the LPs and associated with the corresponding leads in our CRM.

7. **TikTok Social Ads**
    a. A Dental Hygiene-specific campaign will be created utilizing multiple ad sets by ad format type.
        i. Similar to Meta Ads, TikTok ads are social ads that allow for visual enhancements and can include
            1. Multiple static images that rotate in a carousel. These images will include various aspects of the program experience for students with corresponding benefits/highlights copy.
            2. Short-form video ads that overlay corresponding text with music and may include additional VO.
        ii. TikTok Social Ads will correspondingly use the same multivariate smart testing with LPs used by Google Search Ads.
        iii. Ad parameters are utilized and dynamically applied to capture metadata of ad clicks. This information is captured in hidden fields on the LPs and associated with the corresponding leads in our CRM.

8. **Print Materials**
    a. A Dental Hygiene-Specific program brochure (8.5” x 11”) will be created that will include overall features and highlights of the program, details including the various aspects of the program during didactic, lab, and clinicals, with locations listed.
        i. A QR code, tracked phone number, and other features are used to generate leads from these handouts.

b. A Campus Trifold for San Jose already exists and will have this program added to it with a QR code that points to a lobby landing page that offers multiple converting actions (schedule tour, career quiz, inquiry form).
c. An existing high school audience-centric trifold already exists, and the program will be added to it with a corresponding QR code that leads to CTAs relevant to the audience (HS career quiz, schedule tour, inquiry form).
d. Lead cards that are generic but allow for proactive prospect detail collection that can be imported into the CRM. These are utilized at community events, on the campus, and whenever engaging with potential prospects or their family members and friends.

9. Recruiting Events

a. High School, College, and Career Fairs throughout Stanislaus and the surrounding counties.
    1. Delhi High School College & Career Fair
    2. Denair High School College & Career Day
    3. Waterford High School Annual Community Showcase
    4. Stanislaus County Occupational Olympics & Career Exposition
    5. New Vision High School College and Career Fair
    6. Pitman High School Career Pathway Day
    7. Turlock Adult School & Roselawn High School Career & Resource Fair
    8. Annual District-Wide College & Career Fair for Modesto City Schools
    9. Turlock Unified School District College & Career Night
    10. Escalon High School College & Career Night
    11. Oakdale High School College Fair/Senior Parent Info Night
    12. Lincoln High School College & Career Night
    13. Waterford High School College & Career Day
b. High School Sponsorships (showcase college logo) and table at a booth with collateral.
c. High school students take field trips to our campus.
    i. Students can be bused in or schedule an individual experience.
d. Local Events and Fairs within the Stanislaus and the surrounding counties
    i. Stanislaus County Fair
e. Annual Alzheimer's Booth at Graceada Park in Modesto, CA
    i. This is also part of Gurnick's overall "Giving Back" initiative, which the school has won every year since it started submitting in 2020.
f. Campus Blood Drives
    i. Another "Giving Back" cause that brings the community to the campus and creates visibility and a chance to solicit for campus tours.
g. Campus Activities:
    i. Bring a friend to school
    ii. Open houses
    iii. Provide dental services to the public community (provided by students in our dental assistance program), such as coronal polish and x-ray.

10. Email Campaigns

a. The program will be announced to existing leads who have previously inquired.

b. Communicate with alumni of the dental assistant program to consider continuing their education with advancements in the field of dental hygiene.
c. Introductory drip campaigns to lead inquiries to encourage them to move forward through their enrollment process, such as by scheduling an admissions appointment, meeting with financial aid, and more.
d. Nurture campaigns to revive leads that were either never contacted successfully or have not been heard from in a while, such as those who stalled out in the application process.
e. Lead Recovery Surveys are used for leads over 3-12 months old who have not been contacted to determine what may have happened, if there are surmountable obstacles, and potentially revive the leads.

Digital Footprint

1. **SEO-targeted landing pages on the website**
    a. Dental Hygiene Program page (pillar content page)
    b. Dental Hygiene Program Course Descriptions Page
    c. Blog articles relevant to the field of Dental Hygiene (See "Content Development" Below).
    d. Addition of Dental Hygiene Program information and content to existing pages
        i. Programs page, degree level programs page, accreditation page, admissions page, FA page, Modesto Campus page, and more.

2. **Update Business Listings**
    a. Add photos, videos, and information about the Dental Hygiene program, including posts, announcements, and an explanation of the "service" of career training in the field.
        i. Yelp Modesto Campus Business Page
        ii. Modesto Campus Google Business Profile
        iii. Modesto Campus Bing Places for Business
        iv. Modesto Campus Niche Page

3. **Promote and update information on all social media channels**
    a. Share photos, videos, and other content (more on this below, see "Social Media"). Social media channels with the handle @GurnickAcademy:
        i. Gurnick Academy Facebook Page
        ii. Gurnick Academy Instagram Profile
        iii. Gurnick Academy LinkedIn Page
        iv. Gurnick Academy YouTube Channel
        v. Gurnick Academy TikTok Account
        vi. Gurnick Academy Pinterest Account
        vii. Gurnick Academy Threads Profile

4. **Multiple Sources of Inquiry**
    a. Prospects interested in learning more about the program, expressing their interest, or moving towards the next step in the process can raise their hand through the following methods:

i. Scheduling a Campus Tour via our embedded and linked Calendly Experiences (website, thank you pages, signatures, etc.).
ii. Website forms (forms with multiple intents, including “Request Info” and “Apply Now”).
iii. Career Fit Quiz - A short quiz created by Enrollment Resources that users can take to see if training for a career in the field of dental hygiene may be right for them.
iv. Trackable CallRail phone numbers to increase visibility of efforts from paid ads (Google, Meta, TikTok, etc.) generated efforts. These calls are tracked and can be added to the CRM for further outreach efforts.

Public Relations

5. **Media Relations**
   a. Press release announcing the program’s accreditation (once it happens), introducing the program to the community.
      i. Dissemination will happen through Newswire or a similar PR publication tool.
   b. Articles will be submitted to relevant industry online and print magazines and editorials.
   c. Identify key media outlets to promote Gurnick Academy and offer an exclusive interview with on-campus experts (campus and program directors, financial staff, admissions, and other executive leadership and Subject Matter Experts (SMEs))..
   d. Develop and share sizzle reels that feature Gurnick Academy highlights of campus, student life, education, and other relevant topics.
   e. Provide a basic info sheet about Gurnick Academy’s Modesto campus and its impact on students, listing statistics on graduation, licensure, and employment, testimonials, and awards, and other notable school accomplishments to
      i. Local community and political figures
      ii. Media outlets and niche journalists
      iii. Industry-related topical experts who can speak to industry news and trends.

6. **Special Events**
   a. Host events related to Gurnick Academy partnerships or promotions on campus; invite media and community partners to celebrate and learn more about the institution.
      i. An open house event will showcase the lab space and clinic, simulate equipment and mannequins, and allow for equipment review.
      ii. Ribbon cutting of new lab space on the first floor of the building (net new to the campus) and new clinic with the Mayor, and other key local figures.

Community Outreach

1. **Community Partners**
   a. Identify and connect with community partners about Gurnick Academy program opportunities and brand.
      i. Develop community partners as Gurnick Academy brand ambassadors, who

speak to the school's quality, integrity, and opportunity.
    1. Current students and their family members
    2. Alumni
    3. Clinical and Employment partners with affiliation agreements.

b. Host a booth/table at community events to share information about Gurnick Academy and our programs.

2. Content Development

a. General Gurnick Academy content posting of articles in local magazines, newspapers, and relevant online publications.
b. Program-specific blog articles that discuss facets of the field of dental hygiene, including more about
    i. The role of dental hygienists (where they work, what they do, how to become one).
    ii. Showcase stories and experiences.
        1. Testimonials (written, video).
        2. Spotlight articles about students, alumni, staff, and partners.
    iii. Other general blog articles talk about relevant factors when considering dental hygiene (how to afford it, how to apply, what to look for in a school, what questions to ask on a tour, etc.).

3. Social Media

a. Corporate marketing and the Modesto campus will partner to generate social media content.
    i. Showcasing students in classes and labs, demonstrating learned skills.
    ii. Special events: Dental Assistant week, Healthcare workers day, etc.
    iii. Overall student life in the program (birthdays, passing exams, getting placed at clinicals, etc.) with framed selfie signs and IG-worthy backdrops to encourage student submissions.

4. Day-in-the-Life

a. Fun social media competitions are regularly run. One popular one is having students film their daily experience in programs. Dental hygiene students would submit in consideration of recognition and amazing prizes/gift cards.
b. Promote on-campus life and activities; promote online program opportunities.
c. Short-form video content ideas are generated and brought to fruition with a digital content creation partner that films students.
    i. Doing fun, trendy type activities
    ii. Performing skills, explaining them, and walking through the process
    iii. "Talking head" videos from SMEs that discuss what to consider, tips, tricks, and other things that come from a place of experience.

Dental Hygiene Clinic - Plan Overview

Goals

1. Spread Awareness of the new Dental Health Clinic to underserved populations in the Modesto-Stockton DMA and surrounding counties. Distance is limited by the viability of public transportation or other means but will likely focus on a 20-40 mile radius of the clinic.
2. Increase access to dental services by advertising to generate patients for the clinic so that dental professionals and dental hygiene program students can perform preventative, interventional, restorative, and therapeutic procedures to prevent and improve overall oral hygiene and dental health.
3. Educate the community on implementing and maintaining optimal dental care regimens and the importance of doing so for overall health outcomes.

Target Audiences

Dental Hygiene Clinic Services Seekers

1. Childrenthrough Seniors (ages 5 - 75+ years of age) within a travelable distance (about a 60-mile radius) of the campus clinic. Individuals will be in underserved communities, including low and lower-income brackets, and those without dental insurance or coverage.
    a. Educate and administer preventative measures to maintain optimal oral hygiene and health in these communities.
    b. Promote the provision of interventions and treatments to restore and maximize oral health and hygiene in those without insurance or regular access to dental services.

Audience Messaging

Dental Hygiene Service Seekers

1. *Young Adults, Families with Young Children*
    a. Lacking Dental Insurance or Coverage? Free or low-cost dental services are available to keep you and your family's oral healthcare in top shape. Receive great service from dental hygiene students working hand-in-hand with dental professionals from the community.
2. *Older Adults and Senior Citizens*
    a. Conveniently located, free or low-cost dental services are available in your community. Receive much-needed preventative and interventional oral healthcare treatment from dental hygiene students and professional dental professionals from the surrounding area.

Advertising

1. **Radio/Streaming Advertisement**
    a. Traditional radio advertising with 15, 30, and 60-second spots placed during commercial breaks on popular radio stations identified targeted audiences and demographics regularly listen to:
        i. KHOP-95.1
        ii. KWIN-95.7
        iii. KATM-103.7
        iv. KJSN-102.3
        v. KHKK-104.1
    b. iHeart digital radio will overlay this and target users who may not listen to traditional radio stations.
        i. Buys will include a proper frequency and duration to saturate the market, instilling awareness and brand recall. This should see an incremental lift in brand keywords, feeding Google Search Ads and organic search results (Google, Microsoft/Bing SERPs).

2. **Outdoor Media (Billboards)**
    a. Physical and digital (shared, 8-second rotations) billboards are at key locations on nearby freeways and offramps, and within town near the campus; they are in strategic places.
    b. Lamar Transit Ads (Wrapped bus ads, likely “king” or “queen” size on external (sides, tails, etc.).
    c. Vintage Fair Mall
        i. Standing structures with ads at high-trafficked locations such as outside popular restaurants, entertainment centers, and high-end shopping (such as Dave and Busters, Apple, and more).

3. **Google Search Ads**
    a. Multiple campaigns will be created.
        i. Each campaign will target a particular service needed. (Emergency, tooth removal, cleaning, x-rays, etc.).
        ii. Each campaign will comprise three (3) ad groups for match-type specific keyword grouping.
            1. Phrase and broad match types will be used to reach a wider audience and identify unexpected keywords while controlling for spend and relevance.
            2. Exact match types will contain query-specific converting searches.
        iii. Ads will utilize DSAs (Dynamic Search Ads) with DKI (Dynamic Keyword Insertion) strategically included within at least one (1) headline and description.
            1. DSAs will utilize optimization for individual users and will focus on quality score (a combination of eCTR, Landing page (LP) quality, and ad quality).
        iv. Images and ad assets relevant will all be utilized and personalized at the campaign level, including callouts, sitelinks, phone calls, snippets, and more.

v. Landing pages will utilize multivariate testing, including different types of content, colors, imagery, and other variables, with smart testing implemented to maximize conversion at the individual user level.
    1. Landing pages will offer multiple means to express their interest in services, including a trackable CallRail phone number, a link to schedule an appointment, and an on-page form they can complete to hear back from us.

4. **YouTube Ads**
    a. A Dental Clinic campaign will be created. The videos will showcase the clinic, speak to the needs of the communities, and showcase the treatments that will be administered while sharing outcomes/testimonials.
        i. The campaign will consist of three (3) ad groups that target the various ad formats available on YouTube.
            1. Trueview in-stream ads
                a. Play before, during, or after videos, and can be skipped after five (5) seconds.
                    i. These videos will showcase the clinic name, quick rotation of services rendered, short testimonials/outcomes, etc.
            2. Trueview Discovery Ads
                a. Ads that appear in YouTube search results (YouTube is the second-largest search engine on the internet, behind Google), alongside other videos, require a click to play.
                    i. Reduces expenditures that occur through CPM (cost per 1,000 impressions) but can be more expensive (higher relevance due to intentional click vs. push messaging).

5. **Over-the-Top (OTT) or Streaming Ads**
    a. Campaigns for Smart TVs, including Roku, Tubi, Vudu, and other free-to-watch with ads streaming services, to households below low and lower middle income earners.
    b. iHeart Streaming: digital radio streaming service targeting a 20-40 mile radius around the campus and additional geotargeting around key locations (Salvation Army, VA offices, WIC offices, and other non-profit based services to underserved populations).

6. **Meta Social Ads (Facebook, Instagram)**
    a. A Dental Clinic campaign will be created utilizing multiple ad sets by ad format type.
        i. Ad types will include
            1. Image ads (simple photos, as well as those with promotional overlays)
            2. Carousel ads that showcase various services administered, pointing to a targeted landing page(s) to call or schedule an appointment.
            3. Short-form video ads that include only music, music with VO, and overlaid text
            4. Reel ads for short-life and Instagram advertising.
        ii. Headlines and descriptions will utilize dynamic ad creation

1. Headlines that speak to the overall services rendered by the clinic, education about best practices in personal oral hygiene and dental care, and testimonials/outcomes of clinic patients.
2. Descriptions speak to specific benefits.
3. CTA buttons relevant to the promotional message (Book Now, Learn More, Schedule an Appt, etc.)

iii. Meta Social Ads will correspondingly use the same multivariate smart testing with LPs used by Google Search Ads.

7. **TikTok Social Ads**
   a. A Dental Clinic campaign will be created utilizing multiple ad sets by ad format type and will focus on content similar to Meta (FB/IG) ad copy and content.
      i. Similar to Meta Ads, TikTok ads are social ads that allow for visual enhancements and can include
         1. Multiple static images that rotate in a carousel. These images will include various aspects of the dental care services performed at the clinic, education about proper dental care, a view of the clinic, and testimonials/outcomes of services provided.
         2. Short-form video ads that overlay corresponding text with music and may include additional VO.
      ii. TikTok Social Ads will correspondingly use the same multivariate smart testing with LPs used by Google Search Ads.

8. **Print Materials**
   a. A Dental Clinic brochure (8.5" x 11") will be created to list all contact information, services provided, ways to contact/schedule an appointment, and more.
      i. A QR code, tracked phone number, and other features are used to generate patient requests to schedule appointments from these handouts.
      ii. These brochures will be given out at local community centers, senior centers, libraries, laundromats, and other communal locations willing to have a stack of these.
   b. A Dental Clinic Trifold that is smaller than the brochure and which can be easily handed out at community events.
      i. The same contents of the brochure will be distilled onto the trifold.
      ii. Given out at health fairs, county fairs, homeless shelters, VA offices, Salvation Army, and more.
   c. Patient appointment request cards will be created and can be filled out in person by individuals or by staff of non-profits or community centers.
      i. These are quickly completed with basic contact information, allowing us to get back in touch to schedule appointments.
      ii. They can choose what services they are seeking before reaching out.
      iii. These will also be made available at community events as mentioned in item "b" above.

9. **Patient Education and Awareness**

Through our Community Health Partnerships, we will offer educational workshops on oral health at local schools and community centers. We'll also distribute oral health kits with toothbrushes, floss, and Gurnick-branded stress balls during events, emphasizing the importance of regular dental visits.

Event Types:

- Oral Health Education Workshops at Schools
  - Host interactive sessions for students on brushing, flossing, and regular dental check-ups.
  - Partner with local elementary and middle schools to offer **Tooth Fairy Days** or **Dental Health Weeks** with fun activities.
- Community Center Seminars
  - Organize oral health seminars in collaboration with community centers.
  - Provide families with tips on maintaining oral hygiene, especially for children and seniors.
- Free Oral Health Screenings at Health Fairs
  - Set up booths offering free basic oral health screenings (e.g., screenings for gum disease, cavities).
  - Provide educational pamphlets and tips for keeping teeth and gums healthy
- Dental Hygiene Demonstrations at Local Events
  - Offer live demonstrations on brushing and flossing techniques at local fairs, festivals, or public events.
  - Utilize interactive displays that allow participants to practice on mannequins or models.
- Oral Health Kits Distribution
  - Distribute Gurnick-branded **oral health kits** at community outreach events.
  - Include educational material and promotional items (toothbrush, toothpaste, floss, stress balls) to encourage healthy habits.
- School Visits for National Dental Hygiene Month
  - Partner with local schools during **National Dental Hygiene Month** to provide interactive learning experiences.
  - Engage students with storytelling, games, and lessons focused on the importance of oral health.
- Senior Citizen Oral Health Days
  - Organize free seminars and workshops tailored to older adults, emphasizing oral health care as they age.
  - Discuss common dental issues in seniors, such as dry mouth, tooth sensitivity, and denture care.
- Family Health & Wellness Days
  - Collaborate with local community organizations to host **family-friendly health days**, where families receive free oral health advice and demonstrations.
  - Set up stations where kids and parents can learn how to care for their teeth together.
- Partnership with Local Pediatricians and Schools for Fluoride Varnish Days
  - Provide free fluoride treatments and dental screenings to children at pediatric clinics or schools in collaboration with healthcare professionals.
  - Follow up with educational sessions for parents about the importance of preventive care.

10. **Email Campaigns**
    f. To announce the launch, the Dental Clinic will be announced to all leads, prospects, students, and alumni in our CRM.
        i. We will encourage them to share or educate those they may know (through employment, friends, neighbors, etc.) who could benefit from these services.
    g. Email those who inquire about dental clinic services, encouraging them to book their appointments, nurture if we cannot contact them, and remind them of continual use of services (such as bi-annual check-ups, or follow-up appointments for services rendered).

Digital Footprint

1. **SEO-targeted landing pages on the website**
    a. Dental Clinic location page (pillar content page)
    b. Dental Clinic services page - lists all services in sections
    c. Press release of launch, coverage of milestones (such as a specific number of patients served or major one or multi-day events).
    d. Testimonials and "feel-good" stories of the impact, especially on poor dental health cases.

2. **Separate, Distinct Directory Listings from the Modesto Campus**
    a. Create directory listings on Google Business Profile, Bing Places for Business, Yelp, YellowPages, and more.
        i. Add photos, videos, and information about the dental clinic.
        ii. List services provided.
        iii. Encourage and acquire reviews and testimonials.
        iv. CTA to encourage booking appointments or calling us to schedule.
        v. Posts and ongoing announcements of key activities, events, or results.

3. **Promote and update information on all social media channels**
    a. Share photos, videos, and other content (more on this below, see "Social Media"). Social media channels with the handle @GurnickAcademy:
        i. Gurnick Academy Facebook Page
        ii. Gurnick Academy Instagram Profile
        iii. Gurnick Academy LinkedIn Page
        iv. Gurnick Academy YouTube Channel
        v. Gurnick Academy TikTok Account
        vi. Gurnick Academy Pinterest Account
        vii. Gurnick Academy Threads Profile

Program Awareness

1. **Media Relations**
    a. Press release announcing the Dental Clinic launch

i. Dissemination will happen through Newswire or a similar PR publication tool.

b. Articles will be submitted to relevant industry online and print magazines and editorials.
   i. Stanislaus Magazine, Modesto Bee.

c. Identify key media outlets to promote the clinic. Key staff, such as campus and program directors, and those who staff the clinic, will be made available to speak to the clinic's impact and goals.

d. Develop and share sizzle reels that feature the Dental Clinic, including how it looks, the equipment and tools available, personnel who will be helping, services as they are rendered, testimonials, and outcome shots of patients who benefited.

e. Provide a basic info sheet about the Dental Clinic, including size, types of services available, who and how many people have been served, etc.
   i. Non-profit and community organization staff.
   ii. Local political and community figures.
   iii. Media outlets and niche journalists

2. Special Events

a. Host events related to Gurnick Academy partnerships or promotions on campus; invite media and community partners to celebrate and learn more about the institution.
   i. An open house event will showcase the dental clinic, including a tour and walkthrough.
   ii. Ribbon cutting of new lab space on the first floor of the building (net new to the campus) and new clinic with the Mayor, and other key local figures.
   iii. Days and events that target key demographics, such as a day for veterans, children, families, seniors, etc., to encourage comfort and community with similar populations.

3. Community Outreach

a. Participate in health fairs and community events, including:
   i. **DH Community Events / Health Fairs, Etc.**
   ii. Sutter Health Memorial Medical Center Professional Development Fair (annual)
   iii. Emanuel Medical Center Harvest Community Health Fair (annual)
   iv. Care 2U - offering free dental services to Veterans, people experiencing homelessness, and underserved in the community with pop-up events throughout the year
   v. Community and rural clinics: Livingston Community Health, Golden Valley Health Centers, San Joaquin Health Centers, WelbeHealth, CMC(Community Medical Centers), PACE Program for Seniors, Adult Day Care Centers, Mi-Wuk Tribal Health Fairs, community events
   vi. Covenant Care at Home and Hospice (annual health fair in Turlock)
   vii. Modesto Walk to End Alzheimer's (yearly event)
   viii. Wellspring Wellness Fair
   ix. Cinco de Mayo event in Stockton (annual)
   x. Nami Stanislaus & El Concilio Health & Wellness Resource Fair
   xi. Argus/Endeavor High School Ceres Annual College & Career Family Night
   xii. Manteca High School College & Career Fair

xiii. Sierra High School College & Career Night
xiv. Vanguard College Prep Academy College & Career Fair
xv. Franklin High School College & Career Fair
xvi. East Stanislaus High School (presentation by Gurnick Admissions)
xvii. Lathrop High School (presentation by Gurnick Admissions)
xviii.

i. **High School Health Career Academy visit to Gurnick Campus**
   1. Grace M. Davis High School (Health Careers Academy)
   2. Roselawn/Turlock High School (Health Career class)

Iiii **Partnership opportunities for providing patients**
   1. Modesto Gospel Mission
   2. Care 2U
   3. Skilled Nursing Facilities & Assisted Living Facilities (Garden City, Vintage Faire Nursing, Modesto Post Acute, River View, Almond Vista, English Oaks)

4. **Miscellaneous Activities & Events**
   a. Host free dental hygiene clinics and workshops for the local community.
   b. Partner with community groups and organizations that provide resources for communities in need in the Modesto area, including Care 2 U, Livingston Community Health, Modesto Gospel Mission, and the Veterans Administration.
   c. Partner with area elementary schools to promote oral health with the Tooth Fairy and Timmy the Tooth, have gift bags for all the kids with toothbrushes/paste/floss, a Gurnick Tooth Shaped Stress Ball, and a pass for a complimentary cleaning appointment.

5. **Social Media**
   a. Develop posts to promote the dental clinic's range of services:
      i. Health Assessments - including examinations, oral cancer screenings, and risk assessments.
      ii. Preventative Services - including dental cleanings, fluoride applications, and pediatric sealants.
      iii. Diagnostic Services - includes X-rays and other necessary diagnostics.
      iv. Patient Education - instructions and guidance on maintaining good oral hygiene and nutritional habits.
      v. Utilize all outreach work for photo opportunities to promote clinic work.

6. **Organizational Partnerships**
   a. Highlight the benefits/importance of dental health by engaging with key oral health organizations and promoting their projects and initiatives for 2026-2027 and forward.
      i. The Stanislaus County Component of the American Dental Hygienist Association.
      ii. California Dental Association (CDA).

iii. Stanislaus County Oral Health Program's vision of "Cavity Free Kids".
    1. Through collaborations and partnerships.
    2. School-linked dental programs.
    3. Community Resources and Linkage to Care[1].

iv. The California Department of Public Health's Kindergarten Oral Health Assessment initiative [2].

Job Outlook

About this section

Employment of dental hygienists is projected to grow 9 percent from 2023 to 2033, much faster than the average for all occupations.

About 16,400 openings for dental hygienists are projected each year, on average, over the decade. Many of those openings are expected to result from the need to replace workers who transfer to different occupations or exit the labor force, such as to retire.

Employment

Demand for dental services is expected to increase as the large baby-boom population ages and as people keep more of their original teeth than in previous generations.

Studies linking oral health and general health, along with efforts to expand access to oral hygiene services, should continue to drive demand for preventive dental services, including those performed by hygienists. In addition, demand for dental hygienists is expected to grow as state laws increasingly allow dental hygienists to work at the top of their training.

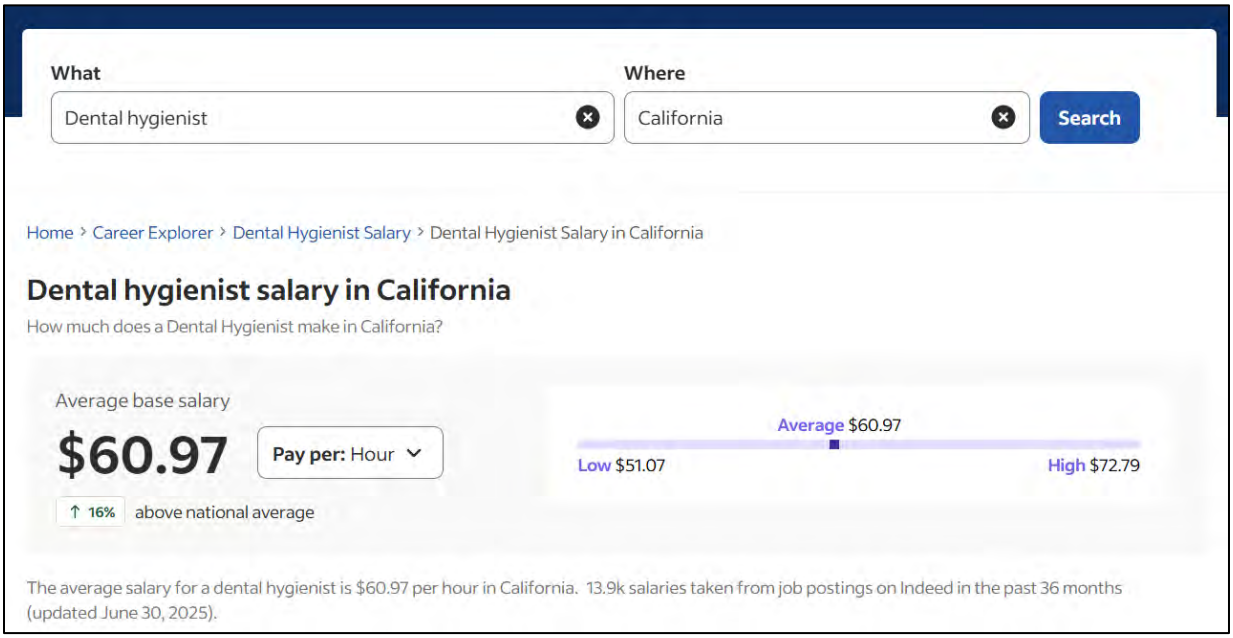

Exhibit I.I - DentalPost 2025 Dental Hygienist Salary Report

Source: https://www.dentalpost.net/salary-survey/dental-hygienist-results/

RDH Report

SUMMARY & HIGHLIGHTS

Between October and November 2024, DentalPost conducted its annual dental professional salary survey, drumming up participation from 2,230 registered dental hygienists — a 23.8% increase compared to the prior year's pool.

Key Highlights & Takeaways

- Compensation is on the upswing. The mean (average) total income of responding RDHs rose for the third year running, hitting an all-time high of **$81,627 in 2024**.
- While satisfaction with compensation trails behind 2022 levels, we saw a slight rebound in 2024 compared to the year prior, and **negative sentiment dipped even more notably.**
- **One in five RDHs (20.5%) have changed jobs** within the past 12 months, up just slightly from the 19.4% who did the same in the previous period. Chief among desires in making the jump were a better work environment, higher pay, and a more appreciative employer; 78.3% of job changers say they accomplished such goals in the switch.
- As for those looking to leap soon, **12.5% of responding hygienists** say they're currently applying for new jobs or plan to do so before 2026, up just slightly from the 11.8% on the hunt this time last year. Additionally, nearly a third (31.2%) say they plan to retire within six years.
- Despite these impending staffing changes, **66.3% of RDHs** have no plans to pursue a new job, representing a 13.3% increase in statis compared to the previous year.

GURNICK ACADEMY

9-4-2025

Dental Board of California
2005 Evergreen Street, Suite 1550
Sacramento, CA 95815

Re: Endorsement of Gurnick Academy Registered Dental Hygiene Program

To Whom It May Concern,

I am writing on behalf of Care 2 U Oral Care Administrative Services, a nonprofit organization dedicated to providing free oral health services to underserved populations, including homeless individuals, veterans, underprivileged youth, and struggling families throughout Stanislaus County and surrounding areas.

Our mission relies heavily on the availability of licensed dental hygienists, yet there is a significant shortage in our region. Each year, we host multiple free dental care events, and one of our greatest challenges is recruiting enough hygienists to meet the overwhelming demand for preventive services. This shortage underscores the critical need for expanded dental hygiene education opportunities in our community.

It is with great enthusiasm that I endorse Gurnick Academy's proposed Registered Dental Hygiene program. I have had the privilege of collaborating with Gurnick Academy for many years in a variety of ways, and I can confidently attest to their history of academic excellence, professionalism, and commitment to student success. Their proven track record in healthcare education positions them as an ideal institution to expand into the field of dental hygiene training.

The establishment of a dental hygiene program at Gurnick Academy would not only benefit students but also directly have a positive impact on the health and well-being of our community. By training more hygienists locally, we will be better equipped to meet the growing demand for oral health services in Stanislaus County, the Central Valley, and beyond.

For these reasons, I strongly urge the Dental Board of California to approve Gurnick Academy's application for a Registered Dental Hygiene program. This program will be an invaluable resource in addressing the workforce shortage, improving access to care, and strengthening the future of oral health in our region.

Thank you for your consideration.

With Gratitude,

Theresa Sheppard, RDA Founder, Educator

Dear Gurnik Academy Team,

On behalf of Paragon Dental, it is our great pleasure to provide this letter of endorsement for your Dental Hygiene Program. As a leading dental practice proudly serving the Central Valley, we recognize the urgent need for accessible, high-quality education and training programs that prepare students to meet the growing demand for dental hygiene professionals in our region.

The Central Valley, particularly Modesto and surrounding communities, faces a critical shortage of trained dental hygienists. With a rapidly growing population and increased awareness of the importance of oral health, our practice—and many others in the area—consistently experiences challenges in recruiting qualified hygiene staff. This gap in the workforce directly impacts the ability of dental offices to meet patient needs efficiently and consistently.

Gurnik Academy's initiative to establish a Dental Hygiene Program is not only timely but necessary. Such a program would provide a direct path for many high school graduates who are seeking meaningful, stable, and respected careers in healthcare. A locally based training program would be life-changing for many students who may not have the resources to relocate for their education, and would ensure that the professionals trained remain in and serve the community they call home.

We strongly support your mission to elevate dental hygiene education and to offer an accredited, skill-based curriculum that meets the professional standards of the industry. It is our belief that your program will significantly contribute to both the quality of patient care and the local economy, empowering a new generation of healthcare workers to thrive within our region.

Paragon Dental stands ready to collaborate with Gurnik Academy in any way possible—whether through offering externship opportunities, guest lectures, or mentorship for aspiring students. We are proud to support your efforts and look forward to the lasting positive impact this program will bring to the Central Valley.

Thank you for your commitment to bettering our community.

Warm regards,
Dr. Nandan Patel DDS & Héctor Nuno

To Whom It May Concern,

I am writing to express my strong support for the establishment of a Dental Hygienist Program at Gurnick Academy in Modesto, California. As a dental professional in this region, I have seen firsthand the growing demand for accessible, preventative oral healthcare services. Establishing a local program to train dental hygienists is both a timely and necessary step toward meeting that demand.

Stanislaus and the surrounding counties face persistent challenges in accessing oral healthcare. Many residents, especially those in underserved or lower-income communities, experience difficulty obtaining timely preventive dental care. A significant contributing factor is the shortage of licensed dental hygienists available to serve the growing population. This gap has placed additional strain on dental practices and limited opportunities for patients to receive routine care, which can lead to more serious and costly dental issues over time.

I wholeheartedly support the creation of a dental hygienist program at Gurnick Academy in Modesto and encourage all relevant stakeholders and licensing authorities to give this initiative their full support. The need is clear, and the benefits will be long-lasting.

Thank you for your consideration.

Sincerely,

Marilyn Sohm MHRM, RDA

To Whom It May Concern:

On behalf of Modesto Gospel Mission, I am pleased to express our strong interest in partnering with Gurnick Academy at the Modesto Campus. We are excited about the opportunity to work with your Dental Hygiene students as they complete the community service component of their program in the on-campus clinic, under the supervision of a Clinical Instructor.

This collaboration will provide our residents with valuable access to quality dental hygiene services while offering your students meaningful, hands-on experience serving diverse populations in our community. We believe this partnership will be mutually beneficial—enhancing the health and well-being of our residents while supporting the educational and professional growth of your students.

The Modesto Gospel Mission is committed to working closely with Gurnick Academy to make this program a success and to create a positive and respectful environment for both students and residents. We look forward to beginning this partnership and to seeing the lasting impact it will have in our community.

Sincerely,

Scott Pernice

To Whom It May Concern,

I am writing to express my strong support for the establishment of a Dental Hygienist Program at Gurnick Academy in Modesto, California. As a dental professional in Tuolumne County, I have seen firsthand the benefits of having a local dental assistant program-having interning with and hire one of its graduates. The quality of education and training they received has a direct and positive impact on our local dental practices.

Our community is experiencing a growing population and, as a result, a heightened need for preventive oral care services. Unfortunately, the current shortage of licensed dental hygienist's places strain on dental practices and limits patient access to timely cleanings and periodontal care. A dental hygienist program at Gurnick academy in Modesto would help alleviate these challenges by increasing the number of qualified professionals in the workforce, improving access to care and supporting the overall health of our communities, while also providing students with a valuable opportunity to pursue a stable and rewarding career in healthcare.

I believe that Gurnick Academy is uniquely positioned to provide the clinical and academic instruction necessary to develop skilled, compassionate, and competent dental hygienists. With strong connection to the healthcare community, a demonstrated commitment to student success, and a proven commitment to professional education, this program would be a much-needed and welcoming resource in our area.

Thank you for considering my recommendation. I am confident that establishing this program will have a lasting, positive impact on both the local dental workforce and the quality of care available to our community.

Sincerely,

Trevor Thorn DDS

RE: Carrington College, San Jose, Jennifer Doupnik

Dear Dental Hygiene Program Director,

I am writing to you on behalf of Gurnick Academy. We are currently working with the Dental Hygiene Board of California to complete a Feasibility Study. A required element of a study is to reach out to each of the Approved RDH Programs within 100 miles of our intended campus; Modesto.

Will you please respond to the following at your earliest convenience:
A. Acceptance Protocol: Do you utilize a Waiting List, or do you use a points/merit based acceptance system?
We accept a cohort based on points. While we have a waiting list, it is short term for that cohort only.
B. What is the Average Number of Applicants per cohort? 80-100
C. What Percent of the Applicants are Qualified for acceptance?
D. Of the applicants per cohort, what percentage are accepted into the program? We only accept 30 students per cohort
E. Are prerequisites required prior to admittance to the program, or are they incorporated within the program? Pre-reqs are a requirement.
F. What is the Start Interval for New Dental Hygiene Cohorts? every 8 months

I appreciate your time and consideration in replying, I am available for any questions or concerns at the number below,

Jennifer Doupnik
to me

All our applicants must be qualified for application.

Thanks,
Jenn

SECTION II

Structure and Governance

Description of the institution and the institution's experience providing dental hygiene or other health-related educational programs. The description must include:

a. *Institutional accreditation status and history such as date of initial accreditation, denials, revocations, warnings for the institution and any programs offered by the institution.*
b. *History, organizational structure and programs (attach an organization chart).*
c. *Geographic area (community) served by the institution and a description of the community and its population.*
d. *Institution's strategic plan.*
e. *Type of RDH or other health-related programs including: number of students currently enrolled and graduates by program type; passage rate on any required certification or licensing examination for the past five years (as applicable); and status of the program with any state, regional, or federal agency.*
f. *If the institution does not have an RDH education program or other health-related programs, provide a statement related to the processes and resources it shall utilize to start and sustain an RDH education program.*

II.a Institutional Accreditation Status and History

a. Institutional accreditation status and history such as date of initial accreditation, denials, revocations, warnings for the institution and any programs offered by the institution.

Gurnick Academy of Medical Arts holds institutional accreditation with the Accrediting Bureau of Health Education Schools (ABHES).

The Accrediting Bureau of Health Education Schools (ABHES) is recognized by the United States Secretary of Education for the accreditation of private, postsecondary institutions in the United States offering predominantly allied health education programs leading to a certificate, diploma, and degrees at the level of the Associate of Applied Science, Associate of Occupational Science, Academic Associate, Baccalaureate and Master's; and the programmatic accreditation of medical assisting, medical laboratory technology, and surgical technology programs, through the Associate degree, including those offered via distance education.

ABHES is an independent non-profit agency unrelated to any trade or membership organization.

Among ABHES Recognitions: U.S. Department of Education, American Association of Medical Assistants (AAMA) American Medical Technologists (AMT), Accreditation Commission for Education in Nursing (ACEN), The National Board of Surgical Technology and Surgical Assisting (NBSTSA), The American Registry of Radiologic Technologists (ARRT), Texas Higher Education Coordinating Board (THECB), the Pharmacy Technician Certification Board (PTCB), and the Commission on Dental Accreditation (CODA).

The contact information for ABHES has been provided below:

Accrediting Bureau of Health Education Schools
6116 Executive Blvd., Suite 730, North Bethesda, MD 20852
(301) 291-7550
www.abhes.org

On December 18, 2009, ABHES awarded Gurnick Academy with Institutional Accreditation. In 2013 and again in 2022, Gurnick Academy was awarded the maximum timeframe approvals for continued institutional accreditation. Gurnick Academy has not received any denials, revocations, or warnings for the institution or for any of its programs. Please see Exhibit II.A for a complete history of Gurnick Academy's institutional and programmatic accreditation. Additionally, Gurnick Academy's ABHES accreditation can be verified on their website here: ABHES Institutional Directory - Gurnick Academy of Medical Arts.

II.b History, Organizational Structure and Programs

b. History, organizational structure and programs (attach an organization chart).

Gurnick Academy began operations as a private postsecondary institution in 2004 upon approval from the California Bureau of Private Postsecondary Education to offer our Ultrasound Program at our campus in Van Nuys.

Gurnick Academy of Medical Arts is approved to operate by the California Bureau for Private Postsecondary Education (the Bureau). Approval to operate means the institution complies with the minimum standards in the California Private Postsecondary Education Act (CPPEA) of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations. Gurnick Academy of Medical Arts' Bureau approval can be verified on their website here: Directory of Approved Institutions - Gurnick Academy of Medical Arts
Contact information for the Bureau has been provided below:

California Bureau for Private Postsecondary Education
1747 N. Market Blvd. Suite 225, Sacramento, CA 95834
916.574.8900
www.bppe.ca.gov.

Gurnick Academy – Modesto opened its doors in 2007 upon approval to offer our Vocational Nursing Diploma program at our campus in the Central Valley. Please see a brief history of Gurnick Academy – Modesto in the table below:

Gurnick Academy - Modesto Campus and Programmatic Accreditation History	
March 2024	Commission on Accreditation for Respiratory Care (CoARC) grants our Associate of Occupational Science in Respiratory Therapy Program provisional accreditation at our Modesto Campus.
December 2023	ABHES approves the Associate of Occupational Science in Respiratory Care program at the Modesto campus.
February 2022	ABHES continues Gurnick Academy's institutional accreditation through February 28, 2028.
August 2017	ABHES approves the Dental Assistant Program at the Modesto Campus.
January 2014	The American Registry of Radiologic Technologies® (ARRT®) recognizes Gurnick Academy's MRI program.
September 2013	ABHES approves the Medical Assistant Program at the Modesto Campus.
August 2013	ABHES continues Gurnick Academy's institutional accreditation through February 28,

Gurnick Academy - Modesto Campus and Programmatic Accreditation History	
	2022.
May 2013	ABHES approves the Associate of Science in Magnetic Resonance Imaging Program at the Modesto Campus.
December 2009	The Accrediting Bureau of Health Education Schools (ABHES) grants Gurnick Academy Institutional Accreditation.
November 2007	The Modesto Campus offers a VN Program.

From 2007 to present, Gurnick Academy - Modesto has sought to offer education programs in the Central Valley that provide a complimentary variety of career training opportunities in the fields of nursing and allied health (please see Exhibit II.A). Currently, Gurnick Academy – Modesto offers two degree programs, one diploma program, and two certificate programs, all in the nursing or allied health fields. Please see the table below for a list of programs offered at Gurnick Academy – Modesto.

Program Type	Program Name
Associate of Occupational Science	Associate of Occupational Science in Respiratory Therapy (A.O.S. in RC)
Associate of Science	Associate of Science in Magnetic Resonance Imaging (A.S. in MRI)
Diploma	Vocational Nurse (VN) Diploma
Certificate	Dental Assistant (DA) Certificate
Certificate	Medical Assistant (MA) Certificate

The organizational structure of Gurnick Academy is divided into Corporate and Campus level structures. Within the Corporate level are the executive offices of Chief Executive Officer, Chief Operating Officer, Chief Process Officer, Chief Academic Officer, the Vice President of Campus Operations, and the Deans of Imaging, Nursing, and Allied Health. Also at the corporate level are the corporate teams which include the Director of Career Services and Talent Acquisition, Human Resources Manager, Director of Faculty Development and General Education, Compliance Director, Information Technology Manager, Director of Campus Security, Director of Admissions, Director of Marketing, Director of Financial Aid, and the Director of Accounting (please see Exhibit II.B).

The organizational structure at the campus level starts with the Campus Director overseeing the Education Program Directors, who in turn manage and develop program faculty. At Gurnick Academy – Modesto, the Assistant Campus Director oversees the departments of Financial Aid, Career Services, the Business Office, Student Services, Outreach, Admissions, and Front Desk Operations (please see Exhibit II.C).

II.c Geographic Area (Community)

c. Geographic area (community) served by the institution and a description of the community and its population.

Gurnick Academy - Modesto's Dental Hygiene Program intends to serve the following counties in the Central Valley region: Stanislaus, Calaveras, Tuolumne, Mariposa, and Merced. The population of these counties, according to the 2020 Decennial Census, are as follows:

2020 Decennial Census Population	
Stanislaus	552,878
Calaveras	45,292
Tuolumne	55,620
Mariposa	17,131
Merced	281,202
Total Population	**952,123**

Please find a description of the geographic areas of Stanislaus, Calaveras, Tuolumne, Mariposa, and Merced Counties and their populations below:

Stanislaus County

According to the U.S. Census Bureau, Stanislaus County has 1,496.2 square miles of land area and the 30th largest county in California by total area. The population, as of the 2020 Decennial Census, is 552,878. The employment rate is 56.8%, and the median household income is $78,673 according to the 2024 American Community Survey 1-Year Estimates. 14.2% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 19.7% of the population in Stanislaus County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Stanislaus County is 35.2, with 14.4% of the population 65 years and older. Lastly, the U.S. Census Bureau reports that 5% of the population in Stanislaus County is without health care coverage.

Stanislaus County Race and Ethnicity	
American Indian and Alaska Native	10,543
Asian	34,778
Black or African American	15,913
Hispanic or Latino	265,978
Native Hawaiian and Other Pacific Islander	4,269
Not Hispanic or Latino	207,908
Some Other Race	146,129

Two or More Races	84,644
White	256,602

Source: https://data.census.gov/profile/Stanislaus_County,_California?g=050XX00US06099

Calaveras County

According to the U.S. Census Bureau, Calaveras County has 1,020.0 square miles of land area and is the 40th largest county in California by total area. The population, as of the 2020 Decennial Census, is 45,292. The employment rate is 45.6%, and the median household income is $79,877 according to the 2023 American Community Survey 5-Year Estimates. 13.4% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 22.2% of the population in Calaveras County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Calaveras County is 52.0 and 28.7% of the population is 65 years and older. Lastly, the U.S. Census Bureau reports that 5.3% of the population in Calaveras County is without health care coverage.

Calaveras County Race and Ethnicity	
American Indian and Alaska Native	747
Asian	743
Black or African American	364
Hispanic or Latino	5,865

Not Hispanic or Latino	12,838
Some Other Race	796
Two or More Races	2,032
White	13,385

Source: https://data.census.gov/profile/Mariposa_County,_California?g=050XX00US06043

Merced County

According to the U.S. Census Bureau, Merced County has 1,938.0 square miles of land area and is the 25th largest county in California by total area. The population, as of the 2020 Decennial Census, is 281,202. The employment rate is 55.5%, and the median household income is $64,980 according to the 2024 American Community Survey 1-Year Estimates. 18.7% of the population falls below the poverty line as compared to 11.8% for California as a whole. Educational attainment shows that 15.7% of the population in Merced

County has earned a bachelor's degree or higher, compared to 38.1% in the state of California. The median age in Merced County is 32.2 and 12.0% of the population is 65 years and older. Lastly, the U.S. Census Bureau reports that 7.2% of the population in Merced County is without health care coverage.

Merced County Race and Ethnicity	
American Indian and Alaska Native	7,518
Asian	20,715
Black or African American	9,158
Hispanic or Latino	173,857
Native Hawaiian and Other Pacific Islander	807
Not Hispanic or Latino	68,729
Some Other Race	89,115
Two or More Races	49,355
White	104,534

II.d Institution's Strategic Plan

d. Institution's strategic plan.

Please see Gurnick Academy – Modesto's Strategic Plan for the Dental Hygiene Program on the following pages.

Strategic Plan for the Launch of the Dental Hygiene Program

Gurnick Academy of Medical Arts – Modesto Campus

Planned Start Date: Fall 2027

Introduction

This strategic plan outlines the development and launch of the Dental Hygiene program at Gurnick Academy of Medical Arts' Modesto Campus, with the first cohort scheduled for Fall 2027. The plan reflects Gurnick's commitment to meeting workforce demand in California's Central Valley while advancing our mission to provide quality allied health education.

The addition of a Dental Hygiene program will serve two equally important purposes. First, it will expand educational opportunities for individuals seeking to begin or advance careers in the dental professions. Second, it will provide the Modesto community with an on-site dental hygiene clinic, offering free and low-cost preventative oral health services to underserved populations. The program and its accompanying clinic will prepare graduates for successful licensure and practice, while also addressing a significant public health need.

Alignment with Gurnick's Mission and Vision

Gurnick Academy of Medical Arts is committed to offering quality allied-health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience. Our vision is to be the premier educational institution for allied-health professionals, preparing graduates who are academically prepared, technically skilled, and ready to serve their communities.

The Dental Hygiene program directly supports this mission and vision. It provides rigorous academic preparation, extensive clinical experience, and a service component that benefits the local community. Students will graduate not only as competent clinicians but also as healthcare professionals prepared to address oral health disparities in the Central Valley.

Gurnick has been awarded the CAPPS Community Service Award in 2021, 2022, 2023, 2024, and 2025 for contributions to and civic engagement in the communities in which we operate. The addition of the Dental Hygiene program is yet another way for Gurnick to give back to the community and provide qualified graduates for the Central Valley workforce.

The Role of the Modesto Campus

The Modesto Campus has been selected as the host site for this program because of its established infrastructure, central location, and track record in successfully launching new allied health programs, including our Dental Assisting Certificate Program. The campus also currently offers programs in nursing, imaging, and medical assisting, all of which will provide support services and interprofessional collaboration opportunities for Dental Hygiene students.

The centerpiece of the initiative will be the establishment of an on-site dental hygiene clinic. This clinic will serve as the primary training site for students and as a community service hub, offering much-needed oral healthcare services to uninsured and underserved populations in the Modesto region.

Modesto has also produced some impressive graduates over the years including those who won CAPPS and ABHES Scholarships for dedication and academic performance in 2023 and 2024. We expect our Dental Hygiene graduates to also fall into this category of dedicated community members offering high quality dental services to the community.

Priorities for Program Development

In preparation for the program's launch, the Modesto Campus has established several priorities. These include obtaining approval from the Commission on Dental Accreditation (CODA) and ABHES, completing construction and equipment procurement for the clinic, hiring qualified faculty and staff, and implementing robust marketing and recruitment strategies to attract both students and patients.

Equally important is the integration of the new program with existing campus services. Student support services, such as tutoring, counseling, and career development, will be extended to Dental Hygiene students, ensuring consistency with Gurnick's institutional standards.

Student Outcomes

Graduates of the Dental Hygiene program will emerge as academically prepared, clinically skilled, and professionally equipped practitioners. They will be prepared to sit for national and state licensure examinations, confident in their ability to provide preventative and therapeutic oral healthcare. More broadly, they will embody Gurnick's commitment to producing graduates who are ready to serve, having already contributed to community health through the campus-based clinic. Our existing nursing and allied health programs boast robust enrollment and excellent outcomes from a graduation and licensure perspective.

Gurnick Academy annually exceeds accreditor expectations in outcomes for placement, attrition, and first-time licensure rates. We partner with all our programmatic accreditors

as well as our institutional accreditor ABHES to continually improve our student outcomes and program delivery. This is an internal focus for our campus leadership and academic leadership each and every year.

Environmental Assumptions

Several environmental factors shape this strategic plan. Economically, demand for affordable dental services in the Central Valley continues to outpace supply, with many residents lacking adequate insurance coverage. This presents both an educational opportunity and a community mandate.

While other regional institutions already offer dental hygiene programs, demand for graduates still outpaces supply. Gurnick's unique combination of allied health expertise, institutional reputation, and the integration of a free or low-cost dental hygiene clinic differentiates the Modesto Campus from other local colleges.

The higher education landscape continues to emphasize experiential learning, simulation, and community-based education. Financially, the program will require significant upfront investment, but Gurnick has a proven track record of launching high-quality programs that quickly become sustainable through strong enrollment.

SWOT Analysis

Below is a SWOT analysis of the Dental Hygiene program at the Modesto Campus compared with nearby competitors:

Strengths	Weaknesses
Strong institutional reputation; on-site clinic as differentiator; Active Community Partner	New program with no alumni record; high upfront capital costs.
Opportunities	**Threats**
High demand for affordable dental hygiene services; interprofessional collaboration; Further opportunities to collaborate with the Central Valley community.	Faculty shortages; competition from other schools; possible regulatory delays.

Performance Indicators and Projections

The Dental Hygiene program is projected to begin with an initial cohort of 24 students in Fall 2027, growing to 48 students annually by 2029. By the third year of operation, the campus clinic is expected to serve at least 3,000 community members annually.

Key performance targets include a first-time licensure pass rate of 90 percent or higher, a graduate placement rate of at least 85 percent within six months of graduation, and full

faculty staffing by 2026. These indicators align with Gurnick's institutional performance standards as well as CODA and DHBC expectations.

Strategic Goals

Academic Affairs: Complete curriculum development in accordance with DHBC statutes and regulations and CODA standards, secure full accreditation, and integrate clinical training through the on-site clinic. Interprofessional case studies will be developed with nursing and imaging programs.

Student Services: Admissions, financial aid, and counseling will be tailored to Dental Hygiene students. Additional workshops will be offered to prepare students for licensure examinations and career placement.

Campus Advancement and Marketing: An integrated marketing plan will ensure that both the program and the clinic are visible to key audiences. For program recruitment, outreach will target high school graduates, dental assistants seeking advancement, and career changers. For clinic recruitment, campaigns will focus on uninsured and underserved community members.

Finance and Administration: The program anticipates $4–6 million in capital investment for clinic construction, equipment, and faculty recruitment. Gurnick will also pursue grant funding and philanthropic partnerships to offset clinic operational costs and ensure long-term sustainability.

Community Initiatives: The dental hygiene clinic will become a cornerstone of Gurnick's community engagement strategy, providing free and low-cost services to Modesto residents. Outreach initiatives will include school-based oral health programs, community dental fairs, and partnerships with local health organizations.

Marketing Phases

Phase I – Awareness (2025–2026): Awareness campaigns will highlight the forthcoming program and clinic through radio, billboards, digital ads, and outreach events. Messaging will target potential students and inform the community about future clinic services.

Phase II – Engagement (2026–2027): Recruitment campaigns will launch across multiple channels, including Google Search, YouTube, Meta, and TikTok, supported by high school fairs, community partnerships, and print materials. For the clinic, campaigns will emphasize accessibility and affordability, with messaging directed toward uninsured families and seniors.

Phase III – Enrollment and Patient Recruitment (2027): As program approval is finalized, admissions teams will begin enrolling students, supported by nurturing campaigns and admissions counseling. Concurrently, clinic marketing will shift toward generating patient appointments, supported by partnerships with local schools, nonprofits, and health fairs.

Conclusion

The launch of the Dental Hygiene program at Gurnick Academy's Modesto Campus represents an opportunity to meet workforce demand, expand access to oral healthcare, and strengthen Gurnick's role as a leader in allied health education. Through careful planning, integration with existing programs, a strong marketing strategy, and a commitment to community service, Gurnick Academy is positioned to successfully launch this program in Fall 2027 and sustain it well into the future.

II.e Other Health-Related Programs

e. Type of RDH or other health-related programs including: number of students currently enrolled and graduates by program type; passage rate on any required certification or licensing examination for the past five years (as applicable); and status of the program with any state, regional, or federal agency.

Gurnick Academy - Modesto offers two degree programs, one diploma program, and two certificate programs, all in the fields of nursing or allied health. We have provided a table on the next page which includes the information requested in the Feasibility Study Instructions:

- The number of students currently enrolled by program.
    - We have provided the number of students currently enrolled at Gurnick Academy - Modesto as of September 11, 2025.
- The number of graduates by program.
    - We have provided the number of graduates from our most recent ABHES reporting year (July 1, 2024 – June 30, 2025).
- The passage rate on any required certification or licensing examination for the past five years (as applicable).
    - We have provided the exam pass rates for the past five (5) ABHES reporting years (2020 – 2024). Exam pass rates reflect the ABHES annual reporting cycle (July 1 – June 30). The timeframes for the pass rates included in the table are as follows:
        - 2020: July 1, 2020 – June 30, 2021
        - 2021: July 1, 2021 – June 30, 2022
        - 2022: July 1, 2022 – June 30, 2023
        - 2023: July 1, 2023 – June 30, 2024
        - 2024: July 1, 2024 – June 30, 2025
- The program's status with any state, regional, or federal agency.

Program	Number of Students Currently Enrolled (As of September 2025)	Number of Graduates (July 1, 2024 - June 30, 2025)	Exam Pass Rates (2020 - 2024)	Status w/ Regulatory Boards & Programmatic Accreditors
Associate of Occupational Science in Respiratory Therapy (A.O.S. in RC)	31	Not applicable. *This is a new program. The first cohort will graduate in 2026.*	Not applicable. *This is a new program. The first cohort will graduate in 2026.*	In Good Standing with CoARC.
Associate of Science in Magnetic Resonance Imaging (A.S. in MRI)	40	27	Not Applicable. *Students are not required to obtain a license or certification.*	Not Applicable. *This program does not hold programmatic accreditation and is not under a programmatic regulatory board.*
Vocational Nurse (VN) Diploma	315	340	**2020:** 100% **2021:** 100% **2022:** 100% **2023:** 95% **2024:** 89%*	Approved by the California Board of Vocational Nursing and Psychiatric Technicians.
Dental Assistant (DA) Certificate	16	18	Not Applicable. *Students are not required to obtain a license or certification.*	Approved by the California Department of Public Health.
Medical Assistant (MA) Certificate	13	46	Not Applicable. *Students are not required to obtain a license or certification.*	Gurnick Academy is required to meet ABHES' programmatic accreditation standards for Medical Assisting as part of our grant of Institutional Accreditation.

**This data is based on reported NCLEX results as of September 11, 2025. Not all results have been reported for students graduating between July 1, 2024, and June 30, 2025. This percentage may change as additional results are reported.*

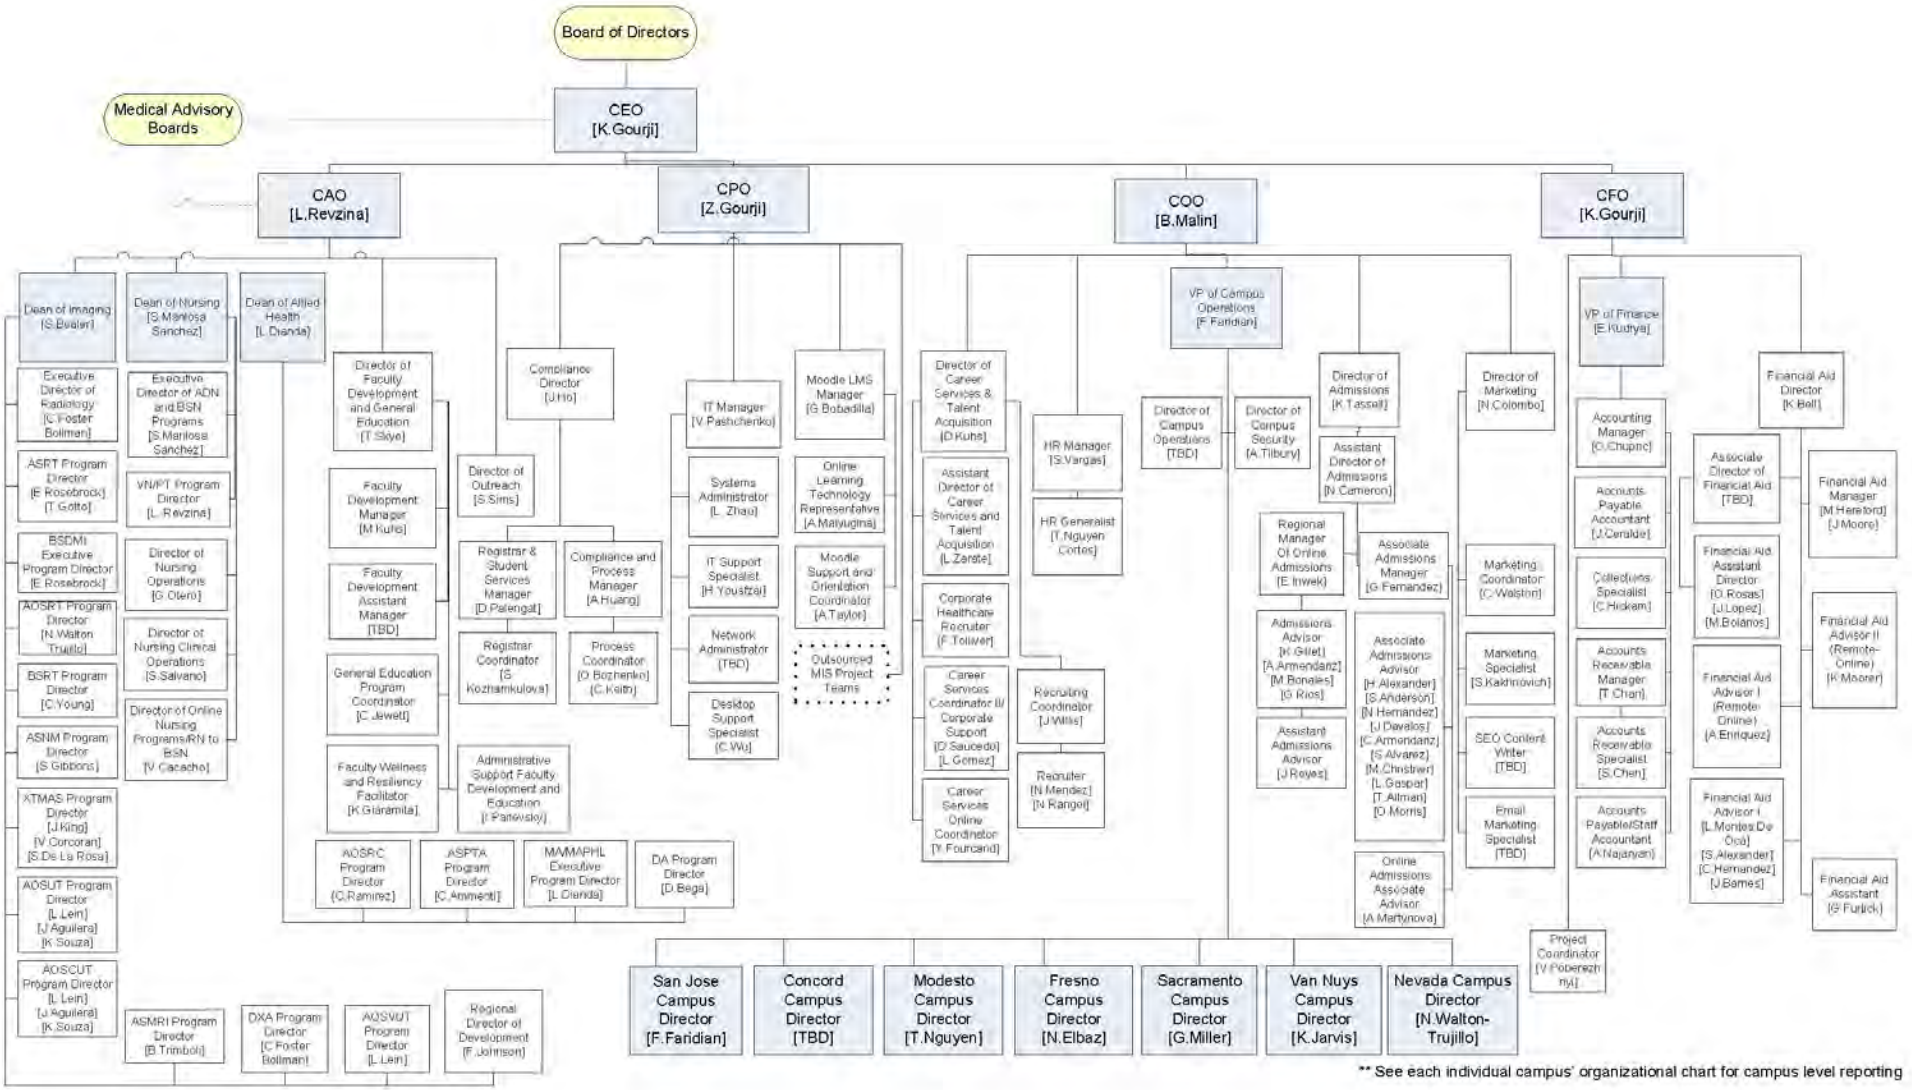
II.f If the institution does not have an RDH education program

f. If the institution does not have an RDH education program or other health-related programs, provide a statement related to the processes and resources it shall utilize to start and sustain an RDH education program.

Not applicable. Gurnick Academy - Modesto offers two degree programs, one diploma program, and two certificate programs, all in the fields of nursing or allied health.

SECTION II EXHIBITS

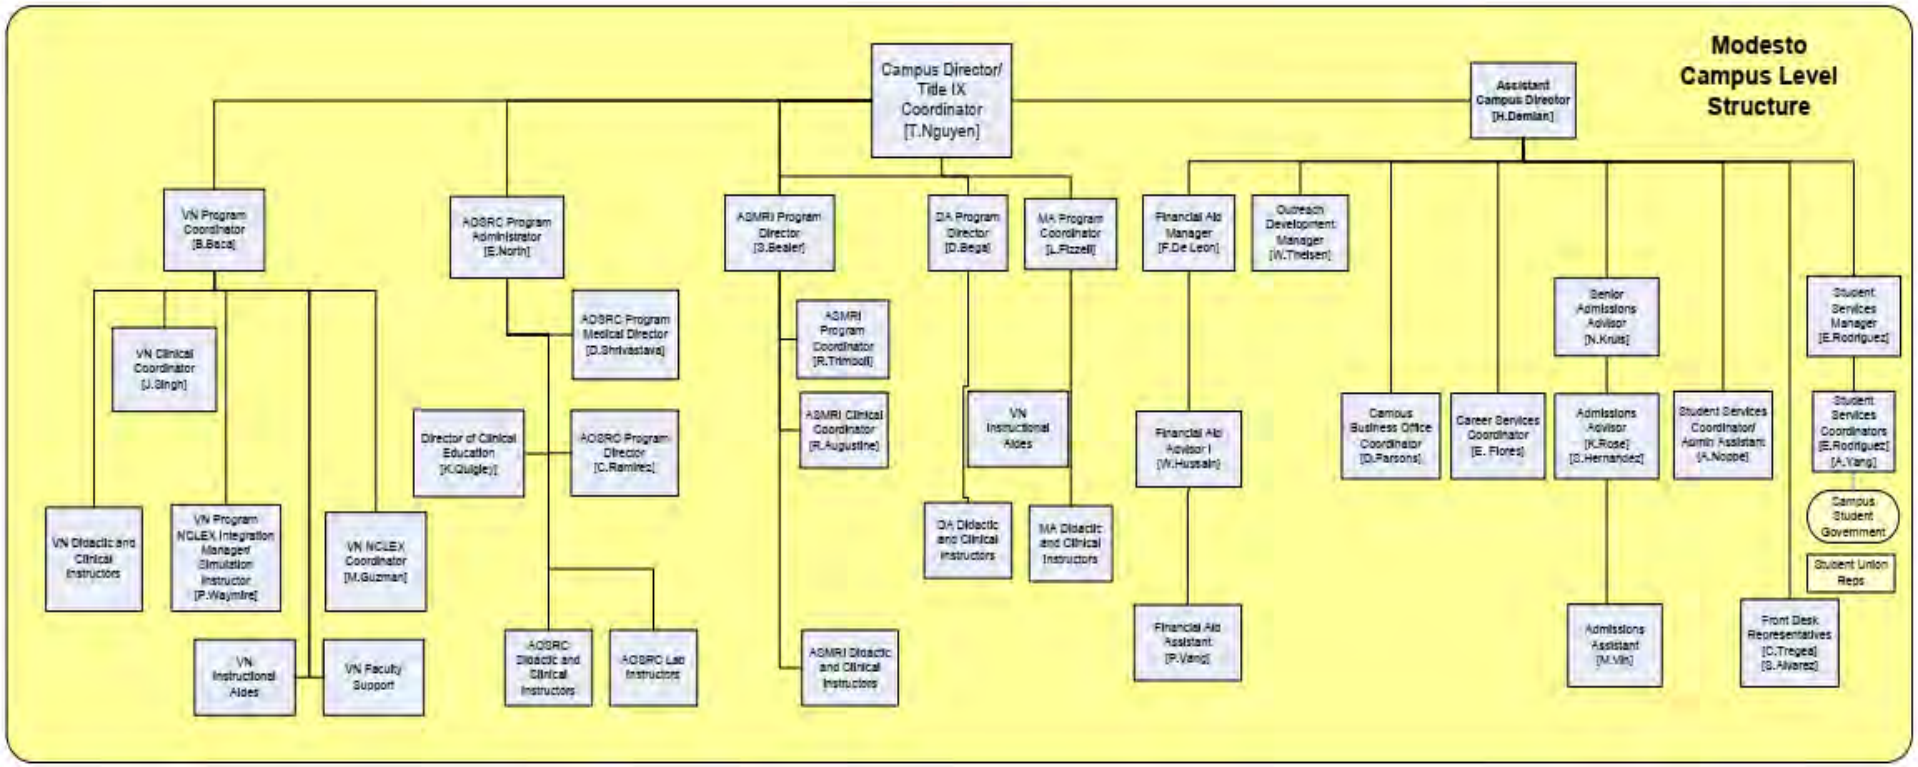
Exhibit II.A - Gurnick Academy Institutional and Programmatic Accreditation History



Gurnick Academy Institutional and Programmatic Accreditation History	
March 2024	The Joint Review Committee on Education in Nuclear Medicine Technology (JRCNMT) grants the Associate of Science in Nuclear Medicine Technology Program accreditation at our Concord Campus with a 5-year award. Commission on Accreditation for Respiratory Care (CoARC) grants our Associate of Occupational Science in Respiratory Therapy Program provisional accreditation at our Modesto Campus.
February 2024	ABHES approves the Bone Densitometry Technician program at the Sacramento campus.
January 2024	ABHES approves the Associate of Science in Physical Therapist Assistant program at the Fresno Campus.
December 2023	ABHES approves the Associate of Occupational Science in Respiratory Care program at the Modesto campus.
November 2023	Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program Abdominal-Extended and Obstetrics and Gynecology concentrations accreditation at our Sacramento Campus.
October 2023	The Medical Assistant program has been discontinued at our Sacramento campus.
March 2023	ABHES approves the Associate of Occupational Science in Cardiac Ultrasound Technology program at our San Mateo and Sacramento campuses.
January 2023	The Medical Assistant program and Associate of Science in Veterinary Medical Technology program have been discontinued at the San Mateo campus. The Psychiatric Technology program has been discontinued at our Concord campus.
November 2022	ABHES approves the Associate of Occupational Science in Vascular Ultrasound Technology program at the San Mateo campus.
August 2022	ABHES approves the Master of Science in Nursing program at the Concord campus.
June 2022	ABHES approves the Bachelor of Science in Radiation Therapy program at the Van Nuys campus.
November 2021	The Joint Review Committee on Education in Radiologic Technology (JRCERT) grants the Associate of Science in Radiologic Technology Program accreditation at our Sacramento Campus with an 8-year award.
September 2021	ABHES approves our Concord Campus's Associate of Science in Nuclear Medicine Technology Program. Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program

Gurnick Academy Institutional and Programmatic Accreditation History	
	Abdominal-Extended and Obstetrics and Gynecology concentrations accreditation at our San Mateo Campus. The Medical Assistant with Phlebotomy program has been discontinued at our Concord and Fresno campuses.
June 2021	ABHES approves the Vocational Nurse Program at our Sacramento Campus.
May 2021	The Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program Vascular concentration accreditation at our San Mateo Campus.
October 2020	The Dental Assistant program has been discontinued at our San Mateo campus.
August 2020	ABHES approves a credential change from Associate of Science to Associate of Occupational Science in Ultrasound Technology.
May 2020	ABHES approves the X-ray Technician with Medical Assistant Skills Program on the Concord Campus.
December 2019	ABHES approves the X-ray Technician with Medical Assistant Skills Program at our Sacramento Campus.
	Commission on Accreditation in Physical Therapy Education (CAPTE) reaffirms accreditation for ten (10) additional years.
September 2019	ABHES approves the Medical Assistant Program at our Van Nuys Campus.
June 2019	Joint Review Committee on Education in Radiologic Technology (JRCERT) grants the Associate of Occupational Science in Radiologic Technology Program accreditation at our Van Nuys Campus with an 8-year award.
March 2019	ABHES approves Van Nuys Campus. ABHES approves the X-ray Technician with Medical Assistant Skills Program at our Van Nuys Campus. ABHES approves the Associate of Occupational Science in Radiologic Technology Program at our Van Nuys Campus.
December 2018	ABHES and the California Board of Registered Nurses approved International Nurse Graduate Courses at our Fresno Campus.
November 2018	The Joint Review Committee on Education in Radiologic Technology (JRCERT) grants accreditation to the Associate of Science in Radiologic Technology Program at our Sacramento Campus.
February 2018	The California Board of Registered Nurses (BRN) approves the Associate of Science in Nursing Program at the Fresno Campus.
August 2017	ABHES approves the Dental Assistant Program at the Modesto Campus.
January 2017	ABHES approves the Sacramento Campus. ABHES approves the Medical Assistant, Associate of Science in Magnetic Resonance Imaging, Associate of Science in Radiologic Technology, and Associate of Science in Ultrasound Technology Programs at the

Gurnick Academy Institutional and Programmatic Accreditation History	
	Sacramento Campus.
November 2016	ABHES approves the Associate of Science in Nursing Program at the Fresno Campus.
December 2015	ABHES approves the Bachelor of Science in Diagnostic Medical Imaging Program.
October 2015	ABHES approves the Dental Assistant Program at the San Mateo Campus.
January 2015	ABHES approves our Concord Campus's Associate of Science in Radiologic Technology Program.
December 2014	The Commission on Accreditation in Physical Therapy Education (CAPTE) grants the PTA Program accreditation.
September 2014	ABHES approves the Associate of Science in Magnetic Resonance Imaging Program at the San Mateo Campus.
July 2014	ABHES approves the Bachelor of Science in Nursing Degree Program at the Concord Campus.
January 2014	The American Registry of Radiologic Technologies® (ARRT®) recognizes the MRI, RT, and UT programs.
September 2013	ABHES approves the Medical Assistant Program at the Concord, Fresno, Modesto, and San Mateo Campuses.
August 2013	ABHES accredited Gurnick Academy for a maximum eight (8) year timeframe through February 28, 2022.
May 2013	ABHES approves the Associate of Science in Magnetic Resonance Imaging Program at the Modesto Campus.
February 2013	ABHES approves the Associate of Science in Physical Therapist Assistant Program.
March 2010	The Joint Review Committee on Education in Radiologic Technology (JRCERT) grants accreditation to the RT Program.
December 2009	The Accrediting Bureau of Health Education Schools (ABHES) grants Gurnick Academy Institutional Accreditation.
June 2008	The Concord Campus offers an RT Program.
November 2007	The Fresno and Modesto Campuses offer a VN Program.
December 2005	The Concord Campus offers a VN Program.
January 2005	The San Mateo Campus offers VN and MRI Technology Programs.
February 2004	The San Mateo Campus offers a UT Program.



GURNICK ACADEMY

SECTION III

Facilities and Resources

Describe physical location of proposed RDH program.

a. *Describe space committed to the program and provide copies of floor plans to include faculty and staff offices, classrooms, laboratories, clinical facilities, and storage areas.*
b. *Provide status report on construction or renovation of physical facilities.*
c. *List educational resources, equipment, supplies purchased or to be purchased for the program.*

III.a Space Committed to the Program

a. Describe space committed to the program and provide copies of floor plans to include faculty and staff offices, classrooms, laboratories, clinical facilities, and storage areas.

Gurnick Academy's Modesto campus, located at 4712 Stoddard Road, Modesto, CA 95356, has committed to expanding its facilities to develop a dental clinic and educational space for the Dental Hygiene Program. Additionally, students in the Dental Hygiene Program will have access to Gurnick Academy – Modesto's existing facilities which include the Admissions, Financial Aid, Student Services, and Outreach/Placement Offices. Please find a copy of the floor plan for Gurnick Academy – Modesto's existing facilities in Exhibit III.A. Additionally, please see Exhibit III.A for the floor plans of the future clinic and educational space for the Dental Hygiene Program.

Facility Space	Identified on Floor Plan	Square Footage
Clinical Operatories *20 Clinical Operatories*	TRE. ROOM 1 – 20	Exam rooms range from 115 – 130 sq. ft.
Dual-purpose Radiology/Clinical Operatories *4 Dual-purpose Radiology/Clinical Operatories*	RADIOLOGY 1 – 4	Radiology rooms range from 120 – 122 sq. ft.
Panoramic	IMAGING ALCOVE	91 sq. ft.
Sterilization Area	STERILIZATION 112	115 sq. ft.
Clean Instrument Area	CLEAN INS. 113	115 sq. ft.
Waiting Area	WAITING 103	738 sq. ft.
Reception	RECEPTION 105	99 sq. ft.
Patient Records	RECORDS 109	80 sq. ft.
Laboratory/Multipurpose Classroom	CLASSROOM/LAB 111	742 sq. ft.
Storage Facilities	STORAGE	330 sq. ft.
Student Breakroom	STUDENT BREAK 106	161 sq. ft.
Staff Breakroom	STAFF BREAK 107	121 sq. ft.
Lockers	LOCKERS 102	69 sq. ft.
Faculty Offices	FACULTY OFFICE 109	330 sq. ft.
Program Director Office and Private Offices	OFFICE 100, 101, and 104	87 – 86 - 55 sq. ft
	Total Facility Size	**6,786 sq. ft.**

During clinical sessions, 24 students will use the 20 Clinical Operatories and 4 Dual-purpose Radiology/ Clinical Operatories, so the number of clinical stations is the same as the number of students admitted per cohort. The clinical operatories and dual-purpose radiology/clinical operatories will range from 115 sq. ft. to 130 sq. ft. thus allowing sufficient area to accommodate a full range of operator movement and opportunities for proper instructor supervision. In clinical sessions, the instructor to student ratio will not exceed five (5) students to one (1) faculty member.

Furthermore, the 4 Dual-purpose Radiology/ Clinical Operatories and the Panoramic Room will be protected with lead-lined walls and will conform to applicable local, state, and federal regulations. As shown in the floor plan in Exhibit III.A, a sink/hand washing station will be available between every two operatories to allow for convenient hand hygiene. Finally, each clinical operatory will be equipped with functional equipment and its own monitor for easily viewing radiographic images.

The floor plan in Exhibit III.A also depicts the Laboratory/Multipurpose Classroom (labeled CLASSROOM 110), which will be used for all required laboratory activities and will conform to applicable local, state, and federal regulations. In radiography laboratory sessions, the instructor to student ratio will not exceed five (5) students to one (1) faculty member, and in other dental sciences laboratory sessions, the ratio will not exceed ten (10) students to one (1) faculty member. Didactic coursework for the dental hygiene program will be delivered online and does not require physical classrooms.

Lastly, the floor plan in Exhibit III.A shows private office space for the Program Director and faculty to ensure privacy for confidential matters. A secure, designated space for program and clinic records can also be seen on the floor plan to ensure confidentiality and safety.

With the re-design of the future clinic and educational spaces for Gurnick Academy – Modesto's dental hygiene facility, there will be sufficient space to safely, and satisfactorily, deliver quality education and clinical experiences to our students.

III.b Status Report on Construction or Renovation of Physical Facilities

b. Provide status report on construction or renovation of physical facilities.

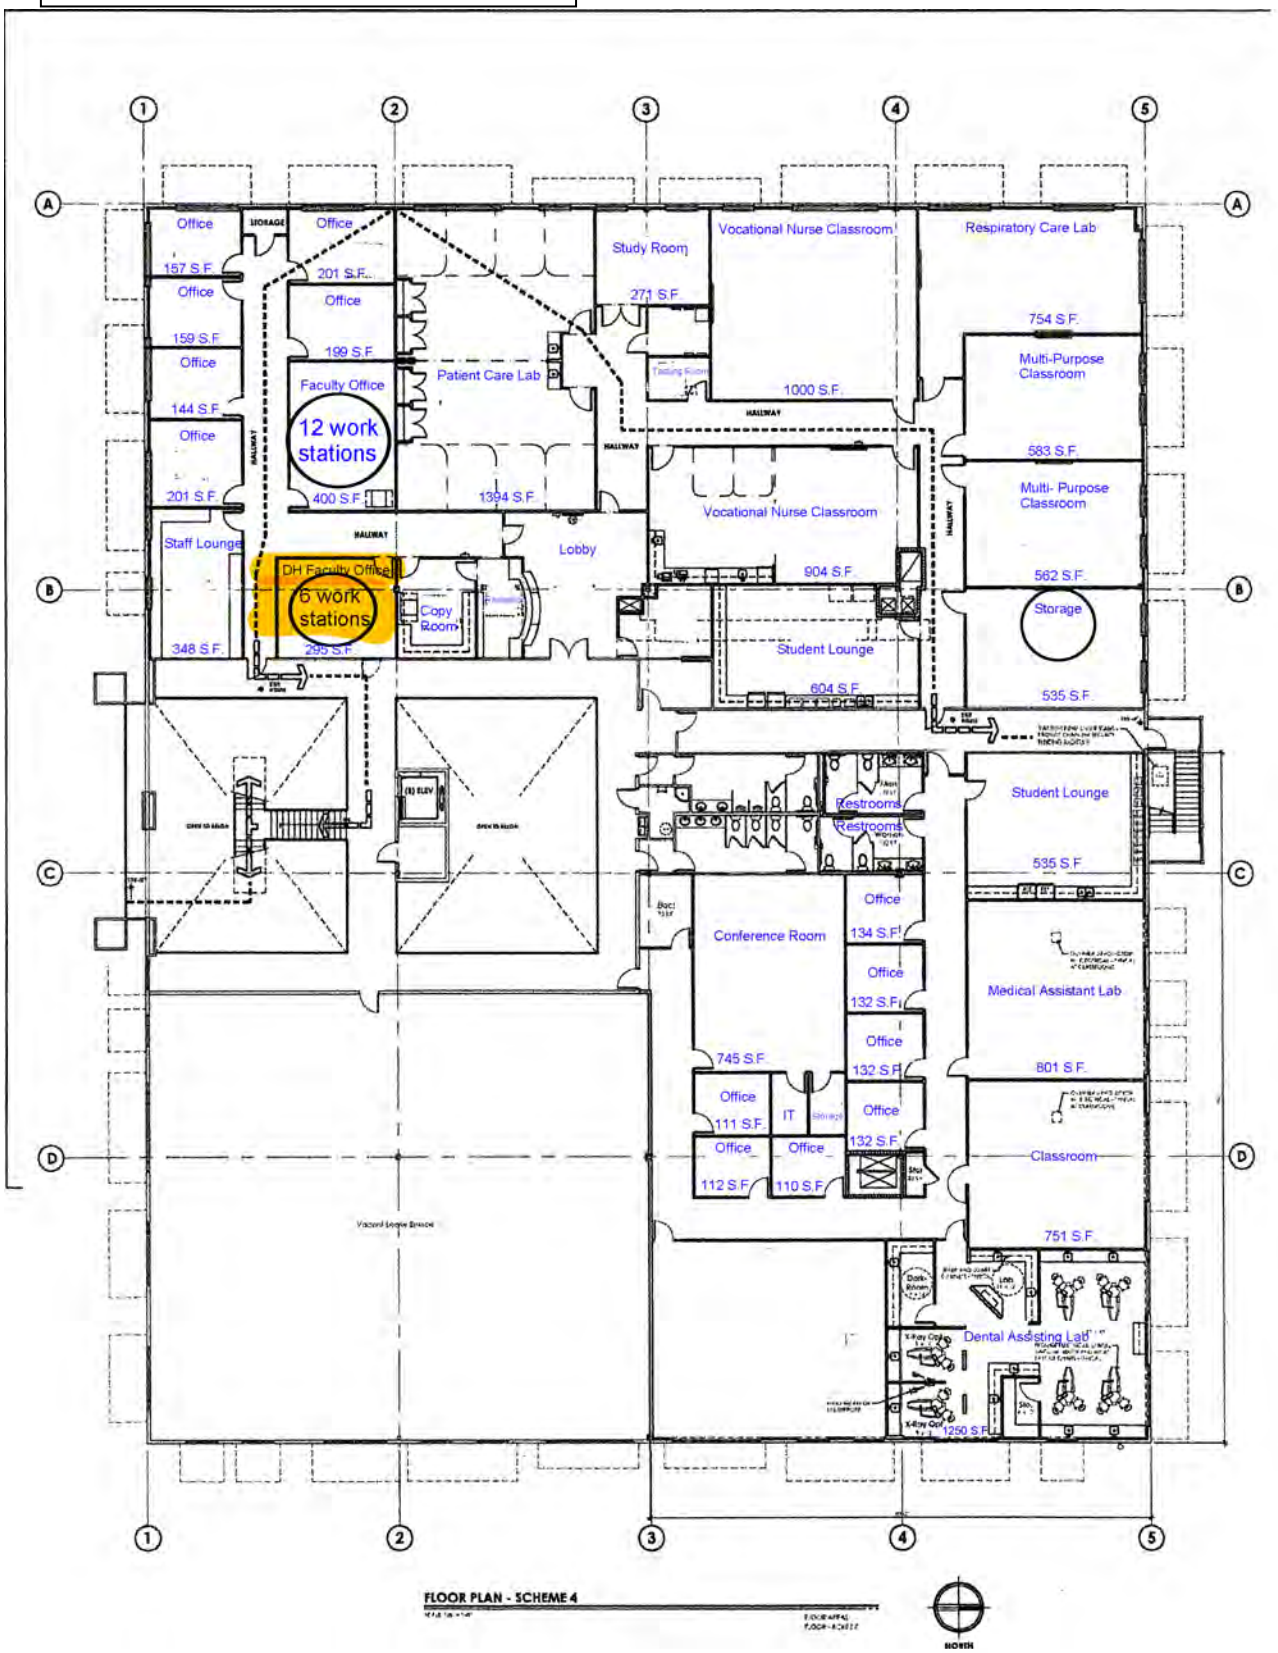
Gurnick Academy - Modesto is working with Commercial Arch and Henry Schein to begin building the new facilities and outfitting the clinical and laboratory spaces starting in early 2026. Construction is estimated to be completed by Spring/Summer 2027 to accommodate the first anticipated cohort in Fall 2027. Starting the build-out of the new facility is contingent upon receiving conditional approval from DHBC and submission of the application for initial accreditation to CODA.

III.c List Educational Resources, Equipment, Supplies

c. List educational resources, equipment, supplies purchased or to be purchased for the program.

The Educational resources, equipment, and supplies that will be provided to Gurnick Academy – Modesto's Dental Hygiene students includes:

1. Library Resources
    a. LIRN is a 3rd party Library and Librarian Solution that Gurnick Academy partners with to provide comprehensive library resources and librarians to ensure that all faculty and staff are knowledgeable about library resources.
    b. LIRN has numerous online resources from various vendors (including databases containing articles from periodicals [peer reviewed, academic, and trade], eBook collections, video collections, or interactive applications.
    c. Gurnick Academy has selected resources relevant to specific areas of study at our institution. All LIRN resources are intended for higher education to promote academic study, research, and growth, including all areas of General Education.
    d. Dental Hygiene specific resource track has been Identified and added to the Gurnick Academy LIRN contracted resources.
2. Librarian Solutions
    a. Gurnick Academy is supported by a team of LIRN Librarians who have earned a master's degree in library science (MLS), Librarianship, or Library and Information Studies (MLIS) from a program accredited by the American Library Association (ALA).
3. Tutoring Services
        a. While Gurnick Academy of Medical Arts does not offer an institution-wide tutoring program, students interested in receiving tutoring may contact their Program Director to coordinate tutoring sessions. Tutoring sessions may be requested for any course in which a student is currently enrolled at Gurnick Academy of Medical Arts. Tutoring sessions will be conducted by the Program Director or program faculty during scheduled office hours or at an otherwise agreed-upon time. Additionally, a student's Program Director may assign tutoring sessions to a student who has been identified as not achieving satisfactory academic progress. In this instance, the Program Director will arrange individual tutoring with themselves or program faculty to help the student catch up with the program and improve their academic progress. There are no charges to the student for tutoring services.
4. Modesto Campus Library
    a. Computers
    b. Internet Access
    c. Dental Hygiene Hard Copy Resources (Exhibit III.B)
5. Student Kits (Exhibit III.C)
6. Materials Laboratory (Exhibit III.D)
7. Radiology Laboratory (Exhibit III.D)



8. Sterilization Equipment (Exhibit III.D)
9. Clinical Operatories (Exhibit III.D)

REVISE ORDER PLACE ORDER

* Future order prices may vary on date of processing. Final order total may differ than that displayed due to variations in product availability, discounts, taxes, shipping, hazardous materials, small order charges, and/or handling charges. Products requested on future orders may not be available on date of processing. Do not request pre-book products on a future order. Not responsible for typographical errors. This sale is subject to our terms and conditions.

** Estimated Delivery Dates may vary based on product availability at the time of processing. Also, first-time web orders, orders with comments, and orders containing restricted substances may be delayed for verification and review. Actual delivery dates will be provided in a shipment confirmation e-mail after this order is placed.

For dental radiation-emitting equipment, the National Council on Radiation Protection (NCRP) recommends, and many states require, a shielding design/plan review performed by a qualified expert before installation. As a service, HSD will obtain this from a qualified expert on your behalf; applicable fees will be added to your order.
If you are in a state that does not require this, and decline this service, please check the box and sign here. Decline ☐ Customer Signature _____

THIS ORDER IS SUBJECT TO HENRY SCHEIN DENTAL EQUIPMENT TERMS AND CONDITIONS AND ANY SUPPLEMENTAL TERMS AND CONDITIONS PROVIDED WITH PURCHASES HEREUNDER, AND THE PURCHASER AGREES TO BE BOUND THEREBY.
Orders are subject to credit approval.

_____ Acceptance by Henry Schein Dental _____ Date

HENRY SCHEIN®

Dear Gurnick Academy / Dental School : the attached equipment order (quote) is for your review from Henry Schein, Inc. dba HSD. Please read these Supplemental Terms and Conditions which are applicable to your purchase of dental equipment ("equipment" or "goods") and review all lines of the equipment order (quote) for accuracy. If all documents meet your requirements, please sign at the appropriate signature area.

DENTAL EQUIPMENT / SUPPLEMENTAL TERMS AND CONDITIONS

1. Late Delivery. HSD shall attempt to deliver on the date specified in the equipment order, but is not responsible for delays and any delays are not considered a breach by HSD hereunder.
2. Partial Delivery. By signing this equipment order, Purchaser agrees that, if in order to fulfill Purchaser's needs and/or installation requirements, HSD may make partial deliveries, and Purchaser must pay amounts owed relating to any such partial delivery. Partial billing is due upon receipt of invoice.
3. Warranty Disclaimer. Except as provided in HSD's equipment standard terms of sale, HSD does not give warranties (on products or installation). HSD personnel, including Equipment Specialists or Field Sales Consultants, are not authorized to bind HSD or to make warranties. Oral statements by HSD personnel or agents do not constitute warranties and may not be relied upon or considered a contract.
4. Labor and Services Time Periods. Labor described in your equipment order (such as maintenance, repairs, replacement of defective parts, or repairs) must be completed within 90 days following installation. Services (such as training) must be completed within 180 days following installation.
5. Repairs/Loaners. If manufacturer is unable to provide replacement product during repair HSD may endeavor to provide a temporary loaner during any period of repair, to the extent available.
6. Not Included. Costs relating to the following activities are the sole responsibility of Purchaser and ARE NOT INCLUDED IN THE PURCHASE PRICE:
   a. Disconnecting and/or reinstalling Purchaser's existing equipment
   b. Changes or additions in plumbing, electrical, or carpentry
   c. Governmental inspections, approvals, or fees
   d. Union intervention in installation or delivery
   e. Disposal of old equipment
   f. Delivery of donated equipment
   g. Insurance
7. Late Payment Charges. 1½% PER MONTH WILL BE CHARGED ON PAST DUE BALANCES (18% PER YEAR).
8. Office Space Plans. Office space plans drawn by HSD, are the sole property of HSD and are not to be used without HSD's prior written consent.
9. Purchaser's Name. The name provided in the equipment order is the exact legal name of Purchaser.
10. Return Policy. (Return Policy) Initial Here: _____

60 days or under	61 to 90 Days	Greater than 90 days
• Goods purchased on equipment orders through HSD will be subject to a 15% restock fee if the goods are returned in original sellable condition (see below). Goods returned not in original sellable condition are subject to a 25% restock fee.	• Goods purchased on equipment orders through HSD will be subject to a 25% restock fee if the goods are returned in original sellable condition. Goods returned not in original sellable condition are subject to a 50% restock fee. • Regardless of condition, technology goods including laptops, desktop PCs, servers, printers, TVs, monitors, portable storage devices and network hardware will be subject to a 50% restock fee.	• Goods purchased on equipment orders through HSD that have been installed and put into use can only be returned after approval for a credit to Purchaser's account which may only be used for future purchases from HSD or to settle an open balance, and will be subject to a 50% restock fee.

Exceptions/Additional Information:
   a. Goods covered by this policy are those sold by HSD in product series 800, 805, 819, 826, 845 and 850.
   b. Dates above are calculated from invoice date.
   c. Goods are not returnable after 12 months from invoice date or that show obvious signs of abuse or misuse.
   d. The following are not returnable: small equipment, hand pieces and software (including Dentrix).
   e. The following are returnable only in the first 90 days: laptops, desktop PCs, servers, printers, TVs, monitors, portable storage devices and network hardware.
   f. Interest rate charges or early pay penalties charged by financial institutions are the sole responsibility of the customer.
   g. Custom goods are not returnable.
   h. Deposits placed on custom orders that are canceled will be subject to forfeiture at any time if the manufacturer of the goods is unable to cancel an order.
   i. Original sellable condition is defined as the goods being returned in good working order, free of cosmetic imperfections and fully operational to the manufacturer's specifications.
11. Credit Line Review. By signing this equipment order, Purchaser authorizes HSD and its subsidiaries and affiliates, by or through their designees: (i) to investigate Purchaser's personal credit and finance records, including obtaining records from the listed bank(s) and from such other applicable banks providing information related to the opening and extension of credit and other accounts with HSD, and (ii) to use Purchaser's social security number to request and obtain consumer credit reports in connection with the opening, monitoring, renewal and extension of accounts with HSD. Purchaser further consents to the sharing of the information provided in connection with any Purchaser application and account, as well as the information on Purchaser's consumer credit report, by and among HSD and its subsidiaries and affiliates, and with third parties from which Purchaser elects to apply for credit, for purposes of applying for and extending credit and other forms of accounts. Bank and credit information may be obtained for future reference provided Purchaser's account remains in active standing. Purchaser hereby authorizes the listed bank to release Purchaser's financial information to verify funds availability for payments under this equipment order. Upon request from Purchaser, HSD or its designee may apply on Purchaser's behalf for appropriate financing to finance this equipment order.
12. Financing Statements. By signing this equipment order, Purchaser acknowledges that HSD may file financing statements and amendments thereto for HSD to perfect its security interest in the equipment described in this equipment order. Such security interest will be maintained until HSD receives payment in full for such equipment.
13. Credit Card Policy. Limits on credit card uses: (a) Henry Schein-branded credit cards, no limit; (Credit Card Policy) Initial Here: _____ (b) non-Henry Schein-branded credit cards, limited to the greater of 10% of an order or $20,000; and (c) no credit cards (Henry Schein-branded or other) may be used for payments regarding EZPay purchases.
14. Sales Tax. Sales tax shown is an estimate and actual sales tax will be calculated at time of invoice.
15. Installation. Equipment orders from Henry Schein of $5,000 or less will be subject to installation charges. If the equipment (or technology/digital equipment) purchased does not include necessary installation materials from the manufacturer, Schein may charge for necessary installation materials, except where prohibited by other applicable contract.
16. Standard Terms of Sale. HSD's equipment standard terms of sale are hereby incorporated herein by this reference and apply to this equipment order.

DISCOUNTS, REBATES AND DISCLOSURES: Invoice or statement prices may reflect or be subjected to a bundled discount or rebate pursuant to purchase offer, promotion or discount program. You must fully and accurately report to Medicare, Medicaid, Tricare and/or any other federal or State program, upon request by such program, the discounted price(s) or net price(s) for each invoiced item, after giving effect to any applicable discounts or rebates, which price(s) may differ from the extended prices set forth on your invoice. Accordingly, you should retain your invoice and all relevant information for your records. It is your responsibility to review any agreements or other documents, including offers or promotions, applicable to the invoiced products/prices to determine if your purchase(s) are subject to a bundled discount or rebate. Any such discounts must be calculated pursuant to the terms of the applicable purchase offer, promotion or discount program. Participation in a promotional discount program is only permissible in accordance with discount program rules. By participation in such program, you agree that, to your knowledge, your practice complies with the discount program requirements.

March 2, 2026

Gurnick Academy
1641 North First St.
San Jose, CA 95112

We are pleased to quote you on the following from Dentsply North America LLC:

Item #	Description	Unit Price	Qty	Total
546002	DXTTR III (Natural)	$16,920.00	5	$84,600.00
546006	Pedo DXTTR Jr. (Polymeric Resin)	$9,050.00	1	$9,050.00

Warranty against manufacturer defects for a new DXTTR is one year from receipt of order. Warranty for teeth is 90 days. The DXTTR Dental X-Ray Trainer is intended for the purpose of illustrating proper radiographic techniques. Any other use will be considered misuse and not covered under warranty. All-natural skulls are unique and follow industry standards; therefore, we do not guarantee straight or perfect teeth or a perfect mouth. All orders are filled in the order in which they are received. The estimated lead time for a natural DXTTR is approximately 6 months; this is based on availability and can change at any time.

DXTTR is a made-to-order item and is non-returnable.

Damage or misuse not covered under warranty includes:
Broken jaw(s) Broken teeth Swivel ball Head strap Skin tears Control lever handles and ratchet plate

Please note: wearing of the ratchet plate of DXTTR III will occur if you do not properly grip the control handle. The handle must be fully disengaged before moving it.

Dentsply Rinn is the sole manufacturer of the DXTTR Dental X-ray Training units, and we are the only authorized repair center for these units.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

When you are ready to place your order simply send us the order, including shipping/billing addresses and PO#. Taxes are added on your invoice in states where applicable. There is no shipping charge for UPS ground shipping.
This price is valid until June 30, 2026.

Please note that Dentsply Sirona's payment terms are Net 30 and must appear on all Purchase Orders. For those states where statue law applies, please note the state statue number on the Purchase Order. Thank you for your cooperation.

Ordering information:
Dentsply North America LLC
221 W. Philadelphia Street, Suite 60W
York, PA 17401
Phone: 888-775-4495
Fax: 717-699-4143
Email: DPDE-DXTTR@dentsplysirona.com

Standard DXTTR Refurbishment consists of:
Complete evaluation, Replacement of skin and foam, Replacement of molded tongue, New head strap,

Labor

Refurbishment Cost – The average refurbishment cost is $3,500.00.
Replacement cost for broken or missing teeth is $91.90 each. Human teeth are scarce and it is not always possible to replace them; therefore, plastic teeth may be used if human substitutes are not available.
Mechanical damage not listed above will be quoted separately. If a DXTTR is received without chair hooks or foot pedal, it will be returned without these components. Chair hooks can be ordered at an additional cost.

Refurbishment Terms: Net 30 days, 90 days warranty on parts and labor.

Request a Registration Form from DPDE-DXTTR@dentsplysirona.com and fill out all information except the RMA number. Email back to us and we will generate an RMA number and return the form to you with shipping instructions.

To expedite your DXTTR repair, we recommend that you include a Purchase Order with a value up to $3,500.00 with your DXTTR. If repairs exceed this amount, you will be contacted for approval prior to performing the repairs. Final cost of refurbishment will be determined after evaluation of DXTTR and the school will be notified prior to any repairs. Please note: repairs cannot be made without a Purchase Order approval. Please note that if the estimated repair charges are not accepted, a $50 evaluation fee will be charged.

Primal's 3D Dental Hygiene	1	$0.00	$0.00

TOTAL: $3,255.00

NOTES ON THE QUOTE LINE ITEMS ABOVE:

- The Quantity above could represent the number of students, the number of vendor accounts, or the number of campuses depending on the vendor. In the case of number of students, the amount may be larger than your actual enrollment due to minimums imposed by the vendor.
- The Total column reflects the cost for the term of the subscription. The Unit Price reflects the annual cost in most cases.
- By accepting this quote you are committing to paying the full amount regardless of your licensure or accreditation status.
- Acceptance of this quotation includes acceptance of the accompanying LIRN Terms and Conditions.
- All amounts due are in United States Dollars unless otherwise specified on the Quote.

THANK YOU FOR YOUR BUSINESS!

SECTION IV

Cost-Revenue Projections with 5-Year Budget

Start-up Budget and Funding Sources

a. *Local, state, and federal support*
b. *Projected student fees*
c. *Grant support*
d. *Support from other entities such as funding from corporate, private industry, professional associations, donations*
e. *Projected clinic revenue*

Include a 5-year capital and operational line item budget that includes projected costs for proposed program which includes:

I. Capital Expenditures
- *A. Facilities (for example):*
  - *1. Clinic*
  - *2. Laboratory*
  - *3. Locker Room*
  - *4. Reception Room*
  - *5. Faculty & staff offices*
  - *6. Other (specify)*
- *B. Equipment (for example):*
  - *1. Dental Units*
  - *2. Radiography (unit.)*
  - *3. Laboratory*
  - *4. Instructional equipment*
  - *5. Other (specify)*

II. Non-capital Expenditures
- *A. Instructional materials*
- *B. Clinic supplies*
- *C. Laboratory supplies*
- *D. Office supplies*
- *E. Program library collection*
  - *1. Institutional*
  - *2. Departmental*
- *F. Equipment maintenance & replacement*
- *G. Other (specify)*

III. Faculty
- *A. Salaries*
- *B. Benefits*
- *C. Professional Development*
- *D. Travel for Student Supervision*
- *E. Other (specify)*

IV. Staff
- *A. Secretarial Support*
- *B. Clinic Support Staff*
- *C. Other (specify)*

V. Other Categories, if any (specify)

IV.a Local, State, and Federal Support

a. Local, state, and federal support

No local, state, or federal support is included in our budget projections. Funding for Gurnick Academy – Modesto to initiate and sustain the Dental Hygiene Program will be 100% institutional.

IV.b Projected Student Fees

b. Projected student fees

Please see the projected student fees in the table below:

ASDH Projected Student Fees	
Tuition *For both GE and Dental Hygiene* *Includes required books, equipment, and supplies.**	$90,000.00
Registration Fee	$100.00
Total Cost	**$90,100.00**

*The cost for books, equipment, and supplies is included in program tuition, thus eliminating out-of-pocket expenses for students. The cost also includes AHA CPR certification, dental hygiene related memberships, examination, fingerprinting fees, and a Student Kit (please see Exhibit III.C).

IV.c Grant Support

c. Grant support

Student Support

Gurnick Academy considers the Cal Grant a viable source of revenue for qualifying dental hygiene student tuition support. Additional research reveals Grant and Tuition support opportunities are available to students in an approved dental hygienist program. Gurnick Academy intends to be aware of, and to announce applicable opportunities as they arise, to support and encourage Dental Hygiene students interested in applying for these individual grant opportunities as shown in the table below.

Program Support

Gurnick Academy will research and apply for grant support as a source of revenue for the dental hygiene program once the program has been established. Preliminary research shows two grant opportunities which Gurnick intends to apply for, once eligible, as shown in the table below.

Dental Hygiene Public/Private Student and Program Scholarship Opportunities 2024		
Organization	**Funding**	**Reference Link**
For Dental Hygiene Students		
Carla Girts Memorial Community Outreach	$2,000.00	https://www.adha.org/ioh/scholarships/
HuFriedy Group/Esther Wilkins Instrument	$1,000.00	
IOH Research Grant Program	$2,500.00	https://www.adha.org/ioh/research-grants/
IOH Community Service Grants	$1,000.00	https://www.adha.org/ioh/community-service-grants/
CA.GOV State Treasurer's Office	$5,000.00	Specialty Dental Clinic Grant Program
For Dental Hygiene Programs		
Dept Health and Human Services	$1,600,000.00	https://www.grants.gov/search-results-detail/282618
Rural Health Information Hub 2023	$5,000.00	Oral Health in Rural Communities

IV.d Support From Other Entities

d. Support from other entities such as funding from corporate, private industry, professional associations, donations

Support from other entities is not factored into Gurnick Academy - Modesto's ability to offer this program. It is anticipated that with the development of program leadership and acquisition of qualified staff, the program will continue to develop outreach strategies, and to build relationships in and around the region. As the program serves our focus populations, we anticipate we may find professional or private entities willing to donate equipment. Locating sponsoring organizations with interest in participating in dental hygiene scholarship development is an idea we would like to explore.

IV.e Projected Clinic Revenue

e. Projected clinic revenue

Gurnick Academy's dental clinic will enact a fee schedule which will be charged to patients. There will be a flat, all-inclusive fee for Adult and Child Mouth Treatments:

Gurnick Academy Dental Clinic Fee Schedule	
Service	**Fee**
Adult Mouth Treatment	$40.00
Child Mouth Treatment	$20.00

Gurnick Academy also intends to offer a waiver for the service fee for patients facing hardships. Eligibility for a service fee waiver will be determined and documented with a simple, straightforward questionnaire given to patients at the time of service. The Program Director will review the questionnaire and approve or disapprove the fee waiver based on the patient's situation as described in the questionnaire. The Program Director will need to provide a reason for denial if the waiver were to be denied. Please see a copy of the Hardship Policy and Service Fee Waiver Questionnaire on the following page.

Income garnered from clinic fees will be invested back into the Dental Hygiene Program.

Hardship Policy and Service Fee Waiver Questionnaire

Service Fees

The dental hygiene patient flat fee schedule covers all needed services including:

- Initial Appointment- x-rays, examination, cleaning, and pediatric sealants.
- Returning, and Maintenance Patients- incur a new service fee.

Hardship Policy

In addition to the flat fee schedule, the Dental Hygiene Program can waive service fees for patients facing hardships.

Eligibility for a service fee waiver would be determined and documented with a short, easy to negotiate questionnaire given to patients.

Confidentiality will be maintained, as the Service Fee Waiver Questionnaire will be included in the New Patient Forms on Clipboard. Each patient receives a clipboard, a pen, and an explanation identifying each form.

Upon receiving the completed forms, the intake receptionist reviews them. If a patient has utilized the Service Fee Waiver Questionnaire, an immediate private meeting with the Program Director will be conducted.

Reception will remain alert to any sign that the patient needs additional support to read or understand the policy such as issues with literacy, and/or a language barrier. The Program Director will be engaged for support and guidance as appropriate.

Service Fee Waiver Questionnaire

A patient that is experiencing hardship is eligible for dental hygiene service at no cost for initial treatment.

If you are experiencing a hardship affecting your ability to pay your Dental Hygiene fees today, please answer the question below.

Have you, or are you experiencing:

a. ***Homelessness***
b. ***Had a family member pass away***
c. ***Experienced or currently experiencing an illness***
d. ***Lost your job or unemployed***

SECTION V

Student Services

Students and Student Services Admission and progression criteria:

a. Admission criteria:

- *Institutional policies*
- *Educational program selection policies*

b. Progression and graduation criteria:

- *Institutional criteria for progression and graduation*
- *Educational program's criteria for progression and graduation, including grading policies*

Student policies:

a. Provisions for student health and housing

b. Provisions for counseling and guidance

c. Financial aid policies, scholarship and grant opportunities

d. Appeals Provisions

V.a Admission Criteria

a. Admission criteria:

- *Institutional policies*
- *Educational program selection policies*

Institutional Policies

Gurnick Academy's Institutional Admissions Policy has been provided below. These general admission requirements can also be found in our catalog. Our Catalog has been provided for reference in Exhibit V.A, and the general admissions requirements can be found on pages 29 - 30.

General Admission Requirements for all Programs

All applicants to Gurnick Academy of Medical Arts must:

1. Meet with the program's Admission Advisor to review all required disclosures and receive complete information before enrolling with Gurnick Academy of Medical Arts.
   Kindly note that some programs may have additional requirements, such as attending a live or viewing a recording of an Information Session before meeting with Admissions; please see Additional Admissions Requirements per program.
2. Meet with a Financial Aid Advisor to review all required disclosures and receive complete information before enrolling at Gurnick Academy of Medical Arts.
   This requirement does not apply to non-financial aid programs or courses.
3. Pay all applicable fees per the published fee schedule before issuing an enrollment agreement or making other payment arrangements acceptable to Gurnick Academy of Medical Arts.
4. Possess a High School Diploma from an approved/accredited high school or a GED.
   Please ask an Admission Advisor for more details and the approved high school list. Please refer to the Foreign Transcript/Diploma Evaluation Policy for more information regarding additional requirements.
5. At least 18 (official ID is required) to enroll in a core program.
   Some programs may allow enrollment at age 17. Please see program-specific admission requirements for details.
6. Complete the entrance exam with the minimum score required as outlined in the table Admission Requirements Summary. All Programs utilize the Criteria Cognitive Aptitude Test (CCAT) with a minimum entrance exam score unless specified in the table below.
7. Complete the Online Application consisting of the following documents:
   a. Online Application
   b. Distance Education Questionnaire
   c. Academic Integrity Statement
   d. Consent to Receive Electronic Communications
8. Comply with all Gurnick Academy of Medical Arts requirements for Immunizations, Health Screening, Background Check, and CPR/First Aid policy.
9. Comply with the program's performance requirements.
   Read each program's performance requirements in the Program Performance Requirements section.

10. Comply with the Additional Admission Requirements per program.
    Please review this section for the applicable program.
11. Meet the minimum student skills, hardware, and software requirements if the student enrolls in distance education (online) courses. Please refer to the Minimum Requirements for Students Enrolling in the Distance Education Courses section.
12. Ability to read and write English at an American high school graduate level, as demonstrated by a high school diploma, GED, or passing the California high school proficiency exam.

Criteria Cognitive Aptitude Test (CCAT)

The Criteria Cognitive Aptitude Test (CCAT) is an aptitude test that measures an individual's aptitude to solve problems, digest and apply information, learn new skills, and think critically. The exam consists of 50 items. There is no cost for this exam. Applicants are allowed three (3) attempts within a calendar year to pass the exam. Students are allowed to retest the same day as the first failed exam. There must be at least seven (7) days between attempts after that.

Results are valid for one (1) year. Please note that if a graduate (or current student) applies for another program and their CCAT result has expired, this person must retake the test. Students applying to a program without a minimum required score will have one opportunity to take the test within a calendar year.

Test of Essential Academic Skills (TEAS®)

The Test of Essential Academic Skills (TEAS®) measures essential basic skills in the academic content domains of reading, mathematics, science, and English and language usage. The test is intended for use primarily with adult nursing program applicant populations. The objectives assessed on TEAS® VII* are those that nurse educators deemed most appropriate and relevant to measure the entry-level academic readiness of nursing program applicants.

The TEAS exam is proctored remotely by ATI, and the cost for this exam is $115 per individual test taker. Applicants are allowed two (2) attempts a year starting from the first exam's original date. Results are valid only for one year. All students are encouraged to log on to www.atitesting.com for study material and other useful resources and information.

Breakdown of test subjects (by the percentage of the entire test):

- Reading – 28%
- Mathematics – 20%
- Science – 32%
- English and Language Usage – 20%

Educational Program Selection Policies

In addition to Gurnick Academy's Institutional Admissions Policy, the Dental Hygiene Program will enact program specific admissions criteria as follows:

Applicants must:

1. Attend or view a live or recorded Information Session.
2. Meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, and background check (see Policies of Gurnick Academy of Medical Arts in School Catalog and "Admissions").
3. Submit original transcripts from the Registrar at an educational institution for those requesting credit granting for courses. Copies of transcripts are not accepted. All coursework must be completed with a grade of at least a "C" and a cumulative grade point average (GPA) of 2.5 (on a 4-point) scale. All credit granting is subject to the Program Director or designee's approval. Please allow seven (7) days for review.
4. Take an Admission Assessment test: The ASDH program requires applicants to take the CCAT exam.
5. Participate in an interview with the Program Director or Designee(s) in person or online.
6. Before starting this career choice, if an applicant has a criminal record and has been convicted of a felony, it would be in their best interest to contact the Dental Hygiene Board of California (DHBC) BEFORE they continue their education endeavors. Having a prior criminal history does not preclude you from sitting for the NBDHE (National Board Dental Hygiene Examination), or from obtaining a license from the DHBC. Each license applicant is evaluated on a case-by-case basis to determine license eligibility. A criminal conviction or formal license discipline does not automatically preclude an applicant from Board licensure. The Board requires all license applicants to submit a full set of fingerprints for purposes of conducting a criminal history record check[1].

[1] *https://dhbc.ca.gov/applicants/index.shtm*

Associate of Science in Dental Hygiene Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum of 85) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

AS in Dental Hygiene Admissions Point System	
Criteria	**Possible Points**
I. Admissions Exam	**50**
II. Post-Secondary Education	**15**
• Associate Degree	5
• Baccalaureate Degree	10
• Graduate/Master's Degree	15
III. Panel Interview*	**100**
V. Health Care Background	**5**
• One to three (1 – 3) years	3
• More than three (3) years	5
Total Possible Points	**170**

*Please see a copy of the Panel Interview questionnaire on the following pages.

Gurnick Panel Interview Program/Group: Applicant:

Interviewer:

Date:	1	2	3	4	5	6	7	8	9	10
1. What steps have you taken to learn about what a Dental Hygienist does?										
2. What made you choose to apply to Gurnick?										
3. Tell me about a time when you demonstrated excellent customer service. How would it relate to an experience you may see in the field of Dental Hygiene?										
4. What do you think is a student's responsibility in a program such as this, and what are the actions you will take to ensure you succeed in the program?										
5. There will be challenges you face in this program whether it be financial, emotional, social or personal. How do you propose to handle these types of challenges to be successful in the program?										
6. The program contains elements of online learning and technology. This can be overwhelming for students at times. Tell us about the software programs you are familiar with and how competent you feel with your technological skills.										
7. The candidate exhibits maturity in the answers provided.										
8. The candidate exhibits strong communication skills during the interview process.										

9. The overall impression of this candidate attitude and ability to successfully complete the Dental Hygiene Program.										
10. Much of the Dental Hygiene education is in the form of feedback in both clinic and lab practice. How do you perceive and react to constructive criticism? Please share an example of when you received coaching.										

TOTAL (max 100)

What will you do if you are not selected for this program?

What additional challenges do you foresee?

Total Points _____ (max 100)

Pre-Screening Completed Yes No
Interview Outcome-Pass Yes No
Interview Outcome- Undecided Yes

Comments:

V.b Progression and Graduation Criteria

b. Progression and graduation criteria:

- *Institutional criteria for progression and graduation*
- *Educational program's criteria for progression and graduation, including grading policies*

Institutional Criteria for Progression and Graduation

Gurnick Academy's Institutional Criteria for Progression and Graduation has been provided below. These general progression and graduation requirements can also be found under "Standards of Satisfactory Academic Progress" and "Graduation Requirements" in our catalog. Our Catalog has been provided for reference in Exhibit V.A, and the general progression and graduation requirements can be found on pages 151 and 165.

Standards of Satisfactory Academic Progress

For students to be considered in good academic standing, they must be making Satisfactory Progress while pursuing their program of study. Students must achieve a level of competence in all didactic and laboratory coursework. The clinical environment is consistent with the expertise required to pass the licensing exams.

Satisfactory Progress measurements consist of Qualitative and Quantitative Measurements. Qualitative and Quantitative Measurements are measured when the student has attended the scheduled clock hours of each payment and after each program-required module. The Grade Point Average and the Rate of Progress/Passed Measurement are then calculated.

Qualitative Measurements

The Qualitative Measurement portion consists of a student's grades, calculated into a cumulative Grade Point Average (GPA). The GPA is calculated on a weighted scale, using course hours and quality points based on the course's final grade. The GPA is the calculated average course grades for the entire program. A student must maintain a minimum GPA of 2.00 or a "C" to be considered to be making Satisfactory Progress.

For courses that are paired, students must successfully pass both courses. A failure in one of the courses constitutes a failure in the paired course(s). Both courses will have to be retaken at the same time. The grading system is defined as follows for all programs.

Table 23. *Qualitative Measurements.*

Letter Grade	Numeric Grade	Description Legend	Quality Points
A	90 – 100%	Excellent	4
B	80 – 89%	Good	3
C	75 – 79%	Satisfactory	2
D	65 – 74%	Unsatisfactory	1
F	0 – 64%	Failure	0
P	—	Pass (Clinical)	N/A
F	—	Fail (Clinical)	N/A
W	—	Withdrawn	0
I	—	Incomplete	0
R	—	Repeat	N/A
T	—	Transfer Credit	N/A
TO	—	Tested Out	N/A

The student GPA calculation is weighted based on the number of quality points earned. Quality points earned are determined by the number of hours assigned to a particular course multiplied by the quality points awarded for the letter grade earned in this course. The total quality points are divided by the total hours completed to determine the GPA.

For example, a course is defined as being 24 clock hours, and the final grade received is a "C." The chart above illustrates that the "C" grade is worth 2.00 quality points. For a 24-hour course, the total number of quality points awarded would be 24 times 2.00 or 48 total quality points. The total calculated quality points are then divided by the number of clock hours completed to determine the GPA.

Didactic and laboratory courses with grades of "A," "B," "C," "D," and "F" enter into the GPA calculation. Courses with grades of "A," "B," "C," and "D" are also included in the Rate of Progress/Passed Measurement calculation as hours attempted and as hours earned. Didactic and laboratory courses with an F grade are also included in the Rate of Progress/Passed Measurement calculation as hours attempted but not as hours earned.

A "P" grade is given for courses designated as pass/fail. A grade of "P" does not enter into the GPA calculation. A grade of "P" is included in the Rate of Progress/Passed Measurement calculation as attempted and earned hours.

An “F” grade is given for courses designated as pass/fail and does not enter into the GPA calculation. A clinical course with an “F” grade is included in the Rate of Progress/Passed Measurement calculation as hours attempted but not as hours earned.

A “W” grade is listed on the transcript for any course a student formally withdraws from before the scheduled course ends. Grades of “W” are not entered into the GPA calculation. A grade of “W” is included in the Rate of Progress/Passed Measurement calculation at hours attempted but not as hours earned.

An “I” grade is listed on the transcript for courses that have not been completed. A grade of “I” indicates that the student was in attendance for the entire term but has not completed all necessary coursework or homework to receive a punitive grade. Should missing coursework not be made up within the required time frame, the grade of “I” will be replaced with an “F.”

Should a student receive a grade of “I” and successfully undergo the remediation process, the course grade will be changed to “C.” Should a student receive a grade of I and not be placed on remediation, the course grade will be changed to a punitive grade. A grade of “I” does not enter into the GPA calculation. A grade of “I” is included in the Rate of Progress/Passed Measurement calculation as attempted but not earned credits.

An “R” grade is given if a student repeats a course. The grade received in the most recent course completion will be used to calculate the GPA. Upon receiving a punitive grade for the repeated course, the original grade will be changed to an “R.” A grade of “R” is not entered into the GPA calculation. A grade of “R” is used to calculate the Rate of Progress/Passed Measurement as attempted and hours earned.

A “T” grade is listed on the transcript for any course a student took at another institution accepted by Gurnick Academy of Medical Arts. Courses with a grade of “T” are listed on the transcript to identify courses accepted into the program of study to satisfy graduation requirements. A grade of “T” does not enter into the GPA calculation. A grade of “T” is not included in the Rate of Progress/Passed Measurement calculation as hours attempted or earned.

A “TO” grade is listed on the transcript for any course successfully tested out of at Gurnick Academy of Medical Arts. A grade of “TO” does not enter into the GPA calculation. A “TO” grade is included in the Rate of Progress/Passed Measurement calculation as attempted and earned hours.

Quantitative Measurements

The Quantitative Measurement portion consists of a student’s satisfactorily completed program hours, as by a Rate of Progress/Passed Measurement calculation. The Rate of Progress/Passed Measurement is the percentage of completed hours over attempted hours.

The Rate of Progress/Passed Measurement has two components: the attempted and actual hours earned.

The actual hours earned are divided by the attempted hours to determine the student's Progress/Passed measurement rate.

The maximum time frame for completing programs of study at Gurnick Academy of Medical Arts is 150% of the scheduled program length. Programs are measured in both clock and credit hours. However, clock hours will calculate the maximum time frame and the Rate of Progress/Passed Measurement.

Periods of non-enrollment are not considered in calculating the maximum time frame. Any student who has not reached program completion by the maximum time frame will be expelled from Gurnick Academy of Medical Arts.

ATTENDANCE – ABSENT – TARDINESS – DROP

Students are expected to attend all classes as scheduled. All efforts should be made to attend all classes. If a student is absent due to illness or any other reason, they must notify Gurnick Academy of Medical Arts in advance whenever possible. The student's instructor must approve all absences.

Program lengths are calculated, excluding any holiday and vacation times. Class times may be rescheduled on an alternate day of the week (Sunday through Saturday) to ensure program completion is on time and the required hours are fulfilled.

Absent

- Students who arrive more than 15 minutes after class begins.
- Students who leave more than 15 minutes before class ends.
- Students who return from the break more than 15 minutes after class begins.
- Three (3) tardies are equivalent to one (1) absence.

Tardy

- Students that arrive one (1) to 15 minutes after class begins.
- Students leave class one (1) to 15 minutes before class ends.
- Students return from break one (1) to 15 minutes after class begins.

Drop

- Students who miss a significant portion of any course within a program will be expelled.
- Unexcused and excused absences without approval and completed make-up work cannot exceed 10% when the Rate of Progress/Passed Measurement is calculated.

Online Courses Attendance, Participation, and Absences

Attendance

Attendance of this class is mandatory and under the school policy as printed in the current school catalog. Students' attendance is tracked through the submission of online activities and assignments. Clock hour tracking for online courses may be accomplished in different ways. The student must log in on a specific date and time to participate in synchronous activities. The interaction is recorded for documentation.

For fully asynchronous Online classes, students must complete the lecture discussions, both responding to the prompt and responding to others. A student who does not make the minimum number of posts in the discussion for each lecture will be marked absent. Absences are made up by completing the discussion requirements.

The learning management system tracks asynchronous hours through an activity log. The log records a student's time on a particular page or activity and can be pulled at any time for review. The absence of more than 10% of the course (more than two (2) class periods) may result in a student being placed on academic probation and is grounds for expulsion from the program. All absences must be made up before course completion.

Participation

You will be expected to participate in the Discussion sections. Ask questions, provide comments, and share your experiences and knowledge with the rest of the class. Your participation in this class is required. Please visit "Netiquette" for details on proper participation in the Class Forum.

Instructor Absence

An email will inform the students of class cancellations and any assignments that must be completed before the next class if the instructor is absent. Every attempt will be made to provide a substitute rather than cancel a class.

Student Absence

The following absences are the only excused absences. Students must provide proof of excused absences:

- Medical Emergency
- Jury Duty
- Family Emergency*
- Bereavement
- Subpoenaed Court Dates
- Naturalization/Citizenship Appointments
- Mandatory Work Orientation
- Reserve Duty

*If you are the sole responsible person for a child or dependent adult and there is a medical emergency, you must provide written documentation from the physician.

Medical clearance must be provided to and approved by the program coordinator before the student can return to the clinical setting.

Graduation Requirements

The following requirements must be met for a student to graduate from any program at Gurnick Academy of Medical Arts:

1. Completion of all program courses and hours.
2. All financial obligations, including tuition and textbook charges, have been met."

Program Criteria for Progression and Graduation, Including Grading Policies.

In addition to the general progression policies above, the dental hygiene program criteria for progression, graduation, and grading policies are as follows:

Grading

The dental hygiene program qualitative grading policies include the student's GPA which is calculated on a weighted scale, using course hours and quality points based on the course's final grade. The GPA is the calculated average of course grades for the entire program. A student must maintain a minimum GPA of 2.00 or a "C" to be considered making Satisfactory Progress. Please see "Qualitative Measurements" on pages 151 – 153 of Gurnick Academy's catalog (Exhibit V.A) for a detailed description of the grading system. Additionally, Students must obtain 75% in every module of the dental hygiene program to remain in active status.

Progression

The student must complete DHBC and CODA required General Education Courses prior to beginning Core Program Courses. The Program Outline is provided below, with course descriptions to follow:

GE 221	Written Communication for Professionals	Online	3
GE 201	Intro to Sociology	Online	3
GE 112	Algebra I	Online	3
GE 010	Anatomy w/Wet Lab	Hybrid	4
GE 141	Inorganic Chemistry w/ Wet Lab	Hybrid	4
		Semester Total	17

GE 050	Organic Chemistry w/Biochemistry with Wet Lab	Hybrid	4
GE 041	Microbiology w/ Wet Lab	Hybrid	4
GE 240	Public Speaking Basics of Effective Communication	Online	3
GE 202	General Psychology	Online	3
GE 012	Physiology w/Wet Lab	Hybrid	4
		Semester Total	18

The student must complete the Core Program Courses and verify the minimum clinical competencies in the lab and clinical setting, as defined by the course syllabi. Clinical hours and competencies are logged into the clinical tracking software.

DH 100	Dental Hygiene I (Pre Clinic)	On-Site	3.5
DH 110	Dental Materials	Blended	4
DH 120	Dental Head & Neck Anatomy	On-Site	2
DH 130	Oral Radiology/Lab	Blended	4
DH 138	Dental Anatomy, Embryology, & Histology	On-Site	2
		Semester Total	15.5
Semester IV			
DH 200	Dental Hygiene II	On-Site	5

DH 210	Pharmacology	On-Site	3
DH 215	Dental Hygiene Public Health & Research	Online	2
DH 220	Nutrition for the Dental Professional	Blended	4
DH 225	Pain Management	On-Site	2.5
		Semester Total	16.5
DH 230	Dental Hygiene III	On-Site	7
DH 235	Professional Laws & Ethics	Blended	2
DH 240	Dental Hygiene for Patients with Special Needs	On-Site	2
DH 245	General & Oral Pathology	On-Site	3
		Semester Total	14
DH 250	Dental Hygiene IV	On-Site	7.5
DH 260	Alternative Treatments and Laser Certification	On-site	3
DH 270	DH Board Review	Blended	2
DH 280	Diversity and Community Health	Blended	4
		Semester Total	16.5
		Program Total	**97.5**

Dental Hygiene Program Course Descriptions

Please find the Dental Hygiene Program course descriptions on the following pages.

Dental Hygiene Program Course Descriptions:

Semester I

GE 221 College Writing I

Credits: 3 (3Lecture/0Lab/0Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program. Qualifying placement score or equivalent

Course Description:
This course develops academic reading and writing skills through expository, argumentative, and research-based writing. Emphasis is placed on thesis development, organization, critical thinking, and proper citation.

GE201 Introduction to Sociology

Credits: 3 (3Lecture/0Lab/0Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program.

Course Description:
This course introduces students to the fundamental concepts, perspectives, and terminology of sociology. Emphasis is placed on understanding society and human interaction as shaped by social structures and culture. Topics include social institutions, socialization, inequality, deviance, conformity, population change, and social change.

GE112 College Algebra

Credits: 3 (3Lecture/0Lab/0Clinical)
Prerequisite: Intermediate Algebra with a C- or higher, or qualifying placement score within the past 5 years

Course Description:
This course covers college-level algebraic concepts including polynomial, rational, radical, exponential, and logarithmic functions. Emphasis is placed on graphing, problem-solving, and real-world applications.

GE210 Anatomy with Lab *(Corrected to 200 level)*

Credits: 4 (3Lecture/1Lab/0Clinical)
Prerequisite: Biology with a grade of 75% or higher

Course Description:
This course introduces gross and microscopic anatomy of the human body. Students study organ systems including integumentary, cardiovascular, respiratory, nervous, and others. The course includes a required dissection laboratory using animal specimens. No virtual alternatives are available.

GE141 Inorganic Chemistry I with Lab

Credits: 4 (3Lecture/1Lab/0Clinical)
Prerequisite: College Algebra or qualifying placement score within the past 5 years

Course Description:
This course introduces atomic structure, chemical bonding, stoichiometry, states of matter, inorganic reactions, acids, and bases. The laboratory component introduces general chemical laboratory techniques and reinforces lecture concepts. Designed for dental hygiene majors; not applicable to chemistry, biology, or clinical laboratory science majors.

Semester II

GE050 Organic/Biochemistry II with Lab

Credits: 4 (3Lecture/1Lab/0Clinical)
Prerequisite: GE141 or equivalent with a grade of 75% or higher

Course Description:
This course emphasizes organic and biochemical principles relevant to health sciences. Topics include organic functional groups and biomolecules such as carbohydrates, lipids, proteins, and nucleic acids, with an emphasis on structure-function relationships.

GE041 Microbiology with Lab

Credits: 4 (3Lecture/1Lab/0Clinical)
Prerequisite: College-level biology or qualifying placement

Course Description:
This course examines microbial life with emphasis on structure, growth, metabolism, genetics, classification, and disease-causing mechanisms. Topics include epidemiology, immune response, and control of microorganisms. The required laboratory component focuses on aseptic technique, microscopy, microbial culture, and infection control practices.

GE240 Public Speaking

Credits: 3 (3Lecture/0Lab/0Clinical)
Prerequisite:

Course Description:
Public Speaking is designed to assist students in overcoming speech anxiety through structured preparation and delivery of speeches in a variety of formats. Emphasis is placed on audience analysis, organization, verbal and nonverbal communication, and ethical presentation practices.

GE202 Introduction to Psychology

Credits: 3
Prerequisite:

Course Description:
This course provides an overview of psychology as both a scientific discipline and a study of human behavior. Topics include biological and developmental processes, perception, learning, cognition, motivation, emotion, personality, social behavior, stress, coping, and psychological disorders.

GE212 Physiology with Lab *(Corrected to 200 level)*

Credits: 4 (3 Lecture, 1 Lab)
Prerequisite: GE210 Anatomy or equivalent with a grade of 75% or higher

Course Description:
This course examines the functional processes of the human body with emphasis on homeostasis and regulation. Systems covered include nervous, endocrine, muscular, cardiovascular, immune, respiratory, digestive, urinary, and reproductive systems. Includes an active laboratory component.

Semester III

DH 100 Introduction to Dental Hygiene/Preclinic

Credits: 3.5 (1.5Lecture/0Lab/2Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program

Course Description:
This course introduces students to the dental hygiene profession and the clinical environment.

Lecture and laboratory experiences cover the theoretical foundations and clinical applications of fundamental dental hygiene procedures. Topics include infection and hazard control, which includes service to patients with bloodborne infectious diseases, microbiology, sterilization and monitoring, aseptic technique, OSHA standards, client management, patient positioning, ergonomics, assessment data gathering, documentation, and the basic principles of dental instruments and instrumentation. Students gain hands-on experience in collecting and documenting patient assessment data and practicing basic instrumentation skills essential for beginning clinical care.

DH 120 Head & Neck Anatomy for the Hygienist

Credits: 2 (1.5Lecture/.5Lab/0Clinical)
Prerequisite:

Course Description:
This course utilizes a systemic approach to the study of head and neck anatomy, emphasizing structures relevant to oral health and dental hygiene practice. Students learn to identify and apply anatomical concepts in both laboratory and clinical settings, developing the foundational knowledge necessary for comprehensive patient assessment and treatment.

DH 130 Radiology / Lab

Credits: 4 (2Lecture/ 2Lab/0Clinical)
Prerequisite:

Course Description:
This course provides the scientific and clinical foundation for the safe and effective use of dental radiology in modern dental practice. Topics include radiation physics, radiation biology, radiation health and protection, and the legal/ethical responsibilities of radiation exposure. Students learn techniques for exposing diagnostic-quality intraoral and extraoral radiographs and are introduced to digital imaging and radiographic interpretation. Laboratory sessions offer hands-on experience using digital radiography, DXXTR manikins, and community patients to improve skills across all radiographic techniques.

DH 140 Dental Anatomy, Embryology, and Histology

Credits: 2 (1.5Lecture/.5Lab/0Clinical)
Prerequisite:

Course Description:
This course focuses on dental morphology and the structure and development of the oral cavity. Students explore tooth anatomy, tooth numbering systems, eruption patterns, occlusion, and terminology related to the tissues of the teeth and periodontium. Content also includes embryonic development and oral histology as it relates to clinical dental hygiene. Successful completion equips students with the knowledge and terminology needed for communication and clinical practice.

Semester IV

DH 200 Dental Hygiene Clinical Theory/Practicum II

Credits: 5 (Lecture/0Lab/Clinical)
Prerequisite:

Course Description:
This course presents the foundational theory and initial clinical skills required for dental hygiene practice. Lecture topics include the roles of the dental hygienist, the dental hygiene process of care, caries and periodontal risk assessment, individualized care planning, oral hygiene assessment, fluoride therapy, oral malodor, dentifrices, and patient education for self-care. Additional content includes dentition assessment, charting, and the recognition and management of medical and dental emergencies.
Students are introduced to periodontal science, including periodontal etiology, classification, anatomy, histology, and oral biofilms. Emphasis is placed on instrumentation principles, periodontal therapy basics, air-powered polishing, tobacco cessation counseling, ergonomic practices, and adjunctive services supporting comprehensive care.

The practicum provides supervised clinical experience treating healthy adults, patients with gingivitis, and pediatric/adolescent patients. Students develop competence in digital record management, assessment, instrumentation, and professional communication.

HTH 210 – Pharmacology

Credits: 3 (3Lecture/0Lab /0Clinical)
Prerequisite: None

Course Description:
This course covers essential concepts in pharmacology as they relate to safe and effective

patient care in dentistry. Topics include drug classifications, mechanisms of action, therapeutic uses, side effects, drug interactions, and legal responsibilities in drug administration. Students learn terminology, drug regulation, and the use of standard pharmaceutical references. Intercultural considerations are integrated to enhance understanding of how cultural beliefs, health practices, and access to medications influence patient responses and adherence. Interprofessional communication and collaboration are emphasized as students apply pharmacologic knowledge to patient assessment and coordinate care with other healthcare providers.

DH 220 – Nutrition for the Dental Professional

Credits: 4 (3Lecture /1Lab /0Clinical
Prerequisite: None

Course Description:
This course examines the science of human nutrition with application to oral and systemic health across the lifespan. Students learn how nutritional practices influence disease prevention, caries risk, periodontal health, and overall wellness. Content includes nutrient functions, diet assessment, and counseling strategies to promote optimal nutritional habits and oral health outcomes. Intercultural perspectives address how cultural traditions, food practices, and socioeconomic factors shape nutritional behaviors. Interprofessional collaboration and communication are incorporated as students learn to coordinate nutrition counseling and patient education with healthcare team members to support holistic patient care.

DH 225 Pain Management Theory and Lab

Credits: 2.5 (1.5 Lecture/1Lab/0Practicum)
Prerequisite:

Course Description:
This course integrates didactic instruction with hands-on practice in the administration of local anesthesia and nitrous oxide/oxygen analgesia. Students review neurophysiology and dental anatomy and study the pharmacology of local anesthetics and vasoconstrictors. Lecture content emphasizes drugs, armamentarium, injection techniques, and management of complications. Emergency preparedness and medical emergency management are reinforced. The nitrous oxide/oxygen analgesia component focuses on equipment, safety protocols, systemic effects, and proper administration techniques.

Semester V

DH 230 Dental Hygiene Clinical Theory/Practicum III

Credits: 5 (Lecture/0Lab/Clinical)
Prerequisite:

Course Description:
This course expands upon foundational dental hygiene theory by introducing more complex oral conditions and treatment modalities. Topics include culturally competent patient communication, advanced instrumentation, advanced fulcrums, root morphology, treatment planning phases, coding, and principles of periodontal surgery and implantology. The role of the dental hygienist in interdisciplinary care and referral processes is emphasized.
The practicum provides comprehensive care for patients with gingivitis, periodontal disease, geriatric patients, medically compromised individuals, and those with special needs. Students manage increased patient loads and apply advanced theory.

DH 215 – Dental Hygiene Public Health and Research

Credits: 2 (2Lecture/0Lab/ 0Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program

Course Description:
This course introduces the principles of public health, community dental health, and research methodology. Students explore epidemiology, community program planning, population-based prevention strategies, and the role of dental hygienists in public health. Emphasis is placed on evaluating scientific literature, research design, data collection, and evidence-based decision-making. Intercultural perspectives highlight the impact of cultural diversity on community oral health needs, behaviors, and access to care. Students participate in projects designed to prepare them for culturally responsive community outreach, interprofessional communication, and collaborative public health initiatives.

DH 240 – Patients with Special Needs

Credits: 2 (2Lecture/0Lab/0Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program

Course Description:
This course prepares students to manage geriatric and special needs patients in diverse dental settings. Students explore the aging process from physical, psychological, social, financial, and intercultural perspectives, recognizing how cultural beliefs and backgrounds influence patient experiences, health behaviors, and access to care. The course reviews disease processes affecting individuals with special needs and emphasizes adaptive strategies, individualized care planning, and safe, compassionate, and culturally responsive management during dental treatment. Interprofessional communication and collaboration are integrated to prepare students for working effectively with caregivers, healthcare professionals, and community support teams.

DH 245 General and Oral Pathology

Credits: 3 (3Lecture/0Lab/0Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program

Course Description:
This course examines disease processes including etiology, pathogenesis, inflammation, tumor formation, systemic manifestations, and developmental disturbances. The primary focus is on oral pathology, including the identification and description of oral lesions and conditions. Students apply this knowledge in clinical practice to enhance diagnostic accuracy and patient care.

Semester VI

DH 250 Dental Hygiene Clinical Theory/Practicum IV

Credits: 7.5 (Lecture/0Lab/Clinical)
Prerequisite: Acceptance into the Dental Hygiene Program

Course Description:
This course advances students' knowledge of dental hygiene theory and clinical practice. Topics include board preparation, advanced and reinforced instrumentation skills, extraoral fulcrums, and an introduction to dental specialties such as periodontics, pediatric dentistry, oral surgery, and prosthodontics. Students develop and present clinical case studies.
The practicum provides advanced clinical experiences with emphasis on complex periodontal cases, self-evaluation, and licensure preparation.

DH 260 Dental Hygiene Alternative Treatment and Laser Certification

Credits: 3 (2Lecture/1Lab/0Clinical)
Prerequisite:

Course Description:
This course introduces evidence-based alternative and adjunctive dental hygiene therapies with an emphasis on soft-tissue laser use. Students study laser principles, safety, and therapeutic applications for periodontal and preventive procedures. Hands-on lab experiences integrate laser therapy with chemotherapeutic agents and other alternative treatments. Completion prepares students for laser certification in accordance with state regulations. Community-based activities reinforce clinical competence and patient education skills.

DH 270 Dental Hygiene National Board Review

Credits: 2 (2Lecture/0Lab/)0Clinical)
Prerequisite:

Course Description:
This comprehensive review prepares students for the National Board Dental Hygiene Examination (NBDHE). Topics include biomedical sciences, dental sciences, and clinical dental hygiene. Students participate in practice examinations, case-based reviews, test-taking strategy development, and content remediation designed to strengthen foundational knowledge and enhance exam readiness.

DH 280 – Community Dental Health and Education

Credits: 4 (2Lecture/2Lab–Community Service/0Clinical)
Prerequisite: None

Course Description:
This course examines methods and materials used in community dental health education within culturally diverse populations. Students learn foundational research and statistical concepts essential for developing effective community oral health programs. Emphasis is placed on evidence-based practice, critical evaluation of scientific literature, and the application of intercultural communication and culturally informed strategies to community oral health initiatives. Field assignments and a comprehensive community project—including assessment, planning, implementation, and evaluation—promote professional growth, cultural sensitivity, and lifelong engagement in community health and volunteerism. Interprofessional collaboration is emphasized as students work with community partners, healthcare providers, and public health organizations to support population-based oral health efforts.

V.c Student Policies

Student policies:

a. Provisions for student health and housing

b. Provisions for counseling and guidance

c. Financial aid policies, scholarship and grant opportunities

d. Appeals Provisions

Provisions for Student Health and Housing

Gurnick Academy does not have a provision for student housing or health services. Gurnick Academy's statement regarding student housing has been provided below and can also be found in our catalog on page 145 (Exhibit V.A):

> **Housing**
> Gurnick Academy of Medical Arts does not assume responsibility for student housing, does not have dormitory facilities under its control, nor offers student housing assistance. According to www.rentals.com, rental properties in the following cities start at approximately the following rates per month: San Jose, CA, $1,700.00; Concord, CA, $1800.00; Modesto, CA, $1150.00; Fresno, CA, $800.00; Sacramento, CA, $1000.00; and Van Nuys, CA, $1,500.00.

Provisions for Counseling and Guidance

Academic guidance is provided to students by their Program Director. The advising occurs throughout their program to evaluate progress and discuss any areas of need that may surface throughout the program's duration. The variety of support provided by Gurnick Academy can include academic tutoring, childcare referrals, part-time job assistance, and personal counseling.

For personal counseling needs, students will be referred to 7 Cups, which is a free 3rd Party counseling resource. An extensive mental health support system can be found at www.7Cups.com. Users are provided with an active listener experience in 152 languages around the world. In addition to 7 Cups, information and links to professional therapy resources are available to students from Gurnick Academy's Student Services Department or at the Front Desk.

For a full list of Gurnick Academy's Student Services, please the "Student Services" section of our catalog on pages 143 – 145 (Exhibit V.A)

Financial Aid Policies, Scholarships, and Grant Opportunities

Gurnick Academy's Financial Aid, Scholarships, and Grant Opportunities are published in our catalog under the "Financial Policies" section on pages 97 – 116 (please see Exhibit V.A). Additionally, Gurnick Academy's Admissions Advisors and Financial Aid Advisors are available to guide and support students to understand and apply the Financial Policies.

Appeals Provisions

Gurnick Academy has the following Provisions for Appeals which can be found on catalog pages 139 – 140 in Exhibit V.A.

Student Grievance and Appeals

Gurnick Academy of Medical Arts is dedicated to fair treatment and professional conduct with students. In compliance with the Office of Civil Rights (OCR) recommendations, this policy and procedure about grievances of various natures, including but not limited to academic, discrimination, harassment, and bullying.

Students are first encouraged to discuss any concerns or questions regarding policies or decisions rendered directly with the party with whom the student has a concern. Should any student have a complaint, the student is asked to discuss the matter within five days directly with an instructor or Administrative Manager/Designated School Official who will initiate an informal process to sincerely settle the dispute. That informal process will involve three steps:

1. An effort to define the problem.
2. An effort to identify acceptable options for resolution.
3. An attempt to resolve the conflict by applying one or more acceptable options for resolution.

Should the student feel the issue has not been satisfactorily resolved, they may, within five (5) days, file a written complaint directly with the Program Director. The Program Director will do their best to resolve the matter for the student and Gurnick Academy of Medical Arts.

The Program Director will try to resolve or alleviate the complaint or grievance that the student presents within five (5) days of receipt. If, after following these steps, the Program Director cannot remedy the issue, and the student is still unsatisfied with the solution. The Campus Director will investigate all written complaints, attempt to resolve all such complaints and record an entry into the campus's official log.

The formal process will require the student's submission of a written description of the specific complaint

and the desired remedy, accompanied by any available documentation. The Campus Director will have five (5) days to respond to the grievance and determine proper action. The Campus Director may notify the student of the decision reached. Students may also follow the Appeals Procedures outlined below for further action if necessary.

To provide students with a neutral mechanism for the reconsideration of disciplinary actions or performance evaluations that would necessitate the dismissal of the student from a program, Gurnick Academy of Medical Arts has a designated Appeals Committee consisting of the following individuals: Chief Academic Officer, Chief Operations Officer, Chief Executive Officer, and Vice President, Campus Operations. Note: A student must stay within the appeal process and not contact the Appeal Committee members for any reason unless directed to do so by a Campus Director or Committee member. A student who goes outside the procedure of this policy will be denied their appeal.

Should the Campus Director be unable to remedy the issue and the student is still unsatisfied with the outcome, the student may ask the Campus Director, in writing, to forward all written grievances and correspondence to the Appeals Committee. The Appeals Committee will have five (5) working days to respond to the appeal and determine proper action.

All grievances and appeals will be handled discreetly. Dissemination of the resolution will be at the discretion of the Campus Director or Appeals Committee and on a "need-to-know" basis. The decisions rendered by the Appeals Committee will be the final and binding decision of Gurnick Academy of Medical Arts.

At any time, a student or any member of the public may file a complaint about Gurnick Academy of Medical Arts with the Bureau for Private Postsecondary Education by calling 888.370.7589 toll-free or completing a complaint form obtainable on the bureau's Internet website at www.bppe.ca.gov.

Students may be withdrawn either by self-withdrawal or by academic withdrawal. A student who self-withdraws will be processed through the drop process. Students who are academically withdrawn can dispute the withdrawal through the student grievance and appeals process. To initiate the grievance and appeals process, the students must submit a written appeal within five (5) days of being notified of the withdrawal. After five (5) days, the student will be dropped via the drop process if no written appeal has been submitted.

The student grievance and appeals process will start if a written appeal is submitted within the allotted time. The student will be placed on Active Warning status and must attend all instruction until the grievance and appeals process has been completed and a final decision has been made. Please see the Student Grievance and Appeals section for detailed information.

Appeal and Reinstatement of Financial Aid for Failure to Maintain Satisfactory Progress

Please see catalog pages 111-112 in Exhibit V.A.

Students who have lost financial aid eligibility for failure to maintain satisfactory progress will be notified in writing of the cancellation of financial aid. Students with mitigating circumstances wishing to appeal the financial aid cancellation may do so in writing to the Financial Aid Office. Mitigating circumstances may include but are not limited to illness or injury of the student or immediate family member, death of a relative, or other special circumstances. The Director of Financial Aid and Campus Program Director will evaluate the appeal and determine whether the student may continue receiving financial aid on an Academic Plan status.

The student's appeal must include the following:

1) The reason why the student failed to meet the SAP standard(s) AND
2) What has changed in the student's situation so that they will now be able to meet the SAP standards AND
3) Supporting documentation, as applicable.

If an appeal is granted and financial aid is reinstated, the student will receive aid on an Academic Plan status. A student with this status must regain SAP standing by the point specified in the academic plan; the terms will be included in the notice forwarded to the student when the appeal is granted. The terms will generally require students to meet or exceed the attendance requirements, pass all courses with a "C" or better, and may include additional elements needed, such as tutoring.

The student's progress will be reviewed each month based on the Academic Plan. At the end of the payment period, if a student fails to meet the requirements of the Academic Plan, they will become ineligible for financial aid.

The Academic Plan is structured to assist the student in regaining SAP status by a projected time, generally staying within the maximum time frame.

Students are limited to one appeal during their education at Gurnick Academy, regardless of the reason or other circumstances. If a student regains SAP status, they may appeal one (1) additional time.

SECTION V EXHIBITS

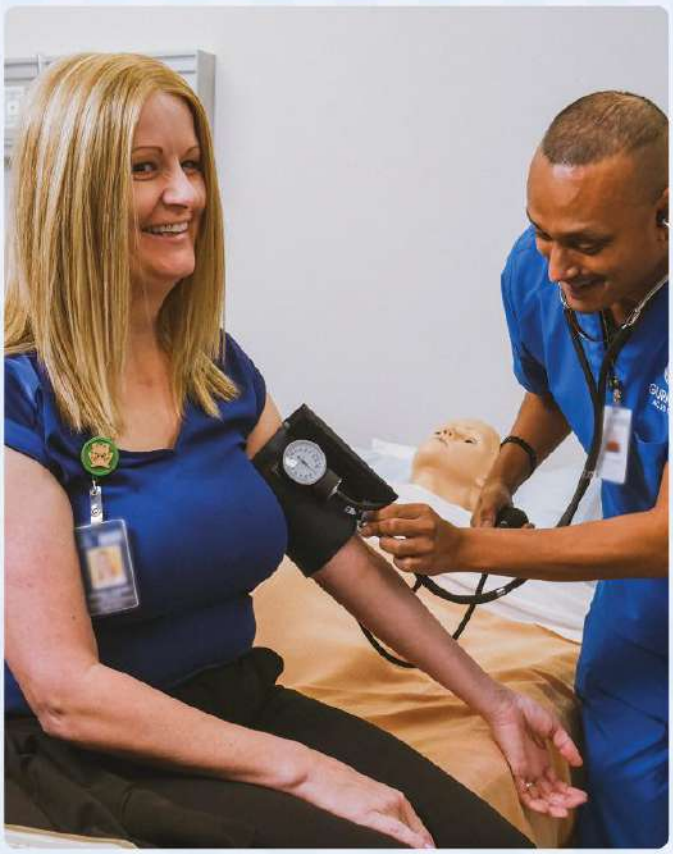

Exhibit V.A – Gurnick Academy of Medical Arts School Catalog

Please find a copy of Gurnick Academy of Medical Arts' School Catalog on the following pages.

GURNICK ACADEMY

CATALOG
2024-2025

Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that ***integrate*** professional skills, career-focused education, and hands-on practical experience by ***empower***ing students to develop and ***achieve*** their personal and career goals.

Gurnick Academy of Medical Arts believes education should promote positive self-esteem, providing services that support each student's academic, professional, and personal success.

Gurnick Academy of Medical Arts provides training to individuals seeking a professional career in the medical field. This is accomplished through an educational format utilizing training that includes simulation mannequins, didactic lectures, and hands-on experience provided by trained academicians, nurses, physicians, and technologists.

A breadth of general education courses is offered to support the student in providing safe and effective care for clients and families from diverse and multicultural populations across the lifespan. Gurnick Academy of Medical Arts also uses course delivery systems, including distance education and blended formats.

NOTE: Please review the attached Addendum for any changes regarding Gurnick Academy of Medical Arts.

All information in the Gurnick Academy of Medical Arts Catalog and Catalog Addendum applies to all Academy Campuses unless identified by specific campus location.

The Addendum includes new programs and updates after the 2024-2025 Catalog's original publishing date. The catalog was published on January 1, 2025.

The purpose of the Addendum is to provide the most up-to-date information.

FROM THE CEO

Dear Student,

Welcome to Gurnick Academy of Medical Arts!

Please allow me to welcome you on behalf of the Gurnick Team to a community dedicated to your success. Our faculty and staff are excited and honored that you chose us to be part of your path to success.

Since opening our doors in 2004, Gurnick Academy has been committed to helping students like you achieve their fullest potential. With six campuses across California and online distance education available, we offer a range of certificate, diploma, and degree programs.

One of the vital components that differentiates us from others is that we are committed to more than just imparting knowledge—we are dedicated to equipping you with real-world skills through extensive hands-on training. We empower you to step confidently into the healthcare field as you gain practical experience in clinical settings and make an immediate impact.

Our unique approach combines expert instruction with immersive learning. You gain real-world clinical experience through rotations at affiliated medical facilities to face the challenges of an ever-evolving healthcare landscape.

For over 20 years, Gurnick Academy has proudly served and supported our community, driven by a deep commitment to the transformative impact of education. We don't just teach skills—we inspire confidence, compassion, and dedication.

We are excited about the future—the future that includes you now, too. We are here to guide and support you every step of the way as you embark on this transformative journey toward achieving your personal and professional goals.

Thank you for considering Gurnick Academy of Medical Arts as the next step in your journey toward a meaningful career in healthcare.

We believe in you and can't wait to see all you will accomplish.

Konstantin Gourji
Chief Executive Officer

STATEMENT OF HISTORY & OWNERSHIP

November 2024
Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program at our Fresno Campus, with learning domains for the following concentrations it offers: Abdominal sonography-Extended and Obstetrics and Gynecology sonography.

ABHES approves the Associate of Science in Occupational Therapy Assistant Program at the San Jose Campus.

September 2024
Joint Review Committee on Education in Radiologic Technology (JRCERT) grants the Bachelor of Science in Radiation Therapy Program accreditation at our Van Nuys Campus with a 3-year award.

June 2024
ABHES approves the Associate of Occupational Science in Cardiac Ultrasound Technology Program at the Fresno Campus.

April 2024
The Commission on Accreditation in Physical Therapy Education (CAPTE) grants the Associate of Science in Physical Therapy Assistant Program accreditation at our Fresno Campus.

March 2024
The Joint Review Committee on Education in Nuclear Medicine Technology (JRCNMT) grants the Associate of Science in Nuclear Medicine Technology Program accreditation at our Concord Campus with a 5-year award.
Commission on Accreditation for Respiratory Care (CoARC) grants our Associate of Occupational Science in Respiratory Therapy Program provisional accreditation at our Modesto Campus.

February 2024
ABHES approves the Bone Densitometry Technician program at the Sacramento campus.

January 2024
ABHES approves the Associate of Science in Physical Therapist Assistant Program at the Fresno Campus.

December 2023
ABHES approves the Associate of Occupational Science in Respiratory Care program at the Modesto campus.

November 2023
Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program at our Sacramento Campus, with learning domains for the following concentrations it offers: Abdominal sonography-Extended and Obstetrics and Gynecology sonography.

October 2023
The Medical Assistant program has been discontinued at our Sacramento campus.

March 2023
ABHES approves the Associate of Occupational Science in Cardiac Ultrasound Technology program at our San Mateo and Sacramento campuses.

January 2023
The Medical Assistant program and Associate of Science in Veterinary Medical Technology program have been

discontinued at the San Mateo campus.
The Psychiatric Technology program has been discontinued at our Concord campus.

November 2022
ABHES approves the Associate of Occupational Science in Vascular Ultrasound Technology program at the San Mateo campus.

August 2022
ABHES approves the Master of Science in Nursing program at the Concord campus.

June 2022
ABHES approves the Bachelor of Science in Radiation Therapy program at the Van Nuys campus.

February 2022
AHBES grants Gurnick Academy continued accreditation through February 28, 2028.

November 2021
The Joint Review Committee on Education in Radiologic Technology (JRCERT) grants the Associate of Science in Radiologic Technology Program accreditation at our Sacramento Campus with an 8-year award.

September 2021
ABHES approves our Concord Campus's Associate of Science in Nuclear Medicine Technology Program.

Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program at our San Mateo Campus, with learning domains for the following concentrations it offers: Abdominal sonography-Extended and Obstetrics and Gynecology sonography. The Medical Assistant with Phlebotomy program has been discontinued at our Concord and Fresno campuses.

June 2021
ABHES approves the Vocational Nurse Program at our Sacramento Campus.

May 2021
The Commission on Accreditation of Allied Health Education Program (CAAHEP) grants our Associate of Occupational Science in Ultrasound Technology Program Vascular concentration accreditation at our San Mateo Campus.

October 2020
The Dental Assistant program has been discontinued at our San Mateo campus.

August 2020
ABHES approves a credential change from Associate of Science to Associate of Occupational Science in Ultrasound Technology.

May 2020
ABHES approves the X-ray Technician with Medical Assistant Skills Program on the Concord Campus.

December 2019
ABHES approves the X-ray Technician with Medical Assistant Skills Program at our Sacramento Campus.
Commission on Accreditation in Physical Therapy Education (CAPTE) reaffirms accreditation for ten (10) additional years.

September 2019
ABHES approves the Medical Assistant Program at our Van Nuys Campus.

June 2019
Joint Review Committee on Education in Radiologic Technology (JRCERT) grants the Associate of Occupational Science in Radiologic Technology Program accreditation at our Van Nuys Campus with an 8-year award.

March 2019
ABHES approves the Van Nuys Campus.
ABHES approves the X-ray Technician with Medical Assistant Skills Program at our Van Nuys Campus.
ABHES approves the Associate of Occupational Science in Radiologic Technology Program at our Van Nuys Campus.

December 2018
ABHES and the California Board of Registered Nurses approved International Nurse Graduate Courses at our Fresno Campus**.**

November 2018
The Joint Review Committee on Education in Radiologic Technology (JRCERT) grants accreditation to the Associate of Science in Radiologic Technology Program at our Sacramento Campus.

February 2018
The California Board of Registered Nurses (BRN) approves the Associate of Science in Nursing Program at the Fresno Campus.

August 2017
ABHES approves the Dental Assistant Program at the Modesto Campus.

January 2017
ABHES approves the Sacramento Campus.
ABHES approves the Medical Assistant, Associate of Science in Magnetic Resonance Imaging, Associate of Science in Radiologic Technology, and Associate of Science in Ultrasound Technology Programs at the Sacramento Campus.

November 2016
ABHES approves the Associate of Science in Nursing Program at the Fresno Campus.

December 2015
ABHES approves the Bachelor of Science in Diagnostic Medical Imaging Program.

October 2015
ABHES approves the Dental Assistant Program at the San Mateo Campus.

January 2015
ABHES approves our Concord Campus's Associate of Science in Radiologic Technology Program.
ABHES approves the Associate of Science in Ultrasound Technology Program at the Fresno and San Mateo Campuses.

December 2014
The Commission on Accreditation in Physical Therapy Education (CAPTE) grants the PTA Program accreditation.

September 2014
ABHES approves the Associate of Science in Magnetic Resonance Imaging Program at the San Mateo Campus.

July 2014
ABHES approves the Bachelor of Science in Nursing Degree Program at the Concord Campus.

January 2014
The American Registry of Radiologic Technologies® (ARRT®) recognizes the MRI, RT, and UT programs.

September 2013
ABHES approves the Medical Assistant Program at the Concord, Fresno, Modesto, and San Mateo Campuses.

August 2013
ABHES accredits Gurnick Academy for a maximum eight (8) year timeframe through February 28, 2022.

May 2013
ABHES approves the Associate of Science in Magnetic Resonance Imaging Program at the Modesto Campus.

February 2013
ABHES approves the Associate of Science in Physical Therapist Assistant Program.

March 2010
The Joint Review Committee on Education in Radiologic Technology (JRCERT) grants accreditation to the RT Program.

December 2009
The Accrediting Bureau of Health Education Schools (ABHES) grants Gurnick Academy Institutional Accreditation.

June 2008
The Concord Campus offers an RT Program.

November 2007
The Fresno and Modesto Campuses offer a VN Program.

December 2005
The Concord Campus offers a VN Program.

January 2005
The San Mateo Campus offers VN and MRI Technology Programs.

February 2004
The San Mateo Campus offers a UT Program.

Gurnick Academy of Medical Arts is owned and operated by California Limited Liability Company Gurnick Academy of Medical Arts, LLC. The address for the LLC is 1641 N. First Street, San Jose, CA 95112.

EXECUTIVE OFFICERS OF GURNICK ACADEMY OF MEDICAL ARTS

Konstantin Gourji, Chief Executive Officer
Larisa Revzina, Chief Academic Officer
Zara J. Gourji, Chief Process Officer
Burke Malin, Chief Operating Officer
Elena Kudrya, Vice President, Finance
Fred Faridian, Vice President, Campus Operations
Lisa Dianda, Dean of Allied Health
Samantha Manlosa Sanchez, Dean of Nursing
Shellie Bealer, Dean of Imaging

ACADEMY LOCATIONS & GENERAL DESCRIPTION OF FACILITIES

The student enrollment agreements state all classes are taught at the campus locations below.

San Jose Main Campus
1641 North First Street
San Jose, CA 95112
(408) 384-7050
(408) 850-3737 fax

The San Jose campus is in a 40,000-square-foot two-floor professional building minutes from the San Jose Mineta International Airport.

The first floor houses the administrative offices, while the second-floor houses eight (8) classrooms and nine (9) labs. Labs are equipped with ultrasound machines capable of performing general and specialized procedures, hi-lo treatment tables, exercise equipment, hospital beds, mannequins, and equipment for examination and diagnostic assistance, including scales, EKG machines, and urine and blood testing.

The nursing interactive simulation room contains four (4) specialty rooms with high-fidelity mannequins controlled through an observation room utilizing a two-way communication system and cameras. There are also administrative and faculty offices, a reception area, and a student lounge.

The San Jose campus employs a security system incorporating internal and external cameras, an intercom system, and loudspeakers throughout the facility. All doors and offices are protected through a network of wireless access controls. The campus also utilizes security guard and security patrol services.

Plenty of parking is available on campus grounds. The First Street & I-280 San Jose Airport parking lot is behind the campus.

Concord Branch Campus
1401 Willow Pass Road, Suite 450
Concord, CA 94520
(925) 687-9555
(925) 687-9544 fax

The Concord branch, including campus administration and the front desk, is located on the fourth floor of a professional building. The sixth and eighth floors are exclusively for the BSN program. A few steps away across the street, the campus also houses the Medical Assistant Program at a campus extension.

The campus houses classrooms, a patient-care lab, a medical assistant/phlebotomy lab, an RT X-ray lab, a computer lab, and a library with Internet access. There are administrative and faculty offices, a reception area, and a student lounge. Standard equipment includes a library of text/case studies and reference books, video monitors, computers, journals, and audiovisual aids.

The patient-care lab has hospital beds, anatomical models, high-fidelity interactive simulation mannequins, and other patient-care equipment. The medical assistant lab has exam tables and equipment for examination and diagnostic assistance, including scales, EKG machines, and urine and blood testing. The energized radiologic technology lab has one stationary radiography unit, a digital image receptor system, and a portable X-ray machine. The phlebotomy lab has anatomical charts and models, specimen collection equipment, and supplies.

Concord Extended Facility
1465 Civic Court, Suite 820
Concord, CA. 94520

The Extended Concord Campus is at 1465 Civic Court, Building D, Concord, CA 94520. The building is less than 0.1 miles (0.16 km) from the campus's main building. The extended campus occupies the second floor and houses a student lounge, a medical assistant Lab, two (2) classrooms, and administrative offices.

Modesto Branch Campus
4712 Stoddard Road, Suite 200
Modesto, CA 95356
(209) 521-1821
(209) 521-1607 fax

The Modesto branch is located on the second floor of a professional building complex. The campus houses classrooms, a patient-care lab, a medical assistant lab, a dental lab, a respiratory care lab, and a library with Internet access. There are administrative and faculty offices, a reception area, and two student lounges.

The patient-care lab has hospital beds, anatomical models, high-fidelity interactive simulation mannequins, and other patient-care equipment. The medical assistant lab has exam tables and equipment for examination and diagnostic assistance, including scales, EKG machines, and urine and blood testing. The dental lab has dental equipment and simulates a dental clinic.

Fresno Branch Campus
4747 N. First Avenue, Suite 192
Fresno, CA 93726
(559) 222-1903
(559) 222-2672 fax

The Fresno Branch Campus is located at 4747 N First Street in the First Professional Office Complex, comprising five (5) stand-alone buildings ranging from 5,000 to 8,000 square feet (743.22 m^2) each for a total of approximately 28,000 square feet (2,601.29 m^2). These buildings surround an open courtyard with green space and patio seating for the Gurnick Academy of Medical Arts, Fresno community.

A spacious student lounge is next to the patio area, with affordable snacks and drinks for our students'

convenience. Our new Simulation Learning Center houses a nursing skills lab with hospital beds, anatomical models, and other patient-care equipment. The adjoining space is set up to look like a hospital setting and is equipped with high-fidelity interactive simulation mannequins that provide realistic patient care scenarios.

The Ultrasound Imaging Lab has ultrasound machines capable of performing general and specialized procedures, including color Doppler and power Doppler imaging. Administrative offices are near the campus center, and Student & Career Services has a separate office suite near the parking lot.

Sacramento Branch Campus
8810 Cal Center Drive, 3rd Floor
Sacramento, CA 95826
(916) 588-2060
(916) 588-2061 fax

The Sacramento branch is on the third floor of a professional building complex. The campus houses classrooms, an X-ray lab, an ultrasound imaging lab, a nursing skills lab, and a nursing simulations lab.

The nursing skills lab serves our vocational nursing students to help them learn in a safe and supportive setting. The lab has hospital beds, anatomical models, high-fidelity interactive simulation mannequins, and other patient-care equipment.

The XTMAS lab has exam tables and equipment for examination and diagnostic assistance, including scales, EKG machines, and urine and blood testing. X-ray labs include a simulation lab, an energized lab with a digital image receptor, a C-arm, a mammography machine, and a portable X-ray machine(s).

The ultrasound imaging lab has ultrasound machines capable of performing general, cardio, and specialized procedures, including color Doppler and power Doppler imaging.

The facility has lab and didactic rooms for each program, with all required equipment and supplies to commence each program, offices for staff, management, and education, and a faculty lounge. A study hall/resource room, student lounge, conference room, storage, restrooms, and reception area are present and documented in the floor plan.

Van Nuys Branch Campus
15400 Sherman Way, Suite 201
Van Nuys, CA 91406
(747) 200-4567
(747) 477-3747 fax

The Van Nuys branch is on the second floor of a professional building, which houses classrooms, labs, administrative offices, and student support offices. There are four (4) energized X-ray labs and two (2) medical assistant labs. The reception area is located just off the elevators. Adjacent to the reception area are administrative and student support offices. A student lounge and library are located down the hall.

Each program has faculty offices near the lab and classroom areas. Standard equipment includes a library of text/case studies, reference books, journals, and computers to access the e-library.

The medical assistant lab has exam tables and equipment for examination and diagnostic assistance, including scales, EKG machines, and urine and blood testing. The energized X-ray labs have four stationary radiography

units, a digital image receptor system, a mammography machine, and a portable X-ray machine.

The facility has lab and didactic rooms for each program, with all required equipment and supplies to commence each program, offices for staff, management, and education, and a faculty lounge. A study hall/resource room, student lounge, conference room, storage, restrooms, and reception area are planned and documented in the floor plan.

PROGRAM OFFERINGS

Kindly note that not all programs are available at each campus. For more details, please see the Program Offerings per Campus (Table 1).

Table 1. Program Offerings per Campus

Program Types and Names	Campus Location
Degree Programs	
Associate of Occupational Science in Cardiac Ultrasound Technology (A.O.S. in CUT)	Fresno, Sacramento, San Jose
Associate of Occupational Science in Respiratory Therapy (A.O.S. in RC)	Modesto
Associate of Occupational Science in Radiologic Technology (A.O.S. in RT)	Van Nuys
Associate of Occupational Science in Ultrasound Technology (A.O.S. in UT)	Fresno, Sacramento, San Jose
Associate of Occupational Science in Vascular Ultrasound Technology (A.O.S. in VUT)	San Jose
Associate of Science in Magnetic Resonance Imaging (A.S. in MRI)	Modesto, Sacramento, San Jose
Associate of Science in Nuclear Medicine Technology (A.S. in NM)	Concord (via Distance Education)
Associate of Science in Nursing (ADN)	Fresno
Associate of Science in Nursing (LVN to ADN)	Fresno
Associate of Science in Occupational Therapy Assistant (A.S. in OTA)	San Jose
Associate of Science in Physical Therapist Assistant (A.S. in PTA)	San Jose, Fresno
Associate of Science in Radiologic Technology (A.S. in RT)	Concord, Sacramento
Associate of Science in Vocational Nursing (A.S. in VN)	Fresno
Bachelor of Science in Diagnostic Medical Imaging (B.S. in DMI)	Concord (via Distance Education)
Bachelor of Science in Nursing (BSN)	Concord
Bachelor of Science in Nursing (LVN to BSN)	Concord

Bachelor of Science in Nursing (RN to BSN)	Concord (via Distance Education)
Bachelor of Science in Radiation Therapy (B.S. in RT)	Van Nuys (via Distance Education)
Master of Science in Nursing (BSN to MSN)	Concord (via Distance Education)
Diploma Programs	
X-ray Technician with Medical Assistant Skills (XTMAS)	Concord, Sacramento, Van Nuys
Vocational Nurse (VN)	Concord, Fresno, Modesto, Sacramento, San Jose
Certificate Programs	
Bone Densitometry Technician (DXA)	Sacramento
Dental Assistant (DA)	Modesto
Medical Assistant (MA)	Concord, Modesto
International Courses	
International Nurse Graduate Course (ING)	Fresno
Continuing Education Courses	
CPR Course for Basic Life Support (CPR)	All
IV Therapy/Blood Withdrawal Course (IVBW)	Concord, Fresno, Modesto, Sacramento, San Jose
LVN to RN Transition Theory & Lab Course	Concord, Fresno
Essential Medical Bioscience (EMB)	Concord, Fresno, Modesto, San Jose
Magnetic Resonance Imaging (MRI) Intravenous (IV) Blood Withdrawal Course	San Jose
Diagnostic Medical Imaging (DMI) Advanced Clinical Practicum	Concord

ACCREDITATION, APPROVAL, RECOGNITION, MEMBERSHIP

Gurnick Academy of Medical Arts holds institutional accreditation by the Accrediting Bureau of Health Education Schools (ABHES). ABHES accreditation does not include continuing education or international courses. ABHES is located at 6116 Executive Blvd., Suite 730, North Bethesda, MD, 20852, (301) 291-7550. www.abhes.org

Gurnick Academy of Medical Arts is a private institution approved to operate by the California Bureau for Private Postsecondary Education. Approval to operate means the institution complies with the minimum standards in the California Private Postsecondary Education Act (CPPEA) of 2009 (as amended) and Division 7.5 of Title 5 of the California Code of Regulations. CPPEA is governed by the Bureau for Private Postsecondary Education; information about the Bureau can be found at www.bppe.ca.gov. The BPPE is located at 1747 N. Market Blvd. Suite 225, Sacramento, CA 95834, 916.574.8900.

The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370-7589, option #5, or visiting osar.bppe.ca.gov.

Associate of Occupational Science in Respiratory Therapy Program
The Associate of Occupational Science in Respiratory Therapy Program, 200665, at the Modesto campus holds Provisional Accreditation from the Commission on Accreditation for Respiratory Care (www.coarc.com).

This status signifies that a program with an Approval of Intent has demonstrated sufficient compliance with the Standards (through submission of an acceptable Provisional Accreditation Self-Study Report (PSSR) and any other documentation required by the CoARC, as well as satisfactory completion of an initial on-site visit, to be allowed to admit students. It is recognized as an accredited program by the National Board for Respiratory Care (NBRC), which provides enrolled students who complete the program with eligibility for the Respiratory Care Credentialing Examination(s). The program will remain on Provisional Accreditation until it achieves Continuing Accreditation.

For more information about CoARC, please visit www.coarc.com. Contact information for Commission on Accreditation for Respiratory Care (CoARC): 264 Precision Blvd., Telford, TN 37690, (817) 283-2835.

Associate of Occupational Science in Radiologic Technology Program
The Associate of Occupational Science in Radiologic Technology Program is approved by the California Department of Public Health, Radiologic Health Branch (CDPH-RHB) as a radiographer school. Contact Information for CDPH-RHB is P.O. Box 997414, MS 7610, Sacramento, CA 95899-7414, (916) 327-5106. This program is also programmatically accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). Contact information for The Joint Review Committee on Education in Radiologic Technology is 20 North Wacker Drive, Suite 2850, Chicago, Illinois 60606-3182, (312) 704-5300, email: mail@jrcert.org, www.jrcert.org.

The Associate of Occupational Science in Radiologic Technology Program is recognized by the American Registry of Radiologic Technologists® (ARRT®) – www.arrt.org/Education/Educational-Programs. Graduates from the above-mentioned programs can sit for the ARRT® (R). Anyone taking an examination offered by ARRT® and who graduates on or after January 1, 2015, must hold, at a minimum, an earned associate degree. For more information about ARRT®, please visit www.arrt.org. ARRT® is located at ARRT®, 1255 Northland Drive, St. Paul, MN 55120, Phone: 651-687-0048.

Associate of Occupational Science in Ultrasound Technology Program
The Associate of Occupational Science in Ultrasound Technology Program is recognized by the American Registry of Radiologic Technologists® (ARRT®) – www.arrt.org/Education/Educational-Programs. Graduates from the programs, as mentioned above, are eligible to sit for ARRT® (S). Anyone taking an examination offered by ARRT® and who graduates on or after January 1, 2015, must hold, at a minimum, an earned associate's degree. For more information about ARRT®, please visit www.arrt.org. ARRT® is located at ARRT®, 1255 Northland Drive, St. Paul, MN 55120, Phone: 651-687-0048.

The Associate of Occupational Science in Ultrasound Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS). CAAHEP is located at 9355 113th St. N, #7709, Seminole, FL 33775; phone: (727) 210-2350.

Associate of Occupational Science in Vascular Ultrasound Technology Program
The Associate of Occupational Science in Vascular Ultrasound Technology Program is recognized by the American Registry of Radiologic Technologists® (ARRT®) – www.arrt.org/Education/Educational-Programs. Graduates from the programs, as mentioned above, are eligible to sit for ARRT® (VS). Anyone taking an examination offered by ARRT® and who graduates on or after January 1, 2015, must hold, at a minimum, an earned associate's degree. For more information about ARRT®, please visit www.arrt.org. ARRT® is located at ARRT®, 1255 Northland Drive,

St. Paul, MN 55120, Phone: 651-687-0048.

The Associate of Occupational Science in Vascular Ultrasound Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS). CAAHEP is located at 9355 113th St. N, #7709, Seminole, FL 33775; phone: (727) 210-2350.

Associate of Science in MRI Program

The Associate of Science in MRI Technology Program is recognized by the American Registry of Radiologic Technologists® (ARRT®) – www.arrt.org/Education/Educational-Programs. Graduates from the programs, as mentioned above, are eligible to sit for the ARRT® (MRI). Anyone taking an examination offered by ARRT® and who graduates on or after January 1, 2015, must hold, at a minimum, an earned associate's degree. For more information about ARRT®, please visit www.arrt.org. ARRT® is located at ARRT®, 1255 Northland Drive, St. Paul, MN 55120, Phone: 651-687-0048.

Associate of Science in Nuclear Medicine Technology Program

The Associate of Science in Nuclear Medicine Technology Program is programmatically accredited by the Joint Review Committee on Education in Nuclear Medicine Technology (JRCNMT). Contact information for The Joint Review Committee on Education in Nuclear Medicine Technology is 820 W Danforth Road, Suite B1, Edmond, Oklahoma, 73003, (405) 285-0546, email: mail@jrcnmt.org, www.jrcnmt.org

The Associate of Science in Nuclear Medicine Technology Program is recognized by the American Registry of Radiologic Technologists® (ARRT®) – www.arrt.org/Education/Educational-Programs. Graduates from the above-mentioned programs can sit for the ARRT® (N). Anyone taking an examination offered by ARRT® and who graduates on or after January 1, 2015, must hold, at a minimum, an earned associate degree. For more information about ARRT®, please visit www.arrt.org. ARRT® is located at ARRT®, 1255 Northland Drive, St. Paul, MN 55120, Phone: 651-687-0048.

The Associate of Science in Nuclear Medicine Technology Program is recognized by the Nuclear Medicine Technology Certification Board (NMTCB). https://nmtcb.org/exams/nuclear-medicine/schools. Graduates from the above-mentioned program may sit for the NMTCB entry-level exam. Only graduates from schools who hold programmatic accreditation are eligible to sit for the NMTCB entry-level exam. For more information about NMTCB, please visit www.nmtcb.org. The NMTCB is located at NMTCB, 3558 Habersham at Northlake, Building I, Tucker, GE 30084-4009, Phone 404-315-1739.

Associate of Science in Nursing Program

The Associate of Science in Nursing Program is approved by the California Board of Registered Nursing (BRN). Contact information for the California Board of Registered Nursing: 1747 N. Market Blvd., Suite 150, Sacramento, CA 95834, Phone: (916) 322-3350.

Associate of Science in Occupational Therapy Assistant Program

The A.S. in Occupational Therapy Assistant program at Gurnick Academy of Medical Arts is currently under applicant status and must be granted Candidacy Status, have a pre-accreditation review, complete an on-site evaluation, and be granted Accreditation Status before its graduates will be eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT).

After successfully completing this exam, the individual will be a Certified Occupational Therapy Assistant (COTA). In addition, all states require licensure to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT Certification Examination or attain state licensure.

Please refer to the published policy on the timely completion of all graduation and fieldwork requirements. The student must complete 16 weeks of Level II fieldwork within six (6) months following the completion of the didactic portion of the program.

The Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 7501 Wisconsin Avenue, Suite 510E, Bethesda, MD 20814. ACOTE's Telephone Number, c/o AOTA, is (301) 652-AOTA (2682) and its website address is www.acoteonline.org.

Associate of Science in Physical Therapist Assistant Program
The Associate of Science in Physical Therapist Assistant Program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, Virginia, 22305-3085; telephone: 703-706-3245; email accreditation@apta.org; website: http://www.capteonline.org. If you need to contact the program/institution directly, please call 650-425-9387 or email cammenti@gurnick.edu.

Bachelor of Science in Radiation Therapy Program
The Bachelor of Science in Radiation Therapy Program is programmatically accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT).

Contact information for The Joint Review Committee on Education in Radiologic Technology is 20 North Wacker Drive, Suite 2850, Chicago, IL 60606, (312) 704-5300, email: mail@jrcert.org, www.jrcert.org.

Bachelor of Science in Nursing Program
The Bachelor of Science in Nursing Program is approved by the California Board of Registered Nursing (BRN). Contact information for California Board of Registered Nursing: 1747 N. Market Blvd., Suite 150, Sacramento, CA 95834, Phone: (916) 322-3350.

Dental Assistant Program
Gurnick Academy of Medical Arts is an approved course provider by the Dental Board of California to provide an 8-hour Infection Control Certificate, a Coronal Polishing Certificate, and a Radiation Safety Certificate. Contact Information: the Dental Board of California is 2005 Evergreen Street, Suite 1550, Sacramento, CA 95815, (916) 263-2300.

IV Therapy and Blood Withdrawal Course
Gurnick Academy of Medical Arts is an approved course provider by the Board of Vocational Nursing and Psychiatric Technicians (BVNPT) to provide IV Therapy and Blood Withdrawal Certification Courses.

Vocational Nurse Program
The Vocational Nurse Program is approved by the Board of Vocational Nursing and Psychiatric Technicians (BVNPT). The Board of Vocational Nursing and Psychiatric Technicians' contact information is 2535 Capitol Oaks Drive, Suite 205, Sacramento, CA 95833, Phone: (916) 263-7800.

X-ray Technician with Medical Assistant Skills Program
The X-ray Technician with Medical Assistant Skills Program is approved by the California Department of Public Health, Radiologic Health Branch (CDPH-RHB) as a school for X-ray technicians. Contact Information for CDPH-RHB is P.O. Box 997414, MS 7610, Sacramento, CA 95899-7414, (916) 327-5106.

State Authorization
Gurnick Academy of Medical Arts offers distance education outside the state where the institution or program is physically located in California. All 50 states plus U.S. Territories regulate education on the state level. Gurnick Academy of Medical Arts makes every effort to follow each state's regulations regarding offering distance education programs in compliance with all applicable laws, regulations, and accreditation standards. Students should research whether the Gurnick Academy of Medical Arts program meets their state's professional

requirements.

A student's physical location is identified at the time of application to determine program authorization requirements for enrollment in our programs. The basis for determining the student's physical location is determined by official ID (a receipt of a Driver's License or official U.S. identification) as required for admission (see **General Admissions Requirements**). If a student changes their physical location during the program, they shall notify Gurnick Academy of Medical Arts by completing a change of address form.

Change of Address Forms are available on www.gurnick.edu or by asking a campus designee. Students must complete the Change of Address Form and bring the above-mentioned official documents in person to the Student Services Coordinator or Designated School Official located on their campus. Students can also mail notarized copies of documents with a cover letter explaining the change. Students who mail the certified documents must sign the cover letter, include their Gurnick Academy of Medical Arts student ID or social security number and date of birth, and send it to the student's campus.

Gurnick Academy of Medical Arts has not determined if any programs fulfill the educational requirements for specific professional licensure or certification required for employment outside California unless identified by the program below. It is recommended that students who are located in or plan to relocate to a state apart from the physical campus offering the program research any certification or employment requirements for their intended state.

Gurnick Academy of Medical Arts can enroll students in distance education in the states below, adhering to each state's requirements:

- Arizona: The academy has identified non-regulation from licensure due to the absence of physical presence from the Arizona State Board for Private Postsecondary Education for the Associate of Science in MRI program.
- Nevada: The academy has obtained approval from the Nevada Commission on Postsecondary Education to offer the Associate of Science in MRI program.
- Florida: The academy has been notified of non-regulation from licensure due to a lack of physical presence from the Florida Commission for Independent Education for the Associate of Science in MRI program.

Other Approvals and Memberships

- The US Department of Education approves Gurnick Academy of Medical Arts to participate in Title IV/Federal Financial Aid programs.
- Gurnick Academy of Medical Arts is a California Association of Private Postsecondary Schools (CAPPS) member.
- Gurnick Academy of Medical Arts is approved to accept participants from the Workforce Investment Act (WIA), Employment Development Department (EDD), and California counties' retraining programs.
- Gurnick Academy of Medical Arts, San Jose campus, is approved by the Student and Exchange Visitor Program (SEVIS) to accept international students. More information can be found at egov.ice.gov/sevis/.
- Gurnick Academy of Medical Arts is a Chamber of Commerce (SMCC) member.
- The National Healthcare Association approves Gurnick Academy of Medical Arts to administer the Certified EKG Technician and Certified Phlebotomy Technician examinations.

Individuals who want to review the accrediting/licensure documentation should contact the Campus Director.

ADMISSION POLICIES

PREREQUISITES, COREQUISITES, & ADMISSION COURSES

Gurnick Academy of Medical Arts has established program prerequisites and course corequisites appropriately on a programmatic and course-by-course basis.

Prerequisites are courses that must be completed before starting the core programs. Passing prerequisites demonstrates the competency of knowledge necessary for beginning the core program. Prerequisite Challenge Exams are available for those who are interested.

Courses such as the LVN-to-RN Transition Course must be completed to meet the eligibility requirements for admission into their respective programs. Completing these courses does not guarantee automatic enrollment into their respective programs. Please review individual program admission requirements for more details.

Students taking prerequisites or admission courses such as Essential Medical Biosciences or Nursing Transition for Advanced Placement are limited to two (2) attempts. Students may request one (1) additional attempt every 12 months from the final attempt, with approval by the Program Director. Students requesting further attempts must submit a written request to the Program Director, outlining what they will do to succeed during this attempt.

Corequisites are defined as courses that must be taken simultaneously. However, a failure in one course does not mean failure in the co-requisite course. Only the failed course needs to be repeated.

Paired courses must be taken simultaneously. A failure in one of the paired courses means failure in all paired courses. Each of the paired courses will need to be retaken.

Kindly note that prerequisite courses do not fall within the ABHES scope of accreditation, nor do we award academic credits for those courses. Prerequisite and admission courses are also not eligible for Financial Aid.

Gurnick Academy of Medical Arts provides online, residential, hybrid, prerequisite, and admission courses.

REGISTRATION FEE

All new applicants are subject to pay the $100.00 Registration Fee.

Individuals who were enrolled but never started a core program and wish to enroll again are considered new applicants after 270 days (9 months) from the initial start date and must pay the Registration Fee again. Gurnick Academy of Medical Arts graduates who desire to enroll again are considered new applicants and must also pay the Registration Fee.

Individuals eligible to re-enroll are subject to pay the Registration Fee if re-enrollment occurs after 180 days of an approved withdrawal/expulsion/completion date.

Those eligible to re-enroll are not subject to paying the $100.00 Registration Fee if re-enrollment occurs within 180 days of an approved withdrawal/expulsion/completion date.

Individuals who want to transfer from one cohort group to a different program or time frame are not subject to paying the Registration Fee.

INTERNATIONAL STUDENT ADMISSIONS

International applicants are encouraged to apply for admission. All applicants must meet the exact requirements as U.S. citizens as outlined above. An English evaluation should accompany all documents. Students whose native language is not English will be required to take the English as Foreign Language (TOEFL) or equivalent. The following minimum TOEFL scores must be obtained: 45 for the iBT (internet-based test) or demonstrate English proficiency through other measures established by Gurnick Academy of Medical Arts.

Requirements for proof of English Language Proficiency through TOEFL or International English Language System (IELTS):

- Individuals who have graduated from a U.S. high school and have passed CA proficiency will be exempt from taking the TOEFL.
- Individuals who have graduated from a U.S. college/university with an AS/AA or higher will be exempt from taking the TOEFL.
- Individuals who have graduated from an English-speaking country, such as Canada, Nigeria, or the UK, will be exempt from taking the TOEFL.
- For those opting for IELTS, a minimum score of 6.5 is required in each section, with an overall band score of 6.5 or higher.
- Individuals who have successfully completed a college-level English course may request review of the course to be exempt from taking the TOEFL.

An affidavit of financial support is recommended to be submitted but is not required. More detailed information will be provided through our Admissions office. Gurnick Academy of Medical Arts is authorized to enroll non-immigrant students under federal law. Besides F1 and M1 visas, Gurnick Academy of Medical Arts does not offer visa services. If requested, Gurnick Academy of Medical Arts will document and vouch for the current student status.

ABILITY TO BENEFIT

Gurnick Academy of Medical Arts does not accept Ability-to-Benefit (ATB) students.

ADMISSION REQUIREMENTS

The table below is only a summary of Admission Requirements. A complete list of admission requirements is presented in the General Admission Requirements for all programs, as well as Additional Admission Requirements per program.

Table 2. Admission Requirements Summary

Program	Minimum Degree Requirement	Minimum Entrance Exam Score	Admission Point System	Prerequisite Courses	Other General Requirements	Programmatic Requirements
VN		CCAT 16	Yes, some campuses only	Yes*	• Be at least 18 years of age.**	Info Session, Interview (if applicable)
MA DA		CCAT 14	No	No	• Meet with the Admissions	Info Session, Essay,

A.O.S. in RT	HSD/GED		Yes		Advisor and Financial Aid Advisor (if applicable). • Pay all applicable fees. • Immunization, Health Screening, Background Check, Drug Testing, and CPR. • Program's performance requirements. • Student skills, hardware, and software requirements (for distance education courses).	
A.S. in NM						
A.O.S. in UT A.O.S. in CUT A.O.S. in VUT						
A.S. in MRI						
A.S. in RT						
A.S. in OTA						
A.S. in PTA						
ADN & LVN to RN						
A.S. in VN	HSD/GED plus proof of graduation from a Board-approved Vocational Nursing Program (min. 2.5 GPA) or completing 1,530 VN program clock hours (BVNPT approved curriculum).		No			

A.O.S. in RC	HSD/GED		Yes			
B.S. in DMI	HSD/GED plus two (2) Year Equivalent Imaging education and ARRT® registry or equivalent.		No	=		
BSN, LVN to BSN, RN to BSN	HSD/GED plus RN license		Yes			
BSN to MSN	BSN (min. 3.0 GPA) plus RN license		Yes			
B.S. in RT	HSD/GED		Yes			
DXA	HSD/GED		Yes			
XTMAS						

** Prerequisite courses may be taken at Gurnick Academy of Medical Arts.*

***See Additional Admission Requirements per program for minimum age requirements.*

Per the Gurnick Academy of Medical Arts Employee Manual, the Executive Corporate Management Team may accept a maximum of one (1) nominated applicant per program start who meets all admissions requirements without a point ranking system, if applicable to the program of interest.

General Admission Requirements for all Programs

All applicants to Gurnick Academy of Medical Arts must:

1. Meet with the program's Admission Advisor to review all required disclosures and receive complete information before enrolling with Gurnick Academy of Medical Arts.
   Kindly note that some programs may have additional requirements, such as attending a live or viewing a recording of an Information Session before meeting with Admissions; please see Additional Admissions Requirements per program.
2. Meet with a Financial Aid Advisor to review all required disclosures and receive complete information before enrolling at Gurnick Academy of Medical Arts.
   This requirement does not apply to non-financial aid programs or courses.
3. Pay all applicable fees per the published fee schedule before issuing an enrollment agreement or making other payment arrangements acceptable to Gurnick Academy of Medical Arts.
4. Possess an Official High School Transcript from an approved/accredited high school or a GED. Please ask an Admission Advisor for more details and the approved high school list. *Please refer to the Foreign Transcript/Degree Evaluation Policy for more information regarding additional requirements.*
5. At least 18 (official ID is required) to enroll in a core program.
   Some programs may allow enrollment at age 17. Please see program-specific admission requirements for details.
6. Complete the entrance exam with the minimum score required as outlined in the table Admission Requirements Summary. All Programs utilize the Criteria Cognitive Aptitude Test (CCAT) with a minimum entrance exam score unless specified in the table above.
7. Complete the Online Application consisting of the following documents:
   a. Online Application
   b. Distance Education Questionnaire
   c. Academic Integrity Statement
   d. Consent to Receive Electronic Communications
8. Comply with all Gurnick Academy of Medical Arts requirements for Immunizations, Health Screening, Background Check, and CPR/First Aid policy.
9. Comply with the program's performance requirements.
   Read each program's performance requirements in the Program Performance Requirements section.
10. Comply with the Additional Admission Requirements per program.
    Please review this section for the applicable program.
11. Meet the minimum student skills, hardware, and software requirements if the student enrolls in distance education (online) courses. Please refer to the Minimum Requirements for Students Enrolling in the Distance Education Courses section.
12. Ability to read and write English at an American high school graduate level, as demonstrated by a high school diploma, GED, or passing the California high school proficiency exam.

Criteria Cognitive Aptitude Test (CCAT)

The Criteria Cognitive Aptitude Test (CCAT) is an aptitude test that measures an individual's aptitude to solve problems, digest and apply information, learn new skills, and think critically. The exam consists of 50 items. There is no cost for this exam. Applicants are allowed three (3) attempts within a calendar year to pass the exam. Students are allowed to retest the same day as the first failed exam. There must be at least seven (7) days between attempts after that.

Results are valid for one (1) year. Please note that if a graduate (or current student) applies for another program

and their CCAT result has expired, this person must retake the test. Students applying to a program without a minimum required score will have one opportunity to take the test within a calendar year.

Test of Essential Academic Skills (TEAS®)
The Test of Essential Academic Skills (TEAS®) measures essential basic skills in the academic content domains of reading, mathematics, science, and English and language usage. The test is intended for use primarily with adult nursing program applicant populations. The objectives assessed on TEAS® VII* are those that nurse educators deemed most appropriate and relevant to measure the entry-level academic readiness of nursing program applicants.

The TEAS exam is proctored remotely by ATI, and the cost for this exam is $120 per individual test taker. Applicants are allowed two (2) attempts a year starting from the first exam's original date. Results are valid only for one year. All students are encouraged to log on to www.atitesting.com for study material and other useful resources and information.

For the A.S. in Nursing and B.S. in Nursing programs, the score on the most recent attempt will be accepted for the A.S. in Nursing and B.S. in Nursing.

Breakdown of test subjects (by the percentage of the entire test):

- Reading – 28%
- Mathematics – 20%
- Science – 32%
- English and Language Usage – 20%

Additional Admission Requirements per Program

Associate of Occupational Science in Cardiac Ultrasound Technology Program (A.O.S. in CUT)
Applicants must:

1. Attend or view a live or recorded Information Session.
2. Submit original transcripts from the Registrar at an educational Institution for applicants requesting credit granting for some/all General Education courses. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology I with Laboratory must be completed within the last five (5) years. All credit granting is subject to the approval of the Program Director or Program Coordinator. Please allow seven (7) days for review.
3. Complete an admission interview with the Program Director and designees.

Associate of Occupational Science in CUT Admission Point System
Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 3. A.O.S. in CUT Admission Point System

Points Category	Possible Points
I. CCAT	**50**
II. Post Secondary Education	**50**
• Associate Degree	25

• Baccalaureate Degree and higher	50
III. Credit Granted Courses	**110**
• College Algebra	30
• Anatomy & Physiology	30
• Physics	30
• Written & Oral Communication	10
• Critical Thinking	10
IV. One Page Resume	**10**
V. Health Care Background	**30**
• One to three (1 – 3) years	20
• More than three (3) years	30
VI. Imaging Background	**50**
· Background as a registered RT, Sonographer, MRI Technologist, or Radiation Therapist	50
VII. Clinical Affiliate Background	**20**
VIII. Personal Interview	**150**
• Interview Questions • Maturity • Communication Skills • Appearance and Demeanor	
Possible Total Points:	**470**

Associate of Occupational Science in Respiratory Therapy Program (A.O.S. in RC)

Applicants must:

1. Attend or view a live or recorded Information Session.
2. Meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, and background check (see Policies of Gurnick Academy of Medical Arts in School Catalog and "Admissions").
3. Submit original transcripts from the Registrar at an educational institution for those requesting credit granting for courses. Copies of transcripts are not accepted. All coursework must be completed with a grade of at least a "C" and a cumulative grade point average (GPA) of 2.5 (on a 4-point) scale. All credit granting is subject to the Program Director or designee's approval. Please allow seven (7) days for review.
4. Take an Admission Assessment test: The AOSRC program requires applicants to take the CCAT exam
5. Participate in an interview with the Program Director or Designee in person or online.
6. Submit a written essay on why they have chosen this career path.
7. Before starting this career choice, if an applicant has a criminal record and has been convicted of a felony, it would be in their best interest to contact the Respiratory Care Board (RCB) BEFORE they continue their education endeavors. "Having a prior criminal history does not preclude you from obtaining a license from the Respiratory Care Board of California (RCB). Each applicant for licensure must submit their fingerprints to the California Department of Justice and Federal Bureau of Investigation for

a criminal history background check. Upon notification of an applicant's criminal history, if any, the RCB will open an investigation to determine whether there is a basis to deny the application for licensure."

Associate of Occupational Science in RC Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 4. A.O.S. In RC Admission Point System

Criteria	Possible Points
I. Admissions Exam	**15**
● CCAT (26-50)	15
● CCAT (19-25)	10
● CCAT (0-18)	5
II. Post-Secondary Education	**15**
● Associate Degree	5
● Baccalaureate Degree	10
● Graduate/Master's Degree	15
III. Health Care Background	**5**
● One to three (1 – 3) years	3
● More than three (3) years	5
IV. Re-Applicant	**30**

Total Possible Points for Criterion I through Criterion IV: 65 Points

Associate of Occupational Science in Radiologic Technology Program (A.O.S. in RT)

Applicants must:

1. Attend or view a live or recorded Information Session.
2. Submit original transcripts from the Registrar at an educational institution for applicants requesting credit granting for some/all General Education courses. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology I with Laboratory must be completed within the last five (5) years. All credit granting is subject to the approval of the Program Director or Program Coordinator. Please allow seven (7) days for review.
3. Submit a one-page essay in APA format that includes the following:
    a. Statement of why you would like to join the modality.
    b. The essential functions and role of a Technologist in this field.
    c. Preparation to become successful in this program.
    d. APA Title page and sources used to prepare for the essay (Title page and sources can be on a separate page).
4. Applicants who possess a **current** State of California Limited Permit (License) in Chest, Extremities, and Torso Skeletal will receive credit granting for a portion of the RT program.
5. Gurnick Academy of Medical Arts graduates of the XTMAS program who have taken the state exam and are awaiting the results can enroll as provisional students into the A.S. in RT program. If the graduate fails to earn a license in all three categories listed above, the student will be dropped from the A.S. in RT program for failing to meet all the admission requirements.

A.O.S. in RT Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The top-scoring candidates will be brought in for the interview process. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 5. A.O.S. in RT Admission Point System

Points Category:	**Possible Points**
I. CCAT	**50**
II. Credit Granted Courses	**130**
• Algebra I or higher	30
• Anatomy	30
• Physiology	30
• Ethics and Law in Radiology	10
• English Reading and Composition	10
• Sociology	10
• Medical Terminology	10
III. One Page Resume	**10**
IV. Essay One page, APA Format	**10**
The essay will include:	
• Statement of why you would like to join this modality • The essential functions and role of a technologist in this field • Preparation to become successful in this program • APA Title page and sources used to prepare for the essay (Title page and sources can be on a separate page)	
V. Health Care Background	**60**
• One to three (1 – 3) years	20
• More than three (3) years	30
• Radiology Community Involvement	30
Radiology Community Involvement consists of volunteering in an imaging department, attending a conference in Radiology, or a Career Discussion Panel. A signed and dated certificate of attendance will be required for points from Human Resources or a sanctioned event. Every eight hours of documented volunteer time in an imaging department or conference is worth ten (10) points, with a maximum of 30 points.	
VI. Personal Interview	**120**

• Interview Questions • Appearance and Demeanor • Communication Skills • Maturity • Overall Impression • Holistic Evaluation	
Possible Total Points:	**380**

Associate of Occupational Science in Ultrasound Technology Program (A.O.S. in UT)
Applicants must:

1. Attend or view a live or recorded Information Session.
2. Submit original transcripts from the Registrar at an educational institution for applicants requesting credit granting for some/all General Education courses. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology I with Laboratory must be completed within the last five (5) years. All credit granting is subject to the approval of the Program Director or Program Coordinator. Please allow seven (7) days for review.
3. Complete an admission interview with the Program Director and designees.

Associate of Occupational Science in UT Admission Point System
Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The top-scoring candidates will be brought in for the interview process. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 6. A.O.S. in UT Admission Point System

Points Category	Possible Points
I. CCAT	**50**
II. Post Secondary Education	**50**
• Associate Degree	25
• Baccalaureate Degree and higher	50
III. Credit Granted Courses	**110**
• College Algebra	30
• Anatomy & Physiology	30
• Physics	30
• Written & Oral Communication	10
• Critical Thinking	10
IV. One Page Resume	**10**
V. Health Care Background	**30**
• One to three (1 – 3) years	20
• More than three (3) years	30

VI. Imaging Background	50
• Background as a registered RT, Sonographer, MRI Technologist, or Radiation Therapist	50
VII. Clinical Affiliate Background	**20**
VIII. Personal Interview	**150**
• Interview Questions • Maturity • Communication Skills • Appearance and Demeanor	
Possible Total Points:	**470**

Associate of Occupational Science in Vascular Ultrasound Technology Program (A.O.S. in VUT)
Applicants must:

1. Attend or view a live or recorded Information Session.
2. Submit original transcripts from the Registrar at an educational institution for applicants requesting credit granting for General Education courses. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology I with Laboratory must be completed within the last five (5) years. All credit granting is subject to the approval of the Program Director or Program Coordinator. Please allow seven (7) days for review.
3. Complete an admission interview with the Program Director and designees.

Associate of Occupational Science in VUT Admission Point System
Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 7. A.O.S. in VUT Admission Point System

Points Category	Possible Points
I. CCAT	**50**

Possible Total Points:	**420**

Associate of Science in Nursing Program (ADN)

ADN Generic Pathway

1. Attend or view a live or recorded Information Session.
2. Applicants must meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
3. Applicants must submit a completed application. It is recommended that interested applicants fill out the application with the admission advisor.
4. Applicants must take an Admission Assessment: The Test of Essential Academic Skills (TEAS VII). It tests math, reading, English and language use, and science. All students are encouraged to log on to atitesting.com for study material and other valuable resources and information. The TEAS VII Test Passing score = 64% or better.
5. Applicants will be asked to pass an interview with the Nursing Program Director, Assistant Program Director, or designee in person or via a virtual conferencing platform, if necessary.
6. Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in non-biology prerequisite coursework. Official transcripts are required.
7. Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in math and science prerequisite coursework. Official transcripts are required.
8. Applicants must submit a two- to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.
9. Applicants must submit three (3) letters of recommendation to the nursing program. These may come from employers, immediate work supervisors, health-related facilities where the applicant has volunteered, or faculty from previous college/university coursework. These letters of recommendation must be submitted using formal organizational stationery.
10. The applicant will submit proof of health-related &/or community work, e.g., volunteering at health

fairs, hospitals, or clinics, working with the homeless, mentoring or tutoring other students, Big Brother or Big Sister. These experiences must be substantiated with a document or letter of verification on formal organizational stationery.

11. Applicants will be rank-ordered based on the following score, which includes:
    - Admission Assessment Test (TEAS)
    - Personal Interview
    - Written Essay
    - Three Letters of Recommendation
    - Community Work
    - Health-Related Experience

- *LVN-RN AP*
    - Applicants must meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
    - Applicants must submit a completed application. It is recommended that interested applicants fill out the application with the admission advisor.
    - Applicants must take an Admission Assessment: The Test of Essential Academic Skills (TEAS VII). It tests math, reading, English and language use, and science. All students are encouraged to log on to atitesting.com for study material and other valuable resources and information. The TEAS VII Test Passing score = 64% or better.
    - If necessary, applicants will be asked to pass an interview with the Nursing Program Director or Associate Program Director in person or via a virtual conferencing platform.
    - Applicants must submit a two to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.
    - Applicants must submit proof of one (1) year of full-time LVN/LPN work experience within the last three years or be a recent graduate of an LVN/LPN school (within one year at the time of application) or have completed an LPN/LVN Refresher/Re-entry program within one (1) year of admission.
    - Applicants must submit transcripts showing proof of completing the 33 units of General Education courses that comprise Semesters I and II of the ADN Generic Pathway.
    - Applicants must submit a resume.
    - Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in non-biology prerequisite coursework. Official transcripts are required.
    - Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in math and science coursework. Official transcripts are required.

- *LVN 30-Unit Option*
    - Proof of current California Vocational Nurse license.
    - The Program Director or Assistant Program Director will provide counsel and evaluation.
    - An official transcript must be submitted to the Office of Admissions.
    - Complete Microbiology with lab for four (4) units, with a GPA of 2.5 for each course.
    - Complete any stand-alone Physiology with Lab that includes all body systems or equivalent to Anatomy and Physiology with Labs.
    - Applicants must meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR certification (see Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
    - Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in all college coursework. Official transcripts are required.
    - Applicants must take the Test of Essentials Academic Skills. It tests math, reading, English and language use, and science. All students are encouraged to log on to www.atitesting.com for

study material and other useful resources and information. The TEAS Test Passing score = 64% or better.
- If necessary, Applicants will be asked to pass an interview with the Nursing Program Director or Associate Program Director in person or via a virtual conferencing platform.
- Applicants must submit a two to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.

Credit Granting for Nursing Education

Students may request credit granting for previously taken nursing courses. If official transcripts are not submitted at the time of the application, the student forfeits the opportunity to apply for credit granting on previous courses.

LVNs can transfer 22 Semester Credit Hours of LVN courses taken at the post-secondary level at an institution accredited by an agency recognized by the United States Department of Education or the Council of Higher Education Accreditation.

The content of these 22 transfer credits shall include the following:

- Nursing Theory hours (before the program): 13 semester credit hours for the following equivalent courses at Gurnick Academy of Medical Arts:
  - RN 100 Fundamentals of Nursing (3 semester credit hours)
  - RN 102 Health Assessment Theory (2 semester credit hours)
  - RN 104 Fundamentals of Pharmacology (2 semester credit hours)
  - RN 200 Medical-Surgical Nursing I Theory-Intro to Med-Surg (3 semester credit hours)
  - RN 202 Medical-Surgical Nursing II Theory-Intermediate Med-Surg (3 semester credit hours)

- Nursing Lab hours (before the program): 1.5 semester credit hours for:
  - RN 103 Health Assessment Skills Lab (1.5 semester credit hours)

- Nursing Clinical hours (before the program): 7.5 semester credit hours for:
  - RN 101 Fundamentals of Nursing Clinical and Lab (3.5 semester credit hours)
  - RN 201 Medical-Surgical Nursing I Clinical (2 semester credit hours)
  - RN 203 Medical-Surgical Nursing II Clinical (2 semester credit hours)

Table 10. ADN General Education Hours

PREREQUISITE	SEMESTER CREDIT HOURS
Human Body in Health and Disease I with Lab	4.0
General Microbiology with Lab	4.0
English Reading and Composition	3.0
Algebra I	3.0
General Psychology	3.0
Human Body in Health and Disease II with Lab	4.0
Nutrition in Health & Disease	3.0
Critical Thinking	3.0
Introduction to Sociology	3.0
Public Speaking, Basics of Effective Communication	3.0
TOTAL GURNICK ACADEMY GENERAL EDUCATION COURSES	**33.0**

All prerequisite courses must meet the baseline general education criteria for the California State University system (CSUs).

Please note: A transcript MUST be provided for the above prerequisites if *credit granting* and will only be accepted from an accredited institution approved by the U.S. Department of Education.

The minimum composite score is 64% for Associate Degree Nursing Program admission. The program will only accept a maximum of two (2) attempts in one (1) year, with the first passing score of 64%. If students do not attain the minimum of 64% on the first attempt, they may retest within one (1) year.

Gurnick Academy of Medical Arts uses the Test of Essential Academic Skills. The minimum composite score is 64% for Associate Degree Nursing Program admission. The program will only accept a maximum of two (2) attempts in one (1) year, with the first passing score of 64%. If students do not attain the minimum of 64% on the first attempt, they may retest within one (1) year.

Table 11. ADN Admission Point System

Criteria	Possible Points
I. Admissions Exam	**40**
• TEAS (90.00 – 100.00) • TEAS (80.0 – 89.99) • TEAS (70.0 – 79.99) • TEAS (64.0 – 69.99) Gurnick Academy of Medical Arts uses the Test of Essential Academic Skills. The minimum composite score is 64% for Associate Degree Nursing Program admission. The program will only accept a maximum of two (2) attempts in one year, with the first passing score of 64%. If students do not attain the minimum of 64% on the first attempt, they may retest within one (1) year.	40 30 20 10
II. Post-Secondary Education	**20**
• Associate Degree	5
• Baccalaureate Degree	10
• Graduate/Master's Degree	20
III. Academic Achievement: College level Courses & High school AP courses	**30**
A. GPA in Non-Biology Prerequisite Courses: Reading & Composition, Psychology, Public Speaking, Sociology, Critical Thinking, Nutrition	
• GPA 2.50-2.59	2
• GPA 2.60-3.00	5
• GPA 3.01-3.59	10
• GPA 3.6-4.0	15
B. GPA in Math and Sciences: Intermediate Algebra, Anatomy & Physiology, Microbiology	
• GPA 2.50-2.59	2
• GPA 2.60-3.00	5
• GPA 3.01-3.59	10
• GPA 3.6-4.0	15
IV. Application Essay to Nursing Program – APA Format	**10**

The essay will include:	
• Statement of purpose for enrolling in a nursing program	2
• The essential functions and role of a nurse	2
• Preparation to become successful in the nursing program	2
• Accountability and integrity in the nursing profession	2
• Grammar	2
V. Health Care Background	**5**
• One to three (1 – 3) years	3
• More than three (3) years	5
VI. Personal Interview	**20**
• Professionalism	4
• Appearance and Demeanor	4
• Communication Skills	4
• Answering Skills	4
• Overall Impression	4
VII. Evaluation from the Office of Admissions	**5**
• Professionalism	1
• Timeliness	1
• Communication	1
• Compliance with the requirements	1
• Self-Motivation	1

Total Possible Points for Criterion I through Criterion VII: 130 Points

Transition Course [for LVN-RN Advanced Placement only]
The LVN To RN Transition Course (120 hours) is an Admission Course that must be completed before starting the LVN to RN CORE courses.

Associate of Science in Occupational Therapy Assistant Program (A.S. in OTA)
The Occupational Therapy Assistant Program has a selective application process. There is a deadline for completed applications to be submitted. Please inquire with Admissions about the current deadline date.

1. All applicants must attend a one-on-one meeting with the Admissions Team advisor to receive specific information about admission requirements, program and clinical rotation scheduling, and financial aid resources. A packet of registration documents will be given to applicants to complete and return.
2. All applicants must submit official transcripts.
3. Submit — for applicants requesting credit granting for some/all General Education courses — original transcripts from the Registrar at an educational institution. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology with Laboratory must be completed within the last five (5) years. All credit granting is subject to approval from the Registrar. Please allow seven (7) days for review.
4. The OTA Admissions Committee will review all applications and approve the 40 top-scoring applicants for a Zoom and on-campus interview and essay writing. Please see the scoring rubric. The interview criteria are based upon 'Generic Abilities' identified through a study published by UW-Madison. Interviews will be scheduled for 15 – 20 minutes. Applicants will also have additional time to complete a short Application Essay and Pre-Admission Questionnaire. Applicants will be reminded to complete their online FAFSA application for federal student aid.
5. The 20 top-ranking applicants will be offered seats in the program with up to ten (10) alternates. Selected applicants must accept the seat within 72 hours of receiving the formal acceptance letter.

A.S. in OTA Admission Point System

Please review the OTA Admission Point System table to help you prepare. Applicants not selected may re-apply. The following point system evaluates and ranks each applicant, showing the maximum score achievable.

Table 12. A.S. in OTA Admission Point System

Point Category:	Points
College Degree (official transcripts required)	**8**
● Associate's degree	2
● Bachelor's or higher degree	3
➢ Kinesiology major (more than 15 college credits)	5
Attend one-on-one meeting with Admissions Teams	Required
CCAT Assessment Test	**50**

Interview Points	12
Essay Points	4
Total Possible Points	**74**

Associate of Science in Physical Therapist Assistant Program (A.S. in PTA)

The Physical Therapist Assistant Program has a selective application process. There is a deadline for the submission of completed applications. Please inquire with Admissions about the current deadline date.

6. All applicants must attend a one-on-one meeting with the Admissions Team advisor to receive specific information about admission requirements, program and clinical rotation scheduling, and financial aid resources. A packet of registration documents will be given to applicants to complete and return.
7. All applicants must submit official transcripts.
8. Submit — for applicants requesting credit granting for some/all General Education courses — original transcripts from the Registrar at an educational institution. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology with Laboratory must be completed within the last five (5) years. All credit granting is subject to approval from the Registrar. Please allow seven (7) days for review.
9. All applicants must submit the Verification of Observation Hours form documenting 10 hours of in-person observation in a physical therapy facility, inpatient or outpatient. This can include work or volunteer experience. In addition, all applicants must complete an additional 10 hours in the opposite setting as above, either in-person OR through a virtual observation assignment. All documentation must be submitted by the application deadline.
   The Verification of Observation Hours form and instructions are in the Application/Registration packet that you can download from the website.
10. Applicants must submit all required documents by the application deadline. Only complete applications will be considered. Please plan for the time to submit official transcripts and the completion of observation hours.
11. The PTA Admissions Committee will review all applications and approve the 40 top-scoring applicants for an on-campus interview and essay writing. Please see the scoring rubric.

The interview criteria are based upon 'Generic Abilities' identified through a study published by UW-Madison. Interviews will be scheduled for 15 – 20 minutes. Applicants will also have additional time to complete a short Application Essay and Pre-Admission Questionnaire. Applicants will be reminded to complete their online FAFSA application for federal student aid.

12. The 20 top-ranking applicants will be offered seats in the program with up to ten (10) alternates. Selected applicants must accept the seat within 72 hours of receiving the formal acceptance letter.

A.S. in PTA Admission Point System

Please review the PTA Admission Point System table to help you prepare. Applicants not selected may re-apply. The following point system evaluates and ranks each applicant, showing the maximum score achievable.

Table 13. A.S. in PTA Admission Point System

Point Category:	**Points**
High School Diploma/GED **For applications with less than 15 college credits**	
● GPA 3.1-3.29	1
● GPA 3.3-3.75	2
● GPA 3.76-4.0	3
➢ Medical/Sports Med ROP/CTE Pathway	5
College Degree (official transcripts required) **For applications with more than 15 college credits**	
● More than 15 college credits (without a degree)	1
● Associate's degree	2
● Bachelor's or higher degree	3
➢ Kinesiology major (more than 15 college credits)	5
Attend one-on-one meeting with Admissions Teams	Required
Minimum of 10 hours of in-person observation in a physical therapy, inpatient, or outpatient facility (must be documented) ● **Must complete an additional 10 hours** in an opposite setting as above OR virtual observation assignment	Required

Pre-Interview Points Possible	**19**
Interview Points	12
Essay Points	4
Total Possible Points	**35**

Associate of Science in Radiologic Technology Program (A.S. in RT)

Applicants must:

1. Attend or view a live or recorded Information Session.
2. Submit original transcripts from the Registrar at an educational institution for applicants requesting credit granting for some/all General Education courses. Copies are not accepted. All coursework must be completed and given a grade of at least a "C." Anatomy and Physiology I with Laboratory must be completed within the last five (5) years. All credit granting is subject to the approval of the Program Director or Program Coordinator. Please allow seven (7) days for review.
3. Submit a one-page essay in APA format that includes the following:
    a. Statement of why you would like to join the modality.
    b. The essential functions and role of a Technologist in this field.
    c. Preparation to become successful in this program.
    d. APA Title page and sources used to prepare for the essay (Title page and sources can be on a separate page).
4. Applicants who possess a **current** State of California Limited Permit (License) in Chest, Extremities, and Torso Skeletal will receive credit granting for a portion of the RT program.
5. Gurnick Academy of Medical Arts graduates of the XTMAS program who have taken the state exam and are awaiting the results can enroll as provisional students into the A.S. in RT program. If the graduate fails to earn a license in all three categories listed above, the student will be dropped from the A.S. in RT program for failing to meet all the admission requirements.

Associate of Science in RT Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The top-scoring candidates will be brought in for the interview process. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 14. A.S. in RT Admission Point System

Points Category:	Possible Points
I. CCAT	**50**
II. Credit Granted Courses	**130**
• Algebra I or higher	30
• Anatomy	30

• Physiology	30
• Critical Thinking	10
• English Reading and Composition	10
• Sociology	10
• Medical Terminology	10
III. One Page Resume	**10**
IV. Essay One page, APA Format	**10**
The essay will include:	
• Statement of why you would like to join this modality • The essential functions and role of a technologist in this field • Preparation to become successful in this program • APA Title page and sources used to prepare for the essay (Title page and sources can be on a separate page)	
V. Health Care Background	**60**
• One to three (1 – 3) years	20
• More than three (3) years	30
• Radiology Community Involvement	30
Radiology Community Involvement consists of volunteering in an imaging department, attending a conference in Radiology, or a Career Discussion Panel. A signed and dated certificate of attendance will be required for points from Human Resources or a sanctioned event. Every eight hours of documented volunteer time in an imaging department or conference is worth ten (10) points, with a maximum of 30 points.	
VI. Personal Interview	**120**
• Interview Questions • Appearance and Demeanor • Communication Skills • Maturity • Overall Impression • Holistic Evaluation	
Possible Total Points:	**380**

Associate of Science in Vocational Nursing Program (A.S. in VN)

1. All courses must meet the baseline general education criteria for the California State University system (CSUs).
2. Please note: A transcript MUST be provided for the above prerequisites if credit granting and will only be accepted from an accredited institution approved by the U.S. Department of Education.
3. Copies are not accepted. All coursework must be completed with a grade of at least a "C."
4. Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in Vocational or Practical Nursing coursework. Official transcripts are required.
5. Provide proof of graduation from a Board-approved Vocational Nursing Program from an accredited institution or have completed at least 1,530 BVNPT-approved curriculum hours for the VN Program.

Bachelor of Science in Diagnostic Medical Imaging Program (B.S. in DMI)

1. Have completed 2-year or equivalent education and passed an ARRT® registry or equivalent (ARDMS, ARMRIT, etc.) in one of the following: Radiography, Nuclear Medicine, Diagnostic Medical Sonography, Cardiovascular Sonography, MRI, or Radiation Therapy (credit granted for a combination of past core coursework and registry or equivalent = 54-semester credits.)
2. Have completed 16 semester credits of General Education courses that are not a part of the B.S. in DMI Program.
3. Proof of credentialing certification.
4. Submit official transcripts.
5. Complete an application for admission.
6. Have a high school diploma or GED and be at least 18.
7. Have a reliable computer, Internet access, and a working email address.
8. Per the current fee schedule, they must pay all applicable fees before issuing an enrollment contract or making other payment arrangements acceptable to the school.
9. Meet all admission requirements.

Bachelor of Science in Nursing Program (BSN)

BSN Generic Pathway

1. Attend or view a live or recorded Information Session.
2. Applicants must meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
3. Applicants must submit a completed application. It is recommended that interested applicants fill out the application with the admission advisor.
4. Applicants must take an Admission Assessment: The Test of Essential Academic Skills (TEAS VII). It tests math, reading, English and language use, and science. All students are encouraged to log on to atitesting.com for study material and other valuable resources and information. The TEAS VII Test Passing score = 64% or better.
5. Applicants will be asked to pass an interview with the Nursing Program Director, Assistant Program Director, or designee in person or via a virtual conferencing platform, if necessary.
6. Applicants must submit a two to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.
7. Applicants must submit three (3) letters of recommendation to the nursing program. These may come from employers, immediate work supervisors, health-related facilities where the applicant has volunteered, or faculty from previous college/university coursework. These letters of recommendation must be submitted using formal organizational stationery.
8. The applicant will submit proof of health-related &/or community work, e.g., volunteering at health fairs, hospitals, or clinics, working with the homeless, mentoring or tutoring other students, Big Brother or Big Sister. These experiences must be substantiated with a document or letter of verification on formal organizational stationery.
9. Applicants will be rank-ordered based on the following score, which includes:
    - Admission Assessment Test (TEAS)
    - Personal Interview
    - Written Essay
    - Three Letters of Recommendation
    - Community Work
    - Health-Related Experience

LVN to BSN Pathway

1. Applicants must attend an Information Session.
2. Applicants must meet the following admission policies of Gurnick Academy of Medical Arts:

immunization, health screening, background check, and CPR certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").

3. Applicants must submit a completed application. It is recommended that interested applicants fill out the application with the admission advisor.
4. Applicants must complete all prerequisites to the BSN program.
5. Completing the Distance Education Questionnaire for applicants who receive full credit granting of the LVN to BSN or RN to BSN Advanced Placement General Education courses or enrollment and completing an online general education prerequisite course(s) at Gurnick Academy of Medical Arts, as applicable.
6. Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in all college coursework. Official transcripts are required.
7. Applicants must take the Test of Essential Academic Skills (TEAS VII). It tests math, reading, English and language use, and science. All students are encouraged to log on to www.atitesting.com for study material and other valuable resources and information. The TEAS VII Test Passing score = 64% or better.
8. Applicants will be asked to pass an interview with the Nursing Program Director, Assistant Program Director, or designee in person or via a virtual conferencing platform, if necessary.
9. Applicants must submit a two to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.
10. Applicants must submit three (3) letters of recommendation to the nursing program. These may come from employers, immediate work supervisors, health-related facilities where the applicant has volunteered, or faculty from previous college/university coursework. These letters of recommendation must be submitted using formal organizational stationery.
11. Applicants will submit proof of health-related or community work, e.g., volunteering at health fairs, hospitals, or clinics, working with the homeless, mentoring or tutoring other students, Big Brother or Big Sister. These experiences must be substantiated with a document or letter of verification on formal organizational stationery.
12. Applicants must submit a resume.
13. Applicants must submit transcripts showing proof of completing the 33 credits of General Education courses that comprise Semesters I and II of the BSN Generic Pathway.
14. Applicants will be rank-ordered based on the following score, which includes:
    - GPA in prerequisites
    - Admission Assessment Test (TEAS VII)
    - Personal Interview
    - Written Essay
    - Three (3) Letters of Recommendation
    - Community Work
    - Health-Related Experience

For LVN-BSN AP Applicants: Submit proof of one year of full-time LVN/LPN work experience within the last three (3) years. Submits proof of graduation from a Board-approved LVN/LPN program from an accredited institution or has completed an LVN/LPN Refresher/Re-entry program within one year of admission.

Credit Granting for Nursing Education:

Students may request credit granting for previously taken nursing courses. If official transcripts are not submitted at the time of the application, students forfeit the opportunity to apply for credit granting on courses taken previously.

LVNs can transfer 24 Semester Credit Hours of courses taken at the post-secondary level to an institution accredited by an agency recognized by the United States Department of Education or the Council of Higher Education Accreditation.

The content of these 24 transfer credits shall include the following:

- Nursing Theory hours (before the program): 15 semester credit hours for the following equivalent courses at Gurnick Academy of Medical Arts:
  - RN 100 Fundamentals of Nursing (3 semester credit hours)
  - RN 102 Health Assessment Theory (3 semester credit hours)
  - RN 104 Pharmacology (3 semester credit hours)
  - RN 200 Medical-Surgical Nursing I Theory-Intro to Med-Surg (3 semester credit hours)
  - RN 202 Medical-Surgical Nursing II Theory-Intermediate Med-Surg (3 semester credit hours)

- Nursing Lab hours (before the program): 1.5 semester credit hours for:
  - RN 103 Health Assessment Skills Lab (1.5 semester credit hours)

- Nursing Clinical hours (before the program): 7.5 semester credit hours for:
  - RN 101 Fundamentals of Nursing Clinical and Lab (3.5 semester credit hours)
  - RN 201 Medical-Surgical Nursing I Clinical (2 semester credit hours)
  - RN 203 Medical-Surgical Nursing II Clinical (2 semester credit hours)

LVN 30-Unit Option

1. Proof of current California Vocational Nurse license.
2. The Program Director or Assistant Program Director will provide counsel and evaluation.
3. An official transcript must be submitted to the Office of Admissions.
4. Complete Microbiology with lab for four (4) units, with a GPA of 2.5 for each course.
5. Complete any stand-alone Physiology with Lab that includes all body systems or equivalent to Anatomy and Physiology with Labs.
6. Applicants must meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR certification (see Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
7. Applicants must have a cumulative grade point average (GPA) of 2.5 (on a 4-point scale) or higher in all college coursework. Official transcripts are required.
8. Applicants must take the Test of Essentials Academic Skills. It tests math, reading, English and language use, and science. All students are encouraged to log on to www.atitesting.com for study material and other useful resources and information. The TEAS Test Passing score = 64% or better.
9. If necessary, Applicants will be asked to pass an interview with the Nursing Program Director or Associate Program Director in person or via a virtual conferencing platform.
10. Applicants must submit a two to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.

RN to BSN Pathway

1. Graduate from an approved Registered Nursing program.
2. Provide official transcripts that reflect a minimum cumulative GPA of 2.5 in all college coursework.
3. Attend or view a live or recorded Information Session.
4. Pass an interview with the Program Director or Associate Program Director in person or via a virtual conferencing platform, *if necessary.*
5. Submit a two to three-page (2 – 3) typed essay on why they have chosen professional nursing as a career.
6. Submit three (3) letters of recommendation. These may come from employers, immediate work supervisors, health-related facilities where the applicant has done volunteer work, or faculty from

previous college/university courses. These letters of recommendation must be submitted on official letterhead.

7. Provide a resume showing previous healthcare experience.
8. Submit proof of current RN license.
9. Complete all courses or equivalent listed in the Registered Nursing Prerequisite Courses: RN to BSN Pathway table.

Generic BSN for Non-Registered Nurses and Advanced Placement for LVNs are available as residential programs at the Concord Campus, approved by the California Board of Registered Nursing.

BSN Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable.

Table 15. BSN Admission Point System

Criteria	Possible Points
I. Admissions Exam	**40**
• TEAS (90.00 – 100.00) • TEAS (80.0 – 89.99) • TEAS (70.0 – 79.99) • TEAS (64.0 – 69.99) Gurnick Academy of Medical Arts uses the Test of Essential Academic Skills. The minimum composite score is 64% for Bachelor's Degree Nursing Program admission. The program will only accept a maximum of two (2) attempts in one year, with the first passing score of 64%. If students do not attain the minimum 64% on the first attempt, they may retest within one (1) year.	40 30 20 10
II. Post Secondary Education	**20**
• Associate Degree	5
• Baccalaureate Degree	10
• Graduate/Master's Degree	20
III. Academic Achievement: College level Courses & High school AP courses	**30**
A. GPA in Non-Biology Prerequisite Courses: Reading & Composition, Psychology, Public Speaking, Sociology, Critical Thinking, Nutrition	
• GPA 2.50-2.59	2
• GPA 2.60-3.00	5
• GPA 3.01-3.59	10
• GPA 3.6-4.0	15
B. GPA in Math and Sciences: Intermediate Algebra, Anatomy & Physiology, Microbiology	
• GPA 2.50-2.59	2
• GPA 2.60-3.00	5
• GPA 3.01-3.59	10
• GPA 3.6-4.0	15
IV. Application Essay To Nursing Program APA Format	**10**

The essay will include:	
• Statement of purpose for enrolling into the nursing program.	2
• The essential functions and role of a nurse.	2
• Preparation to become successful in the nursing program.	2
• Accountability and integrity in the nursing profession.	2
• Grammar	2
V. Health Care Background	**5**
• One to three (1 – 3) years	3
• More than three (3) years	5
VI. Personal Interview	**20**
• Professionalism	4
• Appearance and Demeanor	4
• Communication Skills	4
• Answering Skills	4
• Overall Impression	4
VII. Evaluation from the Office of Admissions	**5**
• Professionalism	1
• Timeliness	1
• Communication	1
• Compliance with the requirements	1
• Self-Motivation	1

Total Possible Points for Criterion I through Criterion VII: 130 Points

Bachelor of Science in Radiation Therapy Program (B.S. in RT)

Applicants Must:

1. Attend or view a live or recorded Information Session.
2. Meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR Certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
3. Submit a completed application for the program. It is recommended that interested applicants fill out the application with the admission advisor.
4. Take an Admission Assessment test: Criteria Cognitive Aptitude Test (CCAT) with a minimum score of 25 points.
5. Submit original transcripts from the Registrar at a regionally accredited institution for applicants requesting credit granting for some/all General Education courses. Copies are not accepted. All coursework must be completed and given a grade of at least a "C" with a cumulative 2.5 GPA. Anatomy and Physiology with Laboratory must be completed within the last five (5) years. All credit granting is subject to the approval of the Registrar or Program Director. Please allow seven (7) days for review.
6. Complete a minimum of 40 hours of clinical observation in a radiation therapy department of their choosing within one (1) year of application submission. The student is responsible for securing the radiation therapy department where observation is conducted. All applicants must submit proof of observation hours. Observation hours are to be submitted on the program application timesheet.
7. Submit two (2) professional letters of recommendation and two (2) radiation therapy letters of recommendation. Letters will be submitted directly to the admission advisor. These may come from employers, immediate work supervisors, health-related facilities at which the applicant has done observation time, or faculty from previous college/university coursework. These letters of recommendation must be submitted on formal organizational stationery.

8. Submit a two to three (2 – 3) page-written essay on why they have selected the radiation therapy profession.
9. Submit a professional resume.
10. Participate in an interview with the Radiation Therapy Admission Committee.
11. Applicants will be rank ordered based on the following score, which includes:
    - Admission Assessment Test (CCAT)
    - Quality of the grades in prerequisite courses
    - Knowledge of the profession
    - Written essay
    - Ranked interview
    - Two (2) Professional letters of recommendation
    - Two (2) Therapist letters of recommendation

Bachelor of Science in RT Admission Point System

Applicants will be accepted to the program based on rank. The highest-ranking individuals will only be accepted. Students will be accepted based on geographic regions. Students may prefer the geographic area where they are accepted; however, they will be accepted based on rank. Students unwilling to relocate to the geographic region in which they are accepted will not be allowed to join the program. Geographic change requests will not be considered. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 16. B.S. in RT Admission Point System

Criteria	Possible Points
I. Admissions Exam	**50**
● CCAT (minimum score of 25 points)	50
II. Application Essay to Radiation Therapy Program APA Format	**10**
Essay will include:	
● Statement of Purpose for enrolling in the Radiation Therapy program	4
● Preparation to become successful in the Radiation Therapy program	2
● Clarity of thoughts and insights	2
● Writing Skills and Grammar	2
III. Professional Letters of Recommendation (2)	**15**
Scores will be added, and average scores will be taken:	
● General Recommendation	5
● Initiative Score	5
● Communication Score	5
IV. Therapist Letters of Recommendation (2)	**15**
Scores will be added. Average scores will be taken:	
● General Recommendation	5
● Initiative Score	5
● Communication Score	5
V. Personal Interview	**40**
Scores will be added, and average scores will be taken:	
● Communication	5
● Knowledge	5

• Initiative	5
• Motivation	5
• Conflict Management	5
• Attitude for Success	5
• Time Management	5
• Study Habits	5

Bone Densitometry Technician Program (DXA)

1. Submit an essay (no longer than two (2) pages, typed, double-spaced) that describes the following:
    a. Reasons for the applicant's desire to become a Bone Densitometry Technician.
    b. The applicant's attributes that will support the profession and their ability to complete the DXA program.
    c. Describe the support system, such as a person, time management, and resources to support the applicant's efforts and success in the program.
2. In some campuses, the applicant pool may be larger than the number of available seats at the desired campus. In this case, the campus may require an additional step, such as an interview with the Program Director, Assistant Program Director, or designees.

Bone Densitometry Technician (DXA) Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 17. DXA Admission Point System

Points Category:	Possible Points
I. Admissions Exam CCAT	**25**
• 32 or Greater	25
• 27-31	20
• 24-26	15
• 18-23	10
• 0-17	0
II. Post Secondary Education	**20**
• Gurnick Academy of Medical Arts Graduate or Currently Enrolled	10
• Associate Degree/Military Service	15
• Baccalaureate Degree	20
III. Academic Achievement: College level Courses or High school courses (whichever is higher)	**50**
A. Overall High School GPA	
• GPA 3.0	5
• GPA 3.5	10

• GPA 3.9	15
B. Overall College GPA	
• GPA 3.0	20
• GPA 3.5	30
• GPA 3.9	35
IV. One Page Resume (required)	**25**
V. Essay One page, APA Format	**25**
The essay will include: - Statement of why you would like to join this modality. - The essential functions and role of a technician in this field. - Preparation to become successful in this program. - Sources used to prepare for the essay.	
VI. Health Care Background	**20**
• One to three (1 – 3) years	10
• More than three (3) years	20
Possible Total Points:	**165**

Dental Assistant Program (DA)
All applicants must:

1. Be at least 17 to be admitted to the program with a parent's or guardian's consent. Applicants must be at least 18 at the beginning of the Clinical Externship.
2. Submit an essay (no longer than one (1) page, double-spaced, typed, or handwritten) that describes the following:
    a. Reason for the applicant's desire to become a Dental Assistant.
    b. The applicant's attributes that will support their ability to complete the DA program.
    c. The applicant has people, routines, and resources to support the applicant's efforts throughout the program.

Medical Assistant Program (MA)
All applicants must:

1. Be at least 17 to be admitted to the program with parent or guardian consent. Applicants must be at least 18 at the beginning of the Clinical Externship.
2. Submit an essay (no longer than one (1) page, double-spaced, typed, or handwritten) that describes the following:
    a. Reasons for the applicant's desire to become a Medical Assistant.
    b. The applicant's attributes that will support their ability to complete the MA program.
    c. The applicant has available people, routines, and resources to support the applicant's efforts throughout the program.
3. Some Campuses (such as if the applicant pool is larger than the number of available seats at the desired campus location) may require an additional step: an interview with the MA Program Supervisor, Program Coordinator, or designee.

Master of Science in Nursing Program (BSN to MSN Pathway)
Applicants Must:

1. Meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR Certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
2. Submit a completed application for the program. It is recommended that interested applicants fill out the application with the admission advisor.
3. Submit proof of current RN license.
4. Submit official transcripts from an accredited institution showing the obtained BSN degree and the graduation date. Copies are not accepted.
5. Have a cumulative 3.0 GPA (on a 4-point scale) or higher in all college coursework.
6. Submit a 3-page typed Statement of Purpose or Letter of Intent.
7. Submit three (3) letters of recommendation to the nursing program. These may come from employers, immediate work supervisors, health-related facilities where the applicant has volunteered, or faculty from previous college/university coursework. These letters or recommendations must be submitted on formal organizational stationery.
8. Submit proof of health-related or community work, e.g., volunteering at health fairs, hospitals, clinics, working with the homeless, mentoring or tutoring other students, Big Brother or Big Sister. These experiences must be substantiated with a document or letter of verification on formal organizational stationery.
9. Applicants will be asked to pass an interview with the Nursing Program Director or Associate Program Director in person or via Google Meet, if necessary.
10. Applicants will be rank-ordered based on the following score, which includes:
    - GPA in Prerequisite Courses
    - Personal Letters of Recommendation
    - Community Work
    - Health Related Experience

Table 18. BSN to MSN Admission Point System

Criteria	Possible Points
I. Academic Achievement: Undergraduate Level Courses	**20**
A. GPA	
• GPA 3.00-3.59	10
• GPA 3.60-4.00	20
II. Post-Secondary Education	**20**
• Baccalaureate Degree	10
• Graduate/Master's Degree	20
III. Application Essay to Nursing Program APA Format	**10**
The essay will include:	
• Statement of purpose for enrolling into the MSN program	2
• The essential functions and role of a graduate degree nurse	2
• Preparation to become successful in the MSN program	2
• Accountability and integrity in the nursing profession	2
• Grammar	2
IV. Health Care Background	**5**
• One to three (1 – 3) years	3
• More than three (3) years	5
V. Personal Interview	**20**
• Professionalism	4

• Appearance and Demeanor	4
• Communication Skills	4
• Answering Skills	4
• Overall Impression	4
Possible Total Points:	**75**

Vocational Nurse (VN) Program

All applicants must:

1. Be at least 17 to be admitted to the Essential Medical Bioscience prerequisites course with a parent's or guardian's consent. Applicants must be at least 18 at the beginning of the core program.
2. Complete the Essential Medical Bioscience prerequisites course with a passing grade as identified in the syllabus.
    a. The Essential Medical Bioscience course is waived as a prerequisite for those who have completed the following courses within the last five (5) years: Cell Biology, Human Biology Basics, Basic Math, and Medical Terminology. A prerequisite course challenge exam is also available for those who are interested.
    b. Applicants who have successfully credit granted the Essential Medical Bioscience (EMB) course will be given a seat in the CORE VN program and will not be ranked using the VN Admission Point System.
3. Some Campuses (such as if the applicant pool is larger than the available seats at the desired campus location) may require an additional step: an interview with the applicable VN Program Coordinator or designee.

VN Admission Point System

Kindly note that the following table may not apply to some of our campuses. Some campuses may have non-interview enrollment. Please ask an Admission Advisor at the respective campus for more details.

Table 19. VN Admission Point System

Criteria	Possible Points
CCAT	**3**
Score 16-24	1
Score 25-34	2
Score 35-45	3
Resume	**6**
Previous Education	**3**
HS diploma or GED	1
AA/AS degree	2
BA/BS degree and higher	3
Healthcare Field Experience *(per resume)*	**3**
One (1) year	1
Two to four (2 – 4) years	2
More than four (4) years	3
Prerequisite Course Grades – Gurnick Academy of Medical Arts	**20**

(Points do not apply if credit is granted)	
A	20
B	15
C	10
Prerequisite Attendance	**15**
Missed zero (0) classes	15
Missed one (1) class	10
Missed two (2) classes	2

Total Possible Points for Available: <u>50 Points</u>

X-ray Technician with Medical Assistant Skills Program (XTMAS)

1. In some campuses, the applicant pool may be larger than the number of available seats at the desired campus. In this case, the campus may require an additional step, such as an interview with the Program Director, Assistant Program Director, or designees.
2. After submitting transcripts, students who have completed a Medical Assistant diploma program with the equivalent approved medical assistant skills content may apply to receive transfer credit if the appropriate medical assisting coursework was taken and passed within the past five (5) years.
3. Advanced Standing applicants must provide official transcripts from a Medical Assistant program.

X-ray Technician with Medical Assistant Skills (XTMAS) Admission Point System

Applicants are deemed qualified on a point system. The highest-ranked (above a minimum) will be offered seats in the program. The following point system evaluates each applicant, showing the maximum score achievable. If an accepted applicant chooses to decline their seat in the upcoming term, they must reapply for admission in any future term. The applicant must go through the application process again, including meeting all current admission requirements and deadlines.

Table 20. XTMAS Admission Point System

Points Category:	Possible Points

• More than three (3) years	30
VI. Personal Interview	**100**
• Interview Questions • Appearance and Demeanor • Communication Skills • Maturity • Overall Impression • Holistic Evaluation	
Possible Total Points:	**310**

INTERNATIONAL NURSE GRADUATE PROGRAM

To be considered for admission into the nursing courses, ALL applicants must meet the following criteria:

1. Official Transcript and evaluation of courses from an approved credential evaluator.
2. Official Letter from the California Board of Registered Nursing stating the candidate's specific area of deficiency.
3. Applicants must meet the following admission policies of Gurnick Academy of Medical Arts: immunization, health screening, background check, and CPR certification (See Policies of Gurnick Academy of Medical Arts in the School Catalog and "Admissions").
4. Applicants must submit a completed application. It is recommended that interested applicants fill out the application with the admission advisor.
5. Applicants must have graduated from high school or earned a GED and be at least 18.
6. Applicants must pay all applicable fees before issuing an enrollment contract or making other payment arrangements acceptable to the school per the current published fee schedule.
7. Applicants must pass the written Competency Exam for Basic and Intermediate Medical-Surgical Nursing with a minimum score of 75%.
8. Applicants will be asked to pass an interview with the Nursing Program Director or Associate Program Director in person or via a virtual conferencing platform, if necessary.
9. Applicants must submit a two to three-page (2 – 3) written essay on why they have chosen professional nursing as a career.
10. Applicants must submit three (3) letters of recommendation to the nursing program. These may come from employers, immediate work supervisors, health-related facilities where the applicant has volunteered, or faculty from previous college/university coursework. These letters of recommendation must be submitted using formal organizational stationery.
11. Applicants will be rank ordered based on the following score, which includes:
    - Personal Interview
    - Written Essay
    - Three (3) Letters of Recommendation

** If enrollment openings are fewer than applicants that meet the admission requirements, applicants will be asked to pass an interview with the Nursing Program Director or Associate Program Director.

Minimum Requirements for Students Enrolling in Distance Education Courses

Minimum Student Skills Requirements

Students are expected to have at least the following skills before taking distance education courses:

- Basic keyboarding competence
- Elementary knowledge of their computer operating system
- Basic knowledge of

- Word processor
- Sending and receiving emails with attachments
- Using an internet browser and search engine

Hardware Requirements

- Access to modern Windows 11, macOS 14 (Sonoma) or newer. For other operating systems, please contact IT support with your questions.
  - Internet access with a high-speed broadband connection.
  - Internet service provider for home access and access from work (must have before the start of the course).
  - Access the distance education environment for at least ten (10) hours per week.
  - Students must be able to video conference in real time. Appropriate equipment may include
    - Camera (which could be built into the laptop).
    - Microphone (could be built into the laptop).

Software Requirements

- Google Chrome internet browser.
- An office suite tool such as G Suite, Microsoft Office 365, LibreOffice, Apache Open Office, etc.
- One or more courses may require special plugins to access streaming media, PDF files, or other web components.
- Antivirus software like Microsoft Defender.
- A conferencing tool like Google Hangouts or Zoom.

Security Requirements

Update Regularly

Install all software updates promptly, including operating system and application updates.
This helps patch vulnerabilities and protect against known threats.

Strong Passwords

Use a strong password with a mix of uppercase and lowercase letters, numbers, and symbols.
Avoid using easily guessable information like your name, birthday, or pet's name.
Enable two-factor authentication for an extra layer of security where possible.

Virus and Malware Scans

Regularly scan your computer for viruses and malware using a reputable antivirus program.
Update your antivirus program regularly to ensure its effectiveness.

Secure Wi-Fi

When accessing Gurnick Academy resources, only use secure Wi-Fi networks.
Avoid using public Wi-Fi networks, as they are less secure and more exposed to hacking.

Additional Security Tips

Be cautious about clicking on links or opening attachments from unknown senders.
Keep your Gurnick Academy credentials private from others.
Back up your data regularly to ensure you can recover it if your computer is lost or damaged.
If you travel and need to access Gurnick Academy resources on public Wi-Fi, always use a VPN (Virtual Private Network) connection. A VPN encrypts your data and helps protect it from hackers.
Enable automatic session lock when you step away from your computer. This prevents unauthorized access if your computer is left unattended.

PERFORMANCE REQUIREMENTS

Each program has physical and non-physical requirements to ensure our students' and patients' safety and welfare. Almost all our students (check with an Admission Advisor if applicable) must be able to:

- Handle stressful situations related to technical and procedural standards and patient care situations.
- Respond quickly and appropriately to emergencies using the English language.
- Communicate effectively with patients and staff in verbal and written forms in clear English.
- Read and interpret (or learn how to) patient charts and requisitions.
- Tolerate strong, unpleasant odors.
- Provide physical and emotional support to the patients during procedures.
- Report clearly and legibly through progress notes in patient charts.
- Meet class standards for successful course completion.
- Collect, interpret, and integrate data about patients.
- Recognize and respond appropriately to individuals of all ages, genders, and races across socioeconomic, religious, and cultural backgrounds.
- Cope with heavy workloads, demanding patients, and life-threatening clinical conditions.
- Recognize and respond appropriately to potentially hazardous situations.
- Demonstrate the physical and emotional capacity to work a 40-hour week during clinical rotation.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.
- Lift/carry:
    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – image receptors, lead aprons, files
    - 20 pounds (9.07 kilograms) – 50 pounds (22.68 kilograms) occasionally – patient transfers and patient positioning
    - 50 pounds (22.68 kilograms) – 70 pounds (31.75 kilograms) rarely to occasionally – patient transfers
- Stand and walk for up to eight (8) hours per day.
- Carry a minimum of 20 pounds (9.07 kilograms) while walking a distance of 100 feet (30.48 m).
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Reach at least 72 inches (1.83 m) above floor level or arm's reach.
- Utilize the sense of hearing to communicate effectively with the patients and healthcare team.
- Utilize the sense of vision in all hospital lighting levels, varying from low illumination to bright light levels.
- Sit in class for up to six (6) hours per day.
- Palpate anatomical structures and handle injured body parts without causing injury to the patient.
- During exercise, give manual resistance to a patient's arm, leg, or trunk.
- Move with adequate agility and speed to ensure patient safety.
- Walk and balance well enough to help patients walk and transfer with or without equipment while preventing injury to patients and themselves.
- Safely grasp and manipulate small objects and set dials on electrical equipment.
- Use visual, auditory, and tactile senses to observe patients and collect and interpret data.
- Respond to warning sounds, machine alarms, and calls for help.

Please read further to find additional requirements. Please note some requirements may overlap with the above list.

Program-Specific Performance Requirements

Associate of Occupational Science in Cardiac Ultrasound Technology Program (A.O.S. in CUT)

A.O.S. in CUT students must be in good health and able to:

- Lift more than 50 pounds (22.68 kg) and push-and-pull routinely.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Possess adequate visual acuity to review sonograms, including color distinctions.
- Stand and walk on your feet 80% of the time.
- Reach intermittently at or above shoulder level for 90% of the work time.
- Work compassionately and effectively with sick patients.

A.O.S. in CUT students must have sufficient strength, motor coordination, and manual dexterity to:

- Transport, move, lift, and transfer patients from a wheelchair or cart to a sonography table or a patient bed.
- Move, adjust, and manipulate various sonographic equipment, including the physical transportation of mobile sonographic machines, to complete examinations on the patient according to established procedures and standards of speed and accuracy.

A.O.S. in CUT students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Provide physical and emotional support to the patient during the sonographic procedures, respond to situations requiring first aid, and provide emergency care to the patient without, or until, the physician arrives.
- Communicating verbally in an effective manner to direct patients during sonographic examinations.
- Visually recognizing anatomy on CRT screen.
- Reading and interpreting patient charts and requisitions for sonographic examinations.

A.O.S. in CUT students must have the mental and intellectual capacity to:

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on a CRT and archiving system for identifying patient pathology, if present, accurate procedural sequencing, completion of a diagnostic examination, and other appropriate and pertinent technical qualities.

Associate of Occupational Science in Respiratory Therapy Program (A.O.S. in RC)

A.O.S. in RC students must be in good health and able to:

- Lift more than 50 pounds (22.68 kg) and push-and-pull routinely. Patient weight can easily exceed 500 lbs. Students should not attempt moving patients at any weight that exceeds their physical ability and must wait for appropriate help when personal limitations are met.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Possess adequate visual acuity to review diagnostic reports and ventilator graphics, including color distinctions.
- Stand and walk on your feet 80% of the time.
- Reach intermittently at or above shoulder level for 90% of work time.
- Work compassionately and effectively with sick patients.

A.O.S. in RC students must have sufficient strength, motor coordination, and manual dexterity to:

- Transport, lift, and transfer patients from a wheelchair or cart to a patient bed or Gurney.

- Move, adjust, and manipulate various respiratory-related equipment, including the physical transportation of Ventilators, NIVs, Chest Oscillators, High Flow, and other respiratory-related equipment.

A.O.S. in RC students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Provide physical and emotional support to the patient during procedures, respond to situations requiring first aid, and provide lifesaving emergency care to the patient without, or until, the physician arrives.
- Communicating verbally in an effective manner to direct patients during procedures and tests.
- Visually recognizing anatomy on imaging reports.
- Reading and interpreting patient charts and requisitions for examinations.

A.O.S. in RC students must have the mental and intellectual capacity to:

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the patient diagnosis based on laboratory data and offer appropriate suggestions to the medical staff to improve the overall impression of the patient.

Associate of Occupational Science in Radiologic Technology Program (A.O.S. in RT)

A.O.S. in RT students must have the following abilities:

- Lift more than 50 pounds (22.68 kilograms).
- Be able to push and pull routinely.
    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – image receptors, lead aprons.
    - 20 pounds (9.07 kilograms) – 70 pounds (31.75 kilograms) occasionally – patient transfers and positioning.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Must be able to move quickly on the feet.
- Possess adequate visual acuity to review radiographs in varying brightness levels.
- Stand and walk on your feet 80% of the time.
- Reach at or above shoulder level for 90% of work time.
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Work compassionately and effectively with sick patients.

A.O.S. in RT students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, move, lift, and transfer patients from a wheelchair or cart to an x-ray table or a patient bed.
- Move, adjust, and manipulate various mobile and non-mobile nuclear medicine equipment.
- Complete examinations on the patient according to established policies and procedures with speed and accuracy.

A.O.S. in RT students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Providing physical and emotional support to the patient during the radiographic procedures.
- Ability to respond to situations requiring first aid and provide emergency care to the patient without or until the physician arrives.

- Communicating verbally in an effective manner to direct patients during radiographic examinations.
- Visually recognizing anatomy on a computer monitor.
- Reading and interpreting patient charts and requisitions for radiographic examinations.
- Respond to warning sounds, machine alarms, and calls for help.

A.O.S. in RT students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on a computer monitor and archiving system for identifying patient pathology, if present, accurate positioning and technical factors for completion of a diagnostic examination, and other appropriate and pertinent technical qualities.
- Cope with heavy workloads, demanding patients, and life-threatening clinical situations.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.

Associate of Occupational Science in Ultrasound Technology Program (A.O.S. in UT)

A.O.S. in UT students must be in good health and able to:

- Lift more than 50 pounds (22.68 kilograms) and push-and-pull routinely.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Possess adequate visual acuity to review sonograms, including color distinctions.
- Stand and walk on your feet 80% of the time.
- Reach intermittently at or above shoulder level for 90% of work time.
- Work compassionately and effectively with sick patients.

A.O.S. in UT students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, move, lift, and transfer patients from a wheelchair or cart to a sonography table or a patient bed.
- Move, adjust, and manipulate various sonographic equipment, including the physical transportation of mobile sonographic machines, to complete examinations on the patient according to established procedures and standards of speed and accuracy.

A.O.S. in UT students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Provide physical and emotional support to the patient during the sonographic procedures, respond to situations requiring first aid, and provide emergency care to the patient without, or until, the physician arrives.
- Communicating verbally in an effective manner to direct patients during sonographic examinations.
- Visually recognizing anatomy on CRT screen.
- Reading and interpreting patient charts and requisitions for sonographic examinations.

A.O.S. in UT students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on a CRT and archiving system for identifying patient pathology, if present, accurate procedural sequencing, completion of a diagnostic examination, and other appropriate and pertinent technical qualities.

Associate of Occupational Science in Vascular Ultrasound Technology Program (A.O.S. in VUT)

A.O.S. in VUT students must be in good health and able to:

- Lift more than 50 pounds (22.68 kilograms) and push-and-pull routinely.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Possess adequate visual acuity to review sonograms, including color distinctions.
- Stand and walk on your feet 80% of the time.
- Reach intermittently at or above shoulder level for 90% of work time.
- Work compassionately and effectively with sick patients.

A.O.S. in VUT students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, move, lift, and transfer patients from a wheelchair or cart to a sonography table or a patient bed.
- Move, adjust, and manipulate various sonographic equipment, including the physical transportation of mobile sonographic machines, to complete examinations on the patient according to established procedures and standards of speed and accuracy.

A.O.S. in VUT students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Provide physical and emotional support to the patient during the sonographic procedures, respond to situations requiring first aid, and provide emergency care to the patient without, or until, the physician arrives.
- Communicating verbally in an effective manner to direct patients during sonographic examinations.
- Visually recognizing anatomy on CRT screen.
- Reading and interpreting patient charts and requisitions for sonographic examinations.

A.O.S. in VUT students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on a CRT and archiving system for identifying patient pathology, if present, accurate procedural sequencing, completion of a diagnostic examination, and other appropriate and pertinent technical qualities.

Associate of Science in Magnetic Resonance Imaging Program (A.S. in MRI)

A.S. in MRI students must be in good health and able to:

- Lift more than 50 pounds (22.68 kilograms) and push-and-pull routinely.
- Hear sufficiently to assess patient needs without hearing aids and communicate verbally with other healthcare providers.
- Verbalize and have written skills to communicate needs promptly and effectively in English.
- Have full use of arms, hands, and wrists.
- Possess adequate visual acuity to review radiologic exams, including color distinctions.
- Stand and walk on your feet 80% of the time.
- Work compassionately and effectively with ill patients.

A.S. in MRI students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, lift, and transfer patients from a wheelchair or cart to a table or bed.
- Move, adjust, and manipulate various MRI equipment.

A.S. in MRI students must be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Providing physical and emotional support to the patient during the MRI procedures.
- Ability to respond to situations requiring first aid and providing emergency care to the patient without or until the physician arrives.
- Communicating verbally in an effective manner to direct patients during MRI examinations.
- Visually recognizing anatomy on a CRT screen or LCD screen.
- Reading and interpreting patient charts and requisitions for MRI examinations.

A.S. in MRI students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on the monitor and archiving system for assessing the MR image quality, accurate procedural sequencing, completion of a diagnostic examination, and other appropriate and pertinent technical qualities.

Associate of Science in Nuclear Medicine Technology Program (A.S. in NM)

A.S. in NM students must have the following abilities:

- Lift over 50 pounds (22.68 kilograms).
- Be able to push and pull routinely.
    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – lead aprons, files, lead syringes.
    - 20 pounds (9.07 kilograms) – 70 pounds (31.75 kilograms) occasionally – patient transfers and positioning.
- Hear and see sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Must be able to move quickly on the feet.
- Sit in class for up to eight (8) hours per day.
- Stand and walk on your feet 80% of the time.
- Reach at or above shoulder level for 90% of work time.
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Work compassionately and effectively with sick patients.
- Must be able to look at a computer screen for extended periods.

A.S. in NM students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, lift, and transfer patients from a wheelchair or cart to an imaging table or bed.
- Move, adjust, and manipulate various nuclear medicine equipment.
- Complete patient examinations per established policies and procedures with speed and accuracy.

A.S. in NM students must also be capable of:

- Handle stressful situations related to technical and procedural standards and patient care situations.
- Provide physical and emotional support to the patient during the imaging procedures.
- Respond to situations requiring first aid and providing emergency care to the patient without or until the physician arrives.
- Communicate verbally in an effective manner to direct patients during imaging examinations.
- Recognize anatomy on a computer monitor.
- Address warning sounds, machine alarms, and calls for help.

A.S. in NM students must have the mental and intellectual capacity to:

- Calculate and administer radiopharmaceutical doses under the supervision of a licensed nuclear medicine technologist following department protocol and procedures.
- Review and evaluate the recorded images on a computer monitor and archiving system to identify patient anatomy and pathology.
- Cope with heavy workloads, demanding patients, and life-threatening clinical situations.
- Behave ethically, soundly, competently compassionately, and professionally in the classroom and the clinic.

Associate of Science in Nursing Program (ADN)

Each program has physical and non-physical requirements to ensure students' and patients' safety and welfare. Almost all our students (check with an Admission Advisor if applicable) must be able to:

- Handle stressful situations related to technical and procedural standards and patient care situations.
- Respond quickly and appropriately to emergencies using the English language.
- Communicate effectively with patients and staff in verbal and written forms in clear English.
- Read and interpret (or learn how to) patient charts and requisitions.
- Tolerate strong, unpleasant odors.
- Provide physical and emotional support to the patients during procedures.
- Report clearly and legibly through progress notes in patient charts.
- Meet class standards for successful course completion.
- Collect, interpret, and integrate data about patients.
- Recognize and respond appropriately to individuals of all ages, genders, and races across socioeconomic, religious, and cultural backgrounds.
- Cope with heavy workloads, demanding patients, and life-threatening clinical conditions.
- Recognize and respond appropriately to potentially hazardous situations.
- Demonstrate the physical and emotional capacity to work a 40-hour week on the clinical rotation.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.
- Requires intermittent sitting, standing, and walking up to eight (8) hours per day.
- Requires bending, squatting, kneeling, twisting, and reaching.
- Requires frequent lifting and carrying 25 pounds (11.34 kilograms) – 50 pounds (22.68 kilograms).
- Requires pushing or pulling up to 100 pounds (45.36 kilograms).
- Utilize the sense of hearing to communicate effectively with the patients and healthcare team.
- Utilize the sense of vision in all hospital lighting levels, varying from low illumination levels to bright light levels.
- Sit in class for up to six to eight (6 – 8) hours per day.
- Palpate anatomical structures and handle injured body parts without causing injury to the patient.
- During exercise, give manual resistance to a patient's arm, leg, or trunk.
- Move with adequate agility and speed to ensure patient safety.
- Walk and balance well enough to help patients walk and transfer with or without equipment while preventing injury to patients and themselves.
- Safely grasp and manipulate small objects and set dials on electrical equipment.
- Use visual, auditory, and tactile senses to observe patients and collect and interpret data.
- Respond to warning sounds, machine alarms, and calls for help.

Associate of Science in Occupational Therapy Assistant Program (A.S. in OTA)

To be successful in the OTA classroom, lab, and clinical settings and ultimately successful as an occupational therapy assistant, students must possess the intelligence, integrity, compassion, humanitarian concerns, and physical and emotional capacity necessary to practice occupational therapy. At a minimum, students must possess the following essential skills:

Critical Thinking – calculation, problem-solving, reasoning, and judgment

- Collect, document, interpret, and analyze written, verbal, and observed data regarding patients.
- Prioritize multiple tasks, integrate information, and make effective decisions.
- Act safely and ethically in occupational therapy settings.
- Recognize the difference between facts and opinions.
- Exercise good judgment in the classroom, lab, and clinical/professional settings.

Interpersonal and Behavioral Skills – working with others, resolving conflicts, offering support

- Establish productive working relationships.
- Foster cooperative relationships with classmates, instructors, healthcare providers, patients, and their families.
- Ability to work with lab partners, patients, and others under stressful conditions, including but not limited to medically or emotionally unstable individuals and situations requiring rapid adaptations or emergency interventions.
- Appropriate maturity, emotional stability, and empathy to establish effective and harmonious relationships in diverse settings.
- Apply conflict management and group problem-solving strategies.
- Demonstrate professional behavior in the classroom, lab, and clinical settings, including but not limited to appropriate personal hygiene, timeliness, preparation, and concentration.

Communication Skills – verbal, non-verbal, and written

- Process and communicate information effectively and promptly in English.
- Comprehend written material in English at a level required for safe and effective patient care.
- Effectively communicate information in the English language in a concise yet comprehensive manner regarding the status and safety of patients, including written or dictated patient assessments.
- Effectively communicate with instructors, patients, families, and other healthcare providers in English.
- Recognize, interpret, and respond to nonverbal behavior.
- Demonstrate the ability to listen effectively.

Motor Skills – gross motor, fine motor, coordination

- Ability to sit for long periods, including up to four (4) hours.
- Ability to stand for long periods, including up to six (6) hours.
- Adjust and position patients and equipment, including bending or stooping to floor level and reaching above head height.
- Move and position patients and equipment, including lifting, carrying, pulling, and guiding weights up to 50 pounds (22.68 kilograms).
- Assist in patient care, including standing, kneeling, sitting, or walking for 60 minutes or longer without rest.
- Demonstrate ability to manipulate physical therapy equipment, including finger dexterity.
- Perform CPR without assistance.

Sensory Skills – visual, auditory, tactile

- Ability to observe and respond to patient responses, including facial expressions, movement patterns, verbal responses, and reactions to the environment.
- Ability to assess safety factors involving patient care and physical environment and take measures necessary to assure a safe environment.
- Ability to respond to equipment alarms, call bells, and timers.
- Ability to effectively monitor blood pressure and breath sounds.

- Tactile ability to palpate pulse and detect skin texture abnormalities, skin temperature, muscle tone, tissue texture, and joint movement.

Associate of Science in Physical Therapist Assistant Program (A.S. in PTA)
To be successful in the PTA classroom, lab, and clinical settings and ultimately successful as a physical therapist assistant, students must possess the intelligence, integrity, compassion, humanitarian concerns, and physical and emotional capacity necessary to practice physical therapy. At a minimum, students must possess the following essential skills:

Critical Thinking – calculation, problem-solving, reasoning, and judgment

- Collect, document, interpret, and analyze written, verbal, and observed data regarding patients.
- Prioritize multiple tasks, integrate information, and make effective decisions.
- Act safely and ethically in physical therapy settings.
- Recognize the difference between facts and opinions.
- Exercise good judgment in the classroom, lab, and clinical/professional settings.

Interpersonal and Behavioral Skills – working with others, resolving conflicts, offering support

- Establish productive working relationships.
- Foster cooperative relationships with classmates, instructors, healthcare providers, patients, and their families.
- Ability to work with lab partners, patients, and others under stressful conditions, including but not limited to medically or emotionally unstable individuals and situations requiring rapid adaptations or emergency interventions.
- Appropriate maturity, emotional stability, and empathy to establish effective and harmonious relationships in diverse settings.
- Apply conflict management and group problem-solving strategies.
- Demonstrate professional behavior in the classroom, lab, and clinical settings, including but not limited to appropriate personal hygiene, timeliness, preparation, and concentration.

Communication Skills – verbal, non-verbal, and written

- Process and communicate information effectively and promptly in English.
- Comprehend written material in English at a level required for safe and effective patient care.
- Effectively communicate information in the English language in a concise yet comprehensive manner regarding the status and safety of patients, including written or dictated patient assessments.
- Effectively communicate with instructors, patients, families, and other healthcare providers in English.
- Recognize, interpret, and respond to nonverbal behavior.
- Demonstrate the ability to listen effectively.

Motor Skills – gross motor, fine motor, coordination

- Ability to sit for long periods, including up to four (4) hours.
- Ability to stand for long periods, including up to six (6) hours.
- Adjust and position patients and equipment, including bending or stooping to floor level and reaching above head height.
- Move and position patients and equipment, including lifting, carrying, pulling, and guiding weights up to 50 pounds (22.68 kilograms).
- Assist in patient care, including standing, kneeling, sitting, or walking for 60 minutes or longer without rest.
- Demonstrate ability to manipulate physical therapy equipment, including finger dexterity.
- Perform CPR without assistance.

Sensory Skills – visual, auditory, tactile

- Ability to observe and respond to patient responses, including facial expressions, movement patterns, verbal responses, and reactions to the environment.
- Ability to assess safety factors involving patient care and physical environment and take measures necessary to assure a safe environment.
- Ability to respond to equipment alarms, call bells, and timers.
- Ability to effectively monitor blood pressure and breath sounds.
- Tactile ability to palpate pulse and detect skin texture abnormalities, skin temperature, muscle tone, tissue texture, and joint movement.

Associate of Science in Radiologic Technology Program (A.S. in RT)

A.S. in RT students must have the following abilities:

- Lift more than 50 pounds (22.68 kilograms).
- Be able to push and pull routinely.
    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – image receptors, lead aprons.
    - 20 pounds (9.07 kilograms) – occasionally – patient transfers and positioning.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Must be able to move quickly on the feet.
- Possess adequate visual acuity to review radiographs in varying brightness levels.
- Stand and walk on your feet 80% of the time.
- Reach at or above shoulder level for 90% of work time.
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Work compassionately and effectively with sick patients.

A.S. in RT students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, move, lift, and transfer patients from a wheelchair or cart to an x-ray table or a patient bed.
- Move, adjust, and manipulate various radiographic equipment, including portables and C-arm equipment transportation.
- Complete examinations on the patient according to established policies and procedures with speed and accuracy.

A.S. in RT students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Providing physical and emotional support to the patient during the radiographic procedures.
- Ability to respond to situations requiring first aid and provide emergency care to the patient without or until the physician arrives.
- Communicating verbally in an effective manner to direct patients during radiographic examinations.
- Visually recognizing anatomy on a computer monitor.
- Reading and interpreting patient charts and requisitions for radiographic examinations.
- Respond to warning sounds, machine alarms, and calls for help.

A.S. in RT students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.

- Review and evaluate the recorded images on a computer monitor and archiving system for identifying patient pathology, if present, accurate positioning and technical factors for completion of a diagnostic examination, and other appropriate and pertinent technical qualities.
- Cope with heavy workloads, demanding patients, and life-threatening clinical situations.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.

Bachelor of Science in Nursing Program (BSN)

Each program has physical and non-physical requirements to ensure students' and patients' safety and welfare. Almost all our students (check with an Admission Advisor if applicable) must be able to:

- Handle stressful situations related to technical and procedural standards and patient care situations.
- Respond quickly and appropriately to emergencies using the English language.
- Communicate effectively with patients and staff in verbal and written forms in clear English.
- Read and interpret (or learn how to) patient charts and requisitions.
- Tolerate strong, unpleasant odors.
- Provide physical and emotional support to the patients during procedures.
- Report clearly and legibly through progress notes in patient charts.
- Meet class standards for successful course completion.
- Collect, interpret, and integrate data about patients.
- Recognize and respond appropriately to individuals of all ages, genders, and races across socioeconomic, religious, and cultural backgrounds.
- Cope with heavy workloads, demanding patients, and life-threatening clinical conditions.
- Recognize and respond appropriately to potentially hazardous situations.
- Demonstrate the physical and emotional capacity to work a 40-hour week on the clinical rotation.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.
- Requires intermittent sitting, standing, and walking up to eight (8) hours per day.
- Requires bending, squatting, kneeling, twisting, and reaching.
- Requires frequent lifting and carrying 25 pounds (11.34 kilograms) – 50 pounds (22.68 kilograms).
- Requires pushing or pulling up to 100 pounds (45.36 kilograms).
- Utilize the sense of hearing to communicate effectively with the patients and healthcare team.
- Utilize the sense of vision in all hospital lighting levels, varying from low illumination levels to bright light levels.
- Sit in class for up to six to eight (6 – 8) hours per day.
- Palpate anatomical structures and handle injured body parts without causing injury to the patient.
- During exercise, give manual resistance to a patient's arm, leg, or trunk.
- Move with adequate agility and speed to ensure patient safety.
- Walk and balance well enough to help patients walk and transfer with or without equipment while preventing injury to patients and themselves.
- Safely grasp and manipulate small objects and set dials on electrical equipment.
- Use visual, auditory, and tactile senses to observe patients and collect and interpret data.
- Respond to warning sounds, machine alarms, and calls for help.

Bachelor of Science in Radiation Therapy Program (B.S. in RT)

B.S. in RT students must have the following abilities:

- Lift over 50 pounds (22.68 kilograms).
- Be able to push and pull routinely.
    - 1-5 lbs. frequently – lead aprons, files, syringes.
    - 20-70 lbs. occasionally – patient transfers and patient positioning.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.

- Have full use of arms, hands, and wrists.
- Must be able to move quickly on foot.
- Sit in class for up to eight (8) hours per day.
- Stand and walk on your feet 80% of the time.
- Reach at or above shoulder level for 90% of work time.
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Work compassionately and effectively with sick patients.

B.S. in RT students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, lift, and transfer patients from a wheelchair or cart to a simulation, table, or patient bed.

B.S. in RT students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Providing physical and emotional support to the patient.
- Ability to respond to situations requiring first aid and providing emergency care to the patient without or until the physician arrives.
- Communicating verbally in an effective manner to direct patients.
- Visually recognizing anatomy on a computer monitor.
- Respond to warning sounds, machine alarms, and calls for help.

B.S. in RT students must have the mental and intellectual capacity to

- Review and evaluate images on a computer monitor and archiving system to identify patient anatomy and pathology.
- Cope with heavy workloads, demanding patients, and life-threatening clinical situations.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.

Bone Densitometry Technician Program (DXA)

DXA students must have the following abilities:

- Lift more than 50 pounds (22.68 kilograms).
- Be able to push and pull routinely.
    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – image receptors, lead aprons.
    - 20 pounds (9.07 kilograms) – occasionally – patient transfers and positioning.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Must be able to move quickly on the feet.
- Possess adequate visual acuity to review radiographs in varying brightness levels.
- Stand and walk on your feet 80% of the time.
- Reach at or above shoulder level for 90% of work time.
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Work compassionately and effectively with sick patients.

DXA students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, move, lift, and transfer patients from a wheelchair or cart to an x-ray table or a patient bed.
- Move, adjust, and manipulate various mobile and non-mobile nuclear medicine equipment.

- Complete examinations on the patient according to established policies and procedures with speed and accuracy.

DXA students must also be capable of:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Providing physical and emotional support to the patient during the radiographic procedures.
- Ability to respond to situations requiring first aid and provide emergency care to the patient without or until the physician arrives.
- Communicating verbally in an effective manner to direct patients during radiographic examinations.
- Visually recognizing anatomy on a computer monitor.
- Reading and interpreting patient charts and requisitions for radiographic examinations.
- Respond to warning sounds, machine alarms, and calls for help.

DXA students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on a computer monitor and archiving system for identifying patient pathology, if present, accurate positioning and technical factors for completion of a diagnostic examination, and other appropriate and pertinent technical qualities.
- Cope with heavy workloads, demanding patients, and life-threatening clinical situations.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom.

Medical Assistant Program (MA)

Each program has physical and non-physical requirements to ensure students' and patients' safety and welfare. Almost all our students (check with an Admission Advisor if applicable) must be able to:

- Handle stressful situations related to technical and procedural standards and patient care situations.
- Respond quickly and appropriately to emergencies using the English language.
- Communicate effectively with patients and staff in verbal and written forms in clear English.
- Read and interpret (or learn how to) patient charts and requisitions.
- Tolerate strong, unpleasant odors.
- Provide physical and emotional support to the patients during procedures.
- Report clearly and legibly through progress notes in patient charts.
- Meet class standards for successful course completion.
- Collect, interpret, and integrate data about patients.
- Recognize and respond appropriately to individuals of all ages, genders, and races across socioeconomic, religious, and cultural backgrounds.
- Cope with heavy workloads, demanding patients, and life-threatening clinical conditions.
- Recognize and respond appropriately to potentially hazardous situations.
- Demonstrate the physical and emotional capacity to work a 40-hour week on the clinical rotation.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.
- Lift/carry:
    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – image receptors, lead aprons, files.
    - 20 pounds (9.07 kilograms) – 50 pounds (22.68 kilograms) occasionally – patient transfers and positioning.
    - 50 pounds (22.68 kilograms) – 70 pounds (31.75 kilograms) rarely to occasionally – patient transfers.
- Stand and walk for up to 8 hours per day.

- Carry a minimum of 20 pounds (9.07 kilograms) while walking a distance of 100 feet (30.48 m).
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Reach at least 72 inches (1.83 m) above floor level or a full arm's reach.
- Utilize the sense of hearing to communicate effectively with the patients and healthcare team.
- Utilize the sense of vision in all lighting levels, varying from low illumination to bright light levels.
- Sit in class for up to six (6) hours per day.
- Palpate anatomical structures and handle injured body parts without causing injury to the patient.
- During exercise, give manual resistance to a patient's arm, leg, or trunk.
- Move with adequate agility and speed to ensure patient safety.
- Walk and balance well enough to help patients walk and transfer with or without equipment while preventing injury to patients and themselves.
- Safely grasp and manipulate small objects and set dials on electrical equipment.
- Use visual, auditory, and tactile senses to observe patients and collect and interpret data.
- Respond to warning sounds, machine alarms, and calls for help.

Master of Science in Nursing Program (BSN to MSN Pathway)
Each program has physical and non-physical requirements to ensure students' and patients' safety and welfare. Almost all our students (check with an Admission Advisor if applicable) must be able to:

- Handle stressful situations related to technical and procedural standards and patient care situations.
- Respond quickly and appropriately to emergencies using the English language.
- Communicate effectively with patients and staff in verbal and written forms in clear English.
- Read and interpret (or learn how to) patient charts and requisitions.
- Tolerate strong, unpleasant odors.
- Provide physical and emotional support to the patients during procedures.
- Report clearly and legibly through progress notes in patient charts.
- Meet class standards for successful course completion.
- Collect, interpret, and integrate data about patients.
- Recognize and respond appropriately to individuals of all ages, genders, and races across socioeconomic, religious, and cultural backgrounds.
- Cope with heavy workloads, demanding patients, and life-threatening clinical conditions.
- Recognize and respond appropriately to potentially hazardous situations.
- Behave ethically, soundly, competently, compassionately, and professionally in the classroom and the clinic.
- Utilize the sense of hearing to communicate effectively with the patients and healthcare team.
- Utilize the sense of vision in all hospital lighting levels, varying from low illumination levels to bright light levels.
- Devote up to fifteen to twenty (15 – 20) hours per week toward studies.
- Palpate anatomical structures and handle injured body parts without causing injury to the patient.
- Walk and balance well enough to help patients walk and transfer with or without equipment while preventing injury to patients and themselves.
- Use visual, auditory, and tactile senses to observe patients and collect and interpret data.
- Respond to warning sounds, machine alarms, and calls for help.

X-Ray Technician with Medical Assistant Skills Program (XTMAS)
XTMAS students must be healthy and have the following abilities:

- Lift more than 50 pounds (22.68 kilograms).
- Be able to push and pull routinely.

    - One (1) pound (0.45 kilograms) – five (5) pounds (2.27 kilograms) frequently – image receptors, lead aprons.
    - 20 pounds (9.07 kilograms) – 70 pounds (31.75 kilograms) occasionally – patient transfers and positioning.
- Hear sufficiently to assess patient needs and communicate verbally with other healthcare providers.
- Have full use of arms, hands, and wrists.
- Must be able to move quickly on the feet.
- Possess adequate visual acuity to review radiographs in varying brightness levels.
- Stand and walk on your feet 80% of the time.
- Reach at or above shoulder level for 90% of work time.
- Bend or flex the upper trunk forward to 45 degrees and the lower torso into a squatting position.
- Rotate the upper trunk to 30 degrees to the right and left.
- Work compassionately and effectively with sick patients.

XTMAS students must have sufficient strength, motor coordination, and manual dexterity to

- Transport, move, lift, and transfer patients from a wheelchair or cart to an x-ray table or a patient bed.
- Move, adjust, and manipulate various radiographic equipment for physical transportation.
- Complete examinations on the patient according to established policies and procedures with speed and accuracy.

XTMAS students must also be capable of the following:

- Handling stressful situations related to technical and procedural standards and patient care situations.
- Providing physical and emotional support to the patient during the radiographic procedures.
- Ability to respond to situations requiring first aid and provide emergency care to the patient without or until the physician arrives.
- Communicating verbally in an effective manner to direct patients during radiographic examinations.
- Visually recognizing anatomy on a computer monitor.
- Reading and interpreting patient charts and requisitions for radiographic examinations.
- Respond to warning sounds, machine alarms, and calls for help.

XTMAS students must have the mental and intellectual capacity to

- Calculate and select proper technical factors according to the individual needs of the patient and the requirements of the procedure's standards of speed and accuracy.
- Review and evaluate the recorded images on a computer monitor and archiving system for identifying patient pathology, if present, accurate positioning and technical factors for completion of a diagnostic examination, and other appropriate and pertinent technical qualities.
- Cope with heavy workloads, demanding patients, and life-threatening clinical situations.
- Behave ethically, soundly, competently compassionately, and professionally in the classroom and the clinic.

RE-ENROLLMENT

Individuals may not always be eligible to re-enroll at Gurnick Academy of Medical Arts. The situations detailed below outline the circumstances where re-enrollment may or may not be permissible. While a student may be eligible to apply for re-enrollment, acceptance is not guaranteed. Each re-enrollment application is subject to a review process, which considers the student's academic record, disciplinary history, and other relevant factors.

Expulsion

Students can be expelled involuntarily by Gurnick Academy of Medical Arts for two main reasons: academic and

disciplinary.

Academic Expulsion
Except for VN 450, Individuals expelled for academic reasons can be re-enrolled into the same program one (1) time and are not eligible for remediation. Students who failed the VN 450 course do not qualify for remediation or re-enrollment into the same program. A re-enrolled student (previously expelled for academic reasons) is placed on academic probationary status and is not eligible for remediation.

The academic probationary status is lifted once the student graduates from the program. Re-enrolled students with academic probationary status are not eligible for financial aid until they successfully pass the course they are repeating with a grade of 'C' or higher. Once the student passes the course with a letter of 'C' or higher, the student may be eligible to receive Financial Aid.

Students expelled for cheating must complete an additional online ethics course before being eligible for re-enrollment.

Individuals expelled for a second time are not permitted to re-enroll.

Disciplinary Expulsion
Individuals expelled for disciplinary reasons are not permitted to re-enroll in the same program and may not be eligible for enrollment at Gurnick Academy of Medical Arts. Please read Disciplinary Probation for details.

Withdrawal
Students may withdraw voluntarily. Students may voluntarily withdraw up to two (2) times to re-enroll. Individuals who withdraw more than two (2) times voluntarily may not re-enroll.

FOREIGN TRANSCRIPT/DIPLOMA EVALUATIONS

All foreign transcripts and degrees must be evaluated and translated into equivalent college hours by a "Foreign education transcript evaluation organization" to be accepted by Gurnick Academy of Medical Arts.

Some affiliated institutions of your program, such as certification and licensure bodies, may require a specific provider to evaluate your foreign transcript/degree. The student must check with the program's certification/licensure bodies if the latter accepts your chosen foreign transcript/degree evaluator.
Please see below some of our programs' requirements:

- VN Applicants with a Foreign High School Education Level:
  Applicants to the Vocational Nurse Program must submit a copy of their original foreign high school transcript or equivalent upon admission into either program in addition to their foreign transcript evaluation.
- Imaging Applicants:
  ARRT® (Registry for Associate of Science in MRI, Associate of Science in Radiologic, Associate of Occupational Science in Radiologic, and Associate of Occupational Science in Ultrasound Technologists) recognizes services of evaluators such as NACES and AICE. Please check with the ARRT® before going further with the evaluation.
- LVN-BSN and RN-BSN Applicants:
  Applicants who need to meet the course equivalency admission requirement must submit a copy of their original foreign degree and a copy of their original foreign degree transcript (in addition to their foreign transcript/degree evaluation) before admission into the program.

Following is a compilation of possible foreign education transcript evaluation organizations. Gurnick Academy of Medical Arts does not review nor endorse these (or other) providers of foreign education transcription; however, Gurnick Academy of Medical Arts accepts their evaluations.

IMMUNIZATION REQUIREMENTS

Gurnick Academy of Medical Arts requires all students to be immunized appropriately for protection and compliance with state regulations. Documentation of immunizations must be provided to the admissions office before starting the program or clinical rotations as programmatically determined.

Students must comply with the minimum health requirements from each clinical facility when performing clinical rotations, which may include additional immunity or vaccination requirements not explicitly listed within this catalog. The student will pay the cost of the immunizations. Students must show proof of the following immunities and vaccinations (immunization documents or evidence of a blood titer) before the clinical component can be attended:

- Varicella immunity
- MMR immunity
- Up-to-date tetanus shots (defined as within the past ten [10] years)
- Hepatitis B vaccine series (If incomplete, proof of immunization must be shown for the second shot within one [1] month from the first shot and the third shot within six [6] months from the first shot).
- Two-step tuberculin test within the past six (6) months (In case of a positive TB test result, the student must have proof of a negative chest x-ray within two [2] years. Students may be expected to comply with additional TB screening requirements determined by the hospital/clinical setting).
- COVID-19 vaccination (based on a full dose as defined by CDC guidelines)

Failure to keep these immunization requirements current could impact the student's ability to attend the clinical facility, complete the program's graduation requirements, or obtain certification after completion.

Gurnick Academy of Medical Arts reserves the right not to accept titers if they are not done within the last three (3) years.

HEALTH SCREENING REQUIREMENTS

Each applicant must provide an attestation from their family physician certifying the absence of physical, mental, and contagious disorders. Drug screening test results are required before starting clinical rotations and must be completed at a laboratory chosen by Gurnick Academy of Medical Arts. Positive results of a student's drug testing could impact the student's ability to attend the clinical facility, complete the program's graduation requirements, or obtain certification/licensure after completing the program. The student will pay the cost of examinations, screenings, and drug tests; for exceptions and approximate services costs, please check the Addendum, Current Fees, and Tuition section.

BACKGROUND CHECK

Applicants may need a general background check before starting the clinical rotation, as requested by a hospital/clinical setting. For some of our programs, background checks are a mandatory requirement. Please check the Addendum, Current Fees, and Tuition section for service costs. Gurnick Academy of Medical Arts will facilitate background check procedures. The student will provide background check results to the clinical facility upon request of the clinical education site.

Background check results could impact the student's ability to attend the clinical facility, complete the program's graduation requirements, or obtain certification/licensure after completing the program. Applicants should know that the clinical education site can request an additional background check or refuse a student based on the results. Applicants should check State regulations related to criminal convictions and the ability to be licensed.

CPR

Before starting any program or its clinical rotation component, students must submit proof of completion and current certification in CPR for Basic Life Support. Failure to keep this certification current could impact the student's ability to attend the clinical facility, complete the program's graduation requirements, or obtain certification after completion.

CLINICAL FACILITIES

Gurnick Academy of Medical Arts has entered into affiliation agreements with clinical facilities that provide students with experiences in many areas following program requirements. Students are assigned to clinical experiences in hospitals and various outpatient centers in the community. Clinical site availability varies and is closely managed by the Program Coordinators and Outreach Department to provide students with experiences to meet each discipline requirement. The clinical experiences help students gain experience that prepares them for entry-level positions in the medical field. In cases of incidents/accidents occurring on the premises of Clinical Sites, please see our Safety Policy.

For a complete list of Gurnick Academy of Medical Arts' clinical facilities, please contact the program's Admission Advisor or Program Director/Coordinator.

TRAVEL DISCLOSURE

Every attempt is made to place a student as close to home as possible. However, clinical experiences are often limited by the number of students living within a specific geographic region and the number of clinical sites available. Clinical placements may occur anywhere within the selected region, which may extend beyond 100 miles. In addition, students may be required to rotate between clinical sites during their clinical education to ensure all students receive equitable, high-quality clinical education during their training.

All students must be prepared and willing to commit to any travel time required to achieve the program's educational goals. Students may be required to travel more than an hour to clinical sites. Travel to a clinical site varies and can be over 100 miles (160.93 km) one way from campus.

In addition, some of our programs may occasionally conduct labs at our clinical sites. Students/applicants are encouraged to check with their program officials for more details. Rotation requirements will be presented to the students by their respective Clinical Coordinators or Program Directors.

Gurnick Academy of Medical Arts does not provide transportation for students to clinical sites. Students should plan accordingly for additional travel costs. The student must have a reliable means of transportation. The student is responsible for acquiring an alternative form of transportation if the student does not have access to a vehicle for personal use or does not have a valid driver's license. Each student needs to have independent, reliable transportation. Clinical assignments cannot and will not be based on transportation needs.

ADVANCED PLACEMENT & CREDIT GRANTING

There is no charge for the review of transfer credit or experiential learning. Students will receive a written evaluation of credits, either accepted or denied. Credit granting is only available before enrollment. Credit granting will not be evaluated once a student is enrolled. All decisions on transfer credit or experiential learning are final; appeals are not accepted. Students can be granted credit up to 49% of the total hours in certificate and diploma programs and up to 75% of the total hours in degree programs. Credit Granting will be awarded according to program, state, and academy policies.

Transfer credits for General Education courses may be granted regardless of when they are completed. Transfer credit towards a certain program, experiential learning, challenge examinations, and achievement tests may be given for previous related education if the credits were granted within the last five (5) years from an institution accredited by an agency that is recognized by the United States Department of Education (U.S.DOE) or the Council for Higher Education Accreditation (CHEA) and the student received a course grade of 'C' or higher.

For semester-based programs, of the first 60 semester credits awarded to a student in an undergraduate program, no more than 15 semester credits may be awarded for prior experiential learning. Of the second 60 semester units (i.e., credits 61 to 120) awarded to a student in an undergraduate program, no more than 15 semester credits may be awarded for prior experiential learning.

Program Specific Placement & Credit Granting

Associate of Occupational Science in Cardiac Ultrasound Technology Program (A.O.S. in CUT)
Credits earned from courses or programs approved by:

1. Joint Review Committee on Education in Diagnostic Medical Sonography accredited ultrasound courses and programs.
2. Competency-based credit is granted for knowledge and skills acquired through experience. Written

and practical examinations will determine credit.

3. Exceptions may be made for credits granted over five (5) years for General Education courses.

Associate of Occupational Science in Respiratory Therapy Program (A.O.S. in RC)

Credits earned from courses or programs approved by:

1. Commission on Accreditation for Respiratory Care (CoARC).
2. Other courses the institution determines are equivalent to courses within the Associate of Occupational Science in Respiratory Care program curriculum.
3. Competency-based credit is granted for knowledge and skills acquired through experience. Written and practical examinations will determine credit.

The student must submit the following required documents:

- Original transcript
- Course description (can be downloaded from the school's catalog/website)
- Completed Credit Granting Disclosure and Transfer Credit Request Form accurately and within the specified deadline.

Associate of Occupational Science in Radiologic Technology Program (A.O.S. in RT)

Credits earned from courses or programs approved by:

1. California Department of Public Health, Radiologic Health Branch accredited radiologic technology courses and programs.
2. Joint Review Committee on Education in Radiologic Technology accredited radiologic technology courses and programs.
3. Other courses the institution determines are equivalent to courses within the Associate of Science in Radiologic Technology program curriculum.
4. Exceptions may be made for credits granted over five (5) years for General Education courses.
5. Courses specific to radiography will not be credit granted if they are older than three (3) years.

Associate of Occupational Science in Ultrasound Technology Program (A.O.S. in UT)

Credits earned from courses or programs approved by:

1. Joint Review Committee on Education in Diagnostic Medical Sonography accredited ultrasound courses and programs.
2. Competency-based credit is granted for knowledge and skills acquired through experience. Written and practical examinations will determine credit.
3. Exceptions may be made for credits granted over five (5) years for General Education courses.

Associate of Occupational Science in Vascular Ultrasound Technology Program (A.O.S. in VUT)

Credits earned from courses or programs approved by:

4. Joint Review Committee on Education in Diagnostic Medical Sonography accredited ultrasound courses and programs.
5. Competency-based credit is granted for knowledge and skills acquired through experience. Written and practical examinations will determine credit.
6. Exceptions may be made for credits granted over five (5) years for General Education courses.

Associate of Science in Magnetic Resonance Imaging Program (A.S. in MRI)

Credits earned from courses or programs approved by:

1. Joint Review Committee on Education in Radiologic Technology accredited magnetic resonance imaging technology courses and programs.
2. Competency-based credit is granted for knowledge and skills acquired through experience. Written and practical examinations will determine credit.
3. Exceptions may be made for credits granted over five (5) years of General Education courses.

Associate of Science in Nursing Program (ADN)
Credits earned from courses or programs accredited by an agency recognized by the United States Department of Education (U.S.DOE) or the Council for Higher Education Accreditation (CHEA):

1. Licensed Vocational Nursing Courses (22 Semester Credit Hours)
2. Other courses the school determines are equivalent to courses in the program.

Students who fail RN 402 may submit proof of passing the NCLEX-RN exam to obtain credit for RN 402 and graduate from the ADN Program. All other graduation requirements (i.e., zero account balance) must also be met.

In compliance with the California Board of Registered Nursing (BRN), credit for military education and experience is available at Gurnick Academy of Medical Arts. Individuals who have held Military Health Care Occupations, specifically: Basic Medical Technician Corpsman (Navy HM or Air Force BMTCP), Army Health Care Specialist (68W Army Medic), or Air Force Independent Duty Medical Technician (IMDT 4NOX1C) may achieve advanced placement into semester two of the associate degree nursing program upon review and approval from the Associate Degree Nursing Program Director. Submission of documentation of education and experience qualifying them for the specific Military Health Care Occupation, and upon successful completion of the challenge exam, dosage calculation exam, and skills competency evaluation.

- Applicants must meet all admission requirements of the Associate Degree Nursing Program and complete the designated prerequisites and the current Test of Essential Academic Skills (TEAS) with a minimum score of 64% and a minimum GPA of 2.5.
- Applicants must submit proof of honorable discharge from the military and proof of military service within the last five (5) years.
- Acceptance into the Associate Degree Nursing Program is based upon space availability, military education, experience eligibility of the military education and experience, minimum passing score of 75% on the Challenge Exam and 100% on a dosage calculation exam.
- Military Challenge students applying to the Associate Degree Nursing Program after failure at another school will not be eligible for acceptance at the Associate Degree Nursing Program at Gurnick Academy of Medical Arts.

An admission course is required for all students electing to enroll in the LVN Advanced Placement Pathways for the ADN and BSN programs. The RN 180 Nursing Transition Advanced Placement Theory & Lab is the admission course. It is a five (5) unit, 120-hour course that evaluates the student's readiness to be eligible for enrollment into the Advanced Placement pathway. The student must demonstrate the required knowledge and skills to complete this course.

All students must complete the RN 180 course before starting any Professional Courses. Students enrolled in the RN 180 are eligible to challenge the OB and Pediatrics courses. Students must contact the Assistant Director to request the challenge exams. The OB and Pediatrics theory courses are paired with a corresponding clinical course. Failure in one course equals failure in the paired course.

Students must pass the challenge exams before scheduling the competency exams. The minimum passing score for the challenge exam is 90%, and the minimum passing score for the competency exam is 90%. If the above requirements are unmet, the student will complete the required courses as scheduled.

Associate of Science in Occupational Therapy Assistant Program (A.S. in OTA)
Credits earned from courses or programs approved by:

1. Credits earned from courses or programs accredited by ACOTE.
2. Credits earned at institutions with regional or national accreditation.

3. Exceptions may be made for credits granted over five (5) years for General Education courses.

Associate of Science in Physical Therapist Assistant Program (A.S. in PTA)
Credits earned from courses or programs approved by:

4. Credits earned from courses or programs accredited by CAPTE.
5. Credits earned at institutions with regional or national accreditation.
6. Exceptions may be made for credits granted over five (5) years for General Education courses.

Associate of Science in Radiologic Technology Program (A.S. in RT)
Credits earned from courses or programs approved by:

1. California Department of Public Health, Radiologic Health Branch accredited radiologic technology courses and programs.
2. Joint Review Committee on Education in Radiologic Technology accredited radiologic technology courses and programs.
3. Other courses the institution determines are equivalent to courses within the Associate of Science in Radiologic Technology program curriculum.
4. Exceptions may be made for credits granted over five (5) years for General Education courses.
5. Courses specific to radiography will not be credit granted if they are older than three (3) years.

Bachelor of Science in Diagnostic Medical Imaging (B.S. in DMI)
Credits earned from courses or programs accredited by an agency recognized by the United States Department of Education (U.S.DOE) or the Council for Higher Education Accreditation (CHEA).

Bachelor of Science in Nursing Program (BSN)
Credits earned from courses or programs accredited by an agency recognized by the United States Department of Education (U.S.DOE) or the Council for Higher Education Accreditation (CHEA):

1. Registered nursing courses.
2. Armed Services nursing courses.
3. Other courses the school determines are equivalent to courses in the program.
4. Exceptions may be made for credits granted over five (5) years for General Education courses.

Competency-based credit is granted for knowledge and skills acquired through experience. Written and practical examinations will determine credit.

Students who fail RN 505 may submit proof of passing the NCLEX-RN exam to obtain credit for RN 505 and graduate from the BSN Program. All other graduation requirements (i.e., zero account balance) must also be met.

In compliance with the California Board of Registered Nursing (BRN), military education and experience credit is available at Gurnick Academy of Medical Arts. Individuals who have held Military Healthcare Occupations, specifically Basic Medical Technician Corpsman (Navy HM or Air Force BMTCP), Army Healthcare Specialist (68W Army Medic), or Air Force Independent Duty Medical Technician (IMDT 4NOX1C) may achieve advanced placement into the Bachelor of Science in Nursing program upon review and approval from the Program Director. Submit documentation of education and experience that qualifies them for the specific Military Healthcare Occupation upon completing the challenge exam, dosage calculation exam, and skills competency evaluation.

- Applicants must meet all Bachelor's Degree Nursing Program admission requirements and complete designated prerequisites and the current Test of Essential Academic Skills (TEAS) with a minimum score of 64% and a minimum GPA of 2.5.
- Applicants must submit proof of honorable discharge from the military and proof of military service

within the last five (5) years.

- Acceptance into the Bachelor of Science in Nursing Program is based upon space availability, military education, experience eligibility, and a minimum passing score of 75% on the Challenge Exam and 100% on a dosage calculation exam.

An admission course is required for all students electing to enroll in the LVN Advanced Placement Pathways for the ADN and BSN programs. The RN 180 Nursing Transition Advanced Placement Theory & Lab is the admission course. It is a five (5) unit, 120-hour course that evaluates the student's readiness to be eligible for enrollment into the Advanced Placement pathway.

The student must demonstrate the required knowledge and skills to complete this course. All students must complete the RN 180 course before starting any Professional Courses. Students enrolled in the RN 180 are eligible to challenge the OB and Pediatrics courses. Students must contact the Assistant Director to request the challenge exams. The OB and Pediatrics theory courses are paired with a corresponding clinical course. Failure in one course equals failure in the paired course.

Students must pass the challenge exams before scheduling the competency exams. The minimum passing score for the challenge exam is 90%, and the minimum passing score for the competency exam is 90%. If the above requirements are met, the student will complete the required courses as scheduled.

Vocational Nurse (VN) Program

Credits earned from courses or programs accredited by an agency recognized by the United States Department of Education (U.S.DOE) or the Council for Higher Education Accreditation (CHEA):

1. Vocational or practical nursing courses.
2. Registered nursing courses.
3. Psychiatric courses.
4. Armed Services nursing courses.
5. Certified nurse assistant courses.
6. Other courses the school determines are equivalent to courses in the program.
7. Competency-based credit is granted for knowledge and skills acquired through experience. Written and practical examinations will determine credit.

LICENSURE, CERTIFICATION, & REGISTRY DISCLAIMER

Graduates from this institution's programs may seek additional credentials after completing their program of study. While voluntary, additional credentials do enhance employment opportunities and potential income. Certifications are available for all the institution's programs. Certificates and licenses are available and voluntary for all programs offered **except** for the following:

- Associate of Science in Physical Therapist Assistant program
- Associate of Science in Nuclear Medicine Technology program
- Associate of Science in Nursing program
- Associate of Science in Respiratory Therapy program
- Associate of Science in Radiologic Technology program
- Associate of Occupational Science in Radiologic Technology program
- Bachelor of Science in Nursing program
- Bachelor of Science in Radiation Therapy program
- Bone Densitometry Technician program
- Vocational Nurse program
- X-ray Technician with Medical Assistant Skills program

The programs listed above also require licensure for practice in California.

Outside agencies control licensing examinations and their content. Gurnick Academy of Medical Arts cannot guarantee the outcome of licensing examinations. Registration or license requirements for taking and passing the examination are not controlled by the institution but by outside agencies or licensing boards.

Requirements are subject to change by the agency without notice to Gurnick Academy of Medical Arts. Therefore, the institution cannot guarantee that graduates will be eligible to take licensing certification exams at all or any specific time, regardless of their eligibility status upon enrollment.

Often, the eligibility of program graduates is impacted by the specific programmatic accreditation of the institution's programs. Several of the institution's programs possess appropriate programmatic accreditations that meet certifying agency educational requirements. Please refer to the individual program listings in this catalog to determine the programmatic accreditation standing of a specific program.

State Authorization

Gurnick Academy of Medical Arts has not determined if any programs fulfill the educational requirements for specific professional licensure or certification required for employment outside California unless identified by the program below. It is recommended that students who are in or plan to relocate to a state apart from where the physical campus offering the program is located research any certification or employment requirements for their intended state.

Gurnick Academy of Medical Arts can enroll students in distance education in the states below, adhering to each state's requirements:

- Arizona: The academy has identified non-regulation from licensure due to the absence of physical presence from the Arizona State Board for Private Postsecondary Education for the Associate of Science in MRI program.
- Nevada: The academy has obtained approval from the Nevada Commission on Postsecondary Education to offer the Associate of Science in MRI program.
- Florida: The academy has been notified of non-regulation from licensure due to lack of physical presence from the Florida Commission for Independent Education for the Associate of Science in MRI program.

Programs Specific Licensure, Certification & Registry Disclaimer

Associate of Occupational Science in Cardiac Ultrasound Technology Program (A.O.S. in CUT)

The law does not require Ultrasonographers to be registered by The American Registry of Diagnostic Medical Sonographers (ARDMS) or Cardiovascular Credentialing International CCI to work, but such credentials may increase hiring chances.

Graduates who were accepted to the program with an Associate of Science degree in an Allied Health field directed at human patient care or a Bachelor of Science or Bachelor of Arts degree are eligible to sit for the ARDMS examination immediately after completion of the program under ARDMS prerequisite 1 (for Associate of Science degree in an Allied Health field graduates) and ARDMS prerequisite 3A (for Bachelor of Science or Bachelor of Arts degree graduates) or for the CCI examination.

Graduates accepted to the program with an Associate Degree in any field or High School Diploma / GED are eligible to sit for the CCI (RCS) examination immediately after completing the program. Upon obtaining CCI (RCS) certification, graduates may sit for the ARDMS (RDCS) examination under ARDMS prerequisite 5.

For more information about the ARDMS registry and examination, you can visit www.ardms.org or contact them at The American Registry of Diagnostic Medical Sonographers, 51 Monroe Street, Plaza East One, Rockville, MD 20850, Telephone: (301) 738-8401 / Toll-Free: (800) 541-9754, Fax: (301) 738-0312 / 0313.

For more information about CCI certification and examination, visit https://cci-online.org/ or contact them at Cardiovascular Credentialing International, 3739 National Drive, Suite 202, Raleigh, NC, 27612, (919)861-4539.

Associate of Occupational Science in Respiratory Therapy Program (A.O.S. in RC)

The Respiratory Care Board of California (RCB) is a state licensing agency with regulatory jurisdiction over respiratory care practitioners. The RCB's mission is to protect and serve consumers by licensing qualified respiratory care practitioners, enforcing the provisions of the Respiratory Care Practice Act, expanding the availability of respiratory care services, increasing public awareness of the profession, and supporting the development and education of respiratory care practitioners.

According to the RCB, "To obtain licensure as an RCP in California, you must first obtain a Registered Respiratory Therapist (RRT) credential from the National Board for Respiratory Care (NBRC). To obtain an RRT credential, you must successfully pass the Therapist Multiple-Choice Examination (TMC) at the cut-off level required to qualify for the Clinical Simulation Examination (CSE) AND the Clinical Simulation Examination.

Once you have completed your accredited respiratory care education program, you may apply for examination directly through the NBRC. The first examination you must take is the TMC Examination. There are two established cut scores for the TMC Examination. You will earn your CRT credential if you achieve the lower cut score. However, achieving the higher cut score will earn your CRT credential AND become eligible for the CSE.

Once you have passed both the TMC and the CSE, you will earn the RRT credential and satisfy the examination requirement for licensure. If you have a California address, the RCB will obtain your examination results directly from the NBRC."

Graduates of the A.O.S. in RC program may sit for examinations set forth by the National Board for Respiratory Care.

A prior criminal history does not preclude you from obtaining a license from the RCB. Each applicant for licensure must submit their fingerprints to the California Department of Justice and Federal Bureau of Investigation for a criminal history background check. Upon notification of an applicant's criminal history, if any, the RCB will open an investigation to determine whether there is a basis to deny the application for licensure.

Effective July 1, 2020, the RCB's authority to deny an application based on certain criminal convictions was restricted (Business and Professions Code section 480).

Specifically, the RCB cannot deny an application based on a conviction if:

- The conviction has been dismissed under Penal Code Sections 1203.4, 1203.4a, 1203.41, 1203.42, or 1203.425 (or another state's equivalent). You may be asked to provide proof of this.

- The conviction(s) occurred more than seven years from the date of the application, or if the applicant was convicted of a crime and incarcerated, more than seven (7) years from when the applicant was released from incarceration.

The National Board for Respiratory Care provides the testing needed to become registered, significantly improving employment opportunities. "The RRT credential is nationally recognized as the "standard of excellence" for respiratory care professionals. The examinations for the RRT credential objectively and uniformly measure essential knowledge, skills, and abilities required of advanced respiratory therapists.

The NBRC evaluates the competency of respiratory therapists and ensures that graduates of accredited respiratory care education programs have every opportunity to earn the RRT credential. It is in high demand nationwide, and we work diligently to help fill the shortage of qualified respiratory therapists. The CRT and/or RRT credentials are used as the basis for the licensure in all 49 states that regulate the practice of respiratory care."

For more information about the RCP license process, please visit www.rcb.ca.gov/ or write to the Respiratory Care Board of California 3750 Rosin Court, Suite 100 Sacramento, CA 95834 Toll Free: (866) 375-0386 Phone: (916) 999-2190 Fax: (916) 263-7311 Email: rcbinfo@dca.ca.gov.

For more information about RRT/CRT Credential, visit www.nbrc.org/ or contact the National Board for Respiratory Care 10801 Mastin St #300, Overland Park, KS 66210 (913) 895-4900.

Associate of Occupational Science in Radiologic Technology Program (A.O.S. in RT)

In the State of California, all schools of Radiologic Technology must receive approval from the State of California Department of Public Health Radiologic Health Branch before students can begin a course of instruction. The Associate of Science in Radiologic Technology program at Gurnick Academy of Medical Arts has obtained status as an approved school compliant with the radiographer instructional practices defined by California law. This school approval allows program graduates to take the radiographer certification examination offered by the State of California Department of Public Health. Once certified, the radiographer is legally allowed to practice within California.

Eligibility for ARRT® Certification

Per ARRT®'s "Equation for Excellence," candidates for ARRT® certification must meet basic requirements in the three components of the equation:

1. Ethics

   ARRT Pre-Application Review Process

   The American Registry of Radiologic Technology requires an applicant for the certifying exam to disclose any history of criminal and misdemeanor proceedings. The specific language is whether you have been convicted of a crime or misdemeanor, including, but not limited to,

   1. Misdemeanor
   2. Gross Misdemeanor
   3. Felony
   4. All alcohol and drug-related violations
   5. Military Court Martial

   For this section, "Convicted" includes a criminal proceeding where a finding or verdict of guilty is made or returned, but

   1. The adjudication of guilt is either withheld, deferred, or not entered; or
   2. The sentence is suspended or stayed, or
   3. A criminal proceeding where the individual enters a plea of guilty or no contest (nolo contendere) or
   4. There is a pre-trial diversion.

   You are NOT required to report offenses committed as a juvenile and were adjudicated through the juvenile court system.

   An applicant with a concern is advised to obtain a pre-application review of eligibility for certification before entering the program. The information can be obtained from the ARRT® by calling (651) 687-0048 or their website at https://www.arrt.org/.

2. Education
   Eligibility for certification also specifies the satisfaction of educational preparation requirements. For the primary pathway to certification, eligibility requires completing the formal educational program accredited by a mechanism acceptable to ARRT®. Candidates must also demonstrate competency in didactic coursework and an ARRT®-specified list of clinical procedures.

   For a post-primary pathway to certification, candidates must hold registration in a supporting category and document ARRT®-specified clinical experience. Further details may be found in the handbooks available for each post-primary certification discipline.

3. Examination
   Finally, eligibility requires candidates for certification, after having met all other qualifications, to pass an examination developed and administered by the ARRT®. The exams assess the knowledge and cognitive skills underlying the intelligent performance of the tasks typically required of staff radiologic therapeutic technologists practicing within the respective disciplines. Exam content is specified on this website and in the respective handbook for each discipline.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: https://www.cdph.ca.gov/Programs/CEH/DRSEM/Pages/RHB-Contact.aspx.

The law requires that radiologic technologists be licensed to practice as radiographers. Completing the Associate of Science in Radiologic Technology program at Gurnick Academy of Medical Arts may not automatically qualify the graduate to apply for the ARRT® examination. Some employers might require the radiologic technologist to have an ARRT® certification in addition to the State of California certification.

Associate of Occupational Science in Ultrasound Technology Program (A.O.S. in UT)
The law does not require Ultrasonographers to be registered by The American Registry of Diagnostic Medical Sonographers (ARDMS) to work. However, such credentials may increase hiring chances.

Graduates who were accepted to the program with an Associate of Science degree in an Allied Health field directed at human patient care or a Bachelor of Science or Bachelor of Arts degree may sit for the ARDMS examination immediately after completion of the program under ARDMS prerequisite 1 (for Associate of Science degree in an Allied Health field graduates) and ARDMS prerequisite 3A (for Bachelor of Science or Bachelor of Arts degree graduates) or for ARRT (S) examination.

Graduates accepted to the program with an Associate Degree in any field or High School Diploma / GED may sit for the R.T.(S)ARRT® examination immediately after completing the program. Graduates may sit for the ARDMS examination immediately after program completion under ARDMS prerequisite 2.

For more information about the ARDMS registry and examination, you can visit www.ardms.org or contact them at The American Registry of Diagnostic Medical Sonographers, 51 Monroe Street, Plaza East One, Rockville, MD 20850, Telephone: (301) 738-8401 / Toll-Free: (800) 541-9754, Fax: (301) 738-0312 / 0313.

For more information about ARRT® certification and examination, you can visit www.arrt.org or contact them at the American Registry of Radiologic Technologists®, 1255 Northland Drive, St. Paul, MN 55120, (651) 687-0048.

Associate of Occupational Science in Vascular Ultrasound Technology Program (A.O.S. in VUT)
The law does not require Ultrasonographers to be registered by The American Registry of Diagnostic Medical

Sonographers (ARDMS) to work, but such credentials may increase hiring chances.

Graduates who were accepted to the program with an Associate of Science degree in an Allied Health field directed at human patient care or a Bachelor of Science or Bachelor of Arts degree may sit for the ARDMS examination immediately after completion of the program under ARDMS prerequisite 1 (for Associate of Science degree in an Allied Health field graduates) and ARDMS prerequisite 3A (for Bachelor of Science or Bachelor of Arts degree graduates) or for ARRT (VS)®, examination.

Graduates who were accepted to the program with an Associate Degree in any field or High School Diploma/GED are eligible to sit for the ARRT (VS)®, ARDMS (RVT), and CCI (RVS) examinations immediately after completion of the program.

For more information about the ARDMS registry and examination, you can visit www.ardms.org or contact them at The American Registry of Diagnostic Medical Sonographers, 51 Monroe Street, Plaza East One, Rockville, MD 20850, Telephone: (301) 738-8401 / Toll-Free: (800) 541-9754, Fax: (301) 738-0312 / 0313.

For more information about ARRT® certification and examination, you can visit www.arrt.org or contact them at the American Registry of Radiologic Technologists®, 1255 Northland Drive, St. Paul, MN 55120, (651) 687-0048.

For more information about CCI certification and examination, visit www.cci-online.org or contact them at Cardiovascular Credentialing International, 3739 National Drive, Suite 202, Raleigh, NC 27612, (919) 861-4539.

Associate of Science in MRI Program (A.S. in MRI)
Graduates of the Associate of Science in MRI Program may sit for the ARRT® (MR) exam.

Associate of Science in Nuclear Medicine Technology Program (A.S. in NM)
In California, practicing nuclear medicine technologists must have an active Certified Technologist, Nuclear Medicine (CTNM) certificate. The California Department of Public Health, Radiologic Health Branch, offers the certificate. Once certified, the nuclear medicine technologist can legally practice within California.

Both the ARRT® and NMTCB require applicants to disclose any history of criminal or misdemeanor proceedings. Students may choose to contact the ARRT® and/or NMTCB to conduct a pre-application review to determine if they will be eligible to sit for the exam(s) upon graduation.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: https://www.cdph.ca.gov/Programs/CEH/DRSEM/Pages/RHB-Contact.aspx.

Associate of Science in Nursing Program (ADN)
Students must take the National Council Licensure Examination (NCLEX-RN) if they have never been licensed as a registered nurse in another state or have not passed the national licensing examination. If you are licensed in Canada, you must take the NCLEX-RN unless you have passed an acceptable five-part Canadian examination. You must have completed an educational program meeting all California requirements. If you lack any educational requirements, you must complete an approved course in that subject before taking the examination.

The NCLEX-RN is administered by Computerized Adaptive Testing (CAT) and is designed to test knowledge, skills, and abilities essential to safe and effective nursing practice at the entry-level. There is continuous, year-round testing with CAT, allowing eligible candidates to schedule their examination on a date and at the location of their choice. Examination applicants should submit their application to the Board at least six to eight (6 – 8) weeks

before they wish to take the examination to allow time for processing and receipt of all required documents. Note: Application processing times vary depending on workload volumes received.

The Board will evaluate your application, and if found eligible, you will be provided with essential and detailed instructions regarding the registration process with the NCLEX testing service. PLEASE NOTE: All NCLEX examination registrations with the NCLEX testing service will remain effective for 365 days. Candidates not made eligible by our Board within 365 days will forfeit their registration and fee with the NCLEX testing service. The Board encourages candidates to wait until they are made Board-eligible before registering with the NCLEX testing service.

Appropriate fees, including fingerprint and interim permit fees, if applicable.

1. Completed "Application for Licensure by Examination," including U.S. Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN).
2. Completed fingerprints using Live Scan or fingerprint card (Hard Card) processing method.
3. Completed "Request for Accommodation of Disabilities" and accompanying form(s).
4. Transcripts will be sent directly from your school of nursing.
5. If applicable, documents and letters explaining prior convictions or disciplinary action and attesting to your rehabilitation as directed in the "Reporting Prior Convictions or Discipline Against Licenses" section of the application packet.

REPORTING PRIOR CONVICTIONS OR DISCIPLINE AGAINST LICENSES

The Enforcement Division has an Applicant Enforcement Webinar for pre-licensure students and first-time California license applicants with a history of criminal conviction or discipline against another professional license.

As of July 1, 2020, applicants are no longer asked about their prior criminal conviction history. Upon receipt of fingerprint results from the California Department of Justice and the Federal Bureau of Investigation, a criminal history will be discovered. All applicants with a history of criminal convictions will have their applications referred for an additional Enforcement Division review. Convictions within seven (7) years of application will receive a full enforcement review.

If a student reports any prior discipline against a practical nurse, vocational nurse, or other healthcare-related license, the Enforcement Division must review the application before the applicant is considered for licensing.

Note. Taken from the California Board of Registered Nursing website (2019) and retrieved from https://www.rn.ca.gov/applicants/lic-faqs.shtml#discipline.

For more information about RN licensing and examination, you can visit https://rn.ca.gov/applicants/lic-faqs.shtml#examination.

Gurnick Academy of Medical Arts has determined that the A.S. in Nursing curriculum **does not** meet the initial licensure requirement in the following state: **Alaska.**

Associate of Science in Occupational Therapy Assistant Program (A.S. in OTA)

Occupational Therapy Assistants must be licensed in California. Examinations include the National Board of Occupational Therapy Examiners (NBCOT) for OTAs and a California Law Exam (CLE).

The California Board of Occupational Therapy web page is https://www.bot.ca.gov/. Contact information: 1610 Arden Way, Suite 121, Sacramento, CA 95815, Telephone: (916) 263-2294.

Business and Professions Code of California Section 2570.6

2570.6. An applicant applying for a license as an occupational therapist or as an occupational therapy assistant shall file with the board a written application provided by the board, showing to the satisfaction of the board that he or she meets all of the following requirements:

(a) That the applicant is in good standing and has not committed acts or crimes constituting grounds for denial of a license under Section 480.

(b) (1) That the applicant has successfully completed the academic requirements of an educational program for occupational therapists or occupational therapy assistants that is approved by the board and accredited by the American Occupational Therapy Association's Accreditation Council for Occupational Therapy Education (ACOTE) or accredited or approved by the American Occupational Therapy Association's (AOTA) predecessor organization, or approved by AOTA's Career Mobility Program.

(2) The curriculum of an educational program for occupational therapists shall contain the content required by the ACOTE accreditation standards, or as approved by AOTA's predecessor organization, or as approved by AOTA's Career Mobility Program.

(Amended by Stats. 2018, Ch. 490, Sec. 3. (AB 2221) Effective January 1, 2019.)

Gurnick Academy of Medical Arts has determined that the A.S. in Occupational Therapy Assistant Program meets the requirements for initial licensure in all states due to ACOTE accreditation.

Associate of Science in Physical Therapist Assistant Program (A.S. in PTA)
Physical Therapist Assistants must be licensed in California. Examinations include the National Physical Therapy Exam (NPTE) for PTAs and a California Law Exam (CLE).

Physical Therapy Board of California contact information: 2005 Evergreen Street, Suite 1350, Sacramento, CA 95815, Telephone: (916) 561-8200, Fax: (916) 263-2560.

Business and Professions Code of California Section 2635-2639.1
2635. Every applicant for a license under this chapter shall, at the time of application, be a person over 18, not addicted to alcohol or any controlled substance, and have completed the education and training required by Section 2650b (listed below), and not have committed acts or crimes constituting grounds for denial of licensure under Section 480.

(a) Except as otherwise provided in this chapter, no person shall receive a license under this chapter without first successfully passing the following examinations, where success is determined based on the examination passing standard set by the board:

(1) An examination under the board's direction to demonstrate the applicant's knowledge of the laws and regulations related to the practice of physical therapy in California. The examination shall reasonably test the applicant's knowledge of these laws and regulations.

(2) The physical therapy examination for the applicant's licensure category. The examination for licensure as a physical therapist shall test entry-level competence to practice physical therapy. The examination for licensure as a physical therapist assistant shall test entry-level competence to practice as a physical therapist assistant in the technical application of physical therapy services.

(b) An applicant may take the examinations for licensure as a physical therapist or licensure as a physical therapist assistant after the applicant has met the educational requirements for that particular licensure category.

(c) The examinations required by the board for a license under this chapter may be conducted by the board or by a public or private organization specified by the board. The examinations may be conducted under a uniform examination system. For that purpose, the board may make arrangements with organizations furnishing examination materials as may, at its discretion, be desirable.

Article 5: Educational Standards Section 2650b:

(b) The physical therapist assistant education requirements are as follows:
(1) Except as otherwise provided in this chapter, each applicant for a license as a physical therapist assistant shall be a graduate of a physical therapist assistant program of an accredited post-secondary institution or institutions approved by the board and shall have completed both the academic and clinical experience required by the physical therapist assistant program and have been awarded an associate degree.
(2) Unless otherwise specified by the board by regulation, the educational requirements shall include instruction in the subjects prescribed by the CAPTE of the American Physical Therapy Association or Physiotherapy Education Accreditation Canada or another body as may be approved by the board by regulation and shall include a combination of didactic and clinical experiences.
(Amended by Stats. 2015, Ch. 426, Sec. 20. (SB 800) Effective January 1, 2016.)

Gurnick Academy of Medical Arts has determined that the A.S. in Physical Therapist Assistant Program meets the educational requirements for initial licensure in all states due to CAPTE accreditation. Complete licensure requirements vary by state.

Associate of Science in Radiologic Technology Program (A.S. in RT)
In the State of California, all schools of Radiologic Technology must receive approval from the State of California Department of Public Health Radiologic Health Branch before students can begin a course of instruction. The Associate of Science in Radiologic Technology program at Gurnick Academy of Medical Arts has obtained status as an approved school compliant with the radiographer instructional practices defined by California law. This school approval allows program graduates to take the radiographer certification examination offered by the State of California Department of Public Health. Once certified, the radiographer is legally allowed to practice within California.

Eligibility for ARRT® Certification
Per ARRT®'s "Equation for Excellence," candidates for ARRT® certification must meet basic requirements in the three components of the equation:

4. Ethics

   ARRT® Pre-Application Review Process

   The American Registry of Radiologic Technology requires an applicant for the certifying exam to disclose any history of criminal and misdemeanor proceedings. The specific language is whether you have been convicted of a crime or misdemeanor, including, but not limited to

   1. Misdemeanor
   2. Gross Misdemeanor
   3. Felony
   4. All alcohol and drug-related violations
   5. Military Court Martial

   For this section, "Convicted" includes a criminal proceeding where a finding or verdict of guilty is made or returned, but

   1. The adjudication of guilt is either withheld, deferred, or not entered; or
   2. The sentence is suspended or stayed, or
   3. A criminal proceeding where the individual enters a plea of guilty or no contest (nolo contendere) or

4. There is a pre-trial diversion.

You are NOT required to report offenses committed as a juvenile and were adjudicated through the juvenile court system.

An applicant with a concern is advised to obtain a pre-application review of eligibility for certification before entering the program. The information can be obtained from the ARRT® by calling (651) 687-0048 or their website at www.arrt.org.

5. Education
Eligibility for certification also specifies the satisfaction of educational preparation requirements. For the primary pathway to certification, eligibility requires completing the respective discipline's formal educational program accredited by a mechanism acceptable to ARRT®. Candidates must also demonstrate competency in didactic coursework and an ARRT® specified list of clinical procedures.

For a post-primary pathway to certification, candidates must hold registration in a supporting category and document ARRT® specified clinical experience. Further details may be found in the handbooks available for each post-primary certification discipline.

6. Examination
Finally, eligibility requires candidates for certification, after having met all other qualifications, to pass an examination developed and administered by the ARRT®. The exams assess the knowledge and cognitive skills underlying the intelligent performance of the tasks typically required of staff technologists practicing within the respective disciplines. Exam content is specified on this website and in the respective handbook for each discipline.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: https://www.cdph.ca.gov/Programs/CEH/DRSEM/Pages/RHB-Contact.aspx.

The law requires that radiologic technologists be licensed to practice as radiographers. Completing the Associate of Science in Radiologic Technology program at Gurnick Academy of Medical Arts may not automatically qualify the graduate to apply for the ARRT® examination. Some employers might require the radiologic technologist to have an ARRT® certification in addition to the State of California certification.

Bachelor of Science in Radiation Therapy Program (B.S. in RT)
In California, all schools of Radiologic Technology must receive approval from the State of California Department of Public Health Radiologic Health Branch before students can begin a course of instruction. The Bachelor of Science in Radiation Therapy program at Gurnick Academy of Medical Arts has obtained status as an approved school compliant with the Therapeutic Radiologic Technology instructional practices defined by California law.

This school approval allows graduates of the program to apply to sit for the American Registry of Radiologic Technologists® (ARRT®) examination and apply for the California Department of Public Health, Radiologic Health Branch for the Therapeutic Radiologic Technologist licensure.

Eligibility for ARRT® Certification
Per ARRT's® "Equation for Excellence," candidates for ARRT® certification must meet basic requirements in the three components of the equation:

1. Ethics
ARRT® Pre-Application Review Process

The American Registry of Radiologic Technology requires an applicant for the certifying exam to disclose any history of criminal and misdemeanor proceedings. The specific language is whether you have been convicted of a crime or misdemeanor, including, but not limited to.

1. Misdemeanor

The exams assess the knowledge and cognitive skills underlying the intelligent performance of the tasks typically required of staff radiologic therapeutic technologists practicing within the respective disciplines. Exam content is specified on this website and in the respective handbook for each discipline.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: https://www.cdph.ca.gov/Programs/CEH/DRSEM/Pages/RHB-Contact.aspx.

Bachelor of Science in Nursing Program (BSN)
Students must take the National Council Licensure Examination (NCLEX-RN) if they have never been licensed as a registered nurse in another state or have not passed the national licensing examination. If you are licensed in Canada, you must take the NCLEX-RN unless you have passed an acceptable five-part Canadian examination.

You must have completed an educational program meeting all California requirements. If you lack any

educational requirements, you must complete an approved course in that subject before taking the examination.

The NCLEX-RN is administered by Computerized Adaptive Testing (CAT) and is designed to test knowledge, skills, and abilities essential to safe and effective nursing practice at the entry-level. There is continuous, year-round testing with CAT, allowing eligible candidates to schedule their examination on a date and at the location of their choice. Examination applicants should submit their application to the Board at least six to eight weeks before taking the examination to allow time for processing and receipt of all required documents. Note: Application processing times vary depending on workload volumes received.

The Board will evaluate your application, and if you are found eligible, you will be provided with important and detailed instructions regarding the registration process with the NCLEX testing service. PLEASE NOTE: All NCLEX examination registrations with the NCLEX testing service will remain effective for 365 days. Candidates not made eligible by our Board within 365 days will forfeit their registration and fee with the NCLEX testing service. The Board encourages candidates to wait until they are made Board-eligible before registering with the NCLEX testing service.

Appropriate fees, including fingerprint and interim permit fees, if applicable.

1. Completed “Application for Licensure by Examination,” including U.S. Social Security Number (SSN) or Individual Taxpayer Identification Number (ITIN).
2. Completed fingerprints using the Live Scan or fingerprint card (Hard Card) processing method.
3. Completed “Request for Accommodation of Disabilities” and accompanying form(s).
4. Transcripts will be sent directly from your school of nursing.
5. If applicable, submit documents and letters explaining prior convictions or disciplinary action and attesting to your rehabilitation as directed in the “Reporting Prior Convictions or Discipline Against Licenses” section of the application packet.

If applicable, submit documents and letters explaining prior convictions or disciplinary action and attesting to your rehabilitation as directed in the “Reporting Prior Convictions or Discipline Against Licenses” section of the application packet.

Gurnick Academy of Medical Arts has determined that the B.S. in Nursing Program **does not** meet the initial licensure requirement in the following states: **Alaska**.

Bone Densitometry Technician Program (DXA)

In the State of California, all schools of Limited Scope of Practice in Radiography must receive approval from the State of California Department of Public Health Radiologic Health Branch (CDPH-RHB) before students can begin a course of instruction. The Bone Densitometry Technician program at Gurnick Academy of Medical Arts has obtained status as an approved school compliant with the limited practice technician instructional practices defined by California law. This school approval allows graduates of the program to take the limited practice technical certification in Dual Energy X-ray Absorptiometry (DEXA) Permit category examination offered by the State of California Department of Public Health. Once certified, the technician is legally allowed to practice within California.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: http://www.dhs.ca.gov/rhb.

The law requires that bone densitometry technicians be certified to practice as limited practice technicians. Completing the Bone Densitometry Technician program at Gurnick Academy of Medical Arts may not automatically qualify the graduate to apply for the examination with CDPH-RHB proctored by the ARRT®. Some employers might require the radiologic technologist to have an ARRT® certification in addition to the State of

California certification.

Dental Assistant Program (DA)
California does not require a dental assistant to be certified as a dental assistant. However, such a certificate may increase the chances of being hired. The Dental Board of California requires a written examination to become a Registered Dental Assistant (RDA).

Eligibility to apply for the examination includes the following requirements: 15 months of satisfactory work experience (eight (8) months in a DA program and seven (7) months of on-the-job experience). In addition, the application requires the following elements in the program: an 8-hour Infection Control Certificate, a Coronal Polishing Certificate, and a Radiation Safety Certificate.

**Dental Practice Act Certification and Pit and Fissure Certification (completed outside the DA program) are also required for the RDA application.*

Medical Assistant Program (MA)
California does not require that medical assistants be certified, but such a certificate may increase hiring chances. The national CCMA exam is taken during the program upon completing didactic coursework. While students are required to pass the CCMA exam to work as medical assistants, students who pass the exam and meet graduation requirements will be eligible to work as Certified Medical Assistants.

Vocational Nurse Program (VN)
To work as a Vocational Nurse in California, you must pass a licensing examination administered by the National Council Licensure Examination (NCLEX-PN). Completing this program does not automatically enable a graduate to work as a Vocational Nurse. The BVNPT accredits the Gurnick Academy of Medical Arts Vocational Nurse Program and requires disclosing the following information from their website:

Summary of Requirements for Licensure as a Vocational Nurse
Section A

1. Minimum Age – 17 Years.
2. Completing the 12th Grade of schooling or its equivalent (furnish proof).
3. Complete and sign the “Application for Vocational Nurse Licensure.”
4. Complete and sign the Record of Conviction form.
5. Submit the required fingerprints from the Department of Justice (DOJ) and the Federal Bureau of Investigation (FBI). (See “Important Fingerprint Information.”) Note: A License will not be issued until the Board receives the background information from DOJ.
6. Attach the appropriate non-refundable fee made payable to the “BVNPT.”
7. Successful completion of a written examination titled the National Council Licensing Examination for Practical (Vocational) Nursing (NCLEX) or the National League for Nursing Test Pool Practical Nursing Examination (NLN). A passing score on a Registered Nurse examination will not satisfy this requirement.
8. When the requirements of Steps one through seven (1 – 7) have been met, the Board will advise you of the Initial License Fee to be paid. This fee is in addition to the application fee. Processing your license takes four to six (4 – 6) weeks.

Section B

1. Graduate of a California Accredited School of Vocational Nursing.
   Successful completion of a California Accredited Vocational Nursing Program; Contact your program director for application forms and instructions.
2. Graduate of an Out-of-State School of Practical/Vocational Nursing.

The Board of Nursing must have accredited the school of practical/vocational nursing from which you graduated in the State in which it is located.
(Licensure in another state does NOT entitle you to practice as a Licensed Vocational Nurse in California. To practice as a Licensed Vocational Nurse in California, you must be licensed by the California State Board of Vocational Nursing and Psychiatric Technicians.)

3. Equivalent Education and Experience. This method requires you to complete within ten (10) years before the date of application not less than fifty-one (51) months of paid general duty bedside nursing experience in a general acute care facility approved by the Board. At least half of this must have been within five (5) years before the date of application. In addition to this experience, you must also complete a pharmacology course of at least 54 theory hours that covers the following content:
    - Knowledge of commonly used drugs and their action
    - Computation of dosages
    - Preparation of medications
    - Principles of administration

    The 51 months of experience shall include a minimum of each of the following:
    - 48 months of medical/surgical nursing
    - Five (5) weeks of maternity or genitourinary nursing
    - Five (5) weeks of pediatric nursing

    Experience in any of the following areas may be substituted for a maximum of eight (8) months of medical/surgical experience:
    - Communicable Disease Nursing
    - Public Health Nursing
    - Industrial Nursing
    - Office Nursing (M.D.)
    - Psychiatric Nursing
    - Operating Room Nursing
    - Hemodialysis
    - Private Duty Nursing (In a general acute care facility)
    - Emergency Room Nursing
    - Geriatric Nursing
    - Recovery Room Nursing
    - Out-Patient Clinic

    Experience must be verified by the employer, showing specific dates of employment. It shall include certification from the R.N. Director or Supervisor that the applicant has satisfactorily demonstrated the following knowledge and skills:
    a. Basic Bedside Nursing
        - Ambulation Techniques
        - Intake and Output
        - Bed making
        - Neurological Check
        - Catheter Care
        - Personal Hygiene and Comfort Measures
        - Collection of Specimens
        - Positioning & Transfer

- Diabetic Urine Testing
- Range of Motion
- Enema
- Skin Care

b. Aseptic Technique (May be demonstrated in the classroom, lab, and patient care settings)
   - Urinary Catheterization
   - Sterile Dressing Change
   - Sterile Irrigations

   Applicants with formal nursing education may submit official transcripts for evaluation for possible credit instead of paid bedside nursing experience. The transcripts must be submitted to the Board directly from the school and show theory and clinical hours completed.

c. Nursing Service in the Medical Corps of any Branch of the Armed Forces of the United States. This method requires you to
   - Submit proof of having at least twelve (12) months of active duty in the Armed Forces medical corps, rendering bedside patient care. The proof submitted must show the date(s) and wards assigned.
   - Submit proof of completing a basic course of instruction in nursing while in the armed forces.
   - Submit proof that service was honorable (DD-214).
   - Note: A combination of military and nonmilitary experience is unacceptable under this method. Proof of 12th-grade education is not required under this method.

d. 4-Year Expired California Licensed Vocational Nurse.
   Section 2892.1 of the Business and Professions Code specifies that a license not renewed for four (4) years shall expire. An expired license cannot be renewed, reissued, or reinstated. The licensee must submit a new application and retake the licensure examination to receive a new license.

   Applicants under this method must submit evidence of prior licensure with this Board (i.e., copy of an expired license or license number, original issue date, and expiration date.)

Please note that State Boards of Nursing require graduation from accredited nursing schools in many states. Please be aware that if you are deemed eligible for licensure in California using another method of qualifying (i.e., military experience or equivalent education and experience), you may not qualify for licensure by endorsement in other states.

Gurnick Academy of Medical Arts has determined that the Vocational Nurse Program **does not** meet the initial licensure requirement in the following state: **Alaska**.

X-ray Technician with Medical Assistant Skills Program (XTMAS)
In California, all schools of Limited Scope of Practice in Radiography must receive approval from the State of California Department of Public Health Radiologic Health Branch (CDPH-RHB) before students can begin a course of instruction. The XTMAS program at Gurnick Academy of Medical Arts has obtained status as an approved school. It complies with the limited practice technician instructional practices defined by California law. This school approval allows program graduates to take the limited practice technician licensure examination offered by the State of California Department of Public Health. Once certified, the Limited Practice Technician may legally practice within California.

Education Eligibility for a license also specifies the satisfaction of educational preparation requirements. For the primary pathway to certification, eligibility requires completing the respective discipline's formal educational program that the CDPH-RHB accredits. Candidates must also demonstrate competency in didactic coursework specified by the CDPH-RHB list of clinical procedures.

Examination: After meeting all other qualifications, eligibility requires candidates for certification to pass an examination developed and administered by the ARRT®. Exam content is specified on this website and in the respective handbook for each discipline.

California Department of Public Health, Radiologic Health Branch contact information is MS 7610, P.O. Box 997414, Certification Unit, Sacramento, CA 95899-7414, Phone: (916) 327-5106, Fax: (916) 440-7999, Web: https://www.cdph.ca.gov/Programs/CEH/DRSEM/Pages/RHB-Contact.aspx.

It is required by law that Limited Practice Technicians be certified to practice. Completing the XTMAS program at Gurnick Academy of Medical Arts may not automatically qualify the graduate to apply for the State examination.

PASS PROGRAM

The Post Academic Student Success (PASS) Program is a structured licensure review series explicitly designed for Vocational Nurse program graduates to improve the licensure pass rates and increase contact with our graduates. The program is free of charge, and graduates must attend the PASS Program in full to receive financial incentives.

Participants must meet with the Career Services Coordinator to sign up for the PASS Program. Graduates are expected to receive their approval to test letters approximately six (6) weeks after graduating from Gurnick Academy of Medical Arts. Their application has been successfully sent and accepted by the BVNPT.

FINANCIAL POLICIES

ALUMNI GRANTS & SCHOLARSHIP

Students who graduate from one Gurnick program and enroll in additional programs may qualify for an alumni grant, or scholarship as specified by Gurnick Academy of Medical Arts. The grants or scholarships are tied to specific programs, and the amount of grant or scholarship given per program varies. Please speak with an Admissions Advisor for details.

Programs that offer alumni grants are as follows:

- BSDMI: RT Grad ($2,000)
- LVN-ADN: VN Grad ($16,468)
- LVN-BSN Program: VN Grad ($19,000); ASVN Grad ($3,000)
- RN-BSN Program: ADN Grad ($1,800)
- VN Program: MA Grad ($1,500)
- MSN: BSN Grad ($1,800)
- DEXA: Any Program Grad ($516)

Programs that offer scholarships are as follows:

- Any Full Imaging Program to Another Full Imaging Program: Varies per year with a max of $10,000 for a single recipient. The deadline to apply is December 1st for the following year.

FEE AND TUITION INFORMATION

All fees and tuition are subject to change without notice, with an effective date noted in the catalog addendum for enrollments that occur after that. The tuition covers the cost of all classroom instruction.

For programs scheduled to be completed within four (4) months from the start date, all fees and tuition are to be paid before the first day of class or other deadline dates as may be posted occasionally in the admissions office or on our website. Payment arrangements are made at the time of enrollment. Affordable monthly payments are available; please contact an admission advisor to discuss further details.

Private student loans are available for those who qualify. Please check for detailed information on current loans available under Financial Aid.

If a student receives a loan to pay for the educational program, the student will be responsible for repaying the full amount of the loan plus interest, less the amount of any refund.

The schedule of total charges for a period of attendance and an estimated schedule of total charges for the entire educational program are the same.

REFUND

Student's Right to Cancel

1. You are entitled to cancel your instruction program without penalty or obligation.
   a. A full refund of all tuition and fees paid will be made if a student cancels their Enrollment Agreement by notifying the school within three days of enrollment or
   b. Cancels their Enrollment Agreement through attendance at the first class session or the seventh calendar day of the student's start date, whichever is later. The academy will refund the student any money they paid, less any registration fees not to exceed the specified amount, within 45 days after the notice of cancellation is received if cancellation occurs later than three (3) days after enrollment.
2. After the end of the cancellation period, you also have the right to stop school at any time. You also have the right to receive a proportional refund if you have completed 60 percent or less of the scheduled days in the current payment period in your program through the last day of attendance.
3. Cancellation may occur when the student provides a written or oral cancellation notice at the enrolling campus. This can be done by mail, hand delivery, or phone.
4. If sent by mail, the written notice of cancellation is sufficient when deposited in the mail and properly addressed with proper postage.
5. The written notice of cancellation does not need to take any particular form. It is effective if it indicates that the student no longer wishes to be bound by the Enrollment Agreement.

Withdrawal from the Program

You may withdraw from the school at any time after the cancellation period (described above) in writing or orally to a Campus Official and receive a proportional refund if you have completed 60 percent or less of the scheduled days in the current payment period in your program through the last day of attendance.

The refund will be less than a registration, not to exceed the specified amount, and less any deduction for books accessed and equipment and materials not returned in good condition within 45 days of withdrawal for applicable students. If the student has completed more than 60% of the period of attendance for which the

student was charged, the tuition is considered earned, and the student will receive no refund.

The student's withdrawal date shall be deemed the last recorded attendance date to determine a refund under this section. A student is considered withdrawn from a program of instruction (date of determination) when any of the following occurs:

- The student notifies Gurnick Academy of Medical Arts of the student's withdrawal or the withdrawal date, whichever is later.
- Gurnick Academy of Medical Arts terminates the student's enrollment for failure to maintain satisfactory progress, failure to abide by the rules and regulations of the institution, absences exceeding the maximum set forth by the institution, or failure to meet financial obligations to the school.
- The student has not attended classes for 14 calendar days.
- Failure to return from a leave of absence.

For programs beyond the current "payment period," if you withdraw before the next payment period, all charges collected for the next period will be refunded. Tuition paid from the proceeds of a loan, or third party should be refunded to the lender, third party, or the state or federal agency that guaranteed or reinsured the loan. Any amount of the refund over the unpaid balance of the loan shall be first used to repay any student financial aid programs from which the student received benefits proportionately to the amount received. Any remaining amount shall be paid to the student.

If the student has received federal student financial aid funds, the student is entitled to a refund of monies not paid from federal student financial aid program funds.

Continuing Education Courses Refund Policy
Please read this policy on www.gurnick.edu/terms/ as it differs from the above-stated Refund Policy.

GRADUATE SURVEYS AND PLACEMENT DATA (GSPD)

Students are eligible to receive an incentive within 30 days after the student has completed and returned to Gurnick Academy of Medical Arts the Graduate Survey and Placement Data form. The submission of the form occurs before the sixth month of graduation. If the student has found employment, the student can submit the form any time before the sixth month. If the student still needs to be employed within six (6) months of graduating, they may submit the form still explaining their situation to receive the incentive.

STUDENT TUITION RECOVERY FUND

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution who is or was a California resident while enrolled or was enrolled in a residency program if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and are not required to pay the STRF assessment if you are not a California resident or enrolled in a residency program.

You must keep copies of your enrollment agreement, financial aid documents, receipts, or any other information documenting the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market, Suite 225, Sacramento, CA 95834, (916) 574-8900, or (888) 370-7589.

To be eligible for STRF, you must be a California resident or enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at or at a location of the institution within 120 days before the closure of the institution or location of the institution or were enrolled in an educational program within 120 days before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The Bureau has ordered the institution to pay a refund but failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law or has failed to pay or reimburse proceeds received by the institution exceeding tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court based on an institutions or representative's violation of this chapter but have been unable to collect the award from the institution.
7. You sought legal counsel, which resulted in the cancellation of one or more of your student loans. You have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

The application must be received within four (4) years from the action or event that made the student eligible for recovery from STRF to qualify for STRF reimbursement. A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) years unless another act of law has extended the period.

However, no claim can be paid to any student without a social security or taxpayer identification number.

FINANCIAL AID INFORMATION

Gurnick Academy of Medical Arts aims to assist every student in obtaining financial aid that enables them to attend their chosen program of study. Gurnick Academy of Medical Arts participates in various federal and state student financial assistance programs. Financial aid programs are designed to assist students whose financial resources are inadequate to meet the full cost of their education. Each campus has a Financial Aid Advisor to address financial aid questions.

Most financial aid available to students is federal student financial aid administered by the U.S. Department of Education. This includes the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Direct Loans, Federal Parent Loans for Undergraduates (PLUS), Federal PLUS Loans for Graduates (Grad PLUS), and Federal Work-Study (FWS). The Children of Fallen Heroes Scholarship and the Iraq Afghanistan Service Grant are available to qualifying students. Cal Grants are available from California for eligible students in qualifying programs. After federal and state aid, students with unfunded balances can consider payment plans and private educational loans.

The primary responsibility for meeting education costs rests with the individual student and their family. All financial aid is awarded based on need, regardless of sex, age, race, color, religion, creed, sexual orientation, or national origin. Need is defined as the difference between the Cost of Attendance (COA) for one academic year and the amount a student's family is expected to contribute for the same period, referred to as the Expected Family Contribution (EFC). All students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal and state aid; the income and asset information reported on the FAFSA calculates the EFC.

Per the Privacy Act of 1974, as amended (Privacy Act), the Chief Operating Officer for Federal Student Aid (FSA) of the U.S. Department of Education (Department) publishes this notice of a modified system of records entitled the "National Student Loan Data System" (NSLDS) (18-11-06). The information contained in this system is maintained for various purposes relating to aid applicants and recipients. These include determining aid applicants' and recipients' eligibility for Federal student financial assistance under the programs authorized by Title IV of the Higher Education Act of 1965, as amended (HEA); assisting institutions of higher education participating in and administering the Title IV, HEA programs by verifying the eligibility of borrowers for, and tracking, loans; and assisting the Department's oversight and administration of the Title IV, HEA programs, including evaluating their effectiveness.

HOW TO APPLY FOR FINANCIAL AID

1. All students must complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal and state aid; the income and asset information reported on the FAFSA calculates the EFC. The school code for Gurnick Academy of Medical Arts is **041698**.

   The FAFSA can be completed online at www.studentaid.gov/h/apply-for-aid/fafsa.

2. The student needs an FSA ID to sign the FAFSA electronically. To apply for an FSA ID, go to www.studentaid.gov/fsa-id/create-account/launch. Students will also use the FSA ID to complete the MPN for student loans, complete online counseling, and view their student loan data at www.studentaid.gov and NSLDS.

   The parent of a dependent student will also need an FSA ID to sign the FAFSA electronically and throughout the PLUS Loan process.

3. The FAFSA uses income information from the calendar year two years before the award year. The student and the parent should strongly consider using the IRS Data Retrieval Tool (DRT) within the FAFSA to populate the application with income information directly from the IRS.

4. Students will receive their FAFSA results within a few days via email with a URL for their Student Aid Report (SAR) or by US mail. The school will also receive the results electronically, which is called the ISIR.

Students must apply for financial aid every year. The FAFSA must be received by a deadline published annually by the California Student Aid Commission to be eligible for the Cal Grant. This deadline can be viewed on the FAFSA website.

The school uses the ISIR data to prepare the students' Financial Plans. Federal and state aid may not cover the total cost, depending on the student's program. Students can cover the unfunded balance by paying in full, with a payment plan (payment in full required before graduation), or by a private education loan. Talk to your campus financial aid advisor to determine the best option.

GENERAL STUDENT ELIGIBILITY REQUIREMENTS

To be considered for federal financial aid, a student must:

- Have a valid Social Security Number.

- Be a U.S. citizen or eligible permanent resident.
- Possess a high school diploma or the equivalent.
- Enroll in an eligible program as a regular student seeking a degree, diploma, or certificate.
- Do not default on student loans or owe a refund of grant funds.
- Maintain Satisfactory Academic Progress as described in the school catalog.

Most forms of financial aid require a student's need, defined as Cost of Attendance minus the EFC, as calculated from the FAFSA data. Direct Unsubsidized loans, PLUS loans, and private education loans are not need-based, but eligibility is based on the Cost of Attendance, less other aid.

Financial aid from federal programs is not guaranteed from one year to the next. Each student must reapply every year. The award year for most financial aid programs runs from July 1 to June 30 of the following year, but aid is awarded based on the academic year defined for the student's program of study.

Some student applications are selected for a verification process. To receive financial aid, students must provide documents supporting the FAFSA information. Selected students will be notified of their verification status and supporting documents required by the Financial Aid Office. Students must verify and resolve flags or comment codes before financial aid is disbursed.

FEDERAL FINANCIAL AID PROGRAMS

Federal financial aid programs include the Federal Pell Grant, Federal Supplemental Opportunity Grant (FSEOG), Federal Direct Subsidized Loans, Federal Direct Unsubsidized Loans, and PLUS Loans. The Iraq Afghanistan Service Grant and the Children of Fallen Heroes Scholarship are additional federal aid programs.

Federal Pell Grant
This grant is designed to assist students with the greatest need. Federal Pell Grants are only awarded to undergraduates without a bachelor's or professional degree or equivalent. The student's needs, the cost of attendance, and the amount appropriated annually by Congress to fund the program determine eligibility.

Pell Grants are gift aid and are not repaid.

FSEOG
This grant is available to students with exceptional financial need, defined as students with the lowest EFC, and given to Federal Pell Grant recipients. The amount of the grant and the number of students who may receive this grant depend on the availability of funds determined annually by Congress and the U.S. Department of Education.

The funds are awarded proportionally across Gurnick Academy of Medical Arts' campuses and program start dates. The grant amounts vary; the average is $600 for an award year. FSEOG awards are gift aid and are not repaid.

When awarding students, regardless of campus, we first award based on EFC and finalization date. We first award all students who have a 0 EFC and whose files are cleared and ready to finalize their financial aid first. Once all these students have been awarded, we award them with the lowest EFCs whose files are cleared and ready to finalize their financial aid. Students are only eligible for FSEOG in their first academic year.

In dealing with students who re-enroll within six (6) months from the last date of attendance, we will allow them to receive the remaining disbursements if they have already been awarded but have yet to receive all disbursements.

If the student re-enrolls more than six (6) months from the last date of attendance, they will not receive any further disbursements. (If the re-enrolled student has not been awarded initially, we will not award funds for this enrollment).

If a student withdraws from one program and then enrolls in a new program, regardless of whether they enroll within six (6) months or have received an award in the prior program, that student is eligible to be awarded.

Example: a student who withdraws from the MA program and enrolls in the VN program

Federal Work-Study (FWS)
The Federal Work-Study Program provides part-time employment to students who require the earnings to defray the cost of their education. Students may work on or off-campus for a qualified public, private, or community service organization.

Eligibility is based on financial need and the availability of funds. The school will attempt to place students in jobs related to their program of study, and work schedules will be arranged according to class schedules.

Congress and the U.S. Department of Education provide the funding that determines the school's allocation amount and the number of students who may receive these funds.

Direct Subsidized and Unsubsidized Loans
There are two types of Direct Loans: Subsidized and Unsubsidized. Students must have financial need to receive a Subsidized Direct Loan. The federal government pays the interest that accrues during specific Subsidized Loan periods, including while the student is in school or has an approved deferment status.

Financial need is not a requirement for an Unsubsidized Direct Loan. Students must pay the interest that accrues on Unsubsidized Direct Loans while in school or choose to capitalize the interest (add it to the loan principal).

The interest rates for Subsidized and Unsubsidized loans are set annually and can be found by visiting https://studentaid.gov/understand-aid/types/loans/interest-rates. Congress establishes the annual loan limits, which vary by student dependency status, the program of study, and year in school. The net amount of loan funds disbursed to the student is less than the gross loan amount by the origination fee, determined annually and found on the website listed above. The funds for Direct Loans come from the government and are repaid to the government via loan servicers.

Federal student loans must be repaid. Students or parents who default on their student loans will lose their ability to receive federal aid in the future and can have their tax refunds taken and wages garnished.

Direct PLUS Loans
PLUS Loans are loans for parents to help pay for education for their dependent undergraduate children and students in a Graduate (Master's degree) level program.

Financial need is not a requirement for a PLUS Loan. The limit to a PLUS Loan amount is the Cost of Attendance minus other aid. Parents and graduate students must pay the interest accrued on PLUS Loans while the student is in school.

The interest rates for PLUS loans are set annually and can be found here:
https://studentaid.gov/understand-aid/types/loans/interest-rates. The net amount of loan funds disbursed to the parent or graduate student is less than the loan's gross amount, as it is less than the origination fee, determined annually and found on the website above. The funds for all Direct Loans come from the government and are repaid via loan servicer companies.

PLUS Loans are credit-based; parent and graduate student borrowers will have a credit check as part of the application process and cannot have adverse credit. If a parent or graduate student is denied based on adverse credit, they can obtain an endorser for the loan. A dependent student's parents can apply for a PLUS Loan

(biological or adoptive or current if their information would be included on the FAFSA). The PLUS parent borrower does not have to be the custodial parent.

Iraq Afghanistan Service Grant
Students may be eligible to receive the Iraq and Afghanistan Service Grant (IASG) if they:

- Are ineligible for a Federal Pell Grant based on their EFC, but
- Meet the remaining Federal Pell Grant eligibility requirements and
- Their parent or guardian was a member of the U.S. armed forces and died as a result of military service performed in Iraq or Afghanistan after the events of 9/11 and
- The student was under 24 years old or enrolled in college at least part-time at the time of the parent's or guardian's death.

Students eligible for the Iraq Afghanistan Service Grant will have a flag and associated comments on their Student Aid Report.

IASG awards are gift aid and are not repaid.

Children of Fallen Heroes Scholarship
A Pell-eligible student whose parent or guardian died in the line of duty while performing as a public safety officer is eligible for the Children of Fallen Heroes (CFH) award. The CFH award is a maximum Pell Award, and all other need-based aid is awarded using a 0 EFC (maximum eligibility). The student must

- Have a Pell-eligible EFC.
- Be enrolled in an undergraduate program.
- Not have earned a baccalaureate or first professional degree or equivalent, and
- Be less than 24 years of age or enrolled at an institution of higher education at the time of their parent's or guardian's death.

The student remains eligible for the Children of Fallen Heroes (CFH) award in subsequent years if the student is Pell-eligible, has a Pell-eligible EFC, and is otherwise eligible.

PUBLIC SAFETY OFFICER

For purposes of the CFH award, a public safety officer is:

- A fire or police officer is defined as an individual who is serving under state or local law as an officially recognized or designated member of a legally organized public safety agency and provides scene security or directs traffic responding to any fire drill, fire call, or other fire, rescue or police emergency, or at a planned special event; or
- As defined in section 1204 of Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C 3796b).

CFH awards are gift aid and are not repaid.

Professional Judgment
The *FAFSA Simplification Act* (the Act) distinguishes between different categories of professional judgment by amending section 479A of the HEA.

- Special Circumstances refer to the financial situations (loss of a job, etc.) that justify an aid administrator adjusting data elements in the COA or the EFC calculation.
- Unusual Circumstances refer to the conditions that justify an aid administrator adjusting a student's dependency status based on a unique situation (e.g., human trafficking, refugee or asylee status, parental abuse or abandonment, incarceration), more commonly referred to as a dependency override.

Special Circumstances
An aid administrator may use PJ on a case-by-case basis to adjust the student's cost of attendance or the data used to calculate their EFC. This adjustment is valid only at the school making the change. If you exercise PJ for a student selected for verification (by you or the Department), you must complete verification first.

You do not have to verify the information you will remove due to PJ. For example, if a dependent student's parents have separated after completion of the FAFSA form and one parent is no longer in the household size, you may decide to use PJ to remove that parent's income from the FAFSA form.

You do not have to verify that parent's income before removing it. Also, using PJ does not require you to verify a student's application if they have not already been selected for verification by the Department or your school. You must resolve any inconsistent or conflicting information before making any adjustments. The FAA's decision regarding adjustments is final and cannot be appealed to the Department.

The law gives some examples of special circumstances that MAY be considered (HEA Sec. 479A):

- Change in employment status, income, or assets
- Change in housing status (e.g., homelessness)
- Tuition expenses at an elementary or secondary school
- Medical, dental, or nursing home expenses not covered by insurance
- Child or dependent care expenses
- Severe disability of the student or other member of the student's household
- Other changes or adjustments that impact the student's costs or ability to pay for college.

Unusual Circumstances
The *FAFSA Simplification Act* provides a more straightforward directive for FAAs to assist applicants with unusual circumstances in adjusting their dependency status on the FAFSA form to reflect students' situations more accurately (dependency overrides). Like other professional judgments, institutions must inform students of their ability to request an adjustment for unusual circumstances by publicly posting the option on their website.

An FAA may conduct dependency overrides case-by-case for students with unusual circumstances. If the FAA determines that an override is appropriate, they must maintain the determination with any supporting documentation.

Dependency overrides
Under HEA Sec. 480(d)(9), the *FAFSA Simplification Act* incorporated additional unusual circumstances to consider when a student cannot contact a parent or where contact with parents poses a risk to such student

Unusual circumstances do include:

- Human trafficking, as described in the Trafficking Victims Protection Act of 2000 (22 U.S.C. 7101 et seq.);
- Legally granted refugee or asylum status;
- Parental abandonment or estrangement; or
- Student or parental incarceration.

Unusual circumstances do not include:

- Parents refuse to contribute to the student's education.
- Parents will not provide information for the FAFSA or verification.
- Parents do not claim the student as a dependent for income tax purposes.
- The student demonstrates total self-sufficiency.

An aid administrator may override only from dependent to independent (though, as suggested earlier, if an independent student receives substantial support from others, a school may use PJ to adjust the COA or FAFSA data items, such as untaxed income).

CAL GRANT

Gurnick Academy of Medical Arts is a Cal Grant-eligible institution. The California Student Aid Commission offers state-funded grants to students. Students who would like to be considered for this grant must complete a FAFSA by the deadline published annually in the FAFSA and may also need to submit a GPA Verification to the California Student Aid Commission.

For more information about the Cal Grant eligibility requirements, visit https://www.csac.ca.gov/students

General Cal Grant Eligibility Requirements
All Cal Grant applicants must:

- Be California residents.
- Be U.S. citizens or eligible non-citizens.
- Attend an eligible California-qualifying post-secondary institution.
- Be enrolled at least half-time.
- Maintain satisfactory academic progress as defined at the school of attendance.
- Have family income and assets below the established ceilings.
- Not be in default on any student loan.
- Not owe any federal or state grant refund.

Gurnick Academy of Medical Arts is eligible for the following Cal Grants:

Cal Grant A
Cal Grant A provides tuition and fee assistance for low and middle-income students. For Cal Grant A, your coursework must be at least two (2) academic years.

Cal Grant B
Cal Grant B provides low-income students with a living allowance, tuition, and fee assistance. Awards for most first-year students are limited to an allowance for books and living expenses. When renewed or awarded beyond the first year, the award also helps pay tuition and fees. For Cal Grant B, your coursework must be for at least one (1) academic year.

Cal Grant C
Cal Grant C awards assist with tuition and training costs for occupational, technical, and vocational programs. Funding is available for up to two (2) years, depending on the length of the program. To qualify, you must enroll in an occupational, technical, or vocational program that is at least four months long at a vocational/career school. Even though a GPA is not required to apply for a Cal Grant C, you are still encouraged to submit yours because it can only help your chances of receiving an award.

Students who receive Cal Grants and withdraw from school must have a similar calculation to determine the portion of unearned Cal Grant funds. The portion of Cal Grant earned is based on a prorated calculation of hours earned compared to what is scheduled in the period. Further information is available at the Financial Aid Office.

LOAN ENTRANCE AND EXIT COUNSELING

Students who have never received a Federal Direct Subsidized or Unsubsidized Loan must complete Entrance Counseling before disbursing the loan(s). Online entrance counseling is available at www.studentaid.gov. Counseling must be completed in a single session and takes 20 to 30 minutes.

Additional optional Financial Awareness counseling is also available on this website.

PLUS Credit Counseling is required if the U.S. Department of Education has informed the parent applying for the PLUS Loan that they have an adverse credit history and the parent borrower has obtained an endorser or documented to the satisfaction of the U.S. Department of Education that there are extenuating circumstances related to their adverse credit history.

PLUS Credit Counseling can be completed voluntarily at any time. If PLUS Credit Counseling is completed voluntarily and the parent borrower is determined to have an adverse credit history by the U.S. Department of Education within 30 days of PLUS Credit Counseling completion, the PLUS Credit Counseling requirement is considered fulfilled.

Exit Counseling is required for all Federal Direct Subsidized and Unsubsidized Loan borrowers. The online exit counseling is available at www.studentaid.gov. Counseling must be completed in a single session and takes 20 to 30 minutes. Exit counseling should be completed shortly before the student graduates or ceases to be enrolled on at least a half-time basis. Students who withdraw without notice will be emailed exit counseling information and a link to the online exit counseling.

You can have your federal student loans forgiven, canceled, or discharged in certain situations. That means you won't have to repay some or all of your loan(s). The terms "forgiveness," "cancellation," and "discharge" mean essentially the same thing. Public Service Loan Forgiveness is the most common way people apply for their student loans to be forgiven. Please see the following links for more information:

Student Loan Forgiveness | Federal Student Aid
Public Service Loan Forgiveness (PSLF) Help Tool | Federal Student Aid

STUDENT LOAN CODE OF CONDUCT

It is the policy of Gurnick Academy of Medical Arts to administer its student loan program in a manner that provides the maximum benefit to its student borrowers. To avoid even the appearance of impropriety, neither Gurnick Academy of Medical Arts nor any employee of Gurnick Academy of Medical Arts will solicit or accept any benefit from a student lending institution as consideration for any advantage provided to the lending institution concerning its educational loan activities. The following principles and prohibitions apply to the student loan program at Gurnick Academy of Medical Arts:

1. Gurnick Academy of Medical Arts shall not engage in any revenue-sharing arrangement with any student lending institution.

2. No employee of Gurnick Academy of Medical Arts shall accept anything of value from a student lending institution on their behalf.

3. No employee of Gurnick Academy of Medical Arts shall serve as a member or participant of a board of a student lending institution unless the participation is unrelated to educational loans, or the employee has no direct involvement with or benefits from the functions of the financial aid office.

4. No employee, representative, or agent of a student lending institution shall be authorized by Gurnick Academy of Medical Arts to be identified to the public as an employee, representative, or agent of Gurnick Academy of Medical Arts.

5. No employee, representative, or agent of a student lending institution shall provide staffing services to Gurnick Academy of Medical Arts's financial aid office

Gurnick Academy of Medical Arts shall not provide a lender list that:

1. Is used to deny or impede a borrower's choice of lender.

2. Contains the names of fewer than one student lending institution.

3. Includes student lending institutions that have benefited Gurnick Academy of Medical Arts or its student borrowers in exchange for inclusion on the list.

No lender list shall be provided unless it contains the following:

1. A disclosure in plain language of the process by which Gurnick Academy of Medical Arts selects student lending institutions for the lender list, including the method and criteria utilized and the relative importance of each criterion.

2. A clear statement that the borrower has the right and ability to select the educational loan provider of the borrower's choice, is not required to use any of the lenders on the list and will suffer no penalty or unnecessary delay for choosing a lender not on the lender list.

Inclusion on the lender list shall be determined solely by considering the borrower's best interests. Any student lending institution placed on the list shall assure Gurnick Academy of Medical Arts and borrowers that the advertised benefits upon repayment will continue to ensure the borrower's benefit regardless of whether the lending institution's loans are sold.

The list shall not include any student lending institution that, to Gurnick Academy of Medical Arts knowledge after reasonable inquiry, has an agreement to sell its loans to another lending institution unless the agreement is disclosed. Favorable placement on the list shall not be provided to any student lending institution for a particular type of loan in exchange for benefits provided to Gurnick Academy of Medical Arts or its students in connection with a different loan type. The contents of any lender list shall be reviewed and updated at least annually.

Gurnick Academy of Medical Arts shall inform student and prospective borrowers of all financing options available under Title IV of the Higher Education Act of 1965, including information on the terms and conditions of available loans under Title IV or State law that are more favorable to the borrower.

Gurnick Academy of Medical Arts shall not direct, in any manner, potential borrowers to electronic promissory notes or other loan agreements that do not provide a reasonable and convenient alternative for the borrower to complete such documents with any federally approved student lending institution offering the relevant loan in this State.

If you qualify for the Federal Direct Stafford Loans (Sub & Unsub), please be aware that the federal government charges a loan fee. The Federal Direct Stafford Loans are required by law to provide a range of flexible repayment options, including, but not limited to, income-based repayment (IBR) and income-contingent repayment (ICR) plans, and loan forgiveness benefits, which other student loans are not required to provide. Federal Direct Stafford Loans are available to students regardless of income.

Private student loans are not federal student loans. Private loans are credit-based and may have a variable or fixed interest rate. Depending on market conditions, private student loans can offer variable interest rates that can increase or decrease over time.

Private student loans have a range of interest rates and fees; students should determine the interest rate, and any fees associated with the private student loan before accepting the private loan. The student should contact the private student loan lender if they have any questions about the private student loan. The private student loan interest rate may depend on the borrower's credit rating. The student may choose any lender.

SALLIE MAE LOANS

Sallie Mae is the only private education lender from whom Gurnick Academy of Medical Arts students have borrowed in the last three (3) years. Students and families can also check with their local banks or credit unions about the availability of private education loans or other funding options.

The Sallie Mae Smart Option Loan offers

1. **Choose between a competitive variable or a fixed interest rate.**
2. **No origination fees and no prepayment penalty.**
3. **Apply with a creditworthy cosigner.** A cosigner may help lower your interest rate — and give you a better chance of approval.
4. **Lower your rate.** Receive a 0.25% interest rate reduction while enrolled to make scheduled payments by automatic debit.
5. **Free Quarterly FICO® Credit Score.** Borrowers with an eligible loan may receive their FICO ® Score quarterly. You'll also receive access to the key factor(s) affecting your FICO ® Score and educational content to help you understand why monitoring it is essential.

For complete information on Sallie Mae Student Loans, go to https://salliemae.com/student-loans.

COLLEGE AVE

College Ave is our newest lending partner. College Ave is a private student loan company known for its simple application, helpful tools, and customer service.

The College Ave Career Loan offers

1. 16 possible repayment combinations, including a fixed or variable interest rate, repayment time, and repayment options ranging from full deferral to immediate repayment.
2. No origination fees and no prepayment penalty.
3. Apply with a creditworthy cosigner. A cosigner may help lower your interest rate and give you a better chance of approval.
4. Lower your rate. Receive a 0.25% interest rate reduction while enrolled to make scheduled payments by automatic debit.
5. Success Rewards. $150 credit towards the principal balance upon graduation from your program of study.
6. Payee Rewards. Cash-back rewards program towards payment of your loan.

The College Ave Parent/Sponsor Loan offers

1. Eligible Borrower. The borrower can be a parent or any creditworthy individual who would like to borrow on behalf of the student.
2. Choose between a competitive variable or a fixed interest rate.
3. No origination fees and no prepayment penalty.
4. Lower your rate. Receive a 0.25% interest rate reduction when you enroll to make scheduled payments by automatic debit.
5. Payce Rewards. Cashback rewards program towards payment of your loan.

Learn more about College Ave Student Loans at www.collegeavestudentloans.com.

VETERANS BENEFITS & VETERANS ADMINISTRATION APPLICANTS ADDITIONAL INFORMATION

Applications for Veterans' benefits may be obtained by contacting the Veterans Administration. Approval of training benefits to be awarded is the responsibility of the Veterans Administration. Additional requirements are placed upon the institution and the applicant to achieve and maintain VA eligibility and utilize their VA benefits.

Applicants eligible for VA benefits to Gurnick Academy of Medical Arts must comply with the items included in this section and all Gurnick Academy of Medical Arts institutional policies. Students may check their GI Bill® eligibility at http://gibill.va.gov.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by the VA is available at the official U.S. government website at http://www.benefits.va.gov/gibill.

VA Review of Prior Training for Transfer Credit
Before acceptance, any VA-eligible applicant must provide Gurnick Academy of Medical Arts an academic transcript or any other official documentation of all previous training.

Gurnick Academy of Medical Arts will review each submitted transcript or official documentation to determine if any prior training may be utilized as transfer credit into a program. Gurnick Academy of Medical Arts will document the review in writing, and a copy of the determination will be given to the applicant.

The transcripts or other official documentation, the written Gurnick Academy of Medical Arts review, and determination will become a part of the student's official Gurnick Academy of Medical Arts academic record and subject to all policies and regulations concerning academic records.

VA Transfer Credit
If transfer credit is granted to a VA-eligible applicant, the portion of the replaced program is not eligible for certification for VA benefits. The applicable part of the program substituted is not billable to the student, VA, or any other agency.

VA--Specific Academic Requirements of Eligibility
VA-eligible students must maintain Satisfactory Progress in their program to maintain benefits eligibility. Students not receiving a minimum grade of C in any course will be referred for remediation a maximum of three (3) times. VA Benefits will be terminated if the student is expelled from the program. Please read our Academic Probation/Remediation policy in the Gurnick Academy of Medical Arts catalog for more information.

Additional Responsibilities for VA Eligible Applicants
Gurnick Academy of Medical Arts does not determine any eligibility for VA benefits. The eligible applicant must complete all VA applications and requirements with the VA and receive VA approval before Gurnick Academy of Medical Arts accepts any expected VA funds as part of a tuition payment plan.

Receipt of VA Additional Notices
The VA requires that all VA-eligible applicants receive a copy of the Gurnick Academy of Medical Arts Catalog, including the Addendum and Gurnick Academy of Medical Arts documents such as disclosures.

Maximum Timeframe
VA benefits are paid for 100% of the published program length and not up to 150% of the maximum time frame.

AID DISBURSEMENT & SATISFACTORY ACADEMIC PROGRESS (SAP)

All federal aid is paid in two disbursements over an award year. The first financial aid disbursement usually occurs within the first 30 (thirty) days of the program's start date. Each disbursement after the first is contingent upon students meeting the Satisfactory Academic Progress (SAP) requirements. In addition, students must complete both the clock or credit hours and the weeks in the payment period to receive the subsequent disbursement in non-term programs.

For term programs, SAP is monitored at the end of each term. In non-term programs, SAP measurements are completed at the end of each payment period when the student's clock or credit hours have elapsed, regardless of whether the student attended them. The Gurnick Academy of Medical Arts SAP policy is available at www.gurnick.edu/financial-aid/.

Pell, FSEOG, IASG, Direct Loans, and PLUS Loans are disbursed once per pay period. Federal Work-Study funds must be earned as the student works and received as wages through the Gurnick Academy of Medical Arts payroll office.

Cal Grants are disbursed by quarter; each grant comes in three (3) payments.

Before a financial aid disbursement, the Financial Aid Advisor must check the student's status to ensure that the student is not in LOA status. For PLUS loans, the Financial Aid Advisor will check the parent's status with NSLDS to confirm that the parent is not in default nor owes a refund of federal grant funds before each disbursement.

ALL STUDENTS

Maximum Timeframe
All students who receive financial aid must complete their program within 150 percent of the standard program length, as measured in either credit hours for term programs or calendar time for non-term programs. If they exceed the maximum time frame, they are subject to the loss of financial aid, which can be appealed following the procedure outlined below.

Students who are academically expelled from one program and wish to transfer to another program at Gurnick Academy must submit a written appeal according to the terms outlined below. Admission to the new program requires the approval of the program director and the director of financial aid. If the appeal is granted, the student will be admitted to the new program on an Academic Plan status and must follow the terms of the academic plan provided to them.

Appeal and Reinstatement
Students who have lost financial aid eligibility for failure to maintain satisfactory progress will be notified in writing of the cancellation of financial aid. Students with mitigating circumstances wishing to appeal the cancellation of financial assistance may do so in writing to the Financial Aid Office. Mitigating circumstances may include but are not limited to illness or injury of the student or immediate family member, death of a relative, or other special circumstances. The Director of Financial Aid and Campus Program Director will evaluate the appeal and determine whether the student may continue receiving financial aid on an **Academic Plan** status.

The student's appeal must include the following:

1) The reason why the student failed to meet the SAP standard(s) AND
2) What has changed in the student's situation so that they will now be able to meet the SAP standards AND
3) Supporting documentation, as applicable.

If an appeal is granted and financial aid is reinstated, the student will receive aid on an Academic Plan status. A

student with this status must regain SAP standing by the point specified in the academic plan; the terms will be included in the notice forwarded to the student when the appeal is granted. The terms will generally require students to meet or exceed the attendance requirements, pass all courses with a "C" or better, and may include additional elements needed, such as tutoring.

The student's progress will be reviewed each month based on the Academic Plan. At the end of the payment period, if a student fails to meet the requirements of the Academic Plan, they will become ineligible for financial aid.

The Academic Plan is structured to assist the student in regaining SAP status by a projected time, generally staying within the maximum time frame.

Students are limited to one appeal during their education at Gurnick Academy, regardless of the reason or other circumstances. If a student regains SAP status, they may appeal one (1) additional time.

Credit Balance Refunds
The refund will be issued 30 days from the start date of the credit balance on the student's account.

TERM-BASED PROGRAMS
All withdrawals, incompletes, and repetitions are considered when determining Satisfactory Academic Progress. Incompletes and withdrawals are not considered as credits completed. Transfer credits are counted as attempted and earned credits but do not affect the GPA. Nontraditional awarding of credit, including credit by exam and credit for life experience, is counted as both attempted and earned credits but does not affect the GPA. Satisfactory progress standards apply to all students, regardless of enrollment status (full-time, 3/4 time, 1/2 time, or less than 1/2 time). All credit hours a student has incurred a financial obligation are considered.

Students are considered in good standing if they have at least a 2.0 cumulative grade point average (GPA) and meet the quantitative measure. The required pace or percentage of credit hours completed versus the attempted hours must be at least 67%. Accountability starts with the student's entry date at the institution.

Students who do not meet the required standards of SAP will receive a **warning** notice. While on a warning status, students are eligible to receive financial aid. Students still below standards for a second term will have their aid canceled. Students may appeal the loss of financial aid under the abovementioned appeal policy.

All withdrawals and incompletes are considered when determining Satisfactory Academic Progress but do not impact the GPA. Courses for which a student has received a grade of Incomplete are counted as attempted but not completed. Transfer hours reduce the length of the scheduled program hours at Gurnick but do not impact the SAP measurements. All hours for which a student has incurred a financial obligation are considered.

NON-TERM PROGRAMS
Students are considered in good standing if they have at least a 2.0 cumulative grade point average (GPA) at the scheduled end of each payment period (qualitative measure) and also meet the quantitative measure to ensure the student can graduate by the scheduled maximum timeframe, 150% of the program. The required pace or percentage of clock hours completed (quantitative measure) is determined as follows: A student must complete a minimum number of scheduled hours of each payment period that varies by program per the attendance policy. This information can be found in the chart below.

Satisfactory Academic Progress is reviewed at the end of each payment period in all non-term-based programs, both clock and non-term credit hours. If a student does not meet the SAP requirements at the scheduled end of a payment period, the student's financial aid eligibility is terminated, subject to appeal, as outlined in the policy above.

ONLINE STUDENTS

Students enrolling in an online program at Gurnick Academy of Medical Arts must first apply for admission at www.gurnick.edu/apply.

To receive financial aid, students should:

1. Complete the FAFSA at www.www.studentaid.gov/h/apply-for-aid/fafsa. Use the Gurnick Academy of Medical Arts school code **041698**. You will need an FSA ID to sign the FAFSA electronically; the website is www.studentaid.gov/fsa-id/create-account/launch.

2. The FAFSA results will be sent to you and Gurnick Academy of Medical Arts within a few days. Within two (2) weeks of completing the FAFSA or adding the Gurnick Academy of Medical Arts' school code, Gurnick Academy of Medical Arts will mail you an Estimated Financial Plan. This estimate will show you the anticipated grant and loan aid you may be eligible to receive, any balance you will owe, and payment options.

   Can't wait two (2) weeks? Call or email the campus financial aid office for an appointment.

3. Gurnick Academy of Medical Arts will process your FAFSA results and mail or email with any additional requirements. This might include citizenship or eligible non-citizenship status documentation, tax returns, IRS transcripts, or other documentation. Gurnick Academy of Medical Arts cannot continue to process your financial aid awards without all the required documentation.

4. Once the student has submitted all required documentation, Gurnick Academy of Medical Arts will mail or email a Financial Aid Plan.

5. To receive federal student loans, complete the Master Promissory Note (MPN) at www.studentaid.gov. First-time borrowers must complete student loan entrance counseling before the student starts, also at www.studentaid.gov.

   PLUS loans for parents of dependent students require a separate application and MPN, both available at www.studentaid.gov.

6. Students or parents can check with their local banks or credit unions if a private loan is necessary. Gurnick Academy of Medical Arts students have also borrowed private loans from Sallie Mae (www.salliemae.com) and College Ave (www.collegeave.com/). Students and parents should know that private loans have different terms than federal loans and generally have a higher interest rate. Federal loan eligibility should always be explored before borrowing a private loan.

Students or parents who wish to speak with a financial aid advisor should contact the campus financial aid office by phone or email.

RETURN OF NON-TITLE IV FUNDS

Students who receive Cal grants and withdraw from Gurnick Academy of Medical Arts must have a calculation similar to the Return of Title IV calculation to determine the unearned portion of Cal Grant funds. The Cal grant portion earned is based on a pro-rata calculation of hours completed compared to those scheduled in the term.

WITHDRAWALS & THE RETURN TO TITLE IV AID (R2T4) CALCULATION

The U.S. Department of Education requires a "Return of Title IV Funds" (R2T4) calculation for all recipients of federal financial aid who withdraw from school, officially or unofficially. This policy is separate from the institutional tuition refund policy described elsewhere in the catalog. The R2T4 calculation determines the proportion of Title IV funds the school and the student must return to the federal government and what amounts can be retained on the student's account.

A brief description of the calculation follows. Please see the Financial Aid Office for further information or a more detailed version of the calculation.

1. The student's withdrawal date/last date of attendance is determined.
2. The % of Title IV aid earned by the student is calculated as follows: Number of clock hours or scheduled days completed / Number of clock hours or scheduled days in the payment period = Percentage of Title IV Funds Earned*
   * This ratio is multiplied by the Title IV aid disbursed plus the Title IV aid that could have been disbursed to equal the Title IV aid earned. Total aid disbursed minus total aid earned equals the federal funds that must be returned to the aid programs. A student who has attended more than 60% of the scheduled hours or days in the payment period has fully earned the Title IV funds disbursed for the payment period.
3. The amount of Title IV aid earned by the student is calculated: The ratio from above is multiplied by the total Title IV aid disbursed, or that could have been disbursed to equal the amount of the Title IV aid earned.
4. A return is due if the aid disbursed exceeds the aid earned. A post-withdrawal disbursement is due if the aid earned exceeds the aid disbursed.
5. The school is responsible for returning the amount of unearned aid up to the unearned charges (charges for the payment period multiplied by the unearned % from above).
6. Any federal funds the school must return will be returned within 45 days of the determination that a student has withdrawn.
   Funds will be returned in the following order:
   a) Unsubsidized Stafford Loans;
   b) Subsidized Stafford Loans;
   c) PLUS Loans;
   d) Pell Grants;
   e) FSEOG;

f) IASG.

Students are responsible for returning the balance of the unearned aid after subtracting the amount returned by the school. The student returns loan funds during loan repayment; the R2T4 calculation will show any grant funds the student must return immediately. Students who do not repay the amount of any grant overpayment are reported to NSLDS. The debt is referred to the U.S. Department of Education for collection.

Students should be aware that Gurnick Academy of Medical Arts' return of funds to the federal government as required by the R2T4 calculation may result in a higher balance due to the school from the student.

ADMINISTRATIVE POLICIES

CATALOG POLICIES

Policies governing student conduct, admissions, prerequisites, graduation requirements, fees, course structures, duration of the subjects and courses, time of program offerings, and other aspects of this institution's operations are subject to change. Changes in the content of this catalog will be added to the Catalog Addendum and posted on www.gurnick.edu/school-catalog/. Together, the Catalog and the Addendum represent current and updated information.

We reserve the right to adopt, amend, or repeal all Gurnick Academy of Medical Arts policies. This catalog does not constitute a contract or enrollment agreement. It also does not constitute a statement of the contract conditions between the student and Gurnick Academy of Medical Arts. Applicable state and education codes, state regulations, and Gurnick Academy of Medical Arts policies govern the individual student's relationship to the Institution.

A catalog copy will be provided to each student before signing an enrollment agreement. Copies of the catalog can also be located at the front desk at each campus and on the Gurnick Academy of Medical Arts website, www.gurnick.edu.

PROGRAM POLICIES

Academy policies cover all programs and courses at Gurnick Academy of Medical Arts. However, programmatic Student Handbooks explain program-specific particulars and guidelines in greater detail. Many of our programs have Student Handbooks with programmatic rules and regulations (subject to change without notice). Students must read and understand all programmatic rules and regulations in addition to the Gurnick Academy of Medical Arts Catalog and Addendum.

INDIVIDUAL RESPONSIBILITY

Each Gurnick Academy of Medical Arts student, staff, and faculty member is responsible for being familiar with the Gurnick Academy of Medical Arts policies and regulations published in this catalog. The Gurnick Academy of Medical Arts Catalog is disclosed to each individual before their enrollment at Gurnick Academy of Medical Arts. All students, staff, and faculty members must sign the receipt of disclosures acknowledging that they understand and agree to abide by all the policies stated in this catalog.

ACADEMIC FREEDOM

Gurnick Academy of Medical Arts is committed to assuring its faculty full academic freedom. Confident in the

qualifications and expertise of its faculty members, Gurnick Academy of Medical Arts encourages its faculty members to exercise their judgments regarding the organization of topics and instructional methods. The program-specific governing body approves the content. Instructors are encouraged to develop teaching methods that promote student success.

Gurnick Academy of Medical Arts believes that diversity of thought resulting from the free and open expression of viewpoints and opinions and the free exercise of research and original thinking in the academic fields related to course offerings benefit students. Gurnick Academy of Medical Arts supports and encourages instructors and students to engage in discussion and dialog. Students and faculty members are encouraged to freely express views to understand the specialized knowledge of the studied discipline.

NON-DISCRIMINATION

Gurnick Academy of Medical Arts is committed to providing equal opportunities to all applicants. No discrimination shall occur during Gurnick Academy of Medical Arts programs or activities. This includes activities related to the solicitation of students or employees based on race, color, religion, religious beliefs, national origin, sex, sexual orientation, marital status, pregnancy, age, disability, veteran's status, or any other classification that precludes a person from consideration as an individual. Please direct inquiries regarding this policy to the Campus Director responsible for ensuring this policy is followed. Employees may refer to the Gurnick Academy of Medical Arts' Employee Handbook for more details.

Harassment/Title IX Coordinator

"No person in the United States shall, based on sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance." (Title IX, Education Amendments of 1972, Title 20 U.S.C. Sections 1681)

Gurnick Academy of Medical Arts has designated Deputy Title IX Coordinators on each campus to oversee the institution's compliance with all State and Federal discrimination laws, particularly sex discrimination. These Gurnick Academy of Medical Arts staff members function as Deputy Title IX Coordinators and primary function. Please note that the Deputy Title IX Coordinator function is associated with the title(s), as the designee's name may change at any time.

Concerning any questions, concerns, or grievances, students should contact the Campus Director for which they are enrolled. The Campus Director, or their official designee, functions as the Deputy Title IX Coordinator for each campus.

The Deputy Title IX Coordinators will ensure compliance in all areas and aspects of Gurnick Academy of Medical Arts while facilitating any discrimination grievance procedures. This designee will also keep all records affiliated with discrimination grievances. They are trained to investigate incidents in a manner that "protects the safety of victims" and "promotes accountability." With this responsibility, the designee is considered a resource to Gurnick Academy of Medical Arts students, faculty, and staff.

Sexual Harassment

Gurnick Academy of Medical Arts is committed to providing a work environment free of discrimination, intimidation, and harassment. Maintaining this commitment, we believe it is necessary to affirmatively address this subject and express our strong disapproval of sexual harassment.

No associate within Gurnick Academy of Medical Arts may engage in verbal abuse of a sexual nature, use sexually degrading or graphic words to describe an individual or an individual's body or display sexually suggestive objects

or pictures at any campus. Students are responsible for conducting themselves consistently with spirit and intent.

Anti-Bullying/Anti-Harassment

Gurnick Academy of Medical Arts believes individuals, including students, employees, and applicants, are entitled to a safe, equitable, and harassment-free experience. Bullying and harassment will not be tolerated and shall cause disciplinary action and law enforcement intervention.

"Bullying" and "harassment" are defined as a pattern of aggressive, intentional, or deliberately hostile behavior that repeatedly occurs over time. These behaviors usually fall into three (3) categories: physical, emotional, and verbal. They may include but are not limited to intimidation, assault, extortion, verbal or written threats, teasing, put-downs, name-calling, threatening looks, gestures or actions, rumors, false accusations, hazing, social isolation, and cyber-bullying. Such behavior is considered bullying or harassment on or off Gurnick Academy of Medical Arts property.

Any student, employee, or applicant who believes they have been or is the victim of bullying or harassment should immediately report the situation to the Gurnick Academy of Medical Arts administrator or another trusted institution employee responsible for reporting it to the appropriate authority. Gurnick Academy of Medical Arts administration will investigate reported incidents promptly and thoroughly.

Advising, corrective discipline, and referral to law enforcement will be used to change the perpetrator's behavior and remediate the impact on the victim. This includes appropriate intervention(s), restoration of a positive climate, and support for victims and others impacted by the violation. False reports or retaliation for harassment, intimidation, or bullying violate this policy.

Sexual Assault Prevention and Response

Gurnick Academy of Medical Arts educates the student community about sexual assaults and date rape through orientation. Upon request, the Police Department offers sexual assault education and information programs to students and employees. Literature on date rape education and risk reduction is available through the Campus Director/Administrator.

Gurnick Academy of Medical Arts is committed to creating and maintaining an educational environment where respect for the individual is vital. Gurnick Academy of Medical Arts does not tolerate sexual assault in any form. The definition of "sexual assault" includes but is not limited to sexual battery, the threat of a sexual assault, and rape, including but not limited to forced oral copulation, foreign object, or sodomy. Statement of the Standard of Evidence: Gurnick Academy of Medical Arts uses a preponderance of the evidence standard.

Sanctions Gurnick Academy of Medical Arts May Impose Following a Final Institutional Disciplinary Determination of Rape, Acquaintance Rape, Domestic Violence, Dating Violence, Sexual Assault, Stalking, or Other Sexual Offense:

Sexual assaults violate the standards of conduct expected of every member of Gurnick Academy of Medical Arts. Sexual assault is a criminal act that subjects the perpetrator to criminal and civil penalties under state and federal law. Gurnick Academy of Medical Arts will abide by and cooperate with local, state, and federal sanctions in all cases. Gurnick Academy of Medical Arts disciplinary action may include expulsion depending on the seriousness of the situation. Gurnick Academy of Medical Arts will review the victim's academic standing after a sex offense or alleged sex offense if those changes are requested and reasonably available.

Gurnick Academy of Medical Arts will investigate the sexual assault allegations in which the accuser and the accused are entitled to the same opportunities to have others present during an institutional disciplinary

proceeding, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of choice.

Students who have allegedly violated the code of conduct or been accused of sexual harassment or other Title IX violations may request a hearing by the Student Disciplinary Panel. The panel comprises the Title IX Coordinator, the Director of Financial Aid, and the Program Director. A faculty member may substitute for one of the panel members as necessary.

The complaining student will be asked to write their allegations, and a copy will be provided to the alleged perpetrator. A hearing will be held within two (2) weeks of receipt of the allegations, and the panel will hear from the complainant and the alleged perpetrator separately. Both parties may have anyone present with them for the hearing, including an advisor of their choice. The panel may call other students or employees as needed.

The accuser and the accused must be notified simultaneously and in writing of the outcome of the proceeding, appeal procedures, any change to the result before it becomes final, and when the result becomes final. The parties will be provided the determinations concurrently. If another action is taken, and the alleged perpetrator remains in school, the complainant may request a transfer to another program start or shift as a protective measure. The panel may also consider a transfer of the alleged perpetrator to another program start or shift.

Gurnick Academy of Medical Arts may impose sanctions following a final determination of a disciplinary proceeding regarding rape, acquaintance rape, or other forcible or non-forcible sex offenses. Penalties for students can be up to expulsion from Gurnick Academy of Medical Arts. Appropriate action will be taken against employees per the Gurnick Academy of Medical Arts policies in the Employee Handbook. The disciplinary action imposed by Gurnick Academy of Medical Arts will not be in place of penalty, fines, or imprisonment imposed by the legal system.

The victim's confidentiality will be protected, including record-keeping that excludes personally identifiable information on victims. Gurnick Academy of Medical Arts will take all reasonable steps to investigate and respond to the complaint commensurate with the complainant's request for confidentiality or termination of investigative pursuit.

The school will inform the complainant that its ability to respond may be limited should a complainant insist that their name or other identifiable information not be disclosed to the alleged perpetrator. Title IX prohibits retaliation, and school officials will take steps to prevent retaliation and take decisive action if it occurs.

Reporting a Sexual Assault

Dial 9-1-1 should a sexual assault occur. If the victim cannot contact the authorities, please report this assault to any Instructor or Staff member who will contact the authorities on your behalf.

While waiting for medical and law enforcement to arrive, although difficult, try to make mental notes of the incident so there can be as much detail as possible while reporting this assault to the local police. Be certain to request medical treatment.

If the incident occurred on campus, the victim must report the assault to any Faculty/Staff member or Academy Director. Although sexual assault is a criminal offense, police will not collect evidence of a personal nature from the victim's body. After the sexual assault, it is imperative to receive a medical examination by trained personnel for a full physical exam before showering, changing clothes, or bathing, as preserving the evidence is imperative. Victims may notify and seek assistance from law enforcement and campus security authorities.

Counseling

The survivor of a sexual assault is urged to seek counseling shortly after the sexual assault. Victims of sexual

assault may receive FREE CONFIDENTIAL 24-HOUR counseling by calling RAINN (Rape Abuse Incest National Network) HOTLINE NUMBER 1-800-656-HOPE (4673). Trained counselors are available at the number mentioned above, 24 hours a day, seven (7) days a week. RAINN can also be reached 24/7 through online chat at hotline.rainn.org/online/. You can find more information at www.rainn.org.

Sex Offender Registry

Gurnick Academy of Medical Arts is providing a link to the National Sex Offender Registry following the "Campus Sex Crimes Prevention Act" of 2000, which amends the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act, the Jeanne Clery Act, and the Family Educational Rights and Privacy Act of 1974. This act requires higher education institutions to issue a statement advising the campus community where law enforcement information concerning registered sex offenders may be obtained. It also requires sex offenders already required to register in a State to provide notice to each institution of higher education in that State at which the person is employed, carries a vocation, or is a student.

The California Department of Justice's website lists designated, registered sex offenders in California: www.megan's law.ca.gov.

The following website offers a link to all registered sex offenders that are searchable either by name or by zip code within a radius of a certain address: www.familywatchdog.us.

STUDENT'S RIGHT TO PRIVACY

Gurnick Academy of Medical Arts complies with The Family Educational Rights and Privacy Act of 1974 (FERPA), commonly called the Buckley Amendment. This act provides Gurnick Academy of Medical Arts students and their parents with rights involving access and release of personally identifiable records.

Gurnick Academy of Medical Arts departments maintain student records. Personally identifiable information from these records may not be disclosed to a third party without the eligible student's written consent. Notwithstanding the above, disclosure to Gurnick Academy of Medical Arts administration and faculty members with a legitimate educational purpose in seeing the records is permitted. Release of records to regulatory bodies, accrediting bodies, oversight bodies, and legally executed court subpoenas does not require student or parent release.

Gurnick Academy of Medical Arts may release directory information without the student's permission unless the student states, in writing, within the first two (2) weeks of the program, the specific information they desire not to be included as part of their directory information. Directory information consists of the following:

- Student's name
- Hometown
- Class level
- Registered credits (current term)
- Major fields of study
- Participation in recognized activities and sports
- Biographic data for public relations purposes
- Diplomas and awards received
- Most recent previous educational institution(s) attended
- Veteran status
- Job placement information.

Students who wish to disclose information must complete a Gurnick Academy of Medical Arts FERPA Release Form at www.gurnick.edu/student-forms/.

Any student or employee who engages in conduct that directly or indirectly violates or infringes upon the privacy rights of an employee or student will be subject to disciplinary action, including expulsion/termination from Gurnick Academy of Medical Arts.

STUDENT RECORDS

Gurnick Academy of Medical Arts maintains student records in individual folders according to privacy regulations. Student folders are started for each future student during Gurnick Academy of Medical Arts registration and contain all required documents according to BPPE and ABHES. The student folder will also contain documents such as a summary statement of the student's progress, refund calculation, and a copy of the refund (if applicable) should a student withdraw/be expelled before program completion/graduation.

After program completion, all official information (copies of transcripts, a record of clinical performance, lab experiments, and program completion) will remain on file, on-site, for at least two (2) years. After two (2) years following program completion, all students' information in hard-copy format will be archived into electronic format and kept on an offsite computer server for at least five (5) years. Transcripts will be maintained indefinitely. Students must make archived copies of all vital documentation throughout their training. All hard-copy records are stored in locked, fireproof cabinets.

Gurnick Academy of Medical Arts maintains student transcripts permanently. Information on transcripts includes the following:

- Courses or educational programs that were completed or were attempted but not completed, and the dates of completion or withdrawal;
- The final grades or evaluations given to the student;
- Credit for courses earned at other institutions;
- Credit based on experiential learning;
- Credit based on advanced placement;
- Degree or certificate awarded to the student; and
- The institution's name, address, email address, and telephone number.

If a student withdraws before graduation, a summary statement of the student's progress, refund calculation, and a copy of the refund (if applicable) will be placed in the folder. This folder will be treated as described above.

Students may inspect their master file at any time under the direct supervision of the Program Director/Coordinator or an authorized staff member. Should a student find, upon the review, that there are inaccurate or misleading records, the student may request that errors be corrected. If a difference of opinion exists regarding mistakes, the student may ask for a meeting with the Program Director or Coordinator to resolve the matter.

All student records are confidential and will only be given to authorized persons. Data such as grades, Registry and State certification examination scores, health records, and performance evaluations may only be revealed with the student's consent. Only authorized personnel will have access to in-progress student evaluations and files.

TRANSCRIPTS

Each student's folder contains the student's academic progress record and evidence of diplomas issued by Gurnick Academy of Medical Arts. Official transcript requests will be granted upon payment of a fee of $15.00. Transcripts will only be released upon the student's written and signed request. Kindly note that transcripts may not be available immediately as they are processed through the Registrar at the Corporate office.

STUDENT CODE OF CONDUCT

Students shall always conduct themselves professionally and ethically. Students are expected to conduct themselves within the bounds of acceptable behavior and appearance, as defined in this catalog and the judgment of Gurnick Academy of Medical Arts personnel. No profanity is tolerated in patient care areas, campus, or classroom environments. Insubordination to faculty and clinical instructors or dishonesty could be a reason for immediate expulsion from the program.

In addition to being expected to follow the rules and regulations established by the program and clinical facilities, students are expected to follow the Standard of Ethics and act under the American Hospital Association's Patient's Bill of Rights.

All students are expected to respect the rights of others and are held responsible for conforming to the laws of the national, state, and local governments and conducting themselves in a manner consistent with the best interests of Gurnick Academy of Medical Arts and the student body. Gurnick Academy of Medical Arts reserves the right to expel a student for any of the following reasons, including but not limited to

- Failure to maintain satisfactory academic progress
- Failure to pay Gurnick Academy of Medical Arts fees or tuition by applicable deadlines
    - Any unpaid tuition, fees, and supplies balance becomes due and payable immediately upon a student's expulsion from Gurnick Academy of Medical Arts.
- Disruptive behavior threatens students' and Gurnick Academy of Medical Arts' community members' health and welfare.
- Unlawful possession, use, distribution, or attempted unlawful possession, use, or distribution of drugs and alcohol.
- Destruction or damage to personal or school property.
- Reckless driving or parking violations on campus.
- Hazing of students or initiation that is dangerous, harmful, or degrading.
- Distribution or obstruction of instruction, classroom activity, research, administrative activity, or other school activity on campus.
- Forceful or illegal entry into an area of the school property.
- Cheating or stealing.
- Illegal activities or other actions deemed inappropriate by the Director.
- Distributing or posting materials, publications, leaflets, or other printed materials without prior permission from the school administration.
- Possession of firearms, fireworks, explosives, or any other weapons.
- False alarms or threats.
- Sexual Harassment of any kind.
- Failure to comply with the Gurnick Academy of Medical Arts policies and procedures.

SAFETY & CAMPUS SECURITY

The following policies have been adopted to comply with the requirements of the Campus Security Act (34 CFR 668.46).

Access

Through approved access control, Gurnick Academy of Medical Arts campuses will be open to students, employees, contractors, guests, and invitees during business hours. Access to all Gurnick Academy of Medical Arts facilities is through the Verkada Pass application for students and staff and through a key fob for contractors,

temporary personnel, and visitors.

Campus Residences

Gurnick Academy of Medical Arts does not have campus residences.

Campus Police Authority and Jurisdiction

Security personnel hired by Gurnick Academy of Medical Arts have the authority to ask all people on the premises of Gurnick Academy of Medical Arts for identification and to determine whether those individuals have lawful business at Gurnick Academy of Medical Arts. Security personnel do not possess arrest power. Criminal incidents are referred to the local police, who have jurisdiction on the campus.

Crime Prevention Programs

Gurnick Academy of Medical Arts does not have a crime prevention program. In addition, Gurnick Academy of Medical Arts does not have any off-campus student organizations that require monitoring of criminal activity off campus.

Security Awareness Programs

During initial enrollment, students are informed of services offered by Gurnick Academy of Medical Arts. Students are told about crime on campus. Similar information is presented to new employees during new hire orientation. Gurnick campuses create and maintain an EPP (Emergency Response Plan) as a guide for emergencies.

Students and staff may access the EPP in the lobby of each campus. Campuses also practice emergency response protocols quarterly. Periodically, as determined to be needed, presentations or materials may be provided on crime prevention awareness, sexual assault prevention, drug and alcohol abuse, theft, and vandalism, as well as educational sessions on personal safety.

A common theme of all awareness and crime prevention policy programs is to encourage students and employees to be aware of their responsibility for their security and the security of others. Information is disseminated to students and staff through the Campus Security Policy and orientation. When time is of the essence, information is released to students and employees of Gurnick Academy of Medical Arts.

Timely Warnings

If a situation on or off campus arises that constitutes an ongoing or continuing threat in the judgment of the Campus Director, a campus-wide “timely warning” will be issued. Timely warnings and emergency notifications are evaluated continuously every time a crime log is completed. If a crime log has not been filled out for more than 12 months, then a simulation of different scenarios is used to evaluate the process.

Procedure:
When a determination has been made that a timely warning should be issued, Gurnick Academy of Medical Arts will inform the campus community by taking one or more of the following steps to ensure timely notification.

The warning will be issued to faculty, staff, and management:

- Class Announcements
- Campus-wide email of the timely notice issued
- Warning fliers distributed around the campus
- Website warning posted
- Alert through Verkada security system
- Campus-wide intercom/loudspeaker

Such warning(s) may include but are not limited to the type of crime, the date and time, the location, and any suspect information.

Anyone with information that warrants a timely warning should report the circumstances to the Campus Director by phone or in person. The victim's names will be withheld when following the procedure described above.

Annual Disclosure of Crime Statistics

Gurnick Academy of Medical Arts prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located at www.gurnick.edu. This report is prepared with the local law enforcement agencies surrounding our campus. Each entity provides updated information on its educational efforts and programs to comply with the Act.

Campus crime, arrest, and referral statistics are reported to Gurnick Academy of Medical Arts. These statistics may also include crimes in private residences or businesses and are not required by law. California law (11160 of the California Penal Code) requires prompt, mandatory reporting to the local law enforcement agency by healthcare practitioners when they provide medical services to a person they know, or reasonably suspect is suffering from wounds inflicted by a firearm or is a result of assaultive or abusive conduct.

Each year, on or before October 1st, an e-mail notification is made to all students, staff, and faculty at Gurnick Academy of Medical Arts with the web address to access this report.

Crime Reporting

Prompt reporting will ensure timely warning notices on campus and timely disclosure of crime statistics. Gurnick Academy of Medical Arts does not have campus police. All crime victims and witnesses are strongly encouraged to report the crime immediately. If a crime or other emergency occurs, students are instructed to notify any staff/faculty member of Gurnick Academy of Medical Arts, including the Security personnel if applicable. They will place the 911 call. If the nature of the emergency makes this impossible, the students should call 911 themselves. Contact the appropriate Campus Director for non-emergencies. This information is posted on the Gurnick Academy of Medical Arts premises in several conspicuous places.

Confidential Reporting

Gurnick Academy of Medical Arts does not allow confidential reporting. All reports will be investigated. Gurnick Academy of Medical Arts does not have procedures for voluntary, confidential crime statistics reporting. Violations of the law will be referred to law enforcement agencies and, when appropriate, to the Campus Director for review. When a potentially dangerous threat to the Gurnick Academy of Medical Arts community arises, timely reports or warnings will be issued. Please see the Timely Warnings Policy above for more information.

Procedures

All individuals at Gurnick Academy of Medical Arts premises are encouraged to promptly report crimes and public safety-related incidents to the Campus Director. The Campus Director will investigate a report when it is deemed appropriate. If assistance is required from the local Police Department or Fire Department, they will contact the proper unit. If a sexual assault or rape should occur, the Campus Director on the scene will offer the victim assistance after calling 911.

This publication contains information about on-campus and off-campus resources available if a crime happens. The information about "resources" is not provided to infer that such resources are "reporting entities" for

Gurnick Academy of Medical Arts.

Personal Property

Gurnick Academy of Medical Arts does not assume responsibility or is held liable for any loss, damage, or theft of students' personal property. This includes but is not limited to vehicles, clothing, jewelry, electronic devices, school materials, credit cards, checks, cash, or cash equivalent. All personal property is the student's sole responsibility. It is strongly recommended to avoid bringing valuable items when attending class on campus or in a clinical environment. Students bringing any valuable belongings to school do so at their own risk.

Incident/Accident Reporting

All accidents/incidents, including those occurring on Campus/Clinical Site premises, resulting in personal injury or illness, shall be promptly reported and investigated. If the injury or illness requires emergency medical treatment, call 911 for proper notification of emergency services.

Management must complete an Incident/Accident Report form in all cases requiring first-aid treatment, emergency services, or any incident that can develop into an injury or illness. If students/faculty are involved, their Program Coordinator should be notified. If staff are involved, their appropriate supervisors must be notified. In all cases, Campus Directors and management must be notified whenever an Incident/Accident Report form is completed. These reports are then filed in the respective individual's physical folder.

An Incident Report must be completed in full, describing the following:

- Incident circumstances, including the date and time of the incident/accident, details of the procedure being performed, including where and how the incident/accident occurred, and if there was an exposure related to a sharp device, the type of device, and how and when while handling the device the incident/accident occurred.
- Details of the incident/accident, including if there was an exposure to blood or bodily fluids and information about the exposure source (i.e., whether the source material contained HIV or other bloodborne pathogens), and if the source is an HIV-infected person, the stage of disease, history of antiretroviral therapy, and viral load if known; Attempt to persuade the source person to make themselves available for bloodborne pathogen testing, pre-test counseling, and form completion.
- Details about the follow-up.
- List all parties involved, and ensure the form is signed by all relevant parties and returned to Program Coordinators/Directors immediately.
- Keep affected parties' privacy rights in mind if/when sharing information regarding the incident and report (E.g., do not scan the report and keep it in an open network folder).

The student is expected to utilize common sense in patient-care procedures and those OSHA policies related to bloodborne pathogens that minimize risks to the student and, if pregnant, to the unborn fetus. If a student has an incident involving contact with bloodborne pathogens, they are expected to follow the affiliate's exposure control policies.

The student's responsibility is to see their physician immediately to establish baseline testing and seek any required follow-up. If all procedures mentioned above are not adhered to, supervisors must be promptly notified. Additionally, if the incident occurred on the premises of any Clinical Facility/site, the student and instructor should complete the Incident/Accident Report Form, and any concerns where processes are incongruent with this procedure should be noted. Similarly, our clinical affiliations can file an Incident Report if students do not adhere to proper procedures.

More details regarding needle sticks, the incident/accident reporting of needle sticks, and exposure to

blood/bodily fluids are detailed in the Needle Stick Policy.

Weapons and Firearms

The possession, manufacture, transfer, sale, storage, display, or use of weapons of any kind, including, without limitation, firearms, while on property owned, leased, or under Gurnick Academy of Medical Arts' control or while at a clinical site, regardless of whether the person is licensed to carry the weapon, is strictly prohibited. Failure to abide by this policy will result in disciplinary action, including expulsion from Gurnick Academy of Medical Arts.

Needle Stick

Healthcare professionals may be exposed to blood and bodily fluids. Bloodborne pathogens such as Hepatitis B, Hepatitis C, and HIV can be severe, even life-threatening. If exposure to blood or bodily fluids occurs, Gurnick Academy of Medical Arts students, faculty, and staff members should follow this policy.

Wounds and skin sites that have been in contact with blood or body fluids should be washed with soap and water; mucous membranes should be flushed with water. Applying caustic agents (e.g., bleach) or injecting antiseptics or disinfectants into the wound is not recommended.

- Rinse the area with clean water, saline, or other sterile irrigating solution.
- Report the incident to the clinical site supervisor, department supervisor, clinical instructor, etc.
- Follow-up is indicated if it involves direct contact with a bodily fluid listed above and there is evidence of compromised skin integrity (e.g., dermatitis, abrasion, or open wound).
- The exposed individual should be evaluated for susceptibility to bloodborne pathogen infections. Baseline testing (i.e., testing to establish serostatus at the time of exposure) for Hepatitis B, Hepatitis C, and HIV antibodies should be performed.
- Individuals exposed to Hepatitis B, Hepatitis C, or HIV should receive follow-up counseling, post-exposure testing, and medical evaluation. HIV-antibody testing should be performed for at least six (6) months post-exposure.
- An Incident Report must be completed in full. Please see the Incident Accident Reporting policy above.

Use safer needles and needleless devices to decrease needle sticks or sharps exposures. Properly handle and dispose of needles and other sharps per the Bloodborne Pathogens Standard. You must utilize your training, protective clothing, and equipment and remain vigilant to signs, labels, and other provisions.

Communicable Disease

Students with known communicable diseases must follow the clinical site's infectious disease protocols. Gurnick Academy of Medical Arts has no jurisdiction over a clinical facility's infectious disease protocol. However, the student must report illness, infectious diseases, and any condition affecting the student's health, patients, or clinical staff. This should be reported to a program official or clinical instructor.

All students must meet safe health standards to protect clinical personnel and safeguard patients. Any student with an elevated temperature (100 degrees F. or more orally), symptoms of urinary infection (dysuria, urgency, or frequency), symptoms of respiratory infection, symptoms of gastrointestinal infection, or symptoms of pink eye must report the condition to a program official or clinical instructor, even if under a private physician's care. The program official or clinical instructor reports the condition to the Infection Control Department at the clinical site.

Before the student returns to the program, the student's physician must verify a clean bill of health status. The student is responsible for making up lost clinical time and missed classwork during their absence.

Radiography students take part in invasive procedures. Students with known latex sensitivity or allergies should know that Gurnick Academy of Medical Arts cannot guarantee non-exposure to latex in the clinical arena.

During student experiences in the clinical setting, the student may encounter diseases, equipment, and treatments that may be hazardous to the individual and an unborn fetus. TB exposure should be followed immediately with another Mantoux and a three (3) month follow-up. A copy of the incident should be sent to the Gurnick Academy of Medical Arts administration.

If the student comes into contact with diseases outside the program or contracts diseases that may be hazardous to other students, patients, or hospital personnel, it must be reported to the appropriate program director immediately. A decision will then be made individually regarding the future of the student's participation in the program.

A student who may have been exposed to a communicable disease may be asked to leave the clinical area until the incubation period has expired. Any missed clinical hours must be made up later if a student is absent.

Federal Law Concerning Chemical Hazards

Federal law requires that all individuals be notified about hazardous chemicals present in the workplace. This law applies to all occupations with the fundamental purpose of raising the level of consciousness on chemical safety.

Chemical suppliers must prepare Safety Data Sheets (SDS) for all chemicals used in radiology. Photographic chemicals are used in radiology for processing x-ray films. Some of these chemicals must be used with more than routine precautions. Photographic chemicals can cause allergic reactions or irritate the skin with repeated or prolonged contact. The use of gloves can minimize skin contact hazards. MSDS should be available at all clinical facilities upon request.

DRUG-FREE

Drug-Free Campus

Gurnick Academy of Medical Arts is a drug-free institution. Any activities involving using, selling, manufacturing, or displaying illegal drugs are strictly prohibited on campus grounds and will result in employment or academic program termination. Anyone suspected of being under the influence of a controlled substance while on school property will be subjected to a drug test.

Drug and Alcohol Prevention

Gurnick Academy of Medical Arts is committed to protecting all employees' and students' safety, health, and well-being. We recognize that drug use and alcohol abuse pose significant threats to our goals. We have established a drug-free workplace program that balances our respect for individuals with the need to maintain a drug and alcohol-free environment.

Gurnick Academy of Medical Arts encourages employees and students to seek help with drug and alcohol problems voluntarily. The Owner of Gurnick Academy of Medical Arts must certify to the U.S. Department of Education that a Drug and Alcohol Prevention Program and Drug-Free Policy are in place and maintained.

This policy includes and is not limited to all students, employees, and anyone conducting business on behalf of Gurnick Academy of Medical Arts.

Applicability

This policy applies to anyone representing or conducting business with or for Gurnick Academy of Medical Arts. Therefore, this policy applies during all work and school hours, whenever engaging in business with or representing Gurnick Academy of Medical Arts, on-call or paid standby, on academy property, or at academy-sponsored events/sites.

Prohibited Behavior

It is a policy violation to use, possess, sell, trade, or offer alcohol, illegal drugs, or intoxicants on campus or at a Gurnick Academy of Medical Arts-sponsored site/activity. Being intoxicated while on campus or conducting academy business is a violation.

Being under the influence of any substance, such as marijuana, is prohibited while attending Gurnick Academy of Medical Arts or any off-site activity associated with the institution, such as clinical experiences and field trips. The Gurnick Academy of Medical Arts' drug-free policy must follow federal laws, regardless of State of law, as an institution with approval to distribute Title IV funds to those who qualify. For example, federal laws classify marijuana as an illegal drug, regardless of whether you may have a medical marijuana card, or if the substance is legal within California.

Notification of Convictions

Any employee or student convicted of a criminal drug or alcohol violation must notify Gurnick Academy of Medical Arts in writing within five (5) calendar days of the conviction. Gurnick Academy of Medical Arts will act appropriately within thirty (30) days of notification.

Consequences

One of the goals of our drug and alcohol-free workplace program is to encourage employees/students to seek help with alcohol and drug problems voluntarily. If an employee or student violates the policy, sanctions may include

1. Mandated treatment for the issue.
2. Mandated treatment at a local treatment center.
3. Mandated completion of a drug rehabilitation program.
4. Mandated probation period should not exceed one (1) month.
5. Termination from school or discharge from employment.

Gurnick Academy of Medical Arts will terminate a student or employee after receiving notification that the individual has been convicted of a drug crime. Gurnick Academy of Medical Arts will also require that the employee or student participate in a drug abuse assistance or rehabilitation program approved by a Federal, State, or local health enforcement agency or other appropriate agency.

Eligibility for Title IV programs may be suspended or terminated as part of a conviction.

Assistance

Gurnick Academy of Medical Arts recognizes that drug and alcohol abuse and addiction are treatable illnesses. We also realize that early intervention and support improve the success of rehabilitation. To support our employees/students, our drug-free workplace policy:

1. Encourages employees and students to utilize the services of qualified professionals in the community to assess the seriousness of suspected drug or alcohol problems and identify appropriate sources of help.
2. Ensures the availability of a current list of qualified community professionals.

The ultimate financial responsibility for recommended treatment belongs to the employee and student.

Confidentiality

All information received by Gurnick Academy of Medical Arts through the drug-free workplace program is confidential. Access to this information is limited to those who must know to comply with relevant laws and management policies.

Shared Responsibility

A safe, productive, drug-free workplace is achieved through cooperation and shared responsibility. Students and employees, including management, have essential roles to play. All employees and students are required not to report to work or school while their ability to perform duties is impaired due to on- or off-duty use of alcohol or other drugs. In addition, employees and students are to report dangerous behavior to their appropriate designated official and inform their supervisor or program coordinator of any over-the-counter or prescription medications that may affect their performance/behavior. The supervisor and instructor are responsible for the following:

1. Observe employee and student performance.
2. Investigate reports of dangerous practices.
3. Document negative changes and problems in performance.
4. Counsel employees and students as to expected performance improvement.
5. Clearly state the consequences of policy violations.

Reasonable Suspicion Testing

Testing may be required where there is reasonable suspicion based on objective symptoms. This includes factors related to appearance, behavior, or speech if the employee or student is found to have physical evidence (i.e., drug or alcohol paraphernalia). Following an injury or other incident causing suspicion of drug or alcohol use,

Gurnick Academy of Medical Arts management may elect to test.

Communication

Communicating our Drug-Free Policy to employees and students is critical to our success. To ensure that all employees and students know their role in supporting our program:

- All employees and students will receive a written copy of the policy and program.
- The policy and program will be reviewed with new employees and students in orientation sessions.
- All employees and students will receive an updated policy and program annually.

Review of this Policy

Gurnick Academy of Medical Arts will review the Drug-Free Policy/Drug and Alcohol Prevention Program at least once every two (2) years.

Alcoholic Beverage Programs

The possession, sale, or furnishing of alcohol on the Gurnick Academy of Medical Arts campus is governed by the Campus Director/Administrator and California state law. Laws regarding the possession, sale, consumption, or furnishing of alcohol are controlled by the California Department of Alcohol and Beverage Control (ABC). However, the enforcement of alcohol laws on campus is the primary responsibility of the Campus Director/Administrator.

The campus has been designated Drug-free. The possession, sale, manufacture, or distribution of any controlled substance is illegal under state and federal laws. Such laws are strictly enforced. Violators are subject to disciplinary action, criminal prosecution, fines, and imprisonment. It is unlawful to sell, furnish, or provide alcohol to anyone under 21.

The possession of alcohol by anyone less than 21 years of age in a public place or a place open to the public is illegal. It is also a violation of the Alcohol Policy for anyone to consume or possess alcohol in any public or private campus area without prior approval from the Campus Director/Administrator. Students, employees, or groups violating alcohol/substance policies or laws may be subject to sanctions by Gurnick Academy of Medical Arts.

Illegal Drugs

The campus has been designated “Drug-free.” The possession, sale, manufacture, or distribution of any controlled substance is illegal under state and federal laws. The Campus Director strictly enforces such laws. Violators are subject to disciplinary action, criminal prosecution, fines, and imprisonment.

Prevention Programs

Gurnick Academy of Medical Arts has developed a program to prevent students’ and employees’ illicit drug and alcohol abuse. The program provides drug use and abuse services, including disseminating referrals and disciplinary actions. The Campus Director will provide referral services upon request.

Local, State, and Federal Legal Sanctions

Laws Governing Alcohol, Controlled Substances & Health Risks

> *A violation of any law regarding alcohol and controlled substances is also a violation of the Student Code of Conduct. It will be treated as a separate disciplinary matter.*

California sets 21 as the minimum age to purchase or possess any alcoholic beverage. The unlawful use, possession, distribution, manufacturing, or dispensing of illegal drugs is prohibited.

Substance abuse may result in serious health problems or even sudden death, which can occur after first-time use in the case of some drugs (e.g., cocaine). The following is a partial list of other potential health risks:

Acute difficulties; Heart attack; Stroke; Long-lasting effects; Disruption of normal heart rhythm; High blood pressure; Destruction of brain cells; Permanent memory loss; Infertility and impotence; Immune system; impairment; Kidney failure; Cirrhosis of the liver; Pulmonary damage, etc.

Specific ordinances regarding violations of alcohol laws, including driving while intoxicated as well as for the unlawful possession or distribution of illegal drugs and alcohol, include the following:

- No person may sell, furnish, give, or cause to be sold, furnished, or given away any alcoholic beverage to a person under 21. No person under the age of 21 may purchase alcoholic beverages. (California Business and Professions Code 256560).
- It is unlawful for anyone under 21 to possess alcoholic beverages on any street, highway, or place open to public view. (California Business and Professions Code 25662).
- It is a misdemeanor to sell, furnish, or give away an alcoholic beverage to any person under the age of 21 (California Business and Professions Code 25658) or anyone visibly intoxicated (California Business Professions Code 25602).
- It is unlawful for any person to drink while driving or have an open container of an alcoholic beverage in a moving vehicle. With a blood alcohol level of .08 or higher, a driver is presumed to be under the influence of alcohol. Between .05% and .08%, a person may be found guilty of driving under the influence (Vehicle Code 23153).
- Every person found in public under the influence of intoxicating liquor, any drug, controlled substance, or any combination of the above and cannot exercise care for their or the safety of others is guilty of a misdemeanor (Penal Code 647(f).
- It is unlawful to possess controlled substances: Imprisonment in State prison for possessing specified controlled substances, including opium derivatives and cocaine (Health and Safety Code Section 11350).
- It is unlawful to sell controlled substances: Imprisonment in State prison for two to four years for possession or sale of specified controlled substances, including opium derivatives and cocaine (Health and Safety Code Section 11351).
- It is unlawful to possess marijuana under the following:
    - Possession of not more than 28.5 grams or more than four grams of concentrated cannabis or both shall be punished as follows:
        - Upon a first offense, individuals under 18 years of age must complete four (4) hours of drug education or counseling and up to 10 hours of community service.
        - Individuals at least 18 years of age but less than 21 years of age shall be guilty of an infraction and punishable by a fine of not more than $100 (Health and Safety Code Section 11357 (b))
    - Possession of more than 28.5 grams of marijuana or more than four (4) grams of concentrated cannabis shall be punished by imprisonment in county jail and a fine of not more than $500.
- It is unlawful to possess with intent to sell marijuana: shall be punished by imprisonment in the State prison (Health and Safety Code Section 11359).
- It is unlawful to distribute prescription drugs: it is unlawful for any person who is not a pharmacist to manufacture, compound, furnish, sell, or dispense any dangerous drug or dangerous device or to dispense or compound any prescription (Business and Professions Code Section 4051 (a)).
- It is unlawful to be under the influence of a controlled substance: No person shall use or be under any controlled substance. Any person convicted of violating this is guilty of a misdemeanor and shall

be sentenced to serve under 90 days or more than one (1) year in county jail. (Health and Safety Code Section 11550 (a)).

Drug use during pregnancy may result in fetal damage and congenital disabilities, causing hyperactivity, neurological abnormalities, and developmental difficulties.

PREGNANCY

Gurnick Academy of Medical Arts provides students with a safe environment for clinical experiences and training. In compliance with regulations regarding pregnant students, female students have the option to inform program officials whether they are pregnant. With written notification to the Program Director, the student may change from one option to another during the pregnancy if all program objectives, courses, and competencies are completed.

However, if a student chooses to declare her pregnancy to program officials, she must provide written notification. Pregnant students may seek counseling from a radiation safety officer (RSO) or other qualified individuals. Upon student disclosure, the student will be provided a fetal dose monitor and instructions for use.

Associate of Science in Radiologic Technology and Associate of Occupational Science in Radiologic Technology Program students: Upon declaration of pregnancy, Gurnick Academy of Medical Arts will ensure compliance with the lower radiation exposure limit and dose monitoring requirements outlined in the Radiation Protection Policy.

A student may submit a written request to withdraw her declaration unquestionably at any time. A student who has decided to declare her pregnancy will be allowed to choose one option for completing their Gurnick Academy of Medical Arts training.

Options

1. Continuing the training without modification or interruption. This option means that the student agrees to attend and complete all classes, clinical assignments, and competencies in a manner consistent with her peers within the guidelines set forth by the instructors and Gurnick Academy of Medical Arts. The student must present a letter from a physician releasing the student to continue the training. Gurnick Academy of Medical Arts reserves the right to contact the physician to verify the student's physical activity level and ability to complete all clinical experience requirements.

2. The student may take a leave of absence for such a long period as is deemed medically necessary by the student's physician, at the end of which the student shall be reinstated to the status she held when the leave began. The student must make up all missed clinical and didactic hours and complete all the necessary competencies. This option timing is contingent upon an available student position in an appropriate clinical facility.

Associate of Science in Nuclear Medicine Technology students: Upon declaration of pregnancy, Gurnick Academy of Medical Arts will ensure compliance with the lower radiation exposure limit and dose monitoring requirements outlined in the Radiation Protection Policy. The student will then be counseled and review the U.S. Nuclear Regulatory Commission Appendix to Regulatory Guide 8.13, "Possible Health Risks to Children of Women Who Are Exposed to Radiation During Pregnancy."

A student may submit a written request to withdraw her declaration unquestionably at any time. A student who has chosen to declare her pregnancy will be allowed to choose one of the following options for completing the Gurnick Academy of Medical Arts training.

Options

1. Continuing the training with approval of the clinical site per the institution's radiation protection policy. As a result, the student elects to continue doing so at their risk. Neither the college nor the clinical affiliate can guarantee that the student would not exceed the occupational limits of 0.5 rem during the entire gestational period. This option means that the student agrees to attend and complete all classes, clinical assignments, and competencies in a manner consistent with her peers within the guidelines set forth by the instructors and Gurnick Academy of Medical Arts. The student must present a letter from a physician releasing the student to continue training. Gurnick Academy of Medical Arts reserves the right to contact the physician to verify the student's physical activity level and ability to complete all clinical experience requirements.

2. The student may take a leave of absence for such a long period as is deemed medically necessary by the student's physician, at the end of which the student shall be reinstated to the status she held when the leave began. The student must make up all missed clinical and didactic hours and complete all the necessary competencies. This option timing is contingent upon an available student position in an appropriate clinical facility.

Bachelor of Science in Radiation Therapy students: If a student chooses to declare her pregnancy to program officials, she must provide written notification to the Program Director that provides a name, date, estimated date of conception, and delivery. The student must sign the letter. Pregnant students may seek counseling from a radiation safety officer (RSO) or other qualified individuals. The academy will provide the student with a fetal dose monitor and instructions for use upon the student's declaration of pregnancy.

Upon declaration of pregnancy, the declared pregnant student will be given a secondary radiation monitoring device to be worn at waist level under any protective apparel.

A student may submit a written request to withdraw her declaration unquestionably at any time. A student who has decided to declare her pregnancy will be allowed to pick one option for completing their Gurnick Academy of Medical Arts training.

Options

1. Waive liability and decide not to withdraw voluntarily from the program and complete the program with no modification (if voluntarily declaring pregnancy). This option means that the student agrees to attend and complete all classes, clinical assignments, and competencies in a manner consistent with their peers within the guidelines set forth by the instructors and Gurnick Academy of Medical Arts. The student must present a letter from a physician releasing the student to continue the training. Gurnick Academy of Medical Arts reserves the right to contact the physician to verify the student's physical activity level and ability to complete all clinical experience requirements.
2. Temporarily withdraw from the program if and when the pregnancy interferes with your education (if

voluntarily declaring pregnancy). The student may exit the program and join the next cohort. If the student selects this option, the student will need to follow the program reinstatement policy. Because the didactic and clinical externships are offered in a lock-step fashion, it is impermissible for a student to continue classes and complete the externship out of sequence.

3. Withdraw declaration of pregnancy (if you previously voluntarily declared your pregnancy).

If a declared pregnant student receives a dose of 0.05 rem (0.5 mSv) in any month of pregnancy or greater than 0.5 rem (5 mSv) at any time during the pregnancy, the student will be removed from the externship until after delivery.

For students in the Dental Assistant, Associate of Occupational Science in Cardiac Ultrasound Technology, Associate of Occupational Science in Ultrasound Technology, Associate of Occupational Science in Vascular Ultrasound Technology, Associate of Science in Respiratory Therapy, and Associate of Science in Magnetic Resonance Imaging Programs, there is an additional option:

1. Students may also continue the training by modifying clinical assignments. This option means the student would choose to delay clinical assignments and competencies in areas high in potential hazardous exposure. However, to accomplish this, the training may need to be extended. The student must make up all missed clinical and didactic hours and complete all the necessary competencies. The student will present a letter from a physician releasing the student to continue training.

There is an additional option for students in the Dental Assistant, Associate of Science in Radiologic Technology, and Associate of Occupational Science in Radiologic Technology:

Students have the right to undeclare their pregnancies. Modifications will be determined on an individual basis per programmatic completion requirements.

STUDENT BEREAVEMENT

Recognizing that grief is challenging, every effort will ensure that a bereaved student can attend to family matters. The student will provide documentation of the death or funeral service to the Program Coordinator. A designated School Official will inform the student's instructors of the student's leave.

Immediate Family
Students are eligible for up to three (3) days of excused absence over five (5) consecutive calendar days for the death of a spouse, domestic partner, parent, child, grandparent, grandchild or sibling, or a corresponding in-law or step-relative.

Relative Living in the Student's Home
Students are eligible for up to three (3) days of excused absence over five (5) consecutive calendar days for the death of an uncle, aunt, niece, nephew, or first cousin living in the student's home.

Relative
Students are eligible for one (1) day of excused absence for the death of an uncle, aunt, niece, nephew, or first cousin. If the death of another family member or friend is not explicitly included within this policy, a bereaved student should petition for grief absence through the Program Coordinator.

Travel and Absences
Additional days may be granted depending on the miles needed. No additional excused absence days are allowed within a 150-mile (241.4 km) radius of the student campus. One extra excused absence day may be permitted between 150 miles (241.4 km) and 300 miles (482.8 km) of the student campus. Two additional

excused absence days may be taken beyond a 300-mile radius of the student campus. Outside the 48 contiguous United States, four further excused absence days may be approved.

Making up Clock Hours
Hours cannot be guaranteed, possibly affecting the student's graduation date and completion status depending on where the student is in the program and the nature of the Gurnick Academy of Medical Arts educational structure. The student must make up all hours missed and complete all the necessary competencies. Given proper documentation, didactic instructors will excuse the student from class, provide the opportunity to earn equivalent credit, and demonstrate evidence of meeting the learning outcomes for missed assignments or assessments. Making up Clinical Hours is also contingent upon an available student position in appropriate clinical facilities.

CHANGE OF NAME

Any changes to a student's current or former legal name require the following:

- One of the following:
    - a certified copy of their birth certificate
    - valid (current) passport
    - a marriage license issued by a county or city clerk
    - a divorce decree from a court of law
    - a court-ordered name change

- The second piece of identification (with the new name) must be a government-issued photo ID. Changes of Name Forms are available on www.gurnick.edu/student-forms/ or by asking a campus designee. Students must complete the Change of Name Form and bring the above-mentioned official documents in person to the Student Services Coordinator or Designated School Official located on their campus or mail notarized copies of documents with a cover letter explaining the change. If they mail the certified documents, Students must sign the cover letter and include their Gurnick Academy of Medical Arts student ID or social security number and date of birth. Mail should be sent to the student's campus.

The Student Services Coordinator or Designated School Official will photocopy the official documents evidencing the name change and file these documents in the appropriate student folder with the completed Change of Name Form.

STUDENT DRESS CODE

The Student Dress Code applies whenever the student is at the campus or a clinical site in a clinical or didactic setting.

Students must maintain a neat, clean, and professional appearance while attending Gurnick Academy of Medical Arts. This helps to ensure a positive teaching and learning environments for all students and is essential to the image and safe operation of Gurnick Academy of Medical Arts. Dress codes in the medical profession are common, and our dress code is designed to teach our students to adhere to policies and look professional. Our dress code identifies the student as a medical professional in training.

General Requirements
All students attending class on campus must wear school-designated scrubs and white professional medical shoes (non-porous material, leather or pleather, which can be easily cleaned and polished) during the didactic, laboratory, and clinical sites. The uniform consists of blue scrub tops and bottoms and a sweater. Students may

wear white short-sleeved or long-sleeved undershirts without visible designs for additional warmth. Individual programs may enforce a stricter dress code.

While attending a clinical site, students must adhere to the Gurnick Academy of Medical Arts and Designated Clinical Facility Policies. Violating the dress code policy may result in disciplinary action, including being sent home. Clinical sites requesting an exception to the Gurnick Academy of Medical Arts Dress Code Policy will need to provide their request in writing, and accommodations will only be made for that clinical site.

Exceptions or Additions to the Student Dress Code by Program

Physical Therapist Assistant (A.S. in PTA), Cardiac Ultrasound Technology (A.O.S. in CUT), Ultrasound Technology (A.O.S. in UT), and Vascular Ultrasound Technology (A.O.S. in VUT) Programs
Students must wear Khaki pants and Gurnick Academy of Medical Arts-supplied shirts for didactic sessions. Physical Therapist Assistants and Ultrasound students must wear the Gurnick Academy of Medical Arts supplied shorts and shirts for the lab. Women must wear a tank top or sports bra if shirts are removed.

B.S. in Diagnostic Medical Imaging Program
Students enrolled in B.S. in DMI, are not required to abide by the above dress code.

Bachelor of Science in Nursing (BSN) Program
Students in the BSN program are exempt from the above dress code for the externship portion of the program. However, students must dress appropriately for the facility they attend for their externship hours.

PERSONAL APPEARANCE AND HYGIENE

In addition to the above dress code, students must always maintain a neat and professional appearance and personal hygiene. The guidelines below are for the student's health, safety, professionalism, and the patient's comfort in being cared for by a medical professional in training. Kindly note that the following requirements are not all-encompassing. Circumstances that are not covered by this policy may include:

- Students with long hair must always keep it up and away from their faces.
- Students must wear their Gurnick Academy of Medical Arts Identification Badge at shoulder or chest height. (Clinical facilities may additionally require an identification badge issued by their department to be worn during the students' clinical experiences at their facility).
- Tattoos must be covered. Tattoos on the arms (including the upper arm, forearm, and wrists) must be covered by long sleeves. A white undershirt or turtleneck must cover tattoos on the chest and extend up the neck without visible designs. Tattoos that cannot be covered must not convey a message contrary to professional standards and must not pose a potential customer relations issue.
- Undergarments must be worn at all times.
- Fragrances must be avoided.
- Jewelry must be discrete and provide no risk to the wearer or patient. Visible piercing jewelry is not allowed.
- No head coverings, including hats, except for verified religious practices.
- Neatly trimmed, naturally colored fingernails; no long artificial nails are permitted.
- Facial hair must be closely trimmed.
- Any makeup must be minimal.
- Daily hygiene adhered to (shower, deodorant, oral care).
- This list is not meant to be exhaustive; other requirements may be applied as deemed professional by Gurnick Academy of Medical Arts.

CELL PHONE

Cell phones must always be turned off in class* and clinical settings. Students may use their cell phones on campus before or after class and during breaks in the posted designated areas or outside Gurnick Academy of Medical Arts. Students who do not comply with this policy are subject to disciplinary probation or expulsion at the discretion of the Gurnick Academy of Medical Arts administration.

**Please note that some instructors may allow restricted cell phone use in class for certain activities.*

ADMINISTRATION OF EXAMINATION

All electronic devices must be turned off while administering all evaluation forms and displayed within the instructors' view. All non-electronic personal belongings will be stored out of all class members' view by storing belongings under the chair or desk. There will be no talking or questions during the administration of evaluations. Forms of evaluation include but are not limited to quizzes, tests, and examinations. Students who do not comply with this policy are subject to disciplinary probation or expulsion at the discretion of Gurnick Academy of Medical Arts administration.

ELECTRONIC RECORDING

Gurnick Academy of Medical Arts prohibits video recording on academy grounds or at a clinical site by students or any other individuals who have not secured written permission from the administration of Gurnick Academy of Medical Arts. This policy protects the privacy of all students, faculty, staff, clinical site employees, and patients and protects the confidentiality and intellectual property of all instructional material and curricula.

Voice recording is solely permitted during a lecture class with the instructor's permission and when used for the educational purpose of an individual's studying resource. Any student violating this policy will be immediately expelled from Gurnick Academy of Medical Arts and will not be permitted to re-enroll per the Gurnick Academy of Medical Arts' Re-enrollment Policy's guidelines on expulsion due to disciplinary action.

VIDEO AND AUDIO SURVEILLANCE NOTIFICATION

When on Gurnick Academy of Medical Arts premises, individuals enter an area where video and audio recording may occur. By entering the premises, individuals consent to video and audio recording and release Gurnick Academy of Medical Arts, its officers, employees, and each and all persons involved from any liability connected with the video and audio recordings.

To promote the safety of employees and students and the security of its facilities, Gurnick Academy of Medical Arts may conduct video and audio surveillance of any portion of its premises at any time. These video cameras will be positioned appropriately within and around Gurnick Academy of Medical Arts. The only exception to surveillance is within private areas such as restrooms.

By entering the premises, individuals waive any right to inspect or approve any video or audio recordings taken by Gurnick Academy of Medical Arts or the person or entity designated to view recordings.

TRANSFER

Within the Program

Students may be considered for transfer from one cohort into another within the same program if:

- Students are returning from LOA by the expected return date
- Students are currently Active (students have started the program) and wish to:
  - Transfer from AM/PM or PM/AM
  - Transfer to another campus

Students may not be eligible for transfer if there is a large discrepancy in cost, length, start date, and availability of programs and seats in the preferred group or campus.

To Another Program
Students not eligible for transfer within the program may withdraw from the current program and enroll in the desired program. Please see the Re-Enrollment Policy for further details.

Transfer students are not subject to paying a $100.00 Registration Fee.

TRANSFERABILITY OF CREDITS AND CREDENTIALS

The transferability of credits you earn at Gurnick Academy of Medical Arts is at the discretion of the institution to which you may seek to transfer. Acceptance of the (degree, diploma, or certificate) you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer.

If the (credits, degree, diploma, or certificate) you earn at this institution are not accepted by the institution you seek to transfer to, you may be required to repeat some or all of your coursework there. Thus, you should confirm that attendance at this institution will meet your educational goals. This may include contacting an institution you may seek to transfer to after attending Gurnick Academy of Medical Arts to determine if your (credits or degree, diploma, or certificate) will transfer.

UNIT OF CREDIT

Academic credit is measured in quarter credit, semester credit, or clock hours. Typically, one hour of instructional time is defined as fifty minutes. Credits solely earned at Gurnick Academy of Medical Arts determine progress toward program completion. Credits are not usually transferable to another school, college, or university.

Quarter credit hours are determined as follows:
10 hours of lectures = 1 quarter credit hour
20 hours of laboratory = 1 quarter credit hour
30 hours of clinical = 1 quarter credit hour

Semester credit hours are determined as follows:
15 hours of lectures = 1 semester credit hour
30 hours of laboratory = 1 semester credit hour
45 hours of clinical = 1 semester credit hour

ESTIMATED TIME FOR OUTSIDE-OF-SCHOOL PREPARATION HOURS (OSPH)

The OSPH policy estimates the number of hours it takes students to perform outside-of-school preparation activities. Such activities that will require students to study outside regularly scheduled hours in school include but are not limited to

- Homework assignments
- Test and quiz preparations

- Reports competitions
- Other assignments

The number of hours it takes students to perform OSPH is estimated using the following methodology:

> "The average adult reading rate is 250 words per minute with 70% comprehension. [Smith, Brenda D. "Breaking Through: College Reading" 7th Ed. Longman, 2004]. Reading for learning (100-200 wpm), reading for comprehension (200-400 wpm), and skimming (400-700 wpm). With an average of 400 words per page, at 200 words per minute, a student should read around 30 pages per hour (200 words per minute x 60 = 12,000 words per hour divided by 400 = 30 pages per hour). Therefore, we are using 25–30 pages per hour. Audiobooks are recommended to be 150–160 words per minute or 22 pages per hour. Reading on Monitor: 180-200 wpm or 27 pages per hour. Slide presentations are closer to 100 wpm or 15 pages per hour."

OSPH-related activities may be graded. Quarter Credit programs: Students must spend at least five (5) hours of OSPH per quarter credit (didactic or lab) to receive credit. Semester Credit program: Students must spend at least 7.5 hours of OSPH per semester credit (didactic or lab) to receive credit.

STUDENT GRIEVANCE AND APPEALS

Gurnick Academy of Medical Arts is dedicated to fair treatment and professional conduct with students. In compliance with the Office of Civil Rights (OCR) recommendations, this policy and procedure about grievances of various natures, including but not limited to academic, discrimination, harassment, and bullying.

Students are first encouraged to discuss any concerns or questions regarding policies or decisions rendered directly with the party with whom the student has a concern. Should any student have a complaint, the student is asked to discuss the matter within five days directly with an instructor or Administrative Manager/Designated School Official who will initiate an informal process to sincerely settle the dispute. That informal process will involve three steps:

1. An effort to define the problem.
2. An effort to identify acceptable options for resolution.
3. An attempt to resolve the conflict by applying one or more acceptable options for resolution.

Should the student feel the issue has not been satisfactorily resolved, they may, within five (5) days, file a written complaint directly with the Program Director. The Program Director will do their best to resolve the matter for the student and Gurnick Academy of Medical Arts.

The Program Director will try to resolve or alleviate the complaint or grievance that the student presents within five (5) days of receipt. If, after following these steps, the Program Director cannot remedy the issue, and the student is still unsatisfied with the solution. The Campus Director will investigate all written complaints, attempt to resolve all such complaints and record an entry into the campus's official log.

The formal process will require the student's submission of a written description of the specific complaint and the desired remedy, accompanied by any available documentation. The Campus Director will have five (5) days to respond to the grievance and determine proper action. The Campus Director may notify the student of the decision reached. Students may also follow the Appeals Procedures outlined below for further action if necessary.

To provide students with a neutral mechanism for the reconsideration of disciplinary actions or performance evaluations that would necessitate the dismissal of the student from a program, Gurnick Academy of Medical Arts has a designated Appeals Committee consisting of the following individuals: Chief Academic Officer, Chief Operations Officer, Chief Executive Officer, and Vice President, Campus Operations. Note: A student must stay

within the appeal process and not contact the Appeal Committee members for any reason unless directed to do so by a Campus Director or Committee member. A student who goes outside the procedure of this policy will be denied their appeal.

Should the Campus Director be unable to remedy the issue and the student is still unsatisfied with the outcome, the student may ask the Campus Director, in writing, to forward all written grievances and correspondence to the Appeals Committee. The Appeals Committee will have five (5) working days to respond to the appeal and determine proper action.

All grievances and appeals will be handled discreetly. Dissemination of the resolution will be at the discretion of the Campus Director or Appeals Committee and on a "need-to-know" basis. The decisions rendered by the Appeals Committee will be the final and binding decision of Gurnick Academy of Medical Arts.

At any time, a student or any member of the public may file a complaint about Gurnick Academy of Medical Arts with the Bureau for Private Postsecondary Education by calling 888.370.7589 toll-free or completing a complaint form obtainable on the bureau's Internet website at www.bppe.ca.gov.

Associate of Science in Physical Therapist Assistant (A.S. in PTA) at Gurnick Academy of Medical Arts is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, Virginia 22305-3085; telephone: 703-706-3245; email: accreditation@apta.org; website: http://www.capteonline.org. If you need to contact the program/institution directly, please call 650- 425-9672 or email cammenti@gurnick.edu.

All VN students may contact the Board of Vocational Nursing and Psychiatric Technicians regarding the education program. The BVNPT contact info is BVNPT 2535 Capital Oaks Drive, Suite 205 Sacramento, CA 95833-2945 Phone: 916-263-7800 Fax: 916-263-7859 Web: www.bvnpt.ca.gov.

Students in a Joint Review Committee on Education in Radiologic Technology (JRCERT) accredited program have the right to contact the JRCERT regarding concerns about their education program. The JRCERT contact information is 20 North Wacker Drive, Suite 2850, Chicago, IL 60606-3182. Phone: (312) 704-5300. E-mail is mail@jrcert.org. The website is www.jrcert.org.

Students may be withdrawn either by self-withdrawal or by academic withdrawal. A student who self-withdraws will be processed through the drop process. Students who are academically withdrawn can dispute the withdrawal through the student grievance and appeals process. To initiate the grievance and appeals process, the students must submit a written appeal within five (5) days of being notified of the withdrawal. After five (5) days, the student will be dropped via the drop process if no written appeal has been submitted.

The student grievance and appeals process will start if a written appeal is submitted within the allotted time. The student will be placed on Active Warning status and must attend all instruction until the grievance and appeals process has been completed and a final decision has been made. Please see the Student Grievance and Appeals section for detailed information.

COPYRIGHT

It is the policy of Gurnick Academy of Medical Arts to respect the copyright protections given by federal law to owners of texts, publications, documents, works of art, digital materials, and software and to abide by all license and contractual agreements in the provision of resources and services to Gurnick Academy of Medical Arts.

Gurnick Academy of Medical Arts community members are advised to become as knowledgeable as possible regarding copyright law and this policy. Individuals who willfully disregard this policy and guidelines do so at

their own risk and may be subject to personal liability. Gurnick Academy of Medical Arts regards a violation of this policy as a serious matter. Any such violation is without its consent and is subject to disciplinary action, including termination of Gurnick Academy of Medical Arts employees and expulsion of students.

The use of copyrighted material(s) is permissible with written permission from the owner(s). The Campus Director can provide a sample request letter. When consent is received, please provide a copy of the signed letter to the Campus Director. The Campus Director will review the letter's content and either give or deny the request to utilize the texts, publications, documents, works of art, digital materials, or software requested.

Gurnick Academy of Medical Arts prohibits using its equipment to access, use, copy, reproduce, or make available to others, including unauthorized peer-to-peer sharing, any copyright-protected materials or software except as permitted under copyright law or specific license. Specifically, users are prohibited from

- Copying or reproducing any texts, publications, documents, works of art, digital materials, and software on Gurnick Academy of Medical Arts' photocopiers, fax machines, or computing equipment, except as expressly permitted in writing by the owner. Furthermore, users may not use unauthorized copies of texts, publications, documents, works of art, digital materials, and software on-site at Gurnick Academy of Medical Arts facilities, owned computers, or personal computers housed in the institution's facilities.
- Copying, downloading, or uploading audio recordings, music, movies, videos, and other copyright-protected files electronically without the owner's written permission.
- Posting copyrighted material on a Gurnick Academy of Medical Arts-owned website (official or personal).

Additionally, faculty, staff, administrators, and students must:

- Fully read, understand, and abide by all terms of software license agreements.
- Where applicable, remove any copyrighted material from Gurnick Academy of Medical Arts facilities or download it from the web after the expiration of the evaluation period.
- Not accept unlicensed software from any third party.
- Not install, nor direct others to install, illegal copies of computer or unlicensed software onto any institution-owned or operated computer system.

Gurnick Academy of Medical Arts does not routinely monitor the network for illegal activity violating institutional policy. However, Gurnick Academy of Medical Arts reserves the right to monitor network use for operational needs and ensure compliance with applicable laws and institutional policies. Gurnick Academy of Medical Arts has a legal duty to comply with applicable laws protecting third parties' intellectual property rights and respond to formal legal complaints it receives.

Gurnick Academy of Medical Arts reserves the right to authorize removing any illegal copyright material or disconnecting a user's account if the user represents a severe threat to system integrity or is a liability to the institution. Gurnick Academy of Medical Arts may refer suspected violations of applicable law to appropriate law enforcement agencies.

Any provision of this policy ruled invalid under the law shall be deemed modified or omitted solely to the extent necessary to comply with said law. The remainder of the policy shall continue in full force and effect.

Penalties for copyright infringement include civil and criminal penalties. In general, anyone liable for civil copyright infringement may be ordered to pay either actual damages or "statutory" damages affixed at not less than $750.00 and not more than $30,000.00 per work infringed. A court may award up to $150,000.00 per work infringed. A court can also assess costs and attorneys' fees at its discretion. See Title 17, United States Code,

Sections 504, 505.

Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five (5) years and fines of up to $250,000.00 per offense.

For more information, please see the U.S. Copyright Office website at www.copyright.gov, especially their FAQs at www.copyright.gov/help/faq.

FILE SHARING

The computers at Gurnick Academy of Medical Arts are strictly for supporting the school's mission and are only used by our students, faculty, and staff. No user should perform any action which may be deemed inappropriate or dangerous. All use of Gurnick Academy of Medical Arts' computers should be within the ethical standards of Gurnick Academy of Medical Arts. This includes but is not limited to plagiarism, illegal file sharing, or the distribution of copyrighted material.

Gurnick Academy of Medical Arts students, faculty, and staff violating this policy are subject to disciplinary probation, suspension, or termination at the discretion of Gurnick Academy of Medical Arts administration. In addition, any user violating State or Federal laws is responsible for the consequences of their actions, including civil action or criminal prosecution.

PLAGIARISM

Plagiarism is defined as "literary theft," i.e., the presentation and passing off of one's original ideas, words, or writings of another. One common violation is the use of another student's work without acknowledgement. The most common violation involves a student using published materials and failing to acknowledge the sources.

Copying a direct quotation without using quotation marks or crediting the source is considered plagiarism. Another form of plagiarism consists of paraphrasing or using an original idea without properly introducing or documenting the paraphrased or borrowed idea.

The ideas and words are the author's property. They are protected by law and must be credited when borrowed. To avoid plagiarism, one should:

- Use quotation marks for all quoted materials.
- Paraphrase material using their style and language rather than merely rearranging sentences.
- Use footnotes or other accepted methods to credit the author.
- Provide a bibliography for the sources noted in the footnotes.
- Introduce the quotation or paraphrase with the author's name of the borrowed material.

Artificial intelligence (AI) content may be plagiarized from other sources. Using this content without properly citing the source will also constitute plagiarism. It is the student's responsibility to verify all information before submitting the assignment. Submitted documents will be sent through Turnitin, a software plagiarism checker to detect original work.

A Similarity report will be generated, including what percentage of the document's content matches Turnitin's databases. This is called the similarity score. Unless specified otherwise by the student or employee handbook, the similarity score should be no more than 25%. The Similarity Report also contains an AI score that determines the amount of the document written by an AI tool.

Unless the student or employee handbook specifies otherwise, the AI score should be no more than 25%. Please refer to the "Use of AI Tools" in the student catalog and student handbook for details on the permitted use of AI for each program.

STUDENT SERVICES

Student Identification Card

Students receive student ID badges at the beginning of their program; it is part of their Gurnick Academy of Medical Arts uniform. Initial ID badges or replacements are provided by Student Services or Front Desk. The student is responsible for all applicable fees if a replacement identification card is required.

All students must always wear their Student Identification Card while in educational settings. Failure to do so could impact the student's ability to attend instruction to complete the program's graduation requirements or obtain certification after completion.

Academic Advisement

All applicants and students may discuss program and course selection with the applicable Program Director or Admission Advisor. An appointment is required.

Accessibility for Disabled Students

All campuses of Gurnick Academy of Medical Arts have accessible parking spaces available. Students with disabilities who require assistance are encouraged to disclose this information to the ADA coordinator to determine a plan of action for support services.

Orientation of New Students

Orientation is conducted before the beginning of each program to introduce new students to Gurnick Academy of Medical Arts. During this orientation, administration members familiarize students with Gurnick Academy of Medical Arts facilities and explain academic policies and regulations. Orientation may occur in residential or virtual modalities or combine both. Students are required to complete all orientation tasks and meetings before the start of their program.

Tutor Locator Service

Students who experience difficulty or have learning challenges will be assisted in locating qualified tutors, as Gurnick Academy of Medical Arts does not offer a tutoring program. Interested students should contact their Program Director. The Program Director can arrange individual tutoring to help struggling students catch up with the program and improve their academic progress.

Library Resources

LIRN is a 3rd party Library and Librarian Solution that Gurnick Academy partners with to provide comprehensive library resources and librarians to ensure that all faculty and staff are knowledgeable about library resources. LIRN has numerous online resources from various vendors (including databases containing articles from periodicals [peer reviewed, academic, and trade], eBook collections, video collections, or interactive applications.

Gurnick Academy has selected resources relevant to specific areas of study at our institution. All LIRN resources are intended for higher education to promote academic study, research, and growth, including all areas of General Education. Gurnick Academy is supported by a team of LIRN Librarians who have earned a Master's

degree in Library Science (MLS), Librarianship, or Library and Information Studies (MLIS) from a program accredited by the American Library Association (ALA).

LIRN's librarians are not faculty and/or staff of the subscriber institution. LIRN Librarians provide library support for 84 hours each week. Monday through Friday, 8:00 AM to 10:00 PM EST, and Saturday and Sunday, 12:00 PM to 7:00 PM EST.

Computer and Internet Resources

All campuses are fully equipped with Wi-Fi for internet access while on campus. Loaner tablets or laptops may also be available for check-out at the front desk.

Student Information System

The Student Information System (GEGI) is available to students for communications with instructors, student profile settings, attendance tracking, grades and/or unofficial transcript(s), and record keeping purposes.

Employment Assistance

Gurnick Academy of Medical Arts provides job search assistance to graduates in good standing as long as the graduate continues to cooperate with the academy. Gurnick Academy of Medical Arts does not guarantee employment upon graduation. Embarking on a course of education typically enhances one's thinking and potential productivity.

The robust programs offered at Gurnick Academy of Medical Arts require significant time and effort. Due to market fluctuations, personal issues, or other factors, there is also the risk that some graduates may be unable to find employment in their training field within a time acceptable to them. Therefore, they may pursue other career options; some use their training indirectly, and some do not.

Job search assistance will be provided in the form of some or all of the following:

- Interviewing skills seminars
- Resume preparation seminars
- Job search techniques seminars
- Referrals to potential employers

In some allied health occupations, many jobs begin as part-time, averaging 20 to 25 hours per week, with a potential opportunity to progress to or convert to full-time employment.

Finding employment is a joint effort between the student and Gurnick Academy of Medical Arts. Gurnick Academy of Medical Arts holds workshops and meetings with students and graduates. The student must agree to cooperate with our Career Services Coordinators in conducting a job search, including providing a resume, participating in scheduled workshops, attending interviews, and completing all required assignments. Further, students should understand the effort it takes to find a job upon program completion is commensurate with the program itself.

Students must commit to a reasonable timeframe to complete the job search process, which typically takes several months beyond graduation, to maximize chances for success. During this time, the student should maintain regular weekly contact with the school. Students should also understand that a potential employer may consider a job applicant's attitude, grades, attendance, personal performance on an interview, work background, educational background, and other intangible factors in hiring the applicant.

Gurnick Academy of Medical Arts programs are comprehensive and are designed to prepare students for entry-level positions. After obtaining an entry-level position, additional training is usually required to develop

incremental skills and protocols specific to that position. An applicant for an entry-level position must adopt a "get your foot in the door" approach by maintaining flexibility regarding salary, hours, location, and potential relocation to secure such employment.

Housing

Gurnick Academy of Medical Arts does not assume responsibility for student housing, does not have dormitory facilities under its control, nor offers student housing assistance. According to www.rentals.com, rental properties in the following cities start at approximately the following rates per month: San Jose, CA, $1,700.00; Concord, CA, $1800.00; Modesto, CA, $1150.00; Fresno, CA, $800.00; Sacramento, CA, $1000.00; and Van Nuys, CA, $1,500.00.

Student Resources

Students can obtain a list of local support services from Student Services or Front Desk. The list of services includes, but is not limited to, safety class providers, counseling services, tutoring services, medical care services, financial assistance services, and public transportation.

Learning Disabilities

At Gurnick Academy of Medical Arts, we understand and agree that a student's learning disability or learning disorder/difficulty is when a student has difficulty learning using a typical approach. The causes vary; however, the causal factor is typically a disorder that affects the brain's ability to receive and process information. In other words, learning disabilities are neurologically based conditions that get in the way of fitting attainment, management, and use of skills and knowledge. Every effort is put forth to ensure that students, faculty, and staff with disabilities at Gurnick Academy of Medical Arts receive the services and accommodations to which they are entitled.

We also think that the learning disorder can make it problematic for a person to learn as quickly or in the same way as someone unaffected by a learning disability. People with learning disabilities have trouble performing specific skills or completing tasks if they are left to figure things out themselves or taught in conventional ways.

The diagnosis of a learning disability in an adult requires documentation of at least average intellectual functioning along with deficits in such areas as

- Auditory processing
- Visual processing
- Information processing speed
- Abstract reasoning
- Memory (long-term, short-term, visual, auditory)
- Spoken and written language skills
- Reading skills
- Mathematical skills
- Visual-spatial skills
- Motor skills
- Executive functioning (planning)

Gurnick Academy of Medical Arts believes that a learning disability is not a temporary disorder. This disability type impacts how students with average or above-average intelligence process incoming, outgoing, or both.

Learning disabilities are often inconsistent. They may be manifested in only one specific academic area, such as math or foreign language. There might be problems in grade school, none in high school, and a return during higher education.

Learning disabilities are not the same as mental retardation or emotional disorders. Prevailing accommodations for students with learning disabilities are alternative print formats, taped lectures, notetakers, adaptive technology, course substitutions, early syllabus, exam modifications, priority registration, and study skills and strategies training.

Students may be required to submit documentation verifying the nature and extent of the disability receiving any accommodations. In this case, the documentation must be provided to Gurnick Academy of Medical Arts on professional letterhead and contain the diagnosing professionals' assessment dates, signatures, titles, and license/certification numbers. Diagnoses and disabilities that do not have the required information may not be used to determine eligibility for academic accommodations.

Disability Accommodation & Grievance Policy

1. **Statement of Non-Discrimination and Accommodation**
    a. Gurnick Academy of Medical Arts, LCC ("the Institute") does not discriminate based on disability.
    b. Individuals with disabilities are entitled to a reasonable accommodation to ensure that they have full and equal access to the educational resources of the Institute, consistent with Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794) ("Section 504") and the Americans with Disabilities Act (42 U.S.C. § 12182) ("ADA") and their related statutes and regulations.
    c. Section 504 prohibits discrimination based on disability in any program or activity receiving federal financial assistance. The ADA prohibits a place of public accommodation from discriminating based on disability. The applicable laws and regulations may be examined in the office of the ADA Compliance Coordinator. The Compliance Coordinator has been designated to coordinate the efforts of the Institute to comply with Section 504 and ADA.

    ADA Compliance Coordinator: Jason Ho
    1641 N. First Street
    San Jose, CA 95112
    (408) 850-3746
    jho@gurnick.edu

2. **Requests for Accommodation**
    a. Individuals with disabilities requesting reasonable accommodation must contact the ADA Compliance Coordinator. Disclosure of a disability or a request for accommodation made to a faculty or staff member besides the ADA Compliance Coordinator will not be treated as a request for accommodation. However, if a student discloses a disability to faculty or staff members, they must direct the student to the ADA Compliance Coordinator.
    b. The ADA Compliance Coordinator will provide a student or applicant with an **Accommodation Request Form**.
    c. Reasonable accommodations are available for students and applicants with appropriate disability documentation. Such documentation should specify that a student has a physical or mental impairment and how that impairment substantially limits one or more major life activities. Generally, the supporting documentation must be dated less than three (3) years from the date a student requests reasonable accommodation and must be completed by a qualified professional specializing in the student's disability, as enumerated below.

Table 22.

Disability	Qualified Professional
Physical disability	MD, DO
Visual impairment	MD, ophthalmologist, optometrist

Mobility, orthopedic impairment	MD, DO
Hearing impairment	MD, Audiologist (Au.D.) *Audiology exam should not be more than a year old
Speech and language impairment	Licensed speech professional
Learning disability	Ph.D. Psychologist, college learning disability specialist, and other appropriate professional
Acquired brain impairment	MD neurologist, neuropsychologist
Psychological disability	Psychiatrist, Ph.D. Psychologist, LMFT, or LCSW
ADD/ADHD	Psychiatrist; Ph.D. Psychologist, LMFT, or LCSW
Other disabilities	MD who practices or specializes within the field of the particular disability.

Documentation used to evaluate the need and reasonableness of potential accommodations may include the following:

- A licensed professional's current medical diagnosis and date of diagnosis
- Evaluation of how the student's disability affects one or more of the major life activities and recommendations
- Psychological and emotional diagnostic tests
- Functional effects or limitations of the disability
- Medications and recommendations to alleviate the effects or limitations.

The Institute may request additional documentation as needed. At its discretion, the Institute may waive the requirement for medical documentation to support accommodation requests that relate to obvious impairments and are *de minimis* (unimportant) in nature.

d. After the ADA Compliance Coordinator receives the Request Form and the required documentation, they will engage the student or applicant in an interactive process to determine reasonable accommodations.
e. If the student or applicant is denied the requested accommodation, they may file a grievance using the Grievance Process below. They also may file a complaint with the U.S. Department of Education's Office for Civil Rights or a similar state entity.
f. The Institute will make appropriate arrangements to ensure disabled individuals are provided other accommodations, if required, to participate in this grievance process. The ADA Compliance Coordinator will be responsible for such arrangements.

3. **Grievance Process**
   a. The Institute has adopted an internal grievance procedure, providing prompt and equitable resolution of complaints alleging any action prohibited by Section 504 of the ADA.
   b. Anyone who believes they have been subjected to discrimination based on disability, including disagreements regarding requested accommodations, may file a grievance under the procedure outlined below. The Institute will not retaliate against anyone who files a grievance or cooperates in the grievance investigation.
   c. Procedure
      i. Grievances must be submitted to the ADA Compliance Coordinator

Jason Ho
1641 N. First Street
San Jose, CA 95112
(408) 850-3745
jho@gurnick.edu

Grievances must be submitted to the ADA Compliance Coordinator within thirty (30) days of the person filing the grievance becoming aware of the alleged discriminatory action.

ii. A complaint must be in writing, containing the name and address of the person filing it. The complaint must state the problem or action alleged to be discriminatory and the remedy or relief sought.

iii. The ADA Compliance Coordinator (or their trained designee) shall investigate the complaint and allow all interested individuals to submit relevant evidence. The Complainant may also present witnesses relative to the complaint. The ADA Compliance Coordinator will maintain the files and records of such grievances.

iv. All reasonable efforts will be made to provide a written determination to the student or applicant within 30 days of filing. The ADA Compliance Coordinator will advise the student and provide an update about the investigation status should a written decision not be made within 30 days of the filing. The student may also contact the ADA Compliance Coordinator at reasonable intervals to inquire about the investigation status.

v. The person filing the grievance may appeal the decision of the ADA Compliance Coordinator by writing to the following:

Fred Faridian
Vice President, Campus Operations
1641 N. First Street
San Jose, CA 95112
(408) 850-3777
ffaridian@gurnick.edu

within 15 days of receiving the ADA Compliance Coordinator's decision. The Chief Operating Officer shall issue a written decision responding to the appeal no later than 30 days after its filing.

vi. The availability and use of this grievance procedure do not prevent a person from filing a complaint of discrimination based on disability with the U. S. Department of Education's Office for Civil Rights and a similar state agency.

vii. The Institute will take all steps to prevent the recurrence of any harassment or other discrimination and to correct discriminatory effects where appropriate.

Consumer Protection

A student receiving a loan is responsible for repaying the loan amount, including interest, less the refund amount. If the student receives federal financial aid funds, the student is entitled to a refund of the money not paid from federal aid programs.

Gurnick Academy of Medical Arts has not entered into a transfer or articulation agreement with any other college or university. Gurnick Academy of Medical Arts does not have a pending petition in bankruptcy, is not operating as a debtor in possession, and has not filed a petition within the preceding five (5) years. Neither has it had a petition in bankruptcy filed against it within the preceding five (5) years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code.

As a prospective student, you must review this catalog before signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided before signing an enrollment agreement.

The student may direct questions not satisfactorily answered by this catalog or Gurnick Academy of Medical Arts to the Bureau for Private Postsecondary Education at 1747 North Market, Suite 225, Sacramento, CA 95834 or

P.O. Box 980818, West Sacramento, CA 95798-0818, www.bppe.ca.gov, toll-free telephone number (888) 370-7589 or by fax (916) 263-1897.

ACADEMIC INTEGRITY

Gurnick Academy of Medical Arts students must maintain integrity in all academic pursuits. These include writing papers, examinations, assignments, records, and other details relative to the assessment of student performance. Integrity and honesty are essential qualities of all medical workers. The faculty does not want dishonest students since that attitude and perspective risk patients' health and lives. Any dishonesty regarding these matters is subject to censure or penalty (including but not limited to expulsion) proportionately to the seriousness of the action.

Dishonesty includes:

- Copying answers of another person or individuals during an examination,
- Secreting (hiding) unauthorized materials to assist in an examination,
- Plagiarism, taking as one's original statements those of another without giving due credit to the author, even though such material may have been restated in one's own words,
- Fraudulently obtaining test information, falsifying records, transcripts, recommendations, or other documents indicative of student qualifications.

Gurnick Academy of Medical Arts also considers the following serious breaches of integrity:

- Falsification of patient records.
- Breach of patient confidentiality.
- Taking property or drugs from clinical sites or patients.
- Felony convictions.
- Endangering patients due to psychological impairment or intoxication with alcohol or drugs.
- Falsification of assignments to be conducted on patients or community members.
- Having someone else complete your written tasks and submitting them as your work.

Proportionally, the seriousness of the action, censure, and penalty may extend from a failing grade of the work in question to expulsion from the program. Ordinarily, resolving the issues lies with the faculty member and the student.

- "Statement on Cheating and Plagiarism: Cheating includes all actions by a student intended to gain an unearned academic advantage by fraud or deception. Plagiarism is a form of cheating that misuses published and unpublished works by misrepresenting the material used as one's original work. Plagiarism includes using books, articles, class notes, web sources, & audiovisual resources. Penalties for cheating and plagiarism range from a "0" or "F" on an assignment, a course grade of "F," and school expulsion."
- "Statement on Disruptive Classroom Behavior: In the classroom or laboratory environment, you must respect the rights of others seeking to learn, respect the instructor's professionalism, and honor the differences of viewpoints. Student conduct which disrupts the learning process shall not be tolerated and may lead to disciplinary action and removal from class."
- "Syllabus is Subject to Change: This syllabus and schedule are subject to change due to extenuating circumstances. If you are absent from class, you must check on announcements made while absent."

Professional Behavior Objectives

1. Demonstrate Professional Behavior.
    - Appear at the clinical agency, whether for patient assignment or care, appropriately dressed (name pin and School badge), consistent with the agency dress code.

- Present a professional appearance concerning neatness and personal hygiene.
- Arrive at the clinical setting on time and notify staff and instructor(s) when leaving or returning to patient care or the agency.
- Notify the clinical agency and instructor promptly when unable to report to the clinical assignment.
- Notify the instructor of any physical or psychological conditions limiting the ability to perform safe, effective care.
- Report for clinical intoxication with alcohol and mind-altering drugs.
- Do not discriminate against the clients based on race, creed, national origin, physical disability, sexual preference, or disease entity.
- Act courteously towards staff, interdisciplinary team members, and faculty.
- Avoid using profane language with clients and staff.

2. Provide Safe Care Based on Scientific Principles
    - Prepare for client care by acquiring theory and knowledge essential to the care of assigned clients (e.g., prepare drug cards, calculate drug dosages, describe the treatment, research procedures, etc.).
    - Implement safe care based on scientific principles (e.g., asepsis, physical and psychological injury protection, correct medicine, and administration).

3. Demonstrate Ethical Behavior
    - Maintain confidentiality of all client, family, and agency information.
    - Inform the instructor and staff of any unsafe practices observed in the clinical setting.

Failure to comply with these objectives will result in a failing grade for the work in question or expulsion from the program.

PROGRAM DELIVERY

The instructional delivery for Gurnick Academy of Medical Arts programs is either a blended format or full-distance education. For blended programs (A.O.S. in RC, A.O.S. in RT, A.O.S in CUT, A.O.S in VUT, A.O.S. in UT, A.S. in MRI, A.S. in OTA, A.S. in PTA, A.S. in Nursing, A.S. in VN, A.S. in RT, A.S. in NM, B.S. in Nursing, DA, DXA, MA, XTMAS, VN), clinical/practicum hours are completed at an assigned clinical site(s). Simultaneously, lectures and labs may be held in a distance education format or on campus through direct classroom instruction. The A.S. in NM, B.S. in DMI, B.S. in RT, and MSN programs are full distance education. Limited online and hybrid courses are available for prerequisite courses.

ELECTRONIC BOOKS

Disbursements for non-term programs are made following the SAP evaluation and the disbursement review. Students must meet the SAP requirements and complete the clock or credit hours and weeks in the payment period for the scheduled disbursement to be made.

Educational materials, including books, are distributed both digitally and physically. While the primary methods involve digital distribution, physical books are available through specific programs. Per federal regulations set by the U.S. Department of Education, students are not required to use electronic books (e-books) and may request to opt out of any e-book services. For further details regarding the opt-out process, timeline, and booklists, please see an Admission Advisor or the Program Director.

GENERAL EDUCATION, TECHNICAL EDUCATION & PROFESSIONAL EDUCATION

General Education courses are required of all students pursuing an Associate or Bachelor level program. General Education courses are identified by italic letters and numbers. General Education prepares students to think broadly and have the general skills for life needed in the ever-changing world. General Education courses assist students in building a foundation for Technical and Professional Education and developing habits to pursue lifelong learning.

Technical Education within the concentration for which the degree is awarded is designed to assist students in developing the skills, attitudes, and knowledge necessary for immediate job opportunities in their chosen field of study. Furthermore, Technical Education allows students to be technically prepared upon graduation and develop lifelong learning habits.

Professional education requires students to think critically and master complex knowledge and skills through formal education and practical experience. Professional education is subject to strict codes of conduct, enshrining rigorous ethical and moral obligations. Professional standards of practice and ethics for a particular field are typically agreed upon and maintained through widely recognized professional associations.

General education requirements may vary among programs. Some programs may require taking General Education courses, advancing to technical and professional courses, or being accepted. Others may intersperse general education throughout the program.

ENGLISH INSTRUCTION

Gurnick Academy of Medical Arts does not offer English as a Second Language. All instruction occurs in English.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS

For students to be considered in good academic standing, they must be making Satisfactory Progress while pursuing their program of study. Students must achieve a level of competence in all didactic and laboratory coursework. The clinical environment is consistent with the expertise required to pass the licensing exams.

Satisfactory Progress measurements consist of Qualitative and Quantitative Measurements. Qualitative and Quantitative Measurements are measured when the student has attended the scheduled clock hours of each payment and after each program-required module. The Grade Point Average and the Rate of Progress/Passed Measurement are then calculated.

Qualitative Measurements

The Qualitative Measurement portion consists of a student's grades, calculated into a cumulative Grade Point Average (GPA). The GPA is calculated on a weighted scale, using course hours and quality points based on the course's final grade. The GPA is the calculated average course grades for the entire program. A student must maintain a minimum GPA of 2.00 or a "C" to be considered to be making Satisfactory Progress.

Students must obtain 75% in module I, 77% in module II, and 80% in modules III and IV for the Vocational Nurse program.

Students must obtain an 80% (B) in each course for the Master of Nursing Nurse program.

For courses that are paired, students must successfully pass both courses. A failure in one of the courses constitutes a failure in the paired course(s). Both courses will have to be retaken at the same time.

The grading system is defined as follows for all programs.

Table 23. *Qualitative Measurements.*

Letter Grade	Numeric Grade	Description Legend	Quality Points
A	90 – 100%	Excellent	4
B	80 – 89%	Good	3
C	75 – 79%	Satisfactory	2
D	65 – 74%	Unsatisfactory	1
F	0 – 64%	Failure	0
P	_	Pass (Clinical)	N/A
F	_	Fail (Clinical)	N/A
W	_	Withdrawn	0
I	_	Incomplete	0
R	_	Repeat	N/A
T	_	Transfer Credit	N/A
TO	_	Tested Out	N/A

The student GPA calculation is weighted based on the number of quality points earned. Quality points earned are determined by the number of hours assigned to a particular course multiplied by the quality points awarded for the letter grade earned in this course. The total quality points are divided by the total hours completed to determine the GPA.

For example, a course is defined as being 24 clock hours, and the final grade received is a “C.” The chart above illustrates that the “C” grade is worth 2.00 quality points. For a 24-hour course, the total number of quality points awarded would be 24 times 2.00 or 48 total quality points. The total calculated quality points are then divided by the number of clock hours completed to determine the GPA.

Didactic and laboratory courses with grades of “A,” “B,” “C,” “D,” and “F” enter into the GPA calculation. Courses with grades of “A,” “B,” “C,” and “D” are also included in the Rate of Progress/Passed Measurement calculation as hours attempted and as hours earned. Didactic and laboratory courses with an F grade are also included in the Rate of Progress/Passed Measurement calculation as hours attempted but not as hours earned.

A “P” grade is given for courses designated as pass/fail. A grade of “P” does not enter into the GPA calculation. A grade of “P” is included in the Rate of Progress/Passed Measurement calculation as attempted and earned hours.

An “F” grade is given for courses designated as pass/fail and does not enter into the GPA calculation. A clinical course with an “F” grade is included in the Rate of Progress/Passed Measurement calculation as hours attempted but not as hours earned.

A “W” grade is listed on the transcript for any course a student formally withdraws from before the scheduled course ends. Grades of “W” are not entered into the GPA calculation. A grade of “W” is included in the Rate of Progress/Passed Measurement calculation at hours attempted but not as hours earned.

An “I” grade is listed on the transcript for courses that have not been completed. A grade of “I” indicates that the student was in attendance for the entire term but has not completed all necessary coursework or homework to receive a punitive grade. Should missing coursework not be made up within the required time frame, the grade of “I” will be replaced with an “F.”

Should a student receive a grade of “I” and successfully undergo the remediation process, the course grade will be changed to “C.” Should a student receive a grade of I and not be placed on remediation, the course grade will be changed to a punitive grade. A grade of “I” does not enter into the GPA calculation. A grade of “I” is included in the Rate of Progress/Passed Measurement calculation as attempted but not earned credits.

An “R” grade is given if a student repeats a course. The grade received in the most recent course completion will be used to calculate the GPA. Upon receiving a punitive grade for the repeated course, the original grade will be changed to an “R.” A grade of “R” is not entered into the GPA calculation. A grade of “R” is used to calculate the Rate of Progress/Passed Measurement as attempted and hours earned.

A “T” grade is listed on the transcript for any course a student took at another institution accepted by Gurnick Academy of Medical Arts. Courses with a grade of “T” are listed on the transcript to identify courses accepted into the program of study to satisfy graduation requirements. A grade of “T” does not enter into the GPA calculation. A grade of “T” is not included in the Rate of Progress/Passed Measurement calculation as hours attempted or earned.

A “TO” grade is listed on the transcript for any course successfully tested out of at Gurnick Academy of Medical Arts. A grade of “TO” does not enter into the GPA calculation. A “TO” grade is included in the Rate of Progress/Passed Measurement calculation as attempted and earned hours.

Quantitative Measurements

The Quantitative Measurement portion consists of a student’s satisfactorily completed program hours, as by a Rate of Progress/Passed Measurement calculation. The Rate of Progress/Passed Measurement is the percentage of completed hours over attempted hours.

The Rate of Progress/Passed Measurement has two components: the attempted and actual hours earned. The actual hours earned are divided by the attempted hours to determine the student’s Progress/Passed measurement rate.

The maximum time frame for completing programs of study at Gurnick Academy of Medical Arts is 150% of the scheduled program length. Programs are measured in both clock and credit hours. However, clock hours will calculate the maximum time frame and the Rate of Progress/Passed Measurement.

Periods of non-enrollment are not considered in calculating the maximum time frame. Any student who has not reached program completion by the maximum time frame will be expelled from Gurnick Academy of Medical Arts.

Table 24. *Quantitative Measurements*

Program	Clock Hours in Program	Midpoint of the Maximum Time Frame	Maximum Time Frame (hours)

Associate of Occupational Science in Cardiac Ultrasound Technology (A.O.S. in CUT)	1,792	1,344	2,688
Associate of Occupational Science in Respiratory Therapy (A.O.S. in RC)	1,446	1,084.5	2,169
Associate of Occupational Science in Radiologic Technology (A.O.S. in RT)	2,923	2,192.25	4,384.5
Associate of Occupational Science in Ultrasound Technology (A.O.S. in UT)	2,386	1,789.5	3,579
Associate of Occupational Science in Vascular Ultrasound Technology (A.O.S. in VUT)	1,784	1,338	2,676
Associate of Science in Magnetic Resonance Imaging (A.S. in MRI)	1,886	1,414.5	2,829
Associate of Science in Nuclear Medicine Technology (A.S. in NM)	2,646	1,984.5	3,969
Associate of Science in Nursing – Generic (ADN)	1,830	1372.5	2,745
Associate of Science in Nursing – AP (LVN-RN)	645	483.75	967.5
Associate of Science in Occupational Therapy Assistant (A.S. in OTA)	1,770	1,327.5	2,655
Associate of Science in Physical Therapist Assistant (A.S. in PTA)	1,773	1,329.75	2,659.5
Associate of Science in Radiologic Technology (A.S. in RT)	2,974	2,230.5	4,461
Associate of Science in Vocational Nursing (A.S. in VN)	2,070	1552.5	3,105
Bachelor of Science in Diagnostic Medical Imaging (B.S. in DMI)	765	573.75	1,147.5
Bachelor of Science in Nursing – Generic (BSN)	2,505	1,878.75	2,757.5
Bachelor of Science in Nursing – AP (LVN-BSN)	1,335	1,001.25	2,002.5
Bachelor of Science in Nursing – RN-BSN (RNBSN)	405*	303.75	607.5
Bachelor of Science in Radiation Therapy (B.S. in RT)	3,100	1,550	4,650
Bone Densitometry Technician (DXA)	56	42	84
Dental Assistant (DA)	946.5	709.88	1,419.75
Master of Science in Nursing – BSN-MSN (BSNMSN)	540	405	810
Medical Assistant (MA)	948.5	711.38	1,422.75
Vocational Nurse (VN)	1,530	1,147.5	2,295
X-ray Technician with Medical Assistant Skills (XTMAS)	1,341	1,005.75	2,011.5

**These numbers reflect only the clock hours for Gurnick Academy of Medical Arts Technical/Professional Courses.*

CLASS STANDING

Undergraduates are classified by the number of credits (institutional and transfer) earned.

Table 25. Class Standing

Semester Credit Hours	Quarter Credit Hours
Freshman: 0-24 Sophomore: 25-48 Junior: 49-72 Senior: >73	Freshman: 0-37.49 Sophomore: 37.5-73.49 Junior: 73.5-109.49 Senior: >109.5

ATTENDANCE – ABSENT – TARDINESS – DROP

Students are expected to attend all classes as scheduled. All efforts should be made to attend all classes. If a student is absent due to illness or any other reason, they must notify Gurnick Academy of Medical Arts in advance whenever possible. The student's instructor must approve all absences.

Program lengths are calculated, excluding any holiday and vacation times. Class times may be rescheduled on an alternate day of the week (Sunday through Saturday) to ensure program completion is on time and the required hours are fulfilled.

Absent

- Students who arrive more than 15 minutes after class begins.
- Students who leave more than 15 minutes before class ends.
- Students who return from the break more than 15 minutes after class begins.
- Three (3) tardies are equivalent to one (1) absence.

Tardy

- Students that arrive one (1) to 15 minutes after class begins.
- Students leave class one (1) to 15 minutes before class ends.
- Students return from break one (1) to 15 minutes after class begins.

Drop

- Students who miss a significant portion of any course within a program will be expelled.
- Unexcused and excused absences without approval and completed make-up work cannot exceed 10% when the Rate of Progress/Passed Measurement is calculated.

Please see the table Number of Unexcused Absences for more details. To find out how and when the Rate of Progress is calculated, contact your Student Service Representative.

The table Number of Unexcused Absences outlines the number of unexcused absences per course (otherwise noted), resulting in various disciplinary measures.

Table 26. Number of Unexcused Absences

Program	Course Type	# of Absences Resulting in Student Warning Notification	# of Absences resulting in Disciplinary Probation	# of Absences resulting in Expulsion

MA	Didactic	2*	3*	4*
	Clinical	2	3	4
DA	Didactic	1***	2***	3***
	Clinical	1***	2***	3***
ADN, LVN-RN, BSN, LVN-BSN	Didactic	1	3	4**
	Clinical	1	3	4**
A.O.S. in RC	Didactic	2	3	4
	Clinical	0	1	1
A.O.S. in UT, A.O.S. in CUT, A.O.S. in VUT	Didactic/Lab	2*	3*	4*
	Clinical	2*	2*	3*
A.S. in MRI, A.S. in OTA, A.S. in PTA, A.S. in RT, A.O.S. in RT, A.S. in NM, B.S. in RT	Didactic	2	3	4
	Clinical			
VN	Didactic	2	3	4
	Clinical			
	VN 120	1	2	3
	VN 420			
	VN 450			
A.S. in VN		Online Course (see below)		
B.S. in DMI		Online Course (see below)		
RN-BSN, BSN-MSN		Online Course (see below)		
DXA, XTMAS	Didactic	2	3	4
	Clinical			

**These numbers are considered to be per three (3) consecutive courses, not per course*
***Either in Didactic or Clinical or a total of both Didactic and Clinical*
****These are total absences allowed for the entire program, either in Didactic or Clinical or a total of both Didactic and Clinical*

Online Courses Attendance, Participation, and Absences
Attendance
Attendance of this class is mandatory and under the school policy as printed in the current school catalog. Students' attendance is tracked through the submission of online activities and assignments. Clock hour tracking

for online courses may be accomplished in different ways. The student must log in on a specific date and time to participate in synchronous activities. The interaction is recorded for documentation.

For fully asynchronous Online classes, students must complete the lecture discussions, both responding to the prompt and responding to others. A student who does not make the minimum number of posts in the discussion for each lecture will be marked absent. Absences are made up by completing the discussion requirements.

The learning management system tracks asynchronous hours through an activity log. The log records a student's time on a particular page or activity and can be pulled at any time for review. The absence of more than 10% of the course (more than two (2) class periods) may result in a student being placed on academic probation and is grounds for expulsion from the program. **All absences must be made up before course completion.**

Participation

You will be expected to participate in the Discussion sections. Ask questions, provide comments, and share your experiences and knowledge with the rest of the class. Your participation in this class is required. Please visit *"Netiquette"* for details on proper participation in the Class Forum.

Instructor Absence

An email will inform the students of class cancellations and any assignments that must be completed before the next class if the instructor is absent. Every attempt will be made to provide a substitute rather than cancel a class.

Student Absence

The following absences are the only excused absences. Students must provide proof of excused absences:

- Medical Emergency
- Jury Duty
- Family Emergency*
- Bereavement
- Subpoenaed Court Dates
- Naturalization/Citizenship Appointments
- Mandatory Work Orientation
- Reserve Duty

*If you are the sole responsible person for a child or dependent adult and there is a medical emergency, you must provide written documentation from the physician.

Medical clearance must be provided to and approved by the program coordinator before the student can return to the clinical setting.

Continuing Education Courses Attendance-Tardiness-Drop Policy

Please read this policy on our website as it differs from the above-stated policy.

Make-up Guidelines

The table Make-up Assignments Deadlines summarizes the make-up guidelines per program. All absences must be made up within the period specified in the table or by the end of the course, whichever comes first. The student's responsibility is to ensure that a make-up plan of action for each absence is completed within the period specified in the table and documented on the didactic make-up and clinical make-up form. All make-up forms must be wholly and accurately completed with all required signatures for all missed hours before the credit for make-up hours is granted.

Table 27. Make-up Assignments Deadlines

Program	Make up Plan of Action Establishment Deadline for Clinical and Didactic Absences	Didactic Absence Make up Assignment Due	Clinical Absence Make up Assignment Due
A.S. in MRI, VN	Within seven (7) days upon Return from Absence.*	Within 30 Days from the Date of Absence.*	Within 30 Days from the Date of Absence.*
A.S. in OTA, A.S. in PTA, DA, MA	Immediately upon Return from Absence.	Within seven (7) Days from Return of Absence.*	
ADN, LVN-RN, A.S. in VN, BSN, LVN-BSN, RN-BSN, BSN-MSN, B.S. in DMI	Within seven (7) days upon return from Absence.	Within 14 days from the date of Absence.	Within 14 days from the date of Absence.
A.O.S. in UT, A.O.S. in CUT, A.O.S. in VUT, A.O.S. in RC, A.O.S. in RT, A.S. in RT, A.S. in NM, B.S. in RT, DXA, XTMAS	Immediately upon Return from Absence.	Within five (5) Days from Return of Absence.	By the end of the current clinical course.

**Or by the end of the course, whichever comes first.*

Associate of Occupational Science in Respiratory Therapy Program (A.O.S. in RC)
To meet the criteria for attendance and the specific course objectives, students must arrange make-up time for missed hours with the instructor for all instructor-approved absences. Make-up theory hours can include case studies, independent study, written examination, attendance at seminars or workshops, auto-tutorial laboratory, and research reports. Make-up clinical hours require scheduling additional time at the assigned facility with the assigned clinical instructor, and progression in the program will be permitted once reconciled.

Associate of Science in Occupational Therapy Assistant Program (A.S. in OTA) and Associate of Science in Physical Therapist Assistant Program (A.S. in PTA)
To meet the criteria for attendance and the specific course objectives, students must arrange a make-up time for missed hours with the instructor for all instructor-approved absences. Make-up theory hours can include case studies, independent studies, written examinations, attendance at seminars or workshops, auto-tutorial laboratory, and research reports—make-up clinical hours require scheduling additional time with the assigned clinical instructor at the facility.

Vocational Nurse (VN) Program
All Vocational Nurse students must complete all required theory and clinical hours to graduate. When possible, the instructor must approve all absences in advance. Approval for all absences is at the instructor's discretion.

To meet the criteria for attendance and the specific course objectives, students must arrange a make-up time for missed hours with the instructor for all instructor-approved absences.

Make-up theory hours can include case studies, independent studies, written examinations, attendance at seminars or workshops, auto-tutorial laboratory, and research reports. Make-up clinical hours can consist of performance evaluation(s) in the skills laboratory or additional time in the clinical area with clients and patients.

ACADEMIC PROBATION/REMEDIATION

Please read this policy and its programmatic sections, as there are slight policy variations per program.

The table Remediation/Probation Plan Details summarizes the Academic Probation/Remediation and Disciplinary Probation guidelines per program.

Table 28. Remediation/Probation Plan Details

<table>
<tr><th rowspan="2">Program</th><th>Remediation Plan Establishment</th><th>Maximum Time Frame of Remediation Plan Completion</th><th>Probation Plan Establishment</th></tr>
<tr><td># of business days from the course completion date</td><td># of calendar days from the date of issuance</td><td># of business days – academic probation/disciplinary probation</td></tr>
<tr><td>A.S. in OTA, A.S. in PTA, A.O.S. in RC</td><td>2</td><td>3</td><td>3</td></tr>
<tr><td>A.S. in MRI</td><td rowspan="8">5</td><td rowspan="5">5</td><td rowspan="5">5</td></tr>
<tr><td>A.S. in NM</td></tr>
<tr><td>A.S. in RT</td></tr>

</table>

*Applies to General Education courses only.

Duration of Probationary Period: two (2) probationary periods are the maximum allotted per course, only if the problem is not similar (academic versus disciplinary).

The Gurnick Academy of Medical Arts is committed to the success of each student. We recognize there are times and circumstances when students may have poor academic, laboratory, or clinical performance. Gurnick Academy of Medical Arts monitors students' performance and implements a progressive educational performance policy to keep them on track.

The clinical practicum and clinical rotation courses cannot be remediated. Students who fail a clinical practicum or clinical rotation course will be expelled from the program.

All students who receive a non-passing grade in any didactic or laboratory course will be placed on remediation. Please review the Qualitative Measurements section for more information on grading. To lift the remedial status, students must complete the corrective plan. If the student decides not to finish the remedial plan for any reason or does not complete the remediation plan, the student receives a failing grade for the course and will be expelled for academic reasons.

The remedial action plan will be developed by a Designated School Official with student collaboration (student collaboration is required for the successful result of the corrective plan) and finalized within the maximum time frame specified in the table above. The table above shows the maximum time frame for completing a remedial action plan.

The remedial plan aims to improve the student's chance of completing the program and strengthen areas of concern or weakness. Students may be required to attend remediation sessions with the instructor and complete remediation assignments as per the remediation plan. The remediation coursework is designed per the individual student's situation.

The remediation grade is not calculated into the overall course grade or considered "extra credit." Students who pass the remediation are deemed to receive a passing grade of "C" in that course. The student must adhere to and complete the action plan to remain in the program. Failure to attend or to complete remediation within the maximum time frame will result in expulsion from the program for academic reasons (please see the Re-Enrollment policy for more details).

Students on remediation are not eligible for Federal Student Aid. Once the student completes the remediation plan and receives a passing grade of "C" for the course for which the student was placed on remediation, the student will regain eligibility for Federal Student Aid.

Students on remediation are not eligible to be placed on Leave of Absence (LOA). Students may be placed on remediation only for a maximum of two (2) courses per module or semester as necessary and are not to exceed three (3) times for the program duration.

If the student has completed two (2) remediations per module/semester or three (3) remediations total and still obtains a non-passing grade in any remaining courses, the student will be expelled from the program for academic reasons.

Additional information for Associate of Occupational Science in Radiologic Technology (A.O.S. in RT), Associate of Science in Nuclear Medicine Technology (A.S. in NM), and Associate of Science in Radiologic Technology (A.S. in RT) Programs.

Students in the Associate of Occupational Science in Radiologic Technology Program, Associate of Science in MRI Technology Program, Associate of Nuclear Medicine Technology Program, and Associate of Science in Radiologic Technology Program may be placed on remediation only for a maximum of 2 courses per module/quarter and are not to exceed the total of two (2) times throughout the entire duration of the program.

Students may be placed on academic probation during any course (didactic, lab, or clinical evaluations) if their final score is 60% or greater. Students who score below 60% are not eligible for remediation.

If a student is placed on academic probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period. The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit." The consequence of failing to meet the expectations and failing to receive a passing grade for the course ultimately will result in the offer of a remedial action plan.

An improvement plan will be initiated with specific due dates. Academic probationary status is lifted once the student has met the expectations defined within the probationary plan of action and completed the course in satisfactory academic standing. The student receives a final passing grade for the course after being placed on probation. This final grade will be reflected in the student's transcript.

Additional information for Associate of Science in MRI (A.S. in MRI) Program

Students in the Associate of Occupational Science in Radiologic Technology Program, Associate of Science in MRI Technology Program, Associate of Nuclear Medicine Technology Program, and Associate of Science in Radiologic Technology Program may be placed on remediation only for a maximum of 2 courses per quarter and are not to exceed the total of three (3) times throughout the entire duration of the program.

Students may be placed on academic probation during any course (didactic, lab, or clinical evaluations) if their final score is 60% or greater. Students who score below 60% are not eligible for remediation.

If a student is placed on academic probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period. The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit." The consequence of failing to meet the expectations and failing to receive a passing grade for the course ultimately will result in the offer of a remedial action plan.

An improvement plan will be initiated with specific due dates. Academic probationary status is lifted once the student has met the expectations defined within the probationary plan of action and completed the course in satisfactory academic standing. The student receives a final passing grade for the course after being placed on probation. This final grade will be reflected in the student's transcript.

Additional information for Associate of Occupational Science in Respiratory Therapy (A.O.S. in RC)

A score less than 75% (C) in any course (theory/didactic/clinical) is considered a failing grade. Students who do not achieve the minimum 75% (C) grade in theory and didactic courses may be eligible for remediation if their score is 60% or greater. Students who score below 60% are not eligible for remediation.

Any student who does not complete a clinical externship will automatically fail the clinical course. There is no remediation available for clinical courses.

Students who fail any course are immediately withdrawn from the program. Students may reenter the program only when the course is offered in the subsequent cohort.*

*If students fail a course, they may be eligible to join a subsequent cohort if space permits. Students must retake this course within two years. Any time in the past two (2) years, the student's retention of previously learned material must be deemed competent by the Program Director via direct observation of skills check or comprehensive exam.

Additional information for Associate of Occupational Science in Ultrasound Technology (A.O.S. in UT), Associate of Occupational Science in Cardiac Ultrasound Technology (A.O.S. in CUT), and Associate of Occupational Science in Vascular Ultrasound Technology (A.O.S. in VUT) Programs

Students in the Associate of Occupational Science in Ultrasound Technology, Associate of Occupational Science in Cardiac Ultrasound Technology, and Associate of Occupational Science in Vascular Ultrasound Technology Programs may be placed on remediation only for a maximum of one (1) General Education course (if applicable), or two (2) courses per quarter and are not to exceed the total of two (2) times throughout the entire duration of the program.

Students may be placed on academic probation during any didactic and laboratory course if their final score is 60% or greater. Students who score below 60% are not eligible for remediation. Clinical practicum courses cannot be remediated, and students who receive two unsatisfactory clinical practicum evaluations will be withdrawn from the program.

If a student is placed on academic probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period. The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit." The consequence of failing to meet the expectations and failing to receive a passing grade for the course ultimately will result in the offer of a remedial action plan.

An improvement plan will be initiated with specific due dates. Academic probationary status is lifted once the student has met the expectations defined within the probationary plan of action and completed the course in satisfactory academic standing. The student receives a final passing grade for the course after being placed on probation. This final grade will be reflected in the student's transcript.

Additional information for Associate of Science in Occupational Therapy Assistant (A.S. in OTA) and Associate of Science in Physical Therapist Assistant (A.S. in PTA)

Students may be placed on academic probation during any course (didactic, lab, or clinical evaluations) if a grade of less than a "C" is achieved.

If a student is placed on academic probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period.

The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit." The consequence of failing to meet the level of expectations and failing to receive a passing grade for the course will ultimately result in a remedial plan of action.

An improvement plan will be initiated with specific due dates. Academic probationary status is lifted once the student has met the expectations defined within the probationary plan of action and has completed the course in satisfactory academic standing. After being placed on probation, the student receives a final passing grade for the course. This final grade will be reflected in the student's transcript.

Additional information for Associate of Science in Nursing (ADN) and Bachelor of Science in Nursing (BSN) Programs

A score less than 75% (C) in any course (theory/didactic/clinical) is considered a failing grade. Students who do not achieve the minimum 75% (C) grade will be withdrawn from the program. All clinical courses are paired courses with a corresponding theory course. Failure in one paired course equals failure in both courses. The courses must be retaken and passed concurrently. There is no remediation available for the core nursing courses. Students who score below 60% are not eligible for remediation for the general education courses.

Additional information for Bachelor of Science in Radiation Therapy (B.S. in RT)

Students can be placed on clinical or didactic probation to improve their understanding of course material, technical skills below acceptable levels of competence, or unprofessional behavior in the clinical setting. If a student is placed on clinical probation, they must meet with the instructor and Program Director or designee within the time frame specified in table Remediation/Probation Plan Details to prepare a probationary plan of action explicitly stating expectations that must be met during the probationary period. The probationary plan of action identifies the areas of concern and the goals for improvement. The probation plan of action is designed individually and is not calculated into the overall course grade, nor is it considered "extra credit."

A score of less than 75% (C) in any course (theory/didactic/clinical) is considered a failing grade. Students who do not achieve the minimum 75% (C) grade will be withdrawn from the program. All clinical courses are paired courses with a corresponding theory course. Failure in one paired course equals failure in both courses. Both courses must be retaken and passed concurrently. Students who score below 60% are not eligible for remediation.

Any student who does not complete a clinical evaluation will automatically fail the clinical course. Students may reenter the program only when the course is offered in the subsequent cohort.

Additional information for Vocational Nurse Program (VN)

Course VN 450 cannot be remediated. For Module 1, the passing grade is 75%. For Module 2, the passing grade is 77%. The minimum passing grade for Modules 3 and 4 is 80%. Students who score lower than 60% are not eligible for remediation.

Additional information for X-ray Technician with Medical Assistant Skills (XTMAS), Associate of Science in Vocational Nurse (A.S. in VN), and Bachelor of Science in Diagnostic Medical Imaging (B.S. in DMI)

Students who score lower than 60% are not eligible for remediation.

DISCIPLINARY PROBATION

Students must adhere to Gurnick Academy of Medical Arts' acceptable conduct and behavior. Disciplinary probation status is a consequence when a student disregards the boundaries of proper behavior outlined in this catalog and other applicable disclosures. Students who violate any Gurnick Academy of Medical Arts Program policies/guidelines will be placed on disciplinary probation.

Written disciplinary probation is an official notice for a specified period during which a student must

demonstrate conduct that conforms to Gurnick Academy of Medical Arts' standards of conduct. Assigned discipline may include a combination of sanctions for a particular incident. Misconduct during the probationary period or violation of any conditions will result in further disciplinary action, generally expulsion. Expulsion is the termination of "Student" status for an indefinite period. Please see our Re-enrollment Policy for more details.

Disciplinary probation status does not prohibit a student from being placed on academic probation and remediation. Please see the summary of the Disciplinary Probation guidelines per program in the Academic Probation/Remediation policy.

REPETITION OF CLASSES OR MODULES

If students are assigned to repeat any classes or modules for any reason, they will be responsible for additional tuition payment based on the prorated hourly charges. (Ex. The total number of hours needed to repeat is multiplied by hourly charges).

LEAVES OF ABSENCE

A Leave of Absence (LOA) is an approved absence from a program for 180 days maximum in a 12-month calendar period. Students who are approved for an LOA for less than 180 days may request an additional LOA for well-documented reasons, so long as combined, they do not exceed 180 days in a 12-month calendar period.

Students may be placed on an LOA for pregnancy and academic reasons. Eligibility for an Academic LOA depends on individual student circumstances. The Academic Probation/Remediation, Re-enrollment, Pregnancy, and Financial sections provide additional information on LOA eligibility.

If the student does not return by the expected return date, they will be expelled from the program, with the effective date as the student's Last Day of Attendance (LDA). A student's grace period may be shortened for loans received from financial aid by the amount of time spent on LOA.

Gurnick Academy of Medical Arts will award the grade of "W" for courses the student has withdrawn due to an approved LOA.

Students who are unable to continue with their program may request to be withdrawn from the program. Students will have the ability to re-enroll through the appropriate re-enrollment process when they are ready to continue. Students are strongly advised to consult their Financial Aid and Admissions Advisors before withdrawing to ensure they understand the potential implications of financial aid status, program progress, and other concerns.

Pregnancy
Eligible students must meet with the Program Coordinator and complete an LOA Request Form.* Students must consider the effects of an LOA on their current enrollment, academic standing, and financial aid and discuss the expected return date along with the make-up plan. The student must obtain the signatures of the Program Coordinator and the Campus Director to finalize the LOA approval process. Students must keep a copy of the approved LOA Form.

The Program Coordinator, Campus Director, or School Official Designee will consider the individual circumstances of the student and the frequency of LOA requests during the approval process. Should the issuance of an LOA be such that it would significantly interfere with the planned completion of a program of study, appropriate actions will occur at the sole discretion of the Program Coordinator/Campus Director or designated official.

*Refer to the Pregnancy Policy for more details. LOA Request Forms are available on the Gurnick Academy of Medical Arts website.

Academic

The Institution determines academic LOA and is limited to students in a non-term program who have completed at least one course while in good academic standing. Students who have received a transfer of credits with a gap of non-attendance in their program schedule may be required to take an involuntary leave to suspend studies temporarily.

GRADUATION REQUIREMENTS

The following requirements must be met for a student to graduate from any program at Gurnick Academy of Medical Arts:

1. Completion of all program courses and hours.
2. All financial obligations, including tuition and textbook charges, have been met.

Program-Specific Graduation Requirements

Additional Graduation Requirements for the Associate of Occupational Science in Respiratory Therapy Program (A.O.S. in RC)

1. The student must complete and verify the minimum clinical competencies in the lab and clinical setting defined by the course syllabi and log into the Clinical Trac software.
2. Students must have acquired an Associate's Degree from a CoARC Accredited program before being able to sit for the RRT exam.

Additional Graduation Requirements for the Associate of Science in Radiologic Technology Program (A.S. in RT) and Associate of Occupational Science in Radiologic Technology Program (A.O.S. in RT)

1. The student must complete and verify the minimum clinical competencies defined by the American Registry of Radiologic Technologists® (ARRT®).
2. Students must have acquired an Associate's Degree before taking the ARRT® exam.

Additional Graduation Requirements for the Associate of Science in Nuclear Medicine Technology Program (A.S. in NM)

1. The student must have completed and verified the minimum clinical competencies defined by the American Registry of Radiologic Technologists® for Nuclear Medicine Technology.
2. Students must have an Associate's Degree before taking the American Registry of Radiologic Technology Nuclear Medicine Technology certification exam.

Additional Graduation Requirements for the Associate of Science in Nursing Program (ADN)

1. To graduate from the Associate of Science in Nursing Program, students must successfully meet the benchmark of 90% on the ATI Exit Exam.

Additional Graduation Requirements for the Bachelor of Science in Nursing Program (BSN)

1. To graduate from the Bachelor of Science in Nursing Program, students must successfully meet the benchmark of 90% on the ATI Exit Exam.

Additional Graduation Requirements for the Bachelor of Science in Radiation Therapy (B.S. in RT)

1. The student must have completed and verified the minimum clinical competencies defined by the American Registry of Radiologic Technologists®.
2. Students must have a bachelor's degree before taking the American Registry of Radiologic Technology Radiation Therapy certification exam.

3. Students must complete all clinical hours as required by CDPH-RHB.

Additional Graduation Requirements for the Master of Science in Nursing Program (BSN to MSN)

1. The student must have a minimum GPA of 3.0 to graduate.

Additional Graduation Requirements for the Dental Assistant Program DA

1. Students must bring three (3) patients (aged 18 or above) to campus for Coronal Polishing. Each patient must complete the documentation to be reviewed and approved by a Dental Assisting program faculty member who can participate. The document must be received before the scheduled Coronal Polish examination date.
2. Students must bring four (4) patients (aged 18 or above) to campus for a full set of mouth X-rays (FMX). Each patient must fill out the documentation to be reviewed and approved by a dentist, stating they can participate. The document must be received before the scheduled FMX examination date.

Additional Graduation Requirements for the Vocational Nurse Program (VN)

1. The student must have completed the program exit examination. Students will be given up to two (2) attempts to complete the exit exam.

ONLINE COURSE RESPONSE TIME

For online courses, the institution has seven (7) days between the institution's receipt of student lessons, projects, or dissertations and the institution's mailing of its response or evaluation.

STUDENT TECHNOLOGY ACCEPTABLE USE POLICIES

Students are responsible for actions and activities involving Gurnick Academy of Medical Arts computers, personal computers, networks, Internet services, and personal computer files, passwords, and accounts. These policies provide general direction concerning computer usage and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students. Students questioning whether an activity is prohibited are urged to contact the school administration.

VIOLATION OF COMPUTER USE POLICY AND RULES

Using Gurnick Academy of Medical Arts computers, networks, and Internet services is a privilege, not a right, including personal devices such as computers and mobile devices. Compliance with policies and rules regarding computer use is mandatory. Students who violate these policies and regulations may have their computer privileges limited, suspended, or revoked. Such violations may also result in disciplinary action, law enforcement referrals, and legal action. The school administration shall have the final authority to decide whether a student's privileges will be limited, suspended, or revoked based on the conditions of the situation.

Minimum Computer Requirements for Students:

Students are required to have a functional computer with the following specifications to ensure smooth access to online courses and resources:

- **Operating System:**
  - Windows 11 (excluding S edition)
  - Mac computers must have macOS 14 (Sonoma) or the latest version.
- **Hardware:**
  - Minimum 8GB RAM
  - A working camera

- Integrated speakers and microphone (or external alternatives)

Students must ensure their computer meets these requirements before starting their courses.

REQUIRED APPLICATIONS

All Gurnick Academy of Medical Arts students must have the following application installed on their computers:

- Chrome browser
- Adobe Acrobat Reader
- VitalSource bookshelf

Students must install any applications required to deliver educational materials, e-books, exams, and any other programs deemed necessary by the institution. Students may face disciplinary action if applications are not installed or intentionally removed.

ACCEPTABLE USES

The Gurnick Academy of Medical Arts computers and Internet services are provided for educational purposes and study consistent with its educational mission, curriculum, and instructional goals. When using computers, all policies, school rules, and expectations concerning student conduct and communications apply. Students are also expected to comply with all specific instructions from teachers and other school staff when using a school or personal computer.

PROHIBITED USES

Violations of the Student Technology Acceptable Use Policy may result in disciplinary action depending on the nature of the violation. Examples of prohibited uses of technology services are:

- **Accessing Inappropriate Materials** – Accessing, submitting, posting, publishing, forwarding, downloading, scanning, or displaying defamatory, abusive, obscene, vulgar, sexually explicit, sexually suggestive, threatening, discriminatory, harassing, and illegal materials.
- **Violating Copyrights** – Copying, downloading, or sharing copyrighted materials without permission is prohibited.
- **Software Copying** – Unauthorized copying of software is illegal and may subject the copier to substantial civil and criminal penalties.
- **Non-School-Related Practices** – Using Gurnick Academy of Medical Arts school networks and Internet services for non-school-related purposes such as private financial gain, commercial, advertising, solicitation purposes, or any other personal use unrelated to the educational program or assignments.
- **Unauthorized Access** – Sharing passwords with other users or using other users' passwords and accessing or using other students' accounts.
- **Malicious Use and Vandalism** – Any malicious use, disruption, or harm of Gurnick Academy of Medical Arts computers, networks, and Internet services, including but not limited to hacking activities and creation/uploading of computer viruses.

NO EXPECTATION OF PRIVACY

Students do not expect privacy when using the Gurnick Academy of Medical Arts computers, personal computers, or mobile devices on campus or using Gurnick Academy of Medical Arts internet resources, email, Google Drive, and stored files.

Gurnick Academy of Medical Arts reserves the right to review and monitor any emails or transmissions sent or received through its network at its sole discretion.

EMAIL USAGE

This information aims to ensure the proper use of the Gurnick Academy of Medical Arts email system and make users aware of what Gurnick Academy of Medical Arts deems to be acceptable and unacceptable use of its email system. Gurnick Academy of Medical Arts reserves the right to amend this policy. Concerning amendments, users will be informed appropriately.

System Monitoring

You have no expectation of privacy for anything you create, store, send, or receive on the Gurnick Academy of Medical Arts computer system. Your emails can be monitored without prior notification if Gurnick Academy of Medical Arts deems this necessary if there is evidence that you are not adhering to the guidelines set out in this policy. Gurnick Academy of Medical Arts reserves the right to take disciplinary action, including termination and legal action.

Email Accounts

All email accounts maintained on our email systems are the property of Gurnick Academy of Medical Arts. Passwords should not be given to other people and must be changed once every six (6) months. The 2-factor authentication must be activated on your Gurnick email.

*Email accounts are available to students for learning and communication within the Gurnick Academy of Medical Arts community. Email accounts are provided only to students who are enrolled.

Primary Means of Communication

Gurnick Academy of Medical Arts provided email accounts as the primary means of communication for all academy functions and between yourself and staff, instructors, and fellow students. You must check your Gurnick Academy of Medical Arts provided email every 24 hours. As necessary, official communication will only be delivered to your Gurnick Academy of Medical Arts email address.

Legal Risks

Email services are educational tools, and users must use this tool responsibly, effectively, and lawfully. Although email appears less formal than other written communication, the same laws apply. Therefore, users must be aware of the legal risks of email:

- You and Gurnick Academy of Medical Arts can be held liable if you send or forward emails with any libelous, defamatory, offensive, racist, or obscene remarks.
- You and Gurnick Academy of Medical Arts can be held liable if you unlawfully forward confidential information.
- You and Gurnick Academy of Medical Arts can be held liable for copyright infringement if you unlawfully forward or copy messages without permission.
- You and Gurnick Academy of Medical Arts can be held liable if you send an attachment that contains a virus.

By following the guidelines in this policy, the email user can minimize the legal risks involved in using email. If any user disregards the rules set out in this Email Usage Policy, the user will be fully liable, and Gurnick Academy of Medical Arts will disassociate itself from the user as far as legally possible.

Confidential Information

Avoid sending confidential information by email. If you need to, please ask our staff for the secure email channel, and they will guide you on sharing this information via the encrypted email.

Acceptable Use

Gurnick Academy of Medical Arts students must understand and follow the Email Acceptable Use Policy for appropriate email service usage. Violations of the Email Acceptable Use Policy may result in disciplinary action depending on the nature of the violation. Examples of prohibited uses of email services are:

- Intentional and unauthorized access to another person's email.
- Sending or forwarding emails containing libelous, defamatory, offensive, racist, or obscene remarks. If you receive an email of this nature, you must promptly notify your supervisor.
- Attempting to forge email messages.
- Creation and use of a false or alias account to impersonate another individual to send fraudulent communications.
- Distributing materials in violation of copyright law.
- Using email services for commercial activities or profit-making purposes.
- Using email services to visit, view, or distribute internet sites or content containing obscene, sexually explicit, or profane material.
- Sending or clicking on malicious email links.

Writing Emails

- Write well-structured emails and use short, descriptive subjects.
- Gurnick Academy of Medical Arts' email style is informal. This means that sentences can be short and to the point. You can start your email with "Hi," or "Dear," and the person's name. Messages can be ended with "Best Regards." However, using Internet abbreviations and characters such as smileys is discouraged.
- Use the spell checker before you send out an email.
- Do not send unnecessary attachments. Compress attachments larger than 2M before sending them.
- Do not write emails in capitals.
- Do not use CC: or BCC: fields unless the CC: or BCC: of the recipient is aware that you will be copying a mail to them and knows what action, if any, to take.
- State clearly what action you expect the recipient to take if you forward an email.
- Only send emails where the content could be displayed on a public notice board. If they cannot be displayed publicly in their current state, consider rephrasing the email, using other means of communication, or protecting information using a password (see confidential).
- Only mark emails as necessary if they are essential.

Best Practices

Gurnick Academy of Medical Arts considers email an essential means of communication. It recognizes the significance of proper email content and prompt replies to convey a professional image and deliver good customer service. Therefore, Gurnick Academy of Medical Arts requests users to adhere to the following guidelines:

Confidential Information

- Avoid sending confidential information by email. If you need to, please ask our staff for a secure email channel, and they will guide you in sharing this information via encrypted email.

Malware/Viruses

- Students should avoid opening files from unknown senders or files they are not expecting, as they could contain malicious code.
- Students should be careful to send files that are known to be secure.

Replying to Emails

- Emails should be answered within 24 hours.

Newsgroups

- Users must request permission from their supervisor before subscribing to a newsletter or newsgroup.

Maintenance

- Delete any email messages you do not need to archive and set your email client to empty your "deleted items" upon closing.

Equipment Losses and Damages

The student is responsible for the losses or accidental damage to the personal computer, mobile devices, loaner devices, library equipment, equipment purchased through Gurnick Academy of Medical Arts, or any equipment or devices provided by Gurnick Academy.

Student Technology Security Policy

- Students may not share or reveal personal information such as login names, passwords, full names, addresses, telephone numbers, or social security numbers on the Internet.
- The students may not use someone else's login name and password on the school or personal equipment.
- Students must notify their instructor if they access information or messages that are threatening, inappropriate, or cause discomfort.
- If you notice a security threat, do not demonstrate the problem to others or attempt unauthorized access to the material. Any student who attempts to breach system security, cause a system security breach, or fails to report a system security matter will be subject to disciplinary and legal action and have their computer privileges limited, suspended, or revoked.
- The Gurnick Academy of Medical Arts system security is a high priority. Students who identify security threats must inform their instructor immediately.

The Importance of Strong and Secure Passwords

Passwords are essential to computer security. In addition to creating a secure password, users should learn to safeguard and use it wisely. We recommend using a password manager if you need help remembering your password.

- Passwords should change regularly, at least every six (6) months.
- Use a different password for everything.
- It significantly increases the risk of your accounts being compromised.
- Do not share your password with anyone.
- Do not write or store passwords online without encryption.
- Do not reveal passwords in email, chat, or other electronic communication.
- Do not enter passwords on questionnaires or security forms.
- If an account or password compromise is suspected, report the incident immediately to your instructor and Gurnick IT department.

General Password Construction Standards

1. Contain at least three (3) of the five (5) following character classes:
    a. Lowercase characters
    b. Uppercase characters
    c. Numbers
    d. Punctuation
    e. Special characters (e.g., !@#$%^&*()_+= etc.)
2. The minimum length of the password should be 12 characters or more.

Weak passwords contain the following characteristics

1. Less than twelve (12) characters
2. Common words found in the dictionary
3. Common usage words include:
    a. Names of family, pets, friends, co-workers, etc.
    b. Birthdays and other personal information

COMPUTER BEST PRACTICES

Use Antivirus Software

Antivirus software is a software utility that detects, prevents, and removes viruses, worms, and other malicious software from the computer. Antivirus programs are essential utilities for any computer. We strongly recommend using one of the following Antivirus applications:

1. Malwarebytes
2. Symantec
3. McAfee
4. Webroot
5. Bitdefender
6. Kaspersky
7. Trend Micro
8. Windows Defender (Comes with Windows OS system)

Perform Regular Software and Operating System Updates

Software and Operating System updates are critical to keeping your system running healthy. Update reminders can be annoying, especially if you have many applications; however, they can improve your experience eventually and ensure that you get the most from your technology.

Before downloading newly released software or Operating System updates, we recommend reading other users' reviews to ensure it's safe to download and install. Be aware. Cybercriminals like to distribute phony applications designed to steal your information.

Run Computer Maintenance

While using your computer, temporary internet files, downloaded files, and cache files build up and reduce hard drive space using software utilities such as the built-in Disk Cleanup for Windows or third-party applications such as CCleaner, which can locate and clear these files on your computer. Moreover, visiting many websites collects files that can slow your web browser. It also helps to check your browser's preferences or settings to find its option to clear the cache or temporary internet files.

Backup Files

Regular file backups prevent data loss and can even provide a copy of your entire system in case of hardware failure or malicious software. You can use an external hard drive or flash drive to save your backups and then use the utility to quickly restore individual files or return your computer to a previous state.

You can also utilize cloud storage solutions such as OneDrive, Google Drive, Dropbox, or another cloud storage service for more flexible access to your data on any device.

Keep Your Keyboard Crumb Free

Dip a cloth or towelette into the isopropyl alcohol and brush it along the tops of all the keys and surfaces. Scrub heavily used areas (such as the Enter key and space bar) to remove buildup. Use a dry, lint-free cloth to remove dust and polish the keyboard.

Avoid Extreme Temperatures
Computers get warm after a while, and some can get hot. The temperature changes are routine and part of cooling the laptop. However, be aware that if your computer gets hot, it could be an overheating sign, which can potentially cause damage. **Do not leave your computer in a hot car or direct sunlight.**

Use A Protective Case
When carrying a laptop or moving your computer, use a protective case or bag to protect it from damage.

COMPUTER SUPPORT

New students at Gurnick Academy of Medical Arts participate in a mandatory new student computer orientation. During the orientation, instructions for setting up your computer are provided. Beyond that, the Gurnick Academy of Medical Arts Support team may offer the following level of support:

- Software and computer configuration.
- Software and hardware troubleshooting.
- Providing loaner machines during the repair process.

You can contact the Gurnick Academy of Medical Arts IT team by emailing support@gurnick.edu.

When sending emails to support, describe your problem in detail, including your contact information, first and last name, and best contact number or email to reach you.

We do not provide support for hardware and accidental damage issues. *See Computer Warranty*

COMPUTER WARRANTY

Personal Devices

- Contact your computer manufacturer for hardware or accidental damage issues with your device.
- Gurnick Academy of Medical Arts is not responsible for hardware, damages, or associated costs for repairing your device.

USE OF AI TOOLS

The policies for AI usage are dynamic and will be constantly changing due to the rapid advancement of technology, information, and government regulations. As government regulations become implemented, the policy will be updated to reflect the current situation. Please check for regular updates to the addendum on Gurnick Academy's website.

Gurnick Academy of Medical Arts supports using AI tools for specific uses. AI tools can refine information, but the original idea and content must come from the user. This policy includes text, artwork, graphics, video, and audio.

The Programs at Gurnick Academy of Medical Arts may allow different levels of AI use. Please refer to the student handbook for specific guidelines regarding AI use for each program.

Please note that the content generated by AI Tools may be inaccurate, provide fake citations, and image generation AI tools can occasionally provide highly offensive responses. Regardless of whether the content is generated by an AI tool or the user, the user is responsible for any offensive, inaccurate, biased, or unethical content submitted.

AI tool users must be aware of the potential risks of submitting prompts, including confidential information, by law or Gurnick Academy of Medical Arts. The user is responsible for not violating any regulatory or intellectual property laws, including submitting personal identifying information (PII). The use of AI tools must be properly documented and cited.

Students found to have used generative AI tools in unauthorized ways will result in consequences ranging from receiving a zero on the assignment to withdrawal from the program, as it would violate the academic dishonesty policy, such as cheating and plagiarism. Employees may be terminated from employment. Please ask the instructor or supervisor for clarification if there are any questions or doubts about permitted usage.

Acceptable Uses May Include (but are not limited to):

- Brainstorming ideas
- Drafting an outline
- Fine-tuning your research
- Requesting information
- Checking grammar and style

Not Acceptable Uses May Include (but not limited to):

- Impersonating you in the classroom, such as composing and posting discussion board posts or posting content in a group chat (i.e., Zoom or Google Hangout)
- Writing a draft of a writing assignment.
- Writing entire paragraphs or papers to complete an assignment

Please refer to the student or employee handbook for more details about using AI tools.

Citation

The use of AI tools must be documented for transparency. Citations should be in MLA or APA style, depending on the assignment. A citation for each prompt must be included if more than one prompt was used.

APA Style: https://apastyle.apa.org/blog/how-to-cite-chatgpt
MLA Style: https://style.mla.org/citing-generative-ai/

PROGRAM INFORMATION

Program schedules vary per campus. The times and dates below are for general information. Please review your programmatic schedules in the Addendum, Student Handbook, and Enrollment Agreement.

The Marking Period within each program refers to a designated period for each program, such as a module or semester.

LOCATIONS: Fresno, Sacramento, and San Jose
DELIVERY: Blended

Gurnick Academy of Medical Arts students in the Ultrasound Lab at the Sacramento campus.

A.O.S. in CUT Program Mission

Gurnick Academy of Medical Arts' mission is to offer quality allied health and nursing programs that integrate

professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

A.O.S. in CUT Program Description

The Cardiac Ultrasound Technology program's minimum expectations are to prepare competent entry-level Cardiac Sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains. Graduates may work in hospitals, imaging centers, physicians' offices, or clinics.

A.O.S. in CUT Program Goals and Objectives

- Train students to be professional and competent Cardiac sonographers in the medical imaging community by developing their visual, oral, and written communication and critical thinking skills.
- Develop interpersonal skills in communicating and interacting with patients of all generations, cultures, and medical conditions.
- Develop interpersonal skills in communicating and interacting with medical and administrative personnel in the medical imaging setting so they will be effective team players.
- Teach students knowledge and understanding of human physiology, pathology, and pathophysiology.
- Teach students knowledge and understanding of ultrasound physical principles and instrumentation.
- Teach students the knowledge of sonographic biological effects and proper application of sonographic instrumentation relative to imaging and image quality.
- Teach students knowledge and understanding of human gross and sectional anatomy relative to normal and abnormal sonographic imaging.
- Teach students how to produce quality diagnostic images of the heart with the required information contributing to the diagnostic process.
- Teach students the necessary skills for proper patient care while utilizing ethical, professional, and HIPAA guidelines.
- Provide students with the knowledge, clinical skills, problem-solving abilities, and interpersonal skills to practice in the profession of sonography.
- Emphasize the importance and need of becoming credentialed in the profession of Cardiac Sonographer.
- Prepare students to pass the ARDMS certification exam.
- Teach and emphasize the appropriate ergonomic scanning applications for the Cardiac Sonographer's well-being.

General Education Courses are identified in Italics.

A.O.S. in CUT Program Information, Length, and Schedule

The program information, length, and schedule may change. Please read the accompanying Addendum for changes and updates, and check in with the Admission Advisor for details. Gurnick Academy of Medical Arts Cardiac Ultrasound Technology Program has a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, models, and e-library resources. The scan laboratory is equipped with ultrasound machines and other cardiology equipment.

The Cardiac Ultrasound Technology Program is an Associate of Occupational Science Degree program. The student will receive didactic, laboratory, and clinical education focused on Cardiac ultrasound, which will cover cardiac anatomy and physiology, 2D and M-Mode imaging, PW, CW, and color flow Doppler, cardiac pathology, and methods of interpretation, which will be combined with General Education courses. The instructor-to-student ratio is 1:25 during lectures, 1:10 in the laboratory, and 1:1 during externship.

The program comprises six (6) quarters of twelve (12) weeks each. During the program's first quarter (12 weeks), students will take General Education courses up to 24 hours per week via online delivery. During the second quarter (12 weeks), students will continue to take General Education courses online up to twenty-four (24) hours per week for the first twelve (12) weeks.

The next two (2) quarters (Quarter 3 and 4) consist of on-campus didactic/lab sessions only, which include three (3) to five (5) days per week of up to eight (8) hours per day didactic and lab instruction. After completing four (4) quarters, students are generally expected to start attending externships four (4) days a week.

Registry Preparation Courses (RPC) are scheduled monthly on days to be announced on a separate schedule and in no particular order.

The student receives nine hundred eighty-four (992) didactic and laboratory instruction and eight hundred (800) hours of clinical education, allowing them to apply the lecture topics to practical use. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. In addition, the program prepares students to take their RCDS examinations.

An Associate of Occupational Science Degree in Cardiac Ultrasound Technology is awarded upon program completion. The normal completion time for this program is seventy-two (72) weeks, excluding any holiday and vacation times. Class times can and may be rescheduled on an alternate day of the week (i.e., Sunday through Saturday) to ensure program completion is on time and the required program hours are fulfilled.

Voluntary and Prudent Use Statement for Ultrasound Technology
The program ensures the voluntary and prudent use of students or other human subjects for non-clinical scanning. Students' grades and evaluations are not affected by participation.

ASSOCIATE OF OCCUPATIONAL SCIENCE IN RESPIRATORY THERAPY PROGRAM (A.O.S. IN RC)

75 WEEKS

LOCATIONS: Modesto
DELIVERY: Blended

A Gurnick Academy instructor in the nursing skills lab at the Modesto campus.

A.O.S. in RC Program Mission
The Associate of Occupational Science in Respiratory Therapy (A.O.S. in RC) at Gurnick Academy of Medical Arts aims to educate undergraduate respiratory care (RC) students to meet the healthcare needs of individuals, families, and communities. Our mission is to motivate and provide guidance to each student throughout the program and prepare them to be valuable members of the allied health system. We strive to instill a sense of pride in the profession of respiratory care that will carry forth to every patient they encounter.

The program emphasizes the knowledge and skills appropriate for examinations required by the Respiratory Care Board of California and other regulatory bodies, such as the National Board for Respiratory Care.

The extensive clinical preparation is under the supervision of respiratory therapists. Instruction occurs on an online platform in the laboratory and in clinical settings.

A.O.S. in RC Program Description
This program prepares graduates to pursue entry-level employment or jobs in related fields. The goal of this program is to prepare graduates with demonstrated competence in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists (RRTs).

A.O.S. in RC Program Information, Length, and Schedule

The program information, length, and schedule may change. Please read the accompanying Addendum for changes and updates, and check in with the Admission Advisor for details. Gurnick Academy of Medical Arts Respiratory Care Program has lab/classrooms equipped with audiovisual teaching aids, textbooks, journals, anatomical charts, models, and e-library resources. The laboratory is equipped with high-fidelity mannequins and equipment pertinent to the field of respiratory care, such as ventilators, nebulizers, intubation equipment, etc.

The Respiratory Therapy Program is an Associate of Occupational Science Degree program. The student will receive didactic, laboratory, and clinical education on respiratory care. The Instructor-to-Student ratio is 1:25 during lectures, 1:10 in the laboratory, and 1:1 during externship.

The program consists of five (5) semesters of fifteen (15) weeks each. During the program's first semester (15 weeks), students will take General Education courses and core courses for up to 12 hours per week via online delivery. During the second Semester (15 weeks), students will only be taking core classes from here on out. Students can expect to spend 16 hours a week in the educational setting, not including outside work.

Semester three will include online didactic, on-campus lab sessions, and the first clinical practice. Clinical Practice during this semester will occur during the first six (6) weeks in which the student is expected to participate in clinicals for two (2) twelve (12) hour shifts totaling twenty-four (24) hours a week.

Semester four will include online didactic, on-campus lab sessions, and the second clinical practice. Clinical Practice during this semester will occur during the last nine (9) weeks in which the student is expected to participate in clinicals for two (2) twelve (12) hour shifts totaling twenty-four (24) hours a week.

Semester five will include online didactic, on-campus lab sessions, and the second clinical practice. Clinical Practice during this semester will occur during the last nine (9) weeks in which the student is expected to participate in clinicals for two (2) twelve (12) hour shifts totaling twenty-four (24) hours a week.

The student receives five hundred and seventy-six (576) hours in the clinical setting and eight hundred and seventy (870) hours of didactic and laboratory instruction. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. In addition, the program prepares students to take their NBRC examinations described in the Student Handbook.

Upon completing the program, an Associate of Occupational Science Degree in Respiratory Therapy is awarded. The normal completion time for this program is seventy-five (75) weeks, excluding any holiday and vacation times. Class times can and may be rescheduled on an alternate day of the week (i.e., Sunday through Saturday) to ensure program completion is on time and the required program hours are fulfilled.

Voluntary and Prudent Use Statement for Respiratory Therapy
Instructions in the laboratory are made possible by the participation of students, both as the person performing assessments and the person being assessed (subject) when High-Fidelity Mannequins are not prudent. All the exercises are developed to ensure prudent and safe use of the equipment and the subject. Participation is voluntary. Election not to participate will not affect grades. However, alternate training will need to be arranged.

ASSOCIATE OF OCCUPATIONAL SCIENCE IN RADIOLOGIC TECHNOLOGY PROGRAM (A.O.S. IN RT)

94 WEEKS
2,923 CLOCK HOURS
157.5 QUARTER CREDIT HOURS
ASSOCIATE OF OCCUPATIONAL SCIENCE DEGREE PROGRAM
STANDARD OCCUPATION CLASSIFICATION
(SOC CODE): 29-2034.00, 29-2035.00, 29-2099.06
POTENTIAL OCCUPATIONS:
Please see a school official for the complete list of potential occupations.
LOCATIONS: Van Nuys
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy students in the Imaging Skills Lab at the Van Nuys campus.

A.O.S. in RT Program Mission
The Associate of Occupational Science in Radiologic Technology program's mission is to prepare students for employment as certified radiologic technologists.

The program emphasizes the knowledge, skills, and entry-level competencies appropriate for examinations required by the California Department of Public Health, Radiologic Health Branch, and the American Registry of Radiologic Technologists® (ARRT®).

A.O.S. in RT Program Description

The Associate of Occupational Science Radiologic Technology program at Gurnick Academy of Medical Arts is committed to developing students' intellectual, analytical, and critical thinking skills. Instructional methods based on established principles and practices of adult learning theory combined with classroom techniques encourage student participation.

Duties for program graduates may include diagnostic imaging procedures in hospital diagnostic imaging departments, surgical theaters, emergency rooms, doctor's offices, and other health care settings using fixed or portable machines.

A felony conviction may affect a graduate's ability to sit for certification examinations or attain state licensure. The student must understand the certification requirements and state or national board licensing exams. Such stipulations may change during the program.

Students are responsible for inquiring with the appropriate agencies about current requirements before enrolling in the program if a student's circumstances change when applying for certification or licensure. Clinical sites may themselves require a criminal background check or a medical examination.

Students learn about the requirements for employment and certification, state board, or national board licensing exams. No student automatically receives a certificate in any way upon program completion. Students with felony convictions may not be eligible for certification.

This program prepares graduates to pursue entry-level employment in the field or related fields. These specific job titles may not correspond directly with the program title.

Although Gurnick Academy of Medical Arts will assist students with job placement, finding a job is their responsibility. Gurnick Academy of Medical Arts does not guarantee student placement in any of the described occupations or at all.

Some clinical rotations and radiographic examinations are deemed "gender-specific," such as mammography and the hysterosalpingogram (HSG). While mammography is generally performed on females, the HSG is an examination exclusively conducted on female patients.

Male students should understand that they may not observe or perform these examinations because of their sensitivity. Didactic information on these examinations will be provided to all students. However, clinical experience in these examinations may be limited to only female students.

A.O.S. in RT Program Goals and Objectives

- Students/graduates will demonstrate clinical competency.
- Students/graduates will develop problem-solving and critical-thinking skills.
- Students/graduates will apply effective communication skills.

A.O.S. in RT Student Learning Outcomes

- Students will use proper positioning skills.
- Students will obtain radiographs of acceptable diagnostic quality.
- Students will exercise proper radiation protection.
- Students will be able to modify standard procedures to accommodate non-routine patient conditions.
- Students will be able to critique images for diagnostic quality.
- Students will demonstrate effective oral and written communication skills.

A.O.S. in RT Program Information, Length, and Schedule
The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and connect with an Admission Advisor for more details.

The A.O.S. in Radiologic Technology program provides a library and classrooms with modern media teaching aids, textbooks, journals, periodicals, anatomical charts, phantoms, and energized lab equipment.

The Associate of Occupational Science in Radiologic Technology program consists of 157.5 quarter credit hours completed over 94 weeks for day and night students, for 2,923 contact hours. Before graduation, students must complete 1,880 hours of clinical practice.

ASSOCIATE OF OCCUPATIONAL SCIENCE IN ULTRASOUND TECHNOLOGY PROGRAM (A.O.S. in UT)

96 WEEKS
2386 CLOCK HOURS
139.5 QUARTER CREDIT HOURS
ASSOCIATE OF OCCUPATIONAL SCIENCE DEGREE PROGRAM, 8 QUARTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-2032.00
POTENTIAL OCCUPATIONS:
Please see a school official for the complete list of potential occupations.
LOCATIONS: Fresno, Sacramento, and San Jose
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy students in the Ultrasound Scanning Lab at the San Jose campus.

A.O.S. in UT Program Mission

Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

A.O.S. in UT Program Description

The A.O.S. in Ultrasound Technology program's minimum expectations are to prepare competent entry-level sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains for the abdominal sonography-extended and obstetrics and gynecology sonography concentrations. Graduates may work in hospitals, imaging centers, physicians' offices, or clinics.

A.O.S. in UT Program Goals and Objectives

Diagnostic Medical Sonography (DMS) requires providing diagnostic sonographic images and possessing critical thinking skills. The Sonographer needs to make crucial judgments while performing sonographic exams. Sonographers are professionals who must possess high-level skills in diagnostic sonographic techniques under the guidance of a licensed physician.

A sonographer is responsible for providing excellent patient care and gathering adequate data for diagnoses. Program graduates will be able to perform, at a minimum, the following objectives.

Cognitive

- Obtain, review, and integrate pertinent patient data for optimum diagnostic results.
- Demonstrate critical thinking skills during sonographic procedures to provide optimum diagnostic services.

Psychomotor

- Perform sonographic procedures appropriately and accurately, recording all anatomic and physiologic information for interpretation by a physician.
- Document and present complete and accurate sonographic findings to the interpreting physician to facilitate patient diagnosis.
- Maintain optimal function of the sonographic equipment.
- Assist physicians during invasive ultrasound-guided procedures.

Affective

- Employ effective communication skills with patients and all healthcare team members.
- Provide compassionate patient care and education to promote overall well-being.
- Act professionally within recognized ethical and legal standards.
- Demonstrate a commitment to lifelong learning.

TOTAL		**2,386.0**	**139.5**

General Education Courses are identified in Italics.

A.O.S. in UT Program Information, Length, and Schedule

The program information, length, and schedule may change. Please read the accompanying Addendum for changes and updates.

Connect with an admission advisor for more details. The A.O.S. in Ultrasound Technology program has a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, models, and e-library resources. The scan laboratory has ultrasound machines and an Ankle-Brachial Index (ABI) machine.

The Ultrasound Technology Program is an Associate of Occupational Science Degree program. The student will receive didactic and clinical education in abdominal sonography-extended, small parts, obstetrics and gynecology sonography, ultrasound physics, and instrumentation, musculoskeletal (MSK), pediatric, neonatal, patient care, and vascular sonography. This training will be combined with General Education courses. The instructor-to-student ratio is 1:30 in residential lectures, 1:25 in online lectures, 1:10 in the laboratory, and 1:1 during clinical rotation.

The program consists of eight (8) 12-week quarters. During the program's first quarter, students will take General Education courses up to 24 hours per week via online delivery during the first program quarters. Students will continue taking General Education courses online for up to 24 hours per week for the first seven (7) weeks of the second program quarter. The workload consists of on-campus didactic/lab sessions, including up to six (6) hours per day of instruction for up to three (3) days per week during the last five (5) weeks of the second quarter.

The subsequent two (2) quarters (Quarters III and IV or Quarters V and VI, depending on the quarter sequence) consist of on-campus didactic/lab sessions only, including three (3) days per week of up to eight (8) hours per day of didactic and lab instruction. After completing four (4) quarters, students are generally expected to participate in clinical rotations two (2) days per week, up to eight (8) hours per day.

Students will continue to attend didactic/lab sessions on-campus three (3) days per week, up to eight (8) hours per day. In the last two (2) quarters, students attend clinical rotations a minimum of three (3) days per week and attend Master Scanning Lab courses once a month on days to be announced on a separate schedule.

The student receives 1,426 didactic and laboratory instruction hours and 960 clinical education hours, allowing them to apply the lecture topics to practical use. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. Furthermore, the program prepares students to take their ARDMS examinations.

An Associate of Science Degree in Ultrasound Technology is awarded upon program completion. The expected

completion time for this program is 96 weeks, excluding holidays and vacation times. Class times can and may be rescheduled on an alternate day of the week (Sunday through Saturday) to ensure on-time program completion and fulfillment of required program hours.

Master Scanning Labs (MSL) may be scheduled at other campuses as needed and in no particular order.

Voluntary and Prudent Use Statement for Ultrasound Technology
The program ensures the voluntary and prudent use of students or other human subjects for non-clinical scanning. Students' grades and evaluations are not affected by participation.

ASSOCIATE OF OCCUPATIONAL SCIENCE IN VASCULAR ULTRASOUND TECHNOLOGY PROGRAM (A.O.S. in VUT)

Gurnick Academy students in the Ultrasound Scanning Lab at the San Jose campus.

A.O.S. in VUT Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

A.O.S. in VUT Program Description
The A.O.S. in Vascular Ultrasound Technology program's minimum expectations are to prepare competent entry-level Vascular sonographers in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains. Graduates may work in hospitals, imaging centers, physicians' offices, or clinics.

A.O.S. in VUT Program Goals and Objectives
- Train students to be professional and competent vascular sonographers in the medical imaging community by developing their visual, oral, and written communication and critical thinking skills.
- Develop interpersonal skills in communicating and interacting with patients of all generations, cultures, and medical conditions.
- Develop interpersonal skills in communicating and interacting with medical and administrative personnel in the medical imaging setting so they will be effective team players.
- Teach students about human physiology, pathology, and pathophysiology.
- Teach students knowledge and understanding of ultrasound physical principles and instrumentation.
- Teach students the knowledge of sonographic biological effects and proper application of sonographic instrumentation relative to imaging and image quality.
- Teach students knowledge and understanding of human gross and sectional anatomy relative to normal and abnormal sonographic imaging.

- Teach students how to produce quality diagnostic images of the heart with the required information contributing to the diagnostic process.
- Teach students the necessary skills for proper patient care while utilizing ethical, professional, and HIPAA guidelines.
- Provide students with the knowledge, clinical skills, problem-solving abilities, and interpersonal skills to practice in the sonography profession.
- Emphasize the importance and need of becoming credentialed in the profession of Vascular Sonographer.
- Prepare students to pass the CCI (RVS) or ARDMS (RVT) certification exam.
- Teach and emphasize the appropriate ergonomic scanning applications for the Vascular Sonographer's well-being.

General Education Courses are identified in Italics.

A.O.S. in VUT Program Information, Length, and Schedule

The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates and check in with the Admission Advisor for details. The A.O.S. in Vascular Ultrasound Technology program has a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, models, and e-library resources. The scan laboratory is equipped with ultrasound machines and other cardiology equipment.

The A.O.S. in Vascular Ultrasound Technology program is an Associate of Occupational Science Degree program. The student will receive didactic, laboratory, and clinical education on vascular ultrasound covering vascular anatomy and physiology, 2D imaging, PW, color flow Doppler, and vascular pathology. Methods of interpretation will be combined with General Education courses. The Instructor-to-Student ratio is 1:25 during lectures, 1:10 in the laboratory, and 1:1 during the externship.

The program comprises six (6) quarters of twelve (12) weeks each. During the program's first quarter(12 weeks), students will take General Education courses up to 24 hours per week via online delivery. During the second quarter (12 weeks), students will continue to take General Education courses online up to twenty-four (24) hours per week for the first twelve (12) weeks.

The next two (2) quarters (Quarters 3 and 4) consist of didactic/lab sessions only, which include three (3) to five (5) days per week of up to eight (8) hours per day of didactic and lab instruction. After completing four (4) quarters, students are generally expected to start attending externships four (4) or five (5) days a week.

Master Scanning Labs (MSL) are scheduled monthly on days to be announced on a separate schedule and in no particular order.

The student receives nine hundred eighty-four (984) didactic and laboratory instruction and eight hundred (800) hours of clinical education, allowing them to apply the lecture topics to practical use. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. In addition, the program prepares students to take their RVS/RVT examinations.

An Associate of Occupational Science Degree in Vascular Ultrasound Technology is awarded upon program completion. The normal completion time for this program is seventy-two (72) weeks, excluding any holiday and vacation times. Class times can and may be rescheduled on an alternate day of the week (i.e., Sunday through Saturday) to ensure program completion is on time and the required program hours are fulfilled.

Voluntary and Prudent Use Statement for Ultrasound Technology

The program ensures the voluntary and prudent use of students or other human subjects for non-clinical scanning. Students' grades and evaluations are not affected by participation.

A.S. in MRI Program Mission

Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

A.S. in MRI Program Description

Magnetic Resonance Imaging (MRI) Technologists are valued members of today's healthcare team. They used specialized MRI equipment to create images of structures inside the human body, among other vital tasks. While supervised by board-certified radiologists, MRI Technologists have responsibility and independence in performing their duties.

MRI program graduates acquire preparation to perform clinical MRI examinations, focusing on image production, quality control, signal-to-noise ratio, and primary pulse sequences. Read more about the benefits of becoming an MRI Technologist. The program includes online classwork, required online lectures, and clinical experiences correlating with theoretical education. Gurnick Academy of Medical Arts considers clinical experience essential in healthcare education. Accordingly, students are placed within our affiliated medical facilities while attending our MRI Technologist Program.

A.S. in MRI Program Goals

- Train students who demonstrate the knowledge and skills required for employment as entry-level MRI technologists.
- Develop interpersonal skills in communicating with patients and medical and administrative individuals.
- Help students acquire the skills needed to practice proper patient care.
- Instill students with the knowledge, clinical skills, problem-solving abilities, and interpersonal skills to practice in magnetic resonance imaging.
- Equip graduates to be competent in entry-level positions as MRI Technologists and display appropriate behaviors, as set forth by the American Registry of Radiologic Technologists® (ARRT®) and the Section for Magnetic Resonance Technologists (SMRT).
- Prepare students to take and pass the ARRT® (MR) Examination.

A.S. in MRI Program Information, Length, and Schedule

The Associate of Science in MRI program provides a library. The Instructor-to-Student ratio is 1:25 during lectures

and 1:1 or 1:2 during clinical experiences.

The MRI program comprises seventy-two (72) weeks of full-time study. The program is offered twice per calendar year. The curriculum encompasses all magnetic resonance imaging technology principles, including 246 hours of general education instruction, 620 hours of technical didactic instruction, and 1,020 hours of supervised clinical experience.

The program is based on the parameters suggested by the Joint Review Commission on Education in Radiologic Technology (JRCERT), the Association of Educators in Radiologic Sciences (AEIRS), and the American Society of Radiologic Technologists (ASRT). In addition, the MRI program integrates general education components to complement technical courses.

The program consists of six (6) 12-week quarters. Students will take General Education courses, as well as Introduction to MRI courses, up to 24 hours per week during the first two (2) program quarters. Students will take technical courses online from the third quarter through the end of the program.

Clinical Rotations start in Quarter 3. Students will attend their clinical rotation at an assigned MRI facility for a period of forty-eight (48) weeks, two to four (2 – 4) days per week, with a minimum of 21 hours per week with +/- ten (10) hours per week variance. Occasional Saturday/Sunday clinical hours will be required to complete clinical hours.

The expected program completion time is seventy-two (72) weeks, excluding holidays and vacation times. The curriculum provides our students with the general education, technical, clinical, and interpersonal skills necessary to succeed in this challenging field. An Associate of Science Degree is awarded upon program completion. Class times can and may be rescheduled on an alternate day of the week (Sunday through Saturday) to ensure on-time program completion and the fulfillment of required program hours.

ASSOCIATE OF SCIENCE IN NUCLEAR MEDICINE TECHNOLOGY PROGRAM (A.S. in NM)

Gurnick Academy students at a Nuclear Medicine Externship site.

96 WEEKS
2646 CLOCK HOURS
173 QUARTER CREDIT HOURS
ASSOCIATE OF SCIENCE DEGREE PROGRAM, 8 QUARTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-2033.00
POTENTIAL OCCUPATION:
Please see a school official for the complete list of potential occupations.
LOCATIONS: Concord
DELIVERY: Blended, Full Distance Education

A.S. in NM Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

The Nuclear Medicine Technology program's mission is to provide the healthcare community with compassionate, competent, and professional nuclear medicine technologists.

The program's philosophy is to educate students to succeed in the evolving field of Nuclear Medicine. Our students will demonstrate the highest standards of excellence, integrity, didactic commitment, and clinical competency. Students will graduate with a diverse background of clinical exposure and exemplify compassionate and professional patient care.

A.S. in NM Program Description

The Associate of Science in Nuclear Medicine Technology (ASNM) is a 24-month program preparing students with essential general education classes, a core nuclear medicine curriculum, and real-life experience at clinical sites. The program begins with basic nuclear medicine principles and builds on that knowledge to bring the student to the level needed to pass the national credentialing exam.

The curriculum includes diagnostic and therapeutic nuclear medicine procedures, radiopharmaceutical preparation and administration, and quality control procedures for imaging equipment. The program also includes courses on positron emission tomography (PET) and computed tomography (CT). The program includes online classwork, live online lectures, and clinical experiences.

In their clinical experiences, students will be under the direct supervision of a nuclear medicine technologist and learn the administration and preparation of radiopharmaceuticals for use in diagnostic and therapeutic applications. They also use specialized imaging equipment to visualize the human body's pathologic conditions and physiologic processes.

The student elevates their critical thinking skills to deliver high-quality care consistently. Student externships may occur in hospitals, outpatient clinics, imaging centers, research facilities, and mobile imaging trailers.

A.S. in NM Program Goals and Objectives

- Graduate students will demonstrate the knowledge and skills required of competent entry-level nuclear medicine technologists.
- Empower students to apply critical thinking and problem-solving skills in the clinical setting to ensure patient safety and diagnostic study acquisition.
- Produce students who will demonstrate effective communication skills with patients and medical and administrative staff.
- Promote acknowledgment of and adherence to ethical and professional responsibilities.
- Produce students who will uphold radiation protection practices to protect themselves and their patients.
- Prepare students to take and pass the national credentialing examination.

A.S. in NM Student Learning Outcomes

- Provide compassionate patient care.
- Perform diagnostic and therapeutic nuclear medicine exams accurately and efficiently.
- Adhere to radiation safety regulations and best practices.
- Display competency in preparing and handling radiopharmaceuticals used in nuclear medicine technology.
- Perform and analyze quality control procedures for various nuclear medicine imaging equipment types.
- Communicate effectively and professionally using verbal and non-verbal communication skills.
- Demonstrate ethical and professional behavior in a healthcare setting.

A.S. in NM Program Information, Length, and Schedule

The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and connect with an Admission Advisor for details.

The Nuclear Medicine Technology program is an Associate of Science degree program. The student will receive didactic, laboratory, and clinical experience in affiliated medical facilities. The Instructor-to-Student ratio is 1:25 during online lectures and 1:1 during clinical externships. Classes may be scheduled Monday through Sunday.

Students will attend up to forty (40) hours per week of instruction, including didactic, labs, and clinical. Clinical activities may be held on weekdays or weekends, and shifts may include days or evenings as the clinical site requires. Didactic courses are held between 8:00 AM to 8:00 PM.

Students receive 1,414 hours of didactic and laboratory instruction and 1,232 hours of clinical education, allowing them to apply the lecture topics to practical use.

ASSOCIATE OF SCIENCE IN NURSING PROGRAM (ADN)

90 WEEKS (GENERIC); 33 WEEKS (LVN TO RN)
80 SEMESTER CREDIT HOURS
ASSOCIATE DEGREE PROGRAM, 6 SEMESTERS
LVN TO RN, 2 SEMESTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-1141.00, 29-1141.01
POTENTIAL OCCUPATIONS:
Please see a school official for the complete list of potential occupations.
LOCATION: Fresno
DELIVERY: Blended (Residential and Distance Education)

A Gurnick Academy student and instructor in the Nursing Skills Lab at the Fresno campus.

ADN Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

ADN Program Description
Nursing graduates play an essential role in healthcare. Registered Nurses are vital to the healthcare team as they provide and coordinate patient care. RNs assess patients, administer medication and treatments, consult doctors, and teach patients how to manage illness or injuries.

We offer two (2) different pathways that include didactic and hands-on training. The first track is a six-semester program for non-nursing applicants.

We offer a second track for those with an LVN/LPN license and who have completed general education courses. LVN to RN applicants can complete the program in two semesters and a three-week LVN to RN transition course. After program completion, students will receive an NCLEX prep class to prepare for the RN licensure board examination.

ADN Program Goals

- Provide a high-quality educational experience to each individual desirous to advance in the healthcare profession.
- Provide a depth of human understanding and a wide range of nursing skills based on communication and scientific principles.
- Guide the Associate Degree student in collaborative practice with other healthcare professionals to meet patient nursing needs.
- Employ the nursing process in the provision of safe and effective care.

- Help develop the Associate degree student to become a role model, patient advocate, patient educator, and caregiver who provides an environment conducive to maintaining dignity and maximizing the wellness of each individual.
- Guide the Associate Degree student to actively participate in the learning process and assist with developing self-awareness and self-direction.
- Provide a shared learning environment between faculty and students by exchanging knowledge and experience to promote change within the participants.
- Prepare the Associate Degree student with the knowledge, skill, and ability to administer safe, ethical, competent nursing care as a beginning practitioner in various settings.

ADN Educational Objectives

Upon completion of the Associate of Science in Nursing Program, the graduate will function within the roles of the Registered Nurse in various healthcare settings and be able to:

1. Demonstrate the cognitive abilities necessary to integrate nursing concepts and the multidisciplinary body of knowledge to provide therapeutic nursing care.
2. Exhibit the psychomotor and psychotherapeutic abilities necessary for safe nursing care.
3. Implement teaching strategies to promote adaptation to health.
4. Demonstrate caring behaviors in the provision of patient-centered, individualized care.
5. Use critical thinking and the nursing process for clinical decision-making.
6. Care for clients and families from diverse and multicultural populations across the lifespan.
7. Communicate effectively with clients, families, and interdisciplinary healthcare team members.
8. Provide a standard of care consistent with legal, ethical, and regulatory guidelines and the BRN Practice Act.
9. Recognize responsibility for maintaining competence as a registered nurse through self-evaluation and continuing nursing education.
10. Perform as an accountable member of the nursing profession.
11. Understand and integrate technology into providing care to clients across the healthcare continuum.
12. Develop a foundation for advanced study and professional growth in nursing.

ADN Program Information, Length, and Schedule

The ADN is a degree program providing a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, and models. The Instructor-to-Student ratio is 1:12 in the laboratory and clinical, 1:28 in residential lectures, and 1:25 in online lectures.

The ADN program is designed with two (2) separate admission pathways. The pathways are intended for full-time attendance.

Generic ADN (6 semesters for 80 Semester Credit Hours)

In the program's first two (2) semesters, students will take 33 Semester-Credit Hours of General Education courses via online delivery.

The third semester is 15 weeks and comprises 14 Semester Credit Hours (nine (9) lectures and five (5) clinical and skills lab hours). Courses include Fundamentals of Nursing, encompassing theory, skills and clinical, Health Assessment, Pharmacology, and Pathophysiology. Theory and Lab will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The fourth semester comprises ten (10) Semester Credit Hours (six (6) lectures and four (4) clinical hours). Courses include Introduction to Med/Surg I Theory and Clinical and Intermediate Med/Surg Theory and Clinical. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The fifth semester consists of 14 Semester Credit Hours (nine (9) lectures and five (5) clinical hours). Courses include Maternal/Newborn Theory and Clinical, Care of Children Theory and Clinical, and Advanced Med/Surg I Theory and Clinical. Theory and Lab will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The sixth semester comprises nine (9) Semester Credit Hours (five (5) lectures and four (4) clinical hours). Courses include Mental Health Nursing Theory and Clinical and Complex Med-Surg Theory and Clinical/Leadership. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

Students enrolled in this pathway receive 885 hours of didactic and 900 hours of clinical and lab instruction,

allowing them to apply the lecture topics to practical use.

LVN to RN Advanced Placement (2 semesters for a total of 25 Semester Credit Hours):
Students in this pathway can complete the ADN program within 33 weeks (two (2) semesters and a three (3) week LVN to RN transition course), assuming maximum credit granting for nursing and GE courses.

An admission course is required for all students electing to enroll in the LVN to RN Advanced Placement program. The admission course is RN 180 – Nursing Transition Advanced Placement Theory & Lab Course. It is a 5-unit, 120-hour course that evaluates the student's readiness to enroll in the Advanced Placement pathway. The student must demonstrate the required knowledge and skills to complete this course. All students must complete these before starting any Professional Courses.

The third semester is 16 Semester Credit Hours (11 lectures and five (5) clinical hours). Classes will be held Monday through Friday with two (2) days on campus (9 hours of class each week for 15 weeks) and nine (9) hours/two (2) days per week in clinical practice for ten (10) weeks.

The fourth semester is nine (9) Semester Credit Hours (five (5) lectures and four (4) clinical hours). Classes will be held Monday through Friday with two (2) days on campus (7 hours of class) and three (3) days per week in clinical practice, each for eight to nine (8 – 9) hours.

Students receive 292.5 hours of didactic and 472.5 hours of clinical and lab instruction from this pathway, allowing them to apply the lecture topics to practical use. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this challenging field. The expected program completion time is 33 weeks, excluding holidays and vacation times.

Gurnick Academy of Medical Arts has adopted ATI standardized testing to assess student learning outcomes and evaluate student readiness for the nursing licensure examination. The NCLEX Preparation and Remediation course assists students in this program by focusing directly on the current NCLEX-RN test plan, application process, and test-taking strategies to prepare for the NCLEX-RN licensure exam.

Preparation for NCLEX-RN is provided to the students. Students are permitted two (2) attempts to pass the ATI exit exam to graduate. The first attempt is given after program completion. The second attempt is given two (2) weeks after program completion. Under extraordinary circumstances, applicable students may be eligible for a third attempt. See the Student Grievance and Appeals Policy for more information.

LVN 30-Unit Option
This option is available to all individuals who are Licensed Vocational Nurses in California. Completing the required courses will provide the opportunity and eligibility to take the California Registered Nurse licensure examination. This option does not meet the Associate of Arts Degree in Nursing graduate requirements, and students will not graduate from the nursing degree program. In addition, several states do not recognize individuals who complete this option or pass the NCLEX-RN examination as registered nurses.

Admission to the LVN 30 Unit Option is dependent on space availability. The candidate must meet the criteria to enroll in the 30 Unit Option. The 17.5 units must be completed in the Gurnick Academy of Medical Arts Associate Degree Nursing program. The remaining eight (8) units will be transfer credits of four (4) units from any standalone Physiology with lab that includes all body systems equivalent to the GE 020A & GE 020B or Human Body in Health & Disease I w/Lab and Human Body in Health & Disease II w/Lab and four (4) units of Microbiology with Lab which are admission requirements for this option. This option does not apply to ADN students enrolled in the program or to students who failed any course from the ADN program. The RN 180 Nursing Advanced Placement Transition course is not required but is recommended for completion as an elective course.

112 QUARTER CREDIT HOURS
ASSOCIATE OF SCIENCE DEGREE PROGRAM, 7 QUARTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 31-2011
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: San Jose
DELIVERY: Blended

A.S. in OTA Program Mission

Gurnick Academy of Medical Arts' aims to offer quality allied-health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

A.S. in OTA Program Description

The Occupational Therapy Assistant (OTA) program uses meaningful and purposeful activities and occupations to promote health, independence, learning, and well-being across the life span, with people of all ages from newborns to the elderly.

Under the supervision of a licensed occupational therapist (OT), the occupational therapy assistant (OTA) works for the process of therapy services directly with individuals, families, groups, and communities to facilitate health, well-being, and learning through engagement in meaningful activities and occupations.

In addition to direct patient care, occupational therapy assistants participate in addressing the factors that affect the delivery of health services and the disparities that contribute to occupational deprivation

A.S. in OTA Program Goals

- The program will offer a sequential, integrated technical curriculum that reflects contemporary Occupational Therapy Assistant practice.
- The program will prepare graduates to provide occupational therapy interventions in various settings within the OTA scope of practice and under an occupational therapist supervision.
- The program will prepare graduates to demonstrate ethical and professional behaviors consistent with California State Law and Practice Acts and the professional standards of practice.
- The program will employ faculty who demonstrate current knowledge in their teaching areas and are committed to professional standards of excellence.
- The program will prepare graduates to utilize self-assessment and awareness in communication, skills, knowledge, and behaviors with patients/clients, caregivers, colleagues, and other healthcare team members.
- The program will provide students a curriculum that recognizes, fosters understanding, and embraces diversity and different learning styles.
- Occupational therapy assistant students are adult learners, and our program will provide the opportunity to take responsibility for learning, professional behavior, respect for others, and preparedness
- Gurnick Academy of Medical Arts does not discriminate against students based on race, color, creed, national origin, gender, sexual orientation, age, disability, or marital status.

A.S. in OTA Program Information, Length, and Schedule

The program information, length and schedule may change. Read the accompanying Addendum for change and updates as well as check in with the Admission Advisor for details. Enrollment is available only to students who live in California.

Gurnick Academy of Medical Arts Occupational Therapy Assistant Program has a library, and classrooms equipped with modern audio-visual teaching aids, textbooks, journals, anatomical charts, and models in addition to e-library resources. The laboratories are equipped with the most actualized tools and materials used in the occupational therapy practice.

The pediatrics laboratory has the equipment to work with children and youth with developmental, musculoskeletal, neurological, and learning issues; the lab will also be used as our sensory integration lab. Our daily living lab takes place in a room that has been developed and implemented as a living quarter with kitchen, bathroom, and living room settings.

There is a spacious lab for all the physical disabilities and biomechanical techniques, a hand therapy lab, as well as an ergonomics lab. The instructor-to-student ratio is 1:25 in lecture and 1:12 in laboratory.

The program consists of seven (7) quarters of twelve (12) weeks each. During the first quarter, students will complete up to 24 hours per week of General Education courses delivered online. In the second quarter, students will continue taking up to 24 hours per week of General Education courses online, along with one virtual synchronous didactic session.

Quarters three through six consist of virtual synchronous didactic sessions and in situ lab sessions, which include three (3) to five (5) days per week of up to four (4) hours per day didactic, and the lab instruction will take place every other weekend on Saturdays and Sundays. Starting in quarter three, externships or Fieldwork One (FWI) will start taking place; the FWI entails 40 hours distributed during the quarter. Quarters four and five will have a 40-hour FWI each. Quarters 6 and 7 will have two (2) FWI. The NBCOT Certification exam training will take place during quarter 7.

The student receives nine hundred seventy hours (970) of didactic and laboratory instruction and eight hundred (800) hours of clinical education, allowing them to apply the lecture topics to practical use. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this field. In addition, the program prepares students to take their NBCOT Certification exam.

An Associate of Science Degree in Occupational Therapy Assistant is awarded upon program completion. The normal completion time for this program is eighty-four (84) weeks excluding any holiday and vacation times. In order to ensure program completion is on time and the required program hours are fulfilled, class times can and may be rescheduled on an alternate day of the week (i.e.: Sunday through Saturday).

ASSOCIATE OF SCIENCE IN PHYSICAL THERAPIST ASSISTANT PROGRAM (A.S. in PTA)

68 WEEKS
1773 CLOCK HOURS
106 QUARTER CREDIT HOURS
ASSOCIATE OF SCIENCE DEGREE PROGRAM, 6 QUARTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 31-2021.0.
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATION: Fresno and San Jose
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy of Medical Arts students in the Physical Therapist Assistant classroom at the San Jose campus.

A.S. in PTA Program Mission
The A.S. in Physical Therapist Assistant program aims to support the mission of Gurnick Academy of Medical Arts and is based upon the program's philosophy. The A.S. in Physical Therapist Assistant program will prepare and graduate students to meet our diverse community's growing needs.

The A.S. in Physical Therapist Assistant program strives to provide students with the necessary skills to enter the workforce as competent, thinking, respectful, and compassionate individuals. They will provide legal and ethical care within the standards of practice for Physical Therapist Assistants under a physical therapist's supervision.

A.S. in PTA Program Description

Physical Therapist Assistants provide physical therapy services under the supervision of a licensed physical therapist, which is within the scope of practice for PTAs. They provide patients with instructions for therapeutic exercise and utilize therapeutic modalities that incorporate massage, stretching, selected manual therapy interventions, and using electrotherapies.

The program includes classwork, laboratory training, and clinical experiences correlating with theoretical education. The technical courses incorporate the minimum skills of Physical Therapist Assistant graduates at the entry level and the Standards of Ethical Conduct for the Physical Therapist Assistant developed by the American Physical Therapy Association (APTA).

Gurnick Academy of Medical Arts considers clinical experience essential for healthcare education. Accordingly, students are rotated throughout our affiliated clinical facilities while completing the Physical Therapist Assistant program.

PTAs must complete a 2-year associate's degree and are licensed, certified, or registered in most states.* **Source: American Physical Therapy Association.*

Graduation from an accredited physical therapist assistant program allows the graduate to be eligible to take the National Physical Therapy Exam (NPTE) for PTAs and the California Law Exam (CLE). The student will be licensed to practice in California after successfully passing these exams. Please see the Accreditation, Approval, Recognition, Membership section for information about Gurnick Academy of Medical Arts' PTA program accreditation.

The Physical Therapist Assistant Program is an Associate of Science Degree program.

A.S. in PTA Program Goals

- The program will offer general education courses providing the background for a technical curriculum that is sequential, integrated, and reflective of contemporary Physical Therapist Assistant practice.
- The program will prepare graduates to provide physical therapy interventions in various settings within the PTA scope of practice and under a physical therapist's supervision.
- The program will prepare graduates to demonstrate ethical and professional behaviors consistent with California State Law and Practice Acts and the professional standards of practice.
- The program will employ faculty who demonstrate current knowledge in their teaching areas and are committed to professional standards of excellence.
- The program will prepare graduates to utilize self-assessment and awareness in communication, skills, knowledge, and behaviors with patients/clients, caregivers, colleagues, and other healthcare team members.

A.S. in PTA Philosophy

- Physical Therapists and Physical Therapist Assistants are valued members of today's healthcare team.
- Physical Therapists and Physical Therapist Assistants must understand their respective roles and respect them best to meet the patient's/client's needs.
- Students will benefit from a curriculum that supports multiple learning styles, is varied in educational experiences, and is structured to provide interaction between faculty and students.

- Students will benefit from a curriculum that recognizes, fosters understanding, and embraces diversity.
- Students will benefit from a curriculum that will react to changes in Physical Therapy knowledge and technology.
- To be successful as a Physical Therapist Assistant and meet the profession's needs, the student must understand learning as a lifelong activity.
- Clinical experience in various settings is vital for the student to acquire entry-level skills as a Physical Therapist Assistant.
- Physical Therapist Assistant students are adult learners. Gurnick Academy of Medical Arts expects them to take responsibility for learning, professional behavior, respect for others, and preparedness.
- Faculty members are positive role models in the profession of Physical Therapy.
- Gurnick Academy of Medical Arts does not discriminate against students based on race, color, creed, national origin, gender, sexual orientation, age, disability, or marital status.

General Education courses are identified in Italic

A.S. in PTA Program Information, Length, and Schedule

The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and connect with an Admission Advisor for more details.

The Physical Therapist Assistant program is an Associate of Science degree program. The program includes eight (8) General Education Courses, and eighteen (18) Physical Therapist Assistant focused courses. Students with previous college courses equivalent to the General Education required can request an evaluation of their transcripts for credit transferred in.

Classes are scheduled Monday through Friday full-time during the day. Clinical education assumes the Clinical Site hours during the day.

The A.S. in Physical Therapist Assistant program at both the San Jose and the Fresno campuses enjoys classrooms/laboratories equipped with industry-standard equipment found at typical Physical Therapy facilities. This includes cardio, modalities, balance, weights, and treatment tables. The classroom lecture instructor-to-student ratio is 1:20, and in the laboratory sessions, the ratio is 1:15. Clinical education is a crucial part of the PTA Program. Students have the opportunity for three (3) full-time clinical rotations at various types of Physical Therapy facilities located locally and out of state.

ASSOCIATE OF SCIENCE IN RADIOLOGIC TECHNOLOGY PROGRAM (A.S. IN RT)

96 WEEKS
2,974 CLOCK HOURS
167 QUARTER CREDIT HOURS
ASSOCIATE OF SCIENCE DEGREE PROGRAM, 8 QUARTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-2034.00, 29-2035.00, 29-2099.06
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: Concord and Sacramento
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy students in the Imaging Skills Lab at the Sacramento campus.

A.S. in RT Program Mission

The A.S. in Radiologic Technology Program faculty is dedicated to providing qualified individuals with an optimal learning experience. We strive to provide the medical imaging community with competent radiologic technologists. They will demonstrate the highest standards of ethics, professionalism, clinical competency, and critical thinking while providing compassionate and respectful patient care.

The program philosophy ensures that graduates perform radiologic procedures as defined by the American Society of Radiologic Technologists Practice Standards. Graduates of the A.S. in Radiologic Technology program will possess professionalism and ethics consistent with the American Registry of Radiologic Technologists Principles of Professional Conduct for Radiologic Technologists and Code of Ethics.

A.S. in RT Program Description

A Radiologic Technologist is trained in the "art and science" of creating images of the human body using ionizing radiation. The radiologic technologist works closely with the radiology doctor (radiologist) and other physicians and plays a vital role as a professional member of the medical team.

Technologists work in hospitals (general radiography, surgery, trauma, pediatrics, clinics), doctors' offices, and imaging centers. The role of radiologic science in medicine is continually growing. New applications and imaging equipment are in a constant state of development. The continued growth and development of imaging depends on highly qualified and well-trained radiologic technologists.

Some clinical rotations and radiographic examinations are deemed "gender-specific," such as mammography and the hysterosalpingogram (HSG). While mammography is generally performed on females, the HSG is an examination exclusively conducted on female patients.

Male students should understand that they may not be allowed to observe or perform these examinations because of their sensitivity. Didactic information on these examinations will be provided to all students. However, clinical experience in these examinations may be limited to only female students.

A.S. in RT Program Goals and Objectives

- Graduate students with the clinical competence required to be an entry-level technologist.
- Produce students who will demonstrate effective interpersonal skills with the entire healthcare team and the public.
- Enable students to employ appropriate critical thinking and problem-solving skills to prepare them to be entry-level technologists in the clinical setting.

A.S. in RT Student Learning Outcomes

- Demonstrate the positioning skills of an entry-level technologist.
- Evaluate images for diagnostic quality.
- Demonstrate effective communication skills with the healthcare team.
- Employ communication skills with the patients and the public.
- Ability to adapt to patients' conditions that deviate from routine exams.
- Utilize proper safety and ALARA practices for routine and non-routine exams.

Students will establish a plan for professional development and career enhancement upon graduation.

*The Gurnick Academy of Medical Arts A.S. in Radiologic Technology program offers all curriculum courses via distance education and hybrid delivery, except for laboratory and clinical courses, which require in-person attendance

A.S. in RT Program Information, Length, and Schedule

The program information, length, and schedule may change. Please read the accompanying Addendum for changes and updates. Connect with an Admission Advisor for details.

The A.S. in Radiologic Technology program provides a library and classrooms with media teaching aids, textbooks, journals, periodicals, anatomical charts, phantoms, and energized lab equipment.

The Radiologic Technology program is an Associate of Science degree program. The student will receive didactic, laboratory, and clinical experience in affiliated medical facilities. The Instructor-to-Student ratio is 1:30 during residential lectures, 1:25 during online lectures, 1:10 in the laboratory, and 1:1 during clinical externships.

Classes may be scheduled Monday through Sunday. Students will attend an average of forty (40) hours per week of instruction, including didactic, labs, and clinical. Clinical activities may be held during weekdays or weekends, and shifts may include day, evening, or graveyard as the clinical site requires. Didactic courses are held between 8:00 AM to 8:00 PM.

The program's affiliated clinical sites hold current state-issued certificates as approved clinical sites. The clinical sites provide supervised clinical instruction in the patient care setting. All clinical sites employ radiologic

technologists and supervisors/operators (doctors) who hold certification from the State of California Radiologic Health Branch.

ASSOCIATE OF SCIENCE IN VOCATIONAL NURSING PROGRAM (A.S. in VN)

30 WEEKS
2,070 CLOCK HOURS
90.5 SEMESTER CREDIT HOURS
ASSOCIATE DEGREE PROGRAM
LOCATION: Fresno
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy of Medical Arts students in the Simulation Learning Center at the Fresno campus.

A.S. in VN Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

A.S. in VN Program Description
A.S. in Vocational Nursing program graduates join a career in the healthcare field. Vocational nurses provide primary medical care under the direction of registered nurses and doctors. They monitor patients' health, discuss care with patients, keep records, and administer primary care, including changing bandages and inserting catheters.

The Associate of Science in Vocational Nursing program is a two (2) semester program for graduates of an approved Vocational Nursing or Practical Nursing program who wish to obtain an Associate of Science Degree.

The program builds on the vocational nursing diploma program by adding the same general education courses to our Associate of Science in Nursing Program (ADN).

A.S. in VN Program Goals and Objectives

- Incorporate nursing, behavioral, and physical sciences principles to provide competent care to clients of different ages with different biopsychosocial needs.
- Apply knowledge of specific disease conditions in the prevention, treatment, nursing care, and rehabilitation of clients.
- Differentiate the role of the Vocational Nurse within the medical team.
- Adhere to professional standards incorporating legal and ethical responsibilities.
- Utilize critical thinking in assessing, planning, intervening, and evaluating client care within the scope of Vocational Nurse practice.
- Use effective communication to demonstrate organization, prioritization, delegation, and collaboration with healthcare professionals.
- Prepare the Associate Degree student with the knowledge, skill, and ability to administer safe, ethical, competent nursing care as a beginning practitioner in various settings.

General Education Courses are identified in Italics.

A.S. in VN Program Information, Length, and Schedule
The expected program length is 30 weeks to complete all 33 semester credit hours of online General Education courses after receiving transfer credit for 57.5 semester credits of a prior Vocational Nursing or Practical Nursing program. Graduates earn 90.5 semester credit hours and an Associate of Science Degree in Vocational Nursing.

BACHELOR OF SCIENCE IN DIAGNOSTIC MEDICAL IMAGING PROGRAM (B.S. in DMI)

Stock photo from canva.com.

45 WEEKS (FULL-TIME)/90 WEEKS (PART-TIME)
121 SEMESTER CREDIT HOURS
DEGREE PROGRAMS, 3 SEMESTERS (FULL-TIME)/ 6 SEMESTERS (PART-TIME)
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-2032.00, 29-2099.06, 29-2034.00, 29-2035.00
POTENTIAL OCCUPATIONS:
Please see a school official for the complete list of potential occupations.
LOCATION: Concord
DELIVERY FORMAT: Online

B.S. in DMI Program Mission
To prepare imaging professionals with higher education, leadership skills, and opportunities for upward mobility in healthcare.

B.S. in DMI Program Description
The online Bachelor of Science in Diagnostic Medical Imaging (BSDMI) degree provides the certified imaging professional with the foundational skills necessary to advance.

Enhanced marketability is an influential motive for acquiring a bachelor's degree in Diagnostic Medical Imaging.

A bachelor's degree makes advancing in radiology, business, IT, and public health possible. Positions in administration, management, and education generally require advanced degrees. The applicant can choose one of six (6) specialty tracks to further the imaging professional's career.

- **Imaging Informatics** – Training in the Imaging Informatics courses will prepare the student for the PACS / RIS administrator role.
- **Leadership and Management** – Training in the Leadership and Management courses will prepare the student for healthcare administration and management positions.
- **Education** – Training in the Education courses will prepare the student for a career in imaging education (depending on minimum course enrollment).
- **Mammography** – Training in the Mammography courses will include all MQSA-mandated material and an emphasis on mammography registry review. This track will cover all ARRT® mammography exam content specifications, review the California state mammography exam, and include the required ARRT® 16 hours of structured education for the Mammography post-primary examination.
- **Computed Tomography** – Training in the CT courses will consist of an overview of cross-sectional images of the body and offer didactic educational experiences that will provide the student with the necessary knowledge and skills to become an entry-level CT technologist. Students will learn the physics and instrumentation of computed tomography, clinical procedures and protocols, patient care, and radiation safety with a registry review to help prepare students for the ARRT® post-primary exam. The completion of this track will meet the ARRT® 16 hours of structured education for the CT post-primary examination.
- **MRI (Magnetic Resonance Imaging)** – Training in the MRI courses will include the didactic framework covering physical principles of MRI, advanced applications of MRI, including sectional anatomy, and MRI Safety and Registry Review. The completion of this track will meet the ARRT® 16 hours of structured education for the MRI post-primary examination.

The B.S. in DMI degree is available entirely through the distance education delivery method. This program offers advancement for technologists who cannot attend a traditional college. The entire BSDMI program is 121 semester credit hours. Registered technologists may earn up to 70 semester credit hours of advanced standing. The courses are listed in the following table. They include courses that will enhance the student's understanding of medical imaging and specialty courses depending on their chosen track.

B.S. in DMI Program Goals and Objectives

- Develop requisite skills to function in advanced roles within the imaging community.
- Expand communication skills.
- Demonstrate the critical thinking and problem-solving skills of a supervisory-level professional.
- Be adequately prepared to function in advanced roles within the profession.
- Develop professionalism through scholarly productivity.
- Cultivate critical thinking skills.
- Craft a working professional e-portfolio.

Gurnick Academy of Medical Arts students in the classroom at the Fresno campus.

BSN Program Description
Students will study a wide range of curricular content required for licensure by the California Board of Registered Nursing. Students will also study the organization and function of health services, ethics and law in health care, writing skills for health professionals, leadership and management, nursing research, and the essentials of patient education.

Emphasis will be placed on evidence-based practice and critical thinking skills to provide safe and effective care to patients from diverse and multicultural populations and communities across the lifespan. Students will also take Community Health Nursing, which includes certification in reporting child abuse and disaster management, following the requirements of the Public Health California Code of Regulations.

BSN Program Mission Statement

Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

The Bachelor of Science in Nursing aims to achieve distinction in the undergraduate nursing program and advance the mission of Gurnick Academy of Medical Arts through

1. Actively prepare the baccalaureate student to assume roles in nursing practice per the regulatory and accrediting agencies.
2. Actively prepare the baccalaureate student to bear practice, education, and research responsibility.
3. Promoting public health by developing new knowledge and applying this knowledge to innovate healthcare delivery in a public health setting.
4. Provision of insight, assistance, and teaching of health care programs responding to the growing public health needs.
5. Championing nursing research and scholarships.

BSN Program Goals

The faculty at Gurnick Academy of Medical Arts is committed to the following:

1. Providing a learning environment that nurtures cultural diversity and differences in learning styles and is free of discrimination and judgment.
2. Graduate well-prepared Bachelor of Science in Nursing students who demonstrate clinical behaviors and judgments to meet the essential competencies necessary to obtain licensure and join the workforce as an entry-level nurse.
3. Ensure that graduates have the knowledge and skills to respond to the community's growing healthcare delivery and practice needs.
4. Produce well-rounded nurses who are culturally sensitive, situation-adaptive, and active advocates of the community it serves.
5. Continuously revisit and revise its curriculum to ensure its nursing graduates adapt to rapid healthcare delivery and practice changes.
6. Build a learning platform to inspire nursing graduates to pursue recognition and excellence in practice, research, and community outreach.
7. Foster nurturing partnerships with its community organizations for academic programs.
8. Inspire nursing graduates to seek higher education by developing a plan for faculty growth and professional development.

BSN Terminal Educational Outcomes

By the end of the baccalaureate nursing program, the graduate will be able to:

1. Apply theoretical and clinical concepts of health promotion and disease prevention practices, provide a safe and nurturing environment, and lead innovations in nursing practices according to nursing regulations and accrediting agencies.
2. Critically appraise, analyze, and create a framework integrating didactic and clinical learning into everyday practice and leadership activities.
3. Evaluate patient care practices that are evidence-based and community-driven.
4. Express a firm commitment to nursing research through active participation in professional organizations and education advancement.

5. Demonstrate leadership by becoming well-rounded, ethical, respectful, well-informed, and fully responsive to the community's needs.

BSN Program Information, Length, and Schedule

The BSN is a degree program providing a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, and models. The Instructor-to-Student ratio is 1:12 in the laboratory and clinical, 1:28 during residential lectures, and 1:25 during online lectures.

The BSN program is designed with three (3) separate admission pathways for full-time attendance.

Generic BSN (8 semesters for 120 Semester Credit Hours):
In the first three (3) program semesters, students will take 50 Semester-Credit Hours of General Education courses via online delivery.

The fourth semester is 15 weeks and consists of 14 Semester Credit Hours (nine (9) lectures and five (5) clinical and skills lab hours). Courses include Fundamentals of Nursing, including theory, skills and clinical, Health Assessment, and Pharmacology. Theory and Lab will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The fifth semester consists of 13 Semester Credit Hours (nine (9) lectures and four (4) clinical hours). Courses include Pathophysiology, Introduction to Med/Surg I Theory and Clinical, and Intermediate Med/Surg Theory and Clinical. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The sixth semester consists of 14.5 Semester Credit Hours (nine (9) lectures and 5.5 clinical hours). Courses include Mental Health Theory and Clinical, Maternal/Newborn Theory and Clinical, and Advanced Med/Surg I Theory and Clinical. Theory and Lab will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The seventh semester consists of 14.5 Semester Credit Hours (nine (9) lectures and 5.5 clinical hours). Courses include Care of Children Theory and Clinical, Complex Med-Surg Theory and Clinical/Leadership, and Community Health Theory and Practicum. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The eighth semester consists of 14 Semester Credit Hours (12 lectures and two (2) clinical hours). Courses include Leadership Theory and Practicum, Nursing Research, Nursing Informatics, and BSN Capstone Portfolio. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

Students receive 1,425 didactic hours and 1,080 clinical and lab hours during this pathway, allowing them to apply the lecture topics to practical use.

LVN to BSN Advanced Placement (4 semesters for 63 Semester Credit Hours):

Students in this pathway can complete the BSN program within 63 weeks (four (4) semesters and a three (3) week LVN to RN transition course), assuming maximum credit granting for nursing and GE courses.

An admission course is required for all students electing to enroll in the LVN to RN Advanced Placement track. The RN 180 Nursing Advanced Placement Transition Theory & Lab is the admission course. It is a five (5) unit, 120-hour course that evaluates the student's readiness to enroll in the Advanced Placement pathway. The student must demonstrate the required knowledge and skills to complete this course. All students must complete these before starting any Professional Courses.

The third semester is 17 Semester Credit Hours of General Education Courses via online delivery. The fourth and fifth semesters with 24 semester credit hours are credits granted from LVN Education.

The sixth semester consists of 17.5 Semester Credit Hours (12 lectures and 5.5 clinical hours). Courses include Pathophysiology, Mental Health Theory and Clinical, Maternal/Newborn Theory and Clinical, and Advanced Med/Surg I Theory and Clinical. Theory and Lab will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The seventh semester consists of 14.5 Semester Credit Hours (nine (9) lectures and 5.5 clinical hours). Courses include Care of Children Theory and Clinical, Complex Med-Surg Theory and Clinical/Leadership, and Community Health Theory and Practicum. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

The eighth semester consists of 14 Semester Credit Hours (12 lectures and two (2) clinical hours). Courses include Leadership Theory and Practicum, Nursing Research, Nursing Informatics, and BSN Capstone Portfolio. Classes will be held Monday through Friday. The clinical schedule may vary depending on clinical site availability.

Students receive 802.5 hours of didactic and 652.5 hours of clinical and lab instruction in this pathway, allowing them to apply the lecture topics to practical use. The expected program completion time is 63 weeks, excluding holidays and vacations.

Gurnick Academy of Medical Arts has adopted ATI standardized testing to assess student learning outcomes and evaluate student readiness for the nursing licensure examination. The NCLEX Preparation and Remediation course assists students in this program by focusing directly on the current NCLEX-RN test plan, application process, and test-taking strategies to prepare for the NCLEX-RN licensure exam.

Preparation for NCLEX-RN (ATI) is provided to the students. Students are permitted two (2) attempts to pass the ATI exit exam to graduate. The first attempt is given after program completion. The second attempt is given two (2) weeks after program completion. Under extraordinary circumstances, applicable students may be eligible for a third attempt. See the Student Grievance and Appeals Policy for more information.

RN to BSN Advanced Placement (3 semesters for 36 Semester Credit Hours):

The Bachelor of Science in Nursing program (RN to BSN) admission track is a three (3) semester distance education program for RNs to complete their Bachelor of Science Degree in Nursing in one (1) year. Each semester is 15 weeks long and covers five (5) courses. Course instructors will open a new lecture each weekday, and assignments must be submitted by the deadlines set by the course instructors and indicated in the course syllabi.

The two (2) practicum courses, Community Health Nursing Practicum and Leadership/Management in Nursing Practicum, require the student to do six (6) hours each week for 15 weeks in a clinical setting. Students are responsible for obtaining their local clinical site/preceptor based on their work or residence. Gurnick Academy of Medical Arts has agreements with multiple clinical sites in the Bay Area, California, where students can alternatively complete their clinical/preceptorship.

The expected program completion time is 45 weeks, excluding holidays and vacation times. The Instructor-to-Student ratio is 1:25 during lectures and 1:1 during clinical externships.

At Gurnick Academy of Medical Arts (professional courses only), students receive 480 hours of didactic instruction and 180 hours of clinical teaching, allowing them to apply the lecture topics to practical use. Additionally, students will dedicate 960 hours toward outside-of-school preparation time.

LVN 30-Unit Option

The LVN 30 Unit Option is available to all individuals who are licensed as Licensed Vocational Nurse in the state of California. Completion of the required courses will provide the opportunity and eligibility of taking the California Registered Nurse licensure examination. Students who complete this program do not meet the Bachelors of Science in Nursing and will not be a graduate of the nursing program. Several states will not recognize individuals who complete this option or successful completion of the NCLEX-RN examination as a registered nurse.

Admission to the LVN 30 Unit Option is dependent on space availability. The candidate must meet the criteria in order to enroll into the 30 Unit Option. The 15 units of nursing courses for the 30 Unit Option must be completed at Gurnick Academy of Medical Arts. The remaining eight (8) units will be transfer credits of four (4) units from any standalone Physiology with lab that includes all body systems equivalent to the GE 020A & GE 020B or Human Body in Health & Disease I w/Lab and Human Body in Health & Disease II w/Lab and four (4) units of Microbiology with Lab which are admission requirements for this option. This option is not applicable to BSN students enrolled in the program and to students who failed any course from the BSN program. The RN 180 Nursing Advanced Placement Transition course is not required but is recommended for completion as an elective course.

BACHELOR OF SCIENCE IN RADIATION THERAPY (B.S. in RT)

Gurnick Academy of Medical Arts students in the lab.

135 WEEKS
3100 CLOCK HOURS
131 SEMESTER CREDIT HOURS
BACHELOR OF SCIENCE DEGREE PROGRAM, 9 SEMESTERS
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-1124.00
POTENTIAL OCCUPATION: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: Van Nuys
DELIVERY: Full Distance Education

B.S. in RT Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

The Radiation Therapy Program at Gurnick Academy of Medical Arts aims to provide the highest quality of didactic and clinical education for students to assume the role of a radiation therapist. Graduates of the Radiation Therapy program will be knowledgeable, both clinically and technically competent, and proficient in critical thinking to provide exceptional patient care, education, simulation, and treatment.

B.S. in RT Program Goals and Description
The Bachelor of Science in Radiation Therapy Program (B.S. in RT) is a 36-month program that prepares students to obtain the professional role of an entry-level radiation therapist. This full-time, lock-step program provides students with didactic and clinical learning experiences that prepare them to be vital healthcare team members.

This program includes online classwork, live online lectures, and clinical experiences contributing to student learning. Beginning with general education courses, students will build upon their knowledge as they progress through the program into core radiation therapy coursework.

The radiation therapy curriculum, developed by the American Society of Radiologic Technologists, ensures students develop essential skills for working with diverse patients. These skills include communication, human diversity, scientific inquiry, critical thinking, and judgment. The didactic radiation therapy courses include human anatomy, physiology, radiation therapy physics, radiation oncology, pathology, radiation biology, treatment planning, medical dosimetry, quality assurance, and patient care.

During the clinical portion of the program, students will be under the direct supervision of a licensed radiation therapist as they develop competencies in simulation, treatment, and dosimetric procedures. Students will utilize various simulation and treatment machines to elevate their skills and consistently deliver high-quality patient care.

B.S. in RT Program Goals and Objectives

1. Students will be clinically competent in simulation and the delivery of radiation therapy treatments.
    a. Students will demonstrate clinical competence in simulation and radiation therapy treatment delivery.
    b. Students will demonstrate mastery of knowledge and clinical reasoning.
    c. Students will demonstrate ALARA principles.
2. Students will communicate effectively.
    a. Students will effectively communicate with patients, therapists, physicians, and staff.
    b. Apply appropriate communication skills across settings, purposes, and audiences.
    c. Demonstrate the ability to communicate with culturally diverse populations.
3. Students will utilize problem-solving skills and develop critical thinking skills.
    a. Apply appropriate communication skills across settings, purposes, and audiences.
    b. Develop conclusions and related outcomes.
    c. Students will demonstrate mastery of knowledge and clinical reasoning.
4. Students will demonstrate standards of professionalism through ethical behaviors.
    a. Students will demonstrate ethical behaviors.
    b. Demonstrate attitudes and behaviors consistent with professional standards.

B.S. in RT Program Delivery

The B.S. in Radiation Therapy is offered via full-distance education. Gurnick Academy of Medical Arts considers clinical experience one of the most vital parts of medical education. While attending the Radiation Therapy program, students will rotate throughout our affiliated facilities. Students are offered acceptance to a regional area in which their clinical rotations will be completed. Students will not be permitted to change clinical regions after program acceptance.

Didactic is taught online, and students attend clinical rotations in the following areas:

Los Angeles, CA
Sacramento, CA
San Diego, CA
SF Bay Area, CA

B.S. in RT Program Information, Length, and Schedule

The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and check with an Admission Advisor for details.

The Radiation Therapy program is a Bachelor of Science degree program. The student will receive didactic, laboratory, and clinical experience in affiliated medical facilities. The instructor-to-student ratio is as follows:

online lectures 1:25 and clinical 1:1.

The program consists of nine (9) 15-week semesters. Students will take General Education courses and one (1) introductory course for up to 20 hours per week during the first three (3) semesters. Students will take technical courses for the last six (6) semesters. Clinical rotations start in semester five (5).

Classes may be scheduled Monday through Sunday. Students will attend up to forty (40) hours per week of instruction, including didactic, labs, and clinical. Clinical activities may be held during weekdays as required by the clinical site. Didactic courses are held between 8:00 AM to 8:00 PM.

Students receive 1,480 didactic and laboratory instruction hours and 1,620 clinical education hours, allowing them to apply the lecture topics to practical use.

BONE DENSITOMETRY TECHNICIAN PROGRAM (DXA)

5 WEEKS
56 CLOCK HOURS
4 QUARTER CREDIT HOURS
CERTIFICATE PROGRAM
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 31-9099.00
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATION: Sacramento
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy of Medical Arts students in the lab.

DXA Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

DXA Program Description
The Bone Densitometry Technician Program prepares competent imaging professionals committed to professionalism, ethical behavior, technical knowledge, radiation protection, and patient care. Students who complete this program may pursue an entry-level position as a Bone Densitometry at physician's offices, imaging centers, and research and governmental offices.

Graduates who complete the program must pass the California State Examination to secure a position as a Bone Densitometry Technician. Duties include patient assessment, patient care, machine operation, scanning protocols, analysis of anatomy and generating reports.

DXA Program Goals and Objectives

- Graduate students with the clinical competence required to be an entry-level technician.
- Produce students who will demonstrate effective interpersonal skills with the entire healthcare team and the public.
- Enable students to employ appropriate critical thinking and problem-solving skills to be entry-level technicians in the clinical setting.

DXA Program Student Learning Outcomes

- Demonstrate positioning skills of an entry-level technician.
- Evaluate images for diagnostic quality.
- Employ effective communication skills with the healthcare team.
- Exhibit communication skills with the patients and the public.
- Ability to adapt to patients' conditions that deviate from routine exams.
- Utilize proper safety and ALARA practices for routine and non-routine exams.

DXA Program Outline

Table 70. DXA Program Course Outline

Course Number	Title	Clock Hours	Quarter Credit Hours
DXA 101	Fundamentals of Bone Densitometry	40.0	3.5
DXA 101C	Clinical Practice I	16.0	0.5
TOTAL		**56.0**	**4.0**

DXA Program Information, Length, and Schedule

The program information, length, and schedule may change. Make sure to read the accompanying Addendum for changes and updates and contact an Admissions advisor for more detailed information.

The Gurnick Academy of Medical Arts Bone Densitometry Technician Program provides a library, and classrooms equipped with teaching aids, textbooks, journals, periodicals, and anatomical charts.

The Bone Densitometry Technician Program is a certificate program. The students will receive didactic and clinical experience in affiliated medical facilities. The instructor-to-student ratio is as follows: online lectures 1:25, and clinical 1:1.

Classes may be scheduled Monday through Sunday. Students will attend a maximum of 40 hours per week of instruction, including didactic lectures, laboratory, and clinicals. A mandatory two-hour laboratory on campus is required before beginning clinical rotations. Clinical activities may be held during weekdays or weekends, and shifts may include day or evening as the clinical site requires. Didactic courses are held online between 8:00 AM to 10:30 PM.

The program's affiliated clinical sites hold current state-issued certificates as approved clinical sites. The clinical sites provide supervised clinical instruction in the patient care setting. All clinical sites employ X-Ray Technicians or Radiologic Technologists and supervisors/operators (Doctors) who hold certification issued by the State of California Radiologic Health Branch.

The Bone Densitometry Technician Program consists of 4.0 quarter credit hours, completed over five (5) weeks for a total of fifty-six (56) contact hours. Day/Evening classes are currently scheduled for the program. Please refer to the course schedule for details. Before graduating, students must complete all didactic and clinical hours.

DENTAL ASSISTANT PROGRAM (DA)

32 WEEKS
946.5 CLOCK HOURS
42.5 QUARTER CREDIT HOURS
CERTIFICATE PROGRAM, 8 MODULES
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 31-9091.00, 43-6013.00
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATION: Modesto
DELIVERY: Blended (Residential and Distance Education)

A Gurnick Academy of Medical Arts instructor with a student in the Dental Assistant Skills Lab at the Modesto campus.

DA Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

DA Program Description
A Dental Assistant works in a dental office or other dental facility and is considered an indispensable partner on the team. A Dental Assistant performs various administrative and clinical tasks. Dental Assistant program students learn the principles of front and back-office dental assisting. They will be introduced to the anatomy and physiology fundamentals of the oral cavity.

Students will practice and become adept at various clinical skills, including patient education, chair-side assistance, X-rays, and coronal polishing. The program includes didactic, hands-on laboratory training and a clinical externship component where each student will be placed in a dental office or facility.

DA Program Goals and Objectives

- Graduate students demonstrate the knowledge and skills required of a competent entry-level dental assistant.
- Provide quality education and training that develops the potential of each student to become a productive, responsible, and professional member of society, as well as a skilled member of the dental assisting workforce.
- Foster open access and a supportive environment to encourage student success in the classroom, laboratory, and externship sites.
- Prepare students to organize, prioritize, and delegate care by communicating effectively with dental team members.
- Adhere to professional standards incorporating a Dental Assistant's legal and ethical responsibilities.
- Encourage professionalism, integrity, and high standards in students.
- Heed professional standards incorporating legal and ethical responsibilities.

DA Program Outline
Table 71. DA Program Course Outline

Course Number	Title	Clock Hours	Outside-of School Preparation Hours	Total Clock Hours	Quarter Credit Hours
DA 100	Infection Control	8.0	2.5	10.5	0.5

DA 200	Fundamentals of Dental Assisting	96.0	30.0	126.0	6.0
DA 201	Sciences of Dentistry/Infection Prevention	96.0	30.0	126.0	6.0
DA 202	Foundation of Clinical Dentistry	96.0	30.0	126.0	6.0
DA 203	Dental Materials/Coronal Polishing	96.0	30.0	126.0	6.0
DA 204	Radiology Safety/Administrative	96.0	30.0	126.0	6.0
DA 205	Dental Specialties/Patient Assessment	96.0	30.0	126.0	6.0
DA 300	Clinical Externship	180.0	—	180.0	6.0
TOTAL		**764.0**	**182.5**	**946.5**	**42.5**

DA Program Information, Length, and Schedule
The program information, length, and schedule may change.

The Dental Assistant program provides a library and classrooms with audiovisual teaching aids, textbooks, and simulators. The Instructor-to-Student ratio is 1:12 in the laboratory, 1:6 in preclinical procedures,1:30 during residential lectures, and 1:25 during online lectures. Classes begin every twelve (12) weeks.

The program comprises seven (7) didactic/laboratory courses in four-week blocks. DA 100-Infection control is taught before the students start any other courses. After completing the DA-100 course, students will take and complete all other courses. DA 200-202, and DA 202-205 are taught in sequence depending on the quarter of the start. Students must complete all didactic/laboratory courses before starting the DA 300 Externship course.

Students must be available for didactic and laboratory coursework from 8:00 AM to 6:00 PM Monday through Friday. Students may be required to accommodate alternative schedules based on facility placement business hours during the externship. Students must be able to complete those particular rotations on the schedule provided.

Students receive 200 hours of didactic lectures, 384 hours of laboratory instruction time, and 180 hours of clinical externship. This allows students to apply their lecture topics and hands-on lab skills in practical use when placed in a dental facility. Students will be taking technical courses, which may be given on campus, online, or a combination of the formats.

The minimum required outside work time for students is 182.5 hours. The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in the dental assisting field. A certificate is awarded upon program completion. The expected program completion time is 32 weeks, excluding holidays and vacation times.

Class times can and may be rescheduled on an alternate day of the week (Sunday through Saturday) to ensure on-time program completion and fulfillment of required program hours.

Lab Hours
Lab hours are completed with daily theory delivery and are conducted under instructor guidance and supervision.

Outside Work
Assignments will vary daily according to topics, be done on students' own time, and be given due dates.

Clinical Externship
The clinical externship includes student placement in a facility that performs various skills and provides exposure to theory concepts and hands-on practice opportunities. The externship allows students to assist facility staff with daily duties under supervision in the front and back offices. This marks the transition from being a student to becoming a dental assistant.

The externship is a practicum without pay to help students apply learned classroom skills. Students will have various tasks to perform and document for verification purposes. Daily attendance and performance at the site are verified by facility personnel.

MASTER OF SCIENCE IN NURSING PROGRAM (BSN to MSN)

90 WEEKS
36 SEMESTER CREDIT HOURS; 540 CLOCK HOURS
6 SEMESTERS
STANDARD OCCUPATIONAL CLASSIFICATION
(SOC Code): 29-1141.00. 29-1151.00, 29-1161.01, 29-1171.00
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: Concord
DELIVERY: Online

Gurnick Academy of Medical Arts students in the classroom at the Sacramento campus.

MSN Program Description
The Master of Science in Nursing (MSN) program prepares students at an advanced level, emphasizing nursing scholarship. Students will study healthcare policy, advanced research, healthcare informatics, leadership and management, financial resource management, curriculum development, teaching and learning process, assessment and evaluation of learning, and practicum capstone courses.

Emphasis will be placed on evidence-based practice, professional development, and scholarly practice, preparing nursing professionals with advanced theoretical skills and applied research methods.

MSN Program Mission Statement
The Master of Science in Nursing program (MSN) is based on the mission of Gurnick Academy of Medical Arts to promote the intellectual, cultural, social, and ethical development of the learner addressing healthcare of diverse individuals, families, groups, communities, and populations through formal and informal teaching and learning processes.

The MSN education prepares efficient nurses for flexible leadership and critical action within complex, changing systems, including health, educational, and organizational systems. The curriculum instills nurses with vital knowledge and skills to promote health, lead change, and elevate advanced care in various roles and diverse environments.

The purpose of the Master of Science in Nursing is to achieve distinction in the graduate nursing program and to advance the mission of Gurnick Academy of Medical Arts by

1. Leading change to improve quality outcomes, building collaborative interprofessional care teams, and assuming roles in advanced nursing practice per the regulatory and accrediting agencies.
2. Active preparation of the baccalaureate student to demonstrate critical thinking skills and innovative leadership in practice, education, and research.

3. Promoting public health by designing novel nursing practices and transforming evidence into practice in a diverse health setting.
4. Raise awareness, assistance, and teaching of health care programs in response to the growing public health needs and acuity.
5. Be a champion and advocate for nursing research and scholarship.

MSN Program Goals

At the graduate level, the goal is to develop knowledgeable and professional nurses who can unify practice with theory and advanced research to provide leadership, education, and service to healthcare stakeholders and the profession.

The faculty at Gurnick Academy of Medical Arts is committed to the following:

1. Providing a learning environment celebrating cultural diversity and differences in learning styles and is free of judgment and discrimination.
2. Graduate well-prepared Master of Science in Nursing students who demonstrate confidence in clinical behaviors and knowledge in advanced healthcare practice, meeting the essential competencies necessary to join the workforce.
3. Ensure that graduates have the required knowledge and vital skills to respond to the community's growing healthcare delivery and practice needs.
4. Produce well-rounded nurses who are culturally sensitive, situation-adaptive, and active advocates of the stakeholders and community it serves.
5. Ongoing visits to its curriculum and revising as needed, ensuring that its nursing graduates can adapt to rapid healthcare delivery and practice changes.
6. Develop a learning platform inspiring its nursing graduates to continuously pursue recognition and excellence in practice, research, and community outreach.
7. Encourage nurturing partnerships with its community organizations for academic programs.
8. Motivate nursing graduates to seek higher education by developing a plan for faculty growth and professional development.

MSN Terminal Educational Outcomes

By the end of the graduate nursing program, the student will be able to:

1. Apply theoretical and clinical concepts of health promotion and disease prevention practices, provide a safe and nurturing environment, and lead innovations in nursing practices according to nursing regulations and accrediting agencies.
2. Critically appraise, analyze, and create a framework integrating didactic and clinical learning into everyday practice and leadership activities.
3. Evaluate patient care practices that are evidence-based and community-driven.
4. Strongly commit to nursing research by actively participating in professional organizations and advancing education.
5. Demonstrate leadership by becoming a well-rounded, ethical, respectful, and well-informed nurse who fully responds to the needs and understanding of the community it serves.

MSN Program – BSN to MSN Program Outline

Table 72. BSN to MSN Program Course Outline

Course Number	Course Title	Clock Hours	Semester Credit Hours

MSN 607	Nursing Practicum B – Academic Nurse Educator	45.0	3.0
TOTAL		**540.0**	**36.0**

MSN Program Information, Length, and Schedule

The Master of Science in Nursing program (BSN to MSN) admission track is a six (6) semester distance education program for RNs to complete their Master of Science Degree in Nursing in two (2) years. Each semester is 15 weeks long and covers two (2) courses. Course instructors will open a new lecture each weekday, and assignments must be submitted by the deadlines set by the course instructors and indicated in the course syllabi.

At Gurnick Academy of Medical Arts, students receive 540 didactic instruction hours. The two (2) practicum courses require the student to do five to six (5 – 6) hours each week with a preceptor for eight (8) weeks. Students must obtain their local preceptor based on their work or residence. Gurnick Academy of Medical Arts has agreements with multiple healthcare facilities in the Bay Area, California, where students can alternatively complete their practicum.

The expected program completion time is 90 weeks, excluding holidays and vacation times. The Instructor-to-Student ratio is 1:25 during lectures and 1:1 during clinical externships.

At Gurnick Academy of Medical Arts (professional courses only), students receive 540 hours of didactic instruction.

MEDICAL ASSISTANT PROGRAM (MA)

30 WEEKS
948.5 CLOCK HOURS
44.5 QUARTER CREDIT HOURS
CERTIFICATE PROGRAM, 3 MODULES
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 31-9092.00, 43-6013.00, 31-9094.00
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: Concord and Modesto
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy of Medical Arts students in the Medical Assistant Skills Lab at the Fresno campus.

MA Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

MA Program Description
Gurnick Academy of Medical Arts Medical Assistant graduates join the healthcare field. Medical Assistants are a vital part of the healthcare team, and they complete administrative and clinical tasks in physicians' offices, hospitals, and other healthcare facilities. Students will practice and become adept at various clinical skills, including patient education, phlebotomy, and performing first aid.

MA Program Outline

TOTAL		**756.0**	**192.5**	**948.5**	**44.5**

MA Program Goals and Objectives
- Administer quality education and training that develops the potential of each student to become a productive, responsible, and professional member of society, as well as a skilled member of the medical assisting workforce.
- Prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.
- Foster open access and a supportive environment to encourage student success in the classroom, laboratory, and externship sites.
- Encourage professionalism, integrity, and high standards in students.
- Adhere to professional standards incorporating the legal and ethical responsibilities of medical assistants.
- Train students to organize, prioritize, and delegate care by communicating effectively with medical team members.

- Develop and apply knowledge of specific disease conditions in the prevention, treatment, and well-being of the patients.
- Equip students to take the Certified Clinical Medical Assistant (CCMA-NHA) and Certified EKG Technician (CET-NHA) national exams.

MA Program Information, Length, and Schedule
The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and connect with an Admission Advisor for details.

The Medical Assistant program provides a library and classrooms with audiovisual teaching aids, textbooks, and simulators. The Instructor-to-Student ratio is 1:15 in the laboratory, 1:30 during residential lectures, and 1:25 during online lectures. The program consists of 13 courses contained in three (3) modules.

Students must be available four (4) hours daily, Monday through Friday, for didactic and laboratory coursework.

While on Externship, students must be available 40 hours per week, Monday through Friday, and they may be required to accommodate alternative schedules based on facility placement business hours. Students must be able to complete those particular rotations on the schedule provided.

Students receive 231 didactic hours, 345 laboratory hours, and one hundred eighty (180) hours of clinical externships, allowing them to apply the lecture topics and hands-on lab skills in practical use when placed in a healthcare facility. 192.5 hours will be spent outside work time.

The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in the medical assisting field. A certificate is awarded upon program completion. The expected program completion time is 30 weeks, excluding holidays and vacation times.

Class times can and may be rescheduled to ensure on-time program completion and fulfillment of required program hours.

Lab Hours
Lab hours are done with daily theory delivery and are conducted under instructor guidance and supervision.

Outside Work
The instructor will assign work correlating daily theory topics and skills. Assignments will vary according to topics, to be done in the students' own time, and given due dates.

Certification Exam Review
Students receive Certification Exam tutorial materials and practice examinations. These tools are utilized throughout the first 24 weeks of the program to support student preparation for the certification exam.

Specific distance education hours are designated each week for students to review key concepts to prepare for the examination. Further, the resulting diagnostic data is utilized to counsel and guide students to strengthen their knowledge in each examination area.

Clinical Externship
The clinical externship includes student placement in a facility that performs various skills and provides exposure to theory concepts and hands-on practice opportunities. The externship allows students to assist facility staff with daily duties under supervision in the front and back offices. This marks the transition from being a student to becoming a medical assistant.

The externship is a practicum without pay to help students apply learned classroom skills. Students will have various tasks to perform and to document for verification purposes. Daily attendance and performance at the site are verified by facility personnel.

**All tasks above are subject to change, addition, removal, or modification on an ongoing basis according to state regulations, Medical Assistant Certification Examination requirements, and ABHES guidelines.*

MA Program Delivery

The Medical Assistant Program is blended with residential and online courses and labs, including hands-on demonstrations. Lecture and practical skills include but are not limited to PowerPoint presentations, group discussions, audiovisual presentations, visible body animations, clicker technology for remediation and testing, video presentations, demonstrations, skill practices, and return demonstrations.

VOCATIONAL NURSE PROGRAM (VN)

48 WEEKS
1530 CLOCK HOURS
89 QUARTER CREDIT HOURS
DIPLOMA PROGRAM, 4 MODULES
STANDARD OCCUPATIONAL CLASSIFICATION (SOC Code): 29-2061.00.
POTENTIAL OCCUPATION: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: Concord, Fresno, Modesto, Sacramento, and San Jose
DELIVERY: Blended (Residential and Distance Education)

A Gurnick Academy of Medical Arts student in the Nursing Skills Lab at the Sacramento campus.

VN Program Mission

Gurnick Academy and our Vocational Nurse Program faculty are dedicated to providing qualified individuals with an optimal learning experience to provide the healthcare community with competent vocational nursing professionals. They will demonstrate the highest standards of ethics, professionalism, clinical competency, and critical thinking while providing compassionate and respectful patient care.

VN Program Description

The Vocational Nurse program (VN) utilizes the plan that nursing courses progress along the simple to complex continuum. The organizing principle is homeostasis as it relates to the study of representative client problems by addressing the various anatomical systems and specialty areas in nursing. The program includes didactic and laboratory training and a clinical component correlating with theoretical knowledge. As a result of preparation, students can work as Vocational Nurses in hospitals or medical clinics.

VN Program Goals and Objectives

- Incorporate nursing, behavioral, and physical sciences principles to provide competent care to clients of different ages with different biopsychosocial needs.
- Apply knowledge of specific disease conditions in the prevention, treatment, nursing care, and rehabilitation of clients.
- Differentiate the role of the Vocational Nurse within the medical team.
- Adhere to professional standards incorporating a Vocational Nurse's legal and ethical responsibilities.
- Utilize critical thinking in assessing, planning, intervening, and evaluating client care within the scope of Vocational Nurse practice.
- Organize, prioritize, and delegate care, communicating effectively with medical team members.

VN Program Outline

Table 74. VN Program Course Outline

Course Number	Title	Clock Hours	Quarter Credit Hours

VN Program Information, Length, and Schedule

The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates, and connect with an Admission Advisor for details.

The Vocational Nurse Program is a diploma program providing a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, and models. The Instructor-to-Student ratio is 1:15 in the laboratory and clinical externships, 1:30-50 during residential lectures, and 1:25 during online lectures.

Classes begin twice a year on the San Jose and Sacramento campuses. Classes begin four (4) times yearly on the Concord, Fresno, and Modesto campuses. Students spend 30 to 40 hours per week attending classes, and the program consists of four (4) modules.

Module One – Monday through Friday

Morning Group students must be available from 9:00 AM to 2:00 PM for the lectures/internal clinical experience – four (4) days a week and 6:00 AM to 2:00 PM, or 6:30 AM to 2:30 PM for the clinical skill lab – one (1) day a week depending on the campus.

Evening Group students must be available from 5:00 PM to 10:00 PM for the lectures/internal clinical experience – four (4) days a week and from 2:00 PM to 10:00 PM, 2:30 PM to 10:30 PM, or from 3:00 PM to 11:00 PM for the clinical lab – one (1) day a week. (Modesto campus is from 2:30 PM to 10:30 PM). The listed times are approximate.

Module Two, Three, and Four – Monday through Friday
Morning Group students must be available from 9:00 AM to 2:00 PM for the lectures/internal clinical experience – three (3) days a week. Evening Group students must be available from 5:00 PM to 10:00 PM for the lectures/internal clinical experience – three (3) days a week.

Morning and Evening Groups students must be available two to five (2 – 5) days per week for the clinical rotations. Regular clinical rotations are 6:00 AM to 3:00 PM and 2:30 PM to 11:30 PM. Particular clinical rotations (Ex. OB, Peds, etc.) might require an alternative schedule (Ex. 8:00 AM to 6:00 PM, Saturdays, etc.). Students must complete those particular rotations according to the schedule provided.

The curriculum provides students with the technical, clinical, and interpersonal skills necessary to succeed in this challenging field. The expected completion time for this program is 48 weeks, excluding holidays and vacation times. Preparation for NCLEX is provided during the final program module. Students are permitted up to two (2) attempts to pass the exit exam for graduation based on the guidelines in VN 450.

The first attempt is given after program completion. The second attempt is given two (2) weeks after program completion. Under extraordinary circumstances, applicable Students may be eligible for one (1) additional attempt. See the Student Grievance and Appeals Policy for more information.

Class times can and may be rescheduled on an alternate day of the week (Sunday through Saturday) to ensure on-time program completion and fulfillment of required program hours.

Dates may vary by campus location. Please refer to the Academic Calendar for more details.

X-RAY TECHNICIAN WITH MEDICAL ASSISTANT SKILLS (XTMAS)

52 WEEKS
1,341 CLOCK HOURS
77.5 QUARTER CREDIT HOURS
DIPLOMA PROGRAM
STANDARD OCCUPATION CLASSIFICATION (SOC CODE): 29-2034.00, 31-9092.00
POTENTIAL OCCUPATIONS: *Please see a school official for the complete list of potential occupations.*
LOCATIONS: Concord, Sacramento, and Van Nuys
DELIVERY: Blended (Residential and Distance Education)

Gurnick Academy of Medical Arts students in the classroom at the Van Nuys campus.

X-ray Technician with Medical Assistant Skills Program Mission
Gurnick Academy of Medical Arts aims to offer quality allied health and nursing programs that integrate professional skills, career-focused education, and hands-on practical experience by empowering students to develop and achieve their personal and career goals.

Technician with Medical Assistant Skills program is dedicated to delivering exceptional education that integrates X-ray technology with medical assisting. Our mission is to develop compassionate, skilled, and problem-solving professionals through a combination of classroom instruction, hands-on lab experience, and a patient-centered approach. We strive to prepare graduates to meet the demands of healthcare and positively impact the community.

X-ray Technician with Medical Assistant Skills Program Description

The X-ray Technician with Medical Assistant Skills program prepares competent imaging professionals committed to professionalism, ethical behavior, technical knowledge, radiation protection, and patient care. Students who complete this program may pursue an entry-level position as an X-ray Technician in physician's offices, chiropractic clinics, imaging centers, industrial health, government agencies, and urgent care centers.

Graduates who complete the program must pass the California State Examination to secure an X-ray Technician position. Duties may include patient assessment, patient care, vital signs, and x-ray examination of the chest, upper and lower extremities, and torso-skeletal body parts.

X-ray Technician with Medical Assistant Skills Program Goals and Objectives

- Graduate students with the clinical competence required to be entry-level technologists.
- Produce students who will demonstrate effective interpersonal skills with the entire healthcare team and the public.
- Enable students to employ appropriate critical thinking and problem-solving skills to be entry-level technologists in the clinical setting.

X-ray Technician with Medical Assistant Skills Program Student Learning Outcomes

- Demonstrate the positioning skills of an entry-level technologist.
- Evaluate images for diagnostic quality.
- Employ effective communication skills with the healthcare team.
- Exhibit communication skills with the patients and the public.
- Ability to adapt to patients' conditions that deviate from routine exams.
- Utilize proper safety and ALARA practices for routine and non-routine exams.

X-ray Technician with Medical Assistant Skills Program Information, Length, and Schedule
The program information, length, and schedule may change. Read the accompanying Addendum for changes and updates and connect with an Admission Advisor for more details.

The X-ray Technician with Medical Assistant Skills program provides a library and classrooms with teaching aids, textbooks, journals, periodicals, anatomical charts, phantoms, and energized lab equipment.

The X-ray Technician with Medical Assistant Skills program is a diploma program. The student will receive didactic, laboratory, and clinical experience in affiliated medical facilities. The Instructor-to-Student ratio is 1:10 for the laboratory, 1:30 during residential lectures, 1:25 during online lectures, and 1:1 during clinical externships.

Classes may be scheduled Monday through Sunday. Students will attend up to 40 hours per week of instruction, including didactic, labs, and clinical. Clinical activities may be held during weekdays or weekends, and shifts may include day or evening as the clinical site requires. Didactic courses are held between 8:00 AM to 10:30 PM.

The program's affiliated clinical sites hold current state-issued certificates as approved clinical sites. The clinical sites provide supervised clinical instruction in the patient care setting. All clinical sites employ radiologic technologists/x-ray technicians and supervisors/operators (doctors) who hold certification from the State of California Radiologic Health Branch.

The X-ray Technician with Medical Assistant Skills program consists of 77.5 quarter credit hours, completed over 52 weeks for 1,341 contact hours. Day/evening classes are currently scheduled for the program. Please refer to the course schedule for details. Before graduation, students must complete all didactic and clinical hours.

CONTINUING EDUCATION AND ONLINE PREREQUISITE COURSES

ONLINE EDUCATION PREREQUISITE COURSES

Gurnick Academy of Medical Arts offers Prerequisite Courses that ABHES does not accredit. Prerequisite courses are offered in online and residential formats. Our online education extends prerequisite and supplemental courses and is intended for students entering our core programs.

CONTINUING EDUCATION COURSES

Gurnick Academy of Medical Arts offers Continuing Education Courses. These courses are not accredited and are intended to bring professionals up to date in knowledge and skills.

CPR Course for Basic Life Support

A stock photo from Canva.com

1 DAY
4.5 CLOCK HOURS (Full Course)
3 CLOCK HOURS (Renewal Course)
CPR Card
LOCATION: All Campuses
DELIVERY: Residential

CPR Course Registration

Before registration, applicants must meet the following admission criteria:

- Provide a valid Photo Identification on the day of the course.

Applicants must register online through our website. To complete registration, applicants must select the CPR Course on the CE Courses page. Choose an appropriate campus and desired start date and click the Registration button. Follow the required steps to complete registration. Students must contact their Admission Advisor to follow up on the completion of registration.

CPR Course Description

The CPR for Basic Life Support Course aims to train participants to save the lives of victims in cardiac arrest through high-quality cardiopulmonary resuscitation (CPR). The American Heart Association designed the CPR for Basic Life Support Course to prepare healthcare professionals to perform CPR in and out of hospital settings.

This course trains participants to promptly recognize cardiac arrest, give high-quality chest compressions, deliver appropriate ventilations, and provide early use of an automated external defibrillator (AED) as part of a team and individually. The course also teaches how to relieve choking. This course includes adult, child, and infant rescue techniques.

Intended Audience

This course is intended for medical or nursing students, aides, medical assistants, and other healthcare personnel.

Course Length

The full course is approximately 4.5 hours. The renewal course is approximately three (3) hours.

CPR Card Information

Students who pass the test will receive the BLS/CPR card valid for two (2) years upon class completion.
Students who do not pass the test will not receive the card.

Diagnostic Medical Imaging Advanced Clinical Practicum

45 CLOCK HOURS
LOCATION: Concord Campus
DELIVERY: Residential

Gurnick Academy of Medical Arts students in the lab.

Course Description
This course allows students to perform clinical repetitions in advanced imaging modalities, including MRI, CT, or Mammography. Repetitions will be directly related to post-primary certification exam requirements. This course can be repeated a maximum of three (3) times.

Course Objectives
By the course end, students will have basic knowledge and understanding of the following:

1. Perform clinical repetitions in advanced medical imaging procedures to meet the ARRT® post-primary certification requirements.
2. Practice correct clinical protocols of advanced medical imaging procedures as designated by the clinical site.
3. Exemplify professionalism and follow all related clinical policies and procedures.
4. Provide adequate patient care and demonstrate proper teamwork to healthcare staff.
5. Demonstrate proper body mechanics when providing patient care.

Learning Outcomes

1. Operate within the parameters established by the clinical evaluation tools and their objectives.
2. Complete the minimum number of mandatory clinical repetitions as needed to be eligible to sit for the post-primary certification exam requirements.
3. Perform the minimum number of clinical hours required for the course.
4. Maintain a safe work environment for patients, visitors, and healthcare workers.
5. Provide patient-centered, clinically effective care for all patients regardless of age, gender, disability, special needs, ethnicity, or culture.
6. Apply standard and transmission-based precautions.
7. Maintain patient confidentiality standards and meet HIPAA requirements.
8. Demonstrate the principles of transferring, positioning, and immobilizing patients.
9. Communicate professionally with the patient and staff members
10. Execute imaging protocols according to site standards.

Essential Medical Bioscience (EMB)

Gurnick Academy of Medical Arts students in the lab.

80 CLOCK HOURS
LOCATION: Concord, Fresno, Modesto, and San Jose
DELIVERY: Residential

Course Description
The Essential Medical Bioscience Course considers the basics of general and human biology. We will examine molecular and cell biology, human anatomy, microbiology, nutrition, and biochemistry topics while incorporating basic medical terminology and reviewing basic math skills in preparing for drug calculations. This is a prerequisite course for entering professional Gurnick Academy of Medical Arts education programs.

This course will include a Medical Terminology component, offered in an independent, self-study format that students complete online at their own pace. Students will access moodle.gurnick.edu and select the course Medical Terminology Part 1A. (The instructor will explain specific directions for accessing the material.) Students will be responsible for learning the material presented in this part of the course by completing practice quizzes, games, etc.

The material covered in the Medical Terminology Self-Study Course will be evaluated as part of the Final Exam at the end of the Essential Medical Bioscience course. This course does not fall within the ABHES scope of accreditation.

Course Goals and Objectives
- Structure of atoms, molecules, basic Laws of Thermodynamics, properties of matter.
- Organic Chemistry and Biochemistry.
- Cell Anatomy, Chemistry, Biochemistry, Energy Metabolism, cell division, and cell cycle.
- Human Body Organization, Body Cavities, and Major Organ Systems.
- Body Tissues and Basic Structures and Functions of Organs and Organ Systems.
- Basic concepts of Genetics and laws of inheritance, sexual and asexual reproduction.
- Core concepts in Microbiology and the study of microbes.
- Basics of Immunology and Blood composition and functions.
- Basic Medical Terminology and common acronyms are used in most clinical settings.
- Elementary Math skills.

Course Outcomes
Upon course completion, the student will be able to:
- Retain basic knowledge of the course objectives in Human Biology and Medical Science.
- Classify various types of disorders and disease-producing organisms.
- Recognize and memorize basic medical terminology used in most clinical settings.
- Define common acronyms in basic medical terms used in most clinical settings.
- Identify major organ systems by organs and their primary functions.
- Explain and discuss Nutrition Labels / Caloric Value / Balanced Diet Breakdown.
- Demonstrate the ability to solve fundamental math problems utilizing manipulation of decimals, fractions, and percentages.

- Calculate conversions between the metric and household systems using ratio and proportion.
- Measure medication administration doses using ratio and proportions methods and solve.
- Distinguish between apothecary and household systems.
- Review and assess individual learning challenges based on quiz scores and exams.

Course Outline

IV Therapy/Blood Withdrawal Course

36 CLOCK HOURS
COURSE COMPLETION CERTIFICATE/CONTINUING EDUCATION CERTIFICATE
LOCATION: San Jose, Concord, Fresno, Modesto, and Sacramento
DELIVERY: Residential

Gurnick Academy of Medical Arts students in the Medical Assistant Skills Lab at the Modesto campus.

Registration

Before registration, applicants must meet the following admission criteria:

1. Provide a valid Photo Identification
2. Provide proof of one of the following:
    - A current and valid California LVN license
    - Senior standing in a California Vocational Nurse Program with successful completion of Module IV
    - Graduate from a California Vocational Nurse program
    - Interim Permit status for California LVN licensure
    - RN License from the State of California
    - Physician License from the State of California

Applicants must register online through our website. To complete registration, the applicant must select the IV Therapy/Blood Withdrawal Course on the CE Courses page. Choose an appropriate campus and desired start date and click the Registration button. Follow the required steps to complete registration. Applicants must contact their preferred campus Admission Advisor to follow up on the completion of registration.

Course Information and Schedule

The IV Therapy/Blood Withdrawal Certification Course at Gurnick Academy of Medical Arts can be used for the continuing education requirement. The course enhances the knowledge of vocational nurses at a level above that required for licensure.

The IV Therapy/Blood Withdrawal course provides a library and classrooms with audiovisual teaching aids, textbooks, journals, anatomical charts, and models.

The Instructor-to-Participant ratio in the IV Therapy/Blood Withdrawal course is 1:15 during lectures and clinical practicum.

The course is three (3) days of nine (9) hours of didactic training on the theory behind the practice and principles of intravenous therapy and blood withdrawal within the scope of practice for LVNs, RNs, and licensed physicians in the state of California, and one (1) nine (9) hour day of clinical practicum in the clinical skills lab setting in which each student must complete a minimum of three (3) supervised successful venipunctures, and three (3) supervised skin punctures (capillary blood withdrawal) on live human subjects.

The expected course completion time is per the campus schedule.

Course Goals and Objectives

- Recognize the role of the Registered Nurse and the Licensed Vocational Nurse in IV Therapy and Blood Withdrawal.
- List factors that affect the flow rates of IV solutions.
- Describe the proper use of specific IV therapy, arterial puncture, and blood withdrawal equipment.
- Initiate IV therapy, blood withdrawal, and arterial puncture utilizing nursing precautions or patient safety by:
    - Bracing the patient psychologically.
    - Explaining the rationale for blood withdrawal, arterial punctures, and venipunctures.
    - Differentiating between the types of skin puncture, venipunctures, and arterial devices and their appropriate uses.
    - Discerning between skin punctures, arterial punctures, and venipunctures.
    - Distinguishing between types of intravenous solutions and their appropriateness.
    - Preparing equipment properly and aseptically.
    - Selecting and correctly preparing the most appropriate vein for venipunctures, blood withdrawal, or arterial puncture.
    - Readying the site in a manner that reduces the chance of infection.
    - Administering venipunctures utilizing direct or indirect methods.
    - Executing blood withdrawal using skin puncture (vacutainer, butterfly, syringe), arterial puncture, or venipunctures.
    - Dressing site per policy.
    - Securing and immobilizing the device appropriately and safely.
    - Regulating flow rate and fluid accurately.
    - Documenting on the medical record.
- Recognize complications related to blood withdrawal, arterial punctures, and venipunctures.
- Recognize local and systemic reactions associated with intravenous therapy.
- List the nursing measures taken to reduce local and systemic reactions.
- Enumerate five reasons to discontinue and restart the IV device.
- State the cause and differentiate clinical symptoms of hypovolemia and hypervolemia.
- Specify the cause and differentiate clinical symptoms of electrolyte imbalances.
- Identify the role of IV therapy and pH balance.
- Expound on the causes of pH imbalances.
- Differentiate actions, dosages, side effects, and nursing implications of specified intravenous solutions.
- Correlate the IV fluid container label with the solution's name as commonly ordered.
- Name the standard components of Total Parenteral Nutrition (TPN).
- Identify nursing precautions relating to TPN.
- Recognize safety techniques utilized in blood transfusions.

- Recognize types of transfusion reactions.
- List the nursing actions taken when a blood transfusion occurs.
- Examine the differences between methods used in adult and pediatric IV therapy.
- Discuss situations related to IV therapy and legal implications.
- Describe appropriate ways of minimizing legal risks in IV therapy and blood withdrawal practice.
- Identify the safety precautions concerning administering IV fluids, withdrawing blood, and testing for adequate circulation at the arterial puncture site.

Course Outcomes
Upon course completion, the student will be able to:

- Discuss the structure and function of veins
- Identify the names and locations of the veins most suitable for phlebotomy and cannulation/venipuncture.
- Assemble equipment and supplies needed to collect blood and for cannulation/venipuncture, and discuss the correct use of each.
- Demonstrate the steps in performing blood collection and cannulation/venipuncture procedures.
- Assess techniques and equipment to minimize biohazard exposure in blood collection and cannulation/venipuncture.
- Evaluate procedural blood collection and cannulation/venipuncture errors and discuss remedies for each.
- Differentiate complications associated with blood collection and cannulation/venipuncture and their effect on the quality of laboratory results.

Certification Information
To complete the clinical portion of the course, all participants must bring a volunteer to participate in the venipuncture and skin puncture skills check-off on the final day.

Gurnick Academy of Medical Arts provides two certificate types to its IV Therapy/Blood Withdrawal Course graduates: Course Completion Certificate and Continuing Education Certificate. Please see below for more details regarding certificate applicability.

Course Completion Certificate
LVNs
At course completion, the LVN who completes the course will receive a certificate of completion. The certificate will include the course title, completion date, licensee's name, address, telephone number, license number, and provider code issued by the board. The licensee is advised to retain the certificate in a secure location. After course completion, a copy of the certificate will be submitted to the board, and the licensee will be listed as certified in intravenous therapy and blood withdrawal.

Non-Licensed VNs
Senior students in good academic standing may also complete the course. However, once senior students complete the course, their Certificate of Completion will not be forwarded to BVNPT until they receive their license. Upon receipt of licensure, the student must contact Gurnick Academy of Medical Arts and request submission of the required certificate to the Board.

Continuing Education Certificate
RNs or Licensed Physicians
These students complete the IV/BW course provided by Gurnick Academy of Medical Arts as a Continuing Education course. The students should receive Continuing Education Certificates, including Gurnick Academy of Medical Arts' continuing education course approval number.

Course Outline

Table 78. Course Outline

Course Number	Title	Clock Hours
VN 500	Intravenous Therapy/Blood Withdrawal Certification For Licensed Vocational Nurses	36.0
TOTAL		**36.0**

International Nurse Graduate Courses (ING)

Gurnick Academy of Medical Arts recognizes the contribution of international nurses to the nursing profession. Gurnick Academy of Medical Arts has developed a program for international nurse graduates seeking to complete the areas of deficiencies identified by the California State Board of Registered Nursing.

Courses in medical-surgical nursing, maternal and newborn, pediatric nursing, and mental health nursing are offered for international nurse graduates who must complete the necessary coursework to be eligible to apply for a California National Council Licensure Examination. The courses provide a comprehensive introduction to nursing practice and the healthcare system in the United States.

Course Goals and Objectives

RN 180 Nursing Transition Advanced Placement Theory and Lab Course (47 clock hours = **3 Semester Units Theory,** 68 clock hours = **2 Semester Units Lab**

1. Characterize the various roles of the registered nurse in the healthcare delivery system.
2. Identify the evolving practice opportunities for nurses in various practice settings.
3. Appreciate the characteristics of the nursing profession.
4. Differentiate between licensed practical/vocational nurses and registered nurses.
5. Explain the nursing responsibilities related to the legal and ethical aspects of the profession, delegation, and confidentiality.
6. Detail conceptual and philosophical foundations of professional nursing practice.
7. Define evidence-based practice.
8. Explain the purpose and phases of the nursing process.
9. Specify clinical judgment in nursing practice.
10. Examine factors creating successful or unsuccessful communication.
11. Evaluate helpful and unhelpful communication techniques.
12. Identify key aspects of collaboration.

Skills Lab

13. Demonstrate accurate mathematical calculations related to the safe and efficacious administration of fluids and medications.
14. Demonstrate understanding and skills in performing health history and physical assessment.
15. Exhibit knowledge and ability to perform basic and complex nursing skills in caring for acute and chronically ill patients utilizing critical thinking skills.
16. Establish accurate documentation related to the assessment and performance of skills.
17. Apply knowledge of theory and principles from nursing and related sciences across the lifespan to selected nursing skills and procedures using the nursing process.

RN 304 Medical/Surgical III Theory-Advanced Med/Surg (3 Units, 45 clock hours)

1. Distinguish specific phenomena for actual or potential patient needs relevant to nursing care of acutely ill and chronically ill adults with respiratory, cardiac, neurological, and musculoskeletal system disorders.
2. Identify clinical manifestations, nursing care, and collaborative problems of commonly seen medical or surgical related to respiratory, cardiac, neurological, and musculoskeletal system disorders.

3. Describe the purpose and nursing care of commonly used procedures and interventions in medical or surgical conditions related to respiratory, cardiac, neurological, and musculoskeletal disorders.
4. Employ knowledge of physical and behavioral sciences to discern probable consequences of medical, surgical, and nursing interventions related to respiratory, cardiac, neurological, and musculoskeletal disorders.
5. Implement critical thinking to develop priorities in nursing approaches to patients with various medical or surgical conditions in various states of diagnosis and treatment related to respiratory, cardiac, neurological, and musculoskeletal system disorders.
6. Explain the scientific rationale for selected nursing interventions related to respiratory, cardiac, neurological, and musculoskeletal disorders.

RN 305 Medical/Surgical III Clinical-Advanced Med/Surg (2 Units, 90 clock hours)

1. Communicate therapeutically with individuals and families experiencing advanced health disruptions related to chronic respiratory, cardiac, neurology, and musculoskeletal system disorders.
2. Plan and implement individualized patient care using the nursing process.
3. Provide nursing care to adults with advanced medical, surgical, and nursing diagnoses.
4. Afford scientific or empirical rationale for all nursing actions related to chronic respiratory, cardiac, neurology, and musculoskeletal system disorders.
5. Demonstrate increasing proficiency and autonomy with selected psychomotor skills.
6. Establish theory-based interventions with increasing proficiency in patient care management.
7. Collaborate with other healthcare providers to deliver safe, high-quality nursing care.
8. Epitomize accountability and responsibility for your learning experiences and performance.
9. Apply legal and ethical standards in the delivery of nursing care.
10. Demonstrate initiative in the pursuit and selection of learning activities.
11. Apply personal philosophy of nursing and approach to patient care.
12. Exhibit increased integration of knowledge from courses in previous semesters.
13. Effectively communicate verbally and in writing with patients, families, and healthcare providers to promote health and healing.
14. Utilize current research and evidence-based practice in the clinical setting.
15. Exemplify professional leadership behaviors, including advocacy, delegation, resource utilization, and collaboration with other healthcare providers.

RN 402 Medical/Surgical IV Theory-Complex Med/Surg & Leadership (3 Units, 45 clock hours)

1. Identify specific phenomena and actual or potential patient needs relevant to the nursing care of adults with multiple health disruptions.
2. Describe clinical manifestations, nursing care, and collaborative problems of complex medical or surgical conditions in adult populations.
3. Apply critical thinking and develop priority in nursing approaches to patients with complex medical or surgical conditions in various states of diagnosis and treatment.
4. Explain the scientific rationale for selected nursing interventions.
5. Determine the importance of nursing leadership in the healthcare system
6. Critically examine selected nursing practices:
    a. Adapt nursing practices to the age and developmental stage of the adult.
    b. Relate selected nursing research findings to the nursing care of individual clients.
    c. Analyze alternative nursing actions.

RN 403 Medical/Surgical IV Clinical-Complex Med/Surg & Leadership (2 Units, 90 clock hours)

1. Communicate therapeutically with individuals and families who are experiencing complex health disruptions.
2. Plan and implement individualized patient care using the nursing process.
3. Provide nursing care to adults with complex medical, surgical, and nursing diagnoses.

4. Indicate scientific or empirical rationale for all nursing actions.
5. Exhibit increasing proficiency and autonomy with selected psychomotor skills.
6. Demonstrate theory-based interventions with increasing proficiency in patient care management.
7. Collaborate with other healthcare providers to deliver safe, high-quality nursing care.
8. Exemplify accountability and responsibility for your learning experiences and performance.
9. Apply legal and ethical standards in the delivery of nursing care.
10. Exemplify initiative in the pursuit and selection of learning activities.
11. Implement a personal philosophy of nursing and approach to patient care.
12. Implement increased knowledge integration from previous semesters' courses.
13. Effectively communicate verbally and in writing with patients, families, and healthcare providers to promote health and healing.
14. Utilize current research and evidence-based practice in the clinical setting.
15. Embody professional leadership behaviors, including advocacy, delegation, resource utilization, & collaboration with other healthcare providers.

RN 300 Maternal Newborn Theory (3 Units, 45 clock hours)

1. Distinguish expected physiological and psychosocial changes during pregnancy, childbirth, and postpartum.
2. Describe typical fetal and infant growth and development from conception to one (1) month of age.
3. Identify basic nursing assessments to be made under the following circumstances:
    - The pregnant woman during each trimester of pregnancy.
    - The intrapartum woman during the three stages of labor.
    - The postpartum woman from childbirth to six (6) weeks postpartum.
    - The fetus during pregnancy and delivery.
    - The newborn from birth to one (1) month of age.
    - The father and siblings of the infant during pregnancy, childbirth, and the postpartum period.

4. Examine common client problems (nursing assessment and collaborative problems) during pregnancy, childbirth, and postpartum.
5. State major learning needs and teaching strategies for educating women and their families during pregnancy, childbirth, and postpartum.
6. Describe selected complications during pregnancy, childbirth, and postpartum. Identify critical nursing assessments and interventions for preventing, detecting, and treating complications.
7. Determine critical nursing assessments and interventions for detecting and preventing newborn complications.

RN 301 Maternal Newborn Clinical (1.5 Units, 67.5 clock hours)

1. Execute complete assessments (and written documentation) of the average newborn, correctly identifying (a) normal and abnormal characteristics and (b) relevant nursing diagnoses and collaborative problems.
2. Finish complete assessments (and written documentation) of the postpartum woman, correctly identifying (a) normal and abnormal findings and (b) relevant nursing diagnoses and collaborative problems.
3. Participates in assessing antepartum and laboring women, correctly identifying (a) normal and abnormal findings and (b) relevant nursing diagnoses and collaborative problems.
4. Assess the psychosocial and learning needs of childbearing women and family members (fathers or significant others and siblings) during pregnancy, childbirth, and postpartum.
5. Assess parent/caretaker coping behaviors and strengths.
6. Nursing assessment and diagnosis implement appropriate nursing interventions to promote growth, development, and positive health outcomes for women, their infants, and other family members.

7. Implement appropriate teaching strategies and evaluate learning outcomes for childbearing women and their families.
8. Participate in coaching and comfort measures for women and significant others during labor and birth.
9. Anticipate potential common complications in the childbearing woman and newborn infant by implementing appropriate preventive measures and assessments for early detection.
10. Apply selected research findings and evidence-based practices to the nursing care of childbearing women, infants, and other family members.
11. Demonstrate caring behaviors and effective communication with maternity clients, families, and health team members.
12. Identify common ethical dilemmas and legal issues in maternity nursing.
13. Demonstrate professional behavior.

RN 302 Care of Children Theory (3 Units, 45 clock hours)

1. Identify the stressors of childhood which are life-threatening or cause significant disruption in child development, health, and well-being.
2. Describe the influences of health disruption factors on the developmental process of infants and children.
3. Explore the biopsychosocial, cultural, and developmental effects of selected major health disruptions for children and their families.
4. Assess the physical characteristics of all systems in infants and children of various ages and evaluate the normalcy of these findings.
5. Analyze selected health disruptions in alterations in affected children and their families.
6. Examine parental, family, and sibling stress when a child experiences substantial health disruptions.
7. Formulate nursing decisions based on the child's condition, age, and life situation.
8. Determine therapies, surgeries, and nursing interventions that are lifesaving, restorative, or palliative.
9. Review a child and their family's ability to learn new information involved with optimal adaptation to major health disruptions.
10. Formulate nursing interventions that encourage optimal adaptation to major health disruptions.

RN 303 Care of Children Clinical (1.5 Units, 67.5 clock hours)

1. Utilize current theory and evidence-based practice guidelines to analyze, plan, and implement nursing care for infants and children of various ages.
2. Perform and document an ongoing assessment and evaluation of the child and family's progress and monitor nursing care effectiveness.
3. Execute and document complex nursing procedures with infants and children who experience significant health disruptions.
4. Teach new adaptive measures and counsel children and families coping with sizable stress.
5. Assess the child's health disruption parameters regarding the family unit while providing support and information.
6. Implement protective interventions and provide age-appropriate nurturance for children and families with considerable health disruptions.
7. Collaborate with professional colleagues and student groups to develop and provide continuity of care.
8. Demonstrate professional behavior.

RN 400 Mental Health Theory (2 Units, 30 clock hours)

1. Identify biopsychosocial and cultural factors that influence severe mental illness across life.
2. Examine selected theories and research underlying psychiatric nursing care of the major mental illnesses across the lifespan.
3. Formulate psychiatric nursing interventions that facilitate mental health adaptation appropriate to inpatient and community settings.

4. Describe community resources for nursing referral of individuals and families for mental health maintenance, promotion, and rehabilitation.
5. Explain common uses of psychopharmacology in treating mental illness and organic brain syndromes.
6. Differentiate between effective and non-effective communication patterns.

RN 401 Mental Health Clinical (2 Units, 90 clock hours)

1. Demonstrate caring behaviors and therapeutic communication skills, including empathy and facilitation, with clients and their families experiencing psychosocial stress.
2. Apply biopsychosocial and nursing theories and the nursing process into case management components while caring for consumers of psychiatric-mental health services in acute care and community settings.
3. Embody professional behaviors of safety, responsibility and accountability, team membership, appropriate hospital and community behavior, and positive communication with consumers, families, staff, peers, and instructors.
4. Incorporate cultural, developmental, socioeconomic, and other individual client differences (physical and psychological) into the service plan, nursing care plan, client care activities, and development of community resources.
5. Execute stress and anxiety reduction interventions, recovery, rehabilitation, reintegration, and health education with consumers and caregivers.
6. Practice the select psychiatric-mental health nursing roles, including counselor, collaborator, consultant, teacher, case manager, and direct care provider.

Magnetic Resonance Imaging (MRI) Intravenous (IV) Blood Withdrawal Course

12 CLOCK HOURS
2-DAY COURSE | 6 HOURS PER DAY
LOCATION: San Jose
DELIVERY: Residential

Gurnick Academy of Medical Arts students in the lab.

Registration

Before registration, applicants must meet the following admission criteria:

1. Provide a valid Photo Identification

Applicants must register online through our website.

To complete registration, the applicant must first select Magnetic Resonance Imaging IV Injections & Blood Withdrawal Course on the CE Courses page. Choose an appropriate campus and desired start date and click the Registration button. Follow the required steps to complete registration. Applicants must contact the preferred campus Admission Advisor to follow up with registration completion.

Course Information, Length, and Schedule

The Magnetic Resonance Imaging IV Injections & Blood Withdrawal Course at Gurnick Academy of Medical Arts can be used to perform IV injections and blood withdrawal for MRI Technologists and students.

The Magnetic Resonance Imaging IV Injections & Blood Withdrawal Course provides a library and classrooms with audiovisual teaching aids, presentations, and models.

The Magnetic Resonance Imaging IV Injections & Blood Withdrawal Course Instructor to Participant ratio is 1:15 in lecture and clinical practicum.

The course is two (2) days of three (3) hours of didactic training on the theory behind the practice and principles of intravenous injections and blood withdrawal within the scope of practice for MRI Technologists in the state of California and nine (9) hours of clinical practicum in the clinical skills lab setting. During the clinical practicum, each student must complete a minimum of five (5) supervised successful IV injections and five (5) supervised venipunctures (capillary blood withdrawal) on live human subjects.

To complete the clinical portion of the course, all participants must bring a volunteer to participate in the venipuncture and skin puncture skills check-off on Day 2 – the final day.

Course Goals and Objectives

- Recognize the role of MRI Technologists in performing IV injections and blood withdrawals.
- Describe the proper use of specific IV injection and blood withdrawal equipment.
- Initiate IV injection and blood withdrawal placement utilizing patient safety precautions by
    - Preparing the patient psychologically.
    - Explaining the rationale for IV injection and blood withdrawal.
    - Differentiating between the types of IV injection, skin puncture, venipunctures, and their appropriate uses.
    - Distinguishing between skin puncture, IV Injection, and venipunctures.
    - Preparing equipment adequately and aseptically.
    - Selecting and correctly preparing the most suitable vein for IV Injection, venipunctures, and blood withdrawal.
    - Readying the site in a manner that reduces the chance of infection.
    - Executing blood withdrawal utilizing skin puncture (vacutainer, butterfly) venipunctures.
    - Dressing site according to policy.
    - Securing and immobilizing the device appropriately and safely.
    - Documenting on the medical record.
- Recognize complications related to IV Injection, blood withdrawal, and venipunctures.
- List the measures taken to reduce local and systemic reactions.
- State reasons to discontinue and restart the IV device.
- Examine the differences between adult and pediatric IV Injections and blood withdrawal techniques.
- Discuss legal implications and ways of minimizing legal risk related to IV Injections and blood withdrawal.
- Identify safety precautions related to IV Injections and blood withdrawal.

Course Outcomes

Upon course completion, the student will be able to:

- Discuss the structure and function of veins
- Identify the names and locations of the veins most suitable for phlebotomy and cannulation/venipuncture.
- Assemble equipment and supplies needed to collect blood and for cannulation/venipuncture, and discuss the correct use of each.
- Demonstrate the steps in performing blood collection and cannulation/venipuncture procedures.

- Assess techniques and equipment to minimize biohazard exposure in blood collection and cannulation/venipuncture.
- Evaluate procedural blood collection and cannulation/venipuncture errors and discuss remedies for each.
- Differentiate complications associated with blood collection and cannulation/venipuncture.

Certification Information
Students will be issued a *Course Completion Certificate* at completion.

Nursing Transition Advanced Placement Theory & Lab Course

120 CLOCK HOURS
LOCATION: Concord and Fresno
RESIDENTIAL

Gurnick Academy of Medical Arts students in the lab.

Course Description
The Nursing Transition course is an admission course required for all students electing to enroll in the LVN to RN Advanced Placement and LVN to BSN Advanced Placement programs. The admission course is RN 180 – Nursing Transition Advanced Placement Theory & Lab Course. It is a five (5) unit, 120-hour course that evaluates the student's readiness to enroll in the Advanced Placement pathway. The student must demonstrate the required knowledge and skills to complete this course. All students must complete these before starting any Professional Courses. This course does not fall within the ABHES scope of accreditation.

Course Objectives
After this course, the student will be able to:

1. Illustrate the various roles of the registered nurse in the healthcare delivery system.
2. Identify the evolving practice opportunities for nurses in various practice settings.
3. Exemplify the characteristics of the nursing profession.
4. Differentiate between licensed practical/vocational nurses and registered nurses.
5. Explain the nursing responsibilities related to the legal and ethical aspects of the profession, delegation, and confidentiality.
6. Describe the conceptual and philosophical foundations of professional nursing practice.
7. Define evidence-based practice.
8. Chronicle the purpose and phases of the nursing process.
9. Define clinical judgment in nursing practice.
10. Discuss factors creating successful or unsuccessful communication.
11. Evaluate helpful and unhelpful communication techniques.
12. Identify key aspects of collaboration.

13. Exhibit accuracy in mathematical calculations related to safe and efficacious administration of fluids and medications.
14. Embody understanding and skills in performing health history and physical assessment.
15. Enact a knowledge and ability to perform basic and complex nursing skills in caring for acute and chronically ill patients utilizing critical thinking skills.
16. Execute accurate documentation related to the assessment and performance of skills.
17. Apply knowledge of theory and principles from nursing and related sciences across the lifespan to selected nursing skills and procedures using the nursing process.

Course Outline

TOTAL		**120.0**	**5.0**

COURSE DESCRIPTIONS

Courses within the programs are not necessarily sequentially offered as they appear in this catalog. Gurnick Academy of Medical Arts reserves the right to change equipment and instructional materials, modify the curriculum, and combine or cancel classes.

GE Courses – Distance Education (Online)

GE 001 – Biology Basics – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course introduces major biological molecules, cell structure, and function for eukaryotic and prokaryotic organisms, cell cycle, genetics, sexual and asexual reproduction, bioenergetics, cell communication, and signaling. This is a General Education Course.

GE 002 – Principles of Physics – 45 Clock Hours/4.5 Quarter Credit Hours/3 Semester Credit Hours
Prerequisites: None
This is a conceptual physics course for non-science majors. This course aims to facilitate students' understanding of the rules of nature by learning the foundations. This course covers forces and motion, conservation laws, heat, fluids, vibrations and waves, electricity and magnetism, sound, and light. Students will study the concepts of physics with minimal application of mathematics. This is a General Education Course.

GE 003 – Conceptual Chemistry with Laboratory – 75 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
Conceptual Chemistry is an introductory chemistry course designed to show how chemistry is intimately involved in many aspects of our lives. The course will cover basic concepts in chemistry and their applications.

The course covers matter and energy, atoms, ions and compounds, chemical reactions, electronic structure of atoms, states of matter including solutions, acids and bases, a brief introduction to nuclear and organic chemistry, and biochemistry. Students will study the concepts of physics with minimal application of mathematics. This is a chemistry course for non-science majors. This is a General Education Course.

GE 011 – Anatomy & Physiology I – 56 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: None
This course covers the structure and function of the human body from the single cell through all body systems. Additionally, the course examines the interrelatedness of the structure and functions in the body. Basic fluid, electrolyte, and acid/base balance concepts are included. This is a General Education Course.

GE 020A – Human Body in Health and Disease I with Lab – 75 Clock Hours)/90 BRN Clock Hours/6 Quarter Credit Hours/4 Semester Credit Hours
Prerequisite: None
This is the first of two courses covering the structure and function of human organ systems. The basics of the structures and functions of the human body will be discussed during the lecture and lab. Between GE 020A and GE 020B, topics on all major organ systems will be examined while considering them in the state of health versus the state of disease. This course is the prerequisite for GE 020B – Human Body in Health & Disease II. This is a General Education Course.

GE 020B – Human Body in Health and Disease II with Lab – 75 Clock Hours)/90 BRN Clock Hours /6 Quarter Credit Hours/4 Semester Credit Hours
Prerequisite: GE 020A – Human Body in Health and Disease I with Lab.
This is the second of two courses covering the structure and function of human organ systems. The basics of the structures and functions of the human body will be discussed during the lecture and lab. Between GE 020A and

GE 020B, topics on all major organ systems will be examined while considering them in the state of health versus the state of disease. Prerequisite: GE 020A – Human Body in Health and Disease I with Lab. This is a General Education Course.

GE 021 – Essentials of Anatomy & Physiology – 66 Clock Hours/6.5 Quarter Credit Hours
Prerequisites: None
This course will discuss the basics of structures and functions of the human body systems. Topics on all major organ systems will be examined while considering them in the state of health versus the state of disease, focusing mainly on structures. Various clinical implications and possible deviations from the norm of each organ system will be brought up throughout the course. This is a General Education Course.

GE 022 – Anatomy & Physiology II – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This is an advanced course in Anatomy and Physiology, where details of structures and functions of the human body systems will be discussed in various disease states. The pathophysiology of all major organ systems will be addressed while comparing them in the state of health versus disease, focusing mainly on functions and pathological abnormalities. Various clinical implications and possible deviations from the norm of each organ system will be brought up throughout the course. This is a General Education course.

GE 031 – Nutrition in Health and Disease – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course covers the nutrient needs for maintaining a positive nutritional status, including diets to fit specific health needs and primary nutritional care.

GE 041 – General Microbiology w/Lab – 75 Clock Hours)/90 BRN Clock Hours /6 Quarter Credit Hours/4 Semester Credit Hours
Prerequisite: None
This course presents basic concepts of microbiology and practical applications to medicine, public health, and the environment, with laboratory techniques in isolation, enumeration, and identification of microorganisms. This is a General Education Course.

GE 103 – Growth and Development through Lifespan – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course discusses the existing growth and development theories. It focuses on understanding the dynamic sequence of biological, psychological, and sociological changes that occur through the life cycle from birth to death. This is a General Education Course.

GE 110 – Critical Thinking – 45 Clock Hours/4.5 Quarter Credit Hours/3 Semester Credit Hours
Prerequisites: None
This course teaches students the skills they need to think for themselves—skills they will call upon in this course, other college courses, and the world that awaits. This course covers the core concepts with real-world examples and practice exercises. This is a General Education Course.

GE 111 – Research Statistics – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course is preparation for RN 305 – Nursing Research. The course introduces statistical test tools, the conditions under which these tools are used, statistical calculation, and the meaning of statistics. The tools are also discussed as the basis of data analysis, probability, and statistical inference and their importance in decision-making. This is a General Education Course.

GE 112 – Algebra I – 45 Clock Hours/4.5 Quarter Credit Hours/3 Semester Credit Hours
Prerequisites: None

This course gives students the math skills that provide a foundation for more advanced courses. Students will explore writing and solving linear and nonlinear equations, powers and exponents, quadratic equations, polynomials and factoring, graphing, and solving linear inequalities and functions. This is a General Education Course.

GE 112-50 – College Algebra (50hr) – 50 Clock Hours/5 Quarter Credit Hours
Prerequisite: None
This course gives students the math skills that provide a foundation for more advanced courses. Students will explore writing and solving linear and nonlinear equations, powers and exponents, quadratic equations, polynomials and factoring, graphing and solving linear inequalities, and functions. Attending a Live Webinar session is a required part of this course. This is a General Education Course.

GE 120 – Introduction to Information Systems – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course introduces personal computer application software, hardware components, and the Internet. The course covers an introduction to word processing, electronic spreadsheets, databases, and presentation software. This is a General Education Course.

GE 201 – Introduction to Sociology – 45 Clock Hours/4.5 Quarter Credit Hours/3 Semester Credit Hours
Prerequisite: None
This course studies basic methods and concepts of sociology, which have broad academic relevance and can be applied to studying sociology and other academic disciplines. This is a General Education Course.

GE 201-50 – Introduction to Sociology (50hr) – 50 Clock Hours/5 Quarter Credit Hours
Prerequisite: None
This course studies basic methods and concepts of sociology, which have broad academic relevance and can be applied to studying sociology and other academic disciplines. Attending a Live Webinar session is a required part of this course. This is a General Education Course.

GE 202 – General Psychology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course includes studying basic methods and concepts of psychology, which have broad academic relevance and can be applied to studying psychology and other academic disciplines. This is a General Education Course.

GE 221 – Written Communication for Professionals – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
The ability to write clearly and effectively is key to professional communication. This set of skills should not be limited to journalists or professional authors. This course will discuss overcoming common mistakes and improving communication using the written word.

This writing skills course includes spelling, grammar, the importance of structure, and formal and informal writing styles. This course also covers the skills needed to enable learning, communication of ideas, and understanding the ideas of others more effectively. This is a General Education Course.

GE 222 – English Reading and Composition – 45 Clock Hours/4.5 Quarter Credit Hours/3 Semester Credit Hours
Prerequisite: None
This course introduces students to reading various literary texts and teaches them the basic elements of fiction, poetry, and drama. The course will teach students to write analysis, explication, and compare-and-contrast essays responding to the literature read. This is a General Education Course.

GE 222-50 – English Reading and Composition (50hr) – 50 Clock Hours/5 Quarter Credit Hours
Prerequisite: None

This course introduces students to reading various literary texts and teaches them the basic elements of fiction, poetry, and drama. The course will teach students to write analysis, explication, and compare-and-contrast essays responding to the literature read. Attending a Live Webinar session is a required part of this course. This is a General Education Course.

GE 230 – Written & Oral Communication – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisites: None
This course will explore the fundamental analog and digital skills of oral and written communication to help create professional written and oral communication within their careers. This is an introduction to various methods used to communicate effectively and create a language that articulates information to connect a speaker to an audience. This is a General Education Course.

GE 240 – Public Speaking, Basics of Effective Communication – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course introduces communication in interpersonal relationships, group interactions, and formal speaking, with skill development in listening, speech preparation, and oral presentation. This is a General Education Course.

GEH 020 – Medical Terminology – 18 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
This course introduces the student to medical and pathological terms related to specific body systems. Through lectures, discussions, demonstrations, visual aids, and self-study, the student will develop knowledge and understanding of the professional language to function and communicate effectively with other medical team members. This is a General Education Course.

GEH 101 – Organization and Function of Health Services – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course focuses on healthcare and delivery of services: identification and function of governmental, private, and voluntary organizations and programs in health protection and promotion at local, state, and national levels. This is a General Education Course.

GEH 102 – Essentials of Patient Education – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This GE course toward the BSN or bachelor's degree in imaging disciplines identifies the principles of effective patient education. It explores cultural needs, literacy, and other barriers to understanding and amiability to health education. Students will develop oral and written presentations of culturally sensitive material by the course's end. This is a General Education Course.

GEH 201 – Holistic Health and Complementary Alternative Medicine – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: None
This course synthesizes East and West modalities that can be applied to patient care in and out of care facilities. It introduces the holistic concept of health and wellness and adjunctive therapies. Complementary Alternative Medicine (CAM) can be used alone or with established approaches to medical intervention. The topics discussed include stress reduction, meditation, relaxation techniques, visual imagery, and herbal therapies. This is a General Education Course.

GEH 253 – Ethics and Law in Radiography – 24 Clock Hours/2 Quarter Credit Hours
Prerequisite: Completion of GEH 020 with a "C" or better.
This course provides a fundamental background in ethics. The historical and philosophical basis of ethics and the elements of ethical behavior will be discussed. Students examine various ethical issues and dilemmas they may face in clinical practice.

This course will include out-of-class work such as reading and writing assignments, practice and practical application assignments, and projects. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

GEH 301 – Ethics and Law in Health Science – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course examines health law and ethics and their financial and emotional impact on healthcare professionals, patients, and facilities. Course content includes legal and compliance issues affecting both the employee and employer. Topics include administrative law, professional malpractice, patient rights, risk management, labor law, contract law, and ethical considerations. This is a General Education Course.

Associate of Occupational Science in Cardiac Ultrasound Technology (A.O.S. in CUT) Courses – Blended Program

CS 300 – Introduction to Cardiology 1 – 72 Clock Hours/7 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Introduction to Cardiology 1 is an introduction to anatomy, physiology, diagnostic tests, embryology and development, normal ECG interpretation and physical examination of the heart, and cardiovascular pharmacology. This course establishes foundations for the knowledge necessary to perform adult echocardiograms successfully.

CS 300L – Laboratory Introduction to Cardiology 1 – 72 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better. This course will be taught concurrently with CS 300.
Laboratory Introduction to Cardiology 1 is concurrent with the lecture portion of the course. Students will practice the protocols and scanning techniques within the lab. This course will set the foundation of protocols that students can build on with advanced techniques and measurements taught in other courses.

CS 301 – Adult Echocardiography 1 – 72 Clock Hours/7 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Adult Echocardiography 1 covers the concepts, techniques, measurements, calculations, and protocols that pertain to a normal adult transthoracic echocardiogram (TTE). This course establishes foundations for performing and interpreting a normal TTE that would be used later to understand abnormalities and diagnose cardiac pathologies. Students will gain an understanding of the role an echocardiographer plays in the diagnosis of cardiac diseases by understanding what the criteria are for "normal."

CS 301L – Laboratory Adult Echocardiography 1 – 72 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better. This course will be taught concurrently with CS 301.
Laboratory Adult Echocardiography 1 is concurrent with the lecture portion of the course. Students will practice the protocols, measurements, and scanning techniques within the lab. This course will expand the echocardiographic protocols taught in CS-301L to include all the echocardiographic measurements and more advanced scanning techniques.

CS 400 – Introduction to Cardiology 2 – 72 Clock Hours/7 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Introduction to Cardiology 2 is a progression of CS 300 Introduction to Cardiology 1. This course builds on the foundations and principles discussed in the previous course. The common disease processes affecting the cardiovascular system will be covered with instructions on their pathophysiology, signs and symptoms, diagnostic tests, physical examination, lab values, and ECG appearance.

CS 400L – Laboratory Introduction to Cardiology 2 – 72 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better. This course will be taught

concurrently with CS 400.
Laboratory Introduction to Cardiology 2 is concurrent with the lecture portion of the course. Students will practice the protocols, measurements, and scanning techniques within the lab. This course will expand the echocardiographic protocols taught in CS-300L and CS 301L to include all the echocardiographic measurements and ECG practice and introduce vascular protocols.

CS 401 – Adult Echocardiography 2 – 72 Clock Hours/7 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Adult Echocardiography 2 is a progression of CS 301- Adult Echocardiography 1. This course builds on the foundations set in the previous course regarding echocardiographic protocols and scanning techniques. The common disease processes affecting the cardiovascular system will be covered with an emphasis on their sonographic appearance and evaluation with echocardiography.

CS 401L – Laboratory Adult Echocardiography 2 – 72 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better. This course is taught concurrently with CS 401.
Laboratory Adult Echocardiography 2 is concurrent with the lecture portion of the course. Students will practice the protocols, measurements, and scanning techniques within the lab. This course will expand the echocardiographic protocols taught in CS-300L, CS 301L, and CS 400L to include all the echocardiographic measurements and ECG practices and introduce vascular protocols.

CS 520A —Registry Preparation Course: Anatomy and Physiology – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Registry Preparation Courses (RPC) are advanced cardiac classes taught by experts in cardiac sonography. Students have learned basic cardiac skills during cardiac sonography courses 1-4 and cardiac sonography Lab courses 1-4. RPC classes will build and enrich knowledge and skills that will provide the student success in Cardiac sonography. Registry Preparation courses are offered once a month for six consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the extracranial cardiovascular system. Course study includes normal and abnormal cross-section anatomy, hemodynamics, spectral analysis, clinical signs and symptoms, indications for exams, definitions of terms, scanning protocol, instrumentation, sonographic techniques (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler) and examples of common carotid, vertebral and Subclavian artery pathology. Clinical hands-on training integrated with didactic instruction is the primary focus of this program.

CS 520B – Registry Preparation Course: Pathology 1 – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Registry Preparation Courses (RPC) are advanced cardiac classes taught by experts in cardiac sonography. Students have learned basic cardiac skills during cardiac sonography courses 1-4 and cardiac sonography Lab courses 1-4. RPC classes will build and enrich knowledge and skills that will provide the student success in Cardiac sonography. Registry Preparation courses are offered once a month for six consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the extracranial cardiovascular system. Course study includes normal and abnormal cross-section anatomy, hemodynamics, spectral analysis, clinical signs and symptoms, indications for exams, definitions of terms, scanning protocol, instrumentation, sonographic techniques (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler) and examples of common carotid, vertebral and Subclavian artery pathology. Clinical hands-on training integrated with didactic instruction is the primary focus of this program.

CS 520C – Registry Preparation Course: Pathology 2 – 8 Clock Hours/0.5 Quarter Credit Hours

Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Registry Preparation Courses (RPC) are advanced cardiac classes taught by experts in cardiac sonography. Students have learned basic cardiac skills during cardiac sonography courses 1-4 and cardiac sonography Lab courses 1-4. RPC classes will build and enrich knowledge and skills that will provide the student success in Cardiac sonography. Registry Preparation courses are offered once a month for six consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the extracranial cardiovascular system. Course study includes normal and abnormal cross-section anatomy, hemodynamics, spectral analysis, clinical signs and symptoms, indications for exams, definitions of terms, scanning protocol, instrumentation, sonographic techniques (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler) and examples of common carotid, vertebral and Subclavian artery pathology. Clinical hands-on training integrated with didactic instruction is the primary focus of this program.

CS 520D – Registry Preparation Course: Pathology 3 – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisite: Completion of courses in preceding quarters with a "C" or better.
Registry Preparation Courses (RPC) are advanced cardiac classes taught by experts in cardiac sonography. Students have learned basic cardiac skills during cardiac sonography courses 1-4 and cardiac sonography Lab courses 1-4. RPC classes will build and enrich knowledge and skills that will provide the student success in Cardiac sonography. Registry Preparation courses are offered once a month for six consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the extracranial cardiovascular system. Clinical hands-on training integrated with didactic instruction is the primary focus of this program.

CS X01 – Clinical 1 – 400 Clock Hours/13 Quarter Credit Hours
Prerequisite: Completion of UT 301, CS 401, CS 401L, CS 400, and CS 402L courses.
CS X01 is twelve (12) weeks of Level 1 externship integrated within AOSCUT quarter courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation. The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area.

Level 1 competency evaluation will be signed off by clinical instructors on Trajecsys and reviewed by the clinical coordinator. A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff on the expectations of the ultrasound extern. CS XO1 also consists of assignments on Moodle for ARDMS preparation.

The emphasis will be on the SPI preparation to encourage students in CS XO1 to take the ARDMS SPI exam before graduation. ARDMS preparation in Adult echocardiography is also provided. There are virtual labs on Moodle to be used in case clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

CS X02 – Clinical 2 – 400 Clock Hours/13 Quarter Credit Hours
Prerequisite: Completion of UT 301, CS 401, CS 401L, CS 400, CS 402L, and CS X01 courses.
CS X02 is twelve weeks (12) of Level 2 externship integrated within AOSCUT quarter courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation. The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area.

Level 2 competency evaluation will be signed off by clinical instructors on Trajecsys and reviewed by the clinical coordinator. A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff on the expectations of the ultrasound extern. CS XO2 also consists of assignments on Moodle for ARDMS preparation.

The emphasis will be on the SPI preparation to encourage students in CS XO2 to take the ARDMS SPI exam before graduation. ARDMS preparation in Adult echocardiography is also provided. There are virtual labs on Moodle to be used in case clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

<u>Associate of Occupational Science in Respiratory Care (A.O.S. in RC) Courses – Blended Program</u>
RC 100 – Respiratory Care Fundamentals I – 15 Clock Hours / 1 Semester Credit
Prerequisite – None
This course will provide an introduction to the field of Respiratory Care and its governing bodies. Students will explore the history of respiratory care, the importance of evidence-based practice, quality, patient safety,

communication, record keeping, infection prevention and control, ethical and legal implications, and principles of Respiratory Care and Basic Life Support.

RC 120 – Medical Terminology with an Emphasis in Respiratory Care – 30 Clock Hours / 2 Semester Credits
Prerequisite – None
This course will lay the foundation of the language used in the healthcare setting. Students will examine the elements of medical terms and how they apply to anatomy, physiology, procedures, and diagnoses. There will be a concentrated focus on the terminology that is utilized in the field of Respiratory Therapy.

RC 200 – Respiratory Care Fundamentals II – 75 Clock Hours / 4 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This hybrid course will provide students with a foundation in the many respiratory treatment modalities within the hospital setting. In the classroom, students will explore the topics of airway pharmacology, aerosol drug therapy, bland aerosol therapy, airway clearance therapy, lung expansion therapy, medical gasses and associated therapies, airway management, and emergency response. In the lab setting, students will apply skills learned using high-fidelity simulation.

RC 220 – Anatomy and Physiology with an Emphasis on the Cardiopulmonary System – 60 Clock Hours / 4 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This course details the structure and function of the human body from a systemic approach. There is an in-depth focus on the cardiopulmonary system, cardiopulmonary physiology, and how it contributes to the acid/base balance of the body.

RC 240 – Pharmacology – 45 Clock Hours / 3 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This course will provide a history of pharmacology and will focus on medications used in the respiratory care setting and general nursing. Students will be familiarized with the classification of medications, their actions and application, principles and procedures for safe administration, possible side effects and interactions, and computation of adult and pediatric dosing.

RC 260 – Patient Assessment and Application – 60 Clock Hours / 3 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
In this hybrid course, the online classroom will introduce the patient record. Students will learn how to modify a care plan by evaluating a patient's respiratory status through physical assessment, visual and tactile methods, and measured vital signs. In the lab, students will apply their assessment and data logging skills via high-fidelity mannequin simulation with charting scenarios. This course will also introduce the interpretation of the recorded data to determine the progression of care.

RC 300 – Respiratory Care Fundamentals III – 75 Clock Hours / 4 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
The online classroom will cover patient diagnostic applications in this hybrid course, including electrocardiogram analysis, patient monitoring, and thoracic imaging. This course will explore the interpretation of laboratory values and arterial blood gas testing and its relation to ventilation, gas exchange, and acid/base balance. In the laboratory setting, students will learn to apply electrocardiogram testing, assist with patient positioning for imaging studies, and perform arterial blood gas sampling.

RC 320 – Introduction to Mechanical Ventilation – 75 Clock Hours / 4 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This hybrid course introduces students to mechanical ventilation theory, application, and airway management. In the classroom, students will explore respiratory failure and how it leads to the need for NIV and/or mechanical ventilation, the physiology of ventilatory support, patient-ventilator interactions, monitoring of the ventilated

ICU patient, and weaning/discontinuation of ventilatory support. In the lab, students will have hands-on NIV and ventilator practice and can apply skills learned using practice lungs and high-fidelity simulation.

RC 330 – Clinical Practicum I – 144 Clock Hours / 3 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This clinical practicum will consist of 144 hours of supervised patient care in the hospital setting. Students will be able to perform patient assessment and low-acuity respiratory therapies. Students will be supervised by a licensed RCP preceptor employed by the hospital and have routine check-ins with a clinical instructor assigned by the program.

RC 340 – Specialized Respiratory Care – 30 Clock Hours / 2 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This course will explore respiratory care in specialty areas, such as e-medicine, sleep studies, skilled nursing facilities, pulmonary function testing, home care, pulmonary rehabilitation, and extracorporeal membrane oxygenation.

RC 400 – Respiratory Care Fundamentals IV – 60 Semester Hours / 4 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This course will explore cardiopulmonary diseases, such as pulmonary infections, chronic obstructive pulmonary disease, interstitial lung disease, pleural disease, acute respiratory distress syndrome, heart failure, lung cancer, neuromuscular disease, sleep disorders, etc. Students will examine symptoms, diagnosis, treatment, and patient management.

RC 420 – Advanced Mechanical Ventilation – 75 Semester Hours / 4 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This hybrid course takes an in-depth approach to managing the critically ill patient. In the classroom, students will delve deeper into the theory of mechanical ventilation and employ critical thinking skills in real-life case studies. In the lab setting, students will learn about advanced ventilator settings used in the Intensive Care Unit.

RC 430 – Clinical Practicum II – 216 Semester Hours / 4.5 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This clinical practicum will consist of 216 hours of supervised patient care in the hospital setting. Students can perform patient assessment and various low-acuity respiratory therapies. Students will be supervised by a licensed RCP preceptor employed by the hospital and have routine check-ins with a clinical instructor assigned by the program.

RC 500 – NBRC Review and Test Preparation – 45 Semester Hours / 3 Semester Credits
Prerequisite: Completion of courses in preceding modules with a "C" or better.
This course will help prepare students to take the NBRC credentialing exam. Attending a provided test preparation seminar and a passing score on the practice tests will be a course requirement.

RC 520 – Neonatal and Pediatric Respiratory Care – 90 Semester Hours / 5 Semester Credits
Prerequisite: Completion of courses in preceding modules with a "C" or better.
Students will address the needs of caring for the neonatal and pediatric populations. In the classroom, students will learn maternal risk factors, the stages of fetal development, fetal circulation, transition to extrauterine life, neonatal resuscitation, how to identify and treat neonatal/pediatric respiratory disorders, and neonatal/pediatric ventilator management. In the lab, students will apply skills to set up various respiratory modalities unique to the neonatal/pediatric population and practice resuscitation using high-fidelity simulation.

RC 530 – Clinical Practicum III – 216 Semester Hours / 4.5 Semester Credits
Prerequisite – Completion of courses in preceding modules with a "C" or better.
This clinical practicum will consist of 216 hours of supervised patient care in the hospital setting. Students can

perform patient assessment and various high-acuity respiratory therapies. Students will be supervised by a licensed RCP preceptor employed by the hospital and have routine check-ins with a clinical instructor assigned by the program.

Associate of Occupational Science in Radiologic Technology (A.O.S. in RT) Courses – Blended Program

XRT 101 – Patient Care in Radiographic Imaging – 45 Clock Hours/4.0 Quarter Credit Hours
Prerequisite: None
This course introduces students to basic imaging principles and patient care. Students review medical ethics, pediatrics, and geriatrics patient care. The duties and responsibilities of working in Radiology are also presented, emphasizing communication and relationships. A review of infection control, standard precautions, and transmission-based precautions covered.

The theory, basic venipuncture techniques, and the administration of diagnostic contrast agents include intravenous medications. Routine and emergency patient care procedures and the radiographer's role in patient education are reviewed. This course will include out-of-school preparation hours for reading and writing assignments, practice and practical application assignments, and projects. A minimum of 20 hours of outside class work will be assigned.

XRT 102 – Radiographic Procedures I – 70 Clock Hours/6.0 Quarter Credit Hours
Prerequisite: Completion of XRT 101 with a "C" or better.
This course introduces the medical terminology, anatomy, physiology, and common chest, thorax, and upper extremities pathologies. Routine chest, bony thorax, and upper extremity radiographic procedures are described and demonstrated.

Students demonstrate competency in performing routine radiographic procedures during simulated radiographic examinations. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of 30 hours of outside class work will be assigned.

XRT 103 – Radiographic Equipment and Exposure – 50 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 102 with a "C" or better.
This course introduces students to concepts of radiographic image quality and the exposure factors that contribute to producing radiographic images. Students are introduced to radiographic equipment, exposure relationships, and digital factors contributing to image production.
Students participate in experiments to demonstrate their knowledge, understanding, and skills by performing different techniques and exposure factors.

XRT 104 – Radiographic Procedures II – 70 Clock Hours/6.0 Quarter Credit Hours
Prerequisite: Completion of XRT 103 with a "C" or better.
This course introduces the medical terminology, anatomy, physiology, and common pathologies of the skeletal system, with particular emphasis on the thorax, shoulder girdle, and spine bones. Routine radiographic procedures appropriate to the thorax, shoulder girdle, and spine are described and demonstrated. Students demonstrate competency in performing torso-skeletal radiographic procedures during simulated X-ray examinations.

XRT 105 – Radiation Protection and Physics – 70 Clock Hours/7.0 Quarter Credit Hours
Prerequisite: Completion of XRT 104 with a "C" or better.
This course provides a basic overview of radiologic physics so that students can understand how X-rays are produced and the various characteristics of the beam. The fundamentals of the X-ray machine components and their operation are introduced.

Principles of radiation protection, responsibilities of the radiographer to patients, personnel, and the public, radiation health, and safety requirements of federal and state regulatory agencies, accreditation agencies, and medical organizations are covered. The interaction of radiation with molecules, cells, tissues, and the body as a whole, as well as the factors affecting biological response, will be identified.

XRT 106 – Integration of Theory and Practice Fundamentals – 25 Clock Hours/2.0 Quarter Credit Hours
Prerequisite: Completion of XRT 105 with a "C" or better.
This course focuses on activities associated with refining radiographic imaging skills and medical assistant skills application in an x-ray environment. Emphasis is placed on proper positioning. Image critique, patient care, and radiation protection are also reviewed. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of five (5) hours of outside class work will be assigned.

XRT 107 – Clinical Practice I – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 106 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 108 – Clinical Practice II – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 107 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 109 – Clinical Practice III – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 108 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 110 – Clinical Practice IV – 120 Clock Hours/4.0 Quarter Credit Hours
Prerequisite: Completion of XRT 109 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application,

critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 201 – Imaging Procedures and Technical Factors – 30 Clock Hours/3.0 Quarter Credit Hours
Prerequisite: Completion of XRT 110 with a "C" or better.
This advanced imaging course enforces professionalism, ethics, legal considerations, patient care, patient safety, radiation protection and measurement, image production, radiographic imaging, and image analysis. This course will include outside-of-school preparation hours such as reading and writing assignments, practice, practical assignments, and projects. A minimum of 25 hours of outside class work will be assigned.

XRT 202 – Radiographic Procedures III – 80 Clock Hours/7.0 Quarter Credit Hours
Prerequisite: Completion of XRT 201 with a "C" or better.
This course provides the knowledge base to perform and apply standard radiographic procedures to special studies. Consideration is given to the production of radiographs of optimal diagnostic quality. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XRT 203 – Radiographic Procedures IV – 45 Clock Hours/4.0 Quarter Credit Hours
Prerequisite: Completion of XRT 202 with a "C" or better.
This course is designed to provide a knowledge base necessary to perform routine radiographic positions of the cranium and facial bones. Emphasis is given to special patient care considerations related to head trauma. Actual images are included for analysis. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XRT 204 – Radiographic Procedures V – 50 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of XRT 203 with a "C" or better.
This course provides a knowledge base for routine radiographic positions (including chest and bony skeleton positioning, bedside and surgical examinations, and radiation protection). Actual images are included for analysis.

Provide a knowledge base necessary for pediatric and geriatric radiography (including immobilization, positioning, radiation protection, and pathologic indications). This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XRT 205 – Digital Imaging Technologies – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of XRT 204 with a "C" or better.
This course establishes introductory knowledge of computing and information processing. Computer applications in the radiologic sciences related to image capture, display, storage, and distribution are also presented. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XRT 206 – Clinical Practice V – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 110 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic

procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 207 – Clinical Practice VI – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 206 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 208 – Clinical Practice VII – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 207 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 209 – Clinical Practice VIII – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 208 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 210 – Clinical Practice IX – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 209 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 211 – Clinical Practice X – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 210 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 212 – Cross-Sectional Anatomy – 30 Clock Hours/3.0 Quarter Credit Hours
Prerequisite: Completion of XRT 210 with a "C" or better.
This course introduces the basic principles of computed tomography (CT), magnetic resonance (MR) imaging, and sectional anatomy. The history of CT/MR, current equipment and practices, radiation protection specific to CT, and the anatomic appearance of various structures in a cross-sectional reference will be discussed. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XRT 213 – Clinical Practice XI – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 212 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 214 – Clinical Practice XII – 160 Clock Hours/5.0 Quarter Credit Hours
Prerequisite: Completion of XRT 213 with a "C" or better.
In this course, each content and clinical practice experience is designed for sequential development, application, critical analysis, integration, synthesis, and evaluation of concepts and theories in the performance of radiologic procedures. Through structured, sequential, competency-based assignments in a clinical setting, concepts of team practice, patient-centered clinical practice, and professional development are discussed, examined, and evaluated.

Clinical practice experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Competency levels and outcomes measurement ensure the patient's well-being preparatory to, during, and following the radiologic procedure.

XRT 215C – Computed Tomography – 40 Clock Hours/4.0 Quarter Credit Hours
Prerequisite: Completion of XRT 212 with a "C" or better.
This course provides entry-level radiography students with principles related to computed tomography (CT) imaging. Special emphasis is placed on a study of the head and brain, thorax, abdomen, pelvis, shoulder, elbow,

hip, and knee. Correlations between cadaver cross-sections, CTs, MRIs, and radiographs are explored. CT Basics: The Series by ASRT utilized with the course satisfies the ARRT® 16-credit structures education requirements for CT.

XRT 215M – Mammography – 40 Clock Hours/4.0 Quarter Credit Hours
Prerequisite: Completion of XRT 212 with a "C" or better.
This course provides radiography students with the principles related to mammography. Topics include patient care, anatomy and physiology of the breast, positioning for routine and diagnostic exams, pathology, mammography equipment, quality control, and quality assurance for digital imaging systems.

XRT 216 – Radiologic Technology Seminar I – 80 Clock Hours/8.0 Quarter Credit Hours
Prerequisite: Completion of XRT 214 with a "C" or better.
This course teaches students the concepts and skills to prepare for the American Registry of Radiologic Technologists® (ARRT) Radiography certification examination. Topics include professional certification and licensure, patient care, radiographic procedures, radiographic protection, image production and evaluation, equipment operation, and quality control.

Emphasis is placed on digital imaging and radiographic, fluoroscopic, mobile, and tomographic equipment requirements and design, incorporating basic knowledge of quality control. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XRT 217 – Radiologic Technology Seminar II – 80 Clock Hours/8.0 Quarter Credit Hours
Prerequisite: Completion of XRT 216 with a "C" or better.
In this course, students are taught concepts and skills to assist them in preparation for the American Registry of Radiologic Technologists® (ARRT®) Radiography certification examination. Topics include professional certification and licensure, patient care, radiographic procedures, radiographic protection, image production and evaluation, equipment operation, and quality control.

Emphasis is placed on patient care, imaging procedures, and radiation safety and protection. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

Associate of Occupational Science in Ultrasound Technology (A.O.S. in UT) Courses – Blended Program

UT 200 – Ultrasound Physics and Instrumentation – 62 Clock Hours/6 Quarter Credit Hours
Prerequisites: Completion of GE 112 with a "C" or better.
This course teaches the fundamentals of ultrasound physics and instrumentation. The material heightens the educational experience of the future sonographer and prepares students for the SPI exam with the ARDMS.

UT 201 – Sectional Anatomy – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisites: Completion of GE 021 with a "C" or better.
This course introduces cross-sectional human anatomy as seen in sonograms and other imaging modalities. Cross-sectional anatomy emphasizes the physical relationship of structures, which is the basis of understanding sonographic images. Cross-sectional anatomy is the first building block to understanding what is required when performing ultrasound images. Students will learn to recognize different organs, muscles, vessels, and other body parts in their relationship. An interactive computer program will be used as a teaching tool.

UT 301 – Patient Care for Ultrasound Professional – 12 Clock Hours/1 Quarter Credit Hours
Prerequisites: Completion of courses in preceding quarters with a "C" or better.
The course gives students an overview of the sonography profession and basic patient care. This course teaches the essential role sonography and the sonographer play in medicine. The ARDMS "Sonography Principles and

Instrumentation" exam consists of 10% patient care, which this course will thoroughly prepare the student to pass.

UT 302 – Abdominal Sonography 1 – 84 Clock Hours/8 Quarter Credit Hours
Prerequisites: Completion of Quarters I and II courses with a "C" or better and concurrent enrollment with all Quarter III UT didactic or laboratory courses.
This course introduces the anatomy and basic protocols that pertain to ultrasound examinations of the abdominal organs. This course establishes foundations for scanning techniques, protocols, and patient body habitus variations. Students learn the sonographer's role in diagnosing diseases of the abdominal organs by understanding the criteria for "normal."

UT 302L – Laboratory Abdominal Sonography 1 – 84 Clock Hours/4 Quarter Credit Hours
Prerequisites: Completion of Quarters I and II courses with a "C" or better and concurrent enrollment with all Quarter III UT didactic or laboratory courses.
This course is concurrent with the lecture portion of Abdominal Sonography 1. Students will practice the protocols and scanning techniques within the lab. This course will set the foundation of protocols to build on them with advanced techniques taught in other courses.

UT 303 – Small Parts Sonography 1 – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I and II courses with a "C" or better and concurrent enrollment with all Quarter III UT didactic or laboratory courses.
Small Parts Sonography 1 course covers complete breast sonography and the basics of thyroid, parathyroid, neck glands, scrotum, and prostate sonography. Students will learn the basic normal anatomy, scanning techniques, and expectations of a sonographer when performing these exams.

UT 303L – Laboratory Small Parts Sonography 1 – 28 Clock Hours/1 Quarter Credit Hour
Prerequisites: Completion of Quarters I and II courses with a "C" or better and concurrent enrollment with all Quarter III UT didactic or laboratory courses.
This course covers the basics of thyroid, parathyroid, neck glands, and scrotum sonography. Students will also learn proper annotation regarding all organs and the breast. Students will learn the basic normal anatomy, scanning techniques, and expectations of a sonographer when performing these exams. Patient care skills will be taught. There is a scrotal phantom in the lab that students can use to scan. This will enable them to practice scanning techniques and recognize pathology (scrotal phantom).

UT 304 – Small Parts Sonography 2 – 12 Clock Hours/1 Quarter Credit Hour
Prerequisites: Completion of Quarters I and II courses with a "C" or better.
This course focuses on the common diseases that affect the thyroid, scrotum, and prostate. Students will learn to correlate lab tests and other modalities to assist physicians with correct diagnosis and ultrasound imaging. Students will learn to present normal vs. abnormal and what is required when writing a report. Interventional procedures such as biopsies and brachytherapy will be covered, as well as the role of ultrasound in each exam. Patient care techniques will be addressed with each type of exam.

UT 304L – Laboratory Small Parts Sonography 2 – 12 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I and II courses with a "C" or better and concurrent enrollment with all Quarter III UT didactic or laboratory courses.
This course focuses on advanced scanning techniques of the thyroid and the scrotum using a phantom. The Doppler evaluation and its use in diagnosing multiple disease processes will be covered. SIMTICS is required in the lab to practice protocols and recognize pathology. Breast pathology will be reviewed in class.

UT 402 – Abdominal Sonography 2 – 68 Clock Hours/6.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and III courses with a "C" or better and concurrent enrollment with all Quarter IV UT didactic or laboratory courses.

Abdominal Sonography 2 is a progression of UT 302-Abdominal Sonography 1. This course builds on the foundations set in the instruction process of protocols and scanning techniques. The students will learn additional anatomy pertinent to sonographic imaging along with skills in the diagnostic process.

The common disease processes of each organ will be covered with instructions on identifying and presenting suspected diseases and disease processes using other diagnostic tools such as patient history, lab results, and correlation with other imaging modalities. Doppler of the abdominal vessels will be taught as a tool to discover and prove disease processes of organs.

UT 402L – Laboratory Abdominal Sonography 2 – 68 Clock Hours/3 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and III courses with a "C" or better and concurrent enrollment with all Quarter IV UT didactic or laboratory courses.
This course builds on the foundations of protocols and scanning techniques in instruction. The students will learn additional anatomy pertinent to sonographic imaging and skills in the diagnostic process. The common disease processes of each organ will be covered with instructions on identifying and presenting suspected diseases using other diagnostic tools such as patient history, lab results, and correlation with other modalities.

Doppler of the abdominal vessels will be taught as a tool to discover and prove the disease processes of certain organs. Mid-module assessments will be conducted in this course. Mid-module assessments are done to verify if the student is at the scanning level expected at this stage of the course. Different groups have different levels of expectations depending on start dates. Mid-module assessments are not part of the grade. However, if the student fails, they will be put on academic probation in addition to documentation stating that the scanning level is below expectation.

UT 405 – Neonatal Sonography – 32 Clock Hours/3 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and III courses with a "C" or better and concurrent enrollment with all Quarter IV UT didactic or laboratory courses.
This course covers the exams required of sonographers of neonatal patients. The main focus will be neonatal brain sonography, lumbar spine sonography, and infant hip joint sonography. Students will learn the normal and abnormal findings and patient care of the premature patient.

UT 406 – Pediatric Sonography – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and III courses with a "C" or better and concurrent enrollment with all Quarter IV UT didactic or laboratory courses.
This course covers the disease processes specific to the pediatric abdominal patient. Students will already know the basic anatomy and physiology of the abdomen and recognize and present abnormalities. Patient care techniques with the pediatric patient will be covered along with protocols and scanning techniques.

UT 410 – Integration of Theory and Practice Lab 1 – 16 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and III courses with a "C" or better and concurrent enrollment with UT 405.
This course is designed to allow the students to continue scanning during the concurrent didactic portion of their education. The Integration of Theory and Practice Lab courses are designed to allow students to continue building on their scanning skills during didactic courses that do not allow scanning, i.e., OB, neonate, and pediatrics. Students will continue practicing the protocols and scanning techniques of the prior lab courses (abdomen, vascular, gynecology, and/or small parts).

This class allows the students to work on their scanning speed and advanced techniques, such as intercostal scanning. New students will be introduced to the protocols and begin building on their scanning skills. Also, critical thinking scenarios will be applied to the lessons in the lab to ensure students understand normal anatomy vs. pathology.

UT 504A – Vascular Sonography 1 – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
Students learn vascular terminology and advanced vascular physical principles. Anatomy and hemodynamic characteristics of the arteries and veins of the lower extremities will be the main focus of this course. Scanning techniques and protocols will be taught and challenged in the clinical setting.

UT 504AL – Laboratory Vascular Sonography 1 – 28 Clock Hours/1 Quarter Credit Hour
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course will review Doppler sonography within the lab setting. Students will learn techniques and skills for the optimization of the vascular examination. Laboratory Vascular 1 focuses on the lower extremity venous system protocols. This will introduce and prepare students for studies for deep vein thrombosis disease.

UT 504B – Vascular Sonography 2 – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
Students will learn vascular terminology and advanced vascular physical principles. Anatomy and hemodynamic characteristics of the lower extremity arterial system will be the main focus of this course. Scanning techniques and protocols will be taught as challenges in the clinical setting.

UT 504BL – Laboratory Vascular Sonography 2 – 28 Clock Hours/1 Quarter Credit Hour
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course will review Doppler sonography within the lab setting. Students will learn techniques and skills for the optimization of the vascular examination. The focus is on the lower extremity arterial system protocol. Indirect assessment of the arteries will also be introduced and taught with the lab's ABI machine. This will introduce and prepare students for studies on peripheral vascular disease.

UT 504C – Vascular Sonography 3 – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course covers extracranial sonography and the protocols and scanning techniques required for diagnostic exams.

UT 504CL – Laboratory Vascular Sonography 3 – 28 Clock Hours/1 Quarter Credit Hour
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course will focus on the Extracranial and Intracranial Doppler, primarily carotid artery and TCD ultrasound exams. Students will learn to use Doppler velocities and create ratios that determine normal vs. abnormal flow. Students will learn carotid and TCD protocols and scanning techniques to perform the complete exams in 45 minutes.

UT 504D – Vascular Sonography 4 – 24 Clock Hours/2 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course focuses on upper extremity venous vascular protocols. Vascular hemodynamics and physical principles are reviewed and practiced. Scanning skills and techniques are taught to recognize the normal and abnormal anatomy and disease (and disease processes) of the upper extremities.

UT 504DL – Laboratory Vascular Sonography 4 – 24 Clock Hours/1 Quarter Credit Hour

Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course will review Doppler sonography within the lab setting. Students will learn techniques and skills for optimizing the upper arterial vascular examination. Students will be taught upper arterial extremity protocols. Indirect assessment of the arteries will also be introduced and taught with the lab's ABI machine. This will introduce and prepare students for peripheral vascular disease.

UT 505 – MSK – 20 Clock Hours/2 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
This course is a basic introduction to the anatomy and physiology of the shoulder, knee, and Achilles tendon. Scanning techniques and specifics of MSK scanning in sonography will be covered. Basic sonography knowledge and skills will be presented.

UT 505L – Laboratory MSK – 20 Clock Hours/1 Quarter Credit Hour
Prerequisites: Completion of Quarters I, II, III, and IV courses with a "C" or better and concurrent enrollment with all Quarter V UT didactic and laboratory courses.
Students will scan normal MSK anatomy and acquire the skills and techniques to present normal structures with ultrasound. Basic sonography knowledge and skills will be presented at two levels, "Introduction" and "Review." This will enrich the students' scanning skills in preparing for the externship.

UT 607A – Gynecology 1 – 24 Clock Hours/2 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, IV, and V courses with a "C" or better and concurrent enrollment with all Quarter VI UT didactic and laboratory courses.
This *quarter introduces* gynecology sonography. Students will learn the anatomy and physiology of the female pelvis and embryology and congenital anomalies.

UT 607B – Gynecology 2 – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, IV, and V courses with a "C" or better and concurrent enrollment with all Quarter VI UT didactic and laboratory courses.
This course will cover the pathology found during gynecologic ultrasound examinations. Students will learn sonographic features of malignant and benign disease processes, including required correlation with clinical, laboratory, and pathologic findings.

UT 607L – Laboratory Gynecology Sonography – 52 Clock Hours/2.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, IV, and V courses with a "C" or better and concurrent enrollment with all Quarter VI UT didactic and laboratory courses.
This *quarter covers* protocols for sonography of the female pelvis. Students will learn the basic protocol and the Doppler portions included in most facility protocols. Students will understand why images are needed and learn patient care components such as communication skills, endovaginal sonography techniques, and disinfection requirements.

UT 609A – Obstetric Sonography 1 – 32 Clock Hours/3 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and V is required with a "C" or better and concurrent enrollment with all Quarter VI UT didactic and laboratory courses.
This course covers the first and second trimesters of pregnancy. Students will learn the indications for an OB first trimester sonogram and the normal vs. abnormal sonographic findings. Students will learn about the development of the placenta and the umbilical cord and their roles in pregnancy. Students will learn to use second-trimester biometric parameters and determine fetal dating. Students will be introduced to biophysical profiles and recognition of intrauterine growth retardation.

UT 609B – Obstetric Sonography 2 – 62 Clock Hours/6 Quarter Credit Hours

Prerequisites: Completion of Quarters I, II, and V with a "C" or better and concurrent enrollment with all Quarter VI UT didactic and laboratory courses.
This course covers pregnancy's second and third trimesters and the fetal anatomical and physiological systems, including normal and abnormal findings. Students will continue learning the correct protocols for each trimester, including biometric measurements, required organs, amniotic fluid volume, placenta grade, position, number of pregnancies, and lung maturity. Various anomalies will be covered, and protocols will be followed if abnormalities are detected. Students will be introduced to prenatal testing. Multiple gestations and risk factors for multiple gestations will also be covered.

UT 610 – Integration of Theory and Practice Lab 2 – 88 Clock Hours/4 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, and V with a "C" or better and concurrent enrollment with all Quarter VI UT didactic and laboratory courses.
This course is designed to allow the students to continue scanning during the concurrent didactic portion of their education. The Integration of Theory and Practice Lab courses are designed to allow students to continue building on their scanning skills during didactic courses that do not allow scanning, i.e., OB, neonate, and pediatrics.

Students will continue practicing the protocols and scanning techniques of the prior lab courses (abdomen, vascular, gynecology, and/or small parts). This class allows the students to work on their scanning speed and advanced techniques, such as intercostal scanning. New students will be introduced to the protocols and begin building on their scanning skills. Also, critical thinking scenarios will be applied to the lessons in the lab to ensure students understand normal anatomy vs. pathology.

UT 620A – Master Scanning Lab Extracranial Vascular Duplex Exam – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of courses in preceding Quarters with a "C" or better.
Master Scanning Labs (MSL) are advanced vascular classes taught by experts in vascular sonography. Students have learned basic vascular skills during Vascular Sonography courses 1-4 and Vascular Sonography Lab courses 1-4. MSL classes will build and enrich knowledge and skills to be successful in vascular sonography. Master Scan Lab courses are offered once a month for seven consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the extracranial cerebrovascular system, including Vertebral and Subclavian arteries, to evaluate Cerebrovascular Disease. Course study includes normal and abnormal cross-section anatomy, hemodynamics, spectral analysis, clinical signs and symptoms, indications for exams, definitions of terms, scanning protocol, instrumentation, sonographic techniques (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler) and examples of common carotid, vertebral and Subclavian artery pathology. Clinical hands-on training integrated with didactic instruction is the primary focus of this program. Rubrics evaluation demonstrating diagnostic competency is required.

UT 701 – Clinical 3 – 288 Clock Hours/9.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, IV, V, and VI and Clinical 1 and 2 with a "C" or better.
This course comprises twelve weeks of Level 3 externship integrated within UT *Quarter* courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation.

The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area. Level 1 competency evaluation will be signed off by clinical instructors on Trajecsys and reviewed by the clinical coordinator.

A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff regarding the expectations of the ultrasound extern. UT-701 also consists of assignments on Moodle for ARDMS preparation. The emphasis will be on the SPI preparation to encourage students to take the ARDMS SPI exam before graduation. ARDMS preparation in Abdomen and OB/GYN is also provided.

There are virtual labs on Moodle that can be used if clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

UT 720B – Master Scanning Lab Lower Extremity Venous Exam – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of courses in preceding Quarters with a "C" or better.
Master Scanning Labs (MSL) are advanced vascular classes taught by experts in vascular sonography. Students have learned basic vascular skills during Vascular Sonography courses 1-4 and Vascular Sonography Lab courses 1-4. MSL classes will build and enrich knowledge and skills to be successful in vascular sonography. Master Scan Lab courses are offered once a month for seven consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the venous system in the lower extremity, including all the deep veins in the calf, for evaluating Deep and Superficial Venous Thrombosis (DVT). Areas covered include normal and abnormal cross-section anatomy, etiology of (venous thrombosis), risk factors, classification of venous thrombosis, clinical signs and symptoms, indications, limitations, pitfalls, the definition of terms, scanning protocol, instrumentation, and sonographic technique (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler).

Clinical hands-on training integrated with didactic instruction is the primary focus of this program. Rubrics evaluation demonstrating diagnostic competency is required.

UT 720C – Master Scanning Lab Lower Extremity Arterial Exam – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of courses in preceding Quarters with a "C" or better.
Master Scanning Labs (MSL) are advanced vascular classes taught by experts in vascular sonography. Students have learned basic vascular skills during Vascular Sonography courses 1-4 and Vascular Sonography Lab courses 1-4. MSL classes will build and enrich the knowledge and skills of students in vascular sonography. Master Scan Lab courses are offered once a month for seven consecutive months. Please check with instructors for dates.

This course gives the learner an overview of duplex imaging of the lower extremity arterial system (native and graft) for evaluating peripheral vascular disease (PAD). Areas covered include an overview of (PAD), risk factors, acute and chronic obstruction, normal and abnormal cross-section anatomy, hemodynamics, spectral analysis, clinical signs and symptoms, indications, the definition of terms, scanning protocol, instrumentation, and sonographic technique (grayscale conventional, color Doppler, color with Spectral Doppler, and power Doppler).

Normal and abnormal criteria will be reviewed to classify the severity of the peripheral arterial disease. Types of bypass grafts and evaluation protocols will be discussed and reviewed. Examples of common lower extremity arterial disease will be shown to familiarize the learner with common pathologies seen when performing duplex mapping of lower extremity arteries. Ancillary findings such as Pseudoaneurysm, AV-Fistula, and Aortic Aneurysms will be reviewed. ABI and TBI evaluation criteria will be reviewed.

Clinical hands-on training integrated with didactic instruction is the primary focus of this program. Rubrics evaluation demonstrating diagnostic competency is required.

UT 720D – Master Scanning Lab Upper Extremity Venous Exam – 8 Clock Hours/ 0.5 Quarter Credit Hours
Prerequisites: Completion of courses in the preceding Quarter with a "C" or better.
Master Scanning Labs (MSL) are advanced vascular classes taught by experts in vascular sonography. Students have learned basic vascular skills during Vascular Sonography courses 1-4 and Vascular Sonography Lab courses 1-4. MSL classes will build and enrich knowledge and skills to be successful in vascular sonography. Master Scan Lab courses are offered once a month for seven (7) consecutive months. Please check with instructors for dates.

This course provides the learner with an overview of duplex imaging of the venous system in the upper extremity to evaluate Deep and Superficial Venous Thrombosis (DVT). Areas covered include normal and abnormal cross-section anatomy, etiology of (venous thrombosis), risk factors, classification of venous thrombosis, hemodynamics, spectral analysis, clinical signs and symptoms, indications, predisposing factors, PICC lines, pacemaker leads, stents, ancillary findings, pitfalls, limitations, scanning protocol, patient position, instrumentation, and sonographic technique (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler). Clinical hands-on training integrated with didactic instruction is the primary focus of this program. Rubrics evaluation demonstrating diagnostic competency is required.

UT 801 – Clinical 4 – 288 Clock Hours/9.5 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, IV, V, VI, and VII and Clinical 1, 2, and 3 with a "C" or better.
This course comprises twelve weeks of Level 4 externship integrated within AOSUT *Quarter* courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation.

The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area. Level 4 competency evaluation will be signed off by clinical instructors on Trajecsys and reviewed by the clinical coordinator.

A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff regarding the expectations of the ultrasound intern. UT-801 also consists of assignments on Moodle for ARDMS preparation. The emphasis will be on the SPI preparation to encourage students in UT-801 to take the ARDMS SPI exam before graduation. ARDMS preparation in Abdomen and OB/GYN is also provided.

There are virtual labs on Moodle that can be used if clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

UT 820E – Master Scanning Lab Duplex Evaluation of the Portal Venous System for Portal Hypertension – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of courses in preceding Quarters with a "C" or better.
This course provides the learner with an overview of duplex imaging of the portal, splenic, hepatic, and mesenteric vessels in the abdomen to evaluate Portal Hypertension, Portal Vein Thrombosis, Budd Chiari Syndrome, and Transjugular Portosystemic Shunt malfunction.

Areas covered include normal and abnormal sonographic anatomy of the hepatoportal system, causes and levels of obstruction relating to hepatoportal obstruction, hemodynamics, spectral analysis, clinical signs and symptoms, indications, definition of terms, scanning protocol, instrumentation, and sonographic technique (grayscale conventional, color Doppler, color with spectral Doppler, and power Doppler). Clinical hands-on training integrated with didactic instruction is the primary focus of this program.

UT 820F – Master Scanning Lab Lower Extremity Venous Valve Insufficiency Duplex Exam – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of courses in preceding Quarters with a "C" or better.
Master Scanning Labs (MSL) are advanced vascular classes taught by experts in vascular sonography. Students have learned basic vascular skills during Vascular Sonography courses 1-4 and Vascular Sonography Lab courses 1-4. MSL classes will build and enrich knowledge and skills to be successful in vascular sonography. Master Scan Lab courses are offered once a month for seven (7) consecutive months. Please check with instructors for dates.

The one-day basic ultrasound course provides the student with an overview of anatomy, pathology, and duplex imaging of the venous system of the lower extremity for the evaluation of deep, superficial, and perforator

incompetency in patients with Chronic Venous Insufficiency (CVI). Areas covered include normal and abnormal cross-section anatomy, hemodynamics, spectral analysis, clinical signs and symptoms, indication, the definition of terms, scanning protocol, instrumentation, and sonographic technique (black and white conventional and color Doppler). Clinical hands-on training integrated with didactic instruction is the primary focus of this program.

UT 820G – Master Scanning Lab Upper Extremity Mapping for Dialysis Access – 8 Clock Hours/0.5 Quarter Credit Hours
Prerequisites: Completion of courses in preceding Quarters with a "C" or better.
This course teaches the fundamentals of upper extremity mapping for dialysis access. The material is presented to heighten the future sonographer's educational experience and prepare the student for the dialysis patient.

UT X01 – Clinical 1 – 192 Clock Hours/6 Quarter Credit Hours
Prerequisites: Completion of Quarters I, II, III, and IV courses, concurrent enrollment in Quarter V or completion of Quarters I, II, V, and VI courses, and concurrent enrollment in Quarter III, with a "C" or better.
This course comprises twelve weeks of Level 1 externship integrated within AOSUT *Quarter* courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation.

The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area. Level 1 competency evaluation will be signed off by clinical instructors on the Trajecsys Report system and reviewed by the clinical coordinator.

A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff regarding the expectations of the ultrasound extern. This course also consists of assignments on Moodle for ARDMS preparation. Emphasis is placed on SPI preparation to encourage students to take the ARDMS SPI exam before graduation.

There are virtual labs on Moodle that can be used if clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

UT X02 – Clinical 2 – 192 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of Quarters I, II, III, IV, and V or completion of Quarters I, II, III, V, and VI with a "C" or better. UT X02 is twelve weeks of externship integrated with UT Quarter IV or VI.
This course comprises twelve weeks of Level 1 externship integrated within AOSUT *Quarter* courses. Externship expectations will vary as to the clinical site assignment for each student. This allows the student to relate theory to practice in a supervised situation.

The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area. Level 1 competency evaluation will be signed off by clinical instructors on the Trajecsys Report System and reviewed by the clinical coordinator.

A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff regarding the expectations of the ultrasound intern. This course also consists of assignments on Moodle for ARDMS preparation. The emphasis will be on the SPI preparation to encourage students to take the ARDMS SPI exam before graduation.

There are virtual labs on Moodle that can be used if clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

Associate of Occupational Science in Vascular Ultrasound Technology (A.O.S. in VUT) Courses – Blended Program

VU 300 – Cerebrovascular Sonography – 56 Clock Hours/5.5 Quarter Credit Hours
Completion of Quarter I, II, and III courses with a "C" or better is required. Concurrent enrollment is required with all Quarter IV VU courses.
This course covers extracranial and intracranial sonography. The anatomy of the extracranial and intracranial systems, and normal and abnormal findings will be covered. Protocols and scanning techniques required for diagnostic exams will be taught.

VU 300L – Cerebrovascular Sonography Lab— 56 Clock Hours/2.5 Quarter Credit Hours
Completion of Quarter I, II, and III courses with a "C" or better is required. Concurrent enrollment is required with all Quarter IV VU courses.
Extracranial and intracranial Doppler will be the focus of this course, primarily carotid artery ultrasound and TCD exams. Students will learn to use Doppler velocities and create ratios that determine normal vs. abnormal flow. Students will learn carotid and TCD protocols and hands-on scanning techniques to perform the exam in 45 minutes.

VU 301 – Abdominal Vascular Sonography – 84 Clock Hours/8 Quarter Credit Hours
Completion of Quarter I, II, III, and VU 300 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter IV VU courses.
Abdominal Vascular Sonography teaches abdominal vascular vessels and basic protocols that pertain to ultrasound examinations of the abdominal vascular system. This course establishes foundations for scanning techniques, protocols, and patient body habitus variations.

Students will gain an understanding of the role a sonographer plays in the diagnosis of diseases of the abdominal vascular system by understanding what the criteria for "normal is." Students will also understand how to identify pathology in the abdominal vascular system. They will recognize spectral Doppler and color on normal and diseased waveforms of the abdominal vascular system.

VU 301L – Abdominal Vascular Sonography Lab – 84 Clock Hours/4 Quarter Credit Hours
Completion of Quarter I, II, III, and VU 300 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter IV VU courses.
Abdominal Vascular Sonography Lab is concurrent with Abdominal Vascular Sonography, VU 301. Students will practice the protocols and scanning techniques of the abdominal vascular system within the lab.

VU 400 – Lower Extremity Venous System – 40 Clock Hours/4.0 Quarter Credit Hours
Prerequisite: Completion of Quarter I, II, and VU 401 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
Students will learn vascular terminology and advanced vascular physical principles. This course's main focus will be the anatomy and hemodynamic characteristics of the lower extremities veins. Scanning techniques and protocols will be taught and challenged in the clinical setting.

VU 400L – Lower Extremity Venous System Lab – 40 Clock Hours/2.0 Quarter Credit Hours
Prerequisite: Completion of Quarter I, II, and VU 401 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
This course will review Doppler sonography within the lab setting. Students will learn techniques and skills for optimizing the lower extremity venous examination. The focus of this course is the lower extremity venous system protocol. Superficial venous vein mapping will also be included in this course. This will introduce and prepare students for studies for deep vein thrombosis, venous disease, and superficial venous disease.

VU 401 – Lower Extremity Arterial System – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I and II courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
Students will learn vascular terminology and advanced vascular physical principles. Anatomy and hemodynamic characteristics of the lower extremity arterial system will be the main focus of this course. Scanning techniques and protocols will be taught and challenged in the clinical setting.

VU 401L – Lower Extremity Arterial System Lab – 36 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I and II courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
This course will review Doppler sonography within the lab setting. Students will learn techniques and skills for the optimization of the vascular examination. The focus is on the lower extremity arterial system protocol. Indirect assessment of the arteries will also be introduced and taught with the lab's ABI machine. This will introduce and prepare students for studies on peripheral vascular disease.

VU 402 – Upper Extremity Venous System – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I, II, VU 401, and VU 400 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
Upper extremity venous vascular protocols are the main focus of this course. Vascular hemodynamics and physical principles are reviewed and practiced. Scanning skills and techniques are taught to recognize the normal and abnormal anatomy and disease (and disease processes) of the upper extremities.

VU 402L – Upper Extremity Venous System Lab – 36 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I, II, VU 401, and VU 400 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
Upper extremity venous protocols will be demonstrated, practiced, and evaluated. Students will learn scanning techniques of required anatomy and what is required to prove normal vs. abnormal.

VU 403 – Upper Extremity Arterial System – 28 Clock Hours/2.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I, II, VU 401, VU 400, and VU 402 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
Upper extremity arterial vascular protocols are the main focus of this course. Vascular hemodynamics and physical principles are reviewed and practiced. Scanning skills and techniques are taught to recognize the normal and abnormal anatomy and disease (and disease processes) of the upper extremities.

VU 403L – Upper Extremity Arterial System Lab – 28 Clock Hours/1 Quarter Credit Hour
Prerequisite: Completion of Quarters I, II, VU 401, VU 400, and VU 402 courses with a "C" or better is required. Concurrent enrollment is required with all Quarter III VU courses.
This course will review Doppler sonography within the lab setting. Students will learn techniques and skills for optimizing the upper arterial vascular examination. Students will be taught upper arterial extremity protocols. Indirect assessment of the arteries will also be introduced and taught with the lab's ABI machine. This will introduce and prepare students for peripheral vascular disease.

VU X01 – Clinical 1 – 400 Clock Hours/13 Quarter Credit Hours
Prerequisite: Completion of courses in preceding Quarters with a "C" or better.
VU X01 is twelve weeks of Level 1 externship, integrated within VU *Quarter* courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation.

The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area. Level 1 competency evaluation will be signed off by clinical instructors on Trajecsys and reviewed by the clinical coordinator.

A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff regarding the expectations of the ultrasound extern. VU X01 also consists of assignments on Moodle for ARDMS preparation.

The emphasis will be on the SPI preparation to encourage students in VU X01 to take the ARDMS SPI exam before graduation. There are virtual labs on Moodle that can be used if clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

VU X02 – Clinical 2 – 400 Clock Hours/13 Quarter Credit Hours
Prerequisite: Completion of courses in preceding Quarters with a "C" or better.
VU X02 is twelve weeks of Level 2 externship, integrated within VU *Quarter* courses. Externship expectations will vary depending on the externship site assignment for each student. This allows the student to relate theory to practice in a supervised situation.

The student's ability to perform correct protocols and acquire effective patient diagnostic information is evidenced by meeting specific objectives and competencies in each clinical specialty area. Level 2 competency evaluation will be signed off by clinical instructors on Trajecsys and reviewed by the clinical coordinator.

A Clinical Instructor (CI) Preceptor Handbook is provided for each site supervisor. The handbook guides the CI and department staff regarding the expectations of the ultrasound extern. VU X02 also consists of assignments on Moodle for ARDMS preparation.

The emphasis will be on the SPI preparation to encourage students in VU X02 to take the ARDMS SPI exam before graduation. There are virtual labs on Moodle that can be used if clinical site assignments are unavailable for reasons determined by the clinical site and the school. The clinical coordinator may give virtual lab assignments for extra learning opportunities or make-up assignments.

Associate of Science in Magnetic Resonance Imaging (A.S. in MRI) Courses – Blended Program

MR 001 – Introduction to MRI I – 60 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This is the first of two (2) courses introducing students to the MRI training program and preparing them for clinical, which begins in the fourth week, ensuring safety in the practice of MRI technology. This course will give the student an overview of Magnetic Resonance Imaging and Safety. Program policies and student responsibilities will be outlined.
The fundamental principles of MRI, equipment, and terminology will be introduced. The role of the technologist in maintaining patient safety and comfort and coworkers' safety is discussed. A brief introduction to imaging parameters and the clinical application of MRI is included. The student will be introduced to the basic setup for most routine MRI procedures.

MR 002 – Introduction to MRI II – 60 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of MR 001 with a "C" or better.
This is the second of two (2) courses introducing students to the MRI training program and preparing them for clinical, which begins in the fourth week, ensuring safety in the practice of MRI technology. This course will give the student an overview of Magnetic Resonance Imaging and Safety. Program policies and student responsibilities will be outlined.
The fundamental principles of MRI, equipment, and terminology will be introduced. The role of the technologist in maintaining patient safety and comfort and coworkers' safety is discussed. A brief introduction to imaging parameters and the clinical application of MRI is included. The student will be introduced to the basic setup for most routine MRI procedures.

MR 102 – Medical Terminology I – 18 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
This course introduces the student to medical and pathological terms related to specific body systems. Through lectures, discussions, demonstrations, visual aids, and self-study, the student will develop knowledge and understanding of the professional language to function and communicate effectively with other medical team members.

MR 103 – Physical Principles of MRI – 54 Clock Hours/5 Quarter Credit Hours
Prerequisite: None
This unit provides the student with a comprehensive overview of MR imaging principles. The subjects are formatted in individual outlines and sequenced according to the level of knowledge desired. Topics include the history of MR, nuclear MR signal production, tissue characteristics, pulse sequencing, imaging parameters/options, and image formation.

MR 104 – Patient Care – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: None
This course is designed to provide the basic concepts of patient care, including consideration for the patients' and families' physical and psychological needs. Routine and emergency patient care and infection control procedures utilizing standard precautions will be described. The role of the MRI technologist in patient education will be identified, including ethics, communication, and age-appropriate care.

MR 111 – MRI Clinical I – 264 Clock Hours/8.5 Quarter Credit Hours
Prerequisite: None
This course allows students to practice the skills necessary to obtain high-quality MR images, objectively alter protocols based on patient pathology or physical condition, identify image quality problems, and make appropriate corrections. The clinical is conducted at a clinical facility after or with didactic instruction. Activities include demonstration and observation, after which the student assists in performing the activity.

The student can perform the activity under direct supervision when satisfactory proficiency is apparent. When both the student and instructor are satisfied with the student's proficiency, the student will perform studies under indirect supervision to gain experience and expertise in MR imaging.

This course presents a progression in competency levels in clinical performance objectives and competency exams. The student will have access to the facilities, personnel, examinations, and educational materials to achieve the course objectives competently.

MR 201 – Sectional Anatomy II – 24 Clock Hours/2 Quarter Credit Hours
Prerequisite: None
This course studies human anatomy in axial, sagittal, and coronal planes. Other imaging planes are studied when relevant for demonstrating anatomy in specific regions. Correlation to MRI is practiced in this course. Bony, muscular, vascular, organs, and soft tissues of the following anatomical regions are studied: the central nervous system (brain and spine), other structures in the head, soft tissue neck, musculoskeletal, cardiovascular, thorax, abdomen, and pelvis.

MR 202 – Medical Terminology II – 18 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
This course introduces the student to medical and pathological terms related to specific body systems. Through lectures, discussions, demonstrations, visual aids, and self-study, the student will develop knowledge and understanding of the professional language to function and communicate effectively with other medical team members.

MR 203 – MRI Protocols and Procedures I – 42 Clock Hours/4 Quarter Credit Hours
Prerequisite: None
This course provides students with imaging techniques for the CNS, neck, thorax, musculoskeletal system, and abdominopelvic regions. Students will learn the specific clinical application, available coils, their use, considerations in the scan sequences, specific protocol choices (i.e., slice thickness, phase direction, flow compensation), and positioning criteria.

Anatomical structures, the plane that best demonstrates anatomy, and signal characteristics of normal and abnormal structures will be discussed. Pharmacology, as it pertains to MRI, will be discussed.

MR 204 – MRI Safety – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: None
This course introduces the basic principles of MR safety and covers the basic concepts of patient management. Educating patients and ancillary staff on magnet safety is also presented. Patient and magnet-related emergencies represent a unique situation for an MR technologist. The recommended procedures and responsibilities of the technologist will be discussed in these situations. This content also covers MR contrast agents.

This introduction provides basic knowledge of MR safety, patient preparation, and monitoring of patients in the MR suite. This information enables the student to communicate better with the healthcare team to ensure patients' safety. Health effects and safety issues are important aspects of this diagnostic modality.

MR 211 – MRI Clinical II – 252 Clock Hours/8 Quarter Credit Hours
Prerequisite: None
This course allows students to practice the skills necessary to obtain high-quality MR images, objectively alter protocols based on patient pathology or physical condition, identify image quality problems, and make appropriate corrections. The clinical is conducted at a clinical facility after or with didactic instruction.

Activities include demonstration and observation, after which the student assists in performing the activity. The student can perform the activity under direct supervision when satisfactory proficiency is apparent. When both the student and instructor are satisfied with the student's proficiency, the student will perform studies under indirect supervision to gain experience and expertise in MR imaging.

This course presents a progression in competency levels in clinical performance objectives and competency exams. The student will have access to the facilities, personnel, examinations, and educational materials to achieve the course objectives competently.

MR 301 – Sectional Anatomy III – 24 Clock Hours/2 Quarter Credit Hours
Prerequisite: None
This course studies human anatomy in axial, sagittal, and coronal planes. Other imaging planes are studied when relevant for demonstrating anatomy in specific regions. Correlation to MRI is practiced in this course. Bony, muscular, vascular, organs, and soft tissues of the following anatomical regions are studied: the central nervous system (brain and spine), other structures in the head, soft tissue neck, musculoskeletal, cardiovascular, thorax, abdomen, and pelvis.

MR 302 – Physics I – 31 Clock Hours/3 Quarter Credit Hours
Prerequisite: None
This course provides a comprehensive overview of MR imaging. Topics include instrumentation, magnetism, NMR signal production, tissue characteristics, spatial localization, pulse sequencing, imaging parameters/options, special applications, safety, and quality assurance. Advanced-level training is included, which provides activities related to physical principles and quality assurance procedures.

MR 303 – MRI Protocols and Procedures II – 42 Clock Hours/4 Quarter Credit Hours
Prerequisite: None
This course provides the student with imaging techniques related to the CNS, neck, thorax, musculoskeletal system, and abdominopelvic regions. Students will learn the specific clinical application, available coils, their use, considerations in the scan sequences, specific protocol choices (i.e., slice thickness, phase direction, flow compensation), and positioning criteria.

Anatomical structures, the plane that best demonstrates anatomy, and signal characteristics of normal and abnormal structures will be discussed. The pharmacology of MRI will be discussed.

MR 304 – MRI Pathology in Diagnostic Imaging – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: None
This course familiarizes students with the common pathologies in magnetic resonance imaging and their appearances with various imaging protocols. The course content will include all commonly imaged body systems and areas. The students will use case studies and images of the pathologies to reinforce the lectures from cases they performed or observed during clinical externships. The student will research pathologies and present the research in class.

MR 311 – MRI Clinical III – 252 Clock Hours/8 Quarter Credit Hours
Prerequisite: None
This course allows students to practice the skills necessary to obtain high-quality MR images, objectively alter protocols based on patient pathology or physical condition, identify image quality problems, and make appropriate corrections. The clinical is conducted at a clinical facility after or with didactic instruction.

Activities include demonstration and observation, after which the student assists in performing the activity. The student can perform the activity under direct supervision when satisfactory proficiency is apparent. When the student and instructor are satisfied with the student's proficiency, the student will perform studies under indirect supervision to gain experience and expertise in MR imaging.

This course presents a progression in competency levels in clinical performance objectives and competency exams. The student will have access to the facilities, personnel, examinations, and educational materials to achieve the course objectives competently.

MR 401 – Medicolegal Considerations in Healthcare – 24 Clock Hours/2 Quarter Credit Hours
Prerequisite: None
This course provides a fundamental background in ethics and human diversity. The historical and philosophical basis of ethics and the elements of ethical behavior will be discussed. The student will examine various ethical issues and dilemmas found in clinical practice.

Course activities will include research and analysis on case studies germane to medical imaging. An introduction to legal terminology, concepts, and principles will also be presented. Topics include misconduct, malpractice, legal, and the A.S. IN RT professional standards.

MR 402 – MRI Registry Review – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: None
This course prepares students to pass the required registry board exams to work as MRI Technologists. This course reviews the MRI program. Students will take mock registry board exams. Students will learn effective ways to study and answer questions from the registry.

MR 403 – Physics II – 31 Clock Hours/3 Quarter Credit Hours
Prerequisite: None

This course provides a comprehensive overview of MR imaging. Topics include instrumentation, magnetism, NMR signal production, tissue characteristics, spatial localization, pulse sequencing, imaging parameters/options, special applications, safety, and quality assurance. Advanced-level training is included, which provides activities related to physical principles and quality assurance procedures.

MR 404 – Computers in Imaging and PACS – 24 Clock Hours/2 Quarter Credit Hours
Prerequisite: None
This course gives the student an understanding of radiology's components, principles, and operation of digital imaging systems. The student will learn the principles of digital imaging systems and factors that impact image acquisition, display, archiving, and retrieval of MR images.

MR 411 – MRI Clinical IV – 252 Clock Hours/8 Quarter Credit Hours
Prerequisite: None
This course allows students to practice the skills to obtain high-quality MR images, objectively alter protocols based on patient pathology or physical condition, identify image quality problems, and make appropriate corrections. The clinical is conducted at a clinical facility after or with didactic instruction.

Activities include demonstration and observation, after which the student assists in performing the activity. The student can perform the activity under direct supervision when satisfactory proficiency is apparent. When both the student and instructor are satisfied with the student's proficiency, the student will perform studies under indirect supervision to gain experience and expertise in MR imaging.

This course presents a progression in competency levels in clinical performance objectives and competency exams. The student will have access to the facilities, personnel, examinations, and educational materials to achieve the course objectives competently.

Associate of Science in Nuclear Medicine Technology (A.S. in NM) Courses – Blended, Full Distance Education Program

NM 111 – Patient Care in Nuclear Medicine – 100 Clock Hours/8 Quarter Credit Hours
Prerequisite: None
The course provides an overview of healthcare systems and the role of healthcare workers. Patient care principles and practices, including ECG monitoring, vital signs, blood collection, aseptic technique, and infection control, will be discussed. Content provides concepts of patient education and considerations for the physical and psychological needs of the patient and their family members. An overview of the healthcare system is provided to outline the structure and functions of various departments within the hospital and outpatient setting. Students will achieve CPR certification.

NM 112 – Introduction to the Science of Nuclear Medicine – 100 Clock Hours/10 Quarter Credit Hours
Prerequisite: None
The course will give the student an overview of nuclear medicine department operations and procedures. Students will explore diagnostic and therapeutic procedures with a focus on clinical indications and radiopharmaceutical selection. Nuclear pharmacy concepts, gamma cameras, positron emission tomography (PET), and hybrid imaging equipment will be introduced. An overview of nuclear medicine clinical research and health informatics will be explored.

NM 121 – Radiation Protection & Biology – 75 Clock Hours/7.5 Quarter Credit Hours
Prerequisite: Completion of quarter I with a "C" or better.
The course provides an overview of the principles of radiation protection. The responsibilities of the technologist for patients, personnel, and the public are discussed. Radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies, and medical organizations are included. Principles of radiation interactions with molecules, cells, tissues, and the body, as well as the factors affecting biological response, are

presented, including acute and chronic effects of radiation. The management of a radiation safety program and regulations will be discussed.

NM 122 – Instrumentation in Nuclear Medicine I – 80 Clock Hours/8 Quarter Credit Hours
Prerequisite: Completion of quarter I with a "C" or better.
The course provides students with principles of non-imaging instrumentation used in nuclear medicine. The course focuses on the function, design, and quality control practices for gas-filled detectors, scintillation detectors, pulse-height analyzers, spectrometers, and counting systems. Nuclear counting statistics will be introduced.

NM 123 – Nuclear Physics – 60 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of quarter II with a "C" or better.
Course provides a knowledge of general nuclear physics, atomic structure, and radiation concepts. Modes of radioactive decay, radionuclide and radiopharmaceutical production, interactions of radiation with matter, and radiation units and quantities are included. Decay factors, half-life, and activity calculations will be performed.

NM 131 – Nuclear Procedures I – 95 Clock Hours/8.5 Quarter Credit Hours
Prerequisite: Completion of quarter II with a "C" or better.
The course includes skeletal, pulmonary, and genitourinary imaging procedures. The course will review anatomy, physiology, and pathology for a variety of body systems and how they are imaged in nuclear medicine. Students will learn the radiopharmaceuticals, medications, mechanism of action, and protocols for each procedure and their contraindications. Image review and case studies are included.

NM 132 – Instrumentation in Nuclear Medicine II – 75 Clock Hours/7.5 Quarter Credit Hours
Prerequisite: Completion of quarter II with a "C" or better.
The course provides students with principles of imaging instrumentation used in nuclear medicine. The course focuses on the function, design, and quality control practices for gamma cameras, positron emission tomography (PET), single photon emission computed tomography (SPECT), and hybrid imaging equipment. Digital imaging, tomography, image reconstruction, processing, and image storage will be discussed.

NM 141 – Nuclear Procedures II – 60 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of quarter III with a "C" or better.
The course includes gastrointestinal, central nervous system, endocrine, and cardiac imaging and non-imaging procedures. The course will review anatomy, physiology, and pathology for a variety of body systems and how they are imaged in nuclear medicine. Students will learn the radiopharmaceuticals, medications, mechanism of action, and protocols for each procedure and their contraindications. Image review and case studies are included.

NM 142 – Nuclear Pharmacy – 60 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of quarter III with a "C" or better.
The course provides an overview of the operations and regulations of the nuclear pharmacy and the radiopharmaceuticals used in nuclear medicine. Radiopharmaceutical topics include the production methods, characteristics, and uses of nuclear medicine. Radiation safety regulations are included. Students will complete a project demonstrating knowledge of nuclear pharmacy operations and practices.

NM 143 – Principles of CT in Nuclear Medicine – 70 Clock Hours/7 Quarter Credit Hours
Prerequisite: Completion of quarter IV with a "C" or better.
The course provides students with principles related to computed tomography (CT) imaging. This course provides an overview of CT equipment, applications, quality control, and injection techniques. Students will learn basic scanning parameters and principles of image quality. Mathematical equations specific to CT are included.

NM 250C – Clinical Practice I – 128 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of quarter IV with a "C" or better.

Clinical experiences are designed to provide patient care and assessment, competent performance of diagnostic and therapeutic nuclear medicine imaging procedures, and total quality management. The concepts of team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Levels of competency ensure the patient's well-being before, during, and following the imaging procedure.

NM 251 – Cross-Sectional Anatomy – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of quarter IV with a "C" or better.
The course provides entry-level nuclear medicine students with principles related to sectional anatomy. Course content will provide an overview of the body's transverse, coronal, oblique, and sagittal sectional anatomy. Anatomical landmarks and normal versus abnormal anatomy and pathological processes will be reviewed. Correlations between 3D, CT, MRI, and PET images are explored.

NM 252 – Principles of PET in Nuclear Medicine – 60 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of quarter IV with a "C" or better.
The course provides students with principles related to positron emission tomography (PET) and PET hybrid imaging techniques in computed tomography (CT) and magnetic resonance imaging (MRI). This course provides instruction in PET radionuclide production, physics, instrumentation, and image fusion. Students will learn the oncologic, neurologic, inflammation/infection, and cardiac applications of PET imaging.

NM 253 – Pharmacology, Drug Administration, and Venipuncture – 54 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of quarter IV with a "C" or better. BLS class completion with current certification.
The course provides basic concepts of pharmacology, venipuncture techniques, and administering diagnostic contrast agents and intravenous medications. Students will recognize patient and scenario-specific risks, medication precautions, and contraindications. Preparation and monitoring techniques for medication administration are emphasized. Students will perform venipuncture on a virtual simulator.

NM 260C – Clinical Practice II – 376 Clock Hours/12.5 Quarter Credit Hours
Prerequisite: Completion of quarter V with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of diagnostic and therapeutic nuclear medicine imaging procedures, and total quality management. The concepts of team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Levels of competency ensure the patient's well-being before, during, and following the imaging procedure.

NM 270C – Clinical Practice III – 352 Clock Hours/11.5 Quarter Credit Hours
Prerequisite: Completion of quarter VI with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of diagnostic and therapeutic nuclear medicine imaging procedures, and total quality management. The concepts of team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Levels of competency ensure the patient's well-being before, during, and following the imaging procedure.

NM 271 – Nuclear Procedures III – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of quarter V with a "C" or better.
The course includes nuclear oncology, infection and inflammation, nuclear medicine therapies, and miscellaneous imaging and non-imaging procedures. The course will review anatomy, physiology, and pathology related to these procedures. Students will learn the radiopharmaceuticals, medications, mechanism of action, and protocols for each procedure and their contraindications. Image review and case studies are included. An overview of image artifacts, normal and altered biodistribution, and normal and abnormal variants, as well as effects of protocol deviations for all nuclear medicine procedures, will be included.

NM 280C – Clinical Practice IV – 376 Clock Hours/12.5 Quarter Credit Hours
Prerequisite: Completion of quarter VII with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of diagnostic and therapeutic nuclear medicine imaging procedures, and total quality management. The concepts of team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Levels of competency ensure the patient's well-being before, during, and following the imaging procedure.

NM 281 – Nuclear Medicine Capstone – 36 Clock Hours/3.5 Quarter Credit Hours
Prerequisite: Completion of quarter VII with a "C" or better.
The course provides preparation for entry into the workforce. A comprehensive review of the program curriculum is included. Students will complete mock registry board exams. Students will be introduced to continuing education programs. Students will complete a capstone project.

Associate of Science in Nursing (ADN) Courses – Blended Program

RN 100 – Fundamentals of Nursing Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 101. Failure in one paired course equals failure in both paired courses.
This course introduces professional nursing. Content includes a brief history of nursing, including the roles and responsibilities of the health care team. The provision of a standard of care consistent with legal, ethical, and regulatory guidelines and ANA Standards of Practice are emphasized.

Verbal communication skills, informatics, evidence-based practice, safety, and developing a patient-centered therapeutic nurse-client relationship are fostered. Students are taught the nursing process and nursing diagnosis to develop a nursing care plan.

RN 101 – Fundamentals of Nursing Clinical and Lab – 157.5 Clock Hours/3.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 100. Failure in one paired course equals failure in both paired courses.
This course integrates concepts, theories, and skills fundamental to nursing practice. Students will use the nursing process to plan and provide for adult patients' cultural, physiological, social, psychological, and spiritual needs with health disruptions.

RN 102 – Health Assessment Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 103. Failure in one paired course equals failure in both paired courses.
This course focuses on strategies to obtain health histories and physical assessment data for diverse populations across the lifespan. Students are instructed to identify normal and abnormal findings using inspection, palpation, percussion, and auscultation. Health risk prevention and the promotion of optimal health behaviors are also addressed.

RN 103 – Health Assessment Skills Lab – 67.5 Clock Hours/1.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 102. Failure in one paired course equals failure in both paired courses.
This course uses health assessment theory to develop the hands-on skills of inspection, palpation, percussion, and auscultation. Laboratory experience includes demonstration, practice, and critique of skill performance.

RN 104 – Fundamentals of Pharmacology – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Students are familiarized with a history of pharmacology, the classification of medications, their actions, application, and nursing considerations. Principles and procedures for the safe administration of medications are

stressed. Basic math and computation of adult and pediatric dosages are included. Actions, interactions, applications, and nursing considerations are addressed.

RN 106 – Pathophysiology – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Pathophysiological changes in acutely ill and chronically ill patients across the lifespan are explored using a systems and inter-systems approach. Identification of pathological changes in assessing patients with major health disruptions; techniques appropriate to patients using a major systems approach; analysis of data and describing intersystem relationships across the life span as a basis for problem-solving in the nursing process. Students are introduced to how genomics offers new possibilities for therapies and treatments for some complex diseases and new diagnostic methods. Basic EKG arrhythmia determination and ABG analysis are included.

RN 180 – Nursing Transition Advanced Placement Theory & Lab Course – 120 Clock Hours/5 Semester Credit Hours
Prerequisite: None
This course introduces students to the roles and responsibilities of the registered nurse and the Associate Degree Nursing Program framework. Emphasis is placed on various roles of the registered nurse, legal and ethical responsibilities, nursing process, critical thinking, and evidence-based practice, delivering competent care to diverse demographics of multicultural clients throughout the lifespan.

Lecture contents include the role of the registered nurse and the care of adult, maternity, and pediatric clients. The lab component of this course focuses on utilizing the nursing process, critical thinking, and applying theory to skills in various patient case scenarios.

The following skills competencies focused on in this course: dosage calculation, assessment, intravenous administrations, central venous access, medication administration, nasogastric feeding, foley catheter insertion, tracheostomy care, and suctioning.

RN 200 – Medical/Surgical I Theory – Introduction to Med/Surg – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 201. Failure in one paired course equals failure in both paired courses.
This course provides basic medical/surgical theory related to endocrine, musculoskeletal, integumentary, and sensory system disorders, perioperative care, and fluid and electrolyte imbalances.

Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes in older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help the development of nursing insight that will enable safe, effective, patient-centered care.

RN 201 – Medical/Surgical I Clinical – Introduction to Med/Surg – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 200. Failure in one paired course equals failure in both paired courses.
This course applies the theoretical content of patient-centered care of patients with medical-surgical conditions. Emphasis is on care planning, assessment, teaching, and clinical interventions to promote healthy outcomes for patients.

RN 202 – Medical/Surgical II Theory – Intermediate Med/Surg – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 203. Failure in one paired course equals failure in both paired courses.
This course provides basic medical/surgical theory related to endocrine, gastrointestinal, genitourinary, and hematology problems in cancer patients and palliative care. Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes in older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help the development of nursing insight that

will enable safe, effective, patient-centered care.

RN 203 – Medical/Surgical II Clinical – Intermediate Med/Surg – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 202. Failure in one paired course equals failure in both paired courses.
This course applies the theoretical content of patient-centered care of patients with medical-surgical conditions. Emphasis is on care planning, assessment, teaching, and clinical interventions to promote healthy outcomes for patients.

RN 300 – Maternal Newborn Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 301. Failure in one paired course equals failure in both paired courses.
The course covers comprehensive maternal and newborn care, beginning with preconception planning and including risks in pregnancy and postpartum, maternal and newborn complications, male and female reproductive problems and needs, and family needs and problems during the maternity cycle. Concepts of nutrition, cultural variations, and the safety of mothers and newborns are integrated. Therapeutic use of drugs during pregnancy, labor, and delivery, and the immediate postpartum period are included.

RN 301 – Maternal Newborn Clinical – 67.5 Clock Hours/1.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 300. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, applying the theoretical content of patient-centered care of mothers and newborns. The emphasis is on assessment, teaching, and clinical interventions to promote healthy outcomes for families.

RN 302 – Care of Children Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 303. Failure in one paired course equals failure in both paired courses.
This course covers in-depth identification of various diseases affecting the child through young adulthood, including physical and developmental maturation. Cultural variations and family interactions are explored. Disease prevention, health maintenance, and appropriate therapeutic interventions such as pharmacologic agents and nutrition are included.

RN 303 – Care of Children Clinical – 67.5 Clock Hours/1.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 302. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, applying the theoretical content into practice with attention to patient-centered, quality care. Interaction with family members facilitates the student's ability to recognize family dynamics and their effects on the developmental process. Advanced skills necessary to care for pediatric patients are achieved through simulation. The application of the nursing process to optimize patient and family outcomes is emphasized.

RN 304 – Medical/Surgical III Theory – Advanced Med/Surg – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 305. Failure in one paired course equals failure in both paired courses.
This course provides basic medical/surgical theory related to respiratory, cardiac, neurologic, and musculoskeletal disorders. Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes in older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help the development of nursing insight that will enable safe, effective, patient-centered care.

RN 305 – Medical/Surgical III Clinical – Advanced Med/Surg – 90 Clock Hours/2 Semester Credit Hours

Prerequisite: None
Corequisite: This course is paired with RN 304. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, integrating the practical application of advanced medical/surgical theory to care for selected patients with multiple health disruptions. Students apply the nursing process to optimize patient outcomes.

RN 400 – Mental Health Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 401. Failure in one paired course equals failure in both paired courses.
This course addresses theories and principles of psychiatric nursing. Biopsychosocial foundations of behavior, communication, and psychopharmacology are emphasized. Patient relationships and the use of effective and ineffective communication are addressed. The course studies the nurse's role in the prevention and early identification of psychiatric disorders in children, adolescents, adults, and older adults and the treatment modalities of mental illness and organic brain syndromes.

RN 401 – Mental Health Clinical – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 400. Failure in one paired course equals failure in both paired courses.
This course is taught at clinical sites, applying theory into clinical practice in the care of selected patients who may experience psychological stress, neurobiological disorders, and high-risk situations such as homelessness, family violence, child abuse, HIV, and post-traumatic stress syndrome. Students apply the nursing process to optimize patient outcomes.

RN 402 – Medical/Surgical IV Theory – Complex Med/Surg & Leadership – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 403. Failure in one paired course equals failure in both paired courses.
This course incorporates previous medical-surgical nursing theory emphasizing the integration of pathophysiology, nutrition, pharmacology, and psychosocial components of safe and individualized care for patients with complex medical-surgical health disruptions. Focus on holistic care for burns, heart failure, acute respiratory distress, shock, multiple organ dysfunction, and traumatic brain injury. Leadership and management in nursing are explored as they relate to managing complex medical-surgical health alterations.

RN 403 – Medical/Surgical IV Clinical – Complex Med/Surg & Leadership – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 402. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, integrating the practical application of advanced medical/surgical theory to care for selected patients with multiple health disruptions. Students apply the nursing process to optimize patient outcomes.

Associate of Science in Occupational Therapy Assistant (A.S. in OTA) Courses – Blended Program
OTA 100 – Principles of Occupational Therapy – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of quarter I with a "C" or better.
This course examines the development of occupational therapy as a profession. Occupational therapy will be investigated from the perspective of its historical and cultural context, including philosophy and social movements, political and economic influences, and the rise of American medicine.

The course will illustrate how the areas and methods of occupational therapy training/education and practice have changed over time. Occupational therapy conceptual models and frames of reference will be examined and practiced.

Emphasis will be placed on the use of the OTPF 4 and its relationship with the ICF. Occupational science origins, development, and impact on occupational therapy daily practice, will be addressed.

OTA 200 – Therapeutic Use of Occupations – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of quarters I and II with a "C" or better.
This course explores the use of activity analysis and the various occupations or activities used as therapeutic interventions in occupational therapy. The course emphasizes awareness of activity demands, contexts, adapting, grading, and safe implementation of occupations or activities. The student will apply an understanding of the OTPF4 through the identification and analysis of a variety of occupations or activities designed to enhance occupational performance specific to infants through adolescent populations. The learner will also analyze and discuss many of the theoretical perspectives commonly used in occupational therapy practice with a focus on occupation-based models and their implementation in individuals and groups. The overarching theme of the course is the importance of occupation in the promotion of health and the prevention of disease and disability.

OTA 210 – Neurosciences for the Occupational Therapy Assistant – 30 Clock Hours/2 Quarter Credit Hours
Prerequisite: Completion of quarters I and II with a "C" or better.
This course introduces students to basic knowledge and current advances in neuroscience, including the basics of neuroanatomy and neurophysiology. Students gain an understanding and appreciation of the relevance of neuroscience to occupational therapy practice and an understanding of the Body Systems and Body Functions that contribute to human occupational performance. Emphasis is placed on neuroplasticity and the neurological basis for intervention techniques used in our practice for clients with the most common neurological conditions treated by occupational therapy. The positive and negative effects of medications on rehabilitation will also be discussed.

OTA 220 – Health Care Management in Occupational Therapy – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of quarters I and II with a "C" or better.
Delineate the roles of the occupational therapy personnel; demonstrate legal and documentation skills; give examples of reimbursement systems; articulate the requirements for certification and licensure; explain quality assurance; apply ethical standards in practice; summarize the roles of the healthcare team and differentiate levels of supervision.

This course discusses pathophysiological changes in acutely ill and chronically ill patients across their lifespans using a system and inter-systems approach.

The course covers identifying pathological changes in assessing patients with major health disruptions, techniques appropriate to patients using a major systems approach, analysis of data, and description of intersystem relationships across the life span as a basis for problem-solving the nursing process.

Basic EKG, arrhythmia determination, and ABG analysis are included.

OTA 230 – Occupational Performance in Mental Health: Role of the Occupational Therapy Assistant – 75 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of quarters I and II with a "C" or better.
The overall purpose of this course is to prepare the student to provide occupation-based interventions that address the psychosocial needs of clients across the lifespan. The most common mental health disorders, how they impact occupation and evidence-based interventions will be studied. Students will develop an understanding of safety, group dynamics, phases of group development, group roles, conflict resolution, problem-solving, and therapeutic groups. Students will learn and practice individual and group interventions across the lifespan.

OTA 240 – Fieldwork Level I: Occupational Performance in Mental Health – Role of the Occupational Therapy Assistant – 40 Clock Hours/1 Quarter Credit Hour

Prerequisite: Completion of quarters I and II.
Fieldwork education is a crucial part of professional preparation and is best integrated as a component of the curriculum design. The fieldwork experience is designed to promote professional reasoning and reflective practice, transmit the values and beliefs that enable ethical practice, and develop professionalism and competence in career responsibilities.

The experience should provide the student with the opportunity to carry out professional responsibilities under the supervision of qualified personnel serving as a role model. (2023 ACOTE Standard C.1.0. Fieldwork Education).

Through Level I Fieldwork experiences, the student will be introduced to clinical practice for individuals with mental health conditions and dysregulated behaviors that limit or affect engagement in occupations. As a participant observer, the student will integrate academic experiences with the Occupational Therapy (OT) process in settings serving clients with a variety of psychosocial challenges and degrees of disability.

OTA 300 – Business Development and Leadership for the Occupational Therapy Professional – 55 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, and III with a "C" or better.
This course is designed to develop and improve the leadership skills each person possesses. Areas from goal setting to team building to personal relations to problem-solving will be covered. Learn what leadership is all about by learning about your own leadership style, developing goal-setting skills, communication skills, decision-making skills, teamwork, and much more.

You will develop your leadership skills further by studying time and stress management, parliamentary procedure, peer pressure, self-confidence, assertiveness, and a positive attitude. This course will have as a final product a small business plan created by students.

OTA 310 – Human Structure and Function for the Occupational Therapy Assistant – 30 Clock Hours/2 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, and III with a "C" or better.
This course provides students with an introduction to human movement and the biomechanics of the human body. Emphasis on the musculoskeletal system, including skeletal structures, muscles, and nerves, and biomechanical assessment procedures will be studied. This course will provide a fundamental understanding of the human structure and function in order to assess normal motion and its underlying client factors for thorough activity analysis of desired occupations.

OTA 320 – Occupational Performance from Birth to Adolescence – Role of the Occupational Therapy Assistant – 75 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, and III with a "C" or better.
Throughout this course, students have the opportunity to explore the occupational performance of children and adolescents with typical and non-typical development. This course also presents the theoretical foundations, conceptual models, and frames of reference of occupational therapy in pediatric practice, with its focus on family-centered practice as it relates to treatment objectives and implementation.

Conditions and issues related to various settings in pediatric practice are discussed; documentation concepts, including but not limited to daily notes and educational materials, are discussed and practiced. Hands-on opportunities during laboratories to practice treatment techniques and equipment are included.

Typical and atypical development are discussed within the context of community, family, and school environments. Students explore occupational therapy processes with children and youth while learning evidence-based, occupational-based, and family-centered practice, as well as clinical guidelines and clinical reasoning skills.

OTA 330 – Fieldwork Level I: Occupational Performance from Birth to Adolescence – Role of the Occupational Therapy Assistant – 40 Clock Hours/1 Quarter Credit Hour

Prerequisite: Completion of quarters I, II, and III with a "C" or better.

Fieldwork education is a crucial part of professional preparation and is best integrated as a component of the curriculum design. The fieldwork experience is designed to promote professional reasoning and reflective practice, transmit the values and beliefs that enable ethical practice, and develop professionalism and competence in career responsibilities. The experience should provide the student with the opportunity to carry out professional responsibilities under the supervision of qualified personnel serving as a role model. *(2023 ACOTE Standard C.1.0. Fieldwork Education)*

Through Level I Fieldwork experiences, the student will be introduced to clinical practice for infants, children, and adolescents displaying normal development and comparisons with those in the pediatric and/or adolescent population with developmental conditions that limit or affect engagement in occupations. As a participant observer, the student will integrate academic experiences with the Occupational Therapy (OT) process in settings serving infant, child, and adolescent clients with a variety of occupational challenges and degrees of disability.

OTA 400 – Occupational Performance for Adults and the Elderly – Role of the Occupational Therapy Assistant – 75 Clock Hours/6 Quarter Credit Hours

Prerequisite: Completion of quarters I, II, III, and IV with a "C" or better.

This course will introduce students to the occupational therapy process for younger and older adults with physical dysfunction who experience difficulties with everyday occupations. Students will be prepared to deliver care in physical rehabilitation to these populations with different conditions in various current practice settings [e.g., hospital (acute, sub-acute), community (outpatient, home, and long-term care)], and service delivery models.

Students will learn relevant evidence-supported theoretical perspectives, models and frames of reference, evidence-based practice literature, and clinical guidelines in physical rehabilitation. This practice course will help students with client-centered, evidence-based, and ethical decision-making in rehabilitation.

OTA 410 – Fieldwork Level I: Occupational Performance for Adults and the Elderly – Role of the Occupational Therapy Assistant – 40 Clock Hours/1 Quarter Credit Hour

Prerequisite: Completion of quarters I, II, III, and IV with a "C" or better.

Fieldwork education is a crucial part of professional preparation and is best integrated as a component of the curriculum design. The fieldwork experience is designed to promote professional reasoning and reflective practice, transmit the values and beliefs that enable ethical practice, and develop professionalism and competence in career responsibilities.

The experience should provide the student with the opportunity to carry out professional responsibilities under the supervision of qualified personnel serving as a role model. (2023 ACOTE Standard C.1.0. Fieldwork Education)

Through Level I Fieldwork experiences, the student will be introduced to clinical practice for adults and older adults with physical dysfunctions that limit or affect engagement in occupations. As a participant observer, the student will integrate academic experiences with the Occupational Therapy (OT) process in settings serving adult and older adult individuals with physical dysfunction in a variety of occupational challenges and degrees of disability.

OTA 420 – Occupational Performance for the Well Elder – Role of the Occupational Therapy Assistant – 60 Clock Hours/4.5 Quarter Credit Hours

Prerequisite: Completion of quarters I, II, III, and IV with a "C" or better.

Students will draw on experience and knowledge gained throughout the curriculum and will explore the role of occupational therapy while providing services to the well elderly, especially in influencing and maintaining the

health, well-being, and quality of life of those who experience age-related changes and/or manage chronic disease conditions.

We will address the occupational therapy evaluation done by the OTR and the OTA therapeutic interventions used with his population. Students will examine topics within public health and epidemiology and expand their knowledge of the occupational therapist's capacity to prevent disability and activity limitations and to promote health, participation, and social inclusion.

Policies that impact this demographic group will also be analyzed for their contribution to health and participation inequities. Implementation in individuals and groups. The overarching theme of the course is the importance of occupation in the promotion of health and the prevention of disease and disability.

OTA 430 – Fieldwork Level I: Occupational Performance for the Well Elder – Role of the Occupational Therapy Assistant – 40 Clock Hours/1 Quarter Credit Hour
Prerequisite: Completion of quarters I, II, III, and IV with a "C" or better.
Fieldwork education is a crucial part of professional preparation and is best integrated as a component of the curriculum design. The fieldwork experience is designed to promote professional reasoning and reflective practice, transmit the values and beliefs that enable ethical practice, and develop professionalism and competence in career responsibilities. The experience should provide the student with the opportunity to carry out professional responsibilities under the supervision of qualified personnel serving as a role model. (2023 ACOTE Standard C.1.0. Fieldwork Education)

Through Level I Fieldwork experiences, the student will be introduced to occupational therapy practice for elderly individuals to promote health and wellness, prevent or minimize the effects of acute and chronic diseases, and maximize independence in daily activities. As a participant observer, the student will integrate academic experiences with the Occupational Therapy (OT) process in a geriatric setting.

OTA 500 – Emerging Practices and Specialties for the Occupational Therapy Professional – 40 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, III, IV, and V with a "C" or better.
This course will introduce students to the occupational therapy-wide variety of clinical and non-clinical practice specialties and certifications in occupational therapy, as well as the exploration of emerging clinical and non-clinical practices potentially available in the future of our profession. We will emphasize the basic premises of our profession: occupational-centered, evidence-based, and client-centered as the common denominator for emerging practices. During the course, students will explore and reflect on how emerging occupational therapy practices in different settings can/could meet the needs of individuals, groups, and communities as well as maintain their well-being.

OTA 510 – Fieldwork Level IIA: Pediatrics and Adolescent – 320 Clock Hours/10.5 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, III, IV, and V with a "C" or better.
The goal of Level II fieldwork is to develop competent, entry-level generalist occupational therapy assistants. Level II fieldwork is an integral part of the program's curriculum design, which includes in-depth experience in delivering occupational therapy services to clients, focusing on the application of purposeful and meaningful occupation. It is recommended that the student be exposed to a variety of clients across their lifespan and in a variety of settings. (2023 ACOTE Standard C.1.0. Fieldwork Education)

This course is the first fieldwork level II rotation, which concentrates on the application of knowledge and skills for the Occupational Therapy Assistant student. In conjunction with 2023 ACOTE Standard C.1.0. Fieldwork Education, the student will complete 8 weeks of full-time supervised fieldwork in a setting uniquely different from OTA 600, Fieldwork Level IIB. The student will work with individuals towards the early portion of the lifespan, pediatrics, and/or adolescent clients/patients with physical dysfunction and/or psychosocial issues.

OTA 600 – Fieldwork Level IIB: Adults and Older Adults – 320 Clock Hours/10.5 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, III, IV, V, and VI with a "C" or better.
The goal of Level II fieldwork is to develop competent, entry-level generalist occupational therapy assistants. Level II fieldwork is an integral part of the program's curriculum design, which includes in-depth experience in delivering occupational therapy services to clients, focusing on the application of purposeful and meaningful occupation. It is recommended that the student be exposed to a variety of clients across their lifespan and in a variety of settings. (2023 ACOTE Standard C.1.0. Fieldwork Education)

This course is the second fieldwork level II rotation, which concentrates on the application of knowledge and skills for the Occupational Therapy Assistant student. In conjunction with 2023 ACOTE Standard C.1.0. Fieldwork Education, the student will complete 8 weeks of full-time supervised fieldwork in a setting uniquely different from OTA 510, Fieldwork Level IIA.

The student will work with individuals towards the middle and latter half of their lifespan, adult and/or older adult clients/patients with physical dysfunction and/or psychosocial issues.

OTA 610 – Occupational Therapy Assistant Preparation for the National Certification Exam – 20 Clock Hours/2 Quarter Credit Hours
Prerequisite: Completion of quarters I, II, III, IV, V, and VI with a "C" or better.
The course will prepare students to take the National Board Certification of Occupational Therapy (NBCOT) exam. The student will learn test-taking strategies, apply clinical and didactic knowledge to case study exam questions, and take practice exams.

<u>Associate of Science in Physical Therapist Assistant (A.S. in PTA) Courses – Blended Program</u>

PTA 100 – Introduction to Physical Therapist Assistant – 22 Clock Hours/2 Quarter Credit Hours
Prerequisite: None
This course introduces the Physical Therapist Assistant's role and scope of practice. Emphasis will be placed on educational preparation, a historical overview of physical therapy in the healthcare system, professional affiliations, the structure and function of physical therapy services, ethical and legal issues in healthcare, documentation, and communication. This course also includes an introduction to a self-study program in medical terminology and HIPAA regulations training.

PTA 110 – Fundamental PTA procedures with lab – 77 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course begins with patient handling skills and the continuation of documentation. Students practice and develop skills in gathering data for documentation necessary for assessing patient response to physical therapy while under the direction and supervision of a physical therapist. Students will acquire skills in data collection, tests and measurements, patient handling, assistive devices, guarding, transfers, and range of motion.

PTA 120 – Clinical Kinesiology with lab – 77 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course provides knowledge of the principles of mechanics and musculoskeletal anatomy and how they relate to human motion and the field of physical therapy. The concepts of locomotion, forces, and levers are introduced. Topics include muscle origins, insertions, and actions.

Laboratory experiences correlate to the lectures and include manual muscle testing and goniometry. Students will be expected to achieve competency on a given list of skills. Part 1 covers the lower extremity. Part II covers the upper extremity. This course is aligned by a body system with PTA 220.

PTA 130 – Pathology – 44 Clock Hours/4 Quarter Credit Hours
Prerequisite: None

This course provides knowledge of disease processes, systemic disorders, guidelines, precautions, and contraindications for physical therapy interventions.

PTA 210 – Procedures II with lab – 66 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Term 1 with "C" or better.
This course introduces the use and application of physical agents, soft tissue interventions, and electrotherapies in physical therapy. The practice of treatment techniques is emphasized through laboratory time. Students will be expected to achieve competency on a given list of skills.

PTA 220 – Orthopedic Management – 66 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Term 1 with "C" or better.
This course prepares the PTA student to address orthopedic-related conditions commonly seen in Physical Therapy. Basic exercise principles and their application are covered with laboratory discussion, demonstration, and practice. Students will be expected to achieve competency on a given list of skills. Part 1 covers the lower extremity, and Part II covers the upper extremity. This course is aligned by a body system with PTA 120.

PTA 222 – Patient Care Skills I – 22 Clock Hours/1 Quarter Credit Hour
Prerequisite: Completion of Term 1 with "C" or better.
This lab course emphasizes the practical combination of patient pathologies covered in concurrent and previous courses. Students develop interventions from case scenarios and plans of care. Group participation and student-to-student assistance fostering communication and independence are encouraged to prepare for the coming clinical experience. Students develop clinical problem-solving skills in orthopedic conditions, modalities, patient handling, therapeutic exercise, and other pathologies presented. Students will be expected to achieve competency on a given list of skills.

PTA 225 – Clinical Education I – 184 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of Term 2 didactic coursework with a "C" or better.
This is the first integrated clinical experience allowing students to further their exposure to physical therapy practice in the clinical environment and apply those skills that the student has tested proficient in before the clinical experience and that the Clinical Instructor deems appropriate. Students will be at the clinical facility full-time for four (4) weeks and three (3) days.

PTA 226 – Clinical Education I Seminar – 11 Clock Hours/1 Quarter Credit Hour
Prerequisite: Completion of PTA 225 with "Pass."
This course includes case study presentations and reviews the first full-time clinical experience, including billing, reimbursement, and discharge planning.

PTA 230 – Professional Behaviors – 33 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of Term 1 with "C" or better.
This course introduces the concept of a multicultural society and how it plays an increased role in the physical therapy clinic. Topics include communication skills, the psychology of disability, health disparities between populations, age differences, ethics and values, and professional development within the healthcare system.

PTA 233 – Patient Care Skills II – 22 Clock Hours/1 Quarter Credit Hour
Prerequisite: Completion of PTA 226 with "C" or better.
This lab course addresses the more complex patient. Case scenarios are used for students to develop skills in applying interventions following the Plan of Care of the supervising physical therapist. Concentration is on the progression and regression of exercises responding to patient performance.

Case studies will demonstrate the PT/PTA relationship and the PTA's responsibility for the Plan of Care. Group participation and student-to-student assistance fostering communication and independence are encouraged to prepare for the coming clinical experience.

PTA 235 – Clinical Education II – 240 Clock Hours/8 Quarter Credit Hours
Prerequisite: Completion of Term 3 didactic coursework with a "C" or better.
This is the second integrated clinical experience designed to allow the student to further their exposure to physical therapy practice in the clinical environment and apply those skills that the student has tested proficient in before the clinical experience and that the Clinical Instructor deems appropriate. Students will be at the clinical facility full-time for six (6) weeks.

PTA 240 – Applied Neurology – 66 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of PTA 226 with "C" or better.
This course builds on neurologically based disabilities commonly seen in physical therapy practice across the lifespan. Common therapeutic interventions for rehabilitation are practiced. The chronic nature of neurologic conditions and their effect on the individual's life will be addressed as they affect the provision of physical therapy. Students will be expected to achieve competency on a given list of skills.

PTA 245 – Clinical Education III – 280 Clock Hours/9 Quarter Credit Hours
Prerequisite: Completion of PTA 280 with "Pass."
This is the third and terminal clinical experience designed to allow the student to further their exposure to physical therapy practice in the clinical environment and apply those skills that the student has tested proficient in before the clinical experience and that the Clinical Instructor deems appropriate. Students will be at the clinical facility full-time for seven (7) weeks.

PTA 250 – Physical Therapy Aspects of Growth, Development, and Aging – 44 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of PTA 226 with "C" or better.
This course covers relevant topics and interventions that deal with delivering physical therapy services across the lifespan, including the aging population as a normal process and the common pathologies associated with aging. Emphasis is placed on Cardiovascular and Respiratory conditions, fall prevention, and wound care.

PTA 260 – Selected Topics – 44 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of PTA 226 with "C" or better.
This course consists of selected topics in physical therapy to complement prior coursework—required content in Prosthetics and genitourinary conditions. Additional clinical topics may include vestibular, chronic pain, taping, ergonomics, and other contemporary issues encountered in physical therapy delivery systems.

PTA 280 – Senior Seminar – 33 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of PTA 235 with "Pass."
This course brings the PTA student's educational and clinical experience full circle. Each student will demonstrate the PTA as an educator by presenting a teaching unit related to an area of interest to prepare for the in-service required during the final clinical experience. Students will explore the effective delivery of physical therapy services. Psychomotor, cognitive, affective, treatment approaches, communication, and documentation will be discussed regarding patient care.

Additional topics pertinent to an entry-level PTA will be presented. These include employment issues, continued professional development, licensure application process, exam preparation strategies, and California PT Practice Acts and Rules and Regulations review.

PTA 290 – Licensure Exam Preparation – 22 Clock Hours/2 Quarter Credit Hours
Prerequisite: Completion of PTA 245 with "Pass."
This course reviews information and testing that will aid the student in preparing to take the NPTE for licensure as a PTA in California. A 16-hour workshop is facilitated by an outside educational company specializing in PTA exam preparation.

Associate of Science in Radiologic Technology (A.S. in RT) Courses – Blended Program

RT 110C – Clinical Practice I – 128 Clock Hours/4 Quarter Credit Hours
Prerequisite: None
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 111 – Radiologic Patient Care – 42 Clock Hours/4 Quarter Credit Hours
Prerequisite: None
This course introduces students to basic imaging principles and patient care. Students review medical ethics, pediatrics, and geriatrics patient care. The duties and responsibilities of working in Radiology are also presented, emphasizing communication and relationships. A review of infection control and standard and transmission-based precautions is covered.

RT 112 – Radiation Physics and Exposure – 58 Clock Hours/5 Quarter Credit Hours
Prerequisite: None
The course is designed to teach the nature and characteristics of radiation, x-ray production, and the fundamentals of photon interactions with matter. Content provides basic information about the intensity of the X-ray beam and how technical factors influence it.

RT 113 – Radiographic Procedures I – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course provides the knowledge base to perform standard imaging. Emphasis is placed on basic thoracic viscera, bony thorax, upper limb, and shoulder girdle imaging. Consideration will be given to the production of images of optimal diagnostic quality.

Course methods will incorporate lectures, demonstrations, image analyses, positioning lab practicum, and self-paced study using multimedia programs. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

RT 113L – Radiographic Procedures I Lab – 30 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
The course provides the knowledge to perform standard imaging of the respiratory system, bony thorax, and upper extremities. Consideration will be given to the production of images of optimal diagnostic quality.

Course methods will incorporate demonstrations, image analyses, and positioning lab practicum. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

RT 120C – Clinical Practice II – 168 Clock Hours/5.5 Quarter Credits
Prerequisite: Completion of Quarter I with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 121 – Radiation Protection and Biology – 50 Clock Hours/5 Quarter Credit Hours
Prerequisite: Completion of Quarter I with a "C" or better.

The course provides a basic understanding of the principles of Radiobiology and radiation's short-term and long-term effects. This course discusses the effects of radiation at the molecular and cellular levels. In addition, this course provides a better understanding of radiation protection for patients and occupational workers in the healthcare field.

This course describes dose management implementations and the design for radiation protection within radiology. The principles of radiation and dose limits are described to promote safe practices.

RT 122 – Digital Imaging – 52 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I with a "C" or better.
The course provides a basic understanding of diagnostic radiology's components, principles, and operation of digital imaging systems. Digital Processing, imaging capture, and technical considerations in digital imaging are discussed. Technical factors affecting radiographic quality are outlined and described for proper image analysis. In addition, this course introduces medical informatics and quality management.

RT 123 – Radiographic Procedures II – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I with a "C" or better.
The course provides the knowledge base necessary to perform standard imaging. Emphasis is on basic imaging of the lower extremities, pelvis, hip, and vertebral column. Consideration will be given to the production of images of optimal diagnostic quality.

Course methods will incorporate lectures, demonstrations, image analyses, positioning lab practicum, and self-paced study using multimedia programs. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

RT 123L – Radiographic Procedures II Lab – 30 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Quarter I with a "C" or better.
The course provides a knowledge base for standard bony pelvis, lower extremities, and vertebral column radiographic procedures. Consideration will be given to the production of images of optimal diagnostic quality. Course methods will incorporate demonstrations, image analyses, and positioning lab practicum. Students will be required to demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under the direct supervision of the patient.

RT 130C – Clinical Practice II – 176 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: Completion of Quarter II with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 131 – Radiographic Physics II and Fluoroscopy – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter II with a "C" or better.
The course provides basic information about electricity, magnetism, and electromagnetism and applies these principles to the X-ray circuit. In addition, it provides a knowledge base in radiographic, fluoroscopic, and mobile equipment requirements, function, and design. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects. A minimum of 25 hours of out-of-class work will be assigned.

RT 132 – Ethics and Law in Radiography – 24 Clock Hours/2 Quarter Credit Hours
Prerequisite: Completion of Quarter II with a "C" or better.

The course provides a fundamental background in medical law, ethics, and human diversity. The historical and philosophical basis of ethics and the elements of ethical behavior will be discussed. The student will examine various ethical issues and dilemmas found in clinical practice.

Course activities will include research and analysis on case studies germane to medical imaging. An introduction to legal terminology, concepts, and principles will also be presented. Topics include misconduct, malpractice, legal, and the ASRT professional standards.

RT 133 – Radiographic Procedures III – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter II with a "C" or better.
Content is designed to provide the knowledge base necessary to perform standard imaging. Emphasis is on basic imaging of the Abdomen, Soft-Tissue Neck, Digestive System, and Urinary System. Consideration will be given to the production of images of optimal diagnostic quality.

Course methods will incorporate lectures, demonstrations, image analyses, positioning lab practicum, and self-paced study using multimedia programs. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under supervision in the patient care setting.

RT 133L – Radiographic Procedures III Lab – 33 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Quarter II with a "C" or better.
The course provides a knowledge base necessary to perform standard radiographic procedures of the abdomen. Students will also review the biliary system, genitourinary system, and gastrointestinal tract, and procedures will be done using fluoroscopy and endoscopy. Consideration will be given to the production of images of optimal diagnostic quality.

Course methods will incorporate demonstrations, image analyses, and positioning lab practicum. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

RT 140C – Clinical Practice IV – 192 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of Quarter III with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 142 – Radiographic Pathology – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter III with a "C" or better.
The course provides theories of disease causation and the pathophysiological disorders that compromise healthy systems. Etiology, pathophysiological responses, clinical manifestations, radiographic appearance, and management of alterations in body systems will be presented. Students will be required to write a research paper on medical imaging. They will be encouraged to submit it for consideration in the annual student competition held by the American Society of Radiologic Technologists.

RT 143 – Radiographic Procedures IV – 45 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter III with a "C" or better.
This course provides the knowledge base necessary to perform standard imaging. The emphasis is on basic imaging of the Cranium, Trauma Radiography, Mobile Radiography, and Surgical Radiography. Consideration will be given to the production of images of optimal diagnostic quality. Course methods will incorporate lectures, demonstrations, image analyses, positioning lab practicum, and self-paced study using multimedia programs.

Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

RT 143L – Radiographic Procedures IV Lab – 33 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Quarter III with a "C" or better.
The course provides information necessary to perform radiographic procedures of the cranium and facial bones, including sinuses, zygomatic arches, TMJs, orbits, and mandibles. Students will also demonstrate special techniques for trauma cases and mobile radiography. Consideration will be given to the production of images of optimal diagnostic quality.

Course methods will incorporate demonstrations, image analyses, and positioning lab practicum. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

RT 250C – Clinical Practice V – 280 Clock Hours/9 Quarter Credit Hours
Prerequisite: Completion of Quarter IV with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 251 – Radiographic Pharmacology and Venipuncture – 36 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of Quarter IV with a "C" or better.
The course provides basic concepts of pharmacology, techniques of venipuncture, and the administration of diagnostic contrast agents and intravenous medications. The appropriate delivery of patient care during these procedures is emphasized. Students will perform venipuncture on IV training arms and fellow students.

RT 252 – Cross-Sectional Anatomy – 40 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Module V with a "C" or better.
The course provides radiography students with principles related to sectional anatomy. This course overviews the human body's transverse, coronal, and sagittal sectional anatomy. Correlations between CT, MRI, and ultrasound are explored.

RT 260C – Clinical Practice VI – 240 Clock Hours/8 Quarter Credit Hours
Prerequisite: Completion of Quarter V with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 261 – Advanced Digital Imaging – 30 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of Quarter V with a "C" or better.
The course explains the components, principles, and operation of digital imaging systems found in diagnostic radiology. Factors that impact image acquisition, display, archiving, and retrieval are discussed.

Guidelines for selecting exposure factors and evaluating images within a digital system assist students in connecting film-based and digital imaging systems. Principles of digital system quality assurance and maintenance are presented.

RT 262 – Radiographic Advanced Procedures – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter V with a "C" or better.

This course provides entry-level radiography students with principles related to contrast arthrography, pediatric and geriatric, mammography, bone densitometry, computed tomography, magnetic resonance imaging, vascular, cardiac, and interventional radiography. The course also introduces diagnostic medical sonography, nuclear and molecular imaging, and radiation oncology principles.

RT 270C – Clinical Practice VII – 264 Clock Hours/8.5 Quarter Credit Hours
Prerequisite: Completion of Quarter VI with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 271 – Patient Care and Procedures Seminar – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter VI with a "C" or better.
The course reviews patient care and procedures to prepare students for the ARRT® radiographer primary certification and State of California Department of Public Health, Radiologic Health Branch certification examinations. This course will review patient care topics such as sterile technique, medical-legal, imaging procedures, and image analysis.

RT 272 – Computed Tomography – 40 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Quarter V with a "C" or better.
The course provides radiography students with computed tomography (CT) imaging principles. Special emphasis is placed on studying the head, brain, thorax, abdomen, pelvis, shoulder, elbow, hip, and knee. Correlations between cadaver cross-sections, CTs, MRIs, and radiographs are explored. *CT Basics: The Series by ASRT utilized with the course satisfies the ARRT® 16-credit Structured Education Requirements for CT.*

RT 273 – Mammography – 40 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Quarter V with a "C" or better.
The course provides radiography students with the principles related to mammography. Topics include patient care, anatomy and physiology of the breast, positioning for routine and diagnostic exams, pathology, mammography equipment, quality control, and quality assurance for digital imaging systems.

RT 274 – Advanced Radiation Protection – 50 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Quarter VI with a "C" or better.
The course provides an overview of the principles of radiation protection, the responsibilities of the radiographer for patients, personnel, and the public, and the radiation health and safety requirements of federal and state regulatory agencies, accreditation agencies, and medical organizations. An overview of the principles of interaction of radiation with molecules, cells, tissues, and the body as a whole and the factors affecting biological response are presented, including acute and chronic effects of radiation.

RT 280C –Clinical Practice VIII – 280 Clock Hours/9 Quarter Credit Hours
Prerequisite: Completion of Quarter VII with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of radiologic imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical assignments. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

RT 281 – Image Production and Safety Seminar – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Quarter VII with a "C" or better.
The course reviews the radiologic technology curriculum and prepares students for the ARRT® radiographer's primary certification and State of California Department of Public Health, Radiologic Health Branch fluoroscopy certification requirements. This course will focus on image production and radiation safety.

RT 282 – Professional Development and Advancement – 18 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Quarter VII with a "C" or better.
The course prepares students for the post-education transition into the workforce. The course guides students in developing documents that include resume writing skills, developing and practicing effective interviewing skills, and techniques for job search strategies. Students will prepare and apply for the ARRT® and California Department of Public Health registries to obtain certification as a radiographer.

B.S. in Diagnostic Medical Imaging (B.S. in DMI) Courses – Distance Education (Online) Program

DMI 330 – Advanced Radiobiology – 60 Clock Hours/4 Semester Credit Hours
Prerequisite: None
This course will provide the radiologic science professional with theories and principles of the interaction of ionizing radiation with living systems. Radiation effects on biological molecules & organisms and factors affecting biological response are explored. Acute and long-term effects of ionizing radiation exposure are discussed. Applications in diagnostic and therapeutic settings are presented.

DMI 340 – Quality Control in Diagnostic Imaging – 60 Clock Hours/4 Semester Credit Hours
Prerequisite: None
Training and managing image quality and patient dose will be presented on film screens and digital radiology systems. This course will introduce new regulations and discuss new challenges for practitioners. Radiographers will learn to integrate and maintain the department's imaging capability and radiation dose management. Quality control will be discussed in-depth, including procedures and protocols, visualization, transmission, and archiving of the images.

DMI 360 – Health Science Management – 60 Clock Hours/4 Semester Credit Hours
Prerequisite: None
This course provides entry-level managers with various tools and theories from which to choose. A marked focus is offered on the evaluation and resolution of personnel issues. An emphasis is placed on the ultimate responsibility of supervisors and managers for the performance of their staff. The text provides information and guidance to obtain maximum results from others. Getting things done through people is a key component of this text.

DMI 370 – Professional Capstone Portfolio Project – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This is an independent study project where students will prepare a professional E-portfolio. This portfolio is to be worked on by the BS DMI students throughout the program, starting from their first semester until completion of the BS DMI program. It comprises many individual projects and documents preparing the student for professional practice as an imaging professional with a Bachelor of Science in Diagnostic Medical Imaging.

DMI 410 – Leadership and Performance – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Leadership and performance are dynamic explorations of the Universal Laws of Performance and how to apply them personally or to any organization. These laws are used by notable businesses worldwide to open doors to discover and create cultures within a company that will alter the course of any organization. This course guides you in discovering the universal laws and how to apply them using case studies of three (3) organizations.

DMI 420 – Operations and Human Resource Management in Diagnostic Imaging – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course focuses on various issues, including applying Operations Management techniques in radiologic and diagnostic imaging. We will identify protocols, policies, procedures, marketing services, customer management,

and satisfaction methods. This course will provide the student with the foundation necessary to address the day-to-day issues an imaging administrator will experience. This course will foster the student's goal of achieving their Certified Radiology Administrator Certification (CRA).

DMI 430 – Financial and Asset Management in Radiology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course will represent a cross-section of today's imaging profession and give students insight and knowledge of the financial and asset management system in Radiology and its processes. This course aids imaging professionals in preparing for the Certified Radiology Administrator examination by providing educational materials specific to the field. This course will discuss in-depth insights and analyses on various financial and asset management subjects and discuss strategic planning and implementing a SWOT analysis to increase total performance.

DMI 440 – Digital Radiography & PACS – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This comprehensive course investigates many facets of imaging informatics: information technology, imaging modality capabilities, supervision of modality integration, establishing programs for image display quality control, and recognition of specific hazards to the healthcare environment. In addition, students will learn to identify and implement medical imaging standards: DICOM, HL – 7, MQSA, ACR, ICD – 9, and SMOMED. This course prepares students for the Imaging Informatics Professional Certification exam, offered by the American Board of Imaging Informatics (ABII).

DMI 450 – Communication & Education in Imaging Informatics – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This inclusive course discusses the roles and relationships in healthcare settings, medical terminology, communications relating to system availability or changes, feedback, and feedback mechanisms. Furthermore, this course will explore performance needs assessment, training programs, implementation training, and evaluations of effectiveness training. This course prepares students for the Imaging Informatics Professional Certification exam, offered by the American Board of Imaging Informatics (ABII).

DMI 460 – Systems Management in Imaging Informatics – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course explores procurement, project management, and operations of digital imaging systems. Additionally, systems management will be introduced, including cost analysis, system capacity, throughput, disaster plan recovery, business continuity strategies, use problem management, data migration procedures, data security, and individual privacy. This course prepares students for the Imaging Informatics Professional Certification exam, offered by the American Board of Imaging Informatics (ABII).

DMI 470 – Teaching Strategies for Adult Learners in Health Science – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course imparts important information on motivating, mentoring, and instructing using scientifically based teaching strategies and tactics. There is information on providing individualized instruction in classrooms with multiple learning and behavior problems and how curricula and instruction can be designed to teach functional repertoires and critical thinking rather than inert ideas. The course also discusses determining the effectiveness of curricular initiatives toward meeting standards and course objectives.

DMI 480 – Curriculum Design in Diagnostic Imaging Sciences – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course covers the unique type of curriculum we call "competency-based." Though not unique to diagnostic medical imaging, we will emphasize curriculum design related to the imaging sciences. This class will take you through understanding, designing, implementing, and accrediting a competency-based curriculum in a diagnostic medical imaging program.

Emphasis will be paid to the curriculum published by the American Registry of Radiologic Technologists®, the underpinning of most accreditation organizations. We will also introduce you to the requirements of accrediting organizations.

DMI 490 – Methods of Teaching Online Course – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course introduces teaching methods applicable to any coursework in the Allied Health Sciences.

DMI 510 – Principles of Computed Tomography – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course introduces the student to digital imaging processing and image quality. Students will discuss and identify the concepts of data acquisition. In addition, knowledge of the basic principles of sectional anatomy and CT protocols and procedures related to various body parts will be analyzed. Course topics will include digital imaging processing, data acquisition concepts, radiation dose, sectional anatomy, protocols and techniques, and pediatric CT imaging.

DMI 520 – Advanced Applications of Computed Tomography – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course introduces the student to basic physics and instrumentation principles related to computed tomography. Course topics include historical perspectives of the modality, physics, and physical characteristics of the computed tomography process, data acquisition, scanner design, image processing, and image quality.

DMI 530 – Computed Tomography Registry Review – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course reviews the computed tomography curriculum and prepares students for the ARRT® CT post-primary certification examination covering the ARRT® Exam content specifications, Patient Care, Safety, Image Production, and Procedures. This course also includes CT Basics ASRT modules and satisfies the ARRT® 16-credit Structured Education Requirements for CT.

DMI 540 – Physical Principles of MRI – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course provides the student with a comprehensive overview of MR imaging principles. The subjects are formatted in individual outlines and sequenced according to the level of knowledge desired. Topics include nuclear MR signal production, tissue characteristics, pulse sequencing, imaging parameters/options, and image formation.

DMI 550 – Advanced Applications in MRI – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course provides the student with imaging techniques related to the CNS, neck, thorax, musculoskeletal system, and abdominopelvic regions. Students will learn specific clinical applications, available coils and their use, considerations in the scan sequences, specific protocol choices (i.e., slice thickness, phase direction, flow compensation), and positioning criteria.

Anatomical structures, the plane that best demonstrates anatomy, and signal characteristics of normal and abnormal structures will be discussed. Pharmacology, as it pertains to MRI, will be discussed. Students will demonstrate their practices by applying their didactic knowledge in their laboratories.

DMI 560 – MRI Safety and Registry Review – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None

This course will prepare students for the required registry board exams to work as MRI Technologists. This course includes reviewing the MRI program, and the students will take mock registry board exams and practice tests. Students will learn effective ways to study and answer questions from the registry.

This course provides basic knowledge of MR safety, patient preparation, and monitoring of patients in the MR suite. This information enables the student to communicate better with the healthcare team to ensure patient safety. Health effects and safety issues are important aspects of this diagnostic modality.

DMI 570 – Principles of Mammography – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course is designed to educate radiographers in the art and science of mammography. Enrollees in the course must have a California Certified Radiologic Technologist (CRT) license OR be a student in a JRCERT-accredited program. The course consists of 40 hours of lecture, which will assist in preparing for the California Mammography Certificate exam and the ARRT® Post-Primary Certification in Mammography.

DMI 580 – Advanced Applications in Mammography – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course offers students an understanding of breast ultrasound history, breast cancer, diagnosis and imaging, principles, equipment, breast anatomy and normal appearances, exam techniques, image interpretation, recording and reporting, benign and malignant disease, imaging of the augmented breast, breast disease in males, and interventional techniques. This course overviews breast ultrasound.

DMI 590 – Mammography Registry Review – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course prepares students for the registry exam for mammography. Course topics will include history, patient education, anatomy, physiology and pathology of the breast, benign and malignant diseases, equipment, processing and quality management, common imaging procedures, emerging technologies, interventional procedures and treatment options review, and MQSA standards.

Bachelor of Science in Nursing (BSN) Courses – Blended Program

RN 100 – Fundamentals of Nursing Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 101. Failure in one paired course equals failure in both paired courses.
This course introduces professional nursing. Content includes a brief history of nursing, including the roles and responsibilities of the health care team. The provision of a standard of care consistent with legal, ethical, and regulatory guidelines and ANA Standards of Practice are emphasized.

Verbal communication skills, informatics, evidence-based practice, safety, and developing a patient-centered therapeutic nurse-client relationship are fostered. Students are taught the nursing process and nursing diagnosis to develop a nursing care plan.

RN 101 – Fundamentals of Nursing Clinical and Lab – 157.5 Clock Hours/3.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 100. Failure in one paired course equals failure in both paired courses.
This course integrates concepts, theories, and skills fundamental to nursing practice. Students will use the nursing process to plan and provide for adult patients' cultural, physiological, social, psychological, and spiritual needs with health disruptions.

RN 102 – Health Assessment Theory – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 103. Failure in one paired course equals failure in both paired courses.

This course focuses on strategies to obtain health histories and physical assessment data for diverse populations across the lifespan. Students are instructed to identify normal and abnormal findings using inspection, palpation, percussion, and auscultation. Health risk prevention and the promotion of optimal health behaviors are also addressed.

RN 103 – Health Assessment Skills Lab – 67.5 Clock Hours/1.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 102. Failure in one paired course equals failure in both paired courses.
This course uses health assessment theory to develop the hands-on skills of inspection, palpation, percussion, and auscultation. Laboratory experience includes demonstration, practice, and critique of skill performance.

RN 104 – Pharmacology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
In this course, the student is familiarized with a history of pharmacology, the classification of medications, their actions, application, and nursing considerations. Principles and procedures for the safe administration of medications are stressed. Basic math and computation of adult and pediatric dosages are included. Actions, interactions, applications, and nursing considerations are addressed.

RN 106 – Pathophysiology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
In this course, pathophysiological changes in acutely ill and chronically ill patients across the lifespan using a system and inter-systems approach. The course covers identifying pathological changes in assessing patients with significant health disruptions, techniques appropriate to patients using a major systems approach, analysis of data, and description of intersystem relationships across the life span as a basis for problem-solving the nursing process. Basic EKG, arrhythmia determination, and ABG analysis are included.

RN 180 – Nursing Transition Advanced Placement Theory & Lab Course – 120 Clock Hours/5 Semester Credit Hours
Prerequisite: None
This course introduces students to the roles and responsibilities of the registered nurse and the Associate Degree Nursing Program framework. Emphasis is placed on various roles of the registered nurse, legal and ethical responsibilities, nursing process, critical thinking, and evidence-based practice, delivering competent care to diverse demographics of multicultural clients throughout the lifespan.

Lecture contents include the role of the registered nurse and the care of adult, maternity, and pediatric clients. The lab component of this course focuses on utilizing the nursing process, critical thinking, and applying theory to skills in various patient case scenarios. The following skills competencies focused on in this course: dosage calculation, assessment, intravenous administrations, central venous access, medication administration, nasogastric feeding, foley catheter insertion, tracheostomy care, and suctioning.

RN 200 – Medical/Surgical I Theory – Introduction to Med/Surg – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 201. Failure in one paired course equals failure in both paired courses.
This course provides basic medical/surgical theory related to endocrine, musculoskeletal, integumentary, and sensory system disorders, perioperative care, and fluid and electrolyte imbalances. Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes in older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help the development of nursing insight that will enable safe, effective, patient-centered care.

RN 201 – Medical/Surgical I Clinical – Introduction to Med/Surg – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 200. Failure in one paired course equals failure in both paired courses.

This course applies the theoretical content of patient-centered care of patients with medical-surgical conditions. Emphasis is on care planning, assessment, teaching, and clinical interventions to promote healthy outcomes for patients.

RN 202 – Medical/Surgical II Theory – Intermediate Med/Surg – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 203. Failure in one paired course equals failure in both paired courses.
This course provides basic medical/surgical theory related to endocrine, gastrointestinal, genitourinary, and hematology problems in cancer patients and palliative care. Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes in older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help the development of nursing insight that will enable safe, effective, patient-centered care.

RN 203 – Medical/Surgical II Clinical – Intermediate Med/Surg – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 202. Failure in one paired course equals failure in both paired courses.
This course applies the theoretical content of patient-centered care of patients with medical-surgical conditions. Emphasis is on care planning, assessment, teaching, and clinical interventions to promote healthy outcomes for patients.

RN 300 – Maternal Newborn Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 301. Failure in one paired course equals failure in both paired courses.
The course covers comprehensive maternal and newborn care, beginning with preconception planning and including risks in pregnancy and postpartum, maternal and newborn complications, male and female reproductive problems and needs, and family needs and problems during the maternity cycle. Concepts of nutrition, cultural variations, and the safety of mothers and newborns are integrated. Therapeutic use of drugs during pregnancy, labor and delivery, and the immediate postpartum period are included.

RN 301 – Maternal Newborn Clinical – 67.5 Clock Hours/1.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 300. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, applying the theoretical content of patient-centered care of mothers and newborns. The emphasis is on assessment, teaching, and clinical interventions to promote healthy outcomes for families.

RN 302 – Care of Children Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 303. Failure in one paired course equals failure in both paired courses.
This course applies the theoretical content of patient-centered care of mothers and newborns. The emphasis is on assessment, teaching, and clinical interventions to promote healthy outcomes for families.

RN 303 – Care of Children Clinical – 67.5 Clock Hours/1.5 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 302. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, applying the theoretical content into practice with attention to patient-centered, quality care. Interaction with family members facilitates the student's ability to recognize family dynamics and their effects on the developmental process. Advanced skills necessary to care for pediatric patients are achieved through simulation. The application of the nursing process to optimize patient and family outcomes is emphasized.

RN 304 – Medical/Surgical III Theory – Advanced Med/Surg – 45 Clock Hours/3 Semester Credit Hours

Prerequisite: None
Corequisite: This course is paired with RN 305. Failure in one paired course equals failure in both paired courses.
This course provides basic medical/surgical theory related to respiratory, cardiac, neurologic, and musculoskeletal disorders. Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes in older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help the development of nursing insight that will enable safe, effective, patient-centered care.

RN 305 – Medical/Surgical III Clinical – Advanced Med/Surg – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 304. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, integrating the practical application of advanced medical/surgical theory to care for selected patients with multiple health disruptions. Students apply the nursing process to optimize patient outcomes.

RN 400 – Mental Health Theory – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 401. Failure in one paired course equals failure in both paired courses.
This course addresses theories and principles of psychiatric nursing. Biopsychosocial foundations of behavior, communication, and psychopharmacology are emphasized. Patient relationships and the use of effective and ineffective communication are addressed. The nurse's role in the prevention and early identification of psychiatric disorders of children, adolescents, adults, and older adults and the treatment modalities of mental illness and organic brain syndromes are studied.

RN 401 – Mental Health Clinical – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 400. Failure in one paired course equals failure in both paired courses.
This course is taught at clinical sites, applying theory into clinical practice in the care of selected patients who may experience psychological stress, neurobiological disorders, and high-risk situations such as homelessness, family violence, child abuse, HIV, and post-traumatic stress syndrome. Students apply the nursing process to optimize patient outcomes.

RN 402 – Medical/Surgical IV Theory – Complex Med/Surg & Leadership – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 403. Failure in one paired course equals failure in both paired courses.
This course incorporates previous medical-surgical nursing theory emphasizing the integration of pathophysiology, nutrition, pharmacology, and psychosocial components of safe and individualized care for patients with complex medical-surgical health disruptions. Focus on holistic care for burns, heart failure, acute respiratory distress, shock, multiple organ dysfunction, and traumatic brain injury. Leadership and management in nursing are explored as they relate to managing complex medical-surgical health alterations.

RN 403 – Medical/Surgical IV Clinical – Complex Med/Surg & Leadership – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 402. Failure in one paired course equals failure in both paired courses.
This course is taught at a clinical site, integrating the practical application of advanced medical/surgical theory to care for selected patients with multiple health disruptions. Students apply the nursing process to optimize patient outcomes.

RN 404 – Community Health Nursing Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None

Corequisite: This course is paired with RN 405. Failure in one paired course equals failure in both paired courses.
This online course discusses the foundation for community public health nursing care of patients, families, and communities. Sociocultural, political, and economic influences on a community's health and the health care system are explored, as well as current issues and trends affecting community public health.

RN 405 – Community Health Nursing Clinical – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
Corequisite: This course is paired with RN 404. Failure in one paired course equals failure in both paired courses.
Applying nursing and epidemiological concepts to promote health and prevent disease among patients, families, and communities will be performed through assigned project completion, aligned with the concurrent Community Health Nursing Theory class topics. Students will explore intervention strategies that empower clients with the knowledge and skills to make informed and healthful choices.

RN 500 – Leadership/Management in Nursing Theory – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
Nursing involves leadership, management, team building, and collaboration strategies. Social, legal, political, and economic factors are explored in nursing and health care. Concepts and principles of professional nursing practice, such as quality improvement, safety, and evidence-based practice, are integrated. Development of change, agent, and delegation skills will be considered.

RN 501 – Leadership/Management in Nursing Clinical – 90 Clock Hours/2 Semester Credit Hours
Prerequisite: None
This practical implementation of leadership and management theory concepts uses assigned clinical projects through interviews and analysis of existing clinical practices. This is a 2-unit practical course.

RN 502 – Nursing Informatics – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course covers the principles, concepts, and applications of the health informatics discipline. Core disciplines, including informatics and terminal competencies or learning outcomes, provide the framework for developing curricula within the healthcare professions. Learning outcomes include the skills, knowledge, and professional aptitudes expected of all graduates.

RN 504 – Nursing Research – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This course builds on the Research Statistics course taught in Semester 1. Principles, concepts, and application of scientific inquiry to phenomena of concern to other health professions and nursing and client's health experience are covered. Research design, critique, and interpretation of reports from various health sources will occur, and participation in research and conducting research will be discussed.

RN 505 – Bachelors Achievement Capstone Portfolio – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: None
This is a study project where BSN students prepare a professional portfolio and work from Semester 7 end to Semester 8 end. It is to be composed of a multitude of individual projects and documents preparing the student for professional practice as an SN with a BSN. This portfolio is the exit project for the bachelor's degree in Nursing program.

Bachelor of Science in Radiation Therapy (B.S. in RT) Courses – Full Distance Education Program

RTT 250 – Introduction to Radiation Therapy – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: Completion of GE 020A, GE 020B, GE 222, and GE 240.
This course will provide students with an overview of the Radiation Therapy major. Instruction will include a review of professional organizations, department structure, patient management, record keeping, and

professional ethics. An overview of the radiation therapist's role in cancer treatment, including a review of the therapist's scope of practice, developing modalities, and advanced career opportunities, takes place.

RTT 300 – Sectional/Topographic Anatomy – 45 Clock Hours/3 Semester Credit Hours

Prerequisite: Completion of semesters I, II, and III.
This course will examine external anatomic landmarks concerning internal anatomy, emphasizing the effects of positioning on external landmarks, internal anatomical critical structures, and methods of avoiding or lowering radiation doses to these structures. The sectional imaging course will introduce students to different modalities utilized in radiation therapy. Identification of anatomical structures will be reviewed, identifying the various medical imaging methods. Basic anatomical relationships will be compared using topographical and cross-sectional images.

RTT 315 – Medical Imaging – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, and III.
This course establishes a knowledge base on factors that govern and influence the production and recording of medical images for patient simulation, treatment planning, and treatment verification in Radiation Oncology. Concepts and processes involved in producing a radiograph will be covered. Other diagnostic imaging modalities such as CT, MRI, and ultrasound will be covered. General radiography, computerized tomography, magnetic resonance imaging, nuclear medicine, sonography imaging modalities, and equipment will be emphasized.

Imaging and processing content for radiation oncology describes the factors that affect the production and recording of radiographic images for patient simulation, treatment planning, and treatment verification, emphasizing radiation oncology imaging equipment and related devices. A review of radiation protection concepts will be provided.

RTT 320 – Clinical Concepts I – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, and III.
This course provides students with an overview of cancer and the specialty of radiation therapy. Historical and current aspects of cancer treatment and the basic principles and practices of treatment and simulation will be emphasized. Content provides students with a knowledge base for assessing, comparing, contrasting, and recommending the type of radiation therapy equipment, procedure and technique, patient positioning, and immobilization for appropriate tumor localization and treatment delivery.

RTT 330 – Ethics – 25 Clock Hours/1.5 Semester Credit Hours
Prerequisite: Completion of semesters I, II, and III.
This course examines professionalism and bioethics, the process of making moral decisions, ethical issues, professional oaths and codes of ethics, health care ethics, and the law.

RTT 340 – Radiation Therapy Patient Care – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, and III.
This course will focus on the foundational concepts and competencies in evaluating patients before, during, and after the delivery of radiation therapy. The psychosocial needs of patients, factors affecting treatment outcomes, assessment, and evaluation will be discussed. The course also explores local, state, and national cancer care resources. This course examines the psychological and physical needs and factors affecting treatment outcomes. Routine and emergency care procedures, pertinent laboratory results, and their effects on radiation therapy will be discussed.

RTT 355 – Clinical Oncology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, and V.
This course focuses on examining oncologic pathology with an emphasis on malignant neoplasia. The course focuses on cancer and current treatment modalities, emphasizing radiation therapy, and is designed to examine

and evaluate the management of neoplastic diseases. Cancers of the skin, brain, head and neck, thorax and gastrointestinal, genitourinary, lymphoreticular, musculoskeletal, integumentary, hematopoietic, and endocrine systems are emphasized. The epidemiology, etiology, natural history, diagnosis, treatment strategies, sequelae, and prognosis are discussed.

RTT 365 – Clinical Concepts II – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, and V.
This course focuses on assessment, evaluation, and treatment plans for treatment-related side effects. The radiation therapist's responsibility in managing the neoplastic disease will be examined and linked to specific professional skills within their scope. The roles and responsibilities of the radiation therapist, the treatment prescription, the documentation of treatment parameters and delivery, emergency procedures, patient condition, and education needs will be presented, discussed, examined, and evaluated.

Content provides a knowledge base for assessing, comparing, contrasting, and recommending the type of radiation therapy equipment, procedure and technique, patient positioning, and immobilization for appropriate tumor localization and treatment delivery. A thorough examination of site-specific techniques used in radiation therapy is covered.

RTT 400 – Clinical Radiation Therapy Physics I – 60 Clock Hours/4 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, and V.
This course will introduce students to the nature and description of the structure of matter and energy, interactions of photons and gamma radiation, instrumentation and measurement of ionizing radiation, beam quality and dose, percent depth dose, tissue air ratios, and treatment dose calculations.

RTT 410 – Clinical Radiation Therapy Physics II – 60 Clock Hours/4 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, and VII.
This course will emphasize the practical applications of electron and photon beams and the use of radioactive sources. Methods of calculating dose at any point in clinical set-ups are covered. Modern technology such as 3DCRT and IMRT are introduced. Imaging modalities in radiation oncology, such as film and electronic digital portal (EDIP) imaging, are presented. The concepts of radiation protection, shielding, and fundamentals of quality assurance programs from physics and clinical perspectives are presented.

RTT 420 – Quality Management – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, and VII.
This course offers a systematic look at quality assurance in radiation therapy. The evaluative measures, procedures, national guidelines, and principles are examined. Quality assurance and quality improvement, as well as its tools and components, will be covered. Content is designed to focus on the components of quality improvement programs in radiation oncology. The course includes quality control and assurance checks for clinical aspects of patient care, medical records, treatment delivery and localization, and treatment planning equipment. Legal and regulatory implications for maintaining appropriate quality care will be covered.

RTT 430 – Research in Radiation Therapy – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, and V.
This course will address reading and researching radiation therapy. Research approaches and procedures will be explored. Examples of various research methods and techniques will be discussed. Students will be assigned a research project during their time in the program. Research projects will be submitted in the Capstone course.

RTT 440 – Dosimetry – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, and VII.
This course will provide content designed to examine factors that influence and govern the clinical planning of patient treatments. This encompasses isodose distributions, influence modification, radiobiological considerations, dosimetric calculations, and clinical application of radiation. Topics will include the effects of

treatment distance, beam weighting, beam modifiers, irregular fields, tissue inhomogeneities, and compensating filters. Electromagnetic and particulate beams, as well as advanced and emerging technologies, are covered. Evaluation of treatment plans emphasized.

RTT 450 – Operational Issues – 30 Clock Hours/2 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, and VII.
This class will focus on various issues with radiation therapy, including operational and budgetary issues, hospital and governmental accreditation, types of insurance, coding, and reimbursements. Professional roles, responsibilities, and development will be emphasized. Synthesis of previous didactic and clinical information; an in-depth examination of current and future professional issues, technological advances, and ethics; a look at professional preparation, organizations, and continuing education are discussed.

RTT 460 –Radiobiology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, and VII.
This course discusses the principles and concepts, including radiation effects on cells, organs, systems, and levels within the entire body. Emphasis is on the theories and principles of tolerance dose, time-dose relationships, fractionation schemes, and the relationship to the clinical practice of radiation therapy.

RTT 470 – Radiation Therapy Clinical Externship I – 570 Clock Hours/12.5 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, and IV.
Content is designed to provide sequential development, application, analysis, integration, synthesis, and evaluation of concepts and theories in radiation therapy. This course's objectives and competencies focus on patient-centered care, teamwork principles, introduction to and safety procedures for treatment and simulation equipment, and introductory level treatment procedures. Students will complete a simulation and treatment rotation during this course.

RTT 471 – Seminar in Radiation Therapy I – 15 Clock Hours/1 Semester Credit Hour
Prerequisite: Completion of semesters I, II, III, and IV.
This course is designed to support learning in Radiation Therapy Clinical Internship I. Students will meet to discuss clinical progress and procedural information specific to radiation therapy and perform structured assignments utilizing the clinical setting for learning. Content for this course includes patient population and statistics, patient flow in the department, various components of a department, interdepartmental interactions and interactions with other departments, and the exploration and discussion of the various treatment modalities available.

RTT 475 – Radiation Therapy Clinical Externship II – 570 Clock Hours/12.5 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, and VI.
Continuation of clinical externship practice. This course focuses on specific principles and techniques utilized for assigned cancer treatments. Students will demonstrate clinical competencies in the application of specific radiation therapy techniques. Students will conduct assisted and technical treatment and simulation procedures. Students will complete nursing, simulation, and treatment rotations during this course.

RTT 476 – Seminar in Radiation Therapy II – 15 Clock Hours/1 Semester Credit Hour
Prerequisite: Completion of semesters I, II, III, IV, V, and VI.
This course is designed to support learning in Radiation Therapy Clinical Internship II. Students will meet to discuss clinical progress and procedural information specific to radiation therapy and perform structured assignments utilizing the clinical setting for learning. Content for this course includes patient population and statistics, patient flow in the department, various components of a department, interdepartmental interactions and interactions with other departments, and the exploration and discussion of the various treatment modalities available.

RTT 485 – Radiation Therapy Clinical Externship III – 480 Clock Hours/10.5 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, VII, and VIII.

Continuation of clinical externship practice. This course focuses on specific principles and techniques utilized for assigned cancer treatments. Students will demonstrate clinical competencies in the application of specific radiation therapy techniques. Students will conduct technical and competent to perform treatment and simulation procedures. Students will complete a simulation and treatment rotation during this course.

RTT 486 – Seminar in Radiation Therapy III – 15 Clock Hours/1 Semester Credit Hour
Prerequisite: Completion of semesters I, II, III, IV, V, VI, VII, and VIII.
This course is designed to support learning in Radiation Therapy Clinical Internship IV. Students will meet to discuss clinical progress and procedural information specific to radiation therapy and perform structured assignments utilizing the clinical setting for learning. Content for this course includes patient population and statistics, patient flow in the department, various components of a department, interdepartmental interactions and interactions with other departments, and the exploration and discussion of the various treatment modalities available.

RTT 490 – Radiation Therapy Capstone – 60 Clock Hours/4 Semester Credit Hours
Prerequisite: Completion of semesters I, II, III, IV, V, VI, VII, and VIII.
This course examines historical and current issues in the profession. This class will review the professional components of radiation therapy and the expectations of being part of a functional department. This course will address preparation for employment, from resume writing to interview techniques and the professional scope of practice. Preparation for entry into the profession and completion of the capstone project will be accomplished.

Bone Densitometry Technician (DXA) Courses – Blended Program

DXA 101 – Fundamentals of Bone Densitometry – 40 Clock Hours/3.5 Quarter Credit Hours
Prerequisite — None
This course covers the basic understanding of bone densitometry (DXA) through equipment fundamentals, patient care, and patient prep. The course will cover radiation physics, protection, and best practices in scanning patients, including DXA scanning analysis. We will also look at additional applications that assist in diagnosing fracture risk and detecting low bone density, as well as current interventions.

DXA 101C – Clinical Practice I – 16 Clock Hours/0.5 Quarter Credit Hours
Prerequisite: Completion of DXA 101 with a "C" or better.
Clinical experiences are designed to provide patient care and assessment, competent performance of Bone Density imaging, and total quality management. Team practice, patient-centered clinical practice, and professional development are evaluated through structured, competency-based clinical education. Competency levels ensure the patient's well-being before, during, and following the radiologic procedure.

Dental Assistant (DA) Courses – Blended Program

DA 100 – Infection Control – 10.5 Clock Hours/0.5 Quarter Credit Hours
Prerequisite: None
This course is a prerequisite to begin the dental assisting program. The course contains four (4) hours of didactic and four (4) hours of practical applications that will explain the basic dental science and microbiology related to infection control in dentistry.

The course explains the legal and ethical aspects of infection control procedures and the terms and protocols specified in the board's regulations regarding the minimum standards for infection control. Describe the principles of modes of disease transmission and prevention.

This course explores hand hygiene principles, techniques, protocols, personal protective equipment, surface barriers and disinfection, sterilization, sanitation, and hazardous chemicals associated with infection control. Explain the principles and protocols of sterilizer monitoring and the proper loading, unloading, storage, and transportation of instruments to the work area. Describe and demonstrate the principles and protocols for sharps management, waterline maintenance, and infection control for laboratory areas.

DA 200 – Fundamentals of Dental Assisting – 126 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This course covers an overview of the dental profession, healthcare teams, the history of dentistry through the ages, and the legal and ethical responsibilities expected of a dental professional. Students will learn about the landmarks of the face and oral cavity, tooth numbering, patterns of eruption, and the functions of the dental arch and teeth in the opposing arch.

Students will classify dental caries as an infectious disease and name the types of bacteria that cause caries. The student will be able to identify systemic factors that may cause periodontal disease, describe the two basic types of periodontal disease, and explain the significance of plaque and calculus in periodontal disease.

DA 201 – Sciences of Dentistry/Infection Prevention – 126 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This course instructs on the location, structures, and functions of head and neck anatomy, including the bones of the head and face, musculature, innervations, and the circulatory system. Coursework includes an introduction to the terminology and functions of body systems.

Students will be able to describe specific terms relative to the general anatomy and physiology of the human body, including systems, planes, cavities, basic units, and microorganisms affecting humans. The students will be able to describe the importance of preventing oral disease, treating periodontal disease, and infection control standards. These include requirements of the OSHA Bloodborne Pathogens Standard, hazardous materials handling, labeling, inventory, housekeeping, laundry, and disposal of hazardous materials will be covered.

This course also provides instruction on inflammation, identification of oral lesions, oral diseases, related biological, physical, and chemical agents, and hormonal, developmental, and nutritional disturbances. Students will be instructed in basic pharmacology and drugs associated with treating diseases, their use in dentistry, related terms, parts of a prescription, and types of anesthetics.

DA 202 – Foundations of Clinical Dentistry – 126 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This course addresses the parts of dental hand instruments, categories and uses, functions of dental burs, abrasives, and dental handpieces, and the importance and function of instrument tray systems and color coding. This course teaches the types of restorative materials and cements used in general dentistry. The student will describe the dental assistant's role in chairside restorative procedures and the properties of dental materials.

DA 203 – Dental Materials/Coronal Polishing – 126 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This course provides instruction regarding various expanded dental functions. Students prepare, apply, and remove a dental dam, dental matrix, and wedge. Students prepare, manipulate, and place dental cavity liners, varnish, and types of cement.

The student can perform suture removal and postoperative patient care following oral surgical procedures. The student will describe the placement and removal of gingival retraction devices, preparation and application of enamel sealant material, benefits and dental bleaching materials types, application techniques, and patient education instructions.

DA 204 – Radiology Safety/Administrative – 126 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This course teaches radiation's history and biological effects, safety precautions, dental X-ray unit components, and function. X-ray study explains how X-rays are produced, and students describe dental X-ray film's composition, sizes, types, and storage requirements. Students will be instructed to expose and process diagnostically acceptable intraoral and extraoral dental films using paralleling and bisecting techniques.

Common production errors, processing techniques, mounting procedures, identification of radiographic landmarks, the procedures and state policies required for dental offices to ensure quality radiographs, and imaging systems for dental purposes are covered. Students will study the overall aspects of dental office management, including patient reception, marketing, telephone technique, business office systems, patient scheduling, records management, accounts receivable, management of patients' accounts, accounts payable, inventory control, and recall systems management.

The student will describe the importance of accurate charting and interpretation for diagnosis, consultation, and financial and billing purposes. Computerized business office systems for the dental office are explored for patient scheduling, records management, patient accounts, and accounts payable. Students develop self-awareness and the importance of communication skills.

Emphasis will be placed on assessing professional qualifications, including developing a job search network, interview strategies, and interview follow-up. Students will create resumes and cover letters and review the application completion process.

DA 205 – Dental Specialties/Patient Assessment – 126 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
This course addresses dental office design, working environment, the performance of four-handed dental procedures, instrument grasp and transfer, and requirements for special needs patients. The scope of oral and maxillofacial surgery, orthodontics, pediatric dentistry, and periodontics will be covered. Students will also receive instruction on identifying the equipment used for procedures within oral and maxillofacial surgery, orthodontics, pediatric dentistry, and periodontal practice.

Instruction includes preparation for common medical and dental emergencies. That includes cardiopulmonary resuscitation, syncope treatment, anaphylaxis, asthma attacks, heart conditions, cerebrovascular accidents, and common dental emergencies. Students are required to pass CPR certification during this course.

Students will be able to provide patient instruction in removable and fixed prosthodontics. This includes diagnostic steps, materials required for treatment, the importance of a consultation appointment, the advantages and disadvantages of partial and full dentures, the necessary steps in denture polishing, relining, repair, and the function of an overdenture. The definition of an endodontist and how endodontics relates to dental practice are also included.

DA 300 – Clinical Externship – 180 Clock Hours/6 Quarter Credit Hours
Prerequisite: None
The clinical externship is an eight (8) week course that includes student placement in a facility that performs various skills. The student must complete an average of 20 – 30 hours a week. The externship provides exposure to hands-on practice. The externship allows students to apply theory concepts to assist the dental staff with daily duties in the front and back offices under staff supervision. This experience marks the transition from being a student to becoming a Dental Assistant.

Master of Science in Nursing (BSN to MSN) Courses – Full Distance Education Program

MSN 506 – Theoretical Foundations of Advanced Nursing Practice – 45 Clock Hours/3 Semester Credit Hours

Prerequisite: Completion of BSN Degree and Active RN License.
This course provides the learners with the theoretical foundations of nursing. Learners examine the relationship between nursing theories and the development of nursing science. The course focuses on the relationships between theories, research, and nursing practice with current scientific advances.

MSN 508 – Future of Nursing and Healthcare Policy – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course allows students to research, develop, and discuss policies affecting advanced nursing and healthcare systems. Advocating for effective policies impacting nursing and its stakeholders is another vital component of this course.

MSN 510 – Advanced Research Methodologies and Analysis- Evidence-Based Practice – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
The learners receive knowledge regarding integral components of evidence-based practice with research to foster scholarship and holistic and person-centered care in diverse healthcare environments. Content interconnected to problem identification, research methodologies, critique of findings and literature, and application to evidence-based practice is presented. Developing an evidence-based project focusing on quality improvement or safety allows students to practice learned principles.

MSN 512 – Financial Resource Management – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course introduces students to financial management concepts in healthcare. Emphasis is placed on resource allocation in healthcare organizations. Students will study the theory and practice of financial management relevant to healthcare delivery organizations. The following elements will be discussed to enhance understanding of key concepts, including accounting practices, financial and policy issues, financial control techniques, financial decision-making, and reading and analyzing financial statements.

MSN 514 – Leadership and Management in Nursing and Healthcare – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course presents the management functions and leadership roles of professional and contemporary nursing within an organizational structure. The management operations (staffing, planning, organizing, coordinating, and controlling) prepare the structure for the course. The imperative focus is given to organizational, behavior, and management theories.

Methods of inquiry, including the nursing process, problem-solving models, and decision-making, are emphasized as tools for analyzing intricate leadership and management complications common to nursing leaders and managers. Emphasis is also provided on collaborative relationships, quality assurance accountability in nursing care, and multidisciplinary communication. Complex ethical issues in management are discussed, as well as the legal authority for nursing practice and the impact of legislative and political processes.

MSN 516 – Advanced Healthcare Technology & Informatics – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course presents the functions, roles, scope, and standards of practice to the learner. Students will analyze, explore, implement, and evaluate diverse aspects of nursing informatics practice as a specialization. Topics include utilizing and implementing technology for virtual care delivery and monitoring and focusing on complementary roles of the master's-prepared informatics nurse specialist and other information-technology professionals.

MSN 600 – Advanced Health Assessment, Pathophysiology, Pharmacology – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.

This course content builds upon undergraduate nursing education and practice experience. The course concentrates on and further develops nursing knowledge and skills related to health assessment, pharmacology, and pathophysiology across the lifespan. The vital focal point is on advanced and contemporary knowledge and skills in direct- and indirect-care roles that nurse educators need.

MSN 602 – Curriculum Development – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
The main focus of this course highlights the processes of curriculum development. Students will research traditional and innovative approaches to program development implemented in various educational environments. Curriculum and instruction are examined within a theoretical framework.

MSN 604 – Teaching and Learning Process and Strategies – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
The main focus of this course is to highlight the various teaching strategies and appraisal of the approaches utilized to provide an effective learning environment. The teaching strategies evaluated are reviewed and applied in the nurse educator role and nursing education practice. This course will help in the role of an educator by acquiring skills that can offer a more versatile approach to teaching strategies.

Learners will compare and contrast methods to enhance lessons, materialism, and evaluation instruments throughout the course. The course will instruct the students on implementing research findings, comparative teaching strategies, and the relationships between teaching strategies and learning/teaching styles.

MSN 605 – Nursing Practicum A – Clinical Nurse Educator – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course allows learners to apply concepts and expand skills in curriculum development, classroom and clinical teaching, and assessment methods in an educator role within the learner's specialization. The student may select from various opportunities in clinical settings with staff nurses, patients, and nurse educators in clinical and academic settings. Students will acquire experience networking with administrators, faculty, and support service personnel in their chosen institution(s). The student will complete 45 hours (3 credits) of practicum in an educator role. This course is intended to meet the ABHES requirement for a culminating assessment.

MSN 606 – Assessment and Evaluation of Learning – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course assesses and examines the theory, logic, and practice of educational measurement. Comparisons are made between evaluation concepts and assessments, frameworks, and models. These will also be analyzed for relevancy and applicability in the curriculum development quality assurance processes. The practical application of measurement theory to constructing and utilizing educational evaluation instruments is supported.

MSN 607 – Nursing Practicum B – Academic Nurse Educator – 45 Clock Hours/3 Semester Credit Hours
Prerequisite: Completion of BSN Degree and Active RN License.
This course allows learners to apply concepts and expand skills in curriculum development, classroom and clinical teaching, and assessment methods in an educator role within the learner's specialization. The student may select from various opportunities in clinical settings with staff nurses, patients, and nurse educators in clinical and academic settings. Students will acquire experience networking with administrators, faculty, and support service personnel in their chosen institution(s). The student will complete 45 hours (3 credits) of practicum in an educator role. This course is intended to meet the ABHES requirement for a culminating assessment.

<u>Medical Assistant (MA) Courses – Blended Program</u>

MA 100 – Front Office Records Management – 82.5 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: None
This course introduces the creation and maintenance of a patient's medical record. Training includes earning a

Health Insurance Portability and Accountability (HIPAA) training certificate. The use of computers in modern medical settings, including managing patient appointments and overseeing a medical records system, is reviewed.

Students will study HIPAA, computerization, appointment, and records management terminology. Professional telephone communication skills are simulated. Students practice EKGs and prepare for the Certified EKG Technician certification examination in their final Front Office Course.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 27.5 hours.

MA 101 – Front Office Finances – 82.5 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: None
This course introduces students to managing all medical office finances. Practice includes diagnostic and procedural coding for insurance billing. Students will track claims reimbursement, process patient statements, and review fee collection processes.

Students will study terminology associated with financial management. In their final Front Office Course, students will practice EKGs and prepare for the Certified EKG Technician certification examination.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 27.5 hours.

MA 102 – Front Office Medical Professionals – 82.5 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: None
This course teaches students the fundamentals of medical front office management, common management styles, and associated terminology. Professional communication skills that frame a patient-friendly experience are practiced in written communications with patients, vendors, and insurance companies.

The oversight of reception and treatment areas, patient and employee safety, supplies inventory and ordering, employee training, and office emergency preparedness are included. In their final Front Office Course, students will practice EKGs and prepare for the Certified EKG Technician certification examination.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 27.5 hours.

MA 107 – Anatomy and Physiology for Medical Assistants I – 19 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
Anatomy and Physiology for Medical Assistants I begins with an introduction to the foundation of Anatomy and Physiology, including levels of organization, organ systems, cell structure, and tissues and Membranes. The Integumentary, Skeletal, and Muscular Body Systems will be taught. The study of each Body System includes Structure, Function, Pathology, and associated diagnostic procedures.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 7.5 hours.

MA 108 – Anatomy and Physiology for Medical Assistants II – 19 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
Anatomy and Physiology for Medical Assistants II studies the nervous, endocrine, circulatory systems, and the senses. The study of each Body System includes Structure, Function, Pathology, and associated diagnostic procedures.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 7.5 hours.

MA 109 – Anatomy and Physiology for Medical Assistants II – 18 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None
Anatomy and Physiology for Medical Assistants III is a study of the Respiratory, Digestive, Urinary, and Reproductive Systems. The study of each Body System includes Structure, Function, Pathology, and associated diagnostic procedures.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 7.5 hours.

MA 120A – Medical Terminology A – 15 Clock Hours/1 Quarter Credit Hours
Prerequisite: None
This course introduces Medical Terminology foundations, including Word Roots, Suffixes, and Prefixes. As learning progresses, students learn terms associated with each Body System. Throughout the course, adaptive learning exercises that drive student memorization and quizzes and examinations reinforce understanding.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation is five (5) hours.

MA 120B – Medical Terminology B – 15 Clock Hours/1 Quarter Credit Hours
Prerequisite: Completion of MA 120A with a "C" or higher.
This course builds upon principles learned in Medical Terminology A, including Word Roots, Suffixes, and Prefixes. Students learn terms associated with each Body System. Medical Record Case Studies are evaluated, and terminology associated with Medical Specialties is practiced. Adaptive Learning exercises support and drive student memorization. Module Quizzes and Examinations reinforce understanding.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation is five (5) hours.

MA 200 – Back Office Clinical Foundations – 80 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course introduces students to clinical patient care. Students will practice professional medical communication with patients and colleagues. Students are taught minor surgery assistance procedures, including setting up, instrument sterilization, and autoclave technique. They learn aseptic medical practice as OSHA requires for exposure control and medical waste disposal. Aseptic practice is reinforced through needle safety techniques, medication administration, and blood drawn from a vein during phlebotomy.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 25 hours.

MA 201 – Back Office Clinical Skills – 80 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course introduces students to clinical skills associated with a physical examination. Medical ethics are explored, including guarding private information and protecting patients' rights. Pharmacologic terminology and abbreviations are practiced. Math skills to correctly calculate dosages and convert grams and ounces for medicine administration are practiced.

Students practice and review associated drugs, lab tests, diagnostic studies, and treatment courses. Students study First Aid and earn CPR Basic Life Support certification through the American Heart Association (AHA BLS for Healthcare Providers).

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 25 hours.

MA 202 – Back Office Clinical Laboratory – 82.5 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course introduces students to Microbiology and Blood Chemistry. Students practice asepsis and the disposal of biohazard waste. Students will practice laboratory procedures, including urinalysis, phlebotomy, and hematology. Students will review the purpose and categories of laboratory tests, including collecting, labeling, transporting, and handling specimens.

Students are required to complete outside-of-class hours. The minimum estimated time for Outside School Preparation Hours is 27.5 hours.

MA 300 – Clinical Externship – 180 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of MA 100 – MA 220 with a "C" or better.
A clinical Externship is a 6-week student placement in a facility that performs various skills depending on specialty. It provides hands-on practice exposure and an opportunity to apply theoretical concepts. The student will assist facility staff with daily duties in the front and back offices under staff supervision. This experience marks the transition from being a student to performing as a Medical Assistant.

Vocational Nurse (VN) Courses – Blended Program

EMB 001 – Essential Medical Bioscience – 80 Clock Hours
Prerequisite: This course is required for Vocational Nurse Program admission.
This course considers the basics of general and human biology. Students examine topics in molecular and cell biology, human anatomy, microbiology, nutrition, and biochemistry while incorporating some basic medical terminology into the course material, reviewing basic math skills, and preparing for drug calculations. This is a prerequisite course for entering professional education programs at Gurnick Academy of Medical Arts.

VN 100 – Fundamental of Nursing – 96 Clock Hours/9.5 Quarter Credit Hours
Prerequisite: Completion of EMB 001 – Essential Medical Bioscience with 80% or higher. Concurrent enrollment is required with all Module I VN courses.
Corequisite: This course is paired with VN 130. Failure in one paired course equals failure in both paired courses.
This course begins with a historical perspective on the art and science of nursing and the legal and ethical aspects of the nursing profession. The nursing tools of critical thinking, communication skills, teaching ability, and cultural sensitivity are presented and analyzed, emphasizing the nursing process, nursing diagnoses, documentation, and therapeutic nurse/client relationship exploration.

The core of the course emphasizes the Licensed Vocational Nurse's role in meeting the basic physiologic needs of the client. Normal physiologic processes are presented as a means of comprehending abnormal processes.

VN 110 – Anatomy and Physiology – 56 Clock Hours/5.5 Quarter Credit Hours
Prerequisite: Completion of EMB 001 – Essential Medical Bioscience with 80% or higher. Concurrent enrollment is required with all Module I VN courses.
This course covers the structure and function of the human body. The single cell through all body systems and the interrelatedness of the body's structures and functions are examined. Basic fluid, electrolyte, and acid/base balance concepts are included.

VN 120 – Clinical Nutrition – 32 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of EMB 001 – Essential Medical Bioscience with 80% or higher. Concurrent enrollment is required with all Module I VN courses.

This course considers the basics of Human Nutrition in Health and Disease. This course focuses on Medical Nutrition Therapy, specifically nursing care in inpatient and outpatient settings.

This course's primary goal is to teach and prepare VN students to complete basic screening, assess patients' nutritional status, and participate in medical nutritional interventions and therapy. These include therapeutic diets, mechanically altered diets, enteral and parenteral nutrition support, pre- and post-operative nutrition therapy, and many others.

VN 130 – Clinical Lab I – 120 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of EMB 001 – Essential Medical Bioscience with 80% or higher. Concurrent enrollment is required with all Module I VN courses.
Corequisite: This course is paired with VN 100. Failure in one paired course equals failure in both paired courses.
This practical skill lab course is an introduction to clinical practicum. Nursing skills are structured and covered in the following order: basic nursing skills, which include basic principles of nursing such as the role and responsibility of the nursing team, the nursing process and nursing and psychiatric care plan, delegation, patient and resident rights, and medical asepsis. This is followed by bathing, bed making, body mechanics and exercise, measurements, normal elimination, personal hygiene and grooming, concepts of safety and restraints, and preventing and treating pressure ulcers.

Intermediate nursing skills include enteral nutrition, ostomy care, oxygenation, preoperative and postoperative nursing care, specimen collection, urinary catheter management, wound care, and suctioning. Advanced nursing skills cover managing non-parenteral medications and safe medication administration. Upon course completion, students will be ready to apply their nursing skills in real-life clinical settings.

VN 200 – Medical/Surgical Nursing I – 88 Clock Hours/8.5 Quarter Credit Hours
Prerequisite: Completion of Module I courses with the required minimum passing grade. Concurrent enrollment is required with all Module II VN courses.
Corequisite: This course is paired with VN 220. Failure in one paired course equals failure in both paired courses.
The first course of the medical/surgical nursing series, through a study of theory relative to the adult client, covers basic pathology, signs, symptoms, incidence, methods of diagnosis and treatment, and medical and surgical conditions. Emphasis is placed on the effect and nursing implications of commonly used drugs, and diet modifications are explored.

The role of the practical nurse in caring for aging patients, both in the home and medical settings, is explored. Clinical experience and client-centered conferences are used to reinforce classroom theory. This course introduces students to the foundation of medical-surgical nursing, such as caring for clients with altered fluid, electrolyte, and acid-base balance, caring for clients in pain, experiencing shock, trauma, and critical illness.

The care for clients with inflammation, infection, altered immunity, loss, grief, and end-of-life care are also covered. Disrupted respiratory, cardiovascular, hematologic, and lymphatic functions are discussed, emphasizing nursing and continuing care. Specific consideration is given to caring for clients with cancer and oncological care.

VN 220 – Clinical II – 278 Clock Hours/9 Quarter Credit Hours
Prerequisite: Completion of Module I courses with the required minimum passing grade. Concurrent enrollment is required with all Module II VN courses.
Corequisite: This course is paired with VN 200. Failure in one paired course equals failure in both paired courses.
This course consists of twelve weeks of externship, integrated with Medical-Surgical Nursing I. Externship schedules will vary as to the term for each student, which allows students to relate theory to practice in a supervised situation. The student's ability to provide safe and effective nursing care to selected clients is evidenced by meeting specific behavioral objectives in each clinical area.

The student's progress is documented on the student's Clinical Progress Sheet. Lack of satisfactory performance is documented on the Counseling/Probation form. A detailed quarterly clinical evaluation is performed on each student with full faculty participation. Clinical areas for this quarter will be primarily Medical-Surgical Nursing, with some students assigned to specialty areas.

VN 230 – Pharmacology – 54 Clock Hours/5 Quarter Credit Hours
Prerequisite: Completion of Module I courses with the required minimum passing grade. Concurrent enrollment is required with all Module II VN courses.
The pharmacology course includes topics related to drug regulations, classification, categorization, administration methods, and metabolism. The basic concepts of pharmacokinetics and pharmacotherapy will be discussed. By the end of this course, students will also be introduced to and become knowledgeable in medications affecting the body systems and drugs affecting fluid, acid-base, and electrolyte balance.

VN 300 – Medical/Surgical Nursing II – 96 Clock Hours/9.5 Quarter Credit Hours
Prerequisite: Completion of Module I and II courses with the required minimum passing grade. Concurrent enrollment is required with all Module III VN courses.
Corequisite: This course is paired with VN 320. Failure in one paired course equals failure in both paired courses.
This course covers more advanced pathology, signs, symptoms, incidence, methods of diagnosis, treatment, and medical and surgical conditions. This course examines disrupted endocrine, urinary, reproductive, neurologic, musculoskeletal, and integumentary functions.

VN 320 – Clinical III – 278 Clock Hours/9 Quarter Credit Hours
Prerequisite: Completion of Module I and II courses with the required minimum passing grade. Concurrent enrollment is required with all Module III VN courses.
Corequisite: This course is paired with VN 300. Failure in one paired course equals failure in both paired courses.
This course allows students to continue to relate theory to practice in a supervised situation and sharpen their clinical skills. The student's ability to provide safe and effective nursing care is evidenced by meeting specific behavioral objectives in each clinical area. The student's progress is documented on the Counseling/Probation form. Clinical areas for this quarter will be medical, surgical, and other specialty focuses.

VN 400 – Obstetrical Nursing – 40 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Module I, II, and III courses with the required minimum passing grade. Concurrent enrollment is required with all Module IV VN courses.
This course emphasizes the total care of the obstetrical client, including the therapeutic uses and effects of drugs during pregnancy, labor and delivery, the immediate postpartum period, and nutrition related to pregnancy and lactation. Care of the newborn is included. The role of the family and the importance of bonding are stressed. Clinical experience and client-centered conferences reinforce classroom theory.

VN 410 – Pediatric Nursing – 40 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of Module I, II, and III courses with the required minimum passing grade. Concurrent enrollment is required with all Module IV VN courses.
This course introduces pediatric nursing through theory. The focus is on meeting the pediatric clients' and families' basic human needs, utilizing critical thinking, therapeutic communication, technical skills, leadership/management skills, effective time management, and the nursing process. Professionalism and caring are emphasized.

The practical nurse's role in growth and development, health promotion, and illness prevention is discussed and demonstrated. The didactic focus is on the most common illnesses and conditions the nurse will likely encounter while working with children and their families in the acute care setting.

VN 420 – Psychiatric Nursing – 32 Clock Hours/3 Quarter Credit Hours
Prerequisite: Completion of Module I and III courses with the required minimum passing grade. Concurrent

enrollment is required with all Module III VN courses.
This course offers an overview of the practical nurse's role in preventing and treating mental illness, nursing management of neurotic and psychotic clients, clients with organic brain syndrome, and suicidal clients. Clinical experience consists primarily of observation.

VN 430 – Clinical IV – 278 Clock Hours/9 Quarter Credit Hours
Prerequisite: Completion of Module I, II, and III courses with the required minimum passing grade. Concurrent enrollment is required with all Module IV VN courses.
This portion of the curriculum allows the student to relate theory to clinical practice in a supervised situation in maternity, pediatric, and psychiatric rotations. The student's ability to provide safe and effective nursing care to selected clients with minimum supervision by the clinical instructor is evidenced by meeting specific behavioral objectives in each clinical area.

VN 450 – Capstone – 42 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of VN 300, VN 320, and VN 420 with the required minimum passing grade.
The VN 450 Capstone course prepares students for practical implementation of the concepts of leadership and management, which comprises many individual projects and documents that prepare the future licensed vocational nurse for professional practice. The capstone course combines the elements of a student-centered environment tailored to the adult learner's needs. The course delivery maintains a flexible learning environment by offering web-based learning strategies. Students enrolled in the course will engage in self-directed learning and participate in determining individual learning needs, planning and implementing the learning experiences, and evaluating experiences.

X-ray Technician with Medical Assistant Skills (XTMAS) Courses – Blended Program
MXT 96 – Medical Terminology – 28 Clock Hours/2 Quarter Credit Hours
Prerequisite: None
This course introduces Basic Word Structures and reviews them as they apply to the Organization of the Body. The foundational elements include Word Roots, Word Parts, Suffixes, and Prefixes. Students reinforce the knowledge by practicing quizzes and listening to and vocalizing terminology for memorization. Students apply learned terminology to patient case studies.

MXT 97 – Back Office Clinical Foundation – 68 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course introduces students to clinical patient care. Students practice professional medical communication with patients and colleagues. Students are taught minor surgery assistance procedures, including setting up, instrument sterilization, and autoclave technique. They learn aseptic medical practice as OSHA requires for exposure control and medical waste disposal.

Pharmacologic terminology and abbreviations are practiced. Students review math skills to calculate dosages correctly and convert grams and ounces for medicine administration. Aseptic practice is reinforced throughout all patient interaction procedures.

MXT 98 – Back Office Clinical Skills – 68 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of MXT 97 with a "C" or better.
This course introduces students to the back office clinical skills associated with a physical examination. The principles of medical ethics are explored, including guarding information privacy and protecting Patient Rights. The structure, function, physiology, and major diseases of the cardiovascular, respiratory, digestive, eye, and ear sense systems are taught in this course.

Additionally, students practice diagnostic tests for each body system and review associated drugs, lab tests, diagnostic studies, and treatment courses. Students will study First Aid and earn CPR Basic Life Support certification through the American Heart Association (AHA BLS for Healthcare Providers).

MXT 99 – Back Office Clinical Laboratory – 68 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of MXT 98 with a "C" or better.
This course introduces students to safety practices, including asepsis and biohazard waste disposal. Students will review the purpose and categories of laboratory tests, including collecting, transporting, and handling specimens. Students will learn about pediatric health management, including measuring height and weight, specimen collection, immunization schedules, and medicine administration.

The relationship between the human body's blood chemistry, microbiology, and nutritional needs and processes is explored. The major diseases of the urinary, endocrine, and reproductive systems are reviewed in this course as they relate to the diagnostic tests, associated drugs, laboratory tests, diagnostic studies, and treatment courses.

XT 110 C – Clinical Practice I – 160 Clock Hours/5 Quarter Credit Hours
Prerequisite: Completion of Module II with a "C" or better.
This course provides 160 hours of supervised clinical instruction and experience in an approved x-ray department of an authorized clinical facility concentrating on the chest, extremity, and torso-skeletal radiography categories. Back office and medical skills are also included. Students must meet attendance requirements and satisfactorily complete the externship objectives.

This course helps prepare students for the limited permit x-ray technician certification examination required by the State of California Department of Health. This course may include out-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XT 111 – Radiographic Patient Care – 42 Clock Hours/4 Quarter Credit Hours
Prerequisite: None
This course introduces students to basic imaging principles and patient care. Students review medical ethics, pediatrics, and geriatrics patient care. The duties and responsibilities of working in Radiology are also presented, emphasizing communication and relationships. A review of infection control and standard and transmission-based precautions are covered. This course will include out-of-school preparation hours for reading and writing assignments, practice and practical application assignments, and projects. A minimum of 20 hours of work outside class will be assigned.

XT 112 – Radiation Physics and Exposure – 58 Clock Hours/5 Quarter Credit Hours
Prerequisite: None
This course teaches the nature and characteristics of radiation, x-ray production, and the fundamentals of photon interactions with matter. Content provides basic information about electricity, magnetism, and electromagnetism and applies these principles to the x-ray circuit. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects. A minimum of 25 hours of work outside class will be assigned.

XT 113 – Radiographic Procedures I – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: None
This course introduces the medical terminology, anatomy, physiology, and common chest, thorax, and upper extremities pathologies. Routine chest, bony thorax, and upper extremity radiographic procedures are described and demonstrated. Students demonstrate competency in performing routine radiographic procedures during simulated radiographic examinations. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of 30 hours of work outside class will be assigned.

XT 113L – Radiographic Procedures I Lab – 30 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: None

This course provides the knowledge to perform standard imaging of the respiratory system, bony thorax, and upper extremities. Consideration will be given to the production of images of optimal diagnostic quality. Course methods will incorporate demonstrations, image analyses, and positioning lab practicum. Students must demonstrate competency in positioning skills, equipment manipulation, and radiation protection before performing these skills under direct supervision in the patient care setting.

XT 120C – Clinical Practice II – 160 Clock Hours/ 5 Quarter Credit Hours
Prerequisite: Completion of XT 110C with a "C" or better.
This course provides 160 hours of supervised clinical instruction and experience in an approved x-ray department of an authorized clinical facility concentrating on chest, extremity, and torso skeletal radiography. Back office and medical skills are also included. Students must meet attendance requirements and satisfactorily complete the externship objectives.

This course helps prepare students for the limited permit x-ray technician certification examination required by the State of California Department of Health. This course may include out-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XT 121 – Radiation Protection and Biology – 70 Clock Hours/6 Quarter Credit Hours
Prerequisite: Completion of Module I with a "C" or better.
This course teaches proper radiation protection for the operator and the patient. The performance of ALARA is emphasized. Regulatory standards of radiographic procedures employing appropriate radiation safety will be identified. This course includes outside-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects. A minimum of 30 hours of work outside class will be assigned.

XT 122 – Digital Imaging – 52 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Module I with a "C" or better.
This course introduces students to x-ray imaging, image quality, and exposure factors contributing to producing a radiographic image. The course focuses on the components and principles of exposure, image evaluation, and operation of digital imaging systems in diagnostic radiography.

Topics such as image acquisition, display, archiving, and retrieval are discussed. The principles of digital system quality assurance and maintenance will also be presented. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of 22.5 hours of work outside class will be assigned.

XT 123 – Radiographic Procedures II – 48 Clock Hours/4.5 Quarter Credit Hours
Prerequisite: Completion of Module I with a "C" or better.
This course introduces medical terminology, anatomy, physiology, and common lower extremity and spine pathologies. Routine radiographic procedures are described and demonstrated for the cervical, thoracic, lumbar, sacroiliac joints, sacrum, coccyx, foot, lower leg, knee, upper leg, hip, and pelvis.

During simulated radiographic examinations, students demonstrate competency in performing routine vertebral column and lower extremity radiographic procedures. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of 17.5 hours of work outside class will be assigned.

XT 123L – Radiographic Procedures II Lab – 30 Clock Hours/1.5 Quarter Credit Hours
Prerequisite: Completion of Module I with a "C" or better.
This course provides a knowledge base necessary to perform standard radiographic procedures of the bony pelvis, lower extremities, and vertebral column. Consideration will be given to the production of images of optimal diagnostic quality. Course methods will incorporate demonstrations, image analyses, and positioning lab

practicum. Students will be required to demonstrate competency in positioning skills, equipment manipulation, and radiation protection before they are allowed to perform these skills under the direct supervision of the patient.

XT 124 – Integration of Theory and Practice – 25 Clock Hours/1 Quarter Credit Hour
Prerequisite: Completion of Module I with a "C" or better.
This course focuses on activities associated with refining radiographic imaging skills and medical assistant skills application in an x-ray environment. Emphasis is placed on proper positioning, image critique, patient care, and radiation protection. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of five (5) hours of out-of-class work will be assigned.

XT 130 C – Clinical Practice III – 160 Clock Hours/5 Quarter Credit Hours
Prerequisite: Completion of XT 120C with a "C" or better.
This course provides 160 hours of supervised clinical instruction and experience in an approved x-ray department of an authorized clinical facility concentrating on chest, extremities, and torso skeletal radiography. Back office and medical skills are also included. Students must meet attendance requirements and satisfactorily complete the externship objectives.

This course helps prepare students for the limited permit x-ray technician certification examination required by the State of California Department of Health. This course may include out-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XT 140 C – Clinical Practice IV – 120 Clock Hours/4 Quarter Credit Hours
Prerequisite: Completion of XT 130C with a "C" or better.
This course provides 120 hours of supervised clinical instruction and experience in an approved x-ray department of an authorized clinical facility concentrating on chest, extremity, and torso skeletal radiography. Back office and medical skills are also included. Students must meet attendance requirements and satisfactorily complete the externship objectives.

This course helps prepare students for the limited permit x-ray technician certification examination required by the State of California Department of Health. This course may include out-of-school preparation hours such as reading and writing assignments, practice and practical application assignments, and projects.

XT 150 – Radiography Seminar – 5 Quarter Credit Hours
Prerequisite: Completion of XT 130C with a "C" or better.
This advanced imaging course enforces professionalism, ethics, legal considerations, patient care, patient safety, radiation protection and measurement, image production, radiographic imaging, and image analysis. This course will include outside-of-school preparation hours such as reading and writing assignments, practice and practical assignments, and projects. A minimum of 25 hours of work outside class will be assigned.

Diagnostic Medical Imaging Advanced Clinical Practicum – Continuing Education Courses

DMI 670C – Advanced Clinical Practicum (45 clock hours)
Prerequisite: None
This course allows students to perform clinical repetitions in advanced imaging modalities, including MRI, CT, or Mammography. Repetitions will be directly related to post-primary certification exam requirements. This course is repeatable a maximum of three (3) times.

International Nurse Graduate Courses – Residential Program

RN 180 – Nursing Transition Advanced Placement Theory and Lab Course (47 clock hours = **3 Semester Units Theory,** 68 clock hours = **2 Semester Units Lab**
Prerequisite: None
This course introduces students to the roles and responsibilities of the registered nurse and the Associate Degree Nursing Program framework. Emphasis is placed on the transition from LVN to RN, legal and ethical responsibilities, nursing process, critical thinking, evidence-based practice, registered nurse competencies, and management in primary, secondary, and tertiary healthcare systems.

The lab component of this course focuses on utilizing the nursing process, critical thinking, and applying theory to skills in various patient case scenarios. The course focuses on dosage calculation, assessment, intravenous administration, central venous access, medication administration, nasogastric feeding, foley catheter insertion, tracheostomy care, and suctioning skills.

RN 300 – Maternal Newborn Theory (3 Units, 45 clock hours)
Prerequisite: None
This course comprehensively covers maternal and newborn care, beginning with preconception planning and including risks in pregnancy and postpartum, maternal and newborn complications, male and female reproductive problems and needs, and family needs and problems during the maternity cycle. Concepts of nutrition, cultural variations, and the safety of mothers and newborns are integrated. Therapeutic use of drugs during pregnancy, labor and delivery, and the immediate postpartum period are included.

RN 301 – Maternal Newborn Clinical (1.5 Units, 67.5 clock hours)
Prerequisite: None
This course is taught at a clinical site, applying theoretical content of patient-centered care of mothers and newborns. The emphasis is on assessment, teaching, and clinical interventions to promote healthy outcomes for families.

RN 302 – Care of Children Theory (3 Units, 45 clock hours)
Prerequisite: None
In-depth identification of various diseases affecting the child through young adulthood, including physical and developmental maturation, is covered. Cultural variations and family interactions are explored. Disease prevention, health maintenance, and appropriate therapeutic interventions such as pharmacologic agents and nutrition are included.

RN 303 – Care of Children Clinical (1.5 Units, 67.5 clock hours)
Prerequisite: None
This course is taught at a clinical site, applying theoretical content into practice with attention to patient-centered, quality care. Interaction with family members facilitates the student's ability to recognize family dynamics and their effects on the developmental process. Advanced skills necessary to care for pediatric patients are achieved through simulation. The application of the nursing process to optimize patient and family outcomes is emphasized.

RN 304 – Medical/Surgical III Theory-Advanced Med/Surg (3 Units, 45 clock hours)
Prerequisite: None
This course provides basic medical/surgical theory related to respiratory, cardiac, neurologic, and musculoskeletal disorders. Disorders of the following systems are reviewed: integumentary, gastrointestinal, genitourinary, endocrine, sensory, and hematology problems.

Develop an understanding of the dynamic sequence of biological, psychological, and sociological changes that occur through older adulthood. Usual growth and development patterns and disruption in critical periods of development are presented and help develop nursing insight, enabling safe, effective, patient-centered care.

RN 305 – Medical/Surgical III Clinical-Advanced Med/Surg (2 Units, 90 clock hours)
Prerequisite: None
This course is taught at a clinical site, integrating the practical application of the advanced medical/surgical theory course caring for selected patients with multiple health disruptions. Students apply the nursing process to optimize patient outcomes.

RN 400 – Mental Health Theory (2 Units, 30 clock hours)
Prerequisite: None
This course addresses theories and principles of psychiatric nursing. Biopsychosocial foundations of behavior, communication, and psychopharmacology are emphasized. Patient relationships and the use of effective and ineffective communication are addressed. The nurse's role in the prevention and early identification of psychiatric disorders of children, adolescents, adults, and older adults and the treatment modalities of mental illness and organic brain syndromes are studied.

RN 401 – Mental Health Clinical (2 Units, 90 clock hours)
Prerequisite: None
This course is taught at clinical sites, facilitating the application of theory into clinical practice in the care of selected patients who may experience psychological stress, neurobiological disorders, and high-risk situations. This includes homelessness, family violence, child abuse, HIV, and post-traumatic stress syndrome. Students apply the nursing process to optimize patient outcomes.

RN 402 – Medical/Surgical IV Theory-Complex Med/Surg & Leadership (3 Units, 45 clock hours)
Prerequisite: None
This course incorporates previous medical-surgical nursing theory emphasizing the integration of pathophysiology, nutrition, pharmacology, and psychosocial components of safe and individualized care for patients with complex medical-surgical health disruptions.

Focus on holistic care for burns, heart failure, acute respiratory distress, shock, multiple organ dysfunction, and traumatic brain injury. Nursing leadership and management are explored in managing complex medical-surgical health alterations.

RN 403 – Medical/Surgical IV Clinical-Complex Med/Surg & Leadership (2 Units, 90 clock hours)
Prerequisite: None
This course is taught at a clinical site, integrating the practical application of the advanced medical/surgical theory course caring for selected patients with multiple health disruptions. Students apply the nursing process to optimize patient outcomes.

POLICIES SPECIFIC TO NEVADA STUDENTS

ACADEMY LOCATIONS & GENERAL DESCRIPTION OF FACILITIES

Nevada Distance Education Facility Location
6390 W. Cheyenne Avenue, Suite F-3
Las Vegas, NV 89108
(725) 218-1600

The San Jose main campus has a distance education facility (office space) in Las Vegas, Nevada. This facility provides distance education to students in Nevada. However, no instruction is administered at the facility, and program enrollment is through the San Jose main campus.

ACCREDITATION, APPROVAL, RECOGNITION, MEMBERSHIP

Gurnick Academy of Medical Arts is licensed to operate by the Nevada Commission on Postsecondary Education and is authorized to offer degree programs. The programs are offered via distance education, and the facility in Nevada is a distance education facility.

LICENSURE, CERTIFICATION, & REGISTRY DISCLAIMER

Graduates from this institution's programs may wish to obtain additional credentials besides the educational credentials obtained from completing their program of study. Certifications are available for all the institution's programs. Nevada does not require MRI technologists to obtain any license or certification for the Associate of Science in MRI program.

Outside agencies control licensing examinations and their content. Gurnick Academy of Medical Arts cannot guarantee that graduates will pass their licensing examinations. Registration or license requirements for taking and passing the examination are not controlled by Gurnick Academy of Medical Arts but by outside agencies. They are subject to change by the agency without notice to Gurnick Academy of Medical Arts. Therefore, Gurnick Academy of Medical Arts cannot guarantee that graduates will be eligible to take licensing certification exams at any specific time, regardless of their eligibility status upon enrollment.

The specific programmatic accreditation of Gurnick Academy of Medical Arts programs often impacts program graduates' eligibility. Several of Gurnick Academy of Medical Arts' programs possess appropriate programmatic accreditations that meet certifying agency educational requirements. Please refer to the individual program listings in this catalog to determine the programmatic accreditation standing of a specific program.

Programs Specific Licensure, Certification & Registry Disclaimer

Associate of Science in MRI Program (A.S. in MRI)
Graduates of the Associate of Science in MRI Program can sit for the ARRT® (MR) exam.

FINANCIAL POLICIES

REFUND

If Gurnick Academy of Medical Arts has substantially failed to furnish the training program agreed upon in the enrollment agreement, Gurnick Academy of Medical Arts shall refund all the money the student has paid.

If a student cancels their enrollment before the start of the training program or within three (3) days after signing the Enrollment Agreement, Gurnick Academy of Medical Arts shall refund the student all the money the student has paid.

Cancellation may occur when the student provides a written or oral cancellation notice to the campus. This can be done electronically, by mail, hand delivery, or over the phone. If sent by mail, the written cancellation notice is adequate when deposited in the mail and addressed correctly with sufficient postage. The written notice of cancellation does not need to take any particular form and is effective if it shows that the student no longer wishes to be bound by the Enrollment Agreement.

If a student withdraws or is expelled by Gurnick Academy of Medical Arts after the start of the training program and before the completion of more than 60 percent of the program, Gurnick Academy of Medical Arts shall refund the student a pro rata amount of the tuition agreed upon in the enrollment agreement, minus 10 percent of the tuition agreed upon in the enrollment agreement or $100, whichever is less.

If a student withdraws or is expelled by Gurnick Academy of Medical Arts after completing more than 60 percent of the training program, Gurnick Academy of Medical Arts is not required to refund the student any money. It may charge the student the entire cost of the tuition agreed upon in the enrollment agreement.

If a refund is owed, Gurnick Academy of Medical Arts shall pay the refund to the person or entity who paid the tuition within 15 calendar days after whichever is applicable:

1. Date of cancellation by a student of their enrollment;
2. Date of termination by the institution of student enrollment;
3. Last day of an authorized leave of absence if a student fails to return after the period of authorized absence or
4. Last day of attendance of a student.

The refund policy does not include books, educational supplies, or equipment for individual use. Gurnick Academy of Medical Arts must pay a separate refund to the student if the student did not use those items. The administrator must resolve disputes for refunds on a case-by-case basis.

For this section:

1. A student's attendance period must be measured from the first day of instruction as outlined in the enrollment agreement through the student's last day of actual attendance, regardless of absences.
2. The period for a training program is outlined in the enrollment agreement.
3. Tuition must be calculated using the tuition and fees outlined in the enrollment agreement and does not include books, educational supplies, or equipment listed separately from the tuition and fees.

If Gurnick Academy of Medical Arts cancels or changes a training program agreed upon in the enrollment agreement, Gurnick Academy of Medical Arts will:

1. Offer the student a fair chance to complete the same program or another program with a demonstrated possibility of placement equal to or higher than the possibility of placement in the program in which the student is enrolled within approximately the same period at no additional cost, if available, or
2. Obtaining the student's written agreement to the specified changes and a statement that the student is not being coerced or forced into accepting the changes unless the cancellation or change of a program is in response to a change in the requirements to enter an occupation.

ACCOUNT FOR STUDENT INDEMNIFICATION

Under NRS 394.553, the Nevada Commission on Postsecondary Education has established an account for student indemnification, which may be used to indemnify a student or enrollee who has suffered damage as a result of an institution's:

- Discontinuance of operation of a postsecondary educational institution licensed in this state; or
- Violation by such an institution of any provision of NRS 394.383 to 394.560, inclusive, or the regulations adopted under that.

In addition to the expenditures made for indemnification, the money in the Account may be used to pay extraordinary expenses incurred to investigate claims for indemnification or resulting from discontinuing the operation of a postsecondary educational institution licensed in this state.

STUDENT CODE OF CONDUCT

DRUG-FREE

Local, State, and Federal Legal Sanctions

Laws Governing Alcohol, Controlled Substances & Health Risks

A violation of any law regarding alcohol and controlled substances violates the Student Code of Conduct. It will be treated as a separate disciplinary matter.

Drug use during pregnancy may result in fetal damage and congenital disabilities, causing hyperactivity, neurological abnormalities, and developmental difficulties.

PREGNANCY

Gurnick Academy of Medical Arts provides all students with a safe environment for clinical experiences and training. In compliance with regulations regarding pregnant students, female students have the option to inform program officials whether they are pregnant. With written notification to the Program Director, the student may change from one option to another during the pregnancy if all program objectives, courses, and competencies are completed. However, if a student chooses to declare her pregnancy to program officials, she must provide written notification.

A student may submit a written request to withdraw her declaration without question at any time. A student who has decided to declare her pregnancy will be allowed to choose one of the following options to complete the training at Gurnick Academy of Medical Arts.

Options

1. Continuing the training without modification or interruption. This option means that the student agrees to attend and complete all classes, clinical assignments, and competencies in a manner consistent with her peers within the guidelines set forth by the instructors and Gurnick Academy of Medical Arts. The student must present a letter from a physician releasing the student to continue training with Gurnick Academy of Medical Arts, reserving the right to contact the physician to verify the student's physical activity level and ability to complete all requirements of the clinical experience.
2. The student may take a leave of absence for such a long period as is deemed medically necessary by the student's physician, at the end of which the student shall be reinstated to the status she held

when the leave began. The student must make up all missed clinical and didactic hours and complete all the necessary competencies. This option timing is contingent upon an available student position in an appropriate clinical facility.

For students in the Associate of Science in Magnetic Resonance Imaging Program, there is an additional option:

3. Students may also continue the training with a modification of clinical assignments. This option means the student may delay clinical assignments or competencies in areas with potentially hazardous exposure. However, to accomplish this, the training may need to be extended. The student must make up all missed clinical and didactic hours and complete all the necessary competencies. The student will present a letter from a physician releasing the student to continue in training.

STUDENT GRIEVANCE AND APPEALS

Our academy is dedicated to fair treatment and professional conduct with students. In compliance with Office of Civil Rights (OCR) recommendations, this policy and procedure about grievances of various natures, including but not limited to academic discrimination, harassment, and bullying. Students are first encouraged to discuss any concerns or questions regarding policies or decisions rendered directly with the party with whom the student has a concern.

Should any student have a complaint, the student is asked to discuss the matter within five days directly with an Instructor or Administrative Manager/Designated School Official, who will initiate an informal process to settle the dispute in good faith. That informal process will involve three steps:

1. An effort to define the problem
2. An effort to identify acceptable options for resolution
3. An attempt to resolve the conflict through the application of one or more acceptable options for resolution

If, as a result of these discussions, the student does not feel that the issue has been satisfactorily resolved, they may, within five (5) days, file a written complaint directly with the Program Director, who will do their best to resolve the matter at hand for the student and the academy. The Program Director will try to resolve or alleviate the complaint or grievance that the student presents within five (5) days of receipt. If, after following these steps, the Program Director cannot remedy the issue and the student is still unsatisfied with the solution, then the Campus Director will investigate all written complaints, attempt to resolve all such complaints, and record an entry into the campus's official log.

The formal process will require the student's submission of a written description of the specific complaint and the desired remedy, accompanied by any available documentation. The Campus Director will have five (5) days to respond to the grievance and determine a proper action. The Campus Director may notify the student of the decision reached. Students may also follow the Appeals Procedures outlined below for further action if necessary.

To provide students with a neutral mechanism for the reconsideration of disciplinary actions or performance evaluations that would necessitate the dismissal of the student from a program, Gurnick Academy of Medical Arts has a designated Appeals Committee consisting of the following individuals: Chief Academic Officer, Chief Operations Officer, Chief Executive Officer, and Vice President, Campus Operations.

Note: A student must stay within the appeal process and only contact the Appeal Committee members if directed by a Campus Director or Committee member. A student who goes outside the procedure of this policy will be denied their appeal.

If the Campus Director cannot remedy the issue and the student is still unsatisfied with the outcome, the student may ask the Campus Director, in writing, to forward all written grievances and correspondence to the Appeals Committee. The Appeals Committee will have five (5) working days to respond to the appeal and determine a proper course of action.

All grievances and appeals will be handled discreetly. Dissemination of the resolution will be at the discretion of the Campus Director or Appeals Committee and on a "need-to-know" basis. The decisions rendered by the Appeals Committee will be the final and binding decision of the academy.

Students may be withdrawn either by self-withdrawal or by academic withdrawal. A student who self-withdraws will be processed through the drop process. Students who are academically withdrawn may dispute the withdrawal through the student grievance and appeals process. To initiate the grievance and appeals process, the students must submit a written appeal within five (5) days of being notified of the withdrawal. After five (5) days, the student will be dropped via the drop process if no written appeal has been submitted.

If a written appeal is submitted within the allotted time, the student grievance and appeals process will start, and the student will be placed on Active Warning status and must attend all instruction until the grievance and appeals process has been completed and a final decision has been made. Please see the Student Grievance and Appeals section for detailed information.

Students enrolled in licensed, private postsecondary institutions may register a legitimate complaint with the Commission on Postsecondary Education.

Before filing a complaint, you must attempt to resolve the issue with school officials according to the policies of the school which you are attending. If you cannot reach a solution, you may contact the Commission, and they will attempt to resolve the issue.

If a resolution cannot be reached, you will be required to complete a formal complaint form; formal complaints are investigated by staff, and the administrator of the Commission decides. If either party does not agree with that decision, an appeal to the full Commission may be requested:

NRS 394.520 allows for the following:

1. A full refund can be ordered if it is determined that the school substantially failed to furnish the education agreed to in the enrollment contract;
2. One-half of all monies paid can be ordered if it is determined that the school substantially furnished the education stated in the enrollment contract. Still, the conditions were substandard to the point the student could not be expected to complete the training.

More information, including complaints forms, can be found at www.cpe.nv.gov. Or contact:

Commission on Postsecondary Education
1860 East Sahara Avenue, Las Vegas, NV 89104
702-486-7330 (Phone) | 702-486-7340 (Fax)

STUDENT SERVICES

Consumer Protection

Gurnick Academy of Medical Arts has not entered into a transfer or articulation agreement with any other college or university. As a prospective student, you should review this catalog before signing an enrollment

agreement.

PROGRAM DELIVERY

The Associate of Science in MRI delivery method is blended. Lectures and labs are held online, and clinical/practicum is at an assigned clinical site(s).

US AND NEVADA CONSTITUTION

Under NRS 394.150, the Nevada Commission on Postsecondary Education requires that all private schools, colleges, and universities located within the state of Nevada, except those operated exclusively for employees of the Department of Defense of the Federal Government and their families, provide instruction in the essentials of the Constitution of the United States and the Constitution of the State of Nevada, including the origin and history of the Constitutions and the study of and devotion to American institutions and ideals. Students who reside in Nevada must receive instruction on the US and Nevada Constitution and pass an examination during orientation.

COURSE DESCRIPTIONS

Orientation – Distance Education (Online)

SNO 001 – US and Nevada Constitution – Pass/No Pass
Prerequisite: None

The instruction on the United States Constitution and the Nevada State Constitution provides the student with the essentials of the two (2) Constitutions, which gives the learner an overview of the elements, similarities, and unique aspects of each.

POLICIES SPECIFIC TO UTAH STUDENTS

STUDENT CODE OF CONDUCT

STUDENT GRIEVANCE AND APPEALS

If a student complaint cannot be resolved after exhausting Gurnick Academy of Medical Art's Student Grievance Procedure, the student may file a complaint with the Utah Department of Commerce – Division of Consumer Protection. The student must contact the Department for further details:

160 East 300 South Salt Lake City, UT 84111
800.721.7233 | Website: https://dcp.utah.gov/

NOTE: Please review the attached Addendum for any changes and updates that we may have regarding our programs and the Academy as a whole.

Discussion and Possible Action Regarding Potential Enforcement Action Against the Cabrillo College Dental Hygiene Educational Program.

MEMORANDUM

DATE	March 27, 2026
TO	Education Committee Dental Hygiene Board of California
FROM	Adina A. Pineschi-Petty DDS Education, Legislative, and Regulatory Specialist
SUBJECT	**EDU 5: Discussion and Possible Action Regarding Potential Enforcement Action Against the Cabrillo College Dental Hygiene Educational Program.**

BACKGROUND:

Dental Hygiene Board of California (Board) staff conducted an unannounced site visit at the Cabrillo College Dental Hygiene Educational Program (Cabrillo) on February 12, 2026. This site visit was generated due to a complaint. Evidence of program compliance with the minimum Dental Hygiene Educational Program (DHEP) standards set by the Business and Professions Code (BPC), the California Code of Regulations (CCR), and the Commission on Dental Accreditation (CODA) was deficient.

Cabrillo was determined to have eight (8) violations (see "Cabrillo Site Visit Report," attached.) The most egregious of the violations is that Cabrillo is failing to ensure dental hygiene students complete all required student clinical hours and requirements for competency established by Cabrillo, the Board, and CODA, as verified through documentation reviewed by Board staff.

As reported:

I. Violation 1 - Inadequate Clinic Supervision (Faculty to Student Ratios).

A. Complaint:

1. Clinic is repeatedly understaffed by faculty, resulting in faculty to student ratios to often being out of compliance with DHBC educational regulations and CODA Standards.

2. Students are being advised that they can enter the clinic without faculty supervision.

B. Discovery:

1. Board site visit team arrived at Cabrillo at 9:00 a.m., finding only three (3) faculty members for 20 students in the clinic, resulting in a ratio of one (1) faculty member to seven (7) students.
   a. Clinic was out of compliance until a part-time faculty member arrived at 10:30 a.m., as observed by Board site visit team.

2. Student observed in sterilization without faculty oversite by Board site visit team.

3. Cabrillo was cited by the Board in 2019 for the same concern.

II. Violation 2: Inadequate Student Clinical Hours.

A. Complaint:

1. Students are not held accountable if they do not have a patient for the clinic session ("empty chair").

2. Dean has told faculty that they cannot hold the students accountable for the "empty chair" policy.

B. Discovery:

1. **Twenty** out of **twenty** students **did not** have the **required** number of clinical hours to progress to the successive clinical course.

   a. Cabrillo students are in violation of Cabrillo's "Empty Chair" policy, missing anywhere from 12 to 44 hours of required Cabrillo clinic hours to establish competency in patient care.

   b. Cabrillo students are not completing required Cabrillo clinical hours and therefore do not meet Cabrillo's clinical hour requirements to establish competency in patient care and meet established Cabrillo graduation requirements.

2. Cabrillo faculty informed the Board site visit team that the Dean would not allow Cabrillo faculty to enforce the Cabrillo policy allowing only two (2) "empty chairs" for the clinical course, nor allow the Cabrillo faculty to employ the Cabrillo remediation policy to hold students accountable for excessive "empty chairs."

III. Violation 3: Student Competency.

A. Complaint:

1. Students are progressing to successive clinical courses without completing required course competencies and requirements.

2. Dean has informed faculty that they cannot fail the students.

B. Discovery:

1. **Seven (7)** out of **twenty** students (approximately one third) **should not** have progressed to the successive clinical course due to deficient completion of competencies and requirements.

   a. Cabrillo students are not completing the required number of clinical competencies and requirements and therefore do not meet Cabrillo's requirements to establish competency in patient care and meet established Cabrillo graduation requirements.

2. Cabrillo faculty informed Board site visit team that the Dean would not allow Cabrillo faculty to make appropriate grade adjustments or fail students due to missing competencies or requirements and directed the Cabrillo faculty to pass all students onto the successive clinical course.

IV. Violation 4: Program Director Assignment and Authority.

A. Complaint:

1. Program director is not consistently on campus and lacks availability to students and faculty.

2. Cabrillo faculty report concerns that the Dean is overstepping her authority and preventing the program director from having the required authority and responsibility necessary to operate the DHEP.

B. Discovery:

1. Board site visit team arrived at Cabrillo at 9:00 a.m. and program director was "offsite" at a meeting and did not arrive to the clinic until 9:40 a.m. due to Board site visit team requesting her presence.

2. Program director assignment does not comprise the primary responsibility for the operation, supervision, evaluation and revision of the program

   a. Program director assignment fails to provide the necessary and required support to the students and faculty of the Cabrillo DHEP, thereby allowing deficient oversite of the program

3. Cabrillo was cited by the Board in 2024 for the same concern.

V. Violation 5: Faculty Support.

A. Discovery:

1. Only one (1) full-time faculty member (program director) is assigned to the Cabrillo DHEP.

    a. Results in a reduction of 66% of full-time faculty support.

    b. Dean informed the program director that this is due to a “budget issue.”

2. Cabrillo was cited by the Board in 2019 and 2024 for the same concern.

VI. Violation 6: Staff Support.

A. Complaint:

1. Students are being advised that they can enter sterilization area without supervision even though there are pharmaceuticals within their reach.

    a. Complaint states sterilization area has always required instructor supervision to ensure proper safety and infection control.

B. Discovery:

1. Board site visit team observed unsupervised students overseeing sterilization and infection control processes.

    a. Sterilization assistant did not arrive at the clinic until 10:00 a.m., two hours after clinic began.

2. Cabrillo was cited by the Board in 2019 for the same concern.

VII. Violation 7: Student Resources.

A. Discovery:

1. Students required to provide their own personal protective equipment (e.g., gloves, masks, etc.) and clinic patient tracking forms.

a. Poses a significant cost incurrence to students and prohibited by law.

2. Cabrillo faculty stated these costs are passed onto the students due to "budgetary restrictions."

VIII. Violation 8: Renewal of DHBC Concerns Regarding Stable Financial Resources.

A. Discovery:

1. Despite the repeated assurances by Cabrillo that the College has the strength and stability to fully fund and maintain the DHEP, the DHBC has again discovered "budgetary concerns" that are affecting the DHEP.

   a. Please refer to above violations 5, 6, and 7 as to areas where "budgetary concerns" are cited.

2. Despite repeated assurances the program director and faculty would not be required to staff the "Expanded Duties Courses" (i.e., Soft Tissue Curettage, Local Anesthesia, and Nitrous Oxide-Oxygen Analgesia courses) to "fundraise" and provide the sole funding source ("Fund 16") to the DHEP, yet this practice continues.

   a. Cabrillo program director and faculty required to "fundraise" to support the program which causes undue stress and requires program director and faculty to work non-contracted, personal time to ensure the program is funded to remain functioning.

3. The Board has cited Cabrillo for lack of a stable funding source to maintain the DHEP in both 2019 and 2024.

STAFF RECOMMENDATION:

As Cabrillo demonstrates repeated violations of California laws, regulations, and CODA Standards by promoting students lacking Cabrillo, CODA and California state mandated requirements for licensure, staff recommends the Education Committee to recommend to the Full Board to require the Cabrillo College Dental Hygiene Educational Program's Class of 2026 to complete all deficient clinical hours, requirements, and competencies prior to graduation of the class, issue a citation and the fine of $5,000, and place Cabrillo on a 3-year probation period with quarterly reporting requirements identifying corrective measures where the program will be reassessed. Additionally, during the probation period, Cabrillo may experience announced and unannounced site visits from Board staff to check on the progression toward compliance or further Board action.

PROPOSED MOTION LANGUAGE:

As Cabrillo demonstrates repeated violations of California laws, regulations, and CODA Standards by promoting students lacking Cabrillo, CODA and California state mandated requirements for licensure, I move for the Education Committee to recommend to the Full Board to require the Cabrillo College Dental Hygiene Educational Program's Class of 2026 to complete all deficient clinical hours, requirements, and competencies prior to graduation of the class, issue a citation and the fine of $5,000, and place Cabrillo on a 3-year probation period with quarterly reporting requirements identifying corrective measures where the program will be reassessed. Additionally, during the probation period, Cabrillo may experience announced and unannounced site visits from Board staff to check on the progression toward compliance or further Board action.

Cabrillo College Report for a Change of Enrollment Pattern

The administration at Cabrillo College is formally requesting a modification to the enrollment pattern of the Dental Hygiene Program. We propose admitting a cohort of 20 students every other year, rather than on an annual basis. The requested adjustment is based on the assessment of the program's resources, as well as a strategic response to decreasing financial resources for the College.

Current Enrollment Pattern Approval

The Cabrillo College Dental Hygiene Program currently admits 22 students every year. However, in 2020 and 2022 Cabrillo requested and received CODA approval for two periods of non-enrollment. In 2020 the period of non-enrollment was due to Covid-19 restrictions. In 2022 a request for non-enrollment was due to the inability of the electrical infrastructure to maintain the increased demands of local exhaust ventilation (LEV) equipment required after the pandemic. The electrical insufficiency reduced the clinic operations by 50%. During construction the clinic could support only a single cohort.

Proposed Enrollment Pattern

Cabrillo College is requesting to admit 20 students every other year, starting from the next academic cycle in June 2025. The first cohort under this new enrollment pattern would begin in June 2026. Subsequent cohorts would follow every two years.

Impact on Educational Program

The requested change in the enrollment pattern will not affect the current curriculum or instruction. The content and sequence of the curriculum will remain the same (Exhibit A). Additionally, the program’s duration and completion timeline for the cohort will be unchanged, ensuring that educational outcomes continue to align with CODA standards and the existing program goals.

Impact on Students

The primary impact of the requested change would be a slower pace for students moving off the waitlist. Accurately determining a student's actual waiting period is challenging, as students can apply to the dental hygiene program's waitlist before completing all prerequisites. In fact, students only need to complete the “A” category requirements at a satisfactory level to apply (Exhibit B). This has led to situations where students must defer enrollment because they have not yet fulfilled all entry requirements. As a result, the time a student spends on the waitlist does not accurately reflect the time they completed the necessary requirements and waited for enrollment.

As previously mentioned, the Cabrillo Dental Hygiene program has had a single cohort for the past four years, which allows us to confidently project the impact on waitlisted students. Over this period, waitlisted students have averaged 2 years from the completion of the “A” category requirements until entry into the dental hygiene program (see Exhibit C). Given these considerations, the negative impact on students is expected to be minimal.

Moreover, reducing the program to a single cohort offers a significant benefit to students. The dental hygiene program maintains a small pool of patients who return for care regularly. It has become increasingly difficult for students to find the necessary patients to meet clinical requirements. By having a single cohort, the program can distribute returning patients among 20 students rather than 44, thereby reducing the pressure and stress of finding 46 of their own patients.

Impact on Faculty

In anticipation of a potential reduction in our dental hygiene program, hiring was intentionally limited to only what was absolutely necessary for the return of a second cohort this past June. This fall, faculty assignments were slightly above the typical part-time load in order to retain faculty should a new enrollment pattern be approved. Over the past four years of operating with a single cohort, we have consistently employed an average of two to three full-time faculty and 20 part-time faculty, which mirrors our current staffing (Exhibits E and F). It is important to note that many of the part-time faculty are available only for a single clinic or a single day of teaching. Many part-time faculty ask off for an entire semester at a time. The schedule for the fall semester of 2024 had three faculty request no schedule. The third semester is typically challenging as faculty loads increase with the clinic curriculum, but otherwise loads are fairly consistent throughout the program (Exhibit E).

Additionally, one full-time faculty member and two part-time clinical faculty members have announced plans to retire at the end of the academic school year. Since the faculty is largely composed of hygienists and dentists retired from private practice, it is likely that several more clinical instructors will announce their departure over the next year (Exhibit G). Notably, eight of the thirteen faculty members in the category “aged over 60”, are in fact, over age 70.

On a final note concerning faculty, it has become increasingly difficult to recruit enough faculty to sustain two cohorts. Reducing the program to one cohort would alleviate the burden of finding qualified faculty amidst the current dental provider shortage.

Impact on Patients

It is difficult to estimate the impact this change will have on patients. We lack the measurement instrument to unequivocally determine the percentage of actual community patients. It is estimated that 75% of the patients served by the Dental Hygiene clinic are friends, family, and acquaintances of the students. Most often these patients do not return once the student graduates. This time frame coincides with the gap in care when the first semester students are practicing on each other rather than on community patients. Despite having had a single cohort the past four years, the dental hygiene clinic continues to maintain a small and steady patient base. Clinic patients can utilize the gap in availability to return to their dentist for their annual exam which is required by the dental hygiene clinic to continue preventive care.

Cohort Size

Reducing the cohort size from 22 to 20 will allow for more efficient utilization of the approved instructor-to-student clinical ratio of 1:5. The rationale behind the original selection of a cohort size of 22 for this program is unclear, as it is not ideal for the current enrollment pattern nor for

the proposed changes. By adjusting the cohort size, we aim to address this inefficiency in conjunction with the requested change in the enrollment pattern.

Compliance with CODA Standards

The program will continue to meet all CODA standards regarding curriculum, faculty, facilities, resources, and student support services. This change will not impact the program's ability to provide dental hygiene education that prepares graduates for successful careers in the field. The program will monitor the impact of the changes on student outcomes, faculty workload, and resource allocation.

Conclusion

The proposed change in the enrollment pattern is intended to align the program's operating size with current financial resources. It is our hope that the Cabrillo College Dental Hygiene program will be able to reinstate a second cohort in the future when it becomes financially viable. Despite these adjustments, the program remains fully committed to upholding CODA standards and delivering a rigorous dental hygiene education that ensures students are well-prepared for success.

Exhibit B. Cabrillo College Dental Hygiene Admissions Policy

The Associate in Science in Dental Hygiene will help prepare students to be eligible to take the state and national licensing examinations. A dental hygienist is a person who is trained and licensed to provide dental hygiene therapy, expose dental x-rays, and provide preventative services, usually under the supervision of a dentist. The dental hygiene profession demands a high level of ethics, professionalism, critical thinking, and manual dexterity.

The dental hygiene program at Cabrillo College is affiliated with the University of the Pacific, Arthur A. Dugoni School of Dentistry, San Francisco.

This Associate in Science degree requires completion of a 21-unit general education pattern. Completing the program prerequisites and additional graduation requirements will meet most areas of the Associate in Science degree general education pattern. Visit Cabrillo College's general education page for additional information.

Due to the rigorous academic nature of the dental hygiene program it is advisable to complete the general education requirements for the Associate of Science in Dental Hygiene before entering the program. The dental hygiene program follows the academic policies and procedures listed in the Cabrillo College catalog and the dental hygiene student policy handbook.
Program prerequisite information: Applications will not be considered complete if prerequisites are in progress and/or the student's files are incomplete.

Required prerequisites:
BIO4 Human Anatomy 4 units
BIO 5 Human Physiology 4 units
BIO 6 Microbiology 4 units
CHEM 30A Inorganic Chemistry for Health Occupations 4 units OR CHEM 3/3L Introductory Inorganic Chemistry/Laboratory
CHEM 30B Introductory Organic Chemistry and Biochemistry for Health Occupations 4 units
ENGL 1A/AH/AMC/AMCH/ESL1A 3 units.

Note: CHEM 30A or CHEM 3/3Lis a prerequisite for CHEM 30B, BIO 5, and BIO 6. These prerequisites may also be used to satisfy appropriate general education areas. Successful completion of these prerequisites or equivalent is required before applying to the dental hygiene program. It is required that all science prerequisites be completed within the last six (6) years. Applicants are permitted to repeat prerequisites for a better grade provided the course was completed more than six (6) years ago. For these students, submit a petition to repeat a course through e-Forms.

Program application information: It is strongly suggested that students meet with an academic counselor to review coursework before applying to the dental hygiene program.
It is the responsibility of the applicant to inform the Dental Hygiene department of any change in address or telephone number.

Admission to the dental hygiene program requires a separate and additional process to the general college admission. The dental hygiene information and application forms are available online at https://www.cabrillo.edu/dental-hygiene/getting-into-the-program/ General college admission information is available on the Admissions & Records website at https://www.cabrillo.edu/admissions-and-records/ Read all material in the application packet and the appropriate sections of the Cabrillo College catalog about the Associate of Science in Dental Hygiene, academic regulations, attendance, and graduation requirements.

Return the completed dental hygiene application forms by United States Postal Service certified mail and return receipt to the dental hygiene program:

A completed application includes:
1. Dental Hygiene application form.
2. Minimum Physical and Non-Physical Standards form.
3. Transcripts documenting ALL completed college coursework. *Cabrillo College courses only: Print one (1) WebAdvisor unofficial transcript. * ALL other colleges/universities attended: One (1) sealed official transcript.

Admission to the waitlist is based on:
1. Completed application as outlined above,
2. Receipt of complete application via United States Postal Service certified mail and return receipt requested,
3. Completion of all science prerequisites with a GPA of 2.7 or better,
4. Completion of English prerequisite with a minimum grade of "C" or better.

Acceptance to begin the Dental Hygiene program courses is based on: Documentation of a high school diploma or the recognized equivalent. Completion of the following additional graduation requirements with minimum grade of "C" or better: COMM1 or COMM 1H or COMM2, PSYCH 1 or PSYCH 1H, NUTR20, SOC1 or SOC1H or SOC2 or SOC2H. Note: SOC 2/2H is a multicultural studies course (cultural diversity). Completion of transferable college-level math course (such as MATH 1, MATH 10, MATH 12, PSYCH 2A) with a grade of C or better. Health screening and clinical compliance requirements: To comply with state and local regulations for health care providers, students enrolled in the Cabrillo College dental hygiene program are required to meet health screening and clinical compliance according to program guidelines, including vaccination and drug testing requirements and to provide documentation thereof. Students are also required to complete criminal background checks and drug screening, and may be denied access to clinical facilities based on the results.

Program retention and completion: Program retention is based on a minimum grade of "C" in all courses in the published dental hygiene curriculum. Courses must be taken in sequence. If a student does not pass a course, then they must repeat the course in sequence.

Aptos, CA 95003

March 5, 2026

Anthony Lum, Executive Officer and
Members of the Board of the
Dental Hygiene Board of California
2005 Evergreen Street, Suite 1350
Sacramento, CA 95815

Re: Letter dated February 20, 2026, from Dr. Adina Pineschi-Petty

Dear Mr. Lum and Board Members:

The Cabrillo Community College of Santa Cruz County is submitting this response to the letter we received from your Education, Legislative, and Regulatory Specialist, Dr. Adina Pineschi-Petty. A copy of her letter is attached for your reference.

We have spent no less than 40 hours reviewing and drafting a response to the unreasonable and unfounded allegations of violations that Dr. Pineschi-Petty has set out in her letter. However, it is important to us and our program that you are provided with all the relevant information so that we can conclude this matter and spend our time and resources in improving our program for our students.

We have set forth below the alleged violations in the order presented by Dr. Pineschi-Petty's letter.

Violation 1: Inadequate Clinic Supervision (Faculty to Student Ratios).

The DHBC Specialist alleges a violation of faculty-to-student ratios.

Response: Enclosed is documentation regarding faculty support and faculty-to-student ratios. Evidence: Google Sheet Schedule Grid for clinic courses DH 183. (See Attachment 1)

(see 16 CCR 1105(b)(4), CODA 2-5, 3-5)

The site visit observation of a 1:7 ratio occurred only on one day when an unexpected faculty absence occurred, and no substitute coverage was secured despite early notification. The College made every attempt to hire a substitute instructor, but none were available. This reflects a general shortage of staff, not a disregard for supervision standards. We disagree with the complainant's statement that the "clinic is repeatedly understaffed by faculty, resulting in faculty-to-student ratios often being out of compliance." The program director called all available faculty for coverage. Dr. Ray agreed and was on-site by 10 am, bringing the ratio back into compliance. The ratio was out of compliance for 75 minutes on this particular day of the visit by DHBC staff.

Actions planned by Cabrillo to assure sufficient ratios include the following:

- Immediate restructuring of clinic supervision scheduling
  Development of an emergency substitute faculty coverage protocol and/or pool

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

- An open recruitment is currently posted on Cabrillo's HR website. Interviews are scheduled throughout the month of March.
  The Program Director will prioritize on-site clinic presence during all clinical sessions
- Documentation of daily faculty-to-student ratios will be maintained and submitted as evidence of ongoing compliance.

(See Attachment 1)

Violation 2: Inadequate Student Clinical Hours

The DHBC Specialist found that students are not completing the required Cabrillo clinical hours to achieve competency in patient care and meet graduation standards.

Response: The District has taken steps to solve the problem of empty chairs and does not advance or graduate students who fail to meet the clinical hour requirements of the program. The DHBC Specialist fails to provide the name of a single student who was advanced from DH 181 to DH 183 without meeting the clinical hours requirement.

In addition, the District has made serious good faith efforts to fill the empty chairs. Both Dean Weber and the Director have dedicated significant time and effort to supporting the success of the dental hygiene program. Together, they developed and implemented social media marketing campaigns, created new promotional materials, and mailed more than 700 postcards to community members advertising low-cost dental cleanings. These initiatives were undertaken in response to concerns about "empty chairs" in the clinic, with the goal of increasing patient volume and ensuring students have adequate opportunities to complete required competencies.

The existing empty chair policy is punitive in nature, as students lose points when their assigned chair is unfilled. In alignment with our commitment to fostering a supportive and engaging learning environment, the Dean and Director determined that students should not be penalized for circumstances beyond their control. The Dean encouraged faculty to revisit and revise the empty chair policy to better reflect our shared values of supporting students throughout their educational journey.

Through these coordinated marketing and outreach efforts, the intent was to increase patient participation, reduce empty chairs, and provide students with the clinical experiences necessary to achieve program competencies without punitive consequences.

(See Attachment 2)

Violation 3: Student Competency

The DHBC Specialist found that students do not achieve all Cabrillo required competencies prior to graduation.

Response: Cabrillo ensures each student completes all Cabrillo required competencies prior to graduation.

- Competency tracking matrices are recalibrated
- Individual student remediation plans have been developed

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

- The district recently assigned associate faculty member Pam Farley to provide 38 hours of tutoring support to students with a focus on X-Ray protocols.
- The district recently assigned associate faculty member Leanne Albers to provide 38 hours of tutoring support to students with a focus on clinical skills and competencies.
- Faculty calibration meetings have been scheduled throughout the semester to ensure consistent grading and competency enforcement
- Documentation of competencies is audited weekly
- Academic standards and competency requirements continue to be enforced in alignment with CODA standards.
- All Dental Hygiene courses are coded with a computer-enforced prerequisite. A student cannot enroll in a future course if they have not passed the current course.
- All seven students cited in the complaint received "Incomplete" grades that were submitted by the instructor of record, April Hoops, not the Dean.
- Pursuant to Article 4.3 of the collective bargaining agreement with the faculty association, the District acknowledges that faculty members have the principal right and responsibility to determine: The fair and equitable methods of assessment in their assignment.

We disagree with the complainants'/Specialist's allegations "that Dean Heidi Weber would not allow Cabrillo faculty to make appropriate grade adjustments or fail students in DH 181 due to missing competencies or requirements and directed the Cabrillo faculty to pass all students onto the successive clinical course (DH 183)." We do not agree with this characterization of events. Dean Weber's actions were in support of District policies on grades and incomplete contracts. The following allegations are also false:

> The complaint states that students are progressing to successive clinical courses without completing the required course competencies and requirements. The facts are the following:
>
> - Seven students were given incomplete grades and subsequently entered into a contract with the instructor of record to complete the required competencies.
> - All seven students worked with the instructor to complete the skills and competencies.
>
> - When those competencies were met, the incomplete grades were changed to passing grades. This is an appropriate and valid District policy.

The complaint states that Dean Heidi Weber has told faculty that they cannot fail the students. This is also false. During a flex week department meeting with Dental Hygiene faculty, Dean Weber spoke about changing the punitive nature of the DH learning environment and encouraged faculty to increase engagement and support so that **all** students are successful. This is the statement made by Dean Weber: "Our goal is to graduate all 20 students who enroll in our program." We see it as our duty to assist students in being successful in our program.

During the academic year in question, students who did not complete all clinical anesthesia competencies by the end of the semester were issued an "Incomplete" (I) grade in accordance with Cabrillo College's institutional grading policy. Under this policy, students are permitted additional time to complete outstanding course requirements within an established timeframe.

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

Students were allowed to progress to the subsequent semester under conditional status with the understanding that:

1. All didactic components of the Local Anesthesia course had been successfully completed.
2. The only outstanding requirement was a specific clinical competency assessment.
3. Completion of all required anesthesia competencies was mandated no later than the end of the Spring semester.
4. No student would be eligible for program completion or recommendation for licensure without successful completion of all required competencies.

This decision was made to ensure students were not academically delayed due to scheduling or clinical availability limitations while still maintaining full competency requirements prior to graduation.

Upon review during your visit, we recognize that while the college's general Incomplete policy was applied, the Dental Hygiene Program did not have explicit written language in the Student Handbook outlining program-specific conditional progression related to Local Anesthesia clinical competency.

As part of our continuous quality improvement process, the program is now formalizing clear written policy language to explicitly address:

- Conditional progression with an Incomplete
- Required timelines for competency completion
- Consequences of non-completion
- Documentation procedures

This language will be incorporated into the Student Handbook and course syllabi moving forward to ensure transparency, consistency, and full regulatory clarity.

At no time were competency requirements waived, nor were students recommended for graduation or licensure without successful completion of all mandated Local Anesthesia requirements.

(See Attachment 3)

Violation 4: Program Director Assignment and Authority

The Complaint alleges, and the Specialist found that the Director of our program resides in Southern California, is not consistently on campus, and is not available to students. Enclosed are the following documents that demonstrate that these allegations are incorrect.

Response: See attached Program Director's updated assignment, providing for the primary responsibility of the position is the operation, supervision, evaluation, and revision of the program. Also attached is her weekly schedule and job description.

This documentation was previously submitted to the DHBC on August 27, 2025, as a requirement for a "change in directorship." (See Attachment 4) These documents were approved back in August, 2025, and nothing has changed on our end. The District is perplexed by this violation. If the DHBC Specialist was

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

unable to find the previously provided documentation, she could simply have asked for documentation rather than alleging a violation.

The Director, Faye Khoury, holds a full-time assignment where her primary responsibility is for the operation, supervision, evaluation, and revision of the program. Pursuant to CCFT Article 11.1.2.1, a faculty member's load may range from 29 to 30 units per academic year.

The Director's current assignment includes both administrative and teaching responsibilities, with a majority of her assignment being in the Director role as determined by institutional workload allocation (17.45 units total for Spring 2026 semester).

1. Her weekly on-site presence has been increased and prioritized during clinic hours.

2. A revised Program Director schedule is attached.

3. She is actively working with the administration to ensure the Program Director role maintains primary operational oversight as required by DHBC and CODA.

   She remains fully committed to hands-on leadership, faculty support, and student supervision.

   (See Attachment 4)

Violation 5: Faculty Support

The DHBC Specialist demands the following:

1. Cabrillo to provide immediate, temporary full-time staffing by **March 13, 2026.**

2. Cabrillo to provide permanent full-time staffing by **August 3, 2026.**

3. Cabrillo to provide future communication regarding all changes to the DHEP pursuant to 16 CCR section 1105.3.

In support of her demands, she cites an April 18, 2024, Site Visit Report and a December 6, 2019, Site Visit Report.

Response: The loss of three full-time faculty members within the past year is due to one retirement and two resignations, with one of those resignations being the program director. The program director vacancy was filled in January of 2025 with a temporary faculty member. In August of 2025, a full-time permanent director, Faye Khoury, was hired. The landscape of our program has changed significantly since 2019. It is unwise to compare our program needs of today to what they were in 2019.

The current number of staff members is sufficient to support our new CODA, and DHBC-approved enrollment pattern of 20 students every other year. This new enrollment pattern of only one cohort of students every two years was in response to DHBC's demand that Cabrillo use only General Fund dollars to support the program. The District strongly believes that 1 full-time faculty director and 13 associate

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

faculty members are sufficient and in line with the DHBC's definition of adequate staff support. (16 CCR Section 1105(k):

> The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

The CCR stated above does not define faculty as full-time or part-time. Faculty can be either full-time or part-time. Reducing the number of full-time faculty is in direct alignment with 16 CCR Section 1105(k) and aligns with the reduced number of students permitted to enroll in Cabrillo's program.

The District strongly believes that student progression and preparation to become a dental hygienist have not been hindered. We believe our staff of 14 faculty members is sufficient and meets the requirements. Twenty students are currently enrolled. Twenty students are on track to graduate this Spring semester of 2026.

DHBC Specialist's demand that Cabrillo provide immediate, temporary full-time staffing by **March 13, 2026, is** not in line with Title 5 Education Codes and labor laws that have strict recruitment requirements. A typical full-time open recruitment is on average 4 weeks in duration, and another 4 to 8 weeks for onboarding tasks that include but are not limited to fingerprinting, I-9 documentation, proof of minimum qualifications, and so on.

(See Attachment 5)

Violation 6: Staff Support

The DHBC Specialist alleges that:

1. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5, 3-10, and 3-11.

2. Cabrillo to provide evidence of qualified and sufficient staff support pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5, 3-10, and 3-11.

Response: Cabrillo employs one classified staff member to serve as an instructional technician. The work year for that position is for 10 months with 32 hours per week. With 20 students enrolled in the program at one time, the staffing needs are sufficient to meet the standards. During the week that the site visit took place, a holiday was scheduled for Friday, Feb. 13th, for Lincoln's Birthday. Due to the holiday, all classified staff who work less than 12 months per year are entitled to a compressed work week. This results in fewer hours worked each day for the holiday week. The complaint implies that the instructional technician works a compressed schedule all the time, which was due to budget cuts. This is incorrect. Had the DHBC investigator inquired about this, she would have learned that the compressed work schedule was due to a holiday and in line with our agreements with our labor partners. The weekly work schedule of the instructional technician is in line with proper supervision of the sterilization room.

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

Violation 7: Student Resources

The DHBC Specialist found that students are required to provide their own personal protective equipment and clinical tracking forms, which she construes as a violation.

Response: She cites no relevant authority to support her belief that the District must provide personal protective equipment and clinical tracking forms to students. The only authority she refers to that even comes close to supporting her allegation is Education Code section 49011 subdivision (b)(1), which applies to K-12 educational institutions and is inapplicable to community colleges and our dental hygiene program.

Violation 8: Renewal of DHBC Concerns Regarding Stable Financial Resources

The DHBC Specialist cites the District for inadequately funding the program and claims that faculty are required to "fundraise" to support the program.

Response: The District disputes these allegations of violations. The District has sufficiently addressed this alleged violation.

Cabrillo faculty are NOT required to "fundraise" to support the program. The program director and/or faculty may elect to work during expanded duties activities and get paid for their time. This is evidenced by timecards submitted to payroll. The expanded duties program is hosted and implemented by an independent contractor. This alleged violation is a repeat of the violation cited in the 2024 visit that has been cleared. Nothing has changed on our part since being cleared previously of this violation.

Funding is mainly derived from general fund revenues associated with the California Community Colleges Student Centered Funding Formula (SCFF) – the formula that establishes state support for all Dental Hygiene programs operating at a California Community College. Because all DH programs have strict safety standards and 1:5 faculty to student ratios for clinical settings, all DH programs operating at California's community colleges technically run at a deficit mode under the SCFF Funding Formula.

Our District makes up the gap in funding by braiding funding sources together in a manner similar to other dental hygiene programs that are offered in community colleges. Revenue fund sources can include 1) Instructional Lottery dollars to pay for education materials and supplies; 2) Perkins/VTEA funds to pay for career technical education equipment, conferences, professional services, and recruitment materials; 3) California Strong Workforce Program dollars; 4) Cabrillo College Foundation grants to pay for specialized equipment or staffing associated with a specialized project; 5) continuing education or "expanded duties" classes mentioned above; 6) clinic fees for DH services; and 7) General fund transfers to cover any operational deficits that need to be covered at the end of a fiscal year.

The college regularly covers career education program deficits in this manner by using SCFF fund revenues from other college programs where class sizes are large enough to generate programmatic surpluses that are then used to cover programmatic deficits in career programs (such as Nursing and Dental Hygiene).

Office of the
Superintendent / President
6500 Soquel Drive
Aptos, CA 95003

The college provides more than adequate financial support to run a high-quality DH program that is in line with that of other community colleges in California. In addition, the financial landscape of the college has not changed since the DHBC's previous findings and violations. Since then, we have been cleared of all financial violations. Demanding more evidence of this cleared violation from 2024 is an overreach of authority by the Specialist.

The DHBC Specialist is placing undue and unreasonable demands on our time and resources. Cabrillo intends to file a formal complaint against the education, legislative, and regulatory specialist, Dr.Petty, for attempting to impose sanctions on our employees and institution that are disruptive to our program and learning environment, as well as unnecessarily time-consuming to address.

We would like to provide feedback to the DHBC on Dr.Petty's conduct.Dr. Petty has continually targeted Cabrillo College in an attempt to discredit our program for reasons completely unknown to us. The role of the Education, Legislative, and Regulatory Specialist should be to provide positive support for the continuous improvement of these programs rather than continuously alleging frivolous and unfounded claims of violations that harm our program and the morale of our employees. Dr. Petty has directly threatened our dental hygienists, insisting she will have their licenses revoked. These threats are unprofessional, unfounded, and causing significant harm.

We are committed to delivering a dental hygiene program that exceeds the standards of the DBHC. We are available to address any concerns and provide any additional information that DBHC or its Executive Officer may request. We look forward to a prompt resolution of this matter so that we can continue to provide high-quality academic programming to our students.

Please let us know if you have any questions. My email is jecapps@cabrillo.edu.

Sincerely,

Jenn Capps, PhD

Jenn Capps, Ph.D.

I hope this message finds you well. I am writing to inform you about the status of your grade for DH 181 in the past semester.

As per the course requirements, we have noted that some of the necessary components of your coursework have not been completed. To allow you sufficient time to fulfill these outstanding requirements, you will be assigned an **Incomplete** grade (I) for this semester. This grade will remain in place until you successfully complete the remaining assignments or activities, which must be finished by February 26, 2026.

Please be advised that in order to resolve this incomplete grade, you will need to submit all outstanding work no later than February 26, 2026. If you anticipate needing any additional support or clarification on the remaining requirements, please feel free to reach out. We are committed to ensuring that you have the necessary resources to complete your coursework and meet the program's standards.

If you have any questions or concerns regarding this process, do not hesitate to contact me directly.

Thank you,
Ms Hoops

Cabrillo College Dental Hygiene Program

Situation, Identification, and Remediation Paper (SIRP) Guidelines

The intent of this paper is to assist the student in identifying ways to be successful in the Cabrillo College Dental Hygiene Program. This paper must indicate actions the student will take, conditions which will change or have changed, which would lead to improved academic/clinical performance and success.

Document guidelines: APA format, 12-pt Times New Roman, double-spaced with 1-inch margins.

A. Define the situation

- Clearly identify the situation(s)
- Reflect on the problem and gather relevant information (facts, values, assumptions)
- Be specific about what happened, but do not make excuses or place blame
- Discuss the facts, perceptions and assumptions in contrast to the DH program values, policies and guidelines
- Identify issues (social, legal, & ethical principles)

This section of the plan must be highly developed, or it will be returned for revision. The expectation is that the student will complete extensive research so that the social, legal, professional and ethical principles can clearly identify the proper solution that pertains to this situation(s). Some suggestions:

- Review the DH Clinical Manual, clinic syllabus 181/183, DH Student Policy Handbook, textbooks and course notes to document all the issues involved in this situation(s).
- State options for correction, how to avoid repetition of the issue in the future.
- Identify & evaluate the alternatives that address the situation(s).

Think of this as a brainstorming process. Consider as many options as possible, then discuss the pros and cons of each option. Do not settle for the first solution, stay open minded and think through multiple approaches to the problem.

B. Propose a remediation plan

- Describe how the solutions(s) will be implemented. The solution must be acceptable to both the faculty member who noted the unsatisfactory or unacceptable behavior and the clinical coordinator(s) or program chair.
- It is expected that a reasonable, thoughtful and comprehensive solution be proposed. Revisions or amendments may be requested based on the professional judgment of the faculty member, clinic coordinator(s) or program chair.

DH183 CLINICAL REQUIREMENTS 2026 - *this is only a summary sheet-see syllabus for complete criteria*

REQUIREMENTS		BRIEF SUMMARY CRITERIA
#	**CLINICAL COMPETENCIES**	**REQUIRES COMPETENCY FORM, INSTRUCTOR APPROVAL, INSTRUCTOR PRESENT TO OBSERVE AND EVALUATE**
1	Arestin® site	Immediately following SRP to reduce pocket depths in patients with adult periodontitis
1	Caries Risk Assessment	Any patient with a history of dental caries Done at the assessment appointment.
1	Dental Charting	Minimum of 20 teeth with 10 restorations and either 3 caries or 3 different restorative materials, and FMX
2	Gingival Curettage	Edematous gingival tissue/4-6mm pockets in a patient with adult periodontitis, post SR, must be anesthetized
1	Mock Board Exam	1 quad Class 5 with M-H sub-calculus required/or 2 quads class 5/each quad must have at least 6 teeth and 2 molars. Pocket depths no greater than 6 mm. See full criteria in syllabus -**RDH approves/evaluates**
1	Exit Exam	Criteria TBD
3	N2O/O2	Minimum 20-minute administration, maximum 30-minute administration**. 3** experiences required.
1	Oraqix	Patient with light to moderate sensitivity
1	Periodontal Charting	Class 4/Perio III, Class 5 or 6 / FMX required / Minimum 15 teeth total/ pkts. 5-6mm /gingival recession/at least 2 furcations. Probe (6 teeth minimum) 1 quad – **after calculus removal**. Profound anesthesia required.
1	Periodontal. Risk Assessment	Periodontal condition-BOP, Lifestyle-tobacco, Systemic-diabetes, heart disease; Psychosocial-stress. Done at the assessment appointment
1	Scaling & Root Planing	One quad of Cl 5 or 6; demonstrate correct use of Graceys 5/6, 7/8, 11/12, and 13/14. Use of ultrasonic scaling device is restricted to mandibular anterior teeth only **RDH approves/evaluates**
2	Sealants	Per DH173 Criteria. Must have current x-rays & DDS diagnosis Adult or child.
1	Subgingival Irrigation	At least two teeth with 5+mm pockets.
	CLINICAL EXPERIENCES	**NO COMPETENCY FORM DOCUMENTED ON DCEF/OR TALEVAL, INSTRUCTOR APPROVAL AND PRESENT TO OBSERVE**
1	Cultural Diversity	Patient from a culture other than student's
	Day in the Office-optional	**Optional** Experience to hone your time management skills as you transition to the working world**.**
2	Intra-Oral Camera	Anomaly, deposits, inflammation, pathology, anatomy
2	Off-campus clinic	Participate as a clinician and as a clinical assistant at assigned off-campus clinic rotations
2	Stand to Scale	Class 3-6 patient on the mandible
	LOCAL ANESTHESIA COMPETENCIES	**REQUIRES COMPETENCY FORM, INSTRUCTOR APPROVAL, INSTRUCTOR PRESENT TO OBSERVE AND EVALUATE**
2 each R/L	ASA, MSA, PSA, IA, LB	Anesthetic injection on acceptable patient, two different patients required for each. 2 on the right and 2 on the left for a total of 4 each
2 each R/L	GP, AMSA, SP	Anesthetic injection on acceptable patient, two different patients required for each. 1 on the right and 1 on the left for a total of 2 each
2	NP	NP administered from either side
2	Mentals (2)	1 right mental, 1 left mental
2	Incisives (2)	1 right incisive, 1 left incisive
	RADIOLOGY REQUIREMENTS	**REQUIRES COMPETENCY RCCE FORM, INSTRUCTOR APPROVAL, DDS RX. INSTRUCTOR APPROVES RETAKES**
2	Horizontal BWX	Any patient who has not had BWX within 2 years / Or per DDS request.
1	Vertical BWX	Patient with bone loss, per instructor. (May be part of a noncredit FMX)
2	FMX	A patient who does not have an FMX more recent than 5 years / Or per DDS request.
1	Pediatric Short Set	BWX and 2 anterior PAs/Occlusals on a patient with either all primary teeth or mixed dentition
1	PANO	Per DDS
1	Supplemental Set	8-14 PAs, per instructor
PATIENT REQUIREMENTS COMPLETIONS		
10-15 Class 1-3 patients, 2-4 Class 4 patients, 3-5 Class 5 and/or 6 patients 1 Pediatric (5-11), 1 Adolescent (12-17), 1 Geriatric (65+), 1 Medically Complex, 1 Special Needs, 1 Perio-Involved, 1 Unique MANDATORY TO COMPLETE ALL PATIENTS,

Radiographic Evaluation Error Codes

1. Placement too far anterior
2. Placement too far posterior
3. Cone Cut
4. Too mesial (Closed contacts)
5. Too distal (Closed contacts)
6. Incisal /occlusal edge not shown
7. Device not parallel to teeth
8. Device reversed during exposure
9. Vertical angle too great (foreshortened)
10. Insufficient vertical angle (elongated)
11. Movement of device
12. Dot in wrong area
13. Double exposure
14. Wrong retake taken
15. Root apices not shown
16. Slanted occlusal plane
17. Mis-mounted
18. Exposure error
19. Artifacts
20. Failure to remove appliances
21. Missing image
22. Centrals not centered
23. Unequal borders (Bitewings)
24. Other

Keep a Journal specifically for Radiology

Perform a Radiographic Skill Analysis after each Radiology Rotation

Evaluate and Analyze your Performance

Critique your Technique

- Determine why you made the error
- Are you making the same errors?
    - If unsure how to improve, seek help from an instructor and/or classmate
    - Do not wait to seek help
    - Make an appointment to meet with the instructor to review your graded radiographs together
    - Arrange to practice taking radiographs on a dexter and/or to practice placing on a fellow student without exposing images
    - See clinic coordinator with any concerns or confusion
    - I want you to succeed

Write a Summary of your Radiographic Skill Analysis

Submit at Midterm and Pre End-of-Semester Conference

Midterm and Pre-End of Semester Conference Preparation

Conferences are scheduled at the half-way point and three-quarter way point in the semester. Please come prepared to discuss your progress in clinic by bringing the necessary documents and analyzing your performance and needs prior to the conference.

- Items to bring to your Conference
  PLEASE STAPLE TOGETHER IN THE FOLLOWING ORDER:
  - **Your Self-Assessment**
    - 1-2 paragraphs in a Word document
    - Be specific as to what you need to do to be successful
  - **Copies of tracking sheets including master tracking sheet of all patients treated**
    - Completed and signed by clinic instructors (except *all patients* master tracking sheet)
  - **Copy of tracking sheet for Radiograph Retakes**
    - Be sure errors are noted
  - **Radiographic Skill Analyses Summary**
    - Describe challenges and discuss measures taken to correct errors and improve technique

  Ascend
    - Review your Ascend scores and comments, student progress reports
    - If a competency is not created in Ascend there will be no credit and must be repeated for credit
  - **Canvas Clinical Competency Report – *Inaccuracies***
    - Note any corrections that need to be made
      - Competency completed but not recorded in Canvas
  - **Completed Summary Sheets**

- Also be sure to bring:
  - **Student copies of all DCEF's and Competency Forms**
  - **Comments on your progress in clinic**
  - **A positive attitude ☺**

Category: Dental Hygienists and Assistants

Cabrillo College 1959

Dental Hygiene - Associate Instructor

Cabrillo College

Salary: See Position Description
Job Type: Associate (Part-time)
Job Number: 2026-02099
Closing: 12/11/2026 11:59 PM Pacific
Location: Aptos, CA
Department: Dental Hygiene

Cabrillo College

Dental Hygiene - Associate Instructor

SALARY	See Position Description	**LOCATION**	Aptos, CA
JOB TYPE	Associate (Part-time)	**JOB NUMBER**	2026-02099
DEPARTMENT	Dental Hygiene	**DIVISION**	HPS (School of Health and Public Service)
OPENING DATE	01/15/2026	**CLOSING DATE**	12/11/2026 11:59 PM Pacific

Please apply for this job directly on the Cabrillo College job opportunities page here.

Employment Opportunity

Cabrillo College is accepting applications in order to fill temporary, part-time faculty assignment(s) and to establish aneligibility pool for positions that may become available in
Fall Semester 2026:

- DH161 Preparation for Dental Hygiene Clinic
- DH171 Introduction to Clinical Dental Hygiene
- DH173 Clinical Dental Hygiene I
- DH181 Clinical Dental Hygiene II
- DH183 Clinical Dental Hygiene III

Clinical assignments may range from one to multiple sessions per week depending on program needs and faculty availability.

This associate position is open for application submission through the deadline date as noted above **OR *until the position has been filled***. The location for this position is in-person at our Aptos campus, and may include other locations as needed.
We need YOU! Cabrillo College is looking for Faculty to provide quality programs and services for a diverse student population promoting ever-evolving needs as our students grow toward their individual aspirational goals. Cabrillo is an Hispanic Serving Institution (HSI) with a special focus on enhancing the Latinx student experience. Come join our team,

valuing high-level and innovative instruction, support services, a welcoming environment, and helping to change the world one student at a time!

The **ideal** candidate will share Cabrillo's commitment to educating its racially and socioeconomically diverse student population. Cabrillo College serves approximately 11,500+ students per term, For the 2024 Academic Year, 61% of Cabrillo students are members of minoritized populations, identifying themselves as LatinX (50%), Multi Ethnic (6%), Asian (3%), Black Non-Hispanic (1%), Filipino (<1%), American Indian/Alaskan Native (<1%) and Pacific Islander (<1%). At Cabrillo, 54.91% are economically disadvantaged. In 2006, Cabrillo College was designated a Hispanic-Serving Institution, reflecting the great responsibility that the College has to the educational attainment and economic well-being of the surrounding community.

About the College: Situated on Monterey Bay in the county of Santa Cruz, California, Cabrillo College is highly regarded for its success of transfer and career education, and currently serves over 11,400 students each semester. Cabrillo College transfers many of its students to three nearby universities – the University of California at Santa Cruz, San Jose State University, and California State University at Monterey Bay. Cabrillo's career education is closely connected to the nearby agricultural and farming industries as well as the Silicon Valley business environment.

Faculty at Cabrillo College actively participate in curriculum development, program planning, and serve on participatory governance committees. Cabrillo provides an excellent opportunity to learn, collaborate, create, and make a difference in the lives of its diverse student body and community.

About the Department:
The Dental Hygiene Program at Cabrillo College values collaboration, faculty mentorship, and consistency in clinical instruction. Associate clinical faculty are supported through calibration, clear clinical protocols, and a collegial team-based teaching model that prioritizes student success and patient safety.

For more information about the Dental Hygiene Department, please click here.

About Associate Faculty Requirements: At the time of appointment for this position, Cabrillo College requires employees to maintain residence and permanently reside within the state of California. Candidates must understand when applying that at the time of appointment, they will need to have moved to the State of California (if applicable). Candidates must also understand that Associate Faculty assignments are considered short-term and temporary; employment for this short-term and temporary position may be terminated by the District as permitted by Education Code Section 87665 and the CCFT bargaining unit agreement.

Examples of Duties

- Teach assigned classes, which may include evening or off-campus assignments
- Engage in participatory governance committees, processes, research, service, and initiatives such as Guided Pathways
- Maintain timely and accurate records of student enrollment, attendance, and academic progress
- Provide academic assistance and related services to students during scheduled office hours
- Cooperate with and participate as may be required in District investigations and/or student grievance matters of alleged unlawful harassment, discrimination, and retaliation
- Demonstrate sensitivity to and understanding of diverse academic, socioeconomic, cultural, disability, gender identity,sexual orientation, and ethnic backgrounds of community college students, faculty and staff
- Complete required District trainings such as Title IX, Mandated Reporter, EEO/Diversity/Elimination of Bias, WorkplaceSafety, etc.

Minimum Qualifications

Required Education and Experience:

- Understanding of, and sensitivity to, the diverse academic, socio-economic, ethnic, religious, and cultural backgrounds, disability, and sexual orientation, of community college students, faculty and staff **AND**
- Any bachelor's degree related to this Dental Hygiene assignment or higher **AND** a current BLS/CPR certification **AND** two (2) years of professionally related experience, including:
    - Direct patient care experience within the previous five (5) years in the dental hygiene area to which they are assigned, which can be met by either:
        - Two (2) years' experience providing direct patient care as a registered dental hygienist or dentist **OR**
        - One (1) academic year of dental or dental hygienist level clinical teaching experience **OR**
- Possess a lifetime California Community College Instructor credential in Dental Hygiene **OR**
- *Equivalent

Required Professional Expertise:

- Currency and depth of knowledge in the applicable professional field
- Knowledge of and commitment to teaching strategies and practices that enhance student success at community colleges, including effective use of technology
- Effective oral and written communication skills.
- Demonstrated ability to teach the courses or perform the duties effectively as described above
- Demonstrated ability to communicate well with students of diverse academic, ethnic, socioeconomic, and cultural backgrounds; gender identities, sexual orientations; and students with disabilities
- Evidence of professional activities and service beyond the primary teaching assignment
- Development and review of curriculum as well as including assessment of learning
- Demonstrated ability to work cooperatively with others
- Demonstrated responsiveness to and understanding of the racial, socioeconomic, academic, and cultural diversity within the community college student population, including students with different ability statuses (e.g., physical and/or learning) as these factors relate to the need for equity-minded practices in the classroom
- Demonstrated ability to reflect critically on institutional and teaching practices that aim to increase cultural responsiveness
- Knowledge and understanding of the accountability and critical dimensions of equity
- Demonstrated ability addressing issues of equity in the classroom

Desired Qualifications/Performance Expectations:

- Successful teaching experience at the community college level
- Demonstrated ability to employ innovative teaching techniques and methodologies
- Experience teaching diverse student populations
- Successful online teaching experience
- Knowledge of culturally-responsive pedagogical teaching techniques and effective ways for engaging students who are historically under-represented and under-served.

<u>*Equivalency Application Form and Process</u>

Why would I complete the Equivalency Form when I'm already completing an application and have a relevant degree? To determine whether your current education, or exact discipline, and/or experience is "equivalent," you must submit an Equivalency Form to initiate a review by the Equivalency Committee at Cabrillo College and so that your application can move forward and be considered by the search committee.

Please note the Equivalency Committee will consider *only* those applicants who formally request equivalency consideration by submitting the Completed Equivalency Form with their application by the closing date stated in the job announcement. Be sure to attach detailed evidence such as unofficial transcripts and/or other certifications that support the equivalency.

Still working to complete your degree? Applicants that are currently working on the required degree(s) for the position are encouraged to apply with the understanding that they must complete the Equivalency Form and attach supporting documentation with their application.

For additional information please review our Applicant Resources page here.

Additional Information

Starting Salary: $1,665 - $2,556 per teaching unit, per semester; salary placement determined by documented education and experience; *maximum initial salary step placement on the Associate faculty salary schedule is step 9*. An annual doctoral stipend of **$111** per unit is granted to eligible associate faculty. Assignments is in-person at the Aptos campus; days, evenings, and/or weekends; hours to be arranged.

COMPENSATION AND BENEFITS:
Faculty employees are required to join the California State Teachers' Retirement System (CalSTRS) and as such contribute to CalSTRS on a pre-tax basis. Position scheduled to begin at the start of the semester needed, or as needed, pending Governing Board ratification. Salary is subject to proration based on the beginning date of assignment. Cabrillo is unable to sponsor work visas.

APPLICATION PROCESS

- Complete the application and answer all supplemental questions, including information in the Certificates and Licenses section regarding your:
    - Current BLS/CPR certification *(You may also attach these documents should you so desire, but please include the information in the Certificates and Licenses section of your application)*
- Attach a resume or CV detailing teaching and work experience
- Attach **one** of the following:
    - Unofficial transcripts from all colleges attended ***displaying all degrees conferred*** (copies, scans, photos, and downloads are acceptable). *Foreign transcripts must be evaluated for U.S. equivalency by an approved agency* and any costs are at the applicant's expense - click here for more information **OR**
    - Copy of a Lifetime California Community College Instructor credential in Dental Hygiene **OR**
    - Completed and signed Equivalency Form – click here (optional). Submit this form with supporting materials if you do not possess the minimum qualifications as listed in the job announcement and feel you have the equivalent education and/or experience.

Attention Applicants
Only completed applications with the above required documents will be reviewed by the committee**;** *additional documents will not be reviewed by the committee*. Remove personally identifiable information such as personal photos, social security number, birth date, age, and gender from your application materials. Expenses related to the recruitment process are the responsibility of the applicant. Cabrillo is unable to sponsor work visas. Questions? Concerns? Please contact HR as Departments, Divisions, and Committee Members are unable to discuss active recruitments with potential candidates.

Selection Procedure
This associate position is open through the deadline date as noted above **OR until the position has been filled**. A search committee will review application materials and invite applicants for an interview. Meeting the posted requirements does not guarantee an interview.

Conditions of Employment
Selected candidates given a conditional offer of employment are required to submit tuberculosis screening clearance results, official transcripts, proof of eligibility to work in the United States, and present their Social Security card upon hire (for payroll purposes). Cabrillo College is an E-Verify employer.

EEO Statement
Cabrillo College is an equal opportunity employer and actively seeks a diverse pool of qualified applicants. The policy of the College is to encourage applications from all persons. No person shall be denied employment because of ethnicity or

race, color, sex or gender, gender identity, gender expression, age, religion, marital status, disability, sexual orientation, national origin, medical conditions, status or protected veteran status.

Accommodations
Persons with disabilities who require reasonable accommodation to complete the employment process must notify Human Resources at cabrillohr@cabrillo.edu.

Benefits

Associate faculty employees at Cabrillo College have the option to enroll themselves and their dependent children (up to age 26) in an Anchor Bronze medical plan offered through the Self Insured Schools of California (SISC). This is a voluntary, self-paid medical benefit for the employee. If an employee chooses to enroll, coverage begins on the first day of the month following their enrollment date. The monthly cost will be deducted from the employee's monthly paycheck on a pre-tax basis.

In addition to this voluntary plan, Cabrillo College also offers District-sponsored health care benefits (medical and dental insurance similar to those provided to full-time faculty) to associate faculty who meet certain criteria, including carrying at least a 40% load. Eligibility for these District-sponsored benefits is determined in August and January each year and is based on criteria defined in Ed. Code section 87861 and the District's Memorandum of Understanding (MOU) regarding District-sponsored healthcare. For more information, see our flyer here.

Dental Hygiene - Associate Instructor Supplemental Questionnaire

*QUESTION 1

IMPORTANT: All applicants are required to submit responses to the following supplemental questions. Your responses will provide information about your background and experience related to this position and will be used in the screening and selection process. Be concise, yet specific and informative in your responses to these supplemental questions. "See resume", "Will be answered during interview", attachments, or links/URLs (unless a question specifically requires it) will ***not*** be accepted as a substitute for your responses to the questions in the following boxes. Please indicate below that you have read and understood these instructions.

- ◯ Yes
- ◯ No

*QUESTION 2

How do you feel your education and work experience have prepared you for this position?

*QUESTION 3

Describe how you work as part of a team. Provide an example of your contributions as a member of a team within aprofessional setting.

*QUESTION 4

Please select the option which best reflects how you meet the minimum qualifications listed in this job bulletin. If your conferred degree is not in the listed specified discipline, you must also complete and attach the Supplemental Application for Equivalency Form. ***Diplomas are not accepted in place of transcripts.***
The Equivalency Application Form can be found here:

https://drive.google.com/file/d/1JG_WfngILRUXto7vKZ3yvq9DibaA5C0g/view

Foreign transcripts must be evaluated for U.S. equivalency at the applicant's expense. For more information, please visit the following link:

https://docs.google.com/document/d/1wyUc0sSnODNqM-aT0-gbsOLd2cPOGwrmWlGQ9Bn4968/edit

◯ I have attached unofficial transcripts that do not show a conferred degree, along with an Equivalency Application Form, because my degree is still in progress or has not yet been conferred.

◯ I have attached unofficial transcripts and an Equivalency Application Form because I hold a relevant, closely related degree but not one listed on the job bulletin, which requires a determination by Cabrillo College as to whether my education, discipline, and/or experience to meet the minimum qualifications. I understand this will initiate a review by the Equivalency Committee.

◯ I have attached unofficial transcripts showing that I meet the educational qualifications and hold a degree(s) in an exact discipline(s) listed in the job bulletin. My transcript shows successful completion of my degree(s), including the date(s) of conferral for any Master's and/or Bachelor's degree from an accredited institution.

*QUESTION 5

Cabrillo College is an Equal Opportunity Employer with a commitment to diversity. We strive to be a model for equity and inclusion, effectively supporting students and employees from diverse socioeconomic and cultural backgrounds who possess a range of abilities, academic preparation, and life experiences. Please reflect on and give two examples of how you have modified or would modify curricula, classroom practices, or your own professional development to meet the needs of a diverse campus community.

*QUESTION 6

At the time of appointment for this position, Cabrillo College requires all employees to maintain and permanently reside in the state of California. I understand that at the time of appointment, I will have moved to the State of California (if applicable).

◯ Yes; I will be a California resident at the time of appointment

◯ No, I am not a California resident and do not plan to relocate

◯ I am already a California resident

*QUESTION 7

I understand that associate faculty assignments are considered short-term and temporary and employment may be terminated by the District as permitted by Education Code Section 87665 and the CCFT bargaining unit agreement.

◯ Yes

◯ No

*QUESTION 8

Have you attached your resume and all unofficial transcripts for all colleges attended, (including evaluations for equivalencies to U.S. classwork/degrees for foreign transcripts), to this application?

- ◯ Yes
- ◯ No

*QUESTION 9

I understand and reconfirm my consent and authorization that if I am a final candidate for this position, Cabrillo College or its authorized agent(s) may conduct job-related background and/or reference checks, including job history, criminal history, identity check, and/or fingerprinting. This reconfirmation question and its answer are confidential and will **not** be seen by the Search and Selection Committee.

- ◯ I agree
- ◯ I do not agree

* Required Question

Hello,
This email is only for those who had make-up req's. I am proud of all of you for really trying hard to complete these req's from 181.
Please, it is your responsibility to add those to your track sheets and get them signed off. Find a spot at the bottom of a page and write them down and get them signed off. This is your responsibility.
I will put them in 181 when they are completed, in the meantime have them tracked on your end and please keep in communication with me about them.
Thank you for those that have been very diligent with this!
All the best,
Ms Hoops

Fwd: Empty Chairs

1 message

April Hoops <aphoops@cabrillo.edu> Tue, Mar 3, 2026 at 1:19 PM
To: "Dr. Heidi Weber" <heweber@cabrillo.edu>

Here is another I sent to the students regarding my concern over lost clinic time.

---------- Forwarded message ---------
From: **April Hoops** <aphoops@cabrillo.edu>
Date: Fri, Oct 3, 2025 at 6:28 PM
Subject: Empty Chairs
To: Samantha Esparza <samanthaespaarza@gmail.com>, <urbinajenny2196@yahoo.com>, <selenecraft@yahoo.com>, Maria Ramirez <marryah.xo@gmail.com>, <Jpinon140@gmail.com>, <barrigaqueen89@gmail.com>, <andrademercedes1@gmail.com>, <jasminpedraza123@gmail.com>, Ireland Cortinas <irelandcortinas@gmail.com>, <sadielam1126@gmail.com>, <Mendoza.marisol.tml@gmail.com>, <Jlustre20@gmail.com>, <tiranalex@gmail.com>, <alisontiran@gmail.com>, <sabrina_gray7@yahoo.com>, Tiffany Wang <Tiffanyjw12@gmail.com>, <thesierranichols@gmail.com>, Diane Quach <quachxdiane11@gmail.com>, <stefanibrianna4@gmail.com>, Sophia Chapman <sophiakaytlinn@gmail.com>
Cc: Faye Khoury <fakhoury@cabrillo.edu>, Leanne Albers <lmalbers@cabrillo.edu>, Julia Gunn <jugunn@cabrillo.edu>

Hello Class,

I hope this message finds you well. It has become very clear through tracking that many of us are behind on our clinical requirements. One major concern is the number of empty chairs in clinic sessions.

I want to emphasize that this is not about grades, it's about the time and experience we are losing when patients are not in our chairs. Every missed session makes it harder to catch up, and the opportunity to build essential clinical and patient care skills is lost.

Please remember: our ability to meet requirements directly affects both our progression to the next semester and, ultimately, our eligibility for licensure. Having patients consistently in our chairs is the only way to ensure we gain the experience and skills needed to succeed. Please work on filling your schedule, and try to have back up pt's if possible. This is of utmost importance.

Let's stay focused and committed to meeting these requirements together. I know this can feel challenging, and we believe in you all!

April Hoops <aphoops@cabrillo.edu> Tue, Mar 3, 2026 at 10:12 AM
To: "Dr. Heidi Weber" <heweber@cabrillo.edu>

Here is an example of communication about this issue.

---------- Forwarded message ---------
From: **April Hoops** <aphoops@cabrillo.edu>
Date: Sun, Jan 11, 2026 at 11:37 PM
Subject: Grade change for enrollment in 183
To: Tiffany Wang <Tiffanyjw12@gmail.com>
Cc: Faye Khoury <fakhoury@cabrillo.edu>

Dear Tiffany,

This letter is to confirm that your grade has been changed to a letter grade, which will allow you to enroll in DH 183. Please note that while the grading format has been adjusted, the completion requirements remain the same as previously stated.

This approach is intended to support your success and ensure you are able to complete all program requirements by the time of graduation. To help you stay on track, we will check in with you on a weekly basis to monitor progress and confirm that all dates and requirements are being met.

All overdue **181** requirements must be completed by **February 26, 2026.** If at any point you have questions or need clarification, please reach out promptly so we can provide support.

We are committed to your success and look forward to working with you throughout this process.

Sincerely,
Ms Hoops

Learning Outcomes

Course Objectives

1. Demonstrate further refinement of clinical skills (beyond DH181), treating patients in the clinic using the dental hygiene process of care, including radiographic decision making and placement of ITR.

2. Perform specific clinical procedures as stated in the course syllabus, including advanced techniques.

3. Demonstrate continued proficiency in local anesthesia, ergonomics, nitrous oxide analgesia and soft tissue curettage by performing these functions in clinic.

4. Incorporate dental hygiene ethical and legal concepts in the provision of dental hygiene services at an advanced level.

5. Demonstrate proficiency in State Board screening procedures.

6. Demonstrate continued proficiency with technology, i.e., intraoral camera, digital radiography, Dentrix.

7. Demonstrate satisfactory time management skills at an advanced level.

8. Treat all patients equally and with respect in the provision of dental hygiene therapy at an advanced level.

CSLOs

1. Apply theoretical knowledge, scientific rationale, and clinical decision-making skills following the dental hygiene process of care in a lab and/or clinical setting for those patients with localized and generalized chronic periodontitis. Expected SLO Performance: 80.0

2. Perform selected fundamental clinical dental hygiene skills safely and accurately in the clinical setting. Expected SLO Performance: 80.0

Content Outline

Content Outline

1. Problem solving strategies for detailed and compromised patient health histories and dental hygiene management
2. State Board screening procedures
3. Clinical experience at off-campus rotation sites
4. Safety, prevention of disease transmission, universal precautions, and CDC guidelines
5. Principles of legal and ethical decision making in patient care
6. Professional interactions
7. Problem solving strategies for specific clinic events and patient care needs
8. Clinical skill on increasingly difficult patients and in a culturally diverse population
9. Time management skills at an advanced level
10. Continued proficiency with technology
11. Determine radiographs needed for placement of Interium Therapeutic Restorations

Distance Education Addendum

Does your course description state "May be offered in a distance-learning format"? Have you added "Distance Education" as a method of instruction?

- Yes

Please indicate the distance learning mode: Choosing "fully online" allows for offering fully online and/or partially online (hybrid) and/or emergency situations. Choosing "partially online" allows for offering in a hybrid format and/or emergency situations. Choosing "emergency only" allows for online transitions in only emergency situations (e.g. COVID-19, natural disasters, etc.)

Emergency Only

Canvas is the college supported learning management system. Do you affirm that this course will be delivered via Canvas?

- Yes

In accordance with Title 5, this course must promote regular effective instructor/student contact and provide opportunities for student to student contact. Will all instructors consistently initiate interaction with students as outlined in the Distance Education Faculty Handbook?

- Yes

Please indicate the methods of information delivery that could be used:

- Announcements
- Course materials/modules
- Personalized audio/video
- Text alternative for audio feedback
- Online video
- Internet resources
- Webcasts/video content
- Podcasts/audio content
- Discussion forums
- Social media
- Webinar/Videoconferencing

If other, please explain:

No Value

Please indicate which methods of communication could be used to establish regular and substantive contact between instructors and students:

- Chat/messaging
- Regular and prompt feedback on student work
- Responding to discussion posts
- Webinar/videoconferencing
- Webcasts/video content
- Podcasts/audio content
- Online office hours
- Contact via phone

If other, please explain:

No Value

Please indicate which methods of communication could be used to establish regular and substantive contact among students:

- Chat rooms/student lounge
- Class Q&A
- Voluntary study partners/groups
- Class blog or wiki page
- Discussion posts with required responses to classmates
- Group projects/assignments
- Synchronous or asynchronous discussions or debates
- Peer review

If other, please explain:

No Value

Title 5 and section 508 require that distance education complies with the Americans with Disabilities Act. To ensure success for all students, course content must be designed and maintained to ensure it is ADA and section 508 and section 504 compliant. Please indicate that your course will meet the following requirements:

- Videos will be accurately captioned
- Audio files will be transcribed
- Objects (including images, tables, and charts) will have alternative text
- Course materials will be readable in terms of font, color contrast, and spacing. Color is not the only method used to convey meaning
- Hyperlink text will be meaningful
- Documents will be created in such a way that screen reading software can read them (i.e. styles are used, column header rows in tables are specified, etc.)

One of the primary concepts of distance education is to offer students learning anytime, anywhere. This means all DE courses and resources must be designed to give students with disabilities the opportunity to access distance education resources without the need for outside assistance, with built-in accommodation. With this in mind, is there any aspect of this course that cannot be made accessible to students with disabilities?

No

If yes, please explain how you may address these issues:

No Value

All course outcomes identified in the course outline of record must be met in the distance learning environment. If this course is presented via distance education, would any of the following pose challenges to meeting the required course outcomes:

- Labs

If other, please explain:

Clinic

If you marked any challenges above, how will those challenges be addressed?

This course requires a clinic/lab portion with live patients and cannot be fully converted to online. We will have live in person sessions. During these sessions we will: 1. Students, faculty and staff will have a mask or respirator at all times. 2. Limit the number in the clinic to ten . 3. Limit the number in labs to five. 4. Adhere to social and physical distancing. 5. Screen patients, students, faculty and staff that enter the facilities before the arrive by phone and computer, when they arrive. 6. Cleaning and disinfection of all surfaces will occur between rotations.

If there is a required in-person component, please explain it here:

This course requires a clinic/lab portion with live patients and cannot be fully converted to online. We will have live in person sessions. During these sessions we will: 1. Students, faculty and staff will have a mask or respirator at all times. 2. Limit the number in the clinic to ten . 3. Limit the number in labs to five. 4. Adhere to social and physical distancing. 5. Screen patients, students, faculty and staff that enter the facilities before the arrive by phone and computer, when they arrive. 6. Cleaning and disinfection of all surfaces will occur between rotations.

Do you affirm that those who teach this course will adhere to the guidelines as dictated by the DE Faculty Handbook and that all faculty will receive DE approval prior to teaching in the distance learning environment?

- Yes

If this course is noncredit, what are the effective contact hours for lecture and lab?

No Value

Transfer Level Courses

List 1 lower division parallel at a CSU or UC OR 3 lower division parallels for your course at community colleges. Use ASSIST and be sure to list the name of the university, course name, number and title, and the catalog year. Full Time Tenure Track DH Program Director

Weekly Assignment Schedule

Faye Khoury

Program Director spends 75% of a 36 hour work week on these duties:

Meet with clinical faculty and host department meetings

Uphold all CDPH and CODA standards

Resolve Student issues/concerns/conflict resolution

Order and Track Supplies and Equipment

Prepare Purchase orders and Budget oversight

Weekly meetings with faculty and or students of concern

Meet with front office assistant

Meet with instructional assistant/infection control coordinator

Meet with Program Coordinator

Meet weekly for 1 hour with Dean of Health and Public Service

Email and phone calls

Plan Pinning Ceremony

Continuing Education and Expanded Duties coordination of dates, guest speaker/presenter/instructors/DDS: 1 hour-1/2 hour

Volunteer Protocol and Requirements

Assist with Clinic Coordination of Level 2 students

Teach Lab, Lecture and Clinic courses

Prepare clinical lesson plans and skills assessments

Prepare grades at the end of the semester

February 20, 2026

Dr. Jenn Capps
Superintendent/President
Cabrillo College
6500 Soquel Drive
Aptos, CA 95003

Dear Dr. Capps,

The Dental Hygiene Board of California (DHBC) conducted a site visit of the Cabrillo College Dental Hygiene Educational Program (Cabrillo) on February 12, 2026. This site visit was generated due to a complaint. Evidence of program compliance with the ***minimum*** Dental Hygiene Educational Program (DHEP) standards set by the Business and Professions Code (BPC), California Code of Regulations (CCR), and Commission on Dental Accreditation (CODA) was **deficient**.

The results of the site visit are as follows:

I. Violation 1: Inadequate Clinic Supervision (Faculty to Student Ratios). [Deficient of BPC Section 1941(a), 16 CCR Section 1105(b)(4), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5 and 3-5.]

A. Complaint:

a. Complaint states clinic is repeatedly understaffed by faculty, resulting in faculty to student ratios to often being out of compliance with DHBC educational regulations and CODA Standards.

1. Complaint states the program director is often not available to substitute to remedy the faculty to student ratio to be in compliance with DHBC educational regulations and CODA Standards.

2. Complaint states many part-time faculty unwilling to substitute for absent faculty due to substitute pay being approximately half of their normal pay scale.

b. Complaint states students are being advised that they can enter the clinic without faculty supervision.

1. Complaint states that entry to clinic has always required instructor supervision to ensure proper safety and infection control.

    i. Complaint states: "Shift in policy is not only concerning from a safety perspective but also violates established protocols that have ensured the well-being of both students and patients."

B. Site Visit:

1. DHBC Site Visit Team Observation:

    a. DHBC site visit team arrived at Cabrillo at 9:00 a.m., finding only three (3) faculty members for 20 students in the clinic, resulting in a ratio of one (1) faculty member to seven (7) students.

        1. Clinic was out of compliance until a part-time faculty member arrived at 10:30 a.m., as observed by DHBC site visit team.

    b. Program director was "offsite" at a meeting and did not arrive to the clinic until 9:40 a.m. due to DHBC site visit team requesting her presence.

2. Cabrillo Faculty Interviews:

    a. Per Cabrillo faculty, no substitute could be found to remedy the faculty to student ratio to be the required one (1) faculty member to five (5) students.

        1. Per Cabrillo faculty, program director was notified by faculty at 8:00 a.m. of the absent faculty member.

3. ***Effect:*** Student progression and preparation to become a dental hygienist is hindered without the necessary and required faculty support.

C. Refer to:

1. BPC Section 1941(a):

    The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR section 1105(b)(4):

   The instructor to student ratio shall meet the following requirements:
   (A) In preclinical and clinical sessions, the ratio shall not exceed five (5) students to one (1) faculty member.
   (B) In radiography laboratory sessions, the ratio shall not exceed five (5) students to one (1) faculty member.
   (C) In other dental sciences laboratory sessions, the ratio shall not exceed ten (10) students to one (1) faculty member.

3. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

4. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

5. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

6. CODA Standard 3-5:

   The faculty to student ratios must be sufficient to ensure the development of competence and ensure the health and safety of the public. 1. In preclinical and clinical sessions, the ratio must not exceed one (1) faculty to five (5) students. 2. In radiography laboratory sessions, the ratio must not exceed one (1) faculty to five (5) students. 3. In other dental sciences laboratory sessions, the ratio must not exceed one (1) faculty to 10 students

D. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(b)(4), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5 and 3-5.

3. Cabrillo to provide documentation regarding faculty support and faculty to student ratios pursuant to BPC Section 1941(a), 16 CCR Section 1105(b)(4), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5 and 3-5 by ***March 13, 2026***.

II. Violation 2: Inadequate Student Clinical Hours.

[Deficient of BPC Section 1941(a), 16 CCR Section 1105(c), 16 CCR Section 1105.2(d), and CODA Standards 2-6, 2-10, and 2-11.]

A. Complaint:

1. Complaint states students are not held accountable if they do not have a patient for the clinic session ("empty chair").

    a. Complaint states that on average only 10 out of 20 students have clinic patients during a clinic session.

B. Site Visit:

1. DHBC Site Visit Team Review:

    a. According to student records for "DH 181 Clinical Dental Hygiene II" (DH 181), the following "empty chair" data are as follows:

"Empty Chairs"	**Number of Students**	***Deficient* Clinic Hours per Student (4 Hours per Clinic Session)**
11	1	44
9	1	36
8	3	32
7	4	28
6	4	24
5	2	20
4	4	16
3	1	12

    b. DH 181 Course Syllabus:

        1. "Empty Chair" policy allows for two (2) "empty chairs."

            i. Once a student has three (3) "empty chairs" the student must make an appointment with the clinic coordinator, and the remediation process will be initiated.

2. ***Result:***

    i. ***Twenty out of twenty*** students ***did not*** have the required number of clinical hours to progress to the successive clinical course ["DH 183 Clinical Dental Hygiene III" (DH 183)].

    ii. Cabrillo students are in violation of Cabrillo's "Empty Chair" policy, missing anywhere from 12 to 44 hours of required Cabrillo clinic hours to establish competency in patient care.

2. Cabrillo Faculty Interviews:

    a. Cabrillo faculty informed the DHBC site visit team that Dean Heidi Weber would not allow Cabrillo faculty to enforce the Cabrillo policy allowing only two (2) "empty chairs" for DH 181, nor allow the Cabrillo faculty to employ the Cabrillo remediation policy to hold students accountable for excessive "empty chairs."

    b. Cabrillo faculty informed DHBC site visit team that Dean Heidi Weber would not allow Cabrillo faculty to make appropriate grade adjustments or fail students in DH 181 due to inadequate clinic hours and directed the Cabrillo faculty to pass all students onto the successive clinical course (DH 183).

3. ***Effect:*** Cabrillo students are not completing required Cabrillo clinical hours and therefore ***do not*** meet Cabrillo's clinical hour requirements to establish competency in patient care and meet established Cabrillo graduation requirements.

C. Refer to:

1. BPC Section 1941(a):

    The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(c):

    Standards of Competency. Each educational program shall establish and maintain standards of competency. Such standards shall be available to each student, and shall be used to measure periodic progress or achievement in the curriculum.

3. 16 CCR Section 1105.2(d):

   The content of the curriculum shall include biomedical and dental sciences and dental hygiene sciences and practice. This content shall be of sufficient depth, scope, sequence of instruction, quality and emphasis to ensure achievement of the educational program's standard of competency.

4. CODA Standard 2-6:

   The dental hygiene program must: 1) define and list the overall graduation competencies that describe the levels of knowledge, skills and values expected of graduates. 2) employ student evaluation methods that measure all defined graduation competencies. 3) document and communicate these competencies and evaluation methods to the enrolled students.

5. CODA Standard 2-10:

   Clinical experiences must be distributed throughout the curriculum. The number of hours of preclinical practice and direct patient care must ensure that students attain clinical competence and develop appropriate judgment. The preclinical course should have at least six hours of clinical practice per week. As the first-year students begin providing dental hygiene services for patients, each student should be scheduled for at least eight to twelve hours of direct patient care per week. In the final prelicensure year of the curriculum, each student should be scheduled for at least twelve to sixteen hours of direct patient care per week in the dental hygiene clinic.

6. CODA Standard 2-11:

   The dental hygiene program must have established mechanisms to ensure a sufficient number of patient experiences that afford all students the opportunity to achieve stated competencies.

D. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(c), 16 CCR Section 1105.2(d), and CODA Standards 2-6, 2-10, and 2-11.

3. Cabrillo to provide a plan to ensure Cabrillo students will attain adequate clinical hours *prior to* graduation pursuant to BPC Section 1941(a), 16 CCR Section 1105(c), 16 CCR Section 1105.2(d), and CODA Standards 2-6, 2-10, and 2-11 ***by March 13, 2026***.

III. Violation 3: Student Competency.

[Deficient of BPC Section 1941(a), 16 CCR Section 1105(c), 16 CCR Section 1105(d), 16 CCR Section 1105.2(b), 16 CCR Section 1105.2(e), 16 CCR Section 1105.2(f), and CODA Standards 2-6, 2-12, 2-13, and 2-14.]

A. Complaint:

1. Complaint states students are progressing to successive clinical courses without completing required course competencies and requirements.

2. Complaint states Dean Heidi Weber has told faculty that they cannot fail the students.

B. Site Visit:

1. DHBC Site Visit Team Review:

a. According to student records for DH 181, Cabrillo clinical competency and requirement completion data are as follows:

Student	**Number of *Deficient* Competencies and Requirements for DH 181**
5	4
7	6
9	2
11	3
12	1
15	1
20	1

b. **Result:** Seven (7) out of twenty students should not have progressed to the successive clinical course (DH 183) due to deficient completion of competencies and requirements.

2. Cabrillo Faculty Interviews:

a. Cabrillo faculty informed DHBC site visit team that Dean Heidi Weber would not allow Cabrillo faculty to make appropriate grade adjustments or fail students in DH 181 due to missing competencies or requirements and directed the Cabrillo faculty to pass all students onto the successive clinical course (DH 183).

3. ***Effect:*** Cabrillo students are not completing the required number of clinical competencies and requirements and therefore **do not** meet Cabrillo's requirements to establish competency in patient care and meet established Cabrillo graduation requirements.

C. Refer to:

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(c):

   Standards of Competency. Each educational program shall establish and maintain standards of competency. Such standards shall be available to each student, and shall be used to measure periodic progress or achievement in the curriculum

3. 16 CCR Section 1105(d):

   The policies and procedures by which the educational program is administered shall be in writing, shall reflect the mission and goals of the program, and shall be available to all students.

4. 16 CCR Section 1105.2(b):

   The curriculum shall include education in the dental hygiene process of care and shall define the competencies graduates are to possess at graduation, describing (1) the desired combination of foundational knowledge, psychomotor skills, communication skills, and professional behaviors and values required, (2) the standards used to measure the students' independent performance in each area, and (3) the evaluation mechanisms by which competence is determined.

5. 16 CCR Section 1105.2(e):

   An educational program shall provide for breadth of experience and student competency in patient experiences in all classifications of periodontal disease including mild, moderate, and severe involvement.

6. 16 CCR Section 1105.2(f):

   An educational program shall provide for breadth of experience and student competency in providing patient experiences in dental hygiene care for the child, adolescent, adult, geriatric, and special needs patients.

7. CODA Standard 2-6:

   The dental hygiene program must: 1) define and list the overall graduation competencies that describe the levels of knowledge, skills and values expected of graduates. 2) employ student evaluation methods that measure all defined graduation competencies. 3) document and communicate these competencies and evaluation methods to the enrolled students.

8. CODA Standard 2-12:

   Graduates must be competent in providing dental hygiene care for all patient populations including: 1) child 2) adolescent 3) adult 4) geriatric 5) special needs.

9. CODA Standard 2-13:

   Graduates must be competent in providing the dental hygiene process of care which includes: a) comprehensive collection of patient data to identify the physical and oral health status; b) analysis of assessment findings and use of critical thinking in order to address the patient's dental hygiene treatment needs; c) establishment of a dental hygiene care plan that reflects the realistic goals and treatment strategies to facilitate optimal oral health; d) provision of comprehensive patient-centered treatment and evidence-based care in a manner minimizing risk and optimizing oral health; e) measurement of the extent to which goals identified in the dental hygiene care plan are achieved; f) complete and accurate recording of all documentation relevant to patient care.

10. CODA Standard 2-14:

    Graduates must be competent in providing dental hygiene care for all types of classifications of periodontal diseases including patients who exhibit moderate to severe periodontal disease.

D. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(c), 16 CCR Section 1105(d), 16 CCR Section 1105.2(b), 16 CCR Section 1105.2(e), 16 CCR Section 1105.2(f), and CODA Standards 2-6, 2-12, 2-13, and 2-14.

3. Cabrillo to provide a plan to ensure Cabrillo students will complete all Cabrillo required competencies prior to graduation pursuant to BPC Section 1941(a), 16 CCR Section 1105(c), 16 CCR Section 1105(d), 16 CCR

Section 1105.2(b), 16 CCR Section 1105.2(e), 16 CCR Section 1105.2(f), and CODA Standards 2-6, 2-12, 2-13, and 2-14 by ***March 13, 2026.***

IV. Violation 4: Program Director Assignment and Authority.

[Deficient of BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.]

A. Complaint:

1. Complaint states the program director resides in Southern California and states the program director is not consistently on campus and lacks availability to students and faculty.

B. Site Visit:

1. DHBC Site Visit Team Observation:

a. DHBC site visit team arrived at Cabrillo at 9:00 a.m. and program director was "offsite" at a meeting and did not arrive to the clinic until 9:40 a.m. due to DHBC site visit team requesting her presence.

b. Program director assignment does not comprise the primary responsibility for the operation, supervision, evaluation and revision of the program

1. Program director assignment is comprised of 17.45 units.

i. Eight (8) units are dedicated to program director responsibilities.

ii. 9.45 units are dedicated to teaching responsibilities.

2. Cabrillo Faculty Interviews:

a. Cabrillo faculty report the program director is unavailable on a regular basis and states that when there are concerns in clinic, program director does not provide "hands-on" support.

b. Cabrillo faculty stated that the program director has made significant changes to clinic hours, dress code, and other procedures which are in direct violation of Cabrillo's established clinic manual and does not provide assistance in managing clinic operational challenges.

c. Cabrillo faculty report concerns that Dean Heidi Weber is overstepping her authority and preventing the program director from having the required authority and responsibility necessary to operate the DHEP.

3. ***Effect:*** Program director assignment fails to provide the necessary and required support to the students and faculty of the Cabrillo DHEP, thereby allowing deficient oversite of the program.

C. Refer to:

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(j):

   The educational program director shall have the primary responsibility for developing policies and procedures, planning, organizing, implementing and evaluating all aspects of the program.

3. 16 CCR Section 1105.1(a):

   "Program Director" or "Interim Program Director" means a registered dental hygienist or dentist who has the authority and responsibility to administer the educational program in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article. The educational program may have an Interim Program Director for a maximum of twelve (12) months. The director shall have a full-time appointment as defined by the institution, whose primary responsibility is for the operation, supervision, evaluation and revision of the program. The program director shall meet the following minimum qualifications:
   (1) Possess an active, current dental or dental hygiene license issued by the Dental Hygiene Board or the Dental Board of California (DBC), with no disciplinary actions; (2) Possess a master's or higher degree from a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation; (3) Documentation of two (2) years' experience teaching in pre- or post-licensure registered dental hygiene or dental programs. This requirement may be waived for an Interim Program Director; and
   (4) Documentation of a minimum of 2,000 hours in direct patient care as a registered dental hygienist or working with a registered dental hygienist.

4. CODA Standard 3-2:

   The dental hygiene program administrator must have a full-time appointment as defined by the institution, whose primary responsibility is for operation, supervision, evaluation and revision of the program.

5. CODA Standard 3-4:

   The program administrator must have the authority and responsibility necessary to fulfill program goals including: a) curriculum development, evaluation and revision; b) faculty recruitment, assignments and supervision; c) input into faculty evaluation; d) initiation of program or department in-service and faculty development; e) assessing, planning and operating program facilities; f) input into budget preparation and fiscal administration; g) coordination, evaluation and participation in determining admission criteria and procedures as well as student promotion and retention criteria.

D. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.

3. Cabrillo to provide evidence of a program director assignment pursuant to BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4 by ***March 13, 2026.***

   a. Evidence shall include, but not limited to:

      1. Program director updated assignment providing for the primary responsibility of the position is for operation, supervision, evaluation and revision of the program.

      2. Program director weekly schedule.

      3. Program director job description.

V. Violation 5: Faculty Support.
[Deficient of BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), 16 CCR Section 1105.3(a)(2)(D), and CODA Standard 2-5.]

A. Site Visit:

1. DHEP Site Visit Team Observation:

    a. Only one (1) full-time faculty member (program director) is assigned to the Cabrillo DHEP.

        1. Unclear as to when the other two (2) full-time faculty members left as Cabrillo failed to notify the DHBC pursuant to 16 CCR section 1105.3(a)(2)(D) as to the departure of the other two (2) full-time faculty members.

        2. Results in a reduction of 66% of full-time faculty support.

2. Cabrillo Faculty Interviews:

    a. The current program director stated that when she was hired there were no other full-time faculty members for the DHEP employed by Cabrillo.

        1. Program director informed by Dean Heidi Weber that this is due to a "budget issue."

3. ***Effect:*** Student progression and preparation to become a dental hygienist is hindered without the necessary and required faculty support.

B. Previous Cabrillo Program Faculty Support Concerns:

1. Cabrillo DHEP is assigned three (3) full-time faculty members by Cabrillo College.

    a. Per the June 14, 2024, DHBC "Cabrillo Compliance Determination 1" report:

        1. On May 31, 2024, Cabrillo stated:

            i. "Human Resources launched a recruitment for a one-year full-time temporary faculty position in Dental Hygiene. A hiring committee was established and included a diverse group of faculty and staff along with the Dental Hygiene Program Director. The recruitment closed on April 19, 2024. The interviews were held on May 15th. Qualified candidates were interviewed and asked to complete a presentation and teaching demonstration. A

qualified candidate has accepted a conditional offer of full-time faculty employment for the academic year 2024-25. The selected candidate will begin service to the college on August 1st, 2024. This will represent a third full time faculty position for the program."

b. Cabrillo was cited by the DHBC in 2019 and 2024 for the same concern.

1. April 18, 2024, Site Visit Report:

i. Third full time faculty member has not been assigned courses or provided support to the program since 2021 which causes a lack of needed faculty staffing and support to the program.

ii. Cabrillo failed to provide replacement (temporary or permanent) of the third faculty position once vacated to provide required support to the program.

2. December 6, 2019, Site Visit Report:

i. Self Study Exhibits pp. 21-26 SLO* Departmental Assessment Analysis #2

- "Priorities to Improve Student Learning"

♦ "Two additional full-time faculty"

"All of this fund raising impacts the educational goals of the program. 87% of our students are first generation learners and are of ethnicity other than Caucasian. These students have greater academic challenges that require additional didactic and clinical tutoring that the program cannot provide with limited FT faculty. Restating the two FT faculty would facilitate the support and consistency needed to help with student success."

♦ "Reinstatement of Program TU's College funding of program"

"Ever since the 100 TU's were removed from the DH program in 2014 the DH program has requested restatement of Program TU's in our annual program update."

- Self Study p. 133

"Currently there are 2 full time faculty positions and in 2018-2019 one temporary full time faculty position in the dental hygiene

department. A hire is in process for a full-time tenure track position to begin in fall 2019. The full-time faculty allocation is misleading since the DH director is required to spend a majority of her time in administrative duties and oversees fund raising of $140,000 a year to accept a new incoming class."

C. Refer to:

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

3. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

4. 16 CCR Section 1105.3(a)(2)(d):

   (a) Each dental hygiene program holding a certificate of approval shall:
   (2) Notify the Dental Hygiene Board within ten (10) days of any:
   (D) Programmatic reduction in program faculty or support staff of more than 10%

5. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

D. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), 16 CCR Section 1105.3(a)(2)(D), and CODA Standard 2-5.

3. Cabrillo to provide evidence and demonstration of faculty support pursuant of BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standard 2-5.

    a. Cabrillo to provide immediate, temporary full-time staffing by **March 13, 2026.**

    b. Cabrillo to provide permanent full-time staffing by **August 3, 2026.**

4. Cabrillo to provide future communication regarding all changes to the DHEP pursuant to 16 CCR section 1105.3.

VI. Violation 6: Staff Support.

[Deficient of BPC Section 1941(a),16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5, 3-10, and 3-11.]

A. Complaint:

1. Students are being advised that they can enter sterilization area without supervision even though there are pharmaceuticals within their reach.

    1. Complaint states sterilization area has always required instructor supervision to ensure proper safety and infection control.

        i. "Shift in policy is not only concerning from a safety perspective but also violates established protocols that have ensured the well-being of both students and patients."

B. Site Visit:

    a. DHBC Site Visit Team Observation:

    1. Unsupervised students overseeing sterilization and infection control processes.

    2. Sterilization assistant did not arrive at the clinic until 10:00 a.m., two hours after clinic began.

b. Cabrillo Faculty Interviews:

1. Program director reported the sterilization assistant has a "compressed" schedule and not always present when clinic is in session.

    i. Informed by program director this change was necessitated by "budget" issues.

c. ***Effect:*** Lack of program support necessitates faculty to redirect time from student support to sterilization duties.

C. Refer to:

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

3. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

4. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

5. CODA Standard 3-10:

   Qualified institutional support personnel must be assigned to the program to support both the instructional program and the clinical facilities

providing a safe environment for the provision of instruction and patient care.

6. CODA Standard 3-11:

   Student assignments to clerical and dental assisting responsibilities during clinic sessions must be minimal and must not be used to compensate for limitations of the clinical capacity or to replace clerical or clinical staff.

D. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5, 3-10 and 3-11.

3. Cabrillo to provide evidence of qualified and sufficient staff support pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5, 3-10 and 3-11.

VII. Violation 7: Student Resources.

[Deficient of BPC Section 1941(a), 16 CCR Section 1105(i), CODA Standards 2-5, and 4-1, and Education Code (EDC), Title 2, Section 49011(b)(1)]

A. Site Visit:

1. DHBC Site Visit Team Observation:

   a. Students required to provide their own personal protective equipment (e.g., gloves, masks, etc.) and clinic patient tracking forms.

2. Cabrillo Faculty Interviews:

   a. Cabrillo faculty confirmed students are required to pay for personal protective equipment and clinic patient tracking forms.

   b. Cabrillo faculty stated these costs are passed onto the students due to budgetary restrictions.

3. ***Effect:*** Poses a significant cost incurrence to students and prohibited by law.

B. Refer to:

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

3. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

4. CODA Standard 4-1:

   The program must provide sufficient and appropriately maintained facilities to support the academic and clinical purposes of the program that conform to applicable regulations. Clinical Facilities: The dental hygiene facilities must include the following: a) sufficient clinical facility with clinical stations for students including conveniently located hand washing sinks and view boxes and/or computer monitors; a working space for the patient's record adjacent to units; functional, modern equipment; an area that accommodates a full range of operator movement and opportunity for proper instructor supervision; b) a number of clinical stations based on the number of students admitted to a class (If the number of stations is less than the number of students in the class, one clinical station is available for every student scheduled for each clinical session.); c) a capacity of the clinic that accommodates individual student practice on a regularly scheduled basis throughout all phases of preclinical technique and clinical instruction; d) a sterilizing area that includes sufficient space for preparing, sterilizing and storing instruments; e) sterilizing equipment and personal protective equipment/supplies that follow current infection and hazard control protocol; f) facilities and materials for students, faculty and staff that provide compliance with accepted infection and hazard control protocols; g) space and furnishings for patient reception and waiting

provided adjacent to the clinic; h) patient records kept in an area assuring safety and confidentiality.

5. 2 EDC section 49011(b)(1):

   (a) A pupil enrolled in a public school shall not be required to pay a pupil fee for participation in an educational activity.
   (b) All of the following requirements apply to the prohibition identified in subdivision (a):
   (1) All supplies, materials, and equipment needed to participate in educational activities shall be provided to pupils free of charge.

C. **Determination:**

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(i), CODA Standards 2-5, and 4-1, and 2 EDC Section 49011(b)(1).

3. Cabrillo shall provide and provide evidence of student resources pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), CODA Standards 2-5, and 4-1, and 2 EDC Section 49011(b)(1) by **March 13, 2026.**

VIII. Violation 8: Renewal of DHBC Concerns Regarding Stable Financial Resources. [Deficient of BPC Section 1941(a), 16 CCR Section 1104(b)(5), and CODA Standard 1-3.]

A. **Major Concern**:

1. The DHBC has cited Cabrillo for lack of a stable funding source to maintain the DHEP in both 2019 and 2024.

2. Despite the repeated assurances by Cabrillo that funding to the DHEP that the College has the strength and stability to fully maintain the DHEP, the DHBC has again discovered budgetary concerns that are affecting the DHEP.

   a. Please refer to above violations 5, 6, and 7 as to areas where "budgetary concerns" are cited.

3. Despite repeated assurances the program director and faculty would not be required to staff the "Expanded Duties Courses" (i.e., Soft Tissue Curettage, Local Anesthesia, and Nitrous Oxide-Oxygen Analgesia courses) to "fundraise" and provide the sole funding source ("Fund 16") to the DHEP, yet this practice continues.

4. ***Effect:*** Cabrillo program director and faculty required to "fundraise" to support the program which causes undue stress and requires program director and faculty to work non-contracted, personal time to ensure the program is funded to remain functioning.

    a. Fundraising to maintain the program is not a normal program director and faculty function. Forced participation in such events should be avoided since the program should be fully funded by the college.

B. Refer to:

1. BPC Section 1941(a):

    The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1104(b)(5):

    Continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in this Article. Written notification of continuation of approval shall be provided.

3. CODA Standard 1-3:

    The institution must have a strategic plan which identifies stable financial resources sufficient to support the program's stated mission, goals and objectives. A financial statement document must be submitted providing revenue and expense data for the dental hygiene program.

C. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1104 (b)(5), and CODA Standard 1-3.

3. Cabrillo to provide evidence of stable financial resources for the DHEP to ensure continuity of the program pursuant to BPC Section 1941(a), 16 CCR Section 1104 (b)(5), and CODA Standard 1-3 by ***April 3, 2026.***

    a. Evidence shall include, but not limited to, Cabrillo DHEP budget to include a narrative as to the description of the source for the support.

Cabrillo shall provide evidence of compliance to the above violations ***by the aforementioned dates.***

Pursuant to 16 CCR section 1104(b)(5), continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in Title 16, Division 11, Article 3 of the CCR. As Cabrillo is operating outside the structured parameters of California law and CODA Standards with these violations, Cabrillo is therefore putting students, faculty, and the public at risk. ***Please note:*** 16 CCR section 1104(e) states: "A material misrepresentation of fact by a new educational program or an approved educational program in any information required to be submitted to the Dental Hygiene Board is grounds for denial of approval or revocation of the program's approval."

The priority of the DHBC is consumer protection. To ensure consumer protection and the public's right to receive quality dental hygiene care, the DHBC has a responsibility to ensure that all DHEPs within the state meet the same educational requirements in preparing their graduates for the profession. Please remember that California law and the CODA Standards are the required ***minimum*** levels California DHEPs shall operate at to continue approval and may exceed those levels, as several programs do at their discretion. If you have any questions regarding this report, please feel free to contact me at adina.petty@dca.ca.gov.

Sincerely,

Adina A. Pineschi-Petty DDS
Education, Legislative, and Regulatory Specialist
Dental Hygiene Board of California

DH 181

CLINICAL DENTAL HYGIENE II

A COURSE SYLLABUS
FALL 2025

[redacted]
DH Clinic Coordinator
Cabrillo College, Aptos, CA

Student Name _____
DH#_____

ACKNOWLEDGEMENT Of
Course Requirements for DH 181

DUE: August 26, 2025

This page is to be signed and turned into the course instructor by the 1st class meeting of the course.

I, _____, understand the process for obtaining a passing grade in this course as outlined in this syllabus for DH 181, Clinical Dental Hygiene II. I have reviewed the policies and requirements outlined in this Canvas manual and in the supplemental paperwork, including all the revisions distributed to me. I also understand all the procedures/protocol/requirements for DH 181, Clinical Dental Hygiene II, Fall 2025.

DH 181 CLINICAL DENTAL HYGIENE II

COURSE SYLLABUS FALL 2025

DH181 Clinical DH II

COURSE INSTRUCTOR: [redacted] RDH, BSDH
Email: [redacted]
Office # HW2124 Phone [redacted]

REQUISITES: Prerequisites: Acceptance to the Dental Hygiene Program and DH173
8.5 Units: 2 hours 5 min lecture, 20 hours clinic Section# Fall 2025-214150

SCHEDULE:	Tuesday	Lecture class	10:00-12:00pm
	Tuesday	On Campus Clinic	1:00-5:05pm
	Wednesday	On Campus Clinic	7:45-11:50am & 1:00-5:15pm
	Thursday	On Campus Clinic	7:45-11:50am & 1:00-5:15pm
	Friday &Saturday	Off Campus Clinics	To be arranged

COURSE DESCRIPTION

Introduces advanced clinical techniques, advanced treatment planning, and evaluation of treatment through clinical experiences at Cabrillo and possibly outside clinics. Third in a four-course series. May be offered in a distance-learning format.

Clinical skills are further refined through experience at Cabrillo College Dental Hygiene Clinic and off campus clinical rotations. Classroom emphasis is on appropriate treatment of clinic patients. It is designed for the 2nd year dental hygiene student to demonstrate further refinement of clinical skills beyond DH173 and to build advanced clinical skills. New skills introduced and/or refined this semester may include: dental sealant placement, subgingival irrigation, advanced instrumentation techniques, Piezo and magnetostrictive ultrasonic instrumentation, administration of local anesthetic and non-injectable for pain control, administration of Arestin® (local delivery anti-microbial agent), oral cancer detection technology, desensitizing procedures for dentin hypersensitivity, bisecting technique for dental radiographs, and digital sensor technique.

Educational Objectives, Learning Outcomes, Assignments, Delivery

Course Student Learning Outcomes

1. Apply theoretical knowledge, professional concepts and clinical decision-making skills following the dental hygiene process of care to a moderate classification of patients.
2. Demonstrate appropriate motor skills and ergonomic principles utilizing assessment and treatment instruments in delivering dental hygiene care.

Course Learning Objectives

The educational objectives of this semester of the dental hygiene program are that the student shall:

1. Demonstrate further refinement of clinical skills (beyond DH173), assessing patients' needs and implementing appropriate treatment.
2. Demonstrate decision making skills in treating patients following the dental hygiene process of care, including radiographic decision making.
3. Demonstrate proficiency in the clinical skills of scaling and root planing with universals and Gracey Curets, pit and figure sealant application, subgingival irrigation, soft tissue curettage, administration of local anesthesia, administration of topical anesthesia, local delivery of antimicrobial agents, use of ultrasonic scaling devices and desensitizing procedures for hypersensitive teeth.
4. Demonstrate time management skills daily.
5. Incorporate dental hygiene ethical and legal concepts in the provision of dental hygiene therapy at an intermediate level.
6. Demonstrate skills and principles of safety and infection control and prevention of cross contamination, following CDC infection control guidelines.

Course Content Outline

1. Treating the periodontal patient with non-surgical dental hygiene therapy, following the legal guidelines and professional code of ethics including:
    a) soft tissue management theory, rationale, and strategies in periodontal supportive therapy including soft tissue curettage
    b) advanced root planing skills, instrumentation, and technique
    c) sharpening of universal curets, sickle scalers, and Graceys
    d) subgingival debridement
    e) antimicrobial/chemotherapeutic therapy and subgingival irrigation
    f) the use of ultrasonic scaling devices
    g) desensitizing procedures for hypersensitive teeth and for sensitive oral mucosa

h) administration of local anesthesia and non-injectable topical anesthetic for pain control
i) application of pit and fissure sealants
j) administration of local delivery anti-microbial agents

2. Briefing and discussion of off-campus rotation assignments and experiences.
3. Treatment planning and case presentations.
4. Discussion of problem-solving strategies for specific clinic events and patient care needs
5. Use skills and principles of safety and infection control and prevention of cross contamination, following CDC infection control guidelines.

Accommodations Statement

NONDISCRIMINATION and ACCESSIBILITY NOTICE: The District is committed to equal opportunity in educational programs, employment, and all access to institutional programs and activities. The District, and each individual who represents the District, shall provide access to its services, classes, and programs without regard to national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because he/she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

DIVERSITY AND INCLUSION STATEMENT:
Respect for Diversity Statement

The district is committed to equal opportunity in educational programs, employment, and all access to institutional programs and activities. The District, and each individual who represents the District, shall provide access to its services, classes, and programs without regard to national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because they/them are perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

ACCOMMODATIONS STATEMENT:
Students Needing Accommodations

Students needing academic support/accommodation should contact the instructor as soon as possible. As required by the Americans with Disabilities Act (ADA), accommodations are provided to ensure equal opportunity for students with verified disabilities. If you need assistance with an accommodation, please contact the Accessibility Support Center (ASC) at 831-479-6379 or 831-479-6370, located in the HUB/2nd floor of the library, room 1073.

"I have made every effort to create accessible course materials for all students. If you encounter a problem accessing anything in this course, especially online documents, please contact me immediately through Canvas or email so that I can support you. You may also contact the Accessibility Support Center at asc@cabrillo.edu or 831.479.6379 or 831.479.6370."

LAB OR CLINIC COURSE ACCOMMODATIONS:

Additional time is not reasonable in a lab/clinic course as lab/clinic time is limited by the size of the facility, required student/teacher ratio, the required student lab hours.

Source: DH Student Handbook 2025 section 2: college polices and Student Services

Covid Protocol Statement:

Proof of vaccination and masks are required of all students taking in-person classes and for students who need to come to campus for any reason (to access tutoring, student services, the Library, STEM Center, CTC, etc.). Students must have their vaccination information (or approved accommodation from Student Health Services) uploaded into Cabrillo's secure health portal.

Information for uploading your proof of vaccination, can be found by visiting the Student Health Services page:

https://www.cabrillo.edu/student-health-services/

Students who are attending only online classes, and who will not be visiting campus at all may choose to not upload their vaccination information.

e2Campus

e2Campus (Formerly ALERT U) – provides emergency preparedness alerts to students, faculty, and staff via text message to your cell phone. For your syllabus, give your students the following information:

"If you have previously signed up for ALERT U, YOU' you are all set! To sign up for e2Campus, text the word CABRILLO to: 79516; Respond with Y, and you are in!"

Assignments Out of class

- Readings from texts, journal articles
- Patient recruitment
- Written paper on a dental office visit
- Development of case presentation(s)
- Development of case competency
- Preparation for clinical practice in off-site dental clinics In class
- All clinical assignments require constant analysis/evaluation of patients under care: treatment plans to be designed and applied, and evaluation procedures to determine

health status. • Tests include simulated clinical situations that require critical judgments based on analysis of facts presented Methods of Evaluation Rationale

- Exams
- Quizzes
- Research
- Papers
- Simulation
- Group Projects
- Participation
- Class Work
- Homework
- Lab Activities
- Student Knowledge
- Competency Based Tests

Methods of information delivery

- Announcements
- Course materials/modules
- Personalized audio/video
- Text alternative for audio feedback
- Online video
- Internet resources
- Webcasts/video content
- Podcasts/audio content
- Discussion forums
- Social media
- Webinar/Videoconferencing

Methods of communication between instructors and students that could be used:

- Chat/messaging
- Regular and prompt feedback on student work
- Responding to discussion posts
- Webinar/videoconferencing
- Webcasts/video content
- Podcasts/audio content
- Online office hours
- Contact via phone

Methods of communication among students that could be used:

- Chat rooms/student lounge
- Class Q&A
- Voluntary study partners/groups
- Class blog or wiki page
- Discussion posts with required responses to classmates
- Group projects/assignments

- Synchronous or asynchronous discussions or debates

DH181 COURSE EVALUATIONS, GRADING, TUTORIALS

EVALUATIONS

The student must follow all criteria and procedures for DH181. It is imperative that the student ask questions for clarification if a certain procedure/requirement is not clear. The student is responsible for being an active participant in her/his learning.
It is vital that a dental hygienist possesses a complete understanding of the material presented in this course so that he/she can provide the patient with proper care.

1. **Ascend Academic**, a web-based dental hygiene evaluation program used to evaluate student performance, will be used in DH181. This system evaluates the Dental Hygiene Process of Care. Clinical performance evaluations are essential for competent delivery of dental hygiene care. Students are to complete the self-assessment on Ascend after every clinic session and to ask the Clinic Coordinator for help as needed.

2. **Clinical Evaluations**: Each competency must be completed and passed by the end of the semester with a grade of success or needs improvement.
    - Each student must complete one Assessment Clinical Competency Evaluation with a grade of successful or needs improvement. The student must pass all portions of this exam to meet competency and pass the course. If the student is unsuccessful in any portion of this exam, she/he must make an appointment with the clinic coordinator to arrange tutoring and create a remediation plan. The student is responsible for scheduling this appointment. It will be left to the clinic coordinator if the student must retake the entire exam or portions of the exam with a passing grade(s).
    - Student competencies will be evaluated by faculty using the Ascend program.
3. **Quizzes, comprehensive written midterm, and final examinations** will be given during the semester. Quizzes may be given without prior notice. All examinations and quizzes will cover material presented in class, laboratory and reading assignments. Didactic work is essential for competent delivery of dental hygiene care; thus, these exams will be an overall evaluation of your knowledge base prior to moving into Clinic III. There will be no make-up for these exams except under unusual circumstances as approved by the Course Coordinator. To ensure valuable teaching time, exams and quizzes will have set time limits as specified by the instructor of record.
4. **Required Individual Clinical Competencies** will be completed by the scheduled times during the semester or during regular clinic hours. These competencies are an assessment of the student's technical skills (psychomotor), ability to apply didactic knowledge, and follow directions. They will be graded using the following scale: Successful /credit = (+); Needs Improvement /credit with specific corrective feedback and tutoring recommendations = (NI), Not successful Unsatisfactory/ No credit = (X). Errors on competencies will be counted per the DH Clinic Manual. Failure to achieve a (+) or (-) level on the competency indicates a serious deficiency in psychomotor skill acquisition and a lack of preparation for patient treatment responsibilities. Not only must a hygienist

possess high didactic knowledge, but also his/her instrumentation skills must go hand-in hand, demonstrating the appropriate level to enter Clinic III. A competency not attempted will result in not passing the course, and a grade of Unsuccessful (X) for that requirement. In the event a student earns a grade of Unsuccessful (X) on a competency, the competency must be retaken and passed by the last day of clinic. The student must achieve a grade of (+) Successful or (NI) Needs Improvement competency level on each competency/requirement. If the student earns an unsuccessful grade code of (X), he/she may be required to meet with the clinic coordinator and program director to arrange a plan for remediation. No competencies are to be completed outside of regular class hours. If competency form is not generated prior to the time of competency, student will earn a grade of Unsuccessful (X).

5. **Non-graded performance:** After successful completion of a required competency, it is expected that the student will consistently achieve a successful level of competency in that skill. The repeated achievement of an unsatisfactory/not successful/(X) level for that skill will result in remediation and may adversely affect the student's ability to successfully pass the course.
6. During the semester, each student will receive feedback from faculty on their professional behavior in Clinic II. Students must demonstrate all professional behaviors at a passing level (+) in order to advance into the clinical phases of the curriculum.
7. Policies regarding academic qualifications are outlined in the Cabrillo College catalog and pertain to dental hygiene students as well as other students on campus. All courses prefixed by DH require a grade of C or better. The associate degree program cannot be completed if grades of D, F, NC or Incomplete are earned in any DH course.
8. **Paperwork**: It is expected that the student will complete all paperwork correctly and in a timely manner. Holding onto or losing paperwork is unacceptable. Failure to submit DCEF's and/or Competency Forms by the end of the clinic session may result in receiving a (0) in Ascend. In addition, incomplete/incorrect paperwork may result in earning a (0) in Ascend. It is the responsibility of the student to highlight all Competencies on the DCEF and to staple the DCEF to the Competency Form. Check and double check your paperwork for accuracy prior to placing it into the DCEF box. It is the responsibility of the student to be sure all paperwork is complete, including grades, evaluations, and faculty signatures. It is not necessary or acceptable to highlight quad completions.

CRITERIA FOR PASSING THE CLINICAL COMPONENT OF THIS COURSE

The clinical component of this course is graded Credit/No Credit. The clinical evaluation is based on code (+) Successful, (NI) Needs Improvement, (X) Unsuccessful

A Credit in this course is based on successful completion of ALL clinical course requirements

1. Demonstration of all professional behaviors and attitudes at a (+) satisfactory, or (NI) needs improvement level.

2. Demonstrate competency in all Patient Requirements and Competency Evaluations for this course with a (+) successful level or (NI) Needs Improvement level of competency by the end of the semester, and to achieve higher levels of competency throughout the semester.
3. Meet all attendance requirements for the course
4. Pass the didactic portion of the class with a score of 75% or above, AND pass all competency evaluations by the end of the semester, AND earn 80% in Ascend
    a. Failure to pass all competencies by the end of the semester = earn a no pass/failing grade in the course regardless of the didactic grade
    b. Ascend score: 80% = pass the clinical component if other criteria for the course are met (no impact on final grade). Ascend score <65 median performance level = a no pass/failing grade in the course regardless of the didactic grade

5. Complete the number of calculus Class 4 – 6 & AAP stage II-IV, patient requirements for this semester, and additional requirements/assignments as deemed appropriate by the Clinic Coordinator.
6. Complete the number of calculus Class 1 – 3 & AAP stage I-II, patient requirements for this semester and additional requirements/assignments as deemed appropriate by the Clinic Coordinator.
7. Completion of all patient treatment or discontinuation of patients with approval of the Clinic Coordinator
8. Successful completion (S or NI) of all assigned clinic rotations
9. Successful completion (S or NI) of 1 Assessment Clinical Competency Evaluation and 1 Mock Board Examination
10. Fulfillment of clinic and off campus rotation attendance requirements
11. Attendance at all scheduled mandatory clinic meetings and appointments with the Program Director, Clinic Coordinator, and/or Block Instructors.
12. Successful remediation with tutoring and/or following the procedure for the Situation Identification and Research Method
13. Successful completion (S or NI) of all clinical and class assignments/requirements/ competencies
14. Maintain time management skills at a satisfactory level (minimally) and strive for an advanced level.
15. Demonstrate professional and ethical behaviors at a passing level

An incomplete will be given in this course, "when a student has done passing work and has regular attendance for at least 75% of the course, but because of illness or other unforeseeable emergency, is unable to take the final exam or otherwise complete the course." (See Cabrillo College catalog)

INSTRUCTIONAL TUTORIALS

The student may be observed during any clinical performance and evaluated for skills proficiency and/or deficiency. Continuous individual improvement must be demonstrated within each semester. If a student's performance falls below the DH181 skill level according to the established criteria of this course, individual help must be obtained, and the clinic coordinator may recommend tutoring.

It is up to the discretion of the Second Year Clinic Coordinator or any block instructor to schedule instructor-student tutorials during clinic time for the benefit of student learning in any of the following areas:

- Assessment
- Treatment planning
- Health history intake and analysis
- Patient management
- Instrumentation technique
- Administration of anesthesia
- Administration of nitrous oxide
- Radiographic technique
- Time management
- Documentation

This is a learning opportunity only and is designed to establish applied skills learning and create feedback to the student. A clinical evaluation is required by each student following the tutorial. The evaluation form is to be handed in to the Clinic Coordinator no later than 3 days following each tutoring session. It is the responsibility of the student to make prompt arrangements for and receive tutoring when it is recommended. Instructional tutorials may not be college funded, and payment is the responsibility of the student.

The Clinic Coordinator may request additional Clinical Evaluations, Competencies, patient completions, outside rotations and/or other requirements at any time during the course if performance does not meet the level of competency, and/or continuous individual IMPROVEMENT is not demonstrated for this course. Every effort will be made to provide the student with opportunities to show improvement in skills and demonstrate competency.

Didactic Tutoring is also available during office hours.

A conference may be requested at any time at the discretion of the student or a clinical instructor. Such a conference is encouraged when student or faculty identify a need.

DH181 COURSE GRADE

Both the clinical and the didactic parts of this course must be passed in order to pass the course. Therefore, a No Credit in the clinical component will result in a final grade of "F", not passing the course.

EXAMS/REPORTS/ASSIGNMENTS/PARTICIPATION:

Journal Reflections/Discussions	15%
Projections/Assignments	15%
Quizzes	15%
Midterm	25%
Final	30%
Total…….…….	100%

*Late assignments and reports are not accepted. Late = no credit.
*CCE Self-Evaluation Paper must be received to earn credit for the CCE – upload to Canvas
Competency Evaluations are included in the clinical requirement portion of the course.

To Pass This Course: See Clinical Grading Criteria and Adjustments to Final Grade on previous pages

Final grade = Didactic % plus any adjustments based on clinical skill demonstration

Overall Course Grade*

A = 90-100%
B = 80-89%
C = 70-79%
D = 60-69%
F = < 60%

* Note: A Course Grade of "C" or better must be obtained in DH181 Clinic II in order to progress to the next semester of the dental hygiene program.
Grading Criteria: Grades are A through F or Pass/No Pass. P/NP option may be requested in Etrieve. December 14, 2025, is the last day to select pass/no pass for full-term sections. See your instructor for more information. The decision to choose pass/no pass is final and cannot be changed after it is requested, per California Ed Code.
Patient Completions Required

Calculus Class 1-3 (AAP Stage I)	10 completed patients
Calculus Class 4 (AAP Stage I-II)	2 completed patients
Calculus Class 5-6 (AAP Stage II-IV)	3 completed patients
Periodontally involved (Unique) Patient	1 completed patient Child, Adolescent, Adult, Geriatric, Medically Complex, Periodontally Involved, Diverse, Special Need	1 each

PLEASE NOTE: MINIMUM AGE FOR CHILD PATIENTS IS 5 YEARS OF AGE: THIS MAY ALSO DEPEND ON PATIENT MATURITY

ALL patients are to be completed during this semester. The Clinic Coordinator can request additional patients and/or requirements if unsatisfactory performance is observed from the student
All your Class 4, 5, and 6 (AAP Stage I-IV) patients are to be recalled by YOU in the spring semester for adequate patient follow-up and monitoring.
OUR POLICY IS THAT STUDENTS ARE NOT TO PAY FOR PATIENTS' TREATMENT

CLINICAL EVALUATION PROCEDURES/PROTOCOL FOR DH 181 & 183

To enhance learning/teaching, students are to be evaluated by their assigned instructors in clinic (and lab). Only RDH clinical instructors shall evaluate root planing competencies, Mock Boards, ultrasonic scaling competencies and periodontal charting competencies. Your assigned block instructor for that clinic session has the authority to refer you to another instructor; however, you

must ask your assigned block instructor first. Failure to follow this protocol is considered a violation of professionalism and may result in a (0) or (X) in Ascend and no credit for that competency or skill.

CLINICAL ASSIGNMENT CHANGE REQUESTS

Students may request a change in clinical assignment to better serve a patient's needs or to fulfill the need to complete clinical requirements. The student requesting a change in assignment must seek and gain agreement from another student and arrange to swap identical clinical duties. Together the students must fill out the Clinical Assignment Change Request Memo form. It must be submitted to the clinical coordinator for approval at least 3-5 working days prior to the requested date of the assignment change. The forms are stored in the ocean room form cubbies.

CLINICAL ASSIGNMENT CHANGE REQUEST MEMO SAMPLE FORM

DIRECTIONS: Complete this form and submit it to the appropriate Clinic Coordinator at least 3-5 WORKING DAYS PRIOR to the requested date of the assignment change. Approval of the Clinic Coordinator must be obtained BEFORE you schedule/confirm the date change. Upon approval, the office specialist will make the necessary changes in Dentrix Schedule and place the yellow copy of the form in student's (#1) box

COLLEGE POLICIES, RESOURCES, AND SERVICES

Cabrillo College Policy & Administrators

Support Services: Cabrillo College has many programs and services designed to help you during your academic journey. You can visit the website at http://www.cabrillo.edu/services/studserv/index.html for a complete listing of support services. These services are provided free of charge while you are a student. Please take advantage of them.
Financial Aid: Cabrillo College provides several financial aid opportunities for students. For tuition and/or book assistance information, go to https://www.cabrillo.edu/services/finaid/
Student Rights and Responsibilities: You are expected to contribute to a positive learning environment. Your responsibilities as a student include: *Respect for your fellow students, staff, and faculty *Actively participating in the learning environment
*Taking responsibility for learning and progressing in your course
*Requesting assistance from the instructor when needed
*Adhere to all academic integrity principles
*Reading and understanding the Cabrillo Student Rights and Responsibilities Handbook. (the student grievance procedure is outlined beginning on pg. 18 of the handbook).
*Following all school policies and procedures (All policies and procedures can be found at http://www.cabrillo.edu/associations/governingboard/BoardPolicies.html).

Safety: Cabrillo College is committed to providing a safe and secure campus environment. The college will not tolerate acts of harassment or violence. For campus safety and security information, go to https://www.cabrillo.edu/services/sheriff/

Cabrillo College Policy & Administrators

It is the student's responsibility to drop this class in Web-Advisor if you choose not to stay in the class. Also, a variety of programs help support students specifically to ensure their health and well-being while attending classes at Cabrillo College.

- Accessibility Support Center (ASC) provides students with learning differences and disabilities with academic support and services to be successful in the educational environment. Any student with a disability requiring accommodations should contract the Accessibility Support Center (ASC) (831) 479-6379 so that they may help students fill out an accommodation form. Every effort will be made to accommodate student needs. http://www.cabrillo.edu/services/dsps/ Location: Library (831) 4796370.

- Student Health Services is available to all registered students and include care for minor illnesses and injuries, personal counseling, health education, and preventative care. http://www.cabrillo.edu/services/health/ Location: Room 912 (Aptos) and SRC (Watsonville). (831) 479-6435
- Academic Counseling: Students who have completed orientation and assessment, developed an education plan, declared a program of study and maintained good academic standing will be granted higher priority for registration. The details regarding priority registration are found at: http://cabrillo.edu/services/ar/enrollpriorities.html.

  All students now have access to Student Planning, a planning tool found on your Student Menu in WebAdvisor. You can start to plan your courses using the Student Planning tool at any time on your own. Having courses planned for your upcoming term(s) in the Student Planning tool on WebAdvisor, will meet the Ed Plan requirement to maintain your priority registration. For instructions on how to use Student Planning, and what your next steps in developing a comprehensive education plan are, go to the counseling webpage: http://www.cabrillo.edu/services/counseling/
- THE HUB (Learning Resource Center) provides free multi-subject tutoring and academic support with writing, reading, Math, ESL, Science, etc. Located on the 2nd floor of the library. http://www.cabrillo.edu/home/learning.html

Student Rights and Responsibilities:
Each student is expected to contribute to a positive learning environment. As such, student responsibilities include:
- Respecting the opinion of others
- Actively participating in the learning environment.
- Taking responsibility for learning and progressing in the course
- Requesting assistance from the instructor when needed
- Reading & understanding the "Student Rights & Responsibilities" Handbook for Cabrillo College

Keeping you Safe
Cabrillo College cares about your safety and maintains a positive learning environment. In order to achieve this, the college will not tolerate acts of bullying, sexual harassment or violence against any student or employee. If you experience any bullying, sexual harassment or violence, you should bring it to the attention of your instructor or a college employee to address/report. Steps will be taken to help you, to end the harassment or violence, to prevent its reoccurrence and to address its effects. If you believe you have experienced any form of unlawful harassment, sexual misconduct, discrimination, or retaliation from any Cabrillo College student, faculty, or staff, please immediately report the incident(s) to the Cabrillo College Title IX Coordinator. From the Cabrillo College website home page www.cabrillo.edu, please click on the "Title IX/Harassment/Discrimination/Retaliation" space, which will direct you to the Cabrillo College Title IX Coordinator contact information and reporting form: located at http://www.cabrillo.edu/just-report-it/

Plagiarism and Cheating:

1. All assignments, projects, and reflection or research papers must be cited accordingly with APA format.

2. **AI is prohibited**: All work submitted in this course must be your own, completed in accordance with the college academic policy. The use of artificial intelligence tools like ChatGPT, BingChat, and Google Bard are prohibited in this course and will be considered plagiarism. (See plagiarism below).

DEFINITION OF PLAGIARISM: Plagiarism is the conscious or inadvertent failure to identify the contributions of others. It occurs when someone borrows any part of another's work and submits it as his or her own work without crediting its author. A failure to credit others may result in one or more of the following: the student receiving a failing grade on the assignment, a failing grade for the course, or referral to a disciplinary process that could result in probation or suspension from the college. Students are expected to know how to credit sources, how to quote and paraphrase, and how to avoid plagiarizing the work of others. If you are unsure, ask your instructor for assistance before you submit your work for credit. See the Student Rights and Responsibilities Handbook
https://drive.google.com/file/d/1_kIvXFCJSnSf3bvEL870HyteOQMEYgVD/view

Instructors have a responsibility for your education and the value of a Cabrillo College degree, and so seek to prevent unethical behavior and when necessary, respond to infringements of academic integrity. Plagiarism and cheating of any kind on an examination, quiz, or assignment may result in an "F" or "0" for that assignment (and depending on the severity of the case, may lead to an "F" for the entire course) and will be subject to appropriate referral to the Office of Dean of Student Services for potential conduct action.

Parking
Parking Enforced Mon–Fri, 7am–10pm.
Daily Parking is $4 a day (credit/debit only) Students
may purchase $40 semester passes.

STUDENT LOTS ONLY
Starting the first week of school, all staff lots, specially posted areas and visitor parking are enforced for proper parking permits. Ticketing will begin in all campus lots starting the second week of the semester.

RESPONSIBILITIES OF THE STUDENT

Email Statement

Email is a primary source of communication. All students need an active email. Please send any changes in email address to the Program Specialist, the Instructional Assistant and to the 2nd Year Clinic Coordinator. Due to spam/virus issues I do not open emails that I do not recognize.
It is the responsibility of the student to check email at least twice daily; evenings as well as daytime.

PROFESSIONALISM: Students will be evaluated daily on their ability to demonstrate to the faculty the intellectual, ethical, behavioral and attitudinal attributes necessary to perform the duties required of members of the Dental Hygiene profession. Guidelines for professionalism and professional appearance are discussed in DH171 syllabus, the DH Student Handbook, and the Clinic Reference Manual. Students must demonstrate all professional behaviors in the dental hygiene clinic, radiology area, and other Cabrillo facilities at an S or NI level in order to advance into the next clinical phase of the curriculum. Students will be informed of their progress in this area and be given feedback on areas to be improved. From the obvious emphasis placed on professionalism, students may rightfully infer that the Dental Hygiene faculty considers professionalism one of the most significant aspects of academic performance. It is required and considered a professional courtesy to notify the Clinic Coordinator, Front Office and off-campus rotation site at least one hour prior to being absent or tardy (this includes clinic, lecture, and off-campus rotations).
IT IS UNACCEPTABLE AND UNPROFESSIONAL TO DO HOMEWORK OR WORK ON PROJECTS DURING CLASS OR CLINIC HOURS. CONSEQUENCES OF THIS BEHAVIOR MAY BE REFLECTED IN ASCEND OR CLASS GRADE.

ACTIVE LEARNING: The student is responsible for his/her learning and is an active participant in the learning process. This clinical course is a shared responsibility of students and faculty. The degree of success is affected by our joint efforts. The learning opportunities are available to each student. It is recommended that the student seek assistance when needed, ask questions, and stretch yourself in building advanced skills. Students are encouraged to ask for help in clinic and seminar. Asking for help

will not impact a student's grade. It is the responsibility of the student to take notes during each lecture session, or, if applicable, arrange for someone to take notes for you. Please visit the Accessibility Support Center if you need help with note taking. Learning dental hygiene clinical skills takes consistent practice and motivation. Students are expected to practice these skills daily on a typodont, following the text. The student is expected to keep a daily clinical record and to always be aware of his/her clinical standing. It is the student's responsibility to keep accurate records of ALL assignments and requirements, identify the need for remediation, and remediate accordingly, or the final grade will be compromised. The student shall be familiar with the "Dental Hygiene Student Handbook", all revisions of the handbook and Clinic Manual, and the policies described therein. It is the responsibility of the student to arrange for and complete tutoring when it is recommended.

READING ASSIGNMENTS: The student is expected to read the assignments specified either in the course outline, syllabus, or in class PRIOR to the day the topics are discussed. Since information in each assignment will be used during the class sessions for discussions, it is essential that materials be carefully studied prior to class or clinic. Class sessions will be used to clarify concepts, answer questions, and provide additional information on complex subjects being studied.

MISSED EXAMS: Make up exams, clinical and didactic, are NOT given, unless approved by clinic coordinator.

LATE ASSIGNMENTS will not be accepted without prior approval from the instructor. It is the instructor's decision not to accept late assignments.

OTHER: Cell phones ARE NOT ALLOWED in class or clinic. They are to be left in your locker room. You may check for messages before or after class, unless there is an emergency. In the case of an emergency, please inform the 2nd Year Clinic Coordinator prior to the beginning of class.

Children are not allowed in class or clinic for safety reasons. Please plan to have childcare for your children. Children are not allowed in clinic unless they have an appointment and only during the appointment time.

Students are to have the patient medical history out and visible on the counter for block instructor review. Failure to do so may result in earning a (0). Students are to prepare their paperwork prior to clinic. Have all competencies, DCEF's and Tracking Sheets filled out and placed neatly on the counter. Failure to do so may result in earning a (0) in and attach or email proof of attendance when you have completed this requirement.

ASCEND

Students are responsible for entering their daily sessional evaluation and competencies prior to seeing the patient. The student must complete their self-evaluation once patient is dismissed.
Student is responsible for assigning the faculty and making sure the form is completed. See Ascend section below for further information.

ATTENDANCE:

Attendance is inextricably linked to academic success and students are expected to attend all scheduled class, labs, clinical sessions, off-campus rotations, off-campus class sessions and office visits. It is an

essential workplace skill. Tardiness disrupts the learning of other students. Tardiness is considered unprofessional and may result in earning a (0).

Attendance/Participation: This course requires active participation each day of class, so it is important for you to attend every class session, arrive on time, and come prepared. Your participation not only enhances your own learning, but it also benefits other students in the class, especially when the class is doing group work. Your level of participation is reflected in your grade and since you cannot participate if you are not in class, absences will also be reflected in your grade.

- Attendance Sheet - students are required to sign in when arriving and sign out when leaving the clinic floor or classroom. It is not permitted to sign in or out for another student. Students must let their block instructor know if they are leaving the clinic floor for any reason.

In order to develop competence in patient education and treatment, it is necessary that the student attend all clinic sessions and to engage in patient treatment during the entire clinic session. The students may rightfully infer that patient treatment time is highly valued. Treatment time is essential to develop, learn and maintain clinical competency. Empty chair time means loss of learning opportunities. The time needed for the acquisition of clinical skills cannot be substituted by other activities.

- If it is necessary to be tardy or to miss a class period, it is the student's responsibility to notify the Dental Hygiene Program number at 831-479-6471 or 831-479-6431, the off-campus rotation block instructor (if applicable), and the 2nd Year Clinic Coordinator at least one hour prior to the time you are expected to be in clinic, off-campus rotation, or class. Failure to do so may result in earning a ( ) in professionalism. It is a good idea to have these phone numbers in your cell phone for quick reference.
- It is expected that all students be prompt to both class meetings and clinical sessions. When the student is tardy/late to clinic/lab, lecture, or off-campus rotation site five (5) times the final course grade will be lowered 5 percentage points and may result in failure of the course. See Adjustments to Final Grade below for more specific information. Tardiness is defined as one minute or more. ANY tardiness is considered unprofessional and may result in earning an ($\bar{0}$) or (X) in professionalism. Be prepared for class and clinic.
- It is expected that students arrive to class/clinic early enough to set up and prepare for the day, including students assigned to support duties, and be ready for patients PRIOR to the clinic huddle.
- Students must be ready to seat their patients at the designated appointment time or when clinic/class begins (whatever comes first). Therefore, when clinic begins, students must be ready to seat their patients prior to the clinic huddle. This includes having them already entered in Ascend. Patients will be seated immediately after the clinic huddle.
- It is not appropriate to have your patient wait while you prepare for treatment.
- Students must be prompt and present during the entire clinic huddle. Please do not ask to be excused.
- In the event a student is 15 minutes late or finds it necessary to leave their patient for 15 minutes, their patient will be treated by another student. The clinician who takes over will receive credit for the quad/patient completion and any other procedures performed by that clinician.
- If a student finds it necessary to leave the clinic floor, she/he must inform the 2nd Year Clinic Coordinator, 1st Year Clinic Coordinator or Program Director prior to leaving and upon returning to the clinic. A sign-out sign-in sheet will also be used to facilitate this process.
- Students may not leave patients who have been given local anesthetic or have other medical/dental conditions that may need continuous observation and care.

- In the event the student has 8 absences (or more than 2 weeks of class) the student may be dropped from the course.
- Unusual circumstances will be discussed on an individual basis between the student and course coordinator. It is expected that unusual circumstances will not serve as a substitute for the required patient treatment time.
- This is one of several courses that will help the student prepare for the dental hygiene work force. It is expected that you will arrive at the workplace at least 15 minutes prior to beginning work, so that you will be prepared for the day. The Cabrillo College Dental Hygiene Program requires you to be present for clinic, including support duties and radiography, at least 15 minutes prior to the start of class, or earlier, to adequately prepare for the day.
- Students are expected to manage their time well. Time management skills are a significant part of DH 181 and DH 183 clinic. If you struggle with time management, please seek help as soon as possible.
- Students are expected to have patients scheduled during the ENTIRE clinic session. Failure to do so may result in an (0) or (X) for professionalism. It is the student's responsibility to keep an appointment book and cancellation list. If a student finds him/herself with empty chair time he/she will be expected to recruit a patient on campus (after informing the clinic coordinator) so that this time will be filled.
- NO make-up didactic tests will be given in the event of an absence.
- In the event that the student has 3 absences, the overall course grade will be lowered 5 percentage points. In the event that the student has 5 absences, the student may be dropped from the course, and consequently will be dropped from the Dental Hygiene Program.

NOTE:

1. Clinic and lab hours are class hours. Attendance in clinic is required whether a patient cancels, or fails to arrive for an appointment. The student must be present on the clinic floor. See Empty chair requirements.
2. Should a student become ill, injured, or debilitated during class/clinic, he/she shall notify the (block) instructor, clinic coordinator, and front office immediately prior to leaving campus. Should a student have a health and/or safety condition such as but not limited to a contagious illness, open wound, medical condition (s) and/or a situation that impairs their ability to deliver care in a safe manner they may not participate in clinic. Clinic hours meet the minimum requirements. Students cannot miss excessive clinic hours (see college catalogue). It is the responsibility of the student to sequentially repeat the courses to complete the clinic hours. Additional clinic hours are not available in the clinic.
3. Illness or accidents incurred in the clinic areas are not the responsibility of the school or agencies to which the student is assigned. The student is required to inform the clinic coordinator and supervising faculty if they are injured or ill during clinic/class, or off-campus rotation site, immediately. The student will be asked to fill out an accident form should an incidence occur in the clinic or at any of the outside clinical rotation facilities.
4. If it is necessary to miss a class period, it is the student's responsibility to obtain notes and assignments from another student. Each student is responsible for finding his own replacement to take over clinical responsibilities in his/her absence; this includes off-campus rotation assignments.
5. Cabrillo College Dental Hygiene Clinic is a healthcare facility. Students are to stay home if they are ill. It is unprofessional to come to school ill. Transmission of viruses and infections

to patients, staff, and other students can occur when a student makes the choice to come to school ill. A (0) may be earned if a student comes to class ill and he/she will be sent home promptly.

IN CLINIC: The student shall be familiar with the DH 181 syllabus and evaluation system, Dental Hygiene Student Handbook, The Clinic Protocol Manual, and The Appendix to the Clinic Protocol Manual, The Treatment Procedures and Evaluation Manual, and the policies described therein.

DISMISSAL FROM THE PROGRAM: A student shall be dismissed from the Dental Hygiene Program for reasons including but not limited to the following:

- Cheating
- Stealing
- Altering clinic records
- Unprofessional behavior toward a patient, student, or staff that violates program, college, or district policy
- Performing more than the acceptable number of Critical Errors (see "Critical Errors" description)
- Not achieving minimum competence level in one category of this course as specified in this syllabus
- Not achieving 70% in the lecture/didactic portion of this course

It is the responsibility of the student to inform the Second Year Clinic Coordinator within 2 days of earning a failing sessional clinic grade, 1 score of (X), 6 scores of (N̄I), or if she/he has earned unsuccessful grades for two Competencies in one area. For example, a student has earned 2 scores of U or 2 unsuccessful outcomes of an IA injection. The student is responsible for seeking remediation, asking for help, and informing the 2nd Year Clinic Coordinator. Failure to comply with any of the above protocol is grounds for failing the course.

PLAGIARISM

Plagiarism is the conscious or inadvertent failure to identify the contributions of others. It occurs when someone borrows any part of another's work and submits it as his or her own work. A failure to credit others may result in one or more of the following:

- A student receiving a failing grade on the assignment,
- A failing grade in the course,
- Suspension from college enrollment.

Students are expected to know how to credit sources, how to quote and paraphrase, and how to avoid plagiarizing the work of others. If you are unsure, ask your instructor for assistance and/or make an appointment with the writing center on campus before you submit your work for credit.

PLEASE COPY THIS PAGE and PLACE IN A PROTECTIVE SLEEVE to access during clinic

Unsatisfactory Progress, Probation and Dismissal Policy

A student evaluation policy has been developed to recognize students with outstanding performance as well as those who are having difficulty meeting program requirements. This policy encompasses all the quizzes, exams, performance evaluations and competency exams the students are required to complete.

Student progress and advancement in the program is a continual focus of the DH faculty. Students are recognized at graduation with awards for outstanding performance throughout their time at Cabrillo.

Students who struggle with program requirements are offered every opportunity to meet those requirements, and the following policies have been developed to help those students.

Unsatisfactory progress:

A student will be deemed to be making unsatisfactory progress when any of the following occur:

Earning a "D" or "F" on any didactic quiz, exam or assignment

Earning a "U" on any clinical performance evaluation, competency or exam

Earning any unsatisfactory marks in professionalism

A student making unsatisfactory progress will earn an "unsatisfactory progress" referral for remediation from the instructor issuing the unsatisfactory score. This referral will describe the issue in detail and will be given to the clinical coordinator and program director.

Remediation:

When an Unsatisfactory Progress referral is issued, a student must immediately begin the remediation process. The remediation process is as follows:

- ✈ Set up a meeting immediately with the instructor to review the situation and sign the Unsatisfactory Progress Referral. Agree on a timeline to complete the Situational Identification and Research Method as seen in the student handbook and schedule a follow-up meeting with the instructor and the clinic coordinator.

- The student will use the method to develop a remedial plan that addresses each element that is unsatisfactory. The plan must be typed and include space for the appropriate signatures and dates.
- The student, instructor and clinical coordinator shall discuss the remedial plan and determine if the plan fully addresses the problem(s) and identifies adequate and appropriate solutions.
- If the plan needs further development the student will rewrite the plan and re-conference with the instructor and clinic coordinator.
- When an acceptable remedial plan has been developed, the instructor, clinical coordinator and student will sign and date the plan to indicate that the student is ready to implement the plan. The student will be on academic probation until the plan has been successfully completed.
- Subsequent conferences will be scheduled as needed to document the progress or completion of the plan.

Academic Probation:

Academic probation indicates that the student has been assigned remediation and must successfully complete the remediation program or risk program dismissal. While on academic probation, additional unsatisfactory progress may result in a revision to the remedial plan or immediate dismissal from the program. In this case there will be a special meeting of the instructor(s), clinical coordinator and program director where the situations will be reviewed, and a final decision made.

Dismissal:

See Dismissal Policy in Student Handbook

Unsatisfactory Progress Referral

Student Name and DH #_____Date: _____

Instructor: _____ Course: DH-_____

Reason for Unsatisfactory Progress Referral:

_____Grade _____ Skill Performance _____Professionalism

Describe situation in detail and attach documentation:

Course Expectations & Requirements

*See Tracking Sheets for a Complete List of Clinical Requirements. All competencies must be passed by the third attempt and by the end of the semester in order to pass the course.

1. DH181 will incorporate the use of Ascend Academic software for management of student evaluations, competencies and feedback.

2. Complete a clinical exercise experience as scheduled the first week of class and upload a written self-evaluation of the experience in Canvas.

3. Apply time management skills in patient assessment, treatment planning, implementation, evaluation, and documentation as part of the dental hygiene process of care at an experienced/third semester level.

4. Demonstrate on a weekly basis the accurate documentation of clinic requirements utilizing the DH181 tracking sheets with appropriate instructor initials.

5. Demonstrate the following skills to acceptable standards according to established protocol:

    a. Dental charting, periodontal charting, proper ergonomics, preventive counseling, treatment planning, intraoral camera use, use of advanced instrumentation techniques, use of ultrasonic scaling devices, desensitizing procedures for hypersensitive teeth and for sensitive oral mucosa, sealant placement, administration of local anesthesia and topical anesthetics for pain control, gingival curettage, and subgingival irrigation.

6. Cultural Diversity Requirement (1): Provide comprehensive care for a patient who is of a culture different than your own.

7. Perform one (1) Assessment Clinical Competency Evaluation--(CCE) and successfully complete the procedures according to established protocol and to acceptable standards for this semester by the end of week 4 including submission of the Self-evaluation in the Canvas weekly journal.

8. By week 4 successfully complete scaling and root planing on at least one quadrant of a Class 5 or Class 6 (AAP III-IV)

9. Identify (1) patient suitable for a Mock Board Examination and successfully complete the procedures according to established protocol and to acceptable standards for this semester.

10. Provide comprehensive care to a minimum number of clinic patients according to established protocol and to acceptable standards for this semester

    a. Ten (10) Class 1 to 3 patients AAP Stage I- healthy, health reduced periodontium, gingivitis
    b. Two (2) Class 4 patients AAP Stage I-II
    c. Two (3) Class 5 and/or 6 patients AAP Stage II-IV
    d. One (1) patient presenting with a Periodontally involved (Unique) patient; to be treated and completed in fall semester and to return and receive continuing care in the spring semester.

11. Successfully complete all Clinical Competencies by the end of the semester.

12. Regarding clinical requirements, the student is expected to:
    a. Track his/her course requirements on the brightly colored "Tracking Sheets"
    b. Compare the DCEF with his/her record of completed clinical requirements.
    c. Check Canvas online grading system for record of competency completion s
    d. Alert clinic coordinator of any inaccuracies and present yellow copy of DCEF to reconcile
    e. Self-evaluate his/her skills based on criteria from DH171, 173, and 181, from past textbooks on technique as well as from feedback by clinical faculty.
13. BY WEEK 8 YOU SHOULD HAVE COMPLETED AT LEAST HALF OF YOUR CLINICAL REQUIREMENTS. IF YOU DO NOT HAVE AT LEAST ¾ OF YOUR CLINICAL REQUIREMENTS

COMPLETED BY WEEK 12, YOU ARE IN JEOPARDY OF FAILING THE COURSE. IT IS YOUR RESPONSIBILITY TO INFORM THE CLINIC COORDINATOR IF YOU ARE BEHIND IN YOUR REQUIREMENTS. PLEASE SCHEDULE AN APPOINTMENT.

14. Participate in periodic conferences with the clinic coordinator
15. Block Instructor Assignments: To enhance learning/teaching students are to be evaluated by their assigned block instructor in clinic.
    a. Only the assigned block instructor has the authority to refer you to another instructor.
    b. Seeking another instructor without permission of the assigned block instructor is not acceptable and will result in an error in Ascend.
    c. Only RDH clinical instructors shall evaluate root planing, periodontal charting, and mock boards unless otherwise directed by the Clinic Coordinator.

16. Demonstrate proficiency in radiographic techniques according to established protocol and to acceptable standards for this semester by successfully completing:

    a. Three (3) competencies for full mouth series FMX on a patient
    b. Four (4) competencies for bitewing series: 2 horizontal, 1 pediatric (with 2 PAs),1 vertical, Nomad must be used for one of the BWX
    c. Pediatric Radiograph Sets - either all primary teeth or mixed dentition required
    d. One (1) panoramic competency

    ***PLEASE NOTE: MINIMUM AGE FOR CHILD PATIENTS IS 5 YEARS OF AGE— THIS MAY ALSO DEPEND ON PATIENT MATURITY**

17. For each set of radiographs, the student will:
    a. evaluate his/her technique and determine the retakes using the RCCE form (do this prior to requesting a retake approval from an instructor)
    b. evaluate his/her technique if taking a pano on the colored pano evaluation form
    c. asks instructor to evaluate pano prior to dismissing patient from radiology clinic
    d. consult with the instructor for retake approval
    e. describe to the instructor which images need retakes and why
    f. review the images for pathology with the instructor using the radiographic interpretation form

    (A radiographic interpretation must be completed by the clinician prior to any treatment)

18. When a student submits 2 FMX series in a row each having one error less than the number resulting in a failing grade (9 for DH 181), she/he will be required to expose and develop a full mouth series on a DXTR and pass it.

19. When a student submits 2 BWX series in a row each having one error less than the number resulting in a failing grade (2 for DH 181), she/he will be required to expose and develop a bitewing series on a DXTR.

20. It is the responsibility of the student to inform the clinic coordinator within one day of earning these errors or the student may be removed from radiology rotation.

21. When a student fails 2 FMX's or 2 BWX's, she/he will not be permitted to expose radiographs on patients until satisfactory remediation is completed. It is the responsibility of the student to inform the clinic

coordinator within one day of learning the above. Failure to do so may have a negative impact on the student's grade.

22. The student must successfully remediate by December 4 in order to pass the course.

23. Perform the duties of sterilization rotation according to established protocol.

24. Perform the duties of clinical management assistant rotation according to established protocol.

25. Perform the duties of practice management (office) rotations according to established protocol: appointment scheduling, telephone management, chart management, patient continuing care procedures.

26. Assess, plan, implement, and evaluate dental hygiene care on patients in a clinical setting.

27. Interpret information gathered from the patient assessment data and formulate a comprehensive dental hygiene care treatment plan for each patient including the need for radiographs. (Oral Cancer, Caries Risk, and Periodontal Risk Assessments)
28. Identify emergency situations that may occur in the dental setting, obtain assistance, administer or assist in the administration of first aid according to established protocol.

29. Analyze data and situations and independently make treatment decisions prior to consultation with faculty.

30. Deliver individualized oral hygiene instruction to each patient taking into consideration the dental health knowledge of the patient, the motivational level, manual dexterity, gingival condition and/or periodontal status of the patient.

31. Identify and counsel patients with the aid of a plaque index for biofilm control needs for maintenance of dental hygiene health and general health.

32. Perform preventive and therapeutic dental hygiene procedures including complete removal of calculus, soft deposits and debris, biofilm, stains, and the smoothing of unattached surfaces in order to create an environment in which hard and soft tissues can be maintained in good health by the patient.

33. Demonstrate correct technique for sharpening universal curets, Graceys, and sickle scalers.

34. Maintain sharp and properly contoured curets, Graceys, and sickle scalers.

35. Identify patients for whom adjunctive dental hygiene procedures are indicated such as ultrasonic scaling, dentinal hypersensitivity treatments, dental charting, periodontal charting, pit and fissure sealants, topical fluoride treatments, local anesthetic, subgingival irrigation, and perform each procedure in the clinic setting according to established protocol and to an acceptable standard for this semester.

36. Deliver appropriate post-operative instructions to each patient taking into considerations: length of appointment, health status of the patient, periodontal status of the patient and the treatment performed.

37. Identify and select acceptable individuals and/or community groups as patients for the Cabrillo College Dental Hygiene Clinic.

38. Identify time management strategies and complete all clinical procedures within the time guidelines established for this semester.

39. Recognize patients in need of referral to a physician and follow through with such a referral.

40. Refer all patients to their dentist for routine exams as well as for dental care as needed

    NOTE: DDS referrals are to be completed at the Assessment appointment for every patient an additional one might be given if pathology is noted after radiographs.

41. Identify patients in need of pain control procedures and arrange for or administer such procedures according to acceptable standards for this semester.

42. Accurately record data in a patient's chart according to established protocol.

43. Maintain a high degree of professional ethics and conduct in interactions with patients, faculty, staff, and fellow classmates.

44. Value the need for consistently performing all phases of the dental hygiene process to acceptable standards of care.

45. Exhibit sensitivity to individuals' emotions, needs, rights, and comforts with emphasis on the influence of cultural, psychosocial and other factors.

46. Adheres to the established infection control policies set forth for the clinic upholding the high standard to promote the health and safety of patients, faculty, staff, and fellow classmates.

47. Select and treat a periodontally involved (unique) patient and prepare a case study according to the criteria for this semester.

48. Complete clinic rotation to off-campus clinical sites as assigned:

    a. Function as a dental hygienist in an off-campus clinical setting.
    b. Function as a member of the dental team in an off-campus clinical setting.

49. Demonstrate independent critical thinking, time management, and decision-making skill:

    a. In evaluating a patient’s medical and dental conditions
    b. Determining the treatment plan to be provided
    c. And implementing that treatment plan in the specific appointment time allocated, using the same standards of care as the Cabrillo College Dental Hygiene Clinic.
    d. Follow all Cabrillo College protocol for patient care.

50. Experience the challenge of decision making as a responsible dental health care provider for the patients scheduled on the days of the clinical rotation.

51. Provide every other week clinic journal reports. Journal entry is to be entered in Canvas 52. Participate in clinical Discussions in class and on Canvas.

53. Keep an appointment book with all patient appointments----update in Ascend, keep secure in your locker following HIPAA
54. Keep a cancellation list of patients who can come into the clinic on short notice to fill empty chair time. Be prepared to call patients in as needed.

55. Complete the Daily Clinical Evaluation Form (DCEF) for each clinical session.

    a. The DCEF tracks the student's clinical appointments and is used to document all evaluations.
    b. The DCEF is on NCR paper, so the yellow copy goes to the student and the original white copy goes to the 2nd Year DCEF box at the end of each clinic session.
    c. The student is responsible for checking the completion and accuracy of all DCEF's and for submitting them at the end of each clinic session

56. It is the student's responsibility to keep accurate records of ALL requirements (this includes those over and above the minimum number of requirements) on his/her tracking sheets (including faculty signatures), create a plan to successfully complete all requirements, identify the need for remediation, and remediate accordingly or the final grade will be compromised.
57. All competencies that were completed MUST be highlighted on the DCEF, including all radiographs.
58. If all forms are not correctly completed and submitted within one day, the student may earn a deduction in points in Ascend.
59. Competency Forms must be stapled to the appropriate DCEF for credit.

    NOTE: COMPETENCIES CANNOT BE PERFORMED ON A CLASSMATE, OR ON A CLASSMATE'S PATIENT, STUDENTS ON CLINICAL ROTATIONS CANNOT DO COMPETENCIES ON PATIENTS, STUDENTS CANNOT SHARE PATIENTS TO COMPLETE COMPETENCIES unless the clinic coordinator grants permission

60. **RECRUITMENT---** Patient Recruitment is an important requirement to meet and will be a major contributor to your clinical success.
    a. Minimum time required this semester: 8 hours outside of regular clinic hours.
    b. Students are expected to recruit a patient to fill their chair if their scheduled patient fails.
    c. It is ultimately the student's responsibility to obtain appropriate patients for ALL clinical requirements.

61. **EMPTY CHAIR —** In the event of a cancellation, patient no showed, patient dismissed or no patient scheduled in clinic, the student clinician is to
    1) Contact patients on his/her "call" list or the front office "Call List"
    2) See a walk-in patient
    3) Recruit on campus, with permission from block instructor
    4) Practice clinical skills on the typodont at the operatory with videos for a minimum of 2.5 hours, scaling, exploring, probing, sealants, sharpening instruments, ultrasonics on typodonts, sharpening competency
    5) Expose a FMX, BWX, Panorex on a Dexter if a room is available
    6) Do radiograph interpretation forms, check student evaluation report
    7) Assist front desk, laundry and sterilization duties only after 2.5 hours of clinical practice with instructor/clinic coordinator approval

EMPTY CHAIR Grading in Ascend,

If the student does not have a patient, they must complete an EMPTY CHAIR Sessional Form instead of the SCEF. The student will be awarded points according to how they spend their time in clinic doing clinical skills. The student may earn up to half points for the session if the above is performed. It is up to the discretion of the instructor.

EMPTY CHAIR Remediation

****In the event when a student has empty chairs three (3) chair times, he/she must make an appointment with the clinic coordinator, and the remediation process will be initiated. See the Cabrillo College Student Handbook SECTION 5: ACADEMIC STANDARDS: GRADING CRITERIA AND PROTOCOL, Substandard Grade Identification. Please see DH Student Handbook: Section 3 Academic Standards

Ascend

Clinical: (by Tuesday of Week 15)

1. A minimum daily/cumulative Sessional Clinical Feedback Form (SCFF) score of **80%** in Ascend

2. Completion of the minimum number of patient requirements or equivalency

3. Completion of all competency exams, clinical requirements, clinical experiences and clinical skills to a satisfactory level (**maximum of three (3)** attempts is allowed per competency) by **Wednesday of week 14; week 15 will be patient completions**

--The clinical component of this course is graded **Pass/No Pass**. A No Pass in the clinical component of the course will result in a failing grade in this course.

1) **Skill Evaluations** occur each clinic session and are recorded in Ascend

Skill evaluation during all patient treatment is recorded in Ascend. Skill Evaluations provide the student with the opportunity to monitor and improve clinical skills. Each clinical session the student will complete the sessional self-evaluation of their performance prior to submitting to the instructor for grading on the **Sessional Clinical Feedback Form (SCFF).** Each clinical session the student is evaluated on a point system passed on their performance in the categories listed below. Each session the student can earn 44 points. Students may receive deductions for their performance in the categories list below. See grading scale below.

The student target goal is **80%**. Any error in **Infection Control Procedures and Health and Safety of Patient category is a critical error, and no points will be awarded for that clinic session**. The student must achieve a cumulative score of 80% for the semester. The student is expected to track their SCFF scores daily as well as review his/her skill evaluations in Ascend by viewing the **Student Progress** in Ascend. Scores must be recorded in the tracking sheets daily. In the event the student receives a critical error or daily target goal below 80% they must notify and meet with the clinic coordinator within 24 hours. If the student receives two critical errors the remediation process will be initiated. See the Cabrillo College Student Handbook SECTION 5: ACADEMIC STANDARDS: GRADING CRITERIA AND PROTOCOL, Substandard Grade Identification.

Sessional Clinical Feedback Form Grading

You must have a cumulative score of 80%. The 11 categories are 4 points for a total of 44 points per session. An 80% equals 35 points. Errors as follows:

As the student progresses through DH 173 the point errors increase at Week 9, as well as DH 181 and 183.

Student and Patient Care Tracking in Ascend

1. Students schedule appointments **in Ascend** using the **CDT procedure code** and **continue care** used for multiple assessment or scaling appointments.
2. Students create **in Ascend** the **Sessional Clinic Feedback Form** at the beginning of the session and must complete self-evaluation before instructor signs and submits at the end of the session.
3. Students create **in Ascend** specific **Competency forms** with the appropriate procedure code prior to competency and are responsible for knowing what is being evaluated.
4. Students must create **in Ascend** the **DH Completion of Care** with all the required codes in addition to the Sessional Clinic Feedback Form when treatment is complete to get credit. 5. **Failure to create** the appropriate forms with the codes each session **in Ascend** will result in **no credit** for the session, the competency or the requirements. The student must complete the competency again.

SESSIONAL CLINIC FEEDBACK FORM

The Sessional Clinic Feedback Form categories with criteria of performance in Ascend are as follows:

1. **Preparation Prior to Start and Throughout Treatment**

   a. Appropriate infection control procedures. Proper PPE, Treatment area organized with no unnecessary items. Full armamentarium. Has necessary forms. Both paper and computer. Prompt and prepared for huddle. Chart reviewed.

2. **Assessment**

   a. Criteria assessed with accuracy & documented, processes may include: HHx/Vitals, EO/IO, Soft & Hard Tissue Exams, CRA & PRA assessments, Comprehensive Perio Exam, Calculus detection, X-ray images exposed, reviewed, Data Synthesized & analyzed.

3. **DH Diagnosis, Recognition and Critical Thinking**

   a. Critical thinking & judgement applied to chief concern & pt needs; to care; Referrals, including med consult, & DDS referral. Recognized need for appropriate radiographs and interpreted, DH DX: AAP, Calculus, pt. complexities, ADA CDT codes for DX

4. **Treatment and Care Plan, Informed Consent**

   a. Critical thinking applied to patient's needs, use of MI for OHE & develop a comprehensive TX & Care plan (OHI, OPT, support strategies) presented & approved by faculty, then presentation to patient, RBAs discussed. Informed consent obtained

5. **Implementation of Treatment**

   a. Some assistance, works independently, performs procedures (X-rays)/instrumentation (ultra/scalers/probe, explorer); calculus removed, no tissue trauma.

Accurate Pain Mgt. Sharp Instr., X-rays & Perio chart in view OHI; demo OPT aids, Good Ergonomics

6. **Time Management**

   a. Utilizes clinic time efficiently and is productive, adheres to clinic hours (arrival/departs) on time. Back up pt., Appropriate sequence & number of appts. dependent on the clinician's level. NP assessment & FMX, Assessment & prophy, RDT/SRP by quad,

7. **Evaluation**

   a. Accurate self-evaluation of procedures/treatment. Calculus & biofilm removal; Checked & addressed areas previously instrumented; effective use of air & explorers. Able to determine radiographic errors and retakes.

8. **Documentation**

   a. All services recorded properly in the Ascend, DDS referral noted; recare noted; Accurate Tx History documentation; No spelling or grammar errors or need to change notes; Completed ≤15 min after dismissal, Self- eval completed, chart in order

9. **Professionalism, Ethics, and Protocols**

   a. Adheres to clinic dress code, & clinical protocols in the Clinic Manual, Ethical tx of patients, faculty & peers. Needs of patient first, follows the sequence of an appt. with instructor checks and signatures, confidentiality. Patient Survey completed

10. **Communication, Patient Management**

    a. Professional verbal & non-verbal communication, use of MI and OHL & builds pt rapport, with patients, faculty & peers. Self-motivated behavior displays teamwork, Patient confidentiality. Accepts feedback openly. Needs of patient placed above all else

11. **Infection Control Procedures and Health and Safety of Patient**

    a. Adheres to all infection control procedures, Places the patient's health and safety first. Uses proper HVE, LVE & ADS Equipment through appointment *Critical error is an action or omission that places the patient, student, or any other person at risk.

Sessional Clinic Feedback Form Grading Criteria Key

You must have a cumulative score of 80%. The 11 categories are 4 points for a total of 44 points per session. An 80% equals 35 points. As the student progresses through DH 181 the point errors increase at Week 9, as well as in DH183.

Errors as follows:

+ for accuracy or a single minor error
√ several minor errors
X for multiple or major errors
NA Indicates item: Not performed this appointment or not observed this appointment

OVERALL SCORE FOR THE SESSIONAL CLINICAL FEEDBACK FORM
# of errors by level

	+ (S)	√ (NI)	X(US)	N/A
DH 181	0	2	6	4

UNIT OF CREDIT

One credit hour of community college work (one unit of credit) at Cabrillo College requires a minimum of 54 semester hours of total student work, which may include hours inside or outside of class. The minimum expected time on task (lecture, study, and/or lab work) that is necessary to award one unit of credit is established by Title 5, section 55002.5. In-class hour requirements for courses are listed in this catalog.

For purposes of federal financial aid eligibility, a "credit hour" is calculated by:

- One contact hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work for a total of three hours of work each week for one semester, or the

equivalent amount of work over a different amount of time, OR

- At least an equivalent amount of work for other academic activities, including laboratory work, internships, practica, and studio work, completed in any combination of in class or out of class.

Units of credit are calculated by dividing the total of all student learning hours (the combination of in-class contact hours and outside-of-class hours) by the hours-per-unit divisor (54) and rounding down to the nearest increment of credit awarded by the college.

Total contact hours refers to the total time per term that a student is under the direct supervision of an instructor or other qualified employee as defined in Title 5 §§58050 - 58051.

Outside-of-class hours are the hours a student is expected to engage in coursework outside of the classroom.

CREDIT HOUR CALCULATION FOR EACH LEARNING METHOD

Standard practice in higher education for lecture course formats requires two hours of student work outside of class for every hour in class.

The number of units awarded for laboratory courses is generally based solely on the number of hours of laboratory work, presuming that students complete the majority of required work in class. For lab units, it has not traditionally been expected

that the student will study outside the classroom, so the number of units granted is typically based entirely on the number of hours performed under the immediate supervision and control of a qualified academic employee. For example, 54 hours of chemistry laboratory would grant one semester unit of credit. In contrast, 54 hours of chemistry lecture would grant three units of credit because students are also expected to engage in additional outside-of-class work.

Activity courses require work in class as well as study outside of the classroom. The college may award one unit of credit for two hours per week of hands-on instruction, where it is expected that students will do at least one hour per week of work outside of class.

Regardless of the format of the course, the mode of instruction, or the delivery system used, it is expected that Cabrillo College students will devote at least 54 total hours (in-class plus outside-of-class study or homework time) for each unit of credit.

EXPECTED RATIOS OF IN-CLASS TO OUT-OF-CLASS HOURS

Lecture, lab, and activity hours can also be summarized using standard ratios:

Lecture (includes discussion, seminar, and related work)

In-class hours: 1

Out-of-class hours: 2

Activity (includes activity, lab with homework, studio, and similar work)

In-class hours: 2

Out-of-class hours: 1

Laboratory (includes traditional lab, natural science lab, clinical, and similar work)

In-class hours: 3

Out-of-class hours: 0

Note: other ratios for inside- to outside-of-class hours are possible but fall within the parameters for one unit of credit as described above.

The following examples apply to semester units and illustrate the standard for curriculum at Cabrillo College:

Lecture or Lab Only Courses

One-unit lecture course = 18 hours in-class lecture plus 36 hours out-of-class study

One-unit laboratory course = 54 hours in-class laboratory

One-unit activity course = 36 hours in-class activity plus 18 hours out-of-class study

Lecture and Lab Combined

Three units (2 units of lecture and 1 unit of lab) = 36 hours in-class lecture, 54 hours in-class laboratory, plus 72 hours out-of-class study

GRADING POLICY

Course instructors determine the

grade awarded to each student. The instructor's determination is final in the absence of mistake, fraud, bad faith, or incompetence. Course accomplishment is indicated by grades, five of which are passing.

Grades and Grade Points

Evaluative symbols:

A: Excellent – 4 grade points per unit

B: Good – 3 grade points per unit

C: Satisfactory – 2 grade points per unit

D: Less than Satisfactory – 1 grade point per unit

F: Failing – 0 grade points per unit

P: Pass (satisfactory or better) – 0 grade points; units awarded do not count toward GPA

NP: No pass (less than satisfactory/completed course without achievement) – 0 grade points; units awarded do not count toward GPA

SP: Satisfactory progress (noncredit only) – 0 grade points, 0 units

I: Incomplete – 0 grade points, 0 units

IP: In progress – 0 grade points, 0 units

RD: Report delayed – 0 grade points, 0 units

W: Withdrawal (by 75% of term offered) – 0 grade points, 0 units

MW: Military withdrawal – 0 grade points, 0 units

EW/CW: Excused/COVID withdrawal (by appeal only) – 0 grade points, 0 units

Please refer to the progress probation/dismissal policy for NP and W grades.

Refer to the credit for prior learning policies for more information regarding credit for prior learning; this includes external exams.

GRADE POINT AVERAGE

A student's grade point average is calculated by dividing the total number of grade points by the total number of units attempted. Grades of "F" are considered when determining the grade point average. Pass (P) no pass (NP), and grades earned in non-degree applicable courses are not included in calculating the grade point average.

PASS/NO PASS GRADING SYSTEM

The purpose of pass/no pass grading is to provide more appropriate evaluative methods in courses taught to establish a minimum level of proficiency or to evaluate subjects where fine gradations of achievements are not meaningful. This system is not intended to be used by students in their major courses unless those courses are only taught in a pass/no pass mode.

Pass/no pass policies:

- A passing grade is equivalent to a grade of "C" or better, indicating satisfactory completion of course

requirements. A no-pass grade is equivalent to a "D" or "F," indicating less than satisfactory completion of course requirements.

- The student is held responsible for all assignments and examinations required in the course. The standards of evaluation are identical for all students in the course, regardless of the grading method.
- Courses taken as pass/no pass are disregarded in determining a student's grade point average but shall be considered in progress probation and dismissal.
- Courses taught only as pass/no pass are identified as such in the class schedule and the college catalog.
- Not all courses have a pass/no pass option. Course listings in this catalog show grade options in the Additional Course Details area.

How to opt for pass/no pass grading:

- Students may select pass/no pass grade options in Self Service during registration.
- After registration, students may opt for pass/no pass grading by completing a Pass/No Pass Request. This form only displays courses that allow the pass/no pass option.
- There is no reversal for pass/no pass requests; once processed,

the request will be permanent.

- Students have until the last day of their course to request a pass/no pass grade option.

Additional pass/no/pass considerations:

- Students receiving veterans benefits should contact the Veterans Certifying Official before requesting a pass/no pass.
- Students intending to transfer to a four-year college or university should meet with an academic counselor before requesting a pass/no pass grade. Different institutions may have limitations on the number of units permitted to transfer.
- A student generally may not apply more than 12 units opted as pass/no pass grading toward the fulfillment of requirements for associate of arts or associate of science degrees. These 12 units may be in addition to units completed in courses that are graded pass/no pass only.

For more information, refer to Title 5 CA ADC § 55022. Pass-No Pass Grading Option and the Cabrillo College Administrative Procedure 4232.

INCOMPLETE WORK

The grade "I" (incomplete) may be recorded for a student who has completed passing work and regularly attended at least 75% of a course

but is unable to take the final exam or otherwise complete the course because of illness or other unforeseeable emergency and/or justifiable reason. Under these circumstances, a student may ask their instructor to assign an "incomplete" grade. The student and the instructor will complete an Incomplete Grade Contract that outlines how the student will complete the requirements for the class in a given timeframe (the timeframe cannot be longer than one year, unless approved for an extension). A student may not clear an incomplete grade by re-enrolling in the course.

The condition for removal of the "I" shall be stated by the instructor in the incomplete contract to be established with the student. This contract shall contain the conditions for the removal of the "I" as well as the default grade if the incomplete course requirements are not met. The contract will be sent to the student with a copy to remain on file in Admissions and Records at Aptos until the "I" is resolved or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated or when the deadline for completing the work has passed.

A student may petition the instructor or division (and provide a copy to the Director of Admissions and Records) for an extension due to unusual circumstances.

The "I" shall not be used in calculating units attempted or for grade points.

"W": WITHDRAWAL

If a student withdraws from a course during the first two weeks of a semester for a full-term course, no notation will appear on the student's permanent record.

After the start of the third week of a semester, student withdrawals from full-term courses will receive a "W" grade, which will appear with the course name and number on students' permanent records.

If a student withdraws from a course after 75% of the course has elapsed, no "W" will be issued. Instead, the student will receive a grade.

If a student withdraws from school due to extenuating circumstances, such as verified cases of accident, illness, or other circumstances beyond the student's control, the instructor will use discretion in granting the student an "NP" or "F" grade.

Note: Per state regulations, student withdrawals are restricted to a total of two withdrawals per course. The third enrollment must result in a letter grade. Only three attempts to pass a course are allowed.

"MW": MILITARY WITHDRAWAL

The "MW" shall be assigned only to students who are members of an active or reserve military service and

who receive orders compelling a withdrawal from courses. Upon verification of such orders, the symbol may be assigned at any time after the period established by the Governing Board, during which no notation is made for withdrawal. The "MW" shall not be counted in progress probation and dismissal calculations.

GRADE CHANGES

When grade changes are made because of the alleviation (Academic Renewal) policy or authorized repetition of a course, appropriate annotations shall be entered on the student's permanent record in such a manner that all work remains legible, ensuring a true and complete academic history.

GOOD STANDING

A student will be considered in good standing if their overall grade point average is 2.0 or higher with a 50% or higher completion rate. Excessive No Pass, Incomplete, and Withdrawal grades will place a student on probation.

After a student has attempted 12 units, their academic standing will be calculated and applied to the next registration period.

Requirements to stay in GOOD standing:

- Academic: maintain a cumulative GPA of 2.0 or higher for each term
- Progress: complete more than

50% of attempted units with grades of A, B, C, or W

TRANSCRIPT OF CABRILLO WORK

Students may request an official transcript of their record to be prepared by the Admissions and Records Office by submitting a request online, either from the Admissions and Records website or Self Service. Two transcripts of the student's record will be processed without charge. After the first two, there is a charge. Students who need transcripts within the same workday will pay additional rush fees. Students may print their registration schedules using Self Service.

Article 4
Academic Freedom

4.1 Cabrillo College District recognizes that academic freedom provides a foundation for intellectual stimulation and development, and academic success in the teaching environment. The District also recognizes that academic freedom is fundamental to the protection of teachers' and students' rights.

4.2 Academic Freedom and Protection

4.2.1 Academic freedom encompasses the freedom to study, teach and express ideas, including unpopular or controversial ones, without censorship, political restraint or retribution. Academic freedom allows for the free exchange of ideas in the conscientious pursuit of truth.

4.2.2 Protecting academic freedom is the responsibility of the college community. In a climate of openness and mutual respect, the college protects and encourages the exchange of ideas which are presented in the spirit of free and open dialogue.

4.3 Professional Autonomy

Faculty members have the principal right and responsibility to determine the methods of instruction, the planning and presentation of course materials, and the fair and equitable methods of assessment in their assignment in accordance with the approved curriculum, course outline, educational mission of the District, District policies, requirements of accreditation bodies, and state and federal laws and regulations.

4.4 Professional Commitments and Obligations

All faculty members should:

4.4.1 Conduct a classroom environment that is conducive to student learning, growth, and development in which students are free from discrimination, prejudice, and harassment and in which students are free to express relevant ideas and opinions.

4.4.2 Clearly differentiate to students the expression of a faculty member's personal opinions or convictions from the objective presentation of theory, fact, or ideas.

4.4.3 Adhere to District procedures for using approved materials and resources.

4.5 Employment by the District does not in any way restrict or limit the First Amendment right enjoyed by faculty as members of their communities. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

4.6 The District agrees it does not and shall not monitor individual usage of its computing and network resources, including email accounts, internet usage or data created by individuals, except as set forth in 4.6.1.

For purposes of this section, "monitor or monitoring" is defined to include only the District undertaking actions that would allow the District to actively currently or prospectively review or record computer or network use or activity of a single employee or group of employees. This provision does not limit the right and ability of the District to access existing or previously created computer or network use data or usage history. In the event a conflict exists between this section 4.6 and BP 3720 and/or AP 3720, the provisions of this section will prevail with respect to monitoring only.

4.6.1 Under special circumstances, the District may monitor the activity and accounts of users of District computing and network resources, including login session and the content of individual communications, with or without notice, when:

1) Required by law;
2) Necessary to protect the integrity, security, or functionality of District computing and

Dental Board of California
Re: Cabrillo College Dental Hygiene Program – Complaint Regarding Program Violations

Date: 11/13/25

Dear Members of the Dental Board of California,

My name is [redacted] RDH, BS, and I have been employed as an Adjunct Dental Hygiene Instructor at Cabrillo College in the Dental Hygiene Department since [redacted]. Throughout my tenure, I have had the privilege of working under the direction of Noel Kelch, RDHAP who set a high standard for the program, which I have always strived to maintain in my teaching. I have taught a variety of courses, including [redacted]. Over the years, Cabrillo College has maintained a reputation for upholding high standards in dental hygiene education, and it is with great concern that I submit this complaint regarding recent changes that I believe compromise these standards.

This complaint is not aimed at any individual personally, but rather at the ongoing compromises in the program's leadership, clinical supervision, and overall educational integrity. These issues, I believe, have led to violations that may affect both student success and the safety of patients.

1. Leadership and Oversight

The leadership of the program has undergone significant changes, and I am deeply concerned by the lack of presence and availability of the new Program Director, Mrs. Khoury. She resides in Southern California and is not consistently present on campus, as evidenced by the fact that the office hours posted on her door are frequently inaccurate. This issue was particularly evident on August 28, 2025, when the afternoon clinic session began. I was conducting a huddle with my block of students when one of them inquired about their block instructor. Upon checking with the second-year coordinator, it became clear that the supervising dentist assigned to the clinic was absent, and none of us had his contact information. We were left out of compliance with the required student-to-teacher ratio, and there was no supervising dentist available in the clinic. When we requested that Mrs. Khoury step in to assist, she came briefly to tell the front desk to contact the dentist from the morning session but did not provide hands-on support in the clinic. The other dentist did not arrive until approximately 3:00 p.m.

2. Inadequate Support for New Second-Year Coordinator

Our new second-year coordinator, who has no prior experience in this role, has faced challenges in managing clinic operations effectively. Despite her repeated requests for staff meetings and guidance, Mrs. Khoury has made significant changes to clinic hours,

dress code, and other procedures without consulting or informing the second-year coordinator. Some of these changes have been in direct violation of our established clinic manual, and the coordinator has been left without the support necessary to address these issues. Notably, a staff meeting was only held on November 5, 2025 week eleven of the semester which point many concerns had already accumulated.

3. Concerns Regarding Student Clinical Hours and Success

One of my major concerns is the lack of sufficient clinical experience for our students. This semester, the clinic has been operating at only half capacity, and students have been told there is no penalty for an “empty chair.” This lack of patients is deeply troubling, as the students are not getting the clinical hours and experience required to meet graduation requirements. Many of the students do not realize the importance of completing these clinical hours for their graduation eligibility, which further exacerbates the problem. Additionally, changes to the grading scale were made this year, ostensibly to raise student grades and avoid failures, which the Dean has stated were out of alignment with college policies.

4. Unsupervised Access to Clinic and Sterilization Areas

I am also concerned about a new policy that permits students to enter the clinic and sterilization areas without instructor supervision. This policy is particularly troubling given that our clinic contains pharmaceutical drugs that could be accessed without oversight. Historically, these areas have always required instructor supervision to ensure proper safety and infection control. This shift in policy is not only concerning from a safety perspective but also violates established protocols that have ensured the well-being of both students and patients.

5. Lack of Teaching Time and Critical Instructional Opportunities

The practice of “huddling” with students and instructors before clinic sessions has always been an essential teaching tool, allowing instructors to discuss various clinical conditions, medications, and specific patient needs. This practice was initially discontinued by Mrs. Khoury, who has stated that it is a “waste of time.” This time has been invaluable for both students and faculty as a means of preparing for the day’s clinical sessions. The loss of this opportunity severely impacts the quality of education and patient care in the clinic. Now we have been told to keep it to 5 minutes because we complained.

Conclusion

In summary, my concerns revolve around the following key issues:

1. A lack of effective leadership and oversight from the Program Director, leading to inconsistent supervision and out-of-compliance conditions.

2. Insufficient support for new faculty and program coordinators, resulting in confusion and miscommunication regarding program policies and procedures.
3. Serious concerns about the adequacy of clinical hours and experience for students, which could prevent them from graduating on time.
4. Unsupervised access to critical areas of the clinic, including sterilization and pharmaceutical storage, without proper oversight.
5. The elimination of crucial instructional time that has traditionally supported student learning and clinical preparedness.

I am deeply concerned that these issues are compromising the integrity of the program and the safety of both students and patients. I respectfully ask that the California Dental Hygiene Board investigate these matters and take appropriate action to ensure that Cabrillo College's Dental Hygiene Program adheres to the highest standards of education and patient care.

Thank you for your attention to these matters. I am available for further clarification or to provide additional information if necessary.

Sincerely,

[redacted]
Adjunct Dental Hygiene Instructor
Cabrillo College

Report Suspicious

Hello,

I'm reaching out in hopes that I can have an issue addressed. I've been having issues with two classmates that involved them pretending to try to run over me and another classmate around 9pm after our late night clinic. I reached out to my program director and she reassured me she is trying to deal with this situation accordingly. However, now the dean of student services, Dr. Michelle Donohue, and at my school is also involved and she is being very dismissive with me about the whole situation. The dean of HAWK is also involved but she did not ask to speak to me at all regarding my side and only spoke to the girls who the incident was caused by. She demanded that I not speak to my classmate who was with me at the time. I don't think she has the best interest of our learning environment and understands what it's like being in a program like ours. I'm hoping to bring this to your attention in order to have this issue dealt with. They have allowed one of the girls who was involved to return, and I have been affected by this whole situation in a very serious way and it makes me nervous to go to school everyday. I am really enjoying being a second year student but with this issue not being addressed by the dean of student services, it is taking a toll on my mental health. I am now seeing a counselor at my school because of this in order to cope with this. I vocalized to the dean of student services how upsetting it is to have been told to not be in contact with my classmate, who is a good friend, my support system and I also carpool daily with, and she did not seem to care. I just want to reach out to share what is happening in our program. I don't believe that the dean of student services has our programs best interests in mind and so I want to talk to someone who may. If you need to follow up with me about more specific information I'm more than willing to talk. My number is [redacted] Thank you for taking the time to read this.

Report Suspicious

Hello,

My name is [redacted], and I am a second year dental hygiene student at Cabrillo College in Aptos, California. One of the faculty members in my program provided me with this email so I can share some of my concerns with what is going on within our cohort. A student in our class named [redacted] showed up to class today after being gone for two weeks, and I was told by the faculty member that provided me with this email that this student was not permitted to show up to our classes today. I do not know the full scope of what sort of remediation or situation this student might be in currently, but the director of our program, Healthier Lawler had the dean of student services come to our class to escort [redacted] out of the classroom. I was informed by the faculty member previously mentioned that [redacted] was asked to leave campus but refused, to which local law enforcement became shortly involved. I was told that [redacted] was getting confrontational with our program director and waving their hands in front of Ms. Lawler's face. I don't know the full details of what happened after this event, but [redacted] managed to convince the dean of student services that she could stay and asserted that she could attend our evening clinic session today (10/1/2024). Many students and faculty members were made uncomfortable by [redacted] presence, and some even thought that the environment that we were treating patients in did not feel safe due to [redacted]'s confrontational behavior demonstrated earlier. [redacted] intends to show up to our school and clinic despite being told by the program director that they are not to do so. This makes many of my classmates, including myself, very uncomfortable. I was told that the dean of student health services does not understand the full scope of the situation that has led up to this point, and unfortunately it seems as if the director of our program has their backing, despite witnessing the confrontational event mentioned earlier. I hope that by writing to you something can be done about this situation so that our cohort and patients in our clinic can feel safe.

Regards,

[redacted]

Report Suspicious

Hello Adina,
I am writing to address the issue at hand here at the dental hygiene clinic. The following events have left our students shaken and in tears many are finding it hard to concentrate on their live patients. The staff myself included are being undermined and disrespected and frankly we are ready to walk out.
The issue is [redacted] and her return to school after being suspended for trying to run over another student. I don't know what is going on with that case but [redacted] returned with a challenging attitude toward us and aggressive behavior, She confronted the front office staff and proceeded to argue with her minutes after returning, challenging whether she had to see the patient we had scheduled for her. She wanted to see her own patient. That turned into a big deal, then I informed Heather Lawler that she was on the clinic floor because no one told us she was returning, so Heather said good, I was just sending her an email regarding expected behavior if we go forward so I will tell her in person. Heather went to [redacted] OP and told her to take off her PPE and have a seat in the lobby, then Heather went to get her paperwork. She went looking for [redacted] in the lobby and she wasn't there, she was in the clinic still. Heather waved to her to come and [redacted] used her finger and waved it side to side with a smirk on her face literally laughing at Heather, she refused to leave the clinic floor. We had live patients present. So Heather Called the Police who refused to escort [redacted] out due to non compliance. You Know the story from there, it was awful. We were shaking and upset, could not sleep last night and came into work today with the same scenario! [redacted] on the clinic floor, Heather asking her to come talk to her and [redacted] refusing and saying the dean said she did not have to listen to Heather (Our director)! Again our students are uneasy because [redacted] has continually bullied them and our youngest student is in tears. Multiple students and staff have gone to the dean and complained about the toxic environment today and the precedent it is setting going forward. As of now the director nor the instructors are not allowed to meet with [redacted] without the dean present.
Please help our director get this straightened out asap. So we don't have to walk out.
Thank you for your time and consideration,
[redacted]

Report Suspicious

Good afternoon Adina,

I am writing this email because of the situation that is going on here at the dental hygiene clinic at Cabrillo College. I am feeling very stressed, upset, and scared for my safety as well as the other students/ staff here in our department. The work environment is not healthy for anybody it is toxic. So many students are feeling very stressed and are in tears from being in this situation. Our voices are not being heard. So many of us have went to talk to the Dean of HAWK, and have just reached a dead end because she is downplaying the situation. She is constantly throwing our Director Heather Lawler under the bus stating she has not been aware of the situation, and this is the first time she is hearing about it. I do not think it is professional or respectful that a Dean who is supposed to be a leader and an example to others is being very unprofessional and spreading lies about our Director Heather Lawler. She is not only telling us her staff but also our students. The Dean has been made aware of these situations and this is very one sided.

The two students [redacted] and [redacted] have caused so much emotional distress to many students. Their actions, their conduct and language are very unprofessional and not respectful. They have bullied several students, I have witnessed the way they have expressed themselves about their fellow classmates calling them, "slow" "stupid"

The student [redacted] has been challenging multiple times, questioning what she is told by staff/ teachers' instructors. This has happened not only in class but with me in the front office. Just in one instance this week when she was in the front office, and I am letting her know that she is assigned a patient for clinic, she is questioning me and being very aggressive in the way she is talking back to me. She is defiant when she is told things, and repeats the same things back attempting to get a rise out of me. When I let her know the decision why the decision was made and that is was made by our Director Heather Lawler, she yet still questions. She is not respectful when she is talking to me. I repeat to her again what the Director had told me to do and she tells me to go and ask the Director why and to get back to her by the end of the day. With hopes that I can change the outcome for her. I am honestly challenged because the student is not

respectful and you are walking on eggshells around her. Hoping what you say to her doesn't come back and is turned against you. It is very difficult to work in this environment.

Like I mentioned, I have had multiple students upset and crying that they are being bullied by this student and her presence itself is intimidating. The student had been suspended for 2 weeks prior for a separate incident and returned this week for class and within 5 minutes of her being in the front office, she is already challenging what is being told to her.

There are multiple students feeling scared to say something with fear of retaliation and don't want to be near this student. Some students are needing to talk to therapists because of the toll it is having on their mental health.

Our Director has asked [redacted] to step out of clinic today multiple times to have a conversation with her, and student refuses to talk to her or other instructors. Our Dean Heidi Weber does not want the student talking with teachers without representation. This has never been an issue before with the student or any other students when they meet with their teachers.

[redacted] is being defiant in front of other faculty and students and the students are seeing this, which is setting a bad example for others. This is causing divisions with students as well. There is a group that supports [redacted] and her actions and there is the other students who are just stressed in this environment. I do not feel that our voice is being heard and there is a lot of miscommunication going on with the higher ups. I do not think this is a healthy environment for anybody. Multiple people including myself feel like we need to walk out of our jobs.

I do not understand how one student is having so much power and being allowed to continue to be in class. NO ONE is listening to the students, the actual victims of the situation. This is not just a simple situation that needs talking to and bypassed. We need action. We need answers.

I am in disbelief that we have the Dean, staff members of other departments, and the Vice President coming into the clinic asking to see if the student is “safe” and not feeling threatened, yet we have students and actual victims of situations that are not being asked how they are doing.

It can not be possible that a student can be a harm to others and still come back like nothing has happened and get away with their actions

Something needs to be done please. Staff/ faculty students are very upset. If multiple people walk out of their jobs this clinic is going to close down and that is not fair for the students who are here and trying their best and actually are pursuing this career.

--
Thank you,

[redacted]
Cabrillo College Dental Hygiene Clinic
[redacted]

I am filing this complaint to report the ongoing issues related to the lack of collaboration, mutual respect and lack of harmony between the college administration and the dental hygiene program faculty at Cabrillo College. On Friday December 6, the program faculty received an email with the subject line: Dental Hygiene Climate from Dr Travaris Harris, the Vice President of Instruction. In this email Dr Harris commented on the unprecedented number of complaints related to safety and disruptive behavior from dental hygiene students, faculty and staff through the college's "Just Report It" inbox. Dr Harris summarized the complaints as being primarily due to lack of effective classroom management and provided examples of the types of complaints that have been filed such as, "a student telling another student to hurry up with cleanup, a student asking another student to shred paper, and students being uncomfortable with the way another student looked at them" and concluded that these concerns do not constitute a threat to student safety but an "unhealthy climate" that the dental hygiene faculty "should work on."

Furthermore, he explained a process for reporting student behavior issues directly to the division dean, Dr Heidi Weber or himself. No mention is made of the existing protocol that is clearly defined in the Dental Hygiene Program Student Handbook.

Dr Harris goes on to give his opinion that the narrative of this unhealthy has been due to a few students and that these students have been found to be innocent of any code of conduct violations and that in his opinion faculty members have exacerbated the narrative of the disruptive behavior of these students.

As a [redacted] faculty member, I have limited contact with the students in [redacted] course. However, I am concerned about the narrative from the Vice President of Instruction that dismisses the nature of the student behavior issues and the overall impact on the dental hygiene program faculty and program director.

Following the DHBC's unannounced visit to Cabrillo on October 8, there have been 3 faculty meetings called by the College administration. The first was on October 21. This session was led by the Title IX coordinator and focused on communication and interpersonal relationships within the department and division. The second meeting was called by the college president on October 28 to discuss the college budgetary issues and the plan to send a letter to CODA regarding cutting the program to a single cohort. The third meeting was called by Dr Harris on November 12 and was conducted over zoom. The focus of this meeting was the number of incidents that had been submitted to "Just Report It" and the need for better classroom management on the part of the faculty. The meeting was not recorded and fewer than half of the faculty were in attendance due to teaching commitments or clinical practice commitments. Dr Harris did state that he would send a summary of the meeting. The December 6 email appears to be the summary.

In all of the meetings held by the administration, no mention was ever made of the DHBC visit, the follow-up letter sent on October 10, or the corrective action to address CODA Standard 1-2. Following Dr Harris email to the faculty regarding the "Dental Hygiene Climate" on December 6, I sent a follow up email with questions regarding the follow-up from November 12 meeting, the revised protocol for unprofessional conduct, and the college's remediation plan. I am attaching my letter along with Dr Harris's responses.

The ongoing issues with the college administration, their lack of understanding of the accreditation standards and disrespect for the faculty and program director have brought morale to a low level. The clinical assistant resigned last week as well as a full-time faculty member. The students will ultimately suffer from the disregard of the clearly stated requirements of the program and the loss of faculty and staff members in the middle of the academic year. It is important that the current situation be brought to your attention.

Report Suspicious

Hello Ms. Petty,

One of my classmates has encouraged me to update you on matters related to student conduct violations in the Cabrillo College Dental Hygiene Program. On November 26, 2024 I was notified by the Cabrillo Title IX director, Samantha Folb, that a private investigator by the name of Nicole Craig, was to reach out to to me after the Thanksgiving break to schedule an intake interview regarding multiple sexual harassment reports that I had submitted through the college's Just Report It channel. As of March 3, 2025, I have not received any updates from neither Ms. Craig or Ms. Folb as to when I would be scheduled for an intake interview. On February 4, 2025, I messaged Ms. Folb via email to request a status update and explanation as to why investigation efforts had stagnated. I have not received any reply from Ms. Folb and I am still unsure as to when investigation efforts will proceed. I have filed a complaint with the California Civil Rights Department against Cabrillo College for failing to respond to harassment based on sex under Title IX.

I also feel that it is important to update you on some of my experiences with the college administration since your last visit. On Friday, November 8th, 2024 Ms. Folb sent out an email to our cohort to inform us that it had come to their attention that there were ongoing concerns in the dental hygiene program regarding student conduct, and that there was to be an opportunity to meet in person for an open dialogue on campus on November 12, 2024. I attended this dialogue with my classmates [redacted], [redacted], and [redacted], and we felt as if the discussion failed to fairly hear our concerns. We were told by Ms. Folb and Michelle Donohue that we were the ones engaging in bullying behavior because of the volume of student conduct reports that were submitted against our classmates [redacted] and [redacted] in the Fall 2024 semester. Ms. Folb likened us at the open discussion to a "lynch mob" and "trolls" for this percieved bullying effort. With good faith we explained that the Just Report It channel hadn't been known prior to the Fall 2024 semester. Ms. Folb continued to tell us that if she handed the stack of reports to a "random person on the street", they would think that we were the bullies. She also had made allegations that some of the reports were not made in good faith, and that if we were to submit reports in the future it "better have a good reason".

Most recently, the dean of the allied health programs, Heidi Webber, gave an address to our class on February 4, 2025 to discuss how harassment policies will be handled moving forward. In the spirit of starting over and having a positive semester, Ms. Webber advised us to informally renounce all our grievances throughout our tenure in the Cabrillo dental hygiene program. This request was appalling to me, especially since I had submitted multiple sexual harassment reports in good faith.

I also had a chance to witness the recording of the DHBC meeting held on November 16, 2024, and noticed that the Cabrillo College representative that spoke at that meeting, Travaris Harris, was not forthcoming in addressing the sexual harassment issues ongoing within the program, of which I have spoke with him personally about.

I am saddened that this is the caliber of leadership that is on display at Cabrillo College. Three of our instructors voluntarily left their jobs in the Cabrillo College dental hygiene department due to resistance and hostility coming down from the administration. I no longer feel that the college administration has a genuine interest in my welfare, and I hope that by writing to you we can move closer to a more acceptable resolution.

Regards,

[redacted]

Dear Ms. Petty,

I am writing to address ongoing issues within the dental hygiene program at Cabrillo that remain unresolved. Last semester, several of my peers and I submitted reports to the school regarding sexual harassment, bullying, breaches of patient confidentiality, and violations of infection control protocols. Unfortunately, the school did not take our reports seriously, and this has had a profound effect on us.

At the beginning of the spring 2025 semester, on Thursday, February 6, the dean, Dr. Weber, came to our classroom to speak with us. Upon entering, Dr. Weber acknowledged only three students—[redacted]—by name, ignoring everyone else in the class. She then stated that this was a new semester and encouraged us to move forward and leave the past behind. Dr. Weber claimed that the students involved in the car incident were falsely accused and had been victimized by rumors, yet she never mentioned the reports we submitted, nor the promised investigations, which were never conducted. This demonstrated preferential treatment for these individuals and disregarded the concerns of the rest of the class, undermining our right to a bullying-free learning environment.

Despite Dr. Weber's comments, [redacted] behaviors have not improved, in fact, they have worsened. They continue to bully others, including myself, and do not adhere to infection control protocols in the clinic. The clinic coordinator, Ms. Gunn, allows them to continue this behavior and grants them preferential treatment, permitting them to submit clinic competencies with patients they have already used in the previous semester. In contrast she applies strict standards to the rest of the class.

Last semester, a complaint was filed with Ms. Patel, the previous clinic coordinator, regarding [redacted] entering periodontal chart numbers on a patient's record before the patient even sat in the dental chair. Although the report was submitted by [redacted] Ms. Patel took no action. Additionally, at the end of last semester, my classmate [redacted] did not complete all her requirements, including a dental prophylaxis on a child. We were informed by Ms. Patel that all requirements needed to be fulfilled, or we could not advance to the next semester. Why are some instructors strict with certain students while others are allowed to progress without meeting the requirements? For instance, on the last day of clinic, after I had completed all my requirements the day before, I found myself without a patient for the morning. Ms. Patel threatened that if I did not find a patient, my grade would be affected. I had a patient scheduled for the afternoon, but the patient for morning appointment canceled. This represents a form of retaliation that I have experienced in the clinic, and I can provide additional examples.

Moreover, on March 6, Ms. Gun approached me and requested that I change my outside clinic rotation from March 8 to April 26 so that one student could complete their competencies, later I found out that the student was [redacted]. I declined this request because I had only been scheduled for one outside rotation this semester and needed to complete my competencies. I suggested that if she scheduled me for an additional day, I would agree to the change. Ms. Gunn and stated that I could only go once, either now or later, and that she would not add another day for me. My concern is that Ms. Gun is retaliating against me. Why is she allowing [redacted] the privilege of going to complete competencies while denying me the same opportunity? On the day of my original rotation, [redacted] was present because they rearranged another student's schedule to allow her to go, and [redacted] mentioned she was asking Ms. Gun to send her a third time. Why does [redacted] determine her schedule, while students like me are denied the same chances?

I never anticipated that coming into this program would require me to advocate for my rights and face unprofessional behavior and the lack of action from instructors. The learning environment has become hostile, many students fear speaking out or participating. The preferential treatment and protection afforded to students who continue to behave unprofessionally are widely recognized.

Thank you for your attention to these serious concerns.

Sincerely,

Cabrillo DH student

Report Suspicious

Dr Adina Petty,

I am forwarding the correspondence from CODA on the question that was posed during your visit on August 8th. Please let me know if you require anything further.

Sincerely,

Heather Lawler

On Fri, Aug 23, 2024 at 8:46 AM Navickas, Kathleen <navickask@ada.org> wrote:

> Heather,
>
> I have discussed this matter with Dr. Tooks and this is her reply. As we discussed with you and your administration, the dental hygiene program must have stable financial resources to support the educational program in accordance with Dental Hygiene Standard 1-3 (noted below). **CODA staff DID NOT state that fundraising is a stable and reliable source of income for Dental Hygiene Education Programs**. As we mentioned in the call, funding resources could be based on several different factors, such as student tuition, grants, and other means. We also stated that regardless of funding source(s) and in particular with funding that may not be ongoing (e.g., grants), the program/institution must always demonstrate "stable financial resources sufficient to support the program's stated mission, goals and objectives," which means that the institution must also have contingency/institutional/other funds available to the program to provide stable financial support.
>
> The Commission is not aware of any comments made at a recent meeting with the Dental Hygiene Board of California (DHBC) related to financial resources to support a dental hygiene program. If the DHBC has any questions, they should contact CODA directly.
>
> Dental Hygiene Standard 1-3 states: The institution must have a strategic plan which identifies stable financial resources sufficient to support the program's stated mission, goals and objectives. A financial statement document must be submitted providing revenue and

expense data for the dental hygiene program.

Intent: The institution should have the financial resources required to develop and sustain the program on a continuing basis. The program should employ sufficient faculty, purchase and maintain equipment, procure supplies, reference material and teaching aids as reflected in annual budget appropriations. Financial allocations should ensure that the program will be in a competitive position to recruit and retain qualified faculty. Annual appropriations should provide for innovations and changes, including technological advances, necessary to reflect current concepts of education in the discipline. The Commission will assess the adequacy of financial support on the basis of current appropriations and the stability of sources of funding for the program.

Subject: Written Confirmation

Katie,

I am writing to request written confirmation of a point discussed during our meeting with you and Dr. Tooks on August 2nd.

It was mentioned in a recent meeting with the Dental Hygiene Board of California (DHBC) that the Commission on Dental Accreditation (CODA) would indeed consider fundraising as a stable and reliable source of income for Dental Hygiene Education Programs.

The DHBC has requested formal written confirmation of your position.

Thank you for your attention to this matter. I look forward to your response.

Sincerely,

Heather Lawler

December 6, 2019

Noel Kelsch RDHAP, MS
Program Director, Department of Dental Hygiene
Cabrillo College
6500 Soquel Drive
Aptos, CA 95003

Dear Ms. Kelsch,

The Dental Hygiene Board of California (DHBC) conducted a site visit on November 7, 2019 of the Cabrillo College Dental Hygiene Educational Program (Cabrillo). This site visit was generated due to the review of Cabrillo's Commission on Dental Accreditation (CODA) of the American Dental Association Self Study, as well as DHBC's oversite goals to review all dental hygiene educational programs (DHEPs) in California. Based on the results of the site visit and a review of the documentation provided by Cabrillo, it was noted that evidence of program compliance with the minimum DHEP standards set by the California Code of Regulations (CCR) and CODA was deficient.

During the review of the CODA Self Study and DHBC site visit, the following deficiencies of minimum DHEP standards were discovered:

1. Sponsoring Institution

    a. Stable Financial Resources
        i. Self Study p. 20
        "In 2014 the College reduced the teaching unit allocation to the dental hygiene department by 100 teaching units, approximately 50% of the department budget. As a result, the department has had to bring in $140,000 a year to support an entering class."

        ii. Self Study p. 131 "Enrollment Trends"
        "We have received fewer applications due in part to the budget reduction to the program in 2015. The perception was that the program was closing. The department is still feeling the effects of that decision."

        iii. Self Study Exhibits p. 389 "Priorities to Improve Student Learning"
            1. "Two additional full-time faculty" and "Reinstatement of Program TU's College funding of program"
            2. "Following the College policy in requesting for reinstating two full-time (FT) faculty."
            3. "Ever since the 100 TU's were removed from the DH program in 2014 the DH program has requested restatement of Program TU's in our annual program update."

        *TU = Teaching Units

b. Refer to:
    i. 16 CCR §1104 (b)
    The hygiene board shall review the approval of all approved educational programs in accordance with accreditation renewal standards set by the Commission on Dental Accreditation of the American Dental Association (CODA), or an equivalent accrediting body, as determined by the hygiene board. In the event that an equivalent body has not been established by the hygiene board, the standards shall be set by CODA.

    ii. 16 CCR §1104 (b)(5)
    Continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in this Article. Written notification of continuation of approval shall be provided.

    iii. CODA Standard 1-2
    The institution must have a strategic plan which identifies stable financial resources sufficient to support the program's stated mission, goals and objectives. A financial statement document must be submitted providing revenue and expense data for the dental hygiene program.

c. Determination:
    i. Not in compliance.
    ii. Cabrillo to provide evidence of stable financial resources to the dental hygiene program to ensure continuity of the program.

2. Requirements for RDH Educational Programs

a. Prerequisites
    i. Self Study p. 35 “Prerequisites”
        1. Inorganic chemistry prerequisite is missing.

    ii. Self Study Exhibits p. 116 Mathematics Competency Requirement
        1. “The A.S. Mathematics requirement may be met by successful completion of Intermediate Algebra or equivalent or a higher-level mathematics course with a grade of “C” or better. Successful completion must be verified by an official college transcript or by an appropriate score on the Cabrillo mathematics assessment.”

    iii. Self Study Exhibits p. 217 “DH Program Application Evaluation Form”
        1. Inorganic chemistry prerequisite is missing.
        2. Psychology, sociology, oral communication, and mathematics not included on form.

    iv. Self Study Exhibits p. 222
        1. Not all prerequisites required by the DHBC are included on the application under “prerequisites”.

v. Self Study Exhibits p. 223
    1. "Courses with this symbol (*) are required by the Committee on American Dental Accreditation (CODA)
        a. Should be "Commission on Dental Accreditation".
        b. Should include that DHBC requires these as well.
        c. Asterisks (*) in the exhibit are not accurate.

    2. "Due to Commission on Dental Accreditation (CODA) requirements for an Associate Degree in Dental Hygiene some General Education courses are specific to dental hygiene, see table below."
        a. Should include that DHBC requires these as well.

vi. Self Study p. 135
    1. "One area that we are working on to increase is the availability of tutoring. While we have office hours and a tutoring center for specific courses there is a strong need for student success to add additional tutoring hours in clinic and dental hygiene specific courses. The other area that we are working on is HESI evaluations for each student to see what they academic needs are specific to the program and help them resolve any needs that are identified through the HESI system."

        *HESI = Health Education Systems, Inc. standardized test

b. Refer to:
    i. 16 CCR §1105 (f)
    Admission.(1) The minimum basis for admission into an educational program shall be the successful completion of all of the following: (A) A high school diploma or the recognized equivalent, which will permit entrance to a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation; and, (B) College-level general education courses in the topic areas of: (i) Oral and Written Communication (ii) Psychology (iii) Sociology (iv) Mathematics (v) Cultural Diversity (vi) Nutrition*
    *This course is required prior to graduation, and may be waived as an admission requirement if included within the dental hygiene program curriculum.
    (C) College-level biomedical science courses, each of which must include a wet laboratory component, in: (i) Anatomy (ii) Physiology (iii) Chemistry (iv) Biochemistry (v) Microbiology.*

c. Determination:
    i. Not in compliance.
    ii. Cabrillo to include Inorganic Chemistry as a prerequisite for admission to program.
    iii. Cabrillo to include college level Mathematics as a prerequisite for admission to program.
    iv. Cabrillo to correct prerequisite deficiencies to conform to requirements pursuant to 16 CCR §1105 (f).

3. Learning Resources and Support Services

    a. Faculty, Staff, and Support Services

        i. Self Study Exhibits pp. 21-26 SLO* Departmental Assessment Analysis #2

            1. "Priorities to Improve Student Learning"
                a. "Two additional full-time faculty"
                "All of this fund raising impacts the educational goals of the program. 87% of our students are first generation learners and are of ethnicity other than Caucasian. These students have greater academic challenges that require additional didactic and clinical tutoring that the program cannot provide with limited FT faculty. Restating the two FT faculty would facilitate the support and consistency needed to help with student success."

                b. "Reinstatement of Program TU's College funding of program"
                "Ever since the 100 TU's were removed from the DH program in 2014 the DH program has requested restatement of Program TU's in our annual program update."

                c. "Tutoring"
                "Seek grant funding from SWF and the Cabrillo College Tutoring Center for tutoring"

            *SLO = Student Learning Objectives
            ** SWF = Strong Work Force

        ii. Self Study p. 133
        "Currently there are 2 full time faculty positions and in 2018-2019 one temporary full time faculty position in the dental hygiene department. A hire is in process for a full time tenure track position to begin in fall 2019. The full time faculty allocation is misleading since the DH director is required to spend a majority of her time in administrative duties and oversees fund raising of $140,000 a year to accept a new incoming class."

        iii. Program Assistant

        Program assistant shared among three programs equating to twelve hours per week devoted to program support.

    b. Refer to:
        i. 16 CCR § 1105 (i)
        The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

ii. 16 CCR § 1105 (k)
The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

iii. CODA Standard 3-11
Qualified institutional support personnel must be assigned to the program to support both the instructional program and the clinical facilities providing a safe environment for the provision of instruction and patient care.

c. Determination
   i. Not in compliance.
   ii. Cabrillo to provide evidence of faculty, staff, learning resources and support services pursuant to 16 CCR § 1105 (i), 16 CCR § 1105 (k), and CODA Standard 3-11.

4. Faculty
   a. Faculty to Student Ratio
      i. Site Visit Observation
         1. Dentist assigned to oversee student in sterilization while overseeing five student clinicians on the clinic floor resulting in a six to one ratio.
         2. One faculty for eighteen students observed on floor during set-up and clean-up of clinic.

   b. Refer to:
      i. 16 CCR § 1105 (b)(4)
      The instructor to student ratio shall meet approved Commission on Dental Accreditation standards referenced in subsection (c) of section 1103 of this article

      ii. 16 CCR § 1105 (i)
      The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

      iii. 16 CCR § 1105 (k)
      The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

      iv. CODA Standard 3-5
      The number and distribution of faculty and staff must be sufficient to meet the dental hygiene program’s stated purpose, goals and objectives.

      v. CODA Standard 3-6 The faculty to student ratios must be sufficient to ensure the development of competence and ensure the health and safety of the public. The faculty to student ratios for preclinical, clinical and radiographic clinical and laboratory sessions must not be less than one to five. Faculty to student ratios for laboratory sessions in dental materials courses must not be less than one to ten to ensure the development of clinical competence and maximum protection of the patient, faculty and students.

c. Determination
    i. Not in compliance.
    ii. Cabrillo to provide evidence of immediate resolution to deficient faculty to student ratios pursuant to 16 CCR § 1105 (b)(4), 16 CCR § 1105 (i), 16 CCR § 1105 (k), CODA Standard 3-5, and CODA Standard 3-6.

5. Staffing

a. Sterilization Staff
    i. Self Study p. 87 and Exhibits p. 485
        1. Instructional Assistant I
            a. "The instruction assistant (IA) is a 50% part time eleven-month position designated solely for dental hygiene. The IA is responsible for equipment management and maintenance, instrument and kit ordering, program purchasing, clinic/sterilization/radiology management, software/computer management, hazardous waste management, inventory, and clinic record management. As of the self-study year 2017-2018, for two (2) years we have had a temporary person in this position working ten (10) hours a week. We have had a job announcement posted for this position for two (2) years. The low pay scale and lack benefits for the qualifications have made this a difficult position to fill."

    ii. Site Visit Observation:
        1. Insufficient supervision of sterilization.
            a. IA only assigned 10 hours per week.
            b. Clinic DDS assigned to oversee sterilization during clinic resulting in unacceptable faculty to student ratio to one in six.
            c. No one faculty or staff member is directly responsible for overseeing complete process.

b. Refer to:
    i. 16 CCR § 1105 (b)(4)
    The instructor to student ratio shall meet approved Commission on Dental Accreditation standards referenced in subsection (c) of section 1103 of this article

    ii. 16 CCR § 1105 (i)
    The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

    iii. 16 CCR § 1105 (k)
    The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

iv. CODA Standard 3-5
The number and distribution of faculty and staff must be sufficient to meet the dental hygiene program's stated purpose, goals and objectives.

v. CODA Standard 3-6 The faculty to student ratios must be sufficient to ensure the development of competence and ensure the health and safety of the public. The faculty to student ratios for preclinical, clinical and radiographic clinical and laboratory sessions must not be less than one to five. Faculty to student ratios for laboratory sessions in dental materials courses must not be less than one to ten to ensure the development of clinical competence and maximum protection of the patient, faculty and students.

vi. CODA Standard 3-11:
Qualified institutional support personnel must be assigned to the program to support both the instructional program and the clinical facilities providing a safe environment for the provision of instruction and patient care.

c. Determination:
   i. Not in compliance.
   ii. Cabrillo to provide sufficient supervision of sterilization and utilize a designated staff or faculty member to oversee infection control process pursuant to 16 CCR § 1105 (b)(4), 16 CCR § 1105 (i), 16 CCR § 1105 (k), CODA Standard 3-5, CODA Standard 3-6, and CODA Standard 3-11.

6. Program Director

a. Program Director Responsibilities
   i. Exhibits p. 442
      1. Exhibit 3-5 Administrative Duties and Authority of The Program Administrator
         a. Requires 10 hours of fundraising a week placing hours worked at 61 hours per week
         b. Fundraising not in description of duties "Source: 2016-19 Contract, Appendix D.1 Job Description Department Chair/Academic Specialist Director"

b. Refer to:
   i. 16 CCR § 1105 (j)
   The educational program director shall have the primary responsibility for developing policies and procedures, planning, organizing, implementing and evaluating all aspects of the program.

   ii. 16 CCR § 1105.1 (a)
   "Program Director" or "Interim Program Director" means a registered dental hygienist or dentist who has the authority and responsibility to administer the educational program in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article. The educational program may have an Interim Program Director for a maximum of twelve (12) months. The director shall have a full-time appointment as defined by the institution, whose primary responsibility is for the operation, supervision, evaluation and revision of the program. The program director shall meet the following minimum qualifications:

(1) Possess an active, current dental or dental hygiene license issued by the Dental Hygiene Board or the Dental Board of California (DBC), with no disciplinary actions; (2) Possess a master's or higher degree from a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation; (3) Documentation of two (2) years' experience teaching in pre- or post-licensure registered dental hygiene or dental programs. This requirement may be waived for an Interim Program Director; and
(4) Documentation of a minimum of 2,000 hours in direct patient care as a registered dental hygienist or working with a registered dental hygienist.

iii. CODA Standard 3-2
The dental hygiene program administrator must have a full-time appointment as defined by the institution, whose primary responsibility is for operation, supervision, evaluation and revision of the program.

c. Determination
   i. Not in compliance.
   ii. Cabrillo to assign administrative duties pursuant to 16 CCR § 1105 (j), 16 CCR § 1105.1 (a) and CODA Standard 3-2.

7. Facilities
   a. Faculty Offices
      i. Office space lacking sufficient space to provide for privacy for faculty. One office is utilized by sixteen faculty and staff.
      ii. Office space does not provide sufficient privacy for faculty consultation with other faculty or students.

   b. Refer to:
      i. 16 CCR § 1105 (i)
      The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

      ii. CODA Standard 4-1
      The program must provide sufficient and appropriately maintained facilities to support the academic and clinical purposes of the program that conform to applicable regulations. The dental hygiene facilities must include the following: a) sufficient clinical facility with clinical stations for students including conveniently located hand washing sinks and view boxes and/or computer monitors; a working space for the patient's record adjacent to units; functional, modern equipment; an area that accommodates a full range of operator movement and opportunity for proper instructor supervision; b) a number of clinical stations based on the number of students admitted to a class (If the number of stations is less than the number of students in the class, one clinical station is available for every student scheduled for each clinical session.); c) a capacity of the clinic that accommodates individual student practice on a regularly scheduled basis throughout all phases of preclinical technique and clinical instruction; d) a sterilizing area that includes sufficient space for preparing, sterilizing and storing instruments; e)

sterilizing equipment and personal protective equipment/supplies that follow current infection and hazard control protocol; f) facilities and materials for students, faculty and staff that provide compliance with accepted infection and hazard control protocols; g) space and furnishings for patient reception and waiting provided adjacent to the clinic; h) patient records kept in an area assuring safety and confidentiality.

iii. CODA Standard 4-6
Office space which allows for privacy must be provided for the program administrator and faculty. Student and program records must be stored to ensure confidentiality and safety.

c. Determination:
   i. Not in compliance.
   ii. Cabrillo to provide office facilities pursuant to 16 CCR § 1105 (i), CODA Standard 4-1, and CODA Standard 4-6.

You will be required to provide evidence of compliance to the above deficiencies no later than **January 10, 2020.**

The priority of the DHBC is consumer protection. To ensure consumer protection and the public's right to receive quality dental hygiene care, the DHBC has a responsibility to ensure that all dental hygiene programs meet the same educational standards in preparing their graduates for the profession. If Cabrillo does not correct the above deficiencies by **January 10, 2020**, Cabrillo risks the DHBC's approval of the Cabrillo College Dental Hygiene Educational Program and for Cabrillo graduates to obtain a California license in dental hygiene. If you have any questions regarding this report, please feel free to contact me at adina.petty@dca.ca.gov.

Sincerely,

Aptos, CA 95003

Dear Dr. Wetstein,

The Dental Hygiene Board of California (DHBC, Board) conducted a site visit of the Cabrillo College Dental Hygiene Educational Program (Cabrillo) on April 9, 2024. This site visit was generated due to the appointment of a new program director, as well as DHBC's oversite goals to review all dental hygiene educational programs (DHEPs) in California. Evidence of program compliance with the minimum Dental Hygiene Educational Program (DHEP) standards set by the Business and Professions Code (BPC), California Code of Regulations (CCR), and Commission on Dental Accreditation (CODA) was deficient. The results of the site visit are as follows:

I. Violation 1: Stable Financial Resources.
[Deficient of BPC Section 1941(a), 16 CCR Section 1104 (b)(5), and CODA Standard 1-3.]

A. Site Visit:

1. Issue 1: Cabrillo lacks a stable funding source to fund the DHEP.

a. Cabrillo is only partially funding the DHEP through Cabrillo College's general fund.

1. Remaining funding is being required to be supplied through DHEP clinic fees and "Fund 16."

i. "Fund 16" is monies collected from Cabrillo providing "Expanded Duties Courses" (i.e., Soft Tissue Curettage, Local Anesthesia, and Nitrous Oxide-Oxygen Analgesia courses.)

- "Fund 16" is not a stable funding source as the monies collected from the course is dependent on many variables (e.g., number of courses offered, course enrollment, faculty salaries, etc.).

2. From Cabrillo's 2019 CODA Self Study (p. 21)

    i. "The long-range plan is to become a sustainable program. To assist the program in acquiring stable and adequate funding includes five areas have been identified.

    - First is the Cabrillo College base budget that provides for faculty salaries.

    - Second is income from fees generated by the dental hygiene clinic.

    - Third are grants from Vocational and Technical Education Act (Perkins/VTEA) and outside entities, Cabrillo College faculty grants, Cabrillo College student senate grants, and one-time instructional funding from the college.

    - Fourth, Extension continuing education courses that the department develops, promotes and facilitates.

    - Fifth a memorandum of understanding with Salud that pays the salary of our faculty member supervising the students on rotation."

      Note: Salud clinic is an extramural clinical site where students are allowed to provide dental hygiene care to patients of the clinic.

3. Cabrillo was cited by the Board in 2019 for the same concern.

    i. From the December 6, 2019 Site Visit Report:

    - Stable Financial Resources

        ♦ Self Study p. 20
        "In 2014 the College reduced the teaching unit allocation to the dental hygiene department by 100 teaching units, approximately 50% of the department budget. As a result, the department has had to bring in $140,000 a year to support an entering class."

        ♦ Self Study p. 131 "Enrollment Trends"
        "We have received fewer applications due in part to the budget reduction to the program in 2015. The perception was that the program was closing. The department is still feeling the effects of that decision."

- Self Study Exhibits p. 389 "Priorities to Improve Student Learning"
  - "Two additional full-time faculty" and "Reinstatement of Program TU's College funding of program"
  - "Following the College policy in requesting for reinstating two full-time (FT) faculty."
  - "Ever since the 100 TU's were removed from the DH program in 2014 the DH program has requested restatement of Program TU's in our annual program update."

    *TU = Teaching Units

b. Effect: Cabrillo Program Director and faculty required to "fundraise" to support the program.

1. Causes undue stress and requires Program Director and faculty to work non-contracted, personal time to ensure the program is funded to remain functioning. Fundraising to maintain the program is not a normal program director and faculty function. Forced participation in such events should be avoided since the program should be fully funded by the college.

2. Issue 2: Prerequisite courses designed to introduce the prospective student to dental hygiene (DH460A and DH460B) were defunded and discontinued by the Dean.

a. As the Program Director determined these courses crucial to the success of incoming students, the Program Director reinstated these courses, funding them through "Fund 16."

b. Effect: Cabrillo Program Director and faculty required to "fundraise" to support necessary prerequisite courses.

1. Causes undue stress and requires Program Director and faculty to work non-contracted, personal time to ensure the courses are funded to be offered, thereby enhancing student success.

B. Refer to:

1. BPC Section 1941(a)

The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality

standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1104 (b)(5)

   Continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in this Article. Written notification of continuation of approval shall be provided.

3. CODA Standard 1-3

   The institution must have a strategic plan which identifies stable financial resources sufficient to support the program's stated mission, goals and objectives. A financial statement document must be submitted providing revenue and expense data for the dental hygiene program.

C. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1104 (b)(5), and CODA Standard 1-3.

3. Cabrillo to provide evidence of stable financial resources for the DHEP to ensure continuity of the program pursuant to BPC Section 1941(a), 16 CCR Section 1104 (b)(5), and CODA Standard 1-3.

II. Violation 2: Admissions/Prerequisites.

[Deficient of BPC Section 1941(a), 16 CCR Section 1105(e), 16 CCR Section 1105(f)(1) – (f)(C), 16 CCR Section 1105(f)(2), and CODA Standards 1-1, 2-3, 2-8, and 2-8b.]

A. Site Visit:

1. Issue: Unqualified students admitted to the program.

   a. Applicants to Cabrillo were allowed to retake prerequisite science courses multiple times and only the course with the passing grade was recorded in the admission checklist.

      1. Students were allowed to retake prerequisite courses after an unsatisfactory completion the following semester, which is in violation of Cabrillo's "Dental Hygiene Admissions Policy."

i. Cabrillo "Dental Hygiene Admissions Policy" states:

- "These prerequisites may also be used to satisfy appropriate general education areas. Successful completion of these prerequisites or equivalent is required before applying to the dental hygiene program. It is required that all science prerequisites be completed within the last six (6) years."

- "Applicants are permitted to repeat prerequisites for a better grade provided the course was completed more than six (6) years ago. For these students, submit a petition to repeat a course through e-Forms."

b. Prerequisite courses designed to introduce the prospective student to dental hygiene (DH460A-Introduction to Dental Infection Control and DH460B-Clinical Application to Dental Infection Control Lab) were discontinued by the Dean.

2. Effect: Due to accepting unqualified students to the DHEP, as well as removing necessary prerequisite courses, students were not prepared for the rigors of the DHEP, thereby hindering student success and increasing attrition rates. .

B. Refer to:

1. BPC Section 1941(a)

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105 (e)

   The educational program shall have a written plan for evaluation of all aspects of the program, including admission and selection policy and procedures, attrition and retention of students, curriculum management, patient care competencies, ethics and professionalism, critical thinking, and outcomes assessment, including means of student achievement. If the program has submitted a written plan to the Commission on Dental Accreditation, which includes each of the elements listed above, a copy of such plan may be submitted to the Committee to meet this requirement.

3. 16 CCR Section 1105(f)(1) – (f)(C)

(1) The minimum basis for admission into an educational program shall be the successful completion of all of the following:
(A) A high school diploma or the recognized equivalent, which will permit entrance to a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation; and,
(B) College-level general education courses in the topic areas of: (i) Oral Communication (ii) Written Communication* (iii) Psychology (iv) Sociology (v) Mathematics* (vi) Cultural Diversity** (vii) Nutrition**
*Advanced Placement (AP) Exam Score Exemption may be accepted in lieu of this course.
**This course is required prior to graduation and may be waived as an admission requirement if included within the dental hygiene program curriculum.
(C) College-level biomedical science courses, each of which must include a wet laboratory component, in:
(i) Anatomy (ii) Physiology (iii) Inorganic Chemistry (iv) Biochemistry or Organic Chemistry with Biochemistry (v) Microbiology

4. 16 CCR Section 1105(f)(2)

Admission of students shall be based on specific written criteria, procedures and policies. Previous academic performance and/or performance on standardized national tests of scholastic aptitude or other predictors of scholastic aptitude and ability shall be utilized as criteria in selecting students who have the potential for successfully completing the educational program. Applicants must be informed of the criteria and procedures for selection, goals of the program, curricular content, course transferability and the scope of practice of and employment opportunities for dental hygienists.

5. CODA Standard 1-1

The program must demonstrate its effectiveness using a formal and ongoing planning and assessment process that is systematically documented by: a) developing a plan addressing teaching, patient care, research and service; b) an ongoing plan consistent with the goals of the sponsoring institution and the goals of the dental hygiene program; c) implementing the plan to measure program outcomes in an ongoing and systematic process; d) assessing and analyzing the outcomes, including measures of student achievement; e) use of the outcomes assessment results for annual program improvement and reevaluation of program goals.

6. CODA Standard 2-3

   Admission of students must be based on specific written criteria, procedures and policies. Previous academic performance and/or performance on standardized national tests of scholastic aptitude or other predictors of scholastic aptitude and ability must be utilized as criteria in selecting students who have the potential for successfully completing the program. Applicants must be informed of the criteria and procedures for selection, goals of the program, curricular content, course transferability and the scope of practice of and employment opportunities for dental hygienists.

7. CODA Standard 2-8, 2-8b

   2-8 The curriculum must include content in the following four areas: general education, biomedical sciences, dental sciences and dental hygiene science. This content must be integrated and of sufficient depth, scope, sequence of instruction, quality and emphasis to ensure achievement of the curriculum's defined competencies.

   2-8b Biomedical science content must include content in anatomy, physiology, chemistry, biochemistry, microbiology, immunology, general and maxillofacial pathology and/or pathophysiology, nutrition and pharmacology.

C. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of BPC Section 1941(a), 16 CCR Section 1105(e), 16 CCR Section 1105(f)(1) – (f)(C), 16 CCR Section 1105(f)(2), and CODA Standards 1-1, 2-3, 2-8, and 2-8b.

3. Cabrillo to provide evidence and demonstration of admissions policies pursuant to BPC Section 1941(a), 16 CCR Section 1105(e), 16 CCR Section 1105(f)(1) – (f)(C), 16 CCR Section 1105(f)(2), and CODA Standards 1-1, 2-3, 2-8, and 2-8b.

III. Violation 3: Program Director Authority.

[Deficient of 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.]

A. Site Visit:

1. Issue: Program Director not provided access to the DHEP's budget, nor allowed to provide input into the budgeting process.

a. Program director hired December 13, 2021, but did not receive access to the budget until February 2024.

2. Effect: Program Director unable to effectively oversee the budgeting process or daily utilization of budget allotments for expenses in the DHEP.

B. Refer to:

1. 16 CCR Section 1105(j)

   The educational program director shall have the primary responsibility for developing policies and procedures, planning, organizing, implementing and evaluating all aspects of the program.

2. 16 CCR Section 1105.1(a)

   "Program Director" or "Interim Program Director" means a registered dental hygienist or dentist who has the authority and responsibility to administer the educational program in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article. The educational program may have an Interim Program Director for a maximum of twelve (12) months. The director shall have a full-time appointment as defined by the institution, whose primary responsibility is for the operation, supervision, evaluation and revision of the program.

3. CODA Standard 3-2

   The dental hygiene program administrator must have a full-time appointment as defined by the institution, whose primary responsibility is for operation, supervision, evaluation and revision of the program.

4. CODA Standard 3-4

   The program administrator must have the authority and responsibility necessary to fulfill program goals including:
   a) curriculum development, evaluation and revision;
   b) faculty recruitment, assignments and supervision;
   c) input into faculty evaluation;
   d) initiation of program or department in-service and faculty development;
   e) assessing, planning and operating program facilities;
   f) input into budget preparation and fiscal administration;
   g) coordination, evaluation and participation in determining admission criteria and procedures as well as student promotion and retention criteria.

C. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.

3. Cabrillo to provide evidence and demonstration of Program Director authority pursuant to 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.

IV. Violation 4: Faculty and Staff Support.

[Deficient of16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standard 3-10.]

A. Site Visit:

1. Issue 1: Faculty Support

a. Program is assigned three full time faculty members.

1. Third full time faculty member has not been assigned courses or provided support to the program since 2021 which causes a lack of needed faculty staffing and support to the program.

2. Cabrillo failed to provide replacement (temporary or permanent) of the third faculty position once vacated to provide required support to the program.

3. Cabrillo was cited by the Board in 2019 for the same concern.

i. From the December 6, 2019 Site Visit Report:

- Self Study Exhibits pp. 21-26 SLO* Departmental Assessment Analysis #2

♦ "Priorities to Improve Student Learning"

◊ "Two additional full-time faculty"

"All of this fund raising impacts the educational goals of the program. 87% of our students are first generation learners and are of ethnicity other than Caucasian. These students have greater academic challenges that require additional didactic and clinical tutoring that the program cannot provide with limited FT faculty. Restating the two FT faculty would facilitate the support and consistency needed to help with student success."

◊ "Reinstatement of Program TU's College funding of program"

"Ever since the 100 TU's were removed from the DH program in 2014 the DH program has requested restatement of Program TU's in our annual program update."

- Self Study p. 133

"Currently there are 2 full time faculty positions and in 2018-2019 one temporary full time faculty position in the dental hygiene department. A hire is in process for a full-time tenure track position to begin in fall 2019. The full-time faculty allocation is misleading since the DH director is required to spend a majority of her time in administrative duties and oversees fund raising of $140,000 a year to accept a new incoming class."

b. Effect: Student progression and preparation to become a dental hygienist is hindered without the necessary and required faculty support.

2. Issue 2: Staff Support

a. Program Assistant.

1. Program assistant shared among three programs equating to twelve hours per week devoted to program support.

2. Cabrillo was cited by the Board in 2019 for the same concern.

i. From the December 6, 2019 Site Visit Report:

- "Program Assistant

♦ Program assistant shared among three programs equating to twelve hours per week devoted to program support."

b. Effect: Lack of program support leads to necessitating the Program Director to redirect time from program administration and student support to clerical duties.

B. Refer to:

1. 16 CCR Section 1105 (i)

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

2. 16 CCR Section 1105 (k)

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

3. CODA Standard 3-10

   Qualified institutional support personnel must be assigned to the program to support both the instructional program and the clinical facilities providing a safe environment for the provision of instruction and patient care.

C. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standard 3-10.

3. Cabrillo to provide evidence and demonstration of Faculty and Staff support pursuant to 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standard 3-10.

V. Violation 5: Student Support.
[Deficient of16 CCR Section 1105(a), 16 CCR Section 1105(d), and CODA Standards 1-3 and 2-5.]

A. Site Visit:

1. Issue: Students reported fees for the clinic are excessively high for the low-income patient population to afford.

   a. High fees due to Cabrillo's need to provide monetary support to the running of the DHEP.

1. Refer to "Violation 1."

b. Effect: Students (many of whom are first-time college students, from low-income households, or do not have a steady, or any, income) are paying patient fees to complete patients requirements, thereby hindering student success.
   1. Dental hygiene students should not bear the patient's cost burden for dental hygiene services to complete their competencies required for their education and training. They are already paying tuition and fees for materials and to add the cost burden for patient treatment to their tight financial budgets is unacceptable and reason to seek action against the school.

B. Refer to:

1. 16 CCR Section 1105(a)

   Administration and Organization. There shall be a written program mission statement that serves as a basis for curriculum structure. Such statement shall take into consideration the individual difference of students, including their cultural and ethnic background, learning styles, and support systems. It shall also take into consideration the concepts of dental hygiene, which must include the dental hygiene process of care, environment, health-illness continuum, and relevant knowledge from related disciplines.

2. 16 CCR Section 1105(d)

   The policies and procedures by which the educational program is administered shall be in writing, shall reflect the mission and goals of the program, and shall be available to all students.

3. CODA Standard 1-3

   The institution must have a strategic plan which identifies stable financial resources sufficient to support the program's stated mission, goals and objectives. A financial statement document must be submitted providing revenue and expense data for the dental hygiene program.

4. CODA Standard 2-5

   The number of students enrolled in the program must be proportionate to the resources available.

C. Determination:

1. **Not in compliance.**

2. Cabrillo is in violation of 16 CCR Section 1105(a), 16 CCR Section 1105(d), and CODA Standards 1-3 and 2-5.

3. Cabrillo to provide evidence and demonstration of Student Support pursuant to 16 CCR Section 1105(a), 16 CCR Section 1105(d), and CODA Standards 1-3 and 2-5.

Cabrillo shall provide evidence of compliance to the above violations **by May 20, 2024.**

***Please note*:** 16 CCR section 1104(e) states: A material misrepresentation of fact by a new educational program or an approved educational program in any information required to be submitted to the Dental Hygiene Board is grounds for denial of approval or revocation of the program's approval.

Additionally, pursuant to 16 CCR section 1104(b)(5), continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in Title 16, Division 11, Article 3 of the CCR. As Cabrillo is operating outside the structured parameters of California law and CODA Standards with these violations, Cabrillo is therefore putting students, faculty, and the public at risk.

If the above violations are not corrected by **May 20, 2024,** this matter will be brought before the Board and Education Committee for further action at the Board's meeting on July 20, 2024.

The priority of the DHBC is consumer protection. To ensure consumer protection and the public's right to receive quality dental hygiene care, the DHBC has a responsibility to ensure that all dental hygiene programs within the state meet the same educational standards in preparing their graduates for the profession. If you have any questions regarding this report, please feel free to contact me at adina.petty@dca.ca.gov.

Sincerely,

José A. Gómez, Ph.D.
President
Pasadena City College
1570 E. Colorado Blvd., W204
Pasadena, CA 91106

Dear Dr. Gómez,

The Dental Hygiene Board of California (DHBC) conducted a site visit at the Pasadena City College Dental Hygiene Educational Program (PCC) on January 28, 2026. This site visit was generated due to the submission of PCC's Commission on Dental Accreditation (CODA) Self Study as well as to the Board's oversite goals to review all Dental Hygiene Educational Programs (DHEPs) in California. Evidence of program compliance with the ***minimum*** DHEP standards set by the Business and Professions Code (BPC), the California Code of Regulations (CCR), and CODA was deficient.

The results of the review of the CODA Self Study and the site visit are as follows:

I. Violation 1: Facilities.
[BPC Section 1941(a), 16 CCR Section 1105(i), and CODA Standards 2-5, 4-1, and 4-2.]

A. ***Issue:* Clinical and Radiology Facilities.**

1. CODA Self Study:

a. Page 157:
"However, a considerable area of concern for program director and DH faculty is the current state of the clinical facilities. The clinic has been in the same location for over 50 years, and only minor renovations have been done. The clinic needs a major upgrade, and it is the faculty's concern that this decreases the competitive nature of the program when applicants are considering which school to apply to. PCC's Educational Master Plan has planned a renovation of the R(Robinson) Building starting in 2028, however, even the planned renovations that were to start in 2023 have not been initiated.

b. Page 162:
"The clinical, laboratory, and radiology facilities on campus have been used for over 50 years mostly unchanged and have been adequate for the class size of 16 students per class. New equipment and technology have been added throughout the years, with minor remodeling and painting of the walls using the existing space."

c. Page 162:
"The original clinic location was a retrofit of a classroom in the early 1970's with little thought given to space and ergonomics, workflow, etc. The clinic successfully, albeit in cramped space, operated for about 50 years until the COVID Pandemic happened. Some modifications were made to separate the dental units for aerosol transmission management; however, all the measures are temporary solutions."

d. Page 162:
"In October of 2022, Dental Hygiene Board of California (DHBC) conducted a site visit and deemed the DH clinic non-compliant. The DHBC has granted temporary permission to the clinic to operate at 50 % capacity with the agreement that the school will provide a new, compliant space to the DH clinic. The DHBC found PCC Administration's response to correct the deficiency unacceptable due to the extended period of time that the clinic had to continue operating in its current condition. The renovation of the R (Robinson) building where the DH Clinic is located, was planned in 2028 according to the PCC's Facilities and Construction Master Plan. This has threatened the future prospects of the program, especially as the DHBC has put the Program on probation with reporting duty on the progress from school on a quarterly basis."

2. DHBC Site Visit:

a. Student and faculty reports of many clinical and radiology resources in disrepair (broken chairs including none or reduced water supply, none or reduced suction supply, none or reduced air supply, no lights, reduced radiology facility usage during evening clinics), thereby limiting use of already reduced clinical facility resources.

b. Current program facilities are scheduled for renovation of the existing clinic in the summer of 2026.

3. ***Effect:*** PCC continues to fail to provide adequate clinical and radiology facilities to support student progression and preparation, thereby hindering effective student learning and student success to become a dental hygienist.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

3. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

4. CODA Standard 4-1:

   The program must provide sufficient and appropriately maintained facilities to support the academic and clinical purposes of the program that conform to applicable regulations.

5. CODA Standard 4-2:

   Radiography facilities must be sufficient for student practice and the development of clinical competence. The radiography facilities must contain the following: a) an appropriate number of radiography exposure rooms which include: equipment for acquiring radiographic images; teaching manikin(s); and conveniently located areas for hand hygiene; b) equipment for processing radiographic images; c) equipment allowing display of radiographic images; d) documentation of compliance with applicable local, state and federal regulations. Regardless of the number of machines provided, it must be demonstrated that time is available for all students to obtain required experience with faculty supervision and that acceptable faculty teaching loads are maintained.

C. **Determination:**

1. **Not in compliance.**

2. PCC is in violation of BPC Section 1941(a), 16 CCR Section 1105(i), and CODA Standards 2-5, 4-1 and 4-2.

3. PCC shall provide evidence of adequate clinical and radiology facilities pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), and CODA Standards 2-5. 4-1, and 4-2 **by February 27, 2026.**

II. Violation 2: Health Insurance Portability and Accountability Act of 1996 (HIPAA) Compliance.

[BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c).]

A. ***Issue:*** **Patient Privacy Rights Violation.**

1. DHBC Site Visit:

   a. Students have confidential patient data and radiographs ("x-rays") displayed on computer monitors without physical safeguards.

   b. ***Effect:*** Patient confidential data able to be viewed by the public, thereby violating patient privacy rights.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105.2(d)(3)(C):

   An educational program shall comply with local, state, and federal health and safety laws and regulations.

3. CODA Standard 4-1:

   The program must provide sufficient and appropriately maintained facilities to support the academic and clinical purposes of the program that conform to applicable regulations. Clinical Facilities: The dental hygiene facilities must include the following: h) patient records kept in an area assuring safety and confidentiality.

4. CODA Standard 6-5:

   The program's policies must ensure that the confidentiality of information pertaining to the health status of each individual patient is strictly maintained.

5. Health and Safety Code (HSC) Division 109 Section 130203 (a):

   Every provider of health care shall establish and implement appropriate administrative, technical, and physical safeguards to protect the privacy of a patient's medical information. Every provider of health care shall reasonably safeguard confidential medical information from any unauthorized access or unlawful access, use, or disclosure.

6. HIPAA Act of 1996 Public Law 104-191
   45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c)

C. **Determination:**

1. **Not in compliance.**

2. PCC is in violation of BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c).]

3. PCC shall implement and provide evidence of patient privacy protection safeguards pursuant to BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c)] by **February 13, 2026.**

III. Violation 3: Program Faculty Qualifications.

[BPC Section 1941(a), 16 CCR Section 1105.1(b),16 CCR Section 1105.1(c), and CODA Standard 3-6.]

A. ***Issue:*** **Program Faculty Qualifications.**

1. DHBC Site Visit:

   a. Several faculty members do not meet all DHBC requirements for faculty in a DHEP.

   b. ***Effect:*** Use of faculty who do not meet DHBC requirements compromises the education of students by qualified instructors.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105.1(b):

   "Program faculty" means an individual having a full-time or part-time agreement with the institution to instruct one or more of the courses in the educational program's curriculum. The individual shall hold a baccalaureate degree or higher from a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation and possess the following: an active California dental or dental hygiene license or special permit with no disciplinary actions; or a postsecondary credential generally recognized in the field of instruction; or a degree in the subject being taught or evaluated. All program faculty shall have documented background in educational methodology every two years, consistent with teaching assignments. (1) Clinical teaching faculty shall have direct patient care experience within the previous five (5) years in the dental hygiene area to which he or she is assigned, which can be met by either: two (2) years' experience providing direct patient care as a registered dental hygienist or dentist; or one (1) academic year of dental or dental hygienist level clinical teaching experience. (2) Didactic teaching faculty shall possess the following minimum qualifications: Current knowledge of the specific subjects taught, which can be met by either: having completed twelve

(12) hours of continuing education in the designated subject area; or two (2) semester units or three (3) quarter units of dental hygiene education related to the designated dental hygiene area; or have national certification in the designated dental hygiene area.

3. 16 CCR Section 1105.1(c):

   Faculty Responsibilities. (1) Each faculty member shall assume responsibility and accountability for instruction, evaluation of students, and planning and implementing curriculum content as required by the educational program. (2) Each faculty member shall participate in an orientation prior to teaching, including, but not limited to, the educational program's curriculum, policies and procedures, strategies for teaching, and student supervision and evaluation. (3) Each faculty member shall be competent in the area in which he or she teaches.

4. CODA Standard 3-6:

   All faculty of a dental hygiene program who teach in a didactic course must possess a baccalaureate or higher degree. All faculty whose teaching is limited to a clinical and dental science laboratory course must possess an associate or higher degree. All dental hygiene program faculty members must have: a) current knowledge of the specific subjects they are teaching. b) documented background in current educational methodology concepts consistent with teaching assignments. c) faculty who are dental hygienists or dentists must be graduates of programs accredited by the Commission on Dental Accreditation. A dentist who was appointed as a faculty prior to July 1, 2022 is exempt from the graduation requirement. d) evidence of faculty calibration for clinical evaluation.

C. **Determination:**

1. **Not in compliance.**

2. PCC is in violation of BPC Section 1941(a), 16 CCR Section 1105.1(b),16 CCR Section 1105.1(c), and CODA Standard 3-6.

3. PCC shall provide and provide evidence of qualified program faculty pursuant to BPC Section 1941(a), 16 CCR Section 1105.1(b),16 CCR Section 1105.1(c), and CODA Standard 3-6 by **February 13, 2026.**

PCC shall provide evidence of compliance to the above violations **by the aforementioned dates.**

IV. Concern 1: Program Director Assignment.

[BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR 1105(k), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.]

A. **Issue: Program Director Assigned Hours.**

1. CODA Self Study:

   a. Page 93:

      1. "Release time during the summer and winter sessions is not guaranteed and needs to be approved by the administrator that oversees curriculum and instruction."

      2. "The program administrator position is a 75% re-assigned position and becomes available every 2 years. The interested individuals must be a full-time dental hygiene faculty and must complete a letter of interest to get a new contract for 2 years. For the other 25% the program administrator must have teaching assignment to fulfill faculty contract load of 18 student contact hours /week (4.5 hours). As per faculty contract, each faculty can have up to 50% overload if they choose to.

2. CODA determination on November 26, 2024:

   a. "The visiting committee noted that the program administrator has extensive teaching overload hours, and the program is minimally meeting the Standards related to program administration. Therefore, it is suggested that the program administrator be limited in their teaching contact hours to allow for better allocation of program administrator job duties."

3. DHBC Site Visit:

   a. Program director has maintained an assignment schedule with up to a 30% overload assignment due to loss of a full-time faculty member. This has resulted in the program director maintaining a 60-hour work week to accommodate her mandated administrative responsibilities.

   b. Documentation required for DHBC review delegated to PCC staff (as a part of their job description for maintenance of those records) found disorganized, thereby necessitating the program director to organize at the last minute.

4. ***Concern:*** As the Program Director is overloaded with teaching responsibilities, the DHBC is concerned with the program director's

bandwidth to support the supervision, goals, and administrative objectives of the dental hygiene program.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(j):

   The educational program director shall have the primary responsibility for developing policies and procedures, planning, organizing, implementing and evaluating all aspects of the program.

3. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

4. 16 CCR Section 1105.1(a):

   "Program Director" or "Interim Program Director" means a registered dental hygienist or dentist who has the authority and responsibility to administer the educational program in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article. The educational program may have an Interim Program Director for a maximum of twelve (12) months. The director shall have a full-time appointment as defined by the institution, whose primary responsibility is for the operation, supervision, evaluation and revision of the program. The program director shall meet the following minimum qualifications:
   (1) Possess an active, current dental or dental hygiene license issued by the Dental Hygiene Board or the Dental Board of California (DBC), with no disciplinary actions; (2) Possess a master's or higher degree from a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation; (3) Documentation of two (2) years' experience teaching in pre- or post-licensure registered dental hygiene or dental programs. This requirement may be waived for an Interim Program Director; and
   (4) Documentation of a minimum of 2,000 hours in direct patient care as a registered dental hygienist or working with a registered dental hygienist.

5. CODA Standard 3-2:

   The dental hygiene program administrator must have a full-time appointment as defined by the institution, whose primary responsibility is for operation, supervision, evaluation and revision of the program.

6. CODA Standard 3-4:

   The program administrator must have the authority and responsibility necessary to fulfill program goals including: a) curriculum development, evaluation and revision; b) faculty recruitment, assignments and supervision; c) input into faculty evaluation; d) initiation of program or department in-service and faculty development; e) assessing, planning and operating program facilities; f) input into budget preparation and fiscal administration; g) coordination, evaluation and participation in determining admission criteria and procedures as well as student promotion and retention criteria.

C. **Recommendation:**

1. The DHBC recommends for PCC to hire additional faculty to allow the program director to focus on their primary responsibility to fulfill program goals.

V. Concern 2: Program Effectiveness.

[BPC Section 1941(a), 16 CCR Section 1105(e), and CODA Standard 1-1.]

A. **Issue: Student Attrition Rate.**

1. CODA Self Study:

   a. Sixteen (16) students were accepted in the Fall of 2019, but only 11 students graduated from the program."

   b. Sixteen (16) students were accepted in the Fall of 2021, but only thirteen (13) graduated.

2. DHBC Site Visit:

   a. Sixteen (16) students were accepted in the Fall of 2025. Currently, only twelve (12) students remain.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(e):

   The educational program shall have a written plan for evaluation of all aspects of the program, including admission and selection policy and procedures, attrition and retention of students, curriculum management, patient care competencies, ethics and professionalism, critical thinking, and outcomes assessment, including means of student achievement. If the program has submitted a written plan to the Commission on Dental Accreditation, which includes each of the elements listed above, a copy of such plan may be submitted to the Committee to meet this requirement.

3. CODA Standard 1-1:

   The program must demonstrate its effectiveness using a formal and ongoing planning and assessment process that is systematically documented by: a) developing a plan addressing teaching, patient care, research and service; b) an ongoing plan consistent with the goals of the sponsoring institution and the goals of the dental hygiene program; c) implementing the plan to measure program outcomes in an ongoing and systematic process; d) assessing and analyzing the outcomes, including measures of student achievement; e) use of the outcomes assessment results for annual program improvement and reevaluation of program goals.

C. **Recommendation:**

1. The DHBC recommends for PCC to consider adding a prerequisite dental hygiene preparation course to introduce prospective students to the requirements of the dental hygiene program and dental hygiene profession.

VI. Concern 3: Student Support.

[BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standard 2-5.]

A. **Issue:** Historical and current data indicate students are failing to complete all requirements in the assigned semester, thereby necessitating the students to carry over incomplete requirements into optional Winter and Summer intersessions.

1. CODA Self Study:

   a. DH Department Meeting Minutes ("Exhibits" page 259) "Clinic Requirements: Senior students are behind in clinical requirements. They are in need of tutoring and guidance."

2. DHBC Site Visit:

   a. Part time faculty are allowed eight (8) "office hours" per semester where many of those faculty members provide tutoring. Faculty and students contend those hours are helpful but not enough.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

3. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

4. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

C. **Recommendation:**

1. PCC to consider increase of faculty tutoring availability to decrease the number of incomplete requirements carried over into optional Winter and Summer intersessions.

Pursuant to 16 CCR section 1104(b)(5), continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in Title 16, Division 11, Article 3 of the CCR. As PCC is operating outside the structured parameters of California law and CODA Standards with these violations, PCC is therefore putting students, faculty, and the public at risk. ***Please note:*** 16 CCR section 1104(e) states: "A material misrepresentation of fact by a new educational program or an approved educational program in any information required to be submitted to the Dental Hygiene Board is grounds for denial of approval or revocation of the program's approval."

The priority of the DHBC is consumer protection. To ensure consumer protection and the public's right to receive quality dental hygiene care, the DHBC has a responsibility to ensure that all dental hygiene programs within the state meet the same educational standards in preparing their graduates for the profession. If you have any questions regarding this report, please feel free to contact me at adina.petty@dca.ca.gov.

Sincerely,

Adina A. Pineschi-Petty DDS

February 25, 2026

José A. Gómez, Ph.D.
President
Pasadena City College
1570 E. Colorado Blvd., W204
Pasadena, CA 91106

Dear Dr. Gómez,

The Dental Hygiene Board of California (DHBC, Board) conducted a site visit at the Pasadena City College Dental Hygiene Educational Program (PCC) on January 28, 2026. This site visit was generated due to the submission of PCC's Commission on Dental Accreditation (CODA) Self Study as well as to the Board's oversite goals to review all Dental Hygiene Educational Programs (DHEPs) in California. Evidence of program compliance with the ***minimum*** DHEP standards set by the Business and Professions Code (BPC), the California Code of Regulations (CCR), and CODA was deficient. On February 13, 2026, and February 23, 2026, PCC provided responses to the violations discovered by the Board.

The results of the reviews are as follows:

I. Violation 1: Facilities.
[BPC Section 1941(a), 16 CCR Section 1105(i), and CODA Standards 2-5, 4-1, and 4-2.]

A. ***Issue:*** **Clinical and Radiology Facilities.**

1. CODA Self Study:

a. Page 157:
"However, a considerable area of concern for program director and DH faculty is the current state of the clinical facilities. The clinic has been in the same location for over 50 years, and only minor renovations have been done. The clinic needs a major upgrade, and it is the faculty's concern that this decreases the competitive nature of the program when applicants are considering which school to apply to. PCC's Educational Master Plan has planned a renovation of the R(Robinson) Building starting in 2028, however, even the planned renovations that were to start in 2023 have not been initiated.

b. Page 162:
"The clinical, laboratory, and radiology facilities on campus have been used for over 50 years mostly unchanged and have been adequate for the class size of 16 students per class. New equipment and technology have been added throughout the years, with minor remodeling and painting of the walls using the existing space."

c. Page 162:
"The original clinic location was a retrofit of a classroom in the early 1970's with little thought given to space and ergonomics, workflow, etc. The clinic successfully, albeit in cramped space, operated for about 50 years until the COVID Pandemic happened. Some modifications were made to separate the dental units for aerosol transmission management; however, all the measures are temporary solutions."

d. Page 162:
"In October of 2022, Dental Hygiene Board of California (DHBC) conducted a site visit and deemed the DH clinic non-compliant. The DHBC has granted temporary permission to the clinic to operate at 50 % capacity with the agreement that the school will provide a new, compliant space to the DH clinic. The DHBC found PCC Administration's response to correct the deficiency unacceptable due to the extended period of time that the clinic had to continue operating in its current condition. The renovation of the R (Robinson) building where the DH Clinic is located, was planned in 2028 according to the PCC's Facilities and Construction Master Plan. This has threatened the future prospects of the program, especially as the DHBC has put the Program on probation with reporting duty on the progress from school on a quarterly basis."

2. DHBC Site Visit:

a. Student and faculty reports of many clinical and radiology resources in disrepair (broken chairs including none or reduced water supply, none or reduced suction supply, none or reduced air supply, no lights, reduced radiology facility usage during evening clinics), thereby limiting use of already reduced clinical facility resources.

b. Current program facilities are scheduled for renovation of the existing clinic in the summer of 2026.

3. ***Effect:*** PCC continues to fail to provide adequate clinical and radiology facilities to support student progression and preparation, thereby hindering effective student learning and student success to become a dental hygienist.

B. **PCC response on February 23, 2026:**

1. Regarding the immediate address of facilities, PCC states:

   "We had a technician visit on February 2, 2026, and he has repaired all units. All the highspeed evacuations are functional on all chairs. Both x-ray operatories are functional as well. The arm being "loose" (operatory #1, the picture on R) was not a matter of the malfunctioning, but some of the students not positioning the patient's chair height and the long arm correctly. Regardless, the technician tightened the arm as well."

2. PCC's intermediate plans to address facilities PCC states:

   "As reported to the DHBC previously, the remodeling of the DH clinic scheduled to start on June 6th, 2026. PCC's facilities and construction offices of the Business Administrative Services, in cooperation with the Health Sciences Division and the DH Program has phased the remodeling, prioritizing addressing the deficiency of adequate clinical and radiology facilities.

   Phase 1 will start on June 6th, 2026 and be completed by August 24th, 2026. It will include the designated operatories to house three radiographic machines, 2 of which will be shared between the 2 operatories, one as a stand-alone operatory, and one operatory that will contain a specialized panographic unit that allows exposure not only of cephalographic, but periapical images as well. In addition, the program has a portable radiographic unit that can be used at specific designated operatories.

   Phase 1 will also include the completion of the sterilization area to be contained in enclosed room, to prevent consumers from being exposed to the contaminated areas when entering the clinic.
   In the current clinic, 7 of 15 currently existing dental units will be removed and the rest arranged to allow minimum of 6 feet clearance between patients, when in a reclined position, to ensure patient safety and stay HIPAA compliant.

   Phase 2 will start June 5, 2027 and will be completed by August 30, 2027 and will involve completion of cabinets, additional x-ray unit, patient reception and waiting areas, dental support personnel work areas.

   Currently, during AM (8:30-12:05PM) and PM (1:00PM-4:20PM) clinic sessions, there are 8 patients scheduled per session. There are 2 x-ray operatories and a panographic unit for student use during this time.

During evening (5:45pm-9:05PM) clinic sessions, patients requiring radiographs are scheduled in 3 operatories that are in the Dental Assisting side. Each has a unit, and one panographic unit is available on the DA side as well. On main clinic there is one x-ray operatory and one panographic unit, along with a portable unit, providing sufficient units to support any radiographic needs that students have.

The completion of the Phase 1 of the clinic remodeling will increase the number to and additional 2 units available by the start of the Fall 2026 semester."

C. **Determination:**

1. **In temporary compliance.**

2. PCC shall continue to provide adequate clinical and radiology facilities pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), and CODA Standards 2-5. 4-1, and 4-2.

II. Violation 2: Health Insurance Portability and Accountability Act of 1996 (HIPAA) Compliance.

[BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c).]

A. ***Issue:*** **Patient Privacy Rights Violation.**

1. DHBC Site Visit:

   a. Students have confidential patient data and radiographs ("x-rays") displayed on computer monitors without physical safeguards.

   b. ***Effect:*** Patient confidential data able to be viewed by the public, thereby violating patient privacy rights.

B. **PCC response on February 13, 2026:**

1. PCC states:

   "Violation 2: All privacy screens have been replaced on monitors in clinic (See Attachment Privacy Screens)."

2. PCC provided pictures of attached privacy screens.

C. **Determination:**

1. **In compliance.**

2. PCC shall maintain patient privacy protection safeguards pursuant to BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c)].

III. Violation 3: Program Faculty Qualifications.

[BPC Section 1941(a), 16 CCR Section 1105.1(b),16 CCR Section 1105.1(c), and CODA Standard 3-6.]

A. ***Issue:* Program Faculty Qualifications.**

1. DHBC Site Visit:

   a. Several faculty members do not meet all DHBC requirements for faculty in a DHEP.

   b. ***Effect:*** Use of faculty who do not meet DHBC requirements compromises the education of students by qualified instructors.

B. **PCC response on February 13, 2026:**

1. PCC states:

   "Violation 3: The corrections to the highlighted missing faculty qualifications information is included in the attachment Faculty Qualification Documents. All Biosketches have been signed by faculty and PD. Timothy Wong, DDS, does not need Educational Methodology CE as he is a Supervising DDS, non-instructional faculty."

2. PCC provided documentation of outstanding requirements.

C. **Determination:**

1. **In compliance.**

2. PCC shall maintain evidence of qualified program faculty pursuant to BPC Section 1941(a), 16 CCR Section 1105.1(b),16 CCR Section 1105.1(c), and CODA Standard 3-6.

The following are of continued concern for the Board:

IV. Concern 1: Program Director Assignment.

[BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR 1105(k), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.]

A. **Issue: Program Director Assigned Hours.**

1. CODA Self Study:

   a. Page 93:

      1. "Release time during the summer and winter sessions is not guaranteed and needs to be approved by the administrator that oversees curriculum and instruction."

      2. "The program administrator position is a 75% re-assigned position and becomes available every 2 years. The interested individuals must be a full-time dental hygiene faculty and must complete a letter of interest to get a new contract for 2 years. For the other 25% the program administrator must have teaching assignment to fulfill faculty contract load of 18 student contact hours /week (4.5 hours). As per faculty contract, each faculty can have up to 50% overload if they choose to.

2. CODA determination on November 26, 2024:

   a. "The visiting committee noted that the program administrator has extensive teaching overload hours, and the program is minimally meeting the Standards related to program administration. Therefore, it is suggested that the program administrator be limited in their teaching contact hours to allow for better allocation of program administrator job duties."

3. DHBC Site Visit:

   a. Program director has maintained an assignment schedule with up to a 30% overload assignment due to loss of a full-time faculty member. This has resulted in the program director maintaining a 60-hour work week to accommodate her mandated administrative responsibilities.

   b. Documentation required for DHBC review delegated to PCC staff (as a part of their job description for maintenance of those records) found disorganized, thereby necessitating the program director to organize at the last minute.

4. ***Concern:*** As the Program Director is overloaded with teaching responsibilities, the DHBC is concerned with the program director's bandwidth to support the supervision, goals, and administrative objectives of the dental hygiene program.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(j):

   The educational program director shall have the primary responsibility for developing policies and procedures, planning, organizing, implementing and evaluating all aspects of the program.

3. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

4. 16 CCR Section 1105.1(a):

   "Program Director" or "Interim Program Director" means a registered dental hygienist or dentist who has the authority and responsibility to administer the educational program in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article. The educational program may have an Interim Program Director for a maximum of twelve (12) months. The director shall have a full-time appointment as defined by the institution, whose primary responsibility is for the operation, supervision, evaluation and revision of the program. The program director shall meet the following minimum qualifications:
   (1) Possess an active, current dental or dental hygiene license issued by the Dental Hygiene Board or the Dental Board of California (DBC), with no disciplinary actions; (2) Possess a master's or higher degree from a college or university accredited by an agency recognized by the U.S. Department of Education or Council for Higher Education Accreditation; (3) Documentation of two (2) years' experience teaching in pre- or post-licensure registered dental hygiene or dental programs. This requirement may be waived for an Interim Program Director; and

(4) Documentation of a minimum of 2,000 hours in direct patient care as a registered dental hygienist or working with a registered dental hygienist.

5. CODA Standard 3-2:

   The dental hygiene program administrator must have a full-time appointment as defined by the institution, whose primary responsibility is for operation, supervision, evaluation and revision of the program.

6. CODA Standard 3-4:

   The program administrator must have the authority and responsibility necessary to fulfill program goals including: a) curriculum development, evaluation and revision; b) faculty recruitment, assignments and supervision; c) input into faculty evaluation; d) initiation of program or department in-service and faculty development; e) assessing, planning and operating program facilities; f) input into budget preparation and fiscal administration; g) coordination, evaluation and participation in determining admission criteria and procedures as well as student promotion and retention criteria.

C. **Recommendation:**

1. The DHBC recommends for PCC to hire additional faculty to allow the program director to focus on their primary responsibility to fulfill program goals.

V. Concern 2: Program Effectiveness.

[BPC Section 1941(a), 16 CCR Section 1105(e), and CODA Standard 1-1.]

A. **Issue: Student Attrition Rate.**

1. CODA Self Study:

   a. Sixteen (16) students were accepted in the Fall of 2019, but only 11 students graduated from the program."

   b. Sixteen (16) students were accepted in the Fall of 2021, but only thirteen (13) graduated.

2. DHBC Site Visit:

   a. Sixteen (16) students were accepted in the Fall of 2025. Currently, only twelve (12) students remain.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(e):

   The educational program shall have a written plan for evaluation of all aspects of the program, including admission and selection policy and procedures, attrition and retention of students, curriculum management, patient care competencies, ethics and professionalism, critical thinking, and outcomes assessment, including means of student achievement. If the program has submitted a written plan to the Commission on Dental Accreditation, which includes each of the elements listed above, a copy of such plan may be submitted to the Committee to meet this requirement.

3. CODA Standard 1-1:

   The program must demonstrate its effectiveness using a formal and ongoing planning and assessment process that is systematically documented by: a) developing a plan addressing teaching, patient care, research and service; b) an ongoing plan consistent with the goals of the sponsoring institution and the goals of the dental hygiene program; c) implementing the plan to measure program outcomes in an ongoing and systematic process; d) assessing and analyzing the outcomes, including measures of student achievement; e) use of the outcomes assessment results for annual program improvement and reevaluation of program goals.

C. **Recommendation:**

1. The DHBC recommends for PCC to consider adding a prerequisite dental hygiene preparation course to introduce prospective students to the requirements of the dental hygiene program and dental hygiene profession.

VI. Concern 3: Student Support.

[BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standard 2-5.]

A. **Issue:** Historical and current data indicate students are failing to complete all requirements in the assigned semester, thereby necessitating the students to carry over incomplete requirements into optional Winter and Summer intersessions.

1. CODA Self Study:

   a. DH Department Meeting Minutes ("Exhibits" page 259) "Clinic Requirements: Senior students are behind in clinical requirements. They are in need of tutoring and guidance."

2. DHBC Site Visit:

   a. Part time faculty are allowed eight (8) "office hours" per semester where many of those faculty members provide tutoring. Faculty and students contend those hours are helpful but not enough.

B. **Refer to:**

1. BPC Section 1941(a):

   The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, as determined by the dental hygiene board.

2. 16 CCR Section 1105(i):

   The educational program shall have learning resources, including faculty, library, staff and support services, technology and physical space and equipment, including laboratory and clinical facilities, to support the program's stated mission and goals and in accordance with approved accreditation standards referenced in subsection (c) of section 1103 of this article.

3. 16 CCR Section 1105(k):

   The number and distribution of faculty and staff shall be sufficient to meet the educational program's stated mission and goals.

4. CODA Standard 2-5:

   The number of students enrolled in the program must be proportionate to the resources available.

C. **Recommendation:**

1. PCC to consider increase of faculty tutoring availability to decrease the number of incomplete requirements carried over into optional Winter and Summer intersessions.

Pursuant to 16 CCR section 1104(b)(5), continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in Title 16, Division 11, Article 3 of the CCR. ***Please note:*** 16 CCR section 1104(e) states: "A material misrepresentation of fact by a new educational program or an approved educational program in any information required to be submitted to the Dental Hygiene Board is grounds for denial of approval or revocation of the program's approval."

The priority of the DHBC is consumer protection. To ensure consumer protection and the public's right to receive quality dental hygiene care, the DHBC has a responsibility to ensure that all dental hygiene programs within the state meet the same educational standards in preparing their graduates for the profession. If you have any questions regarding this report, please feel free to contact me at adina.petty@dca.ca.gov.

Sincerely,

November 24, 2025

Mr. Anthony Lum
Executive Officer, DHBC

Dear Mr. Lum.

Please accept our quarterly report on updates regarding PCC Dental Hygiene Program clinic renovation.

There have been no significant changes from last quarterly report submitted on August 8, 2025.

The current plan is to complete the renovations of the Pasadena City College Dental Hygiene Clinic during the conclusion of the **Spring 2026** term (June 5, 2026) with the renovated clinic being available for occupancy in **Fall 2026** (August 24, 2026). Until that time the program will continue to use the existing clinic space, with the temporary modifications approved by the Dental Hygiene Board of California. The Program also will utilize the previously submitted Temporary Change of Course Sequence for Spring and Summer semesters of 2026.

Please let me know if any additional information is necessary.

Sincerely,

Adrine Reganian

February 23, 2026

Adina Pineschi-Petty, DDS
Education, legislative and regulatory Specialist
DHBC

Dear Dr. Pineschi-Petty.

Please accept this document being submitted as evidence of actions implemented by PCC DH Program to the recommended **Violation 1: Clinical and Radiology Facilities** as outlined in the DHBC Site Visit report (January 30, 2026) as well as the required Quarterly Report that is due by March 2026.

I. Violation 1: Facilities

As reported to the DHBC previously, the remodeling of the DH clinic scheduled to start on June 6th, 2026. PCC's facilities and construction offices of the Business Administrative Services, in cooperation with the Health Sciences Division and the DH Program has phased the remodeling, prioritizing addressing the deficiency of adequate clinical and radiology facilities.

Phase 1 will start on June 6th, 2026 and be completed by August 24th, 2026. It will include the designated operatories to house three radiographic machines, 2 of which will be shared between the 2 operatories, one as a stand-alone operatory, and one operatory that will contain a specialized panographic unit that allows exposure not only of cephalographic, but periapical images as well. In addition, the program has a portable radiographic unit that can be used at specific designated operatories.

Phase 1 will also include the completion of the sterilization area to be contained in enclosed room, to prevent consumers from being exposed to the contaminated areas when entering the clinic.

In the current clinic, 7 of 15 currently existing dental units will be removed and the rest arranged to allow minimum of 6 feet clearance between patients, when in a reclined position, to ensure patient safety and stay HIPAA compliant.

Phase 2 will start June 5, 2027 and will be completed by August 30, 2027 and will involve completion of cabinets, additional x-ray unit, patient reception and waiting areas, dental support personnel work areas.

Currently, during AM (8:30-12:05PM) and PM (1:00PM-4:20PM) clinic sessions, there are 8 patients scheduled per session. There are 2 x-ray operatories and a panographic unit for student use during this time.

During evening (5:45pm-9:05PM) clinic sessions, patients requiring radiographs are scheduled in 3 operatories that are in the Dental Assisting side. Each has a unit, and one panographic unit is available on the DA side as well. On main clinic there is one x-ray operatory and one panographic unit, along with a portable unit, providing sufficient units to support any radiographic needs that students have.

The completion of the Phase 1 of the clinic remodeling will increase the number to and additional 2 units available by the start of the Fall 2026 semester.

Please do not hesitate to reach out if any additional information is necessary.

Sincerely yours,

Adrine Reganian

RE: **Taft College Dental Hygiene Probation**

1. Handling Deficiencies (None to Report):
Taft College continues to operate in full compliance, with no deficiencies to report this quarter. Compliance continues to be maintained, supported by consistent monitoring and faculty engagement.

2. Ensuring Competency Requirements Are Met:
Taft College continues to prioritize student competency and clinical preparedness as core elements of the program. The use of the Ascend system for tracking clinical progress and competencies allows faculty to monitor student performance in real time and provide timely support when needed.

- **Second-Year Students:** A student from the previous class was cleared to complete remaining competencies and finished them this Fall. She was eligible to graduate in December. The class of 2026 finished their third semester. One of our students was dismissed from the program this semester due to incomplete clinical competencies. The faculty are monitoring performance closely, and remaining students are meeting benchmarks and competencies on schedule.
- **First-Year Students:** The incoming class began with 20 students, and all 20 remain in the program and are doing well. Ongoing faculty support and feedback have played an important role in helping them succeed. We look forward to this spring semester as they start patient care.

3. Reporting to the Dental Hygiene Board of California (DHBC):
An MOU with a local clinic has been finalized to establish a minor rotation site for fourth semester students. Formal notification has been provided to DHBC and CODA.

4. Concerns or Challenges in Maintaining Compliance:
There are no compliance concerns at this time. Taft College continues to monitor its processes carefully, and faculty and administration stay alert to any areas that might need attention, addressing them before they become issues.

Sincerely,

Gina Johnson, RDH, MEd
Director, Dental Hygiene

Dr. Monica Chahal
President
Diablo Valley College
321 Golf Club Road
Pleasant Hill, CA 94523

Dear Dr. Chahal,

The Dental Hygiene Board of California (DHBC, Board) conducted a site visit at the Diablo Valley College Dental Hygiene Educational Program (DVC) on October 14, 2025. This site visit was generated due to the submission of DVC's Commission on Dental Accreditation (CODA) Self Study as well as to the Board's oversite goals to review all Dental Hygiene Educational Programs (DHEPs) in California. Evidence of program compliance with the ***minimum*** DHEP standards set by the Business and Professions Code (BPC), the California Code of Regulations (CCR), and CODA was deficient. On October 31, 2025, December 5, 2025, December 19, 2025, January 23, 2026, and February 25, 2026, DVC provided responses to the violations discovered by the Board.

The results of the reviews are as follows:

I. Violation 1: Student Clinical Direct Patient Care Hours
[BPC Section 1941(a), 16 CCR Section 1105.2(d), and CODA Standards 2-10 and 3-11.]

A. Violation 1, Issue 1: Senior Fall Student Clinical Direct Patient Care Hours

1. Self Study: Senior Fall Class Schedule

   a. Seniors scheduled for 14 hours per week [Exhibit 2-16 (page 220)]

      1. Morning Clinic is scheduled from 8:00am – 11:30am on Tuesdays and Thursdays.

      2. Afternoon Clinic is scheduled from 1:00pm – 4:30pm on Tuesdays and Thursdays.

      3. Rotation Schedule [Exhibit 2-27 (pages 264 – 265)].
         i. Requires one (1) student to be assigned a "Clinical Assistant" rotation in each session.

2. Site Visit:

    a. Schedule in practice:

        1. Morning Clinic is scheduled from 8:00am – 11:15am with direct patient care hours of 8:00am – 10:45am on Tuesdays and Thursdays, resulting in only two- and three-quarter (2.75) hours of direct patient care per session.

        2. Afternoon Clinic is scheduled from 1:00pm – 4:15pm with direct patient care hours of 1:00pm – 3:45pm on Tuesdays and Thursdays, resulting in only two- and three-quarter (2.75) hours of direct patient care hours per session.

    b. Reported Faculty Concerns:

        1. Decreased clinic time has led to decreased time allotted for "test cases" (patient treatment competency exams) from two (2) hours to one- and one-half (1.5) hours, thereby providing Inadequate time for faculty to ensure student competency.

3. Results:

    a. Total of only 11 hours of scheduled direct patient care hours per week.

    b. The "Clinical Assistant" rotation in each session results in further reduced direct patient care hours to only eight- and one-quarter (8.25) hours per week for those four (4) students.

4. ***Effect:*** Students are not receiving the appropriate amount of direct patient care hours to obtain competency in the practice of dental hygiene.

B. Violation 1, Issue 2: Senior Spring Student Clinical Direct Patient Care Hours

1. Self Study: Senior Spring Class Schedule

    a. Seniors scheduled for 16 hours per week [Exhibit 2-16 (page 222)]

        1. Morning Clinic is scheduled from 8:00am – 12:00am on Tuesdays and Thursdays.

        2. Afternoon Clinic is scheduled from 1:00pm – 5:00pm on Tuesdays and Thursdays.

        3. Rotation Schedule [Exhibit 2-27 (pages 262 – 263)]

i. Requires one student to be assigned a "Clinical Assistant" rotation in each session.

2. Site Visit:

   a. Schedule in practice:

      1. Morning Clinic is scheduled from 8:00am – 11:50am with direct patient care hours of 8:00am – 11:25am on Tuesdays and Thursdays, resulting in only three- and one-quarter (3.25) hours of direct patient care per session.

      2. Afternoon Clinic is scheduled from 1:00pm – 4:50pm with direct patient care hours of 1:00pm – 4:25pm on Tuesdays and Thursdays, resulting in only three- and one-quarter (3.25) hours of direct patient care hours per session.

   b. Reported Faculty Concerns:

      1. Decreased clinic time has led to decreased time allotted for "test cases" from two (2) hours to one- and one-half (1.5) hours, thereby providing Inadequate time for faculty to ensure student competency.

      2. Decreased clinic time has led to inadequate time to allow for students to provide dental hygiene treatment two patients at the of their Spring semester (historically allowed), thereby decreasing readiness to adapt to the rigors of patient treatment in post DHEP patient care settings.

3. Results:

   a. Total of only 13 hours of scheduled direct patient care hours per week.

   b. The "Clinical Assistant" rotation in each session results in further reduced direct patient care hours to only nine- and three-quarter (9.75) hours per week for those four (4) students.

4. ***Effect:*** Students are not receiving the appropriate amount of direct patient care hours to obtain competency in the practice of dental hygiene.

C. Violation 1, Issue 3: Junior Spring Student Clinical Direct Patient Care Hours

1. Self Study: Junior Spring Class Schedule

   a. Juniors scheduled for nine- and three-quarter (9.75) hours per week [Exhibit 2-16 (page 223)]

1. Morning Clinic is scheduled from 8:30am – 11:45am on Wednesdays and Fridays.

2. Afternoon Clinic is scheduled from 1:00pm – 4:15pm on Wednesdays.

3. Rotation Schedule [Exhibit 2-27 (pages 256 – 261)]

    i. Requires one student to be assigned a "Clinical Assistant" rotation in each session.

2. Site Visit:

    a. Schedule in practice:

        1. Morning Clinic is scheduled from 8:30am – 11:35am with direct patient care hours of 8:30am – 11:00am on *Wednesdays and Fridays*, resulting in only two- and three-quarter (2.75) hours of direct patient care per session.

        2. Afternoon Clinic is scheduled from 1:00pm – 4:00pm with direct patient care hours of 1:00pm – 3:30pm on *Wednesdays,* resulting in only two- and three-quarter (2.75) hours of direct patient care hours per session.

3. Results:

    a. Total of only eight- and one-quarter (8.25) hours of scheduled direct patient care hours per week.

    b. The "Clinical Assistant" rotation in each session results in further reduced direct patient care hours to only five- and one-half (5.5) hours per week for those three (3) students.

4. ***Effect:*** Students are not receiving the appropriate amount of direct patient care hours to obtain competency in the practice of dental hygiene.

D. DVC Response on October 31, 2025:

1. DVC states:

    "Title 5, Section 58023, defines a clock hour as a 50-minute class hour segment and a 10-minute passing or break period. In multiple-hour class scheduling, each 50 minutes of instruction (exclusive of breaks) is counted as a class/contact hour. The Diablo Valley College Dental Hygiene Program adheres to this regulation when scheduling all classes including those where clinical practice and direct patient care occurs. To address

Violation 1 Issues 1-3, patient care will continue in each clinic session till 15 minutes prior to the end of the scheduled class session. For example, during the site visit, the Fall senior student schedule was noted as 8am-10:45a and 1p-3:45p. With the 15-minute change in end time, the schedule will now be 8a-11a and 1p-4p. The same will apply to the other issues noted in the site visit report. The other issue noted to affect direct patient care hours was the Clinical Assistant rotation. The weekly clinical patient care hours listed in the table below accounts for the Clinic Assistant rotation every 4 weeks. The Clinic Assistant rotation in DENHY121B does not affect clinical practice time."

2. DVC States: "Clock hours for clinical classes are as follows":

Semester	Course	Total Clock Hours	Weekly Clock Hours	Weekly /Patient Care Hours
Fall 1st Year	DENHY121B	144	9	9
Spring 1st Year	DENHY122B	168	10.5	9.8
Fall 2nd Year	DENHY230B	224	14	13.3
Spring 2nd Year	DENHY231B	256	16	15.3

3. DVC States:

"CODA Standard 2-10 states:
Clinical experiences must be distributed throughout the curriculum. The number of hours of preclinical practice and direct patient care must ensure that students attain clinical competence and develop appropriate judgment.

Intent:
Sufficient practice time and learning experiences should be provided during preclinical and clinical courses to ensure that students attain clinical competence. The number of hours devoted to clinical practice time should increase as the students' progress toward the attainment of clinical competence.

The preclinical course should have at least six hours of clinical practice per week. As the first-year students begin providing dental hygiene services for patients, each student should be scheduled for at least eight to twelve hours of direct patient care per week. In the final prelicensure year of the curriculum, each student should be scheduled for at least twelve to sixteen hours of direct patient care per week in the dental hygiene clinic.

Page 11 of CODA Standards for Dental Hygiene Educational Programs provides the following definitions:

Must: Indicates an imperative need, duty or requirement; an essential or indispensable item; mandatory.

Should: Indicates a method to achieve the standard; highly desirable, but not mandatory.

The clinical practice and direct patient care hours referenced in the intent section of CODA Standard 2-10 and the substance of this violation are "should" statements which, while highly desirable, are not mandatory."

4. DVC States:

"Our Clinical Assistant rotation is minimal, occurring approximately once every 4-5 weeks per student, and is not used to replace clinical staff. The educational objectives of the rotation are to provide sterilization practice throughout the program, enhance students awareness and understanding of OSHA compliance, and support the development of teamwork in the dental clinic setting. This rotation directly supports the overarching mission of the Department of Consumer Affairs to protect the public from harm, by ensuring ongoing student competence in critical infection control procedures."

5. DVC States:

"The Diablo Valley College Dental Hygiene Program respectfully maintains that it remains in full compliance with:

- BPC §1941(a) – Instructional time is sufficient to ensure competency.
- 16 CCR §1105.2(d) – The curriculum provides the depth and breadth necessary for safe, effective dental hygiene practice.
- CODA Standards 2-10 and 3-11 – Clinical experiences are appropriately distributed, educational in nature, and not used to supplement staffing needs.
- All contact hours are calculated and reported accurately according to Title 5 §58023."

E. DHBC Review of Response on October 31, 2025:

1. Violation I, Clinical Direct Patient Care Hours

   a. 5 CCR section 58023 states *(emphasis added):*

   For purposes of this Article, ***the class hour unit for graded and ungraded classes is defined as not less than 50 consecutive minutes*** exclusive of passing time. ***In block scheduling of more than one class hour*** only one contact hour may be counted in each clock hour of 60 minutes, except that a fractional part of class hour beyond the last full clock hour may

be counted from and including the 51st minute of the last full clock hour ***providing there is no class break in the last full clock or the partial class hour.*** The divisor for this fractional part of a class hour shall be 50.

The Chancellor's Office may, by rule and regulation, make any and all other provisions necessary to carry out the provisions of this Article.

b. 5 CCR sections 58001, subdivisions (e) and (j) state *(emphasis added):*

(e) ***"Class hour",*** "contact hour" and "student contact hour (SCH)" for graded and ungraded classes ***means a period of at least 50 consecutive minutes of scheduled instruction and/or examination (excluding passing time)***. A class scheduled for less than a single 50-minute period is not eligible for apportionment.

(j) ***"Passing time"*** and "break" means the ten-minute segment that together with a class hour comprises a "clock hour," referred to as "passing time," "break," etc. No additional attendance may be claimed for this 10-minute segment, except as provided for a multiple hour class. ***The 10-minute break time permitted in each clock hour may not be accumulated during a multiple hour class to be taken at the end of the class*** and be counted for FTES apportionment.

c. "Permitted" as defined by Merriam Webster's (https://www.merriam-webster.com/dictionary/permitted) is "to consent to expressly or formally" or "authorize."

The "permitted" passing time is not defined as mandatory within the regulations but "authorized" to be given to the students by the college.

d. The Board acknowledges CODA defines "should" as "Indicates a method to achieve the standard; highly desirable, but not mandatory." However, the Board holds all DHEPs to the *minimal* amount of direct patient care hours as defined in CODA's intent.

BPC section 1941(a) states: The dental hygiene board shall grant or renew approval of only those educational programs for RDHs that continuously maintain a high-quality standard of instruction and, where appropriate, ***meet the minimum standards*** set by the Commission on Dental Accreditation of the American Dental Association or an equivalent body, *as determined by the dental hygiene board.*

2. Violation I, Clinical Assistant Hours:

a. The Board acknowledges DVC considers "clinical assistant" hours minimal and crucial to dental hygiene education. However, the Board

does not classify "clinical assistant" as part of required "direct patient care" hours.

F. DVC Response on December 19, 2025:

1. DVC states:

   "The requested Spring 2026 and Summer 2026 schedules are attached. The Fall 2026 schedule is not yet created but will be available by February 3, 2026. It will be very similar to that of Fall 2025. Rotation schedules are created by our clinic coordinators and are usually available a week or two prior to the beginning of the semester. We should be able to provide the Spring 2026 rotation schedules by January 23, 2026. "

   a. DVC provided Spring 2026 DH 1 & 2 Class Schedules and Summer 2026 DH 1& 2 Class Schedules.

2. DVC states:

   "It should also be noted that the schedule in question was submitted to the Board on 2-12-2020 as a Change in Curriculum. We received a response for Dr. Adina Petty stating, "The DHBC will review and will contact you if there are any questions or concerns". No contact was made addressing and questions or concerns. At that time, the change was also sent to CODA and the State Chancellor's Office and approved by both."

3. DVC states:

   "The change was made due to our college changing from an 18-week to a 16-week schedule. To account weeks lost, the college added approximately 15 minutes to each scheduled class hour. This resulted in our 4 hour clinic sessions extending to approximately 5 hours. We found that students were having difficulty completing requirements due to the loss of 18 direct patient care clinic sessions with the new scheduling pattern. We also found that the extra time given to each clinic session was being wasted and was not beneficial to our students. Therefore, our solution was the Change in Curriculum process. This allowed us to redistribute the clinical hours more evenly throughout our program's schedule which in turn allowed students to begin direct patient care earlier in their clinical education."

4. DVC states:

   "Numerous studies in motor skill learning and health professions education show that skill competence increases more effectively through distributed practice—shorter, more frequent practice sessions—rather than practice in longer, less frequent blocks. Meta-analyses by Donovan & Radosevich

(1999) and Cepeda et al. (2006) demonstrate that distributed practice leads to significantly higher skill acquisition and long-term retention. Because dental hygiene clinical skills rely heavily on fine motor control and repeated psychomotor calibration, increasing the frequency of practice opportunities leads to increased competence, decreased 2 errors, and better long-term retention than concentrating practice into fewer, longer sessions. Our current schedule is supported by research to contribute to student success and competency.

The current concern with direct patient care hours focused on faculty reporting insufficient time given to test cases. During our Faculty Meeting on December 15, this issue was discussed. Faculty shared that students were taking a long time to complete the health history and probing before the test case began, and some students didn't understand the process, even though it is provided in the syllabus and verbally reviewed on the first day of class. Outcomes of the discussion include:

- Extending the scaling portion of the test-case to 2 hours
- Specifying the amount a time students have for health history and probing to ensure adequate time for scaling (there is currently no specified time).
- Adding a typodont test case to DENHY122B to familiarize students with the test-case process.

We will also be extending the time patients are dismissed by 15 minutes in each clinic session which will result in an additional 45 minutes of direct patient care each week in DENHY122B and an additional hour each week in DENHY230B and DENHY231B."

5. DVC states:

"This violation concerns a CODA Standard, rather than legislation or statue adopted by the Board. We maintain that our program meets the CODA standards as documented in our response sent on October 31, 2025. No recommendations were issues during our October 2025 CODA site visit. We are respectfully requesting this issue be brought to the full Board at the next board meeting. We would like clarification from the Board on the ability of the Board to determine CODA Standards."

6. DVC states:

"In speaking with Nikki Moultrie, a member of the Dental Hygiene Commission of California who was involved in adopting these regulations, the statement in sections 1104 and 1941 "as determined by the dental hygiene board" was not intended to authorize the Board to determine whether a Dental Hygiene program meets CODA accreditation standards, but to authorize the board to determine if another accrediting body is

equivalent to CODA. Section 1104 (b) clarifies this in the last statement by stating" In the event that an equivalent body has not been established by the Dental Hygiene Board, the standards shall be set by CODA". When the section is read in context, further clarification of the intent is evident."

G. DHBC Review of Response on December 19, 2025:

1. Regarding "point one" above, the DHBC acknowledges receipt of Spring 2026 DH I & II Class Schedules and Summer 2026 DH I & II Class Schedules.

2. Regarding "point two" above, the DHBC acknowledges receipt of the hours change submitted on February 12, 2020. However, the *schedule in practice* was not observed at that time and the time discrepancies were discovered during the DHBC's visit on October 14, 2025.

   Please note: DVC failed to initially notify the Board that DVC changed the educational length of the DHEP from eighteen (18) weeks to sixteen (16) weeks as noted in the March 16, 2019, DVC site visit report. Additionally, DVC did not seek approval from the Board for the change, and therefore was in violation of 16 CCR section 1105.3(b)(3) which states:

   "(b) An approved dental hygiene program shall not make a substantive change without prior Dental Hygiene Board approval. These changes include:

   > *(3) Any changes that require a report to the Commission on Dental Accreditation or equivalent accrediting body shall require approval from the Dental Hygiene Board."*

   On April 10, 2019, DVC provided an ex post facto notification to CODA of the change in the educational length of the DHEP from eighteen (18) weeks to sixteen (16) weeks after discovery by the DHBC.

3. Regarding "point three" above, DVC states they added 15 minutes to each class hour, extending the 4-hour clinic sessions to approximately five (5) hours. However, DVC stated, "the extra time given to each clinic session was being wasted and was not beneficial to our students" and determined to "redistribute the clinical hours more evenly throughout our program's schedule which in turn allowed students to begin direct patient care earlier in their clinical education."

   a. The schedule provided on February 12, 2020, stated:

Diablo Valley College Dental Hygiene Program Clinical Hours	Previous			Proposed		
	Sessions per Week	Hours Per Week	Total Student Hours	Sessions Per Week	Hours Per Week	Total Student Hours
DENHY 127 Infection Control Lab	0	0	0	4 (4-week	3	48

				Summer Course)		
DENHY 121 Introduction to Clinical Dental Hygiene	2	6.75	108	3	9	144
DENHY 122 Clinical Dental Hygiene	2	9	144	3	10.5	168
DENHY 230 Advanced Clinical Dental Hygiene 1	4	17.44	279	4	14	224
DENHY 231 Advanced Clinical Dental Hygiene2	4	19.125	306	4	16	256
Totals			**837**			**840**

b. The DHBC acknowledges the redistribution of hours. However, currently in practice there is a total of:

   1. Only 11 hours of scheduled direct patient care hours per week, and the "clinical assistant" rotation in each session results in further reduced direct patient care hours to only eight- and one-quarter (8.25) hours per week for four (4) students in the DH II Fall Student Clinical Schedule.

   2. Only 13 hours of scheduled direct patient care hours per week, and the "clinical assistant" rotation in each session results in further reduced direct patient care hours to only nine- and three-quarter (9.75) hours per week for four (4) students in the DH II Spring Clinical Schedule.

   3. Only eight- and one-quarter (8.25) hours of scheduled direct patient care hours per week, and the "clinical assistant" rotation in each session results in further reduced direct patient care hours to only five- and one-half (5.5) hours per week for three (3) students in the DH I Spring Clinical Schedule.

4. Regarding "point four" above, the Board appreciates the following changes to the clinical schedules by DVC:

   a. Extending the scaling portion of the test-case to two (2) hours.

   b. Specifying the amount a time students have for health history and probing to ensure adequate time for scaling (there is currently no specified time).

   c. Adding a typodont test case to DENHY122B to familiarize students with the test-case process.

   d. Extending the time patients are dismissed by 15 minutes in each clinic session which will result in an additional 45 minutes of direct patient care each week in DENHY122B and an additional hour each week in DENHY230B and DENHY231B.

However, the Board is concerned the time devoted to a "clinical assistant" was not addressed and if DVC still schedules this duty, some students will still be short on weekly direct patient care hours.

5. Regarding "point five" above, BPC section 1941(a) states *(emphasis added):*

   "The dental hygiene board **shall** grant or **renew** approval of only those educational programs for RDHs that **continuously maintain a high-quality standard of instruction and,** where appropriate, **meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association** or an equivalent body, as determined by the dental hygiene board."

   Second, BPC section 1941.5 states *(emphasis added):*

   "(a) **The dental hygiene board shall renew approval of educational programs for a registered dental hygienist,** a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions that certify to the dental hygiene board on a form prescribed by the dental hygiene board **that the program continues to meet the requirements prescribed by the dental hygiene board.**

   (b) **The dental hygiene board may conduct periodic surveys, evaluations, and announced and unannounced site visits to existing and new educational programs for a registered dental hygienist,** a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions **to ensure continued compliance of educational program requirements and Commission on Dental Accreditation standards for continued approval.**

   (c) **An existing** or new **educational program for a registered dental hygienist,** a registered dental hygienist in alternative practice, or a registered dental hygienist in extended **functions that is found to be noncompliant with the educational program requirements and Commission on Dental Accreditation standards** may be placed on probation with terms, issued a citation and fine, or have its approval withdrawn if compliance is not met within reasonable specified timelines.

   (d) **The dental hygiene board, or through an authorized representative, may issue a citation containing fines and orders of abatement for any approved educational program for a registered dental hygienist,** a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions **for any violation of this section or the regulations adopted pursuant to this section."**

Third, 16 CCR section 1104(b) states *(emphasis added):*

"The Dental Hygiene Board shall review the approval of all approved educational programs in accordance with accreditation renewal standards set by the Commission on Dental Accreditation of the American Dental Association (CODA), or an equivalent accrediting body, as determined by the Dental Hygiene Board. In the event that an equivalent body has not been established by the Dental Hygiene Board, the standards shall be set by CODA.

Fourth, 16 CCR section 1104.3(a) states *(emphasis added):*

"Program Reviews and Site Visits
A dental hygiene educational program for a registered dental hygienist, a registered dental hygienist in alternative practice, or a registered dental hygienist in extended functions (collectively DHEPs) shall provide access during business hours to the DHEP's records and premises to the Dental Hygiene Board of California (Board) or its authorized representative(s) **to review the DHEP for compliance with all laws, regulations, and standards applicable to a DHEP including, but not limited to, the Business and Professions Code, the California Code of Regulations (CCR), the Commission on Dental Accreditation Standards of the American Dental Association,** Occupational Safety and Health Administration, Health and Safety Code, Centers for Disease Control and Prevention, and the Health Insurance Portability and Accountability Act (HIPAA). For the purpose of this subdivision, "records" shall include, but are not limited to, course records, student records, faculty and staff records, and patient records."

Fifth, 16 CCR section 1104.3(b)(2) states *(emphasis added):*

"**If the Board or its authorized representative *determines* that a DHEP is in violation of any law, regulation, or standard applicable to a DHEP**, the DHEP shall correct the violation(s) within the amount of time specified in the order. The DHEP shall furnish the Board written proof of compliance with the order and shall permit a site visit by the Board's authorized representative to confirm compliance."

Therefore, as to your question "*We would like clarification from the Board on the ability of the Board to determine CODA Standards.*" please refer to the above cited BPC sections 1941(a) and 1941.5, and 16 CCR sections 1104(b), 1104.3(a), and especially 1104.3(b)(2).

The Full Board will be in receipt of this report at the March 2026, Education Committee and Full Board meetings. DVC may pose any additional questions to them at that time.

6. Regarding point six" above, Former Board Member Moultrie is correct that "as determined by the dental hygiene board" in BPC section 1941(a) was not intended to authorize the Board to determine whether a Dental Hygiene program meets CODA accreditation standards, but to authorize the board to determine if another accrediting body is equivalent to CODA."

   The reference cited provides that (emphasis added) "The dental hygiene board **shall** grant or **renew** approval of only those educational programs for RDHs that **continuously maintain a high-quality standard of instruction and,** where appropriate, **meet the minimum standards set by the Commission on Dental Accreditation of the American Dental Association** or an equivalent body, as determined by the dental hygiene board."

H. DVC Response on January 23, 2026:

1. DVC states:

   "Diablo Valley College is committed to providing our students with high quality education. We recognize that robust clinical instruction and direct patient care experiences are essential for student to obtain competency and meet professional standards.

   This violation references the Intent of CODA Standard 2-10 which recommends but does not require a minimum of eight direct patient care hours per week when students begin seeing patients in the first year, and 12 hours during the second year.

   A schedule where students would begin seeing patients half way through the second semester of the first year with two four-hour sessions of direct patient care, and three four-hour sessions of direct patient care in each semester of the senior year would follow the recommendation in question. This would equate to 448 hours of direct patient care over 40 weeks with 112 patient care experiences, eliminating the clinic assistant rotation.

   •Spring Junior Year: (4 hours/week x 8 weeks) = 64 hours
   •Fall Senior Year: (12 hours/week x 16 weeks = 192 hours
   •Spring Senior Year: (12 hours/week x 16 weeks = 192 hours

   We do not believe this would be in the best interest students or the public we serve. We have found that addressing direct patient care hours from a holistic perspective rather than a focus on weekly hours provides our students with more direct patient care hours and promotes greater skill competence through distributed practice. According to Dr. Petty's calculations which excludes our clinic assistant rotation and time for documentation, an essential component of the ADHA Dental Hygiene

Process of Care, our students provide 481 hours of direct patient care over 48 weeks with 164 direct patient care experiences.

- Spring Junior Year: (8.25 hours/week x 16 weeks)-(2.75 hours/ session x 4 CA sessions) = 121 hours
- Fall Senior Year: (11 hours/week x 16 weeks)-(2.75 hours/ session x 4 CA sessions) = 165 hours
- Spring Senior Year: (13 hours/week x 16 weeks)-(3.25 hours/ session x 4 CA sessions) = 195 hours

This schedule provides 33 more direct patient care hours, 52 more direct patient care experiences, and allows students the opportunity for 3-4 clinic assistant rotations each semester."

2. DVC states:

"The letter from Dr. Petty dated December 24, 2025, notes concern of time devoted to a "clinic assistant". We feel very strongly the clinic assistant rotation is paramount to protection of the public, ensuring ongoing student competence in critical infection control procedures. BPC Section 1902.1 states protection of the public shall be the highest priority for the dental hygiene board in exercising it licensing, regulatory and disciplinary functions. Whenever the protection of the public is inconsistent with other interests sought to be promoted, the protection of the public shall be paramount."

3. DVC states:

"We believe that the evidence we presented demonstrates that the DVC Dental Hygiene Program provides sufficient direct patient care experiences for students to attain clinical competency while prioritizing the protection of the public. We respectfully request Board Member review of this evidence at the next Board meeting if you remain unable to determine compliance."

4. DVC states:

"It is important to note a non-substantive error in the DHBCs reporting of the facts for Violation 1, Issue 3: Junior Spring Student Clinical Direct Patient Care Hours.

DHBC stated:

1. Site Visit: Schedule in practice: Morning Clinic is scheduled from 8:30am – 11:35am with direct patient care hours of 8:30am – 11:00am on Tuesdays and Thursdays, resulting in only two- and three-quarter (2.75) hours of direct patient care per session.

2. Afternoon Clinic is scheduled from 1:00pm – 4:00pm with direct patient care hours of 1:00pm – 3:30pm on Tuesdays and Thursdays, resulting in only two- and three-quarter (2.75) hours of direct patient care hours per session.

Our Senior clinic runs on Tuesdays and Thursdays. Our Junior Clinic is scheduled on Wednesdays and Fridays from 8:30-11:45 am and Wednesdays for 1:00-4:15 pm as provided in our CODA Self Study."

I. DHBC Review of Response on January 23, 2026:

1. Regarding "point one" above, DHBC acknowledges the "Intent" of CODA Standard 2-10 which "recommends" but does not require a minimum of eight direct patient care hours per week when students begin seeing patients in the first year, and 12 hours during the second year. However, in each session for Junior students, direct patient care hours results in only five- and one-half (5.5) hours per week for students assigned to the "clinical assistant" rotation, and in each session for Senior students, direct patient care hours results in only eight- and one-quarter (8.25) and nine- and three-quarter (9.75) hours per week for students assigned to the "clinical assistant" rotation. Therefore, there is a *significant decrease* to direct patient care hours under the "recommended" minimum for direct patient care hours of eight (8) hours for Junior students and 12 hours for Senior students.

2. Regarding "point two" above, DHBC acknowledges the importance of a "clinical assistant" rotation and does not advocate for eliminating this rotation. However, if DVC does not increase weekly direct patient care hours to accommodate for the "clinical assistant" rotation, students will still be significantly short on weekly "recommended" direct patient care hours, which is crucial to developing student competency in patient care.

   Additionally, the requested information was not provided on January 23, 2026:

   a. **Evidence shall include, but not limited to:**

      1. Detailed daily clinic schedules to include start times, patient intake and dismissal times, and clinic end times by **January 23, 2026.**

      2. Clinical student rotation schedules for Spring 2026 by **January 23, 2026.**

3. Regarding "point three" above, The Full Board will be in receipt of this report at the March 2026, Education Committee and Full Board meetings. DVC may pose any additional questions to them at that time.

4. Regarding "point four" above, DHBC acknowledges the error and has corrected the error in the report.

J. DVC Response on February 25, 2026:

1. DVC states:

1. Daily Clinic Schedules:

DENHY122B Spring 2026

Session	Clinic Entry	Clinic Start Time Patients Seated	Patients out Instruments in
Wed AM 8:30 - 11:45 am	8:15 am	8:30 am	11:15 am
Wed PM 1:00 - 4:15pm	1:00 pm	1:00 pm	3:45 pm
Fri AM 8:30 - 11:45 am	8:20 am	8:30 am	11:15 am

DENHY231B Spring 2026

Session	Clinic Entry	Clinic Start Time Patients Seated	Patients out Instruments in
T TH AM 8:00 - 11:50 am	7:45 am	8:00 am	11:35 am
TTH PM 1:00 - 4:50 pm	12:45 pm	1:00 pm	4:35 pm

2. DVC stated:
Clinic Student Rotations Schedules are typically created by the clinic coordinators at the beginning of each semester. We will not have the Fall 2026 schedule till mid to late August.

3. DVC provided "Student Rotation Schedule for Spring 2026" as "Exhibit A."

K. DHBC Review of Response on February 25, 2026:

1. DVC's Daily Clinic Schedules, currently in practice:

a. For DENHY 122B (Spring 2026) there are eight- and one-quarter (8.25) hours of scheduled "direct patient care" hours per week (2.75 hours three (3) times per week). However, the "clinical assistant" rotation in each session results in reduced direct patient care hours to only five- and one-half (5.5) hours per week for two (2) students.

b. For DENHY 231B (Spring 2026) there are 14.32 hours of scheduled "direct patient care" hours per week (3.58 hours four (4) times per week). However, the "clinical assistant" rotation in each session results in

reduced direct patient care hours to only 10.74 hours per week for one (1) student.

2. Again, the DHBC acknowledges the "Intent" of CODA Standard 2-10 which "recommends" but does not require a minimum of eight "direct patient care" hours per week when students begin seeing patients in the first year, and 12 hours during the second year. However, in each session for first year students, "direct patient care" hours results in only five- and one-half (5.5) hours per week for students assigned to the "clinical assistant" rotation, and in each session for second year students, "direct patient care" hours results in only 10.74 hours per week for students assigned to the "clinical assistant" rotation. Therefore, there is a decrease to direct patient care hours under the "recommended" minimum for "direct patient care" hours of eight (8) hours for first year students and 12 hours for second year students.

3. "Direct patient care" is defined as "Hands-on care provided to patients involving direct interaction and immediate physical or emotional support, as opposed to "indirect patient care" defined as "Care activities that support patient care but do not involve direct patient interaction, such as documentation and coordination." (https://calledges.com/nursing/direct-patient-care-vs-indirect-patient-care).

L. DHBC Determination:

1. **The Board was unable to confirm compliance for Violation 1 on October 31, 2025, December 19, 2025, or January 23, 2026.**

2. **Not in compliance on February 25, 2026.**

3. DVC shall provide and provide evidence of required student clinical direct patient care hours pursuant to BPC Section 1941(a), 16 CCR Section 1105.2(d), and CODA Standards 2-10 and 3-11 **by March 26, 2026.**

   a. Evidence shall include, but not limited to:

      1. Detailed daily clinic schedules to include start times, patient intake and dismissal times, and clinic end times by **March 26, 2026.**

      2. Clinical student rotation schedules for Spring 2026 by **March 26, 2026.**

II. Violation 2: Program Director Assignment Compliance

[BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4.]

A. Program Director Assignment Violation:

1. Self Study:

   a. ***Issue:*** Program director is on a ten-month contract working 40 hours each week. (Self Study narrative page 97)

      1. Program instruction consists of two (2) fall terms, two (2) spring terms, and two (2) summer terms. (Self Study narrative page 97)

   b. ***Effect:*** Program director unavailable and does not provide oversite of the program during the summer term.

B. DVC Response on October 31, 2025:

1. DVC states:

   "Per CODA Standard 3-2 and 16 CCR Section 1105.1(a), the program director must hold a full-time appointment as defined by the institution. At Diablo Valley College, a 10-month, contract constitutes a full-time assignment as defined by district policy and contractual agreement. In addition, program directors at DVC are automatically assigned as the chairperson of their department. This is considered a reassignment position that is commensurate with the department chairperson load. Among the thirty duties and responsibilities listed in the Collective Bargaining Agreement between Contra Costa Community College District and United Faculty, there is one, in particular, that speaks to the program director/department chairperson's availability.

   Article 6 of the UF contract states that the department chair shall:
   Be regularly available to colleagues and answer departmental inquiries and attempt to resolve complaints and grievances on a department level in a timely manner. Be available or designate a colleague to respond to urgent communications during breaks. (6.2.3.2.3)"

2. DVC states:

   "Consequently, the program director is contracted to fulfill their duties and responsibilities during breaks that fall outside of their faculty teaching contract. Furthermore, the program director's administrative responsibilities related to summer courses are completed during the Fall and Spring terms.

DVC Dental Programs Bylaws ratified 3-31-2025 state: The Director of Dental Hygiene must have the authority and responsibility as outlined in 16 CCR § 1105.1 (a) and CODA Dental Hygiene Standard 3-2 through 3-4.
The program remains in compliance with BPC 1941(a) and CODA Standards 3-2 and 3-4.

- The director holds a full-time appointment as defined by the institution.
- Oversight, supervision, and evaluation responsibilities are fulfilled during the contractual period.
- Instructional quality and compliance are continuous across all academic terms and breaks.

Please see Exhibit A Article 6 of the Collective Bargaining Agreement between 4CD and UF"

C. DHBC Review of Response on October 31, 2025:

1. Regarding "point one" provided by DVC above: The Board acknowledges the "full-time appointment" is defined by the institution. Additionally, the Board acknowledges DVC equates the "dental hygiene program director" position with "department chairperson." However, the Board has two concerns:

   a. First, the "term" for the department chairperson is defined in "6.2.3.1 Elections/Term" on page 13 of the "2024-2027 Collective Bargaining Agreement between Contra Costa Community College District and United Faculty" as *(emphasis added):* ***Department chairpersons shall be elected for two (2) year terms*** from and by the regular and contract employees of the department. Such chairpersons may be recalled by two-thirds (2/3) vote of the same constituency.

      1. As department chairpersons are "elected" by their "constituency," the Board questions as to how "*program directors at DVC are* ***automatically assigned*** *as the chairperson of their department. This is considered a reassignment position that is commensurate with the department chairperson load.*" Additionally, the Board is unclear as to what happens to the assignment 1) when the two years are up, and 2) if the chairperson is recalled.

   b. Second, as the "summer" term is not a "break," the Board is unclear as to how 6.2.3.2.3 applies as that section clearly references "breaks."

2. Regarding "point two" provided by DVC above, the Board is unclear as to how the "program director is contracted to fulfill their duties and responsibilities during breaks that fall outside of their faculty teaching contract"

a. First, the Board maintains "summer" is not a "break" as there are classes provided for the DVC students during that term.

b. Second, the Board is unsure as to how "Oversight, supervision, and evaluation responsibilities are fulfilled during the contractual period." when the DHEP has courses that are provided and require direct oversite and supervision during the summer term.

c. Third, the Board is concerned as DVC provides education in infection control, including the use of the sterilization facility, thereby exposing students to potentially hazardous materials (e.g., sharps and disinfection chemicals) while present in the clinic.

D. DVC Response on February 25, 2026:

1. DVC states:

"It is important to note an error in the DHBCs reporting of the facts in this violation. DHBC states:

1. Self Study:

a. Issue: Program director is on a ten-month contract working 40 hours each week. (Self Study narrative page 97)

The statement on page 92 of the Fall 2025 CODA Self Study is in reference to our Program Coordinator. This is the title given to our full-time support staff. Information concerning the Program Director is provided in the Fall 2025 CODA Self Study on pages 82-86."

2. DVC states:

"1.a. We understand your concern with the 6.2.3.1 Elections/Term of the 2024-2027 Collective Bargaining Agreement between Contra Costa Community College District and United Faculty, though this has no bearing on the alleged violation. Our Administration and United Faculty recognize that programs may have special circumstances not explicitly addressed in the Collective Bargaining Agreement. Articles 6.2.1 and 6.2.2 state department faculty procedures, consistent with division procedures, shall be determined by the faculty members within them. These procedures establish a mechanism for addressing such special circumstances. The role of Program Director is a special circumstance not addressed in the Collective Bargaining Agreement; therefore, it determined by the dental hygiene faculty and documented in Article V of our Department Bylaws. These Bylaws do not include the election process described in Article 6.2.3.1; instead, they specify that Program Directors are hired into their positions through the DVC interview and selection process.

ARTICLE V:
Program Director-The Dental Assisting and Dental Hygiene Program Directors will be full-time faculty and serve as co-chairs for the department coordinating department business as outlined in Article 6.2.3.2 of the 4CD and UF Collective Bargaining Agreement. The Department Chair reassigned time as outlined in Article 11 of the 4CD and UF Collective Bargaining Agreement will be split 50% to the Director of Dental Assisting and 50% to the Director of Dental Hygiene. The Director of Dental Hygiene will receive an additional .50 (50%) of a full load as required by 16 CCR § 1105.1 and CODA Dental Hygiene Standard 3-2. The Director of Dental Assisting must have the authority and responsibility as outlined in 16 CCR § 1070.2(d)(3)(B) and CODA Dental Assisting Standard 3-2. The Director of Dental Hygiene must have the authority and responsibility as outlined in 16 CCR § 1105.1 (a) and CODA Dental Hygiene Standard 3-2 through 3-4. The Program Directors will be hired into their positions through the DVC interview process."

3. DVC states:

   "1.b. The 2024-2027 Collective Bargaining Agreement between Contra Costa Community College District and United Faculty recognizes summer as a break. Article 10 outlines the contractual agreement as 175 service days as specified within the Academic Calendar, Fall and Spring. Article 20.3.8 lists employment in the summer session as an Extra Service assignment not included in regular load. The 2024-2027 Collective Bargaining Agreement between Contra Costa Community College District and United Faculty can be found at https://www.uf4cd.org/.
   The 2025-2026 Academic Calendar is provided as Exhibit B.

   Please note that the Extra Service assignments addressed in Article 20.3.8 are related to instructional assignments, not administrative assignments. The Dental Hygiene Program Director ongoing administrative, regulatory, and compliance responsibilities are supported through reassigned time rather than tied exclusively to classroom instruction or the instructional calendar.

   2.a. Please see evidence above establishing the recognition of Summer as a break."

4. DVC states:
   "Program Director oversite, supervision, and evaluation responsibilities of summer course fulfilled during the contractual period are as follows:
   • Course, faculty, and facility schedules are submitted to administration
   • Instrument and supply kits are approved and purchased
   • SLO Assessments are assigned to faculty
   • End of Course Surveys are created and provided to faculty
   • The BLS course for students is scheduled

- Faculty license, BLS, and professional development requirements are verified."

5. DVC states:

   "2.c. We are well aware that the dental hygiene profession requires exposure to potentially hazardous materials, and we recognize the importance of ongoing infection control education and experiences to avoid exposure incidence. We intentionally schedule our Infection Control course at the beginning of our program to mitigate the potential for exposure in subsequent clinical courses. Our program has procedures in place that address the handling of hazardous materials which are included in the curriculum of the Infection Control course. These procedures can be found in the Fall 2025 CODA Self Study Standard 5 Exhibits. Marlene Storz is the lead instructor for our Infection Control course. She is a full-time faculty Certified in Dental Infection Prevention and Control (CDIPC) from the Association for Dental Safety (ADS), making her a subject matter expert on the topic."

E. DHBC Review of Response on February 25, 2026:

1. Regarding "point one" provided by DVC above, DHBC acknowledges the error of referencing page 97 of the self study. The correct reference of a ten-month contract was found in "Exhibit 30 - Program Director 2024-2025 Reassignment Agreement and Contract Load Reports" of the items requested by the DHBC which states the program director has a "Full-Time Faculty, 9-10 Month Contract."

2. Regarding "point two" provided by DVC above, DHBC acknowledges the "2024-2027 Collective Bargaining Agreement between Contra Costa Community College District and United Faculty."

3. Regarding "point three" provided by DVC above:

   a. DVC erroneously referred to "Employment for Extra Service" as "Article 20.3.1.8." The correct reference is "Article 20.3.8" of the "2024-2027 Collective Bargaining Agreement between Contra Costa Community College District and United Faculty."

   b. "Article 20.3.1.8" states (in part) "A contract or regular faculty member may be employed without further approval of the Board for service in the extended day, summer session and special programs or for day program assignments in addition to his/her regular load."

      1. Therefore, the DHBC interprets summer as a separate "session" and not as a "break," as a contract or regular faculty member may be assigned to a summer session.

c. The DHBC acknowledges "Extra Service assignments addressed in "Article 20.3.1.8" are related to instructional assignments and not administrative assignments. Additionally, the Board notes "The Dental Hygiene Program Director ongoing administrative, regulatory, and compliance responsibilities are supported through reassigned time rather than tied exclusively to classroom instruction or the instructional calendar."

    1. Therefore, when the DVC DHEP has courses that are provided and require direct oversite and supervision during the summer session, DVC shall provide "reassigned time" to the program director during the summer session.

4. Regarding "point four" provided by DVC above, again (as addressed in "point two" of the "DHBC Review of Response on October 31, 2025") the DHBC is unsure as to how "Program Director oversite, supervision, and evaluation responsibilities of summer course fulfilled during the contractual period" when the DHEP has courses that are provided and require direct oversite and supervision during the summer session.

    1. Therefore, when the DVC DHEP has courses that are provided and require direct program director oversite and supervision during the summer session, DVC shall provide "reassigned time" to the program director during the summer session.

5. Regarding "point five" provided by DVC above, the DHBC acknowledges Ms. Storz's expertise. However, when the DVC DHEP has courses that are provided and require direct program director oversite and supervision during the summer session, DVC shall provide "reassigned time" to the program director during the summer session.

F. DHBC Determination:

1. **Not in compliance.**

2. DVC is in violation of BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4 as the program director should have a summer assignment to oversee the courses provided to DVC students during the summer term.

3. DVC shall provide evidence of dental hygiene program director responsibilities pursuant to BPC Section 1941(a), 16 CCR Section 1105(j), 16 CCR Section 1105.1(a), and CODA Standards 3-2 and 3-4 **by June 1, 2026.**

III. Violation 3: Health Insurance Portability and Accountability Act of 1996 (HIPAA) Compliance

[BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c))]

A. Patient Privacy Rights Violation:

1. Site Visit:

   a. ***Issue 1:*** Students have confidential patient data and radiographs ("x-rays") displayed on computer monitors without physical safeguards.

      1. ***Effect:*** Patient confidential data able to be viewed by the public, thereby violating patient privacy rights.

   b. ***Issue 2:*** Chartroom/front desk door left open (top of door open and bottom door unlatched) and unsecure when staff/students not present.

      1. ***Effect:*** Patient confidential charts able to be accessed by the public, thereby violating patient privacy rights.

B. DVC Response on October 31, 2025:

1. DVC States:

   "Privacy screens for all monitors have been purchased and installed. Documentation of compliance is provided in Exhibit B: Photographs of Privacy Screens.

   We have added the use of privacy screens to the DVC HIPAA Compliance Protocols and reviewed this document with all faculty, staff and students. Please see Exhibit C: DVC HIPAA Compliance Protocols."

C. DVC Response on December 5, 2025:

1. DVC states:

   "Our HIPPA Compliance Protocols have been updated, reviewed with all students, made available to all students, faculty and staff through our department TEAMS site, and will be included in the 2026 edition of our Student Handbook. A confidentiality agreement has also been created and signed by students. The HIPPA Compliance Protocols will be reviewed faculty at our December 15 Dental Hygiene Program meeting and signed confidentiality agreements will be collected at that time."

2. DVC Provided:

   a. Exhibit A: DVC HIPAA Compliance Protocols.
   b. Exhibit B: Student Confidentiality Agreement.
   c. Exhibit C: Faculty and Staff Confidentiality Agreement.

D. DHBC Determination:

1. **Violation 3, Issue 1: In compliance on October 31, 2025.**

2. **Violation 3, Issue 2: Not addressed on October 31, 2025.**
   In compliance on December 5, 2025.

3. DVC shall continue to provide patient privacy protection safeguards pursuant to BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(C), CODA Standards 4-1 and 6-5, Health and Safety Code (HSC) Division 109 Section 130203 (a), and the HIPAA Act of 1996 Public Law 104-191 (45 Code of Federal Regulations (CFR) Sections 160, 162, and 164 esp. 164.530(c)).

IV. Violation 4: Student Supervision

[BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5 and 3-10]

A. Student Supervision in Sterilization Area Violation:

1. Site Visit:

   a. ***Issue:*** Student observed in sterilization area unsupervised by faculty.

   b. ***Effect:*** Exposure of unsupervised, unlicensed student to potential hazards, thereby compromising the required safe environment for the provision of instruction.

B. DVC Response on October 31, 2025:

1. DVC states:

   "All students earn a DBC approved Certificate in Infection Control during their Summer Course prior to Fall of their first year. The clinic assistant is assigned to a faculty member as one of their five students. The faculty member rotates through the sterilization area periodically throughout the clinic session just as they rotate through students providing patient care. Documentation showing faculty supervision of the Clinic Assistant is provided in Exhibit D: Clinic Rotation Schedules."

C. DHBC Review of Response by DVC on October 31, 2025:

1. The Board acknowledges DVC scheduling dentist supervision of the clinic assistant during the clinic session. However, the Board is unclear as to supervision of sterilization area after the dentist is no longer on the clinic floor.

D. DVC Response on December 5, 2025:

1. DVC states:

   "Students are not permitted in the clinic without faculty supervision, and the Clinic Assistant Rotation does not require students to be in the sterilization area outside of scheduled clinic time. All faculty are contracted to complete student/office hours outside of schedule class time, and clinic faculty complete those hours in the clinic facility. Each scheduled clinic session has clinical faculty scheduled for student/office hours at least 15 minutes before and 30 minutes after clinic time to provide assistance and supervision in the clinic for students if needed. We do not allow students to see patients during student/office hours."

2. DVC Provided:

   a. Exhibit D: Faculty Student/Office Hours.

E. DHBC Determination:

1. **The Board was unable to confirm compliance on October 31, 2025.**

2. **In compliance on December 5, 2025.**

3. DVC shall continue to provide student supervision in sterilization area pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), 16 CCR Section 1105(k), and CODA Standards 2-5 and 3-10.

V. Violation 5: Infection Control Compliance

[BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(D)(xii), 16 CCR Section 1005, CODA Standard 4-1, 8 CCR Section 5193, CDC Summary of Infection Prevention Practices in Dental Settings: Basic Expectations for Safe Care – 2024, CDC Guideline for Isolation Precautions: Preventing Transmission of Infectious Agents in Healthcare Settings – 2007, and CDC Guidelines for Infection Control in Dental Health-Care Settings – 2003]

A. Clinic Aerosol Exposure to General Public Violation

1. Site Visit:

   a. ***Issue:*** Rear clinic door propped open and unsecured to the outer school hallway (observed multiple times after being closed multiple times.)

   b. ***Effect:*** DVC students and general public exposed to clinic-generated contaminated aerosols.

B. DVC Response on October 31, 2025:

1. DVC states:

   "A sign has been placed on the inside door stating the door is to remain closed and locked at all times. Faculty, students, and staff have been informed of the policy. Documentation of compliance is provided in Exhibit E: Photographs of Side Door Signage."

C. DHBC Determination

1. **In compliance on October 31, 2025.**

2. DVC shall continue to provide infection control compliance pursuant to BPC Section 1941(a), 16 CCR Section 1105.2(d)(3)(D)(xii), 16 CCR Section 1005, CODA Standard 4-1, 8 CCR Section 5193, CDC Summary of Infection Prevention Practices in Dental Settings: Basic Expectations for Safe Care – 2024, CDC Guideline for Isolation Precautions: Preventing Transmission of Infectious Agents in Healthcare Settings – 2007, and CDC Guidelines for Infection Control in Dental Health-Care Settings – 2003.

VI. Violation 6: Student Resources

[BPC Section 1941(a), 16 CCR Section 1105(i), CODA Standards 2-5, and 4-1, and Education Code (EDU), Title 2, Section 49011(b)(1)]

A. Violation 6, Issue 1: Student Supplies

1. Students required to provide their own personal protective equipment (e.g., gloves, masks, and gowns).

2. ***Effect:*** Poses a significant cost incurrence to students and prohibited by law.

B. Violation 6, Issue 2: "Mini Clinic" Resources

1. "Mini clinic" supplies:

   a. No "sharps" containers present in each operatory for proper disposal of disposable sharp instruments (e.g., used needles, etc.).

   b. No monitors to display radiographs during patient care.

2. ***Effect:*** Students are not provided necessary clinic supplies to ensure proper care of the patient, as well as compromising the safety of the student.

C. DVC Response on October 31, 2025:

1. For Violation 6, Issue 1 DVC states:

   "The full context of EDC section 49011(b)(1) includes (4)(e) which states: This article is declarative of existing law and shall not be interpreted to prohibit the imposition of a fee, deposit, or other charge otherwise allowed by law.

   Authorizing Statute and/or Regulation: Instructional Materials Fees
   Education Code, sections 76365, 81458
   Title 5, sections 59400, 59402, 59404, 59406, and 59408

   Background
   Districts have authority to require students to provide various types of instructional materials. The governing board of a district may require students to provide instructional materials required for a credit or noncredit course, provided that such materials are tangible personal property, owned and controlled by student, and of continued value to a student outside of the classroom setting (e.g., textbooks, tools, equipment, clothing, and materials necessary for a student's vocational training and employment).

   Districts may not require students to provide instructional materials that are solely or exclusively available from the district, unless they are provided at the district's actual cost and: (1) the material is otherwise generally available but there are health and safety reasons for the district being the provider, or (2) the material is provided in lieu of other generally available but more expensive materials that would otherwise be required.
   Required instructional materials shall not include materials used or designed primarily for administrative purposes, class management, course management, or supervision.

   (Pg 26 of the State Chancellors Office of Instructional Support and Success, updated 4-17-2024)"

2. For Violation 6, Issue 2 DVC states:

   "Sharps containers have been purchased for the 'Mini Clinic". Documentation of compliance is provided in Exhibit F: Photographs of Sharps Containers in the "Mini Clinic"."

D. DHBC Review of Response on October 31, 2025:

1. The Board acknowledges the full context of 2 EDC section 49011 includes subsection (e) which states: This article is declarative of existing law and shall not be interpreted to prohibit the imposition of a fee, deposit, or other charge otherwise allowed by law. However, as DVC points out above in their response, the "Background" section states *(emphasis added):*

   "Districts have authority to require students to provide various types of instructional materials. The governing board of a district may require students to provide instructional materials required for a credit or noncredit course, ***provided that such materials are tangible personal property, owned and controlled by student, and of continued value to a student outside of the classroom setting (e.g., textbooks, tools, equipment, clothing, and materials necessary for a student's vocational training and employment)***."

   The Board maintains personal protective equipment (PPE)(e.g., gloves, masks, and gowns) are not "tangible personal property, owned and controlled by student, and of continued value to a student outside of the classroom setting." ***PPE is disposable equipment*** and once it is used and disposed of after the treatment of patients, it is no longer "tangible personal property," nor does it hold a "continued value."

E. DVC Response on December 5, 2025:

1. DVC states:

   "Given that the cited issue pertains to legislation established by the Board of Governors of the California Community Colleges and codified in the Education Code, additional time is needed to adequately research the applicable provisions and prepare a complete response. We respectfully request that this matter be placed on the agenda for the next DHBC Board meeting. A written response will be submitted no later than 10 days prior to that meeting."

F. DHBC Review of Response on December 5, 2025:

1. The Board will extend the deadline to research "Violation 6, Issue 1: Student Supplies" until **February 27, 2026.** At this time there is no causation for Board review or action.

G. DVC Response on January 23, 2026:

1. DVC States:

   "The California Community College Chancellor's office confirmed that any disposable item such as gloves, masks or gowns would not be of lasting value to the student outside the classroom setting, and thus, they should be provided by the college/district. However, if the gown is reusable/washable and could be usable in the student's future employment, then it can be considered an allowable student expense. Consistent with this guidance, Diablo Valley College has provided disposable gowns to students since Spring 2024 and will continue to provide all required disposable items for student use.

   It was also brought to our attention that, because this regulation falls under the California Education Code, the Dental Hygiene Board of California may impose this violation only if the requirement has been formally adopted and applies uniformly to all California dental hygiene programs, rather than solely to programs within the California Community College System."

H. DHBC Determination:

1. **For Violation 6, Issue 1: Not in compliance on October 31, 2025.**
   Not in compliance on December 5, 2025.
   In compliance on January 23, 2026.

2. **For Violation 6, Issue 2: In compliance on October 31, 2025.**

3. DVC shall continue to provide student resources pursuant to BPC Section 1941(a), 16 CCR Section 1105(i), CODA Standards 2-5, and 4-1, and Education Code (EDU), Title 2, Section 49011(b)(1).

DVC shall provide evidence of compliance to the above violations **by the aforementioned dates.**

Pursuant to 16 CCR section 1104(b)(5), continuation of approval of all educational programs shall be contingent upon compliance with the requirements described in Title 16, Division 11, Article 3 of the CCR. As DVC is operating outside the structured parameters of California law and CODA Standards with these violations, DVC is therefore putting students, faculty, and the public at risk. ***Please note:*** 16 CCR

section 1104(e) states: "A material misrepresentation of fact by a new educational program or an approved educational program in any information required to be submitted to the Dental Hygiene Board is grounds for denial of approval or revocation of the program's approval."

The priority of the DHBC is consumer protection. To ensure consumer protection and the public's right to receive quality dental hygiene care, the DHBC has a responsibility to ensure that all dental hygiene educational programs within the state meet the same educational standards in preparing their graduates for the profession. Please remember that California law and the CODA Standards are the required ***minimum*** levels California DHEPs shall operate at to continue approval and may exceed those levels, as several programs do at their discretion. If you have any questions regarding this report, please feel free to contact me at adina.petty@dca.ca.gov.

Sincerely,

Dental Hygiene Board of California

Education Committee Agenda Item 7.

Discussion and Possible Action to Create a Dental Hygiene Educational Program Taskforce to Address Minimum Student Requirements.

MEMORANDUM

DATE	March 27, 2026
TO	Education Committee Dental Hygiene Board of California
FROM	Adina A. Pineschi-Petty DDS Education, Legislative, and Regulatory Specialist
SUBJECT	**EDU 7: Discussion and Possible Action to Create a Dental Hygiene Educational Program Taskforce to Address Minimum Student Requirements.**

BACKGROUND:

At the recommendation of the Dental Hygiene Board of California (Board), the California Legislature removed the requirement for graduates of California dental hygiene educational programs (DHEPs) to provide evidence of satisfactory performance of a clinical dental hygiene examination given by the Western Regional Examining Board or any other clinical or dental hygiene examination approved by the Board (Assembly Bill 1257, Chapter 677, Statutes of 2023), the Board was tasked with ensuring all graduates are competent in patient care and license ready at graduation.

During the many reviews of DHEP Commission on Dental Accreditation of the American Dental Association (CODA) self-studies (approximately 52 reviews) and Board site visits to the DHEPs (62 site visits), staff discovered several DHEPs who are not holding students accountable to student requirement standards established by CODA, as the intent of the CODA Standards are open to a program's interpretation. Although most DHEPs are following the Standards, there should be more prescriptive requirements established so there's no misinterpretation of what's required. Therefore, Board staff requests the Education Committee to recommend to the Board establishment of a "Minimum Student Requirement Taskforce" to review DHBC laws, regulations, and CODA Standards for potential amendments to regulations, thereby providing DHEPs with guidance as to the minimum requirements students are accountable for completing to ensure all graduates are competent in patient care and license ready at graduation.

STAFF RECOMMENDATION:

Board staff requests the Education Committee to recommend to the full Board to establish a "Minimum Student Requirement Taskforce" and vote two (2) members to the taskforce to review DHBC laws, regulations, and CODA Standards for potential amendments to regulations establishing minimum student requirements, thereby providing DHEPs with guidance as to the minimum requirements students shall be accountable for completing to ensure all graduates are competent in patient care and license ready at graduation.

The taskforce makeup shall be two Board members (preferably one educator and one public member) and three subject matter experts with DHEP knowledge to be vetted by the taskforce members.

Taskforce Member #1: _____

Taskforce Member #2: _____

PROPOSED MOTION LANGUAGE:

I move for the Education Committee to recommend to the full Board to establish a "Minimum Student Requirement Taskforce," accept _____ and _____ as taskforce members, allow the Board taskforce members to select subject matter experts to be appointed to the taskforce, and direct the taskforce to review DHBC laws, regulations, and CODA Standards for potential amendments to regulations establishing minimum student requirements to ensure all graduates are competent in patient care and license ready at graduation for recommendation to the full Board.

Processing Times

- A rulemaking file must be completed within one year of the publication date of the Notice of Proposed Action. The Office of Administrative Law (OAL) issues the Notice File Number upon filing the Notice of Proposed Action.
- The DCA is allowed thirty calendar days to review the rulemaking file prior to submission to the Department of Finance (DOF).
- The DOF is allowed thirty days to review the rulemaking file prior to submission to the OAL.
- The OAL is allowed thirty working days to review the file and determine whether to approve or disapprove it. The OAL issues the Regulatory Action Number upon submission of the rulemaking file for final review.
- Pursuant to Government Code section 11343.4, as amended by Section 2 of Chapter 295 of the Statutes of 2012 (SB 1099, Wright), regulation effective dates are as follows:

Date Filed with the Secretary of State	Effective Date
September 1st – November 30th	January 1st
December 1st – February 29th	April 1st
March 1st – May 31st	July 1st
June 1st – August 31st	October 1st

z) SB 1391 Wahab. Department of Consumer Affairs: retired category licenses.
aa) SB 1416 Wahab. Physicians and surgeons: dentists: unprofessional conduct.
bb) Tentative 2026 Legislative Calendar.

MEMORANDUM

DATE	March 27, 2026
TO	Legislation and Regulatory Committee Dental Hygiene Board of California
FROM	Adina A. Pineschi-Petty DDS Education, Legislative, and Regulatory Specialist
SUBJECT	**LEG REG 4: 2025-2026 Legislative Bills of Interest as of March 16, 2026**

2026 Legislation	Topic	Status	Recommended DHBC Position
2026 Bills of Primary Interest to the Board			
AB 1952 Berman **Sponsor(s):** California Dental Association	**Dentistry: dental hygienists: licensure.** This bill would **authorize the Dental Hygiene Board of California to license as a registered dental hygienist an applicant who has earned a degree from a nonaccredited dental school if that degree is equivalent to a doctor of dental surgery or doctor of dental medicine degree**, as specified. The bill would require, as a condition of licensure, an applicant to meet certain requirements, including, among other things, submission of verification of the above-described equivalence, as specified, satisfactory completion of specified examinations, and satisfactory completion of certain coursework, including, among other things, a 2-unit Dental Practice Act course approved by the Dental Board of California, within the 3 years preceding application.	2.13.26 Introduced. 3.2.26 Assembly Business and Professions.	Oppose unless amended.
AB 350 Bonta **Sponsors:** Children Now and California Dental Association	**Health care coverage: fluoride treatments.** Requires a health plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2026, to provide coverage for the application of fluoride varnish in the primary care setting for children under 21 years of age, without a deductible, co-insurance, copayment or other cost-sharing requirement for that coverage.	2 Year Bill. 9.10.25 Senate Inactive File. Will be acted upon later in the session per Assembly	DHBC position on 11.8.25 was "Support."

2026 Legislation	Topic	Status	Recommended DHBC Position
	Clarifies that Medi-Cal coverage of fluoride treatment is for children under 21 years of age rather than 17 years of age and specifies that this coverage includes the application of fluoride varnish in the primary care setting and expands which staff may apply the fluoride varnish, as specified	Member Bonta's office.	
AB 2140 Johnson **Sponsor(s):** No sponsor at this time.	**Healing arts: reports: claims against licensees**. Existing law makes failure of a licensee of the Medical Board of California, the Podiatric Medical Board of California, the Board of Psychology, the Dental Board of California, the **Dental Hygiene Board of California**, the Osteopathic Medical Board of California, the State Board of Chiropractic Examiners, the Board of Registered Nursing, the Board of Vocational Nursing and Psychiatric Technicians of the State of California, the State Board of Optometry, the Veterinary Medical Board, the Board of Behavioral Sciences, the Physical Therapy Board of California, the California State Board of Pharmacy, the Speech-Language Pathology and Audiology and Hearing Aid Dispensers Board, the California Board of Occupational Therapy, the Acupuncture Board, or the Physician Assistant Board, a claimant, or their counsel to report a settlement, judgment, or arbitration award over $3,000 of a claim or action for damages for death or personal injury caused by negligence, error or omission in practice, or by the unauthorized rendering of professional services, by a person who holds a license, certificate, or other similar authority from one of those boards, who does not possess professional liability insurance as to the claim, within 30 days to the agency that issued the license, certificate, or similar authority, punishable by a fine of not less than $50 or more than $500, as specified. **This bill would increase the minimum fine for a violation of that provision to $100.**	2.18.26 Introduced. 3.2.26 Assembly Business and Professions.	New. Support?

2026 Legislation	Topic	Status	Recommended DHBC Position
SB 1311 Wahab **Sponsor(s):** Author	**Dentistry: dental assistants: infection control course.** Existing law requires an unlicensed dental assistant not enrolled in a board-approved program for registered dental assisting or an alternative dental assisting program to complete an infection control certification course, as specified. In this regard, existing law allows the unlicensed dental assistant to complete a board-approved 8-hour course, with 6 hours being didactic instruction and 2 hours being laboratory instruction, as specified. **This bill would allow an unlicensed dental assistant to complete the Dental Assisting National Board's Infection Control examination instead of completing an infection control course. The bill would also revise the requirements** for those infection control courses to allow an unlicensed dental assistant to complete one of specified courses approved by the board or a course with at least **4 hours of didactic instruction and at least 2 hours of laboratory instruction using video or a series of video training tools**, as specified.	2.20.26 Introduced. 3.4.26 Senate Business, Professions and Economic Development.	New. Oppose unless amended.
SR 82 Pérez **Sponsor(s):** California Dental Association	**Relative to Children's Dental Health Month.** This measure would resolve that the Senate hereby recognizes and declares the month of February 2026 as Children's Dental Health Month in California	2.19.26 Introduced. 3.5.26 Passed in Senate. 3.6.26 Enrolled	New. Support.
2025-2026 Bills of Interest			
AB 371 Haney	**Dental coverage.** This bill would require the plan or insurer to pay a noncontracting dental provider directly for covered	2 Year Bill. 2.1.26 Died.	DHBC position on 11.8.25 was "Watch."

2026 Legislation	Topic	Status	Recommended DHBC Position
